Pages 4891-8762

XUM

This INDEX is a consolidation of contents entries appearing in this month's issue of the FEDERAL REGISTER. It will be published monthly, quarterly, and annually.

A GENERAL INDEX to the entire Code of Federal Regulations is available as of July 1, 1974.

Numerical Finding Aids. LIST OF CFR SECTIONS AFFECTED is published monthly and is cumulated each month, keyed to the revision dates of the various CFR volumes. A List of CFR Parts Affected by entries in this INDEX appears at the end of this INDEX, together with a table of FEDERAL REGISTER pages and dates.

All FEDERAL REGISTER publications are available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Wash. D.C. 20402.

Users and subscribers are invited to send their comments and suggestions to the Director, Office of the Federal Register, National Archives and Records Service, Wash. D.C. 20408.

TABLE OF CONTENTS

Subjects	iii
Agency entries	1
List of CFR Parts Affected	21
Federal Register Pages and Dates	25

The following is a general subject guide designed to lead users to agencies which published material during the period covered by this INDEX. Inquiries may be made to area code 202–523–5227.

SUBJECTS	AGENCIES IN THIS INDEX
Accidents	Federal Railroad Administration. General Services Administration.
Additives	Environmental Protection Agency. Food and Drug Administration.
Advertising	Alcohol, Tobacco, and Firearms Bureau. Civil Aeronautics Board. Federal Trade Commission. Securities and Exchange Commission.

INDEX

an invaluable reference tool

1974–75 Edition

This official guidebook provides **useful information** about U.S. Government agencies, **including:**

- Major programs and functions
- Listings of key officials
- Organization charts for many agencies

Most agency descriptions include a "Sources of Information" section that gives addresses and telephone numbers for obtaining specifics on employment, government contracts, environmental programs, small business opportunities, publications, speakers and films available to civic and educational groups, and other topics of public interest.

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

List of CFR Sections Affected

FEBRUARY 1975

Includes U.S.C.–C.F.R. Table of Authorities

Format and Coverage

This list is designed so that users can determine the changes that have occurred since the revision date of the Code books they are using. If you do not have *latest edition*, see instructions on page 2. Format and coverage for this February 1975 list is as follows:

Titles 1–16: Changes January 2 through February 28, 1975.
Titles 17–27: Changes April 1, 1974 through February 28, 1975.
Titles 28–41: Changes July 1, 1974 through February 28, 1975.
Titles 42–50: Changes October 1, 1974 through February 28, 1975.

CODE
XUM

LIST OF CFR SECTIONS AFFECTED

WHAT IT IS

The List of CFR Sections Affected is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. It should be shelved with current Code volumes. Entries indicate the nature of the changes. Certain terms used are defined in the glossary below. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The Code of Federal Regulations may be brought up to immediate date by the following steps:

1. Consult this List of CFR Sections Affected for any changes, deletions, or additions published after the revision date of the volume you are using.
2. Check the "Cumulative List of Parts Affected" appearing at the front of the latest issue of the Federal Register for changes published after the last date covered by this issue of the List of CFR Sections Affected.
3. If you do not have the *latest edition* of the Code of Federal Regulations, use the previous edition, and bring it up to date as follows:

Volumes Having Revision Date:	Refer to List of Sections Affected:
January 1, 1975 (Titles 1—16)	December 1974
April 1, 1974 (Titles 17—27)	March 1974
July 1, 1974 (Titles 28—41)	June 1974
October 1, 1974 (Titles 42—50)	September 1974

After checking List of CFR Sections Affected as indicated, follow steps 1 and 2 above.

For an explanation of the structure and numbering of the Code, see 1 CFR Part 21.

GLOSSARY

Amended—A typographical unit of the CFR was partially set forth.
Recodified—Major portions of CFR were restructured or rearranged, or both.
Redesignated—A typographical unit or larger was renumbered and transferred from one place to another place in the CFR with no change in text.
Removed—A typographical unit was removed from the CFR.
Revised—A typographical unit of the CFR was set forth in full.
Superseded—An existing CFR unit was replaced by regulations appearing under another CFR unit.
Suspended—The entire CFR unit was not in effect for the period of time indicated.
Suspended in part—A portion of the CFR unit was not in effect for the period of time indicated.
Technical amendment—General amendment that may have no substantive effect on regulations.

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

A table is included after Title 50. It contains references to the U.S. Code sections cited as authority for regulations added during the calendar year.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A finding aid is included at the end of this issue which identifies the inclusive page numbers in each Federal Register cited in this List of CFR Sections Affected.

INDEXES

An index to the daily Federal Register is published monthly, quarterly, and annually for the calendar year.

A General Index to the entire Code of Federal Regulations is available as of July 1, 1974.

INQUIRIES AND SUGGESTIONS

Inquiries concerning this and other publications of the office and suggestions for improvements will be welcomed by the Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to CFR Finding Aids Volume, Table 1; January and February 1975)

This table lists the sections of the U.S. Code which were added to the CFR Finding Aids Volume, Table I as a result of new citations of authority carried in the *Federal Register* from January through February 1975. Recent legislation not yet assigned within the U.S. Code is carried by public law number at the end of the list.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, users should consult the List of CFR Sections Affected, above.

List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statute citation. Subsequent lists appear each day in the FEDERAL REGISTER, and copies of the laws may be obtained from the U.S. Government Printing Office.

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

FEDERAL REGISTER PAGES AND DATES—FEBRUARY

Pages	*Date*
4891–5125	Feb. 3

Table of Effective Dates and Time Periods—February 1975

This table is for use in computing dates certain in connection with documents which are published in the FEDERAL REGISTER subject to advance notice requirements or which impose time limits on public response.

Federal Agencies using this table in calculating time requirements for submissions must allow sufficient extra time for FEDERAL REGISTER scheduling procedures.

In computing dates certain, the day after publication counts as one. All succeeding days are counted except that when a date certain falls on a weekend or holiday, it is moved forward to the next Federal business day. (See 1 CFR 18.17)

A new table will be published monthly in the first issue of each month.

Dates of F.R. publication	15 days after publication	30 days after publication	45 days after publication	60 days after publication	90 days after publication

presidential documents

Title 3—The President

PROCLAMATION 4344

International Clergy Week in the United States

By the President of the United States of America

A Proclamation

In a world plagued by violence and suffering, clergymen of all denominations help lead the human family to the "peace of God, which passeth all understanding." In a time of difficult choices and moral questioning, they point the way to the higher values of conduct.

As God's ministers on earth, practicing the human virtues of charity, humanity and compassion, they bring us closer to each other and nearer to our Creator.

NOW, THEREFORE, in recognition of the spiritual and special guidance of the clergy in our Country and throughout the world, I, GERALD R. FORD, President of the United States of America, do hereby proclaim the week of February 2, 1975, as International Clergy Week in the United States. I call upon our people to honor these servants of God and man through appropriate activities and ceremonies.

IN WITNESS WHEREOF, I have hereunto set my hand this thirtieth day of January in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

XUM V40-23 FEB 3 75 XUM

PROCLAMATION 4345

Amending Proclamation No. 4313 of September 16, 1974, to Extend the Application Period of the Program for the Return of Vietnam Era Draft Evaders and Military Deserters

By the President of the United States of America

A Proclamation

On September 16, 1974, I issued Proclamation No. 4313, announcing a program of earned return for those convicted and accused of violating certain provisions of the Selective Service Act or the Uniform Code of Military Justice during the Vietnam conflict.

Upon careful review of the progress of this program, I believe that many of those persons who could benefit from this program are only now learning of its application to their cases. Therefore, I am extending the date by which all applications must be received.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, pursuant to my powers under Article II of the Constitution, do hereby proclaim that Proclamation No. 4313 is amended as follows:

SECTION 1. Paragraph (i) of Section 1 is amended to read as follows:

"presents himself to a United States Attorney before March 1, 1975,".

SEC. 2. The first paragraph of Section 2 is amended by striking out the date "January 31, 1975," after the words "offenses directly related thereto if before" and inserting in place thereof "March 1, 1975,".

IN WITNESS WHEREOF, I have hereunto set my hand this thirtieth day of January, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

EXECUTIVE ORDER 11837

Amending Executive Order No. 11803 of September 16, 1974, To Extend the Period for Application for Clemency Board Review of Certain Convictions and Military Service Discharges

By virtue of the authority vested in me as President of the United States by Section 2 of Article II of the Constitution of the United States, Section 2 of Executive Order No. 11803 of September 16, 1974, is hereby amended as follows:

By striking out the date "January 31, 1975," after the words "apply for Executive clemency prior to" and inserting in place thereof "March 1, 1975,".

THE WHITE HOUSE,
January 30, 1975.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 1—General Provisions

CHAPTER I—ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

CFR CHECKLIST

1974 Issuances

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the revision date and price of the volumes of the Code of Federal Regulations issued for 1974. New units issued during the month are announced on the back cover of the daily FEDERAL REGISTER as they become available.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

Title 7—Agriculture

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Commuted Traveltime Allowances

The purpose of this amendment is to amend the list of commuted traveltime allowances, 7 CFR Part 354, Overtime Services Relating to Imports and Exports, and to consolidate all existing amendments into one list for the convenience of the user. Since the last amendment (November 22, 1974, 39 FR 40957), commuted traveltimes have been established for additional points. Therefore, this amendment adds Indianapolis, Indiana, served from Frankfort and from Franklin; Bridgeport (Monsanto) and Deepwater (Penns Grove), New Jersey, served from Wilmington, Delaware; and Syracuse, New York, within the metropolitan area.

XUM

XUM

Pursuant to the authority conferred upon the Deputy Administrator, Plant Protection and Quarantine Programs, by 7 CFR 354.1 (37 FR 6327, 6505, 10554) the administrative instructions appearing at 7 CFR 354.2, as amended, March 1, July 26, October 7, and November 22, 1974, (39 FR 7923, 27299, 35999, and 40937) prescribing the commuted traveltime that shall be included in each period of overtime or holiday duty are revised to read as follows:

§ 354.2 Administrative instructions prescribing commuted traveltime.

Each period of overtime and holiday duty, as defined in § 354.1 shall, in addition, include a commuted traveltime period for the respective areas in which employees are located, if such travel is performed solely on account of overtime or holiday service. The prescribed commuted traveltime periods are set forth below:

Temporary detail: Any inspection point to which an employee may be temporarily detailed.			

These commuted traveltime periods have been established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime or holiday duty when such travel is performed solely on account of such overtime or holiday duty. Such establishment depends upon facts within the knowledge of the Animal and Plant Health Inspection Service.

It is to the benefit of the public that these instructions be made effective at the earliest practicable date. Accordingly, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Effective date. The foregoing revision shall become effective on February 3, 1975, when it shall supersede 7 CFR 354.2, as amended, March 1, July 26, October 7, and November 22, 1974. (39 FR 7923, 27299, 35999, 40937).

Done at Washington, D.C., this 27th day of January, 1975.

T. G. DARLING,
Acting Deputy Administrator, Plant Protection and Quarantine Programs.

[FR Doc.75-2847 Filed 1-31-75;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 336, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period January 24–30, 1975. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 336 (40 FR 3573). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i), (ii), and

XUM V40123 FEB 3 75 XUM

(iii) of § 907.636 (Navel Orange Regulation 336) (40 CFR 3573) are hereby amended to read as follows:

"(i) District 1: 1,290,000 cartons;
"(ii) District 2: 180,000 cartons;
"(iii) District 3: 30,000 cartons."

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 29, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-3013 Filed 1-31-75;8:45 am]

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 100—STATEMENT OF ORGANIZATION

Miscellaneous Amendments

Correction

In FR Doc. 1923 appearing at page 3407 in the issue of January 22, 1975, § 100.4(d), the last listing in Sector No. 7—Havre, Mont., now reading, "Whitefish, Mont. (Roosvile, Mont.)" should read, "Wolf Point, Mont. (Plentywood, Mont.)"

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA; PROHIBITED AND RESTRICTED IMPORTATIONS

Countries Declared To Be Free of Rinderpest and Foot-and-Mouth Disease

Statement of considerations. The purpose of these amendments is to add Finland to the list of countries declared to be free of rinderpest and foot-and-mouth disease in § 94.1(a)(2) and to the list of countries in § 94.11(a) which are declared to be free of rinderpest and foot-and-mouth disease in § 94.1(a)(2) but which may export meat and animal products to the United States under restrictions only, because of their proximity to, or exchange of commerce, with rinderpest and/or foot-and-mouth disease infected countries. A review of documents submitted by Finnish authorities and an on site inspection made by a Veterinary Services inspector have confirmed that Finland is free of rinderpest and foot-and-mouth disease. Additionally, the third sentence of § 94.11(a) is amended to clarify the fact that the requirements of that section are applicable to all countries listed in the first sentence of that section as free of said diseases. Accordingly, Part 94 is hereby amended as follows:

§ 94.1 [Amended]

1. Section 94.1(a)(2) is amended by adding thereto the name of "Finland," after the reference to "Canada,".

§ 94.11 [Amended]

2. Section 94.11 is amended by adding thereto the name of "Finland," after the reference to "Bahama Islands,".

3. The third sentence of section 94.11 (a) is amended to read as follows: Therefore, meat of ruminants or swine, and other animal products, and ship stores, airplane meals, and baggage containing such meat or animal products originating in the free countries listed in this section shall not be imported into the United States unless the following requirements in addition to other applicable requirements of this Chapter III are met.

(Sec. 306, 46 Stat. 689, as amended; sec. 2, 32 Stat. 792, as amended; secs. 2, 3, 4, and 11, 76 Stat. 129, 130, 132 (19 U.S.C. 1306; 21 U.S.C. 111, 134a, 134b, 134c, 134f); 37 FR 28464, 28477; 38 FR 19141)

Effective date. The foregoing amendments shall become effective January 28, 1975.

Insofar as the amendments relieve certain restrictions presently imposed but no longer deemed necessary to prevent the introduction and dissemination of the contagion of rinderpest and foot-and-mouth disease, they must be made effective immediately to be of maximum benefit to affected persons.

Insofar as the amendments clarify § 94.11, they do not effect a substantive change from the manner in which the regulations have heretofore been administered, and they should be made effective promptly in order to be of maximum benefit in informing the public of the applicable policy.

It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 28th day of January, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.75-3074 Filed 1-31-75;8:45 am]

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 201—EXTENSIONS OF CREDIT BY FEDERAL RESERVE BANKS

Changes in Rates

Pursuant to section 14(d) of the Federal Reserve Act (12 U.S.C. 357), and for the purpose of adjusting discount rates with a view to accommodating commerce and business in accordance with other related rates and the general credit situation of the country, Part 201 is amended as set forth below:

1. Section 201.51 is revised to read as follows:

§ 201.51 Advances and discounts for member banks under sections 13 and 13a.

The rates for all advances and discounts under sections 13 and 13a of the Federal Reserve Act (except advances under the last paragraph of such section 13 to individuals, partnerships, or corporations other than member banks) are:

Federal Reserve Bank of—	Rate	Effective
Boston	7¼	Jan. 6, 1975
New York	7¼	Jan. 10, 1975
Philadelphia	7¼	Jan. 6, 1975
Cleveland	7¼	Do.
Richmond	7¼	Do.
Atlanta	7¼	Jan. 13, 1975
Chicago	7¼	Jan. 10, 1975
St. Louis	7¼	Do.
Minneapolis	7¼	Do.
Kansas City	7¼	Jan. 24, 1975
Dallas	7¼	Jan. 6, 1975
San Francisco	7¼	Do.

2. Section 201.52 is amended to read as follows:

§ 201.52 Advances to member banks under section 10(b).

(a) The rates for advances to member banks under section 10(b) of the Federal Reserve Act are:

Federal Reserve Bank of—	Rate	Effective
Boston	7¼	Jan. 6, 1975
New York	7¼	Jan. 10, 1975
Philadelphia	7¼	Jan. 6, 1975
Cleveland	7¼	Do.
Richmond	7¼	Do.
Atlanta	7¼	Jan. 13, 1975
Chicago	7¼	Jan. 10, 1975
St. Louis	7¼	Do.
Minneapolis	7¼	Do.
Kansas City	7¼	Jan. 24, 1975
Dallas	7¼	Jan. 6, 1975
San Francisco	7¼	Do.

(b) The rates for advances to member banks for prolonged periods and in significant amounts under section 10(b) of the Federal Reserve Act and § 201.2 (e)(2) of Regulation A are:

Federal Reserve Bank of—	Special rate	Effective
Boston	9	Jan. 6, 1975
New York	9	Jan. 10, 1975
Philadelphia	9	Jan. 6, 1975
Cleveland	9	Do.
Richmond	9	Do.
Atlanta	9	Jan. 13, 1975
Chicago	9	Jan. 10, 1975
St. Louis	9	Do.
Minneapolis	9	Do.
Kansas City	9	Jan. 24, 1975
Dallas	9	Jan. 6, 1975
San Francisco	9	Do.

3. Section 201.53 is revised to read as follows:

§ 201.53 Advances to persons other than member banks.

The rates for advances under the last paragraph of section 13 of the Federal Reserve Act to individuals, partnerships, or corporations other than member banks secured by direct obligations of, or obligations fully guaranteed as to principal and interest by, the United States or any agency thereof are:

Federal Reserve Bank of—	Rate	Effective
Boston	10	Jan. 6, 1975
New York	10	Jan. 10, 1975
Philadelphia	10	Jan. 6, 1975
Cleveland	10	Do.
Richmond	10	Do.
Atlanta	10	Jan. 13, 1975
Chicago	10	Jan. 10, 1975
St. Louis	10	Do.
Minneapolis	10	Do.
Kansas City	10	Jan. 24, 1975

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74-EA-82]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 44037 of the FEDERAL REGISTER for December 20, 1974, the Federal Aviation Administration published a proposed rule which would alter the Philadelphia, Pa., Control Zone (39 FR 416) and Transition Area (39 FR 565).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t. March 27, 1975.

(Sec. 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348], and sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)])

Issued in Jamaica, N.Y., on January 22, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Philadelphia, Pa. Control Zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 39°52'23" N., 75°14'58" W., of Philadelphia International Airport, Philadelphia, Pa.; within a 6-mile radius of the center of the airport extending clockwise from a 266° bearing to a 016° bearing from the airport; within 2.5 miles each side of the Philadelphia International Airport Runway 27R ILS localizer course, extending from the localizer to 6.5 miles east; within 2 miles each side of the Philadelphia International Airport Runway 9R ILS localizer course, extending from the 5-mile radius zone to 2 miles east of the OM; within 2.5 miles each side of the New Castle, Del. VORTAC 055° radial, extending from the 5-mile radius zone to 18.5 miles northeast of the VORTAC.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by deleting the description of the Philadelphia, Pa. Transition Area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the center, 39°52'23" N., 75°14'58" W. of Philadelphia International Airport, Philadelphia, Pa.; within a 9-mile radius of the center of the airport, extending clockwise from a 136° bearing to a 256° bearing from the airport; within an 11-mile radius of the center of the airport, extending clockwise from a 256° bearing from the airport to a 058° bearing from the airport; within 6.5 miles south and 4.5 miles north of the Philadelphia International Airport Runway 9R ILS localizer course, extending from 5.5 miles east to 11.5 miles west of the OM; within 4.5 miles each side of the Modena, Pa. VORTAC 097° radial, extending from 24 miles east to 33 miles east of the VORTAC; within a 5.5-mile radius of the center, 39°47'50" N., 75°20'35" W. of Bridgeport Airport, Bridgeport, New Jersey; within 2 miles each side of the Woodstown, N.J. VORTAC 350° radial, extending from the 5.5-mile radius area to the Woodstown, N.J. VORTAC.

[FR Doc.75-2989 Filed 1-31-75;8:45 am]

[Airspace Docket No. 75-SO-6]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Gainesville, Ga., transition area.

The Gainesville transition area is described in § 71.181 (40 FR 441). In the description, an extension predicated on the 216° bearing from Gainesville RBN is designated as "9.5 miles southeast and 4.5 miles northwest of the bearing." Since the procedure turn will be changed to the northwest side of the 216° bearing, effective February 20, 1975, it is necessary to amend the description to reflect this change. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., February 20, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Gainesville, Ga., transition area is amended as follows:

"• • • 9.5 miles southeast and 4.5 miles northwest • • •" is deleted and "• • • 9.5 miles northwest and 4.5 miles southeast • • •" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 23, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-2991 Filed 1-31-75;8:45 am]

[Airspace Docket No. 74-SO-115]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On December 20, 1974, a notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 44037), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Craig AFB Aux. (Valden), Ala., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

CRAIG AFB AUX. (VALDEN), ALA.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Craig AFB Aux. #1 (Valden), Ala. (latitude 32°30'35" N., longitude 87°23'06" W.); within 2.5 miles each side of the extended centerline of Runway 16, extending from the threshold to 10.5 miles north of the threshold.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 23, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-2992 Filed 1-31-75;8:45 am]

[Airspace Docket No. 74-SO-101]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Redesignation of Federal Airways

On December 3, 1974, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (39 FR 41855) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter VOR Federal Airways V-11, V-47 and V-178.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. The Department of the Air Force objected to the proposed realignment of V-47, stating that the Little Rock, Ark., to Malden, Mo., segment would conflict with a high altitude

V40123 FEB 3 75 XUM

penetration procedure to Little Rock AFB, and that the Malden to Cunningham, Ky., segment would conflict with a high altitude penetration procedure to Blytheville, Ark., AFB. The Memphis Air Route Traffic Control Center (ARTCC) will provide procedural separation between en route aircraft on V–47 and aircraft executing the conflicting high altitude penetration procedure to Little Rock AFB. The Memphis ARTCC and Blytheville AFB have agreed upon adjustments to the conflicting Blytheville AFB high altitude penetration procedure which will provide lateral clearance between en route aircraft on V–47 and aircraft executing any high altitude penetration procedure to Blytheville AFB. All other comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t. March 27, 1975, as hereinafter set forth.

§ 71.123 (40 FR 307) is amended as follows:

1. In V–11 "Cunningham, Ky., including an E alternate;" is deleted and "Cunningham, Ky.; including an E alternate; and a W alternate via INT Dyersburg 006° and Cunningham 224° radials;" is substituted therefor.

2. In V–47 "From Evansville, Ind., Nabb, Ind.;" is deleted and "From Little Rock, Ark.; via Walnut Ridge, Ark.; Malden, Mo.; Cunningham, Ky.; Evansville, Ind.; Nabb, Ind.;" is substituted therefor.

3. V–178 is amended to read as follows: "From Vichy, Mo.; Farmington, Mo.; Cape Girardeau, Mo.; Cunningham, Ky.; including a north alternate from Farmington to Cunningham via INT Farmington 115° and Cunningham 306° radials; and also a south alternate from Farmington to Cunningham via INT Farmington 145° and Cunningham 267° radials; Central City, Ky.; New Hope, Ky.; Lexington, Ky.; Bluefield, W.Va.".

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on January 28, 1975.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-2090 Filed 1-31-75;8:45 am]

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER F—POLICY STATEMENTS

[Reg. PS–62, Amdt. 41]

PART 399—STATEMENTS OF GENERAL POLICY

Deceptive Practices in Advertising Group Inclusive Tours

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. January 29, 1975.

By notice of proposed rule making, PSDR–39,[1] the Board invited comment on a proposal to amend Part 399 of the regulations (14 CFR Part 399) to codify a policy which would regard as an unfair or deceptive practice and an unfair method of competition in air transportation or the sale thereof, within the meaning of section 411 of the Act, the advertising of prices involved in Group Inclusive Tours (GIT's), unless the advertisement includes a clear statement of the total tour price.

The proposed draft rule would also require that where a GIT advertisement includes a statement of the applicable air fare, the total tour price must be stated in print at least as large as the separate statement of the air fare, and with equal prominence. As indicated in the Explanatory Statement accompanying PSDR–39, the Board's purpose in proposing this policy statement was to eliminate deceptive and misleading advertising of GIT's. In addition, the Board sought to remedy the apparently unfair competitive advantage enjoyed by the sellers of GIT's over Inclusive Tour Charter (ITC) operators as a result of such advertising.[2]

Pursuant to the notice of proposed rulemaking, the Board received comments from British Airways, Continental Air Lines, Inc., and Trans World Airlines, Inc., from the National Air Carrier Association representing five supplemental air carriers,[3] from a group of four tour operators,[4] from the American Automobile Association, the American Society of Travel Agents, other independent travel agents,[5] from the Consumer Affairs Unit of the City of Syracuse, and from individual members of the public. With the exceptions noted below, all of these comments support the proposed policy statement. On consideration of all of the comments, the Board has determined to adopt the proposed rule with some modifications, and, except as modified, to make final the findings and conclusions on which it was based. All requests for other amendments contained in the comments are denied.

1. *Statement of the Applicable Air Fare.* NACA and some of the tour operators contend that the proposed rule should prohibit any separate statement of the air fare, at least as long as that prohibition continues to apply to ITC's. They state that GIT's and ITC's are marketed in "head to head" competition, and they urge that since ITC operators are prohibited from separate advertising of an air fare component, the failure to adopt a similar prohibition with respect to the sale of GIT's will continue to enable the latter to enjoy an unfair competitive advantage.

We have determined to make final our tentative conclusion that there is no reason to prohibit separate statement of the air fare in the case of GIT advertisements. Nor do we believe that we should impose an unwarranted restriction on the sale of GIT's for the sole purpose of achieving total conformity with our rules governing ITC's. The purpose of this rulemaking is not to impose identical conditions on the marketing of GIT's and ITC's, but rather to eliminate deceptive advertising of GIT's and to remove the unfair advantage over ITC's which such deceptive advertising may produce.

Viewed wholly apart from the question of competition vis-a-vis ITC's, we think it clear that there is no deception involved in permitting a GIT advertisement to include a separate statement of the air fare component, as reflected in the applicable air carrier tariff on which the total package price is based. Since there is clearly nothing intrinsically wrong with advertising a lawful fare, we would be justified in prohibiting such advertisement in connection with GIT's only if there were overriding considerations of achieving complete equality between the sale of GIT's and ITC's. We do not believe that such considerations exist here, because the differences in the concept and legal status of these two types of group transportation preclude complete equality in our regulatory treatment of their respective marketings.

Obviously, GIT's and ITC's are to some degree competitive and may be advertised in the same publications. Some similar problems of misleading advertisements have arisen. But, unlike the GIT package, which is constructed around a lawful filed fare applicable to an individual seat on scheduled service, the ITC package price is not constructed upon an individual fare set forth in a tariff; rather, the ITC operator charters space, and he himself prices the tour charter on a single-factor basis. Thus, the statement of a separate "air fare" for ITC's could only be done on an arbitrary basis, and, as we pointed out when we originally imposed this prohibition, the statement of an arbitrarily arrived at "component" fare would actually misinform the public.[6]

2. *Disclosure of Total Tour Price.* British Airways contends that the proposed requirement that the total tour price be stated as a single amount is more restrictive than necessary to eliminate misleading GIT advertising. Basically, the argument is that since the same GIT air fare may apply to a number of tours included in a single brochure or other advertisement, we should not require that the total tour price be stated for each such tour, but rather should permit the GIT air fare to be stated separately from the prices of the various land packages to which it applies. Under this method of advertising, the prospective passenger obtains the total tour price by adding two component prices. Such separate listing of a range of alternative land packages which the passenger himself pairs with the applicable air fare is said to be the least confusing method of GIT presentation. Moreover, British Airways asserts, a requirement that the total tour price be stated in a single sum would interfere with promotional efforts during periods when the carrier is awaiting Board approval of newly filed tariffs, and would thus be particularly burdensome during a period of rapidly escalating air fares.[7]

As we explained in our notice of proposed rulemaking, the type of advertisement we seek to prohibit is that which misleads the public as to the actual total price of GIT tours. Our objective is to insure the prospective passenger clear and correct information of total tour costs, and it was for this purpose that the requirement of a single-sum statement was proposed. On consideration of the matters raised by British Airways and the various methods of GIT advertising, we have concluded that the desired objective may be adequately achieved in the manner suggested by this carrier. As long as the applicable air fare and the cost of the land package are the only two components of the total tour price, and both are clearly stated, albeit separately, we do not believe that merely requiring the reader to perform the simple addition of two prices in itself renders a tour advertisement misleading or deceptive. We are therefore modifying the proposed rule to permit this alternative style of advertising.

Thus, instead of requiring that the total tour price be stated as a single amount, as proposed, the rule which we are adopting will require only that the total tour price be clearly disclosed. It should be noted that where the two component prices are separately stated, we would not regard the total tour price as clearly disclosed unless the prices of both components are prominently displayed, along with a clear indication to the reader that the component prices must be added. On the other hand, where the total tour price is shown as a single amount, but the advertisement also includes a separate statement of the air fare, we would not regard the total tour price as clearly disclosed unless it is printed in type at least as large as, and displayed with equal prominence as, the air fare.

3. *Taxes.* There remain for consideration only questions raised by the comments with respect to the type of specific charges which must be included in the total tour price. Clarification has been requested by ASTA concerning so-called port or airport head taxes, and by Continental concerning security charges. It has been the Board's view that port and airport taxes are an essential part of the cost of the tour and should be included in the total price of ITC's. We see no reason to reach a different conclusion in determining the true total price of GIT's. Similarly, we endorse Continental's understanding that security charges should be included in the total tour cost.[8]

The within rule will become effective 60 days after issuance, thus applying to all advertising as of April 1, 1975. We recognize, however, that current brochures or other circulars which do not meet the standards here adopted may have been printed and placed in circulation prior to the issuance of this rule. In these circumstances, our policy statement would contemplate a reasonable, good faith effort to distribute corrective price lists to the brochure recipients prior to the specified effective date.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 399, Statements of General Policy (14 CFR Part 399), effective April 1, 1975, as follows:

1. Amend the Table of Contents by adding § 399.84 to the table, as amended, to read in pertinent part as follows:

Subpart G—Policies Relating to Enforcement

• • • • •

Sec.
399.84 Unfair or deceptive practice of air carrier, foreign air carrier or ticket agent in advertising group inclusive tour without clear disclosure of total tour price.

2. Add a new § 399.84 to read as follows:

§ 399.84 Unfair or deceptive practice of air carrier, foreign air carrier or ticket agent in advertising group inclusive tour without clear disclosure of total tour price.

(a) It is the policy of the Board to consider the practice of an air carrier, foreign air carrier or ticket agent of advertising a group inclusive tour involving a scheduled flight in air transportation, to be an unfair or deceptive practice and an unfair method of competition in air transportation or the sale thereof, within the meaning of section 411 of the Act, unless such advertisement clearly discloses the total tour price.

(b) For the purposes of paragraph (a), above, "total tour price" means the total amount of money to be paid by the tour participant for the group inclusive tour, exclusive of options.

(Sections 204, 401, 402, 403, 404, 411, 416(a) and 1002 of the Federal Aviation Act of 1958, as amended; 72 Stat. 743, 754 (as amended by 76 Stat. 143, 82 Stat. 867), 757, 758 (as amended by 74 Stat. 445), 760, 769, 771 and 788; 49 U.S.C. 1324, 1371, 1372, 1373, 1374, 1381, 1386, and 1482)

Effective: April 1, 1975.

Adopted: January 29, 1975.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-3069 Filed 1-31-75;8:45 am]

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 376—SPECIAL COMMODITY POLICIES AND PROVISIONS

Bituminous Coal Exports

Revision of the "Export Administration Regulations" to discontinue the monitoring of bituminous coal exports and anticipated exports.

The purpose of this issuance is to announce discontinuance of the monitoring program over the export of bituminous coal as of 5 p.m. e.s.t. January 28, 1975. Consequently, the last weekly report to be submitted on Form DIB–6006P will include bituminous coal export contracts and shipments for the week ending at the close of business on January 24, 1975.

The FEDERAL REGISTER of November 15, 1974 announced that the Department of Commerce was establishing a monitoring system to provide accurate and timely information on exports and contracts for export of bituminous coal. The monitoring program was initiated coincident with a walkout of coal miners and forecasts of a long strike that might have had a serious adverse effect on the domestic economy.

The strike has been settled for over a month and recent statistics indicate that mine production and inventories have returned to virtually normal levels. In view of these developments and the fact that the normal ratio between domestic production and export volume has been reestablished, the need for export monitoring of bituminous coal no longer exists.

§ 376.3 [Deleted]

Accordingly, § 376.3 of the "Export Administration Regulations" is deleted.

Effective date of action: 5 p.m. e.s.t. January 28, 1975.

RAUER H. MEYER,
Director, Office of Export Administration.

[FR Doc.75-2995 Filed 1-31-75;8:45 am]

[1] April 29, 1974, FR 15309, Docket 26658.

[2] Operators of ITC's are specifically required by § 378.12 of the Board's Special Regulations to include only the total tour price, without stating the cost of component parts. 14 CFR § 378.12.

[3] Capitol International Airways, Inc., Overseas National Airways, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., and World Airways, Inc.

[4] Identical comments have been filed on behalf of Anne Storch International—ASTI Tours, Inc., Touragent International, Inc., and Golden Holiday Tours, Inc., and Vacation Ventures, Inc.

[5] AITS, Inc. and Beacon Hill Travel Service, Inc.

[6] SPR–32, October 14, 1969, pp. 12–13.

We are not persuaded by the contention of ASTI and other tour operators that separate statement of a GIT air fare should be prohibited because it is not a "true fare" in that it is subject to "adjustment" if conditions circumscribing its availability are not met. Problems of adjustment can arise whether the fare is shown separately or included in the total tour price. Examination of the conditions under which the fare is applicable are beyond the scope of this rulemaking.

[7] The carrier states that its practice has been to produce, but not distribute, brochures showing the cost of land packages with a statement that the air fare is extra. After approval, the new fare has then been inserted on the inside brochure cover.

[8] Apart from their objections to the proposed policy statement, ASTI and the other tour operators in this group ask that the Board prohibit GIT advertisements in which the name of the carrier is more evident than that of the tour operator, a prohibition which has been proposed with respect to ITC's by SPDR–36. This question is outside the scope of the present rulemaking proceeding and will be dealt with in connection with the separate but identical petitions for rulemaking filed in Dockets 26834, 26835 and 26836.

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION)

SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER NATIONAL HOUSING ACT

[Docket No. R-75-272]

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

Subpart C—Eligibility Requirements—Supplemental Loans to Finance Purchase and Installation of Fire Safety Equipment

On August 12, 1974, the Department of Housing and Urban Development's final regulations, relating to the insurance of supplemental loans to finance the purchase and installation of fire safety equipment necessary to meet the fire safety requirements of the Department of Health, Education, and Welfare for providers of services under Titles XVIII and XIX of the Social Security Act for nursing homes and intermediate care facilities, were published in the FEDERAL REGISTER.

Section 232.535 is being amended to substitute $10,000 for $5,000 as the minimum principal obligation for this program. The minimum principal amount for this program was originally related to the maximum amount for loans to be insured under section 2(b) of Title I of the National Housing Act, which amount was $5,000 at the time the final regulations were originally published. It was believed that the Title I program rather than the section 232(i) program would be a more effective program for loans under $5,000. The section 232(i) program would then be used for loans above $5,000. When the Housing and Community Development Act of 1974 amended section 2(b) of Title I to increase the maximum loan amount for that program from $5,000 to $10,000, it created an overlap of $5,000 between the existing § 232.535 minimum loan amount and the new Title I maximum loan amount. This amendment to § 232.535 eliminates that overlap by increasing to $10,000 the minimum loan amount available under the section 232(i) program. We consider that procedure to be unnecessary and contrary to the public interest since the amendment to § 232.565 will shorten the processing time for participation in the program, advance noticing and public procedure are not necessary and good cause exists for making these amendments effective on publication.

Section 232.560(a) is being amended to provide an automatic mechanism for keeping the maximum interest rate for this program at ¼ of 1 percent above the maximum FHA interest rate established under § 207.7(a) of the regulations. When the section 232(i) program was originally implemented, the maximum interest rate was set at ¼ of 1 percent above the rate established for other HUD programs such as section 207 because it was believed that such an interest rate was necessary to interest lenders in the program, i.e. to meet the mortgage market. The section 232(i) rate will be keyed, by the amended regulations, to the section 207 regulatory rate. This, in effect, serves as a finding that the market rate for section 232(i) will generally be ¼ percent above section 207 and will eliminate the need for a separate finding when interest rates are changed in the future.

Section 232.565 presently provides that the principal amount of the loan shall not exceed the Commissioner's estimate of the cost of the fire safety equipment, including the cost of installation with the additional requirement that the sum of prior liens against the property and the fire safety loan shall not exceed ninety percent of the Commissioner's estimate of the value of the project upon completion of installation of the fire safety equipment. Section 232.565 is being amended to provide that the principal amount of the loan shall not exceed the lower of the Commissioner's estimate of the cost of the safety equipment including the cost of installation, or an amount supported by the residual income as determined by the Commissioner. This change substitutes the concept of "residual income" for "value" in determining the maximum loan amount. By using residual income, which directly relates to the ability of a project to generate the income to meet mortgage payments, rather than value, which relates more closely to selling price, the need for an appraisal of the project is eliminated, thereby shortening the processing time for an application.

Since the amendments to §§ 232.535 and 232.560(a) are technical changes and since the amendment to § 232.565 will

Accordingly, Part 232 is amended as follows:

1. Section 232.535 is revised as follows:

§ 232.535 Loan multiples—minimum principal.

The loan shall involve a principal obligation in multiples of $100, and the minimum principal obligation shall be $10,000.

2. Section 232.560, (a) is revised as follows:

§ 232.560 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not be in excess of ¼ of 1 percent above the maximum FHA interest rate established under § 207.7(a) of the regulations.

* * * * *

3. Section 232.565 is revised as follows:

§ 232.565 Maximum loan amount.

The principal amount of the loan shall not exceed the lower of the Commissioner's estimate of the cost of the fire safety equipment, including the cost of installation, or the amount supported by the residual income, which is the amount of net income remaining after payment of all existing debt service requirements and deduction of the proprietary earnings, as determined by the Commissioner. The cost of installation may include the cost of such other work to be performed on the project necessary to meet the requirements of the Secretary of Health, Education, and Welfare and the Commissioner to enhance the fire safety of the project, and such costs incidental to installation as may be approved by the Commissioner. (Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Effective date. This amendment will be effective on February 3, 1975.

DAVID M. DEWILDE,
Acting Assistant Secretary for Housing Production and Mortgage Credit—FHA Commissioner.

[FR Doc.75-2998 Filed 1-31-75;8:45 am]

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-461]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
•	•	•	•	•	•	•
California	San Mateo	Pacifica, city of	Jan. 29, 1975, Emergency	June 28, 1974		
Indiana	Wayne	Hagerstown, town of	do	Apr. 12, 1974		
Kentucky	Butler	Unincorporated areas	do

[Docket No. FI-462]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
•	•	•	•	•	•	•
Iowa	Humboldt	Humboldt, city of	Jan. 28, 1975, Emergency	Apr. 5, 1974

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 591-75]

PART 15—DEFENSE OF SUITS AGAINST FEDERAL EMPLOYEES ARISING OUT OF THEIR OPERATION OF MOTOR VEHICLES

Defense of Certain Suits Against Federal Employees

Existing Justice Department regulations set forth certain procedures to be followed in connection with the Department's defense of civil actions against federal employees arising out of their operation of motor vehicles in the scope of their employment. This order extends those regulations to apply to suits against certain employees of the Veterans Administration and the Public Health Service for damages arising out of their medical services within the scope of their employment. This order also deletes a provision which limited applicability of the regulations to civil actions commenced as a result of incidents occurring on or after March 21, 1962. That provision is now obsolete.

By virtue of the authority vested in me by 5 U.S.C. 301, 28 U.S.C. 509, 510 and 2679 (b)–(e), 38 U.S.C. 4116 (a)–(d), and 42 U.S.C. 233 (a)–(e), Part 15 of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

1. The caption for Part 15 is revised to read:

PART 15—DEFENSE OF CERTAIN SUITS AGAINST FEDERAL EMPLOYEES

2. The first sentence of § 15.1 is revised to read as follows:

§ 15.1 Expeditious delivery of process and pleadings.

Any Federal employee against whom a civil action or proceeding is brought for damages to property, or for personal injury or death, on account of the employee's operation of a motor vehicle in the scope of his office or employment with the Federal Government or on account of the employee's performance of medical care, treatment, or investigation in the scope of his office or employment with the Public Health Service or the Veterans Administration Department of Medicine and Surgery (or his personal representative, if the action is brought against his estate) shall deliver all process and pleadings served upon him, or an attested true copy thereof, to his immediate superior or to whoever is designated by the head of his department or agency to receive such papers, forthwith. • • •

3. The first sentence of § 15.3 is revised to read as follows:

§ 15.3 Removal and defense of suits.

Authority is hereby delegated to the several United States Attorneys to make the certification provided for in 28 U.S.C. 2679(d), 38 U.S.C. 4116(c), and 42 U.S.C. 233(c) with respect to civil actions or proceedings brought against Federal employees in their respective districts. • • •

§ 15.4 [Reserved]

4. Section 15.4 is obsolete and is deleted.

Dated: January 24, 1975.

WILLIAM B. SAXBE,
Attorney General.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Colorado Plan; Level of Federal Enforcement

1. *Background.* Part 1954 of Title 29, Code of Federal Regulations, sets out procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for the evaluation and monitoring of State plans which have been approved under section 18(c) of the Act and 29 CFR Part 1902. Section 1954.3 of this chapter provides guidelines and procedures for the exercise of discretionary Federal enforcement authority under section 18(e) of the Act with regard to Federal standards in issues covered under and approved State plan. In accordance with § 1954.3(b) of this chapter, Federal enforcement authority will not be exercised as to occupational safety and health issues covered under a State plan where a State is operational. A State is determined to be operational under § 1954.3(b) of this chapter when it has provided for the following requirements: enacted enabling legislation, approved State standards, a sufficient number of qualified enforcement personnel and provisions for the review of enforcement actions. In determining whether and to what extent a State plan meets the operational guidelines, the results of evaluations conducted under 29 CFR Part 1954 are taken into consideration. Once this determination has been made, under § 1954.3(f) of this chapter, a notice of the determination of the operational status of a State plan as described in an agreement setting forth the Federal-State responsibilities is to be published in the FEDERAL REGISTER.

2. *Notice of Colorado operational agreement.* (a) In accordance with the provisions of § 1954.3 of this chapter, notice is hereby given that it has been determined that Colorado has met the following conditions for operational status:

(1) Enactment of the Colorado enabling legislation, "an Act Implementing the Federal Occupational Safety and Health Act of 1970," (hereinafter referred to as the Colorado Act) (House Bill No. 1396, Chapter 265 of the Session Laws of Colorado, 1973) which became effective on July 7, 1973;

(2) Adoption under Colorado Revised Statutes, section 3-16-2, of general industry and construction standards contained in 29 CFR Parts 1910 and 1926, as temporary State standards on March 1, 1974. These standards were readopted as temporary State standards on May 30, 1974. On September 1, 1974, the State adopted as permanent standards all general industry and construction standards which were then contained in 29 CFR Parts 1910 and 1926 except Federal maritime standards covered by 29 CFR 1910.-13 through 1910.16;

(3) A sufficient number of qualified safety and health personnel employed under an approved merit system: namely twenty safety inspectors and five health inspectors as of November 27, 1974;

(4) Operation since March 1, 1974, of a review and appeals system before the Industrial Commission of Colorado providing the mechanism for employers and employees to contest enforcement actions and/or abatement periods. The appeals are processed in accordance with rules of procedure promulgated by the Industrial Commission which became effective on October 31, 1974.

(5) State enforcement since March 1, 1974, of the State standards described in (2) above, monitored under 29 CFR Part 1954, including an onsite evaluation conducted on November 26 and 27, 1974.

(b) In addition, the State has provided under its plan for:

(1) Occupational accident and illness recordkeeping and reporting by employers covered under the plan (CRS 80–1–18);

(2) Responding to complaints filed with the Colorado Department of Labor and Employment for violations of the prohibition against discrimination by employers against employees for exercising their rights under the Colorado Act (CRS 80–2–2);

(3) Assurance of the rights of employers and employees and their representatives consistent with the provisions of the Federal Act and its implementing regulations.

Pursuant to this finding, an agreement effective November 27, 1974, and incorporated as part of the Colorado plan has been entered into between James Shaffer, Executive Director of the Colorado Department of Labor and Employment, and Curtis A. Foster, Assistant Regional Director for Occupational Safety and Health of the U.S. Department of Labor, providing that Federal enforcement activity under section 18(e) of the Act will not be initiated with regard to Federal occupational safety and health standards in issues covered under 29 CFR Part 1910 and 29 CFR Part 1926 whenever Colorado occupational safety and health standards are in effect and operational.

Under the agreement, Federal responsibility under the Act will continue to be exercised, among other things, with regard to complaints about violations of the discrimination provisions of section 11(c) of the Act (29 U.S.C. 660(c)); enforcement of standards promulgated under section 6(c) of the Act (29 U.S.C. 665(c)), until such time as the State shall have adopted equivalent standards in accordance with Subpart C of 29 CFR Part 1953; enforcement of Federal standards in the maritime and longshoring issues covered by 29 CFR 1910.13 through 1910.16 which issues have been specifically excluded from coverage under the plan; and investigations and inspections for the purposes of evaluating the State plan under sections 18 (e) and (f) of the Act (29 U.S.C. 667 (e) and (f)).

The agreement is subject to revision or termination by the Assistant Secretary of Labor for Occupational Safety and Health upon substantial failure by the State to comply with any of its provisions, or when the results of evaluation under 29 CFR Part 1954 reveal that State operations covered by the agreement fail in a substantial manner to be at least as effective as the Federal program.

In accordance with this agreement and effective as of November 27, 1974, Subpart M of 29 CFR Part 1952 is hereby amended as set forth below.

Section 1952.192 is amended to read as follows:

§ 1952.192 Level of Federal enforcement.

Pursuant to § 1902.20(b)(1)(iii) and § 1954.3 of this chapter under which an agreement has been entered into with Colorado, effective November 27, 1974, and based on a determination that Colorado is operational in issues covered by the Colorado occupational safety and health plan, discretionary Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(e)) will not be initiated with regard to Federal occupational safety and health standards in issues covered under 29 CFR Part 1910 and 29 CFR Part 1926. The U.S. Department of Labor will continue to exercise authority, among other things, with regard to: complaints filed with the U.S. Department of Labor about violations of the discrimination provisions of section 11(c) of the Act (29 U.S.C. 660(c)); Federal standards promulgated subsequent to the agreement where necessary to protect employees, as in the case of temporary emergency standards promulgated under section 6(c) of the Act (29 U.S.C. 665(c)), in the issues covered under the plan and the agreement until such time as Colorado shall have adopted equivalent standards in accordance with Subpart C of 29 CFR Part 1953; Standards in 29 CFR 1910.13 through 1910.16 which issues have been specifically excluded from coverage under the Colorado plan; and investigations and inspections for the purpose of the evaluation of the Colorado plan under section 18 (e) and (f) of the Act (29 U.S.C. 667 (e) and (f)). The Assistant Regional Director for Occupational Safety and Health will make a prompt recommendation for resumption of exercise of Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(e)) whenever, and to the degree, necessary to assure occupational safety and health protection to employees in Colorado.

(Secs. 8(g)(2), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 257(g)(2), 667))

Signed at Washington, D.C. this 28th day of January 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-3020 Filed 1-31-75;8:45 am]

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

SUBCHAPTER P—RECORDS

PART 286—AVAILABILITY TO THE PUBLIC OF DEPARTMENT OF DEFENSE INFORMATION

PART 296—PUBLICATIONS OF PROPOSED AND ADOPTED REGULATIONS AFFECTING THE PUBLIC

Public Participation Procedures

The Deputy Secretary of Defense has approved Part 296. This Part is added to Chapter I of Title 32 of the Code of Federal Regulations in response to a recommendation from the Administrative Conference of the United States that the Department of Defense voluntarily adopt procedures for public participation in rulemaking having direct and substantial public impact. Under the "military function" exemption of 5 U.S.C. 553(a)(1) the Department of Defense is excused from the statutory requirement of issuing notices of proposed rulemaking, but hereby imposes a regulatory requirement for public notice and opportunity for public comment in appropriate circumstances.

§ 286.5 [Deleted]

1. In Part 286, § 286.5 is deleted.

2. Part 296 is added to read as follows:

Sec.
296.1 Purpose.
296.2 Cancellation.
296.3 Applicability and scope.
296.4 Policy.
296.5 Proposed regulations.
296.6 Publication in the FEDERAL REGISTER of adopted regulations and other matters.
296.7 Petitions.
296.8 Effective date and implementation.

AUTHORITY: The provisions of this Part are issued under 10 U.S.C. 125.

§ 296.1 Purpose.

This Part:

(a) Establishes a policy and procedure by which the Department of Defense

V 40 23
FEB 3 75
XUM

will invite the comments of the public on those of its proposed regulations and other types of rulemaking as described hereafter which originate within the Department of Defense as a requirement of general applicability and future effect designed to implement, interpret, or prescribe law or policy, or practice or procedure requirements of a component. This requirement applies to those regulations which constitute the authority for actions having a substantial and direct impact on the public when consistent with other responsibilities of the Department for the efficient and responsible conduct of public business.

(b) Implements the provisions of 5 U.S.C. 552 relating to the kinds of regulations that must be published in the FEDERAL REGISTER after they are adopted.

§ 296.2 Cancellation.

32 CFR 286.5 is hereby superseded and cancelled.

§ 296.3 Applicability and scope.

(a) The provisions of this Part apply to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, and the Defense Agencies (hereinafter referred to singularly as a "DoD Component" or collectively as "DoD Components").

(b) These provisions are applicable to those directives, instructions, regulations, policy memoranda, manuals, and other forms of rulemaking (hereinafter referred to as "regulations") that have a substantial and direct impact on the public. Only a regulation which must be published in the FEDERAL REGISTER after its adoption in accordance with 5 U.S.C. 552 (as implemented in § 296.6 of this Part) comes within the requirement that it be evaluated to determine whether it will have the substantial and direct impact on the public that warrants an invitation for public comment prior to its adoption. An implementation by a subordinate component of a regulation adopted by a component at a higher level within the Department of Defense is not deemed to "originate" a requirement of general applicability and future effect, and, therefore, does not fall within the scope of the obligation to invite public comment on its provisions.

(c) The determination by the component originating a regulation shall be final and conclusive in determining whether a regulation or a proposed regulation comes within the purview of this Part. Consideration shall be given, however, to the definition of "rulemaking" found in 5 U.S.C. 551 as it relates to the requirements of 5 U.S.C. 553 in making this determination.

(d) The requirement for inviting public comment on a proposed regulation shall not be deemed applicable to any proposed regulation coming within one or more of the following exemptions or exceptions to the rulemaking procedures set forth in 5 U.S.C. 553.

(1) Any matter pertaining to a military or foreign affairs function of the United States which has been determined under the criteria of an Executive Order or statute to require a security classification in the interests of national defense or foreign policy.

(2) Any matter relating to (i) agency management, (ii) agency personnel, or (iii) public contracts (e.g., the Armed Services Procurement Regulation), including nonappropriated fund contracts.

(3) Any matter involving (i) interpretative rules, (ii) general statements of policy, or (iii) rules of agency organization, procedure, or practice.

(4) Any situation in which the DoD Component for good cause finds that inviting public comment on a proposed regulation is (i) impracticable, (ii) unnecessary, or (iii) contrary to the public interest, and incorporates in the adopted regulation that determination and its basis.

(e) Exceptions to the requirement in 5 U.S.C. 552 for publication in the FEDERAL REGISTER of adopted regulations for the guidance of the public shall be made in accordance with guidance provided in 32 CFR 286.8.

§ 296.4 Policy.

(a) It is the policy of the Department of Defense to encourage the maximum practicable participation of the public in the formulation of regulations having a substantial and direct impact on the public, and to inform the public fully through publication in the FEDERAL REGISTER of all adopted regulations intended for public guidance.

(b) A proposed regulation which would originate a Department of Defense policy having a substantial and direct impact on the public should be published, along with a notice of purpose and authority, in the FEDERAL REGISTER in order to invite public comment within a designated time at least 30 days prior to its intended adoption. This policy should be followed even though the proposed regulation may come within one or more of the exceptions or exemptions to the requirement for prepublication of proposed rules described in § 296.3(d)(2) (i) and (ii), (3) and (4), unless it is determined by the DoD Component as a matter within its sole and exclusive prerogative that the employment of the exception or exemption is appropriate to satisfy a significant and legitimate interest of the DoD Component or the public.

(c) After their adoption, all regulations for the guidance of the public shall be published in the FEDERAL REGISTER in accordance with 5 U.S.C. 552, even though they may come within one or more of the exemptions described in 32 CFR 286.8, if no significant and legitimate interest of the DoD Component or public precludes such publication. This policy extends to some adopted regulations for the guidance of the public which were not the subject of notice and public comment.

§ 296.5 Proposed regulations.

(a) The general notice of a proposed regulation shall be published in the FEDERAL REGISTER in accordance with the guidance contained in the "Federal Register Handbook on Document Drafting" (GSA), whenever that regulation would have a substantial and direct impact on the public or any significant portion of the public, unless it comes within one or more of the exceptions or exemptions previously set forth in § 296.3(d).

(b) The notice shall include:

(1) A statement of the purpose and objective of the proposed regulation;

(2) Reference to the legal authority under which the regulation is proposed; and

(3) The terms or substance of the proposed regulation.

(c) Whenever the originating DoD Component finds that notice and prepublication of a proposed regulation for public comment are impracticable, unnecessary, or contrary to the public interest, it shall incorporate that finding and a brief statement of its reasons in the adopted regulation, or it may adopt and publish in the FEDERAL REGISTER a separate regulation excepting or exempting categories of regulations for any of these reasons, with an explanation of the basis for excepting or exempting each particular category. Separate regulations for this purpose shall be promulgated by the procedures for proposed rules whenever this falls within the requirements of paragraph (a).

(d) Following the publication of notice and the proposed regulation in the FEDERAL REGISTER, the DoD Component shall give all interested persons an opportunity to participate in the rulemaking through the submission of written data, views, or arguments. An opportunity for oral presentation will normally not be provided, but may as a matter within the sole and exclusive prerogative of the component be extended where it is found to be in the interest of the DoD Component or the public. After careful consideration of all relevant matter presented, the component shall incorporate in the adopted regulation a concise general statement of its basis and purpose. A preamble to the adopted regulation may be published in the FEDERAL REGISTER to explain the relationship of the adopted rule to the proposed rule, including the nature and effect of public comments.

§ 296.6 Publication in the Federal Register of adopted regulations and other matters.

Subject to the exemptions set forth in 32 CFR 286.8:

(a) Each DoD Component shall publish in the FEDERAL REGISTER an informative, current description for the guidance of the public, of where, how, and by what authority it performs any of its functions. In deciding which information to publish in the FEDERAL REGISTER a DoD Component shall consider the fundamental objective of informing all interested persons of how to deal effectively with the component.

(b) Information to be published in the FEDERAL REGISTER shall include:

(1) Descriptions of the central and field organization of the component concerned, and the established places at which, the employees or members of the armed forces from whom, and the methods whereby the public may secure information, make submittals or requests, or obtain decisions.

(2) The procedures by which a DoD Component conducts its business with the public, both formally and informally.

(3) The rules of procedure which must be followed, the description of forms which must be completed, or the source from which forms may be obtained, and instructions on the scope and content of papers, reports, examinations required to be submitted pursuant to such rules of procedures, as adopted by the component.

(4) Directives, instructions,, regulations, manuals, policy memoranda, statements of general policy, or interpretation of general applicability adopted by the agency, and other substantive rules of general applicability affecting the public.

(c) With the approval of the Director of the FEDERAL REGISTER, the requirement for publication in the FEDERAL REGISTER (1 CFR, Part 51, 37 FR 23614, Nov. 4, 1972) may be satisfied by reference in the FEDERAL REGISTER to other publications reasonably available to the class of persons affected and containing the information which must otherwise be published in the FEDERAL REGISTER.

(1) In order to be eligible for incorporation by reference, the matter must be in the nature of published data, criteria, standards, specifications, techniques, illustrations, or other published information reasonably available to members of class affected thereby.

(2) Incorporation by reference is not acceptable as a complete substitute for promulgating in full text material required to be published by 5 U.S.C. 552.

(3) Incorporation by reference is acceptable as a means of avoiding unnecessary repetition within the promulgated document of published information already reasonably available to the class affected. Examples include:

(i) Construction standards promulgated by a professional association or architects, engineers, or builders.

(ii) Code of ethics promulgated by professional organizations.

(iii) Forms and formats publicly or privately published and readily available to the persons required to use them.

(d) It is incumbent upon each component to review all information of the type described in paragraph (b) of this section, to ensure that it is published on an up-to-date basis in the FEDERAL REGISTER, including every amendment revision, or repeal. No member of the general public can be required to resort to, or be adversely affected by, any material not published as required by the foregoing provisions of § 296.6 unless he has actual and timely notice of the content of that material.

§ 296.7 Petitions.

Each component shall accord any interested person the right to petition for the issuance, amendment, or repeal of a regulation that originates or would originate, for the Department of Defense or that component, a policy, requirement, or procedure coming within the scope of § 296.5. Any such petition shall be given full and prompt consideration by the component charged with the responsibility for issuing such a regulation. The petitioner shall be advised in writing of the disposition, and the reason for the disposition, of any written petition for the issuance, amendment, or repeal of a regulation. The official responsibility for disposition of the petition may at his absolute discretion, grant the petitioner a right to appear for the purpose of supporting his petition if this is compatible with the orderly conduct of public business.

§ 296.8 Effective date and implementation.

This Part becomes effective on February 1, 1975, but is applicable only to the regulations promulgated under the authority of a component after April 1, 1975. Two copies of implementing regulations shall be forwarded to the General Counsel of the Department of Defense on or before April 1, 1975.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

JANUARY 29, 1975.

Title 41—Public Contracts and Property Management

CHAPTER 3—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 3–4—SPECIAL TYPES AND METHODS OF PROCUREMENT

Negotiated Procurement under the Buy Indian Act

On February 1, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 3072) stating that the Department of Health, Education, and Welfare is considering an amendment to 41 CFR, Chapter 3, by adding a new Subpart 3–4.57, Negotiated Procurement under the Buy Indian Act. The amendment provides policy on purchasing from Indians under the negotiating authority of the Buy Indian Act (25 U.S.C. 47) whenever practicable.

Interested persons were invited to submit written data, views, and comments within 30 days after publication. Comments were received from the Department of the Interior and the United States Commission on Civil Rights related primarily to the requirement that a firm be 100-percent owned by Indians in order to qualify as an Indian firm. The relaxation of that requirement, as suggested by the Commission on Civil Rights, has been rejected in order to avoid the substantial enforcement problems that have arisen in that regard in the past. The authority to authorize a deviation from the 100-percent requirement has, however, been vested in the Area Directors rather than in the Director, Office of Contracts and Grants, Health Services Administration. The Department of the Interior suggestion that a rigid 100-percent requirement in that regard be imposed is not deemed to be mandated by the Buy Indian Act. The definitive regulations provide a flexibility in that regard that is designed to give maximum effect to the preferences provided for Indians in the law.

The suggestions that the term "joint venture" be specifically defined have been rejected as unnecessary to protect Indian firms and as restricting opportunities for encouraging the expansion and development of Indian firms.

The definitive regulations specify that their application is limited to procurement by the Indian Health Service, U.S. Public Health Service, and the requirement for a certification of individual Indians has been omitted as being unnecessary. Other amendments of a minor editorial nature have been made. The text of the new subpart, modified where appropriate to reflect the comments of interested parties, reads as follows:

1. Contents of Part 3–4 are amended to add a new Subpart 3–4.57.

Subpart 3–4.57—Negotiated Procurement under the Buy Indian Act

Sec.	
3–4.5700	Scope of subpart.
3–4.5701	Policy.
3–4.5702	Definitions.
3–4.5702–1	Indian.
3–4.5702–2	Indian Firm.
3–4.5702–3	Product of Indian Industry.
3–4.5702–4	Buy Indian Contract.
3–4.5703	Requirements.
3–4.5704	Competition.

2. Subpart 3–4.57 is added to Part 3–4 and reads as set forth below:

Subpart 3–4.57—Negotiated Procurement under the Buy Indian Act

§ 3–4.5700 Scope of subpart.

This subpart sets forth policy on preferential purchasing from Indians under the negotiating authority of the Buy Indian Act. Applicability of this subpart is limited to procurements made by the Indian Health Service, U.S. Public Health Service.

§ 3–4.5701 Policy.

The Indian Health Service, U.S. Public Health Service, will utilize the negotiating authority of the Buy Indian Act to give preference to Indians whenever the use of that authority is authorized and is practicable. The Buy Indian Act was enacted as a proviso to section 23 of the Act of June 25, 1910, Chapter 431, Pub. L. 313, 61st Congress, 36 Stat. 861, prescribing the application of the advertising requirements of section 3709 of the Revised Statutes to the purchase of Indian supplies. As set out in 25 U.S.C. 47, the Buy Indian Act provides as follows:

> So far as may be practicable Indian labor shall be employed, and purchases of the products of Indian industry may be made in open market in the discretion of the Secretary of the Interior.

The functions, responsibilities, authorities, and duties of the Secretary of the Interior for maintenance and operation of hospital and health facilities for In-

XUM

dians and for the conservation of the health of Indians were transferred to the Secretary of Health, Education, and Welfare on July 1, 1955 by Pub. L. 568, 83d Congress, 42 U.S.C. 2001 et seq. Accordingly, the Secretary is authorized to use the Buy Indian Act in the purchase of the products of Indian industry in connection with the maintenance and operation of hospital and health facilities for Indians and the conservation of the health of Indians. This authority has been delegated exclusively to the Indian Health Service and is not available for use by any other HEW component.

§ 3–4.5702 Definitions.

§ 3–4.5702–1 Indian.

Indian means a member of any tribe, Pueblo, band, group, village or community that is recognized by the Secretary of the Interior as being Indian or any individual or group of individuals that is recognized by the Secretary of the Interior or the Secretary of Health, Education, and Welfare. The Secretary of Health, Education, and Welfare in making such determination may take into account the determination of the tribe with which affiliation is claimed.

§ 3–4.5702–2 Indian Firm.

An Indian firm means any sole enterprise, partnership, corporation, or other type of business organization that is owned or controlled by one or more Indians or by an Indian firm.

§ 3–4.5702–3 Product of Indian Industry.

The product of Indian industry means anything produced by Indians through physical labor or by intellectual effort involving the use and application by them of skills.

§ 3–4.5702–4 Buy Indian Contract.

Buy Indian contract means any contract involving activities covered by the Buy Indian Act that is negotiated under the provisions of 41 U.S.C. 252(c)(15) and 25 U.S.C. 47 between an Indian firm and a contracting officer representing the Indian Health Service, U.S. Public Health Service.

§ 3–4.5703 Requirements.

(a) *Indian ownership.* The degree of ownership or control over an Indian firm by an Indian or Indian tribe that is called for by § 3–4.5702–2 shall be 100 percent during the period covered by a Buy Indian contract unless a deviation from that 100 percent requirement is approved on an individual basis by the Area Director of the appropriate Area Indian Health Service in which the contract is being negotiated together with an appropriate justification for such a deviation.

(b) *Joint ventures.* Indian firms may enter into joint ventures with other entities for specific projects as long as an Indian firm is the managing partner. The joint venture must, however, be approved by the contracting officer prior to its negotiating a contract under the Buy Indian Act.

(c) *Indian employment.* Contracts and subcontracts thereunder, negotiated under the Buy Indian Act shall contain a clause requiring the maximum practicable amount of Indian employment under the circumstances and may specify the minimum percentage of Indian labor determined by the contracting officer to be reasonable under the circumstances considering the type of work involved, and the availability of Indian labor and skills for that type of work.

(d) *Bonds.* In the case of contracts for the construction, alteration, or repair of public buildings or public works, performance and payment bonds are required by the Miller Act (40 U.S.C. 270a) and §§ 1–10.104 and 1–10.105 of this title. In the case of contracts with Indian tribes or public nonprofit corporations serving as governmental instrumentalities of an Indian tribe, such bonds are not required except in relation to private business entities even if they are owned by an Indian tribe or members of an Indian tribe, and may be required of private business entities who are joint venturers with, or subcontractors of, an Indian tribe or a public nonprofit corporation serving as a governmental instrumentality of an Indian tribe. A bid guarantee or bid bond is required only when a performance or payment bond is required.

(e) *Subcontracting.* Not more than 50 percent of the work to be performed under a prime contract negotiated pursuant to the Buy Indian Act shall be subcontracted to one other than an Indian firm. For this purpose, work to be performed does not include the providing of materials, supplies, or equipment.

(f) *Wage rates.* A determination of the minimum wage rates by the Secretary of Labor as required by the Davis-Bacon Act (40 U.S.C. 276a–276a–5) shall be included in all contracts negotiated under the Buy Indian Act for over $2,000 for construction, alteration, or repair, including painting and decorating, of public buildings and public works, except contracts with Indian tribes or public nonprofit corporations serving as governmental instrumentalities of an Indian tribe. Such a determination is to be included in contracts with private business entities even if they are owned by an Indian tribe or members of an Indian tribe and in connection with joint ventures with, or subcontractors of, an Indian tribe or a public nonprofit corporation serving as a governmental instrumentality of an Indian tribe.

§ 3–4.5704 Competition.

(a) Contracts negotiated under the Buy Indian Act shall be subject to competition among Indians to the maximum extent that competition is determined by the contracting officer to be practicable, pursuant to §§ 1–1.301–1 and 1–3.101(d) of this title. When competition is determined not to be practicable, a Justification for Noncompetitive Procurement shall be prepared in accordance with § 3–3.802–50 of this chapter and retained in the contract file.

(b) Notwithstanding the provisions of § 3–3.802–50 of this chapter, requests for approval of procurements to be negotiated under the Buy Indian Act in activities covered by that Act may, if $25,000 or less, be approved by the Chief of the procurement office, or, if over $25,000, by the official in charge of the office one level above the procurement office.

(5 U.S.C. 301; 40 U.S.C. 486(c))

Effective Date: The provisions of this amendment shall be effective February 3, 1975.

Dated: January 27, 1975.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

[FR Doc.75–3057 Filed 1–31–75;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 75–74]

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

Digital Modulation Techniques

1. On September 27, 1974, the Commission released a report and order in the proceedings in Docket No. 19311 (FCC 74–985) concerning rules for use of digital modulation techniques in common carrier microwave radio.

2. One of the new rules specified requirements for out-of-band emission limitations for digital modulated systems. Recently it has been brought to our attention that the requirement specified in § 21.106(a)(2)(ii) may be more stringent than necessary. The rule requires emission levels of frequencies removed from the center frequency by more than 250 percent to be attenuated to values considerably less than 50 microwatts in the case of low output power transmitters. It appears unreasonable to require such attenuation in light of the difficulty and cost involved in constructing a filter network which would be required. In addition, the requirement is not in accord with the general requirement in Part 21, which stipulates that spurious emissions removed from the assigned frequency by more than 250 percent of the authorized bandwidth be attenuated $43+10\ \mathrm{Log}_{10}$ (mean power output) dB or 80 dB, whichever is the lesser attenuation.

3. In view of the foregoing, we believe it advisable to modify paragraph (a) of § 21.106 to preclude any potential difficulties manufacturers may encounter in designing equipment, and to bring the rules for digital modulation into conformance with the general provisions of Part 21.

4. Also, we will take this opportunity to correct footnote 2 to rule § 21.101 to include "grandfather" rights to microwave radio equipment in the 11 GHz common carrier frequency range with .05 percent frequency tolerance. As indicated in paragraph 18 of the second report and order in Docket No. 18920 (47 FCC 2d 737), it was our intention to "grandfather" equipment authorized prior to the institution of the new .005 percent tolerance figure. However, the wording of footnote 2 unintentionally omitted this category of equipment.

5. In view of the foregoing, we are of the opinion that the rule modifications discussed above are in the public interest and, pursuant to section 553(b) of the Administrative Procedure Act, that it is unnecessary to give prior notice thereof because of the minor nature of the matters involved and the consistency of these changes with other rules and previously announced policy. Accordingly, *it is hereby ordered,* Pursuant to authority contained in sections 4(i), 303 and 403 of the Communications Act of 1934, as amended, Part 21 of the Commission's rules is amended as reflected in the appendix attached hereto, effective March 7, 1975.

(Secs. 4, 303, 403, 48 Stat., as amended, 1066, 1082, 1094; 47 U.S.C. 154, 303, 403)

Adopted: January 21, 1975.

Released: January 29, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 21 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In § 21.101, change the second sentence of footnote 2 to read as follows:

§ 21.101 Frequency tolerance.

* * * * *

* * * * Until that date new equipment may be authorized with a frequency tolerance of .03 percent in the frequency range 2,200 to 10,500 MHz and .05 percent in the range 10,500 MHz to 12,200 MHz, and equipment so authorized may continue to be used for its life provided that it does not cause interference to the operation of any other licensee. * * *

* * * * *

2. In Section 21.106, change paragraph (a)(2) to read as follows:

§ 21.106 Emission limitations.

(a) * * *

* * * * *

(2) When using transmissions employing digital modulation techniques (See § 21.122):

(i) For operating frequencies below 15 GHz, in any 4 kHz band, the center frequency of which is removed from the assigned frequency by more than 50 percent up to and including 250 percent of the authorized bandwidth: As specified by the following equation but in no event less than 50 decibels. $A=35+0.8(P-50)+10\ \mathrm{Log}_{10}B$. (Attenuation greater than 80 decibels is not required.)

Where:
A=Attenuation (in decibels) below the mean output power level.
P=Percent removed from the carrier frequency.
B=Authorized bandwidth in MHz.

(ii) For operating frequencies above 15 GHz, in any 1 MHz band, the center frequency of which is removed from the assigned frequency by more than 50 percent up to and including 250 percent of the authorized bandwidth: As specified by the following equation but in no event less than 11 decibels. $A=11+0.4(P-50+10\ \mathrm{Log}_{10}B$. (Attenuation greater than 56 decibels is not required.)

(iii) In any 4 kHz band, the center frequency of which is removed from the assigned frequency by more than 250 percent of the authorized bandwidth: At least $43+10\ \mathrm{Log}_{10}$ (mean output power in watts) decibels, or 80 decibels, whichever is the lesser attenuation.

* * * * *

[FR Doc.75–3035 Filed 1–31–75;8:45 am]

[FCC 75–86; Docket No. 19795, RM–2014]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations, Rapid City, South Dakota

1. The Commission here considers the notice of proposed rule making, adopted July 26, 1973 (38 FR 20627), proposing amendment of the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) by adding Channel 262 as a third FM assignment at Rapid City, South Dakota. Those filing comments are the petitioner, James E. Taylor (Taylor), licensee of daytime-only AM Station KIMM, Rapid City; Ray J. Aldrich, William A. Goodhope, Robert A. Gunderson, and Bruce H. Lien (Aldrich et al.); James River Broadcasting Company (James River), licensee of Stations KKLS and KKLS–FM (Channel 230), Rapid City; and Sturgis Radio Company, Inc. (Sturgis), licensee of FM Station KBHB, Sturgis, South Dakota. Aldrich, et al. support the addition of a third FM channel at Rapid City; James River and Sturgis oppose the proposed assignment.

2. Rapid City, the second largest city in South Dakota, has a population of 43,836;[1] it is the seat of Pennington County, population 59,349. Seven aural broadcast stations are licensed there: FM Stations KKLS–FM and KVSR(FM); four commercial AM stations—two full-time (KOTA and KRSD) and two daytime-only (KKLS and KIMM); and noncommercial educational FM Station KTEQ. In support of the proposed amendment, Taylor in large part relies on his petition which initiated this proceeding.

3. Taylor contends that Rapid City is entitled to a third Class C FM assignment because the population on a year-round basis is higher than the official figures would indicate. In this respect, petitioner—as well as other parties—recognize that under the population criteria a city the size of Rapid City normally would have only two FM channel assignments.[2] Taylor contends that the population of nearby Ellsworth Air Force Base (AFB), which is said to be 14,000, should be considered that Rapid City is a convention and tourist area.[3] Additionally, petitioner asserts that Rapid City is a large and expanding industrial community and that a third FM assignment is necessary in order for Station KIMM to fully compete with the other full-time aural broadcast stations in Rapid City. Finally, as concerns the Roanoke Rapids doctrine (9 F.C.C. 2d 672 (1967)), referred to specifically in the notice, petitioner's engineering showing indicates that from a site about one mile southwest of Rapid City (where the other FM stations are sited) it proposes a station with 100 kw power with an antenna height of 480 feet a.a.t. which would provide a second FM service to 351 persons in an area of 241 square miles.

4. Aldrich, et al. make similar arguments. They point to the 1973 Chamber of Commerce estimate of population for Rapid City as 45,800 and refer to the population of Ellsworth AFB as being 15,000. They say that Rapid City has grown substantially since 1950 and that it is the hub of a market area for a dynamic agricultural industry and that retail sales in 1971 exceeded $150 million. They allege that they would apply for a station with 100 kW power at 910 feet antenna height (a.a.t.) which would serve an area of 6,790 square miles and a population of 101,000. Their engineering showing indicates that such a station would furnish a first FM service to 1,800 persons in an area of 813 square miles (unserved area) and a second FM service to 503 persons in an area of 305 square miles (underserved area).[4] In the latter respect, Aldrich, et al. urge that this additional service is particularly significant because the population density of South Dakota is approximately 2.1 persons per square mile. Accordingly, they would condition the asisgnment of a channel to a station with 100 kW power and an antenna height of 910 feet. They argue that the population criteria are not decisive in view of the Commisison's decisions stating that those criteria are only guidelines.[5] In any event, they assert that the actual population is in excess of

[1] All population data are from the 1970 Census unless otherwise indicated.

[2] See Paragraph 4 of the further notice of proposed rule making in Docket No. 14185, adopted July 25, 1962 (FCC 62–876), incorporated by reference in the Third Report, Memorandum Opinion and Order (40 F.C.C. 747, 758 (1963)).

[3] We are told that Mt. Rushmore (about 20 miles west southwest of Rapid City) is one of the principal attractions.

[4] Taylor's showing is made by the more precise prediction method of average elevation on specified radials used in applying for a construction permit. The showing of Aldrich et al. is based on the average of the average over eight radials which, while less precise, is generally acceptable for channel assignment purposes.

[5] Cited in support are Fresno, 38 F.C.C. 2d 525 (1973); Yakima, 42 F.C.C. 2d 548 (1973); and Melbourne, 47 F.C.C. 2d 717 (1974).

XUM
V40123
FEB 3 75
XUM

50,000 if one includes both the college student populations at Rapid City and the population of Ellsworth AFB.

5. As already noted, James River and Sturgis (respectively licensees of FM stations at Rapid City and Sturgis) oppose the addition of a third Class C channel assignment to Rapid City. James River says that the arguments of Aldrich et al. are contrived and unrealistic, and fallacious when they urge the addition of a channel to any city which already has multiple local broadcast stations on the pretext of serving small unserved and/or underserved areas just beyond the service contours of existing stations. In this respect, James River points out that the underserved areas are close to cities with AM service, specifically AM Stations KASL (Class IV) at Newcastle, Wyoming, and KOBH (daytime-only) at Hot Springs, South Dakota. James River states that if the Commission is of the opinion that the assignment of Channel 262 is warranted because Aldrich et al. would serve an area not presently served by the Rapid City stations it commits itself to applying for a modification of facilities to provide extended coverage. Similarly, Sturgis would increase power presumably for the purpose of diminishing the amount of unserved and underserved areas that a new channel at Rapid City might serve, and in fact it has applied for increase of power from 25 to 52 kW (BPH-8671). In James River's view, the key question is population criteria. James River also urges that the assignment of a third Class C channel to Rapid City would have an adverse economic impact because of limited revenue for eight commercial broadcast stations.

6. Also before us for consideration is the petition of Aldrich et al. for leave to file reply comments, to which Sturgis consents. Aldrich et al. object to the reply comments filed by James River and Sturgis and it asks for an opportunity to respond. We need not consider this petition in view of our disposition here. However, in passing, we agree with the contention of Aldrich et al. that the practice of some in FM rule making proceedings whereby they reserve what in effect are comments until they file reply comments thus barring other parties from replying without seeking special permission is not conducive to orderly procedure.

7. James River questions whether the Roanoke Rapids doctrine is applicable here. There, we were concerned with the assignment of a Class C channel to a community normally entitled to a Class A channel. We decided that such an assignment was appropriate if there would be service to substantial unserved and underserved areas based on certain assumptions. This doctrine was recently revised in Anamosa and Iowa City, 44 F.C.C. 2d 520, 525-6 (1974) (see also Oak Ridge, 32 F.C.C. 2d 937, 942 (1972)) to consider nighttime AM service in making a determination of unserved and underserved areas. (In this respect, we would have to disregard service from daytime-only Station KOBH at Hot Springs and Class IV Station KASL would have little effect as we proceeded here on the basis of service to unserved and underserved areas.) We do not agree with James River that the Roanoke Rapids doctrine is not applicable to a situation where it is proposed that another Class C channel be assigned to a community which already has that class facility. The fact that each is identic in capability does not mean that there is no potential for different service. For example, if each were sited at different points (e.g., in opposite directions) far from the principal community even with similar powers and heights, there would be different predicted service area contours. In the instant case, disregarding the difference in height(s) and power(s) that Taylor and Aldrich et al. propose to operate on, there is a substantial difference as to area and population coverage even considering only the five mile difference between the transmitter sites each proposes. Thus, a new Class C station could provide service to unserved and underserved areas which the existing Class C station(s) do not. However, we need not venture into hypothetical issues of this sort.

8. As urged by the proponents of the addition of Channel 262 at Rapid City, population is considered more of a guideline rather than an immutable standard in making assignments.[6] Thus, additional channels have been assigned comporting with or exceeding population criteria if there is no problem about channel availability. In this respect, it is clear that Channel 262 may be assigned to Rapid City without any adverse effect on assignments elsewhere. While, as our notice pointed out, there is some preclusion, there is an ample number of channels that could be assigned to the communities in the preclusion area which do not already have channel assignments.[7] In the circumstances, we here determine that the public interest, convenience, and necessity would be served by the assignment of Channel 262 to Rapid City. To the extent that we were considering another channel assignment on the basis of a Roanoke Rapids showing, even if Station KBHB is allowed to increase power as applied for, this will have little impact on service area although there will be an improvement of that station's signal quality. As already noted, a station on Channel 262 could serve areas that KKLS-FM may not reach depending on transmitter site. Nor is the proposal of Aldrich et al. that the assignment be conditioned as to minimum power and height (100 kW power and an antenna height of 910 feet (or equivalent)) necessary in the circumstances.

9. The argument that Rapid City cannot support another broadcast facility is a specious one at least to the extent that James River has included both television and aural broadcast services. If it were germane, we would consider only aural service. However, we have consistently held that issues of economic injury are properly deferred for resolution at the application stage rather than in a rule making context. See "F.C.C. v. Sanders Brothers Radio Station", 309 U.S. 470 (1940); "Carroll Broadcasting Co. v. F.C.C.", 258 F. 2d 440 (D.C. Cir. 1958); Adrian, 37 F.C.C. 2d 1021 (1972); and Melbourne, 47 F.C.C. 2d 717 (1974). We also should point out that Taylor's argument that Channel 262 should be assigned to Rapid City in order that Station KIMM may more fully compete is not persuasive; FM channel assignments are not made for a particular party's economic benefit but rather to serve the overall public interest.

10. In accordance with the foregoing, *it is ordered*, That the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) is amended effective March 7, 1975, as concerns Rapid City, South Dakota, to read as follows:

City	Channel No.
Rapid City, S. Dak.	230, 250, 262

Authority for the action taken herein is contained in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended.

11. *It is further ordered*, That the motion of Ray J. Aldrich, William A. Goodhope, Robert A. Gunderson, and Bruce H. Lien for leave to file reply comments is denied.

12. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: January 21, 1975.

Released: January 29, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-3036 Filed 1-31-75;8:45 am]

[6] See also Colorado Springs, 44 F.C.C. 2d 1047, 1054 (1974); and Pensacola, 44 F.C.C. 2d 1056, 1061 (1974).

[7] As to the argument of Aldrich et al. about the tremendous growth of Rapid City, it should be noted that there has been only a 3.4 percent population growth since 1960 (population 42,399) and the FM Table of Assignments was established in 1963 based on the 1960 Census' population. See Third Report, Memorandum Opinion and Order in Docket No. 14185 (40 F.C.C. 747).

[FCC 75-54; Docket No. 19961; RM-2130]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations, Springfield, Illinois

1. The Commission here considers the notice of proposed rule making in this docket, adopted March 6, 1974 (Mimeo No. 10671; 39 FR 9991), proposing amendment of the FM Table of Assignments (Section 73.202(b) of the Commission's rules and regulations) by assigning Channel 254 to Springfield, Illinois, as its fourth FM channel assignment. The parties commenting are petitioner, Eastern Broadcasting Corporation (licensee of Springfield Station WCVA(AM)) and party in opposition, Prairieland Broadcasters of Decatur, Inc. (licensee of Decatur, Illinois, Station WDZ(AM)).

2. Springfield, population 91,753, the state capital, is located in Sangamon County, population 161,335, which constitutes the Springfield Standard Metropolitan Statistical Area (SMSA). Aural broadcast service at Springfield consists of three unlimited time AM stations (WCVS, WMAY, and WTAX) and three Class B FM stations (WFMB(FM), WVEM(FM), and WDBR(FM)).

3. The notice included numerous facts concerning Springfield's population and economic growth that petitioner alleged in support of its position; the community's diverse industrial economy, large wholesale and retail market for the surrounding agricultural areas, and growth as an educational center. Adoption of petitioner's proposal would, although it does not require changing other existing assignments, preclude future assignments in a limited area on Channels 252A, 253, 254 and 257A. The preclusion on Channel 253 occurs in a rural area, and that on 254 in an area immediately southwest of Springfield. The preclusion occurring on Channels 252A and 257A would affect Decatur, Illinois (population 90,397). The current local aural broadcast services for Decatur are provided by 3 stations, two of which, viz. WSOY(AM) and WSOY-FM, offer night-time service and are owned by Decatur's local newspaper company.

4. Prairieland's comments in opposition relate to the preclusion of Channel 257A as a future Decatur assignment. It requests that Channel 257A be assigned to Decatur or, in the alternative, that petitioner's proposal be adopted with the proviso that the tower for the Springfield station that would operate on Channel 254 be located so that Channel 257A may be used in Decatur at Prairieland's present station, WDZ(AM), tower.

5. Prairieland alleges that the Decatur growth rate is approximately 16 percent while that of Springfield is 10 percent. This greater growth rate, when considered in light of the fact that Decatur has half as many local broadcast facilities as Springfield, compels, according to Prairieland, adoption of one of its alternative proposals.

6. The Commission believes that Channel 254 should be assigned to Springfield. Adequate evidence, the economic and population data presented in the notice, has been adduced by petitioner to demonstrate that the public interest would be served by assigning a fourth Class B channel to Springfield. The community's population comes within this Commission's population guidelines.[1] The transmitting tower site for a Springfield station operating on Channel 254 is already restricted to locations south and southwest of that community. The area so located, which also meets all spacing requirements and could still provide the required signal coverage encompasses over 100 square miles. While we cannot, at this time, determine the precise location of the Channel 254 tower, we can say that a future Channel 257A assignment to Decatur would not be impossible if the tower for a Channel 257A station were located 5 miles southeast of Decatur.

7. An additional channel is available for future Decatur assignment, 252A. The transmitting tower for a station operating on this channel could not, however, be located at the site of Prairieland's WDZ(AM) tower. There is, however, more latitude in selecting a Decatur transmitter site for a station operating on Channel 252A than on 257A (see para. 6).

8. Petitioner, in its reply to Prairieland's comments in opposition, stated that to prefer Decatur in this proceeding would be to offend the Commission's policy against intermixture of classes of assignments in a community. We do not agree. In Yakima, Washington, 42 F.C.C. 2d 548 (1973), we reiterated our position concerning intermixture.

> • • • [W]e adhere to intermixture to the extent possible but that to continue to do so with the FM assignments becoming scarce in some areas would be a vain effort aimed at equality and parity of service inconsistent with more important public interest • • • considerations. 42 F.C.C. 2d 548 at 550.

The Commission will assign a Class A channel when no further Class B or C channels may be assigned.[2]

9. We believe that Channel 254 should be assigned to Springfield, Illinois. Since it has been shown that Channels 252A and 257A are available to Decatur, even though that community is within the precluded area, and Springfield's growing economic and population needs, generated by reason of its being the capital of Illinois, deserve the local services of a fourth FM assignment, the public interest would be served by the assignment.

10. In view of the foregoing, *it is ordered*, That effective March 7, 1975, the FM Table of Assignments (Section 73.202(b) of the Commission's rules and regulations) is amended to read as follows:

City	Channel No.
Springfield, Ill.	254, 270, 279, 283

11. Authority for the adoption of the amendment contained herein appears in sections 4(i), 303 and 307(b) of the Communications Act of 1934, as amended.

12. *It is further ordered*, That the requests of Prairieland to assign Channel 257A to Decatur in lieu of assigning Channel 254 to Springfield or, alternatively, to grant Eastern's request conditional upon a transmitter location which would not preclude a future 257A channel assignment at Decatur is denied.

13. *It is further ordered*, That this proceeding is terminated.

[1] See para. 4 of the further notice of proposed rule making in Docket No. 14185, adopted July 25, 1962 (FCC 62-867), and incorporated by reference in para. 25 of the Third Report, Memorandum Opinion and Order (40 F.C.C. 747, 758 (1963)).

[2] In its Petition for Reconsideration of the Commission's Fourth Report and Order, 25 R.R. 2d 1654 (1972), Prairieland noted that there appears to be no further Class B assignments that can be made to Decatur.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: January 15, 1975.

Released: January 27, 1975.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Back Bay National Wildlife Refuge, Virginia

The following special regulations are issued and are effective during the period from February 1, 1975 through December 31, 1975.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

VIRGINIA

BACK BAY NATIONAL WILDLIFE REFUGE

Entry on foot or by motor vehicle on designated travel routes in the public use areas is permitted for the purpose of nature study, sightseeing, wildlife observation, photography, hiking, surf fishing, and bicycling during daylight hours. Swimming and surfing are permitted only on that portion of the beach lying between the north boundary of the refuge and the dune crossing at the field headquarters. No lifeguards are provided. Swimming and surfing will be at the visitor's own risk. The parking lot at the field headquarters is reserved for persons engaged in surf fishing and nature study. Surf fishing is permitted in accordance with applicable State regulations.

Open fires are not permitted. Portable grills with a contained fuel supply are permitted on the beach north of the field headquarters. Pets on a leash not exceeding 10 feet in length are permitted on the refuge public use areas.

Bicycles and registered motor vehicles are permitted on the refuge access road and parking area. Snowmobiles, air cushion, all-terrain, unregistered motorcycles, or other similar vehicles are not permitted on the refuge. No vehicles are permitted on the beach except as authorized by permit in accordance with special regulations.

The refuge, comprising approximately 4,600 acres, is delineated on a map available from the Refuge Manager, Back Bay National Wildlife Refuge, Pembroke #2 Bldg., Suite 218, 287 Pembroke Office Park, Virginia Beach, Virginia 23462, or from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massauchusetts 02109.

The provisions of this special regulation supplement the regulations which

XUM
V40-023
FEB 3 75
XUM

govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

WM. C. ASHE,
Acting Regional Director,
U.S. Fish and Wildlife Service.

JANUARY 27, 1975.

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket 74-40; Notice 2]

PART 582—INSURANCE COST INFORMATION REGULATION

Distribution to Prospective Purchasers

This notice establishes an insurance cost information regulation pursuant to the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 *et seq.*). The regulation is based upon a notice of proposed rulemaking published November 4, 1974 (39 FR 38912) and comments submitted in response to the notice.

The regulation will require automobile dealers to distribute to prospective purchasers information which compares differences in insurance costs for different makes and models of passenger motor vehicles based upon differences in their damage susceptibility and crashworthiness. In the absence of insurance cost information that reflects damageability and crashworthiness, this rule does not, at the present time, have an effect on automobile dealers. Damage susceptibility and crashworthiness studies currently being conducted by the NHTSA are expected to influence the insurance rate structure by providing data which will enable the insurance industry to take these factors into account. As this occurs, the NHTSA will prepare comparative indices for the dealers to distribute to prospective purchasers.

Several comments on the proposed rulemaking discussed the merits of the Motor Vehicle Information and Cost Savings Act and are therefore beyond the scope of this rulemaking. Other comments offered methods for performing the damage susceptibility and crashworthiness studies. These comments have been forwarded to the technical staff performing the studies. Two comments suggested minor changes in the text of the regulation for clarity and to make the proposed regulation more consistent with the purposes of the Act. These suggestions have been adopted in the final regulation. Their effect is that the insurance cost information disseminated by the dealers would be in the form of comparative indices, based on differences in damage susceptibility and crashworthiness, rather than simply the insurance premium rate which is determined by many factors.

One comment expressed the view that providing this information to consumers within 30 days after its publication in the FEDERAL REGISTER was an excessive burden upon the dealers. The NHTSA does not believe that sufficient justification for this position has been made in light of the need to provide the information to the consumer in time for it to be of use to him in purchasing an automobile.

Therefore, a new Part 582, Insurance Cost Information, is added in Chapter V, Title 49, Code of Federal Regulations, to read as set forth below.

Effective date: Although the final rule is effective February 1, 1975, as specified in the Cost Savings Act, the dates when automobile dealers will be required to distribute insurance cost information are dependent upon NHTSA progress in developing such information and will be published at a later date in the FEDERAL REGISTER.

(Sec. 201(c), Pub. L. 92-513, 86 Stat. 947, 15 U.S.C. 1941(e)); delegation of authority at 49 CFR 1.51)

Issued on January 31, 1975.

JAMES B. GREGORY,
Administrator.

§ 582.1 Scope.

This part requires automobile dealers to make available to prospective purchasers information reflecting differences in insurance costs for different makes and models of passenger motor vehicles based upon differences in damage susceptibility and crashworthiness, pursuant to section 201(e) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1941(e)), herein "the Cost Savings Act."

§ 582.2 Purpose.

The purpose of this part is to enable prospective purchasers to compare differences in auto insurance costs for the various makes and models of passenger motor vehicles, based upon differences in damage susceptibility and crashworthiness, and to realize any savings in collision insurance resulting from differences in damageability, and any savings, in medical payment insurance resulting from differences in crashworthiness.

§ 582.3 Definitions.

(a) *Statutory definitions.* All terms used in this part which are defined in section 2 of the Cost Savings Act are used as so defined.

(b) *Definitions used in this part.* (1) "Automobile dealer" means any person who engages in the retail sale of new or used automobiles as a trade or business.

(2) "Collision insurance" means insurance that reimburses the insured party for physical damage to his property resulting from automobile accidents.

(3) "Insurance cost" means the insurance premium rate, as expressed in appropriate indices, for collision and medical payment, including personal injury protection in no-fault states.

(4) "Medical payment insurance" means insurance that reimburses the insured party for medical expenses sustained by himself, his family, and his passengers in automobile accidents.

§ 582.4 Requirements.

(a) Each automobile dealer shall provide the insurance cost information specified in § 582.5 for examination by prospective purchasers at each location where he offers vehicles for sale.

(b) The information shall be provided without charge and in sufficient quantity to have it available for retention by prospective purchasers, within 30 days after its publication in the FEDERAL REGISTER.

(c) The information shall be in English and, if a significant portion of the prospective purchasers do not speak English, in the non-English language most widely spoken by prospective purchasers.

§ 582.5 Insurance cost information form.

The insurance cost information provided pursuant to § 582.4 shall be presented as follows: [Form to be specified].

[FR Doc.75-3194 Filed 1-31-75;10:47 am]

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

PART 1033—CAR SERVICE

Amendment No. 3 to Fifth Revised Service Order No. 1043, Regulations for Return of Hopper Cars

JANUARY 29, 1975.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 23rd day of January 1975.

Upon further consideration of Fifth Revised Service Order No. 1043 (38 FR 18659, 35001 and 39 FR 24373), and good cause appearing therefor:

It is ordered, That: Fifth Revised Service Order No. 1043 be, and it is hereby amended by substituting the following paragraph (g) for paragraph (g) thereof:

§ 1033.1043 Regulations for return of hopper cars.

. . . . . .

(g) *Expiration date.* This order shall expire at 11:59 p.m., July 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., January 31, 1975.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10-17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That copies of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-3078 Filed 1-31-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[7 CFR Part 1844]

[FmHA Instruction 449.1]

RURAL HOUSING LOANS

Policies and Procedures for Loan Guarantees

Notice is hereby given that the Farmers Home Administration (FmHA) has under consideration amending Subchapter D, Guaranteed Loans, by adding a new Part 1844, "Rural Housing Loans." This new Part 1844 implements the guaranteed Rural Housing loan programs authorized by Title V of the Housing Act of 1949, as amended (42 U.S.C. 1471, et seq.), and section 310C of the Consolidated Farm and Rural Development Act (7 U.S.C. 1933), as amended by Pub. L. 92-419, the "Rural Development Act of 1972." This new Part sets out the policies and procedures for guaranteeing loans made by private lenders to provide single family dwellings and multifamily rental units in rural areas.

The purpose of guaranteeing loans is to enable use of private funds, rather than Government funds, in making loans, and to reduce Government administrative costs by having private lenders make and service the loans. Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment to the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6315, South Building, Washington, D.C. 20250. Comments will be received on or before March 5, 1975. All written submissions made pursuant to this notice will be made available for public inspections at the Office of the Chief, Directives Management Branch during regular business hours (8:15 a.m.-4:45 p.m.).

As proposed, the new Part 1844 will read as follows:

PART 1844—RURAL HOUSING LOANS

Sec.
1844.1 Definitions.
1844.2-1844.4 [Reserved]
1844.5 Types of RH loans and occupants.
1844.6 Relationship with insured loans (including priorities).
1844.7-1844.9 [Reserved]
1844.10 SF eligibility requirements.
1844.11 Veterans' preference in SF cases.
1844.12 SF loan purposes.
1844.13 Prohibited SF loan purposes.
1844.14 SF loan limitations and special provisions.
1844.15 SF rates, terms, and security.
1844.16 SF loans on leasehold interests.
1844.17-1844.19 [Reserved]
1844.20 MF eligibility requirements—applicants and tenants.
1844.21 MF loan purposes.
1844.22 Prohibited MF loan purposes.
1844.23 MF loan limitations and special provisions.
1844.24 MF rates, terms, and security.
1854.25 MF loans on leasehold interests.
1844.26-1844.29 [Reserved]
1844.30 Preapplication in all MF cases and in certain SF packaged cases.
1844.31-1844.34 [Reserved]
1844.35 Clearinghouse considerations in certain SF and MF cases.
1844.36 Environmental impact requirements in certain SF and MF cases.
1844.37-1844.39 [Reserved]
1844.40 SF application for loan.
1844.41 MF application for loan.
1844.42-1844.44 [Reserved]
1844.45 SF and MF guarantee commitments and interim financing.
1844.46 Acquisition, construction, and development.
1844.47 Inspections of construction, also compliance reviews.
1844.48 Review of appraisals.
1844.49 [Reserved]
1844.50 Processing contracts of guarantee.
1844.51-1844.55 [Reserved]
1844.56 Equal opportunity and nondiscrimination in SF and MF cases.
1844.57-1844.58 [Reserved]
1844.59 Loan servicing in SF and MF cases.
1844.60 Transfer and assumption in SF and MF cases.
1844.61-1844.65 [Reserved]
1844.66 Liquidation in SF and MF cases.
1844.67-1844.89 [Reserved]
1844.90 Forms and forms distribution in SF and MF cases.
1844.91-1844.99 [Reserved]
1844.100 Guarantee processing steps.

AUTHORITY: 42 U.S.C. 1480; delegation of authority by Sec. of Agri. (7 CFR 2.23); delegation of authority by Asst. Sec. for Rural Development (7 CFR 2.70).

NOTE: This new Part 1844 supplements the provisions of Part 1841 of the regulations with respect to Rural Housing (RH) loans guaranteed by the Farmers Home Administration (FmHA).

§ 1844.1 Definitions.

The following definitions, in addition to those in § 1841.3 of this chapter, are applicable to Rural Housing (RH) loans:

(a) *Family.* One person, or two or more persons related by blood, marriage or operation of law such as adoption or legal guardianship who maintain or will maintain one household.

(b) *Farm and nonfarm tract.* A "farm" includes the total acreage of one or more tracts of land which is owned by the applicant, is operated as a single unit, is in agricultural production, and annually will produce agricultural commodities for sale and home use with a gross value of at least $940 based on 1974 prices. A "nonfarm tract" is a parcel of land that is not a farm and is located in a rural area. A building site that is cut out of a farm, will be considered a nonfarm tract.

(c) *FmHA.* The United States of America acting through the County Supervisor or Acting County Supervisor serving the county involved or through the State Director or Acting State Director serving the State involved, unless otherwise indicated in this Part 1844.

(d) *Housing.* An adequate single family dwelling and related essential equipment and facilities for which loans are authorized in § 1844.12, or an adequate multifamily dwelling and related essential equipment and facilities for which loans are authorized in § 1844.21. The term housing also includes an adequate site and related easements and appurtenances owned or being acquired by the applicant, unless more specific terminology is used.

(e) *Minimum adequate site.* A "minimum adequate site" is the smallest area sufficient for the dwelling and related facilities to be built, purchased or refinanced, and a yard.

(1) In case of purchase of a site on which to construct a dwelling or purchase a new dwelling and site, the site should be not more than one acre of nonincome-producing land, unless more than one acre is needed to comply with local code requirements or to provide for a safe and adequate water supply or waste disposal system.

(2) In case an existing dwelling and site is being purchased or debts are being refinanced, the site may, under the following conditions, include more than one acre but not more than a few acres of nonincome-producing land.

(i) In a case where an existing dwelling is being purchased, the seller will sell the dwelling only with the entire site on which it is located and the cost of extra land is not a substantial portion of the loan, or

(ii) In a refinancing case, the extra land cannot be sold for a significant amount.

(3) In all cases, the buying of a site of more than one acre must be fully justified and the reasons recorded in the loan docket.

XUM
V40-23
FEB 3 75
XUM

(f) *Owner.* The holder of fee simple title or of a leasehold meeting the requirements of § 1844.16.

(g) *Packager.* A builder, developer, realtor, or other party who obtains and presents to an approved lender, one or more applications from eligible RH applicant(s) for guaranteed RH loan(s) with which adequate housing will be obtained that will be provided under an existing option to purchase or under an existing contract to build or repair at a fixed price.

(h) *Present market value.* The amount a typical purchaser would be willing to pay and would be justified in paying for the property (land or leasehold as improved or to be improved with loan funds). It is assumed that the property would sell for this amount with a reasonable sales effort, and that the purchaser would be a willing but not anxious buyer and the seller would be a willing but not forced seller.

(i) *RH, SF, MF.* RH means "Rural Housing," SF means "Single Family Rural Housing," and MF means "Multifamily Rural Housing." RH loans are made and guaranteed under Title V of the Housing Act of 1949, as amended. Particular reference is made to the following sections of that Act: Section 502 which is 42 U.S.C. 1472, section 515 which is 42 U.S.C. 1485, and section 517 (a) (2) which is 42 U.S.C. 1487(a) (2). With respect to above-moderate income applicants, see also section 310C of the Consolidated Farm and Rural Development Act which is 7 U.S.C. 1933.

(j) *Rural area.* Any place which is not part of or associated with a nonrural area, is rural in character, and:

(1) Has a population not in excess of 10,000 or

(2) Has a population in excess of 10,000 but not in excess of 20,000, is not located in a Standard Metropolitan Statistical Area (SMSA), and has a serious lack of mortgage credit as advised by FmHA.

(3) If there is any question as to whether the area is rural in character, or is located in an SMSA, or has a serious lack of mortgage credit, the question will be submitted to FmHA for decision.

(k) *Security value.* The present market value of the property (land or leasehold as improved or to be improved with loan funds) on which the first lien is offered as security for the loan except in Hawaiian cases in which the security value consists of a guarantee of payment by the Department of Hawaiian Home Lands or its successor in function. The present market value will be reflected by the appraisal.

(l) *Senior citizen.* A person who is 62 years of age or over and, in the case of a married couple, may be either the wife or husband. The term "Senior citizen" refers to age only.

§§ 1844.2–1844.4 [Reserved]

§ 1844.5 Types of RH loans and occupants.

FmHA may guarantee RH loans made by approved lenders to eligible applicants to acquire, construct, repair, improve, or relocate housing of the following types in rural areas:

(a) *SF.* Single family housing to be owner-occupied.

(b) *MF.* Rental housing for eligible tenants.

(c) *Other occupants.* In addition to the SF family or MF tenants, the housing may also be occupied by others in justifiable cases if adequate space, equipment, and facilities are available. For example, a person younger than 62 years of age may reside with a senior citizen if his or her occupancy is necessary for the well being of the senior citizen.

§ 1844.6 Relationship with insured loans (including priorities).

In addition to the general limitations in § 1841.11 of this chapter with respect to other available financing and refinancing, RH loans will not be guaranteed if the cost of the FmHA would exceed its cost in making and servicing (including liquidating) insured loans. Subject to these limitations, the following order of priorities will be observed for each type of RH loan:

(a) *First priority.* Credit from private sources if it is available, except that this requirement is not applicable to above-moderate income SF cases.

(b) *Second priority.* Guaranteed loans if they would be to the financial advantage of the FmHA.

(c) *Third priority.* Insured loans.

§§ 1844.7–1844.9 [Reserved]

§ 1844.10 SF eligibility requirements.

The lender must determine that the applicant meets all the following requirements:

(a) *Resident.* Is a natural person (individual) who is a citizen of the United States or resides in the United States after being legally admitted for permanent residence.

(b) *Legal capacity.* Possesses legal capacity to incur the obligations of the loan.

(c) *Ability and experience.* Possesses ability and experience necessary to carry out the undertakings and obligations required of him in connection with the loan.

(d) *Lack of housing.* Does not own adequate, decent, safe, and sanitary housing for the use of his family. If the loan is to include funds for a site on which to build, he must be without an adequate site for the proposed dwelling.

(e) *Owner occupant.* Is or will become the owner occupant of the housing with respect to which the SF loan is made.

(f) *Income.* Has adequate and dependably available family income to meet the family living expenses, obligations, necessary capital replacements, and repayment of debts including the proposed loan.

(g) *Low or moderate or above-moderate income family.* Is either a "low or moderate income" family or an "above-moderate income" family.

(1) *Low or moderate income family.* A family that has an adjusted current annual income not exceeding the adjusted income applicable to the State in which the housing is or is to be located, does not have sufficient resources to pay the housing costs, and cannot obtain credit for that purpose from other sources on terms and conditions it can reasonably be expected to meet without an FmHA guarantee.

(2) *Above-moderate income family.* A family that has an adjusted current annual income in excess of the adjusted income applicable to the State in which the housing is or is to be located.

(3) *Adjusted current annual family income.* The total current annual family income as determined by the lender, less 5 percent thereof, and less $300 for each minor person except the husband and wife, who is a member of the immediate family and lives in the home. The immediate family includes those persons related to the applicant by blood, marriage, or operation of law such as adoption or legal guardianship. The adjusted current annual family income amount for use in determining whether the applicant falls within the low or moderate, or above moderate, income category for the particular State may be ascertained from any FmHA office.

§ 1844.11 Veterans' preference in SF cases.

Applications received from veterans, and from spouses and children of deceased servicemen, will be given preference over applications of nonveterans on file with the lender at the same time. "Deceased servicemen" means men or women who died in service during one of the periods specified in this section. The term "veteran" means a person who has been discharged or released from the active forces of the United States Army, Navy, Air Force, Marine Corps, or Coast Guard under conditions other than dishonorable and served on active duty in any such force during any of the following:

(a) The period of April 6, 1917, through March 31, 1921.

(b) The period of December 7, 1941, through December 31, 1946.

(c) A period of 180 days or more, any part of which occurred after June 27, 1950.

§ 1844.12 SF loan purposes.

An SF loan may be made to an eligible applicant for such of the following purposes as necessary to enable him to obtain adequate, decent, safe, and sanitary housing in a rural area for the use of his family as a permanent residence:

(a) *Purchase existing dwelling and site.* Buy an existing dwelling and a minimum adequate site on which it is located.

(b) *Purchase site only.* Buy a minimum adequate site on which to place a dwelling, if the applicant does not already own a minimum adequate dwelling site.

(c) *Construct or purchase and relocate dwelling.* Build a dwelling on, or purchase and move an existing dwelling on, a site already owned by the applicant, or on a minimum adequate dwelling site purchased by him with loan funds if he does not already own a minimum adequate dwelling site.

(d) *Rehabilitate or improve existing dwelling.* Repair, enlarge, or otherwise improve or rehabilitate an existing dwelling already owned by the applicant or being acquired with loan funds, whether located on a site already owned by him or acquired by him with loan funds.

(e) *Utilities and facilities.* Provide adequate water, sewer, electric, heating, and other utilities and facilities that are necessary to make the housing adequate.

(f) *Equipment and material.* Purchase and install essential dwelling equipment and material such as a range, refrigerator, clothes washer, clothes dryer, or wall-to-wall carpeting whether or not such equipment becomes real estate or fixtures under applicable State law. In any case in which such equipment is purchased with loan funds, it will be considered a part of the housing.

(g) *Site preparation.* Provide foundation plantings, seeding or sodding of lawns, grading, and other facilities such as walks, yard fences, and driveways to building sites located adjacent to a road or street.

(h) *Real estate taxes.* Pay real estate taxes that are owed by the borrower and that are due and payable at the time of loan closing on the housing property to be given as security, when a loan is being made primarily for other purposes and the amount to be used for taxes is not a substantial part of the loan.

(i) *Expenses, fees, and social security taxes.* Pay expenses incident to obtaining plans and making the loan, such as fees and charges for legal, appraisal, architectural, engineering, and other technical services, closing costs, reasonable connection fees for utilities, such as water, sewer, electric, and gas, and a loan fee as authorized in § 1841.12 of this chapter, which are required to be paid by the borrower and which he cannot pay from other funds. Loan funds may also be used to pay the borrower's share of social security taxes for labor hired by the borrower in connection with making planned improvements.

(j) *Interim financing.* Pay interim financing debts incurred for authorized loan purposes. This is not considered to be refinancing.

(k) *Refinancing.* Refinance debts owed by the applicant which meet all of the following conditions:

(1) Were incurred by the applicant at least 5 years before the application for the SF loan was made.

(2) Were incurred for a purpose for which an SF loan is authorized to be made under another paragraph of this section, or for protective advances in connection with the loan being refinanced.

(3) If not refinanced, likely will result at an early date in loss of the applicant's dwelling; or which, if not refinanced, likely will cause a hardship to the applicant in which case the refinancing will be combined with an SF loan for improvement, rehabilitation, or repair of the dwelling.

§ 1844.13 Prohibited SF loan purposes.

An SF loan will not be guaranteed if loan funds are to be used to purchase furniture or other personal property for dwellings, except essential equipment and material authorized in § 1844.12.

§ 1844.14 SF loan limitations and special provisions.

For an SF loan to be guaranteed:

(a) *Loan limitations.* A loan not exceeding $25,000 may be made up to 100 percent of the present market value of the security. Between $25,000 and $40,000, the loan may be made up to 90 percent of the present market value of the security. No loan in excess of $40,000 will be guaranteed.

(b) *Type of housing.* All housing must meet the following requirements:

(1) Be economical in construction, consistent with the market needs of the community and not of elaborate or extravagant design or material; however, the housing may vary in accordance with the financial resources of the applicant.

(2) Any building purchased, repaired, enlarged, or otherwise improved or rehabilitated with loan funds must be structurally sound, functionally adequate, decent, safe, sanitary, convenient, comfortable, and in good condition before the loan is guaranteed.

(c) *Construction or development.* See § 1844.46.

§ 1844.15 SF rates, terms, and security.

(a) *Interest rate to borrower.* See § 1841.13 of this chapter.

(b) *Loan term.* Each loan will be scheduled for repayment over a period not to exceed 30 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured. If a leasehold is involved, see § 1844.16.

(c) *Security.* (1) The entire loan must be secured by a first lien on the housing, except in cases in which a guarantee of payment by the Department of Hawaiian Home Lands (or its successor in function) is acceptable under the provisions of 7 U.S.C. 1933 (b). Also see § 1844.16 regarding liens on leaseholds.

(2) The security instrument must contain, but is not limited to, the following provisions:

(i) In addition to securing the property described herein, this instrument, in any event and at all times secures the prompt payment of all authorized advances and expenditures made by the lender or holder, with interest, as hereinafter described, and the performance of every covenant and agreement of borrower contained here in or in any supplementary agreement, the provisions of which are hereby incorporated herein and made a part hereof.

(ii) Borrower for himself, his heirs, executors, administrators, successors and assigns warrants the property and the title thereto unto Mortgagee (or if deed of trust, trustee for the benefit of the lender or holder) against all lawful claims and demands whatsoever except any liens, encumbrances, easements, reservations, or conveyances specified hereinabove, and covenants and agrees as follows:

(A) To use the loan evidenced by the note solely for purposes authorized by the lender.

(B) To pay when due all taxes, liens, judgments, encumbrances, and assessments lawfully attaching to or assessed against the property, including all charges and assessments in connection with water, water rights, and water stock pertaining to or reasonably necessary to the use of the real property, and promptly deliver to the lender of holder without demand receipts evidencing such payments.

(C) To maintain improvements in good repair and make repairs required by the lender or holder; operate the property in a good and husbandman-like manner; comply with such farm conservation practices and farm and home management plans as the lender of holder from time to time may prescribe; and not to abandon the property, or cause or permit waste, lessening, or impairment of the security covered hereby, or, without the written consent of the lender of holder, cut, remove, or lease any timber, gravel, oil, gas, coal, or other minerals except as may be necessary for ordinary domestic purposes.

(D) To comply with all laws, ordinances, and regulations affecting the property.

(E) Neither the property nor any portion thereof or interest therein shall be leased, assigned, sold, transferred, or encumbered, voluntarily or otherwise, without the written consent of the lender or holder. The lender or holder shall have the sole and exclusive rights as beneficiary hereunder, including but not limited to the power to grant consents and subordinations, and deeds of full and partial release.

(F) At all reasonable times the lender or holder and its agents may inspect the property to ascertain whether the convenants and agreements contained herein or in any supplementary agreement are being performed.

(G) If any part of the loan for which this instrument is given shall be used to finance the purchase, construction or repair of property to be used as an owner-occupied dwelling (herein called "the dwelling") and if borrower intends to sell or rent the dwelling and has obtained the lender's or holder's consent to do so: Neither borrower nor anyone authorized to act for him will, after receipt of a bona fide offer, refuse to negotiate for the sale or rental of the dwelling or will otherwise make unavailable or deny the dwelling to anyone because of race, color, religion or national origin; and borrower recognizes as illegal and hereby disclaims, and will not comply with or attempt to enforce any restrictive convenants on dwellings relating to race, color, religion, or national origin.

(H) This instrument shall be subject to the present regulations of the Farmers Home Administration, and to its future regulations not inconsistent with the express provisions hereof.

(3) The following provisions shall be included in all security instruments except for above-moderate income borrowers:

(i) In real estate and chattel mortgages:

Guarantee by Government. Mortgagor understands that the loan evidenced by the note secured hereby is being made or allowed to remain extant by lender only on the condition that repayment thereof or any loss thereon will be guaranteed in whole or in part to lender by the United States of America or an agency thereof (herein called the "Government"). Therefore, in consideration of such guarantee, Mortgagor agrees that if at any time it shall appear to the Government that Mortgagor may be able to

XUM
V40123
FEB 3 75
XUM

obtain a loan without a guarantee from a bank, a production credit association, a Federal land bank, or other responsible cooperative or private credit source, at reasonable rates and terms for loans for similar purposes and periods of time without such guarantee, Mortgagor will, upon the Government's request, apply for and accept such loan in sufficient amount to pay the indebtedness secured hereby and to pay for any stock necessary to be purchased in a cooperative lending agency in connection with such loan.

(ii) In security agreement:

Guarantee by Government. Debtor understands that the loan secured hereby is being made or allowed to remain extant only on the condition that repayment thereof or any loss thereon will be guaranteed in whole or part to Secured Party by the United States of America or an agency thereof (herein called the "Government"). Therefore, in consideration of such guarantee, debtor agrees that if at any time it shall appear to the Government that debtor may be able to obtain a loan without a guarantee from a bank, a production credit association, a Federal land bank, or other responsible cooperative or private credit source, at reasonable rates and terms for loans for similar purposes and periods of time without such guarantee, debtor will, upon the Government's request, apply for and accept such loan in sufficient amount to pay the indebtedness secured hereby and to pay for any stock necessary to be purchased in a cooperative lending agency in connection with such loan.

§ 1844.16 SF loans on leasehold interests.

A loan may be made on a leasehold owned or being acquired by the applicant on land owned by a State, political subdivision, public body, public agency, or a private party, or on Indian tribal land provided:

(a) *Determinations by State Director.* The State Director determines that:

(1) Long-term leasing of such land for homesites is a well established practice in the area, and

(2) There is a market for such leaseholds in the area.

(b) *Determination by lender.* The lender determines that the following conditions exist or will be met:

(1) The applicant is unable to obtain fee title to the property.

(2) The realty, as distinguished from the leasehold property itself, is free and clear of any liens.

(3) The amount of the loan will not exceed the security value of the leasehold as improved.

(4) Except as otherwise authorized pursuant to § 1844.15(c) with respect to Hawaiian Home Lands, a recorded mortgage constituting a valid and enforceable first lien will be obtained on the applicant's leasehold.

(5) The lessor consents to the mortgage on the leasehold.

(6) The lease contains provisions under which:

(i) The borrower will have reasonable security of tenure and his interest will not be subject to summary forfeiture or cancellation.

(ii) The holder of the mortgage has the right to remedy any default of the leaseholder.

(iii) The holder of the mortgage will have the right to foreclose and sell without restrictions that would adversely affect the salability of the security unless there is another statutory method under which the lessee and the holder of the mortgage can readily obtain an equivalent amount from the property. Any effect because of transfer restrictions on market value should be shown in the present market value appraisal.

(iv) The party acquiring the leasehold through foreclosure or voluntary conveyance in lieu of foreclosure or after abandonment by the borrower will have the right to occupy the property or sublet it, and to sell the leasehold for cash or credit unless there is another statutory method under which the lessee and the holder of the mortgage can readily obtain an equivalent amount from the property.

(v) The borrower will have the right, in the event of default or inability to continue with the lease and the loan, to transfer the leasehold, subject to the mortgage, to a transferee approved by FmHA with assumption of the debt.

(vi) The lessor agrees to give advance notice to the holder of the mortgage of the lessor's intention to cancel or otherwise terminate the lease. Such advance notice must be long enough to permit the holder of the mortgage to ascertain the amount of delinquencies, the total amount of the lessor's and any other prior interest, the present market value of the leasehold interest, and if litigation is involved, to refer the case with a report of facts to legal counsel and permit legal counsel to take appropriate action to protect the interests of the holder of the mortgage.

(vii) There is agreement on the liability of the holder of the mortgage for unpaid rentals or other charges accrued at the time it acquires possession of the property or title to the leasehold, and those which become due during the occupancy or ownership of the holder of the mortgage, pending further servicing or liquidation.

(viii) The leaseholder is assured of fair compensation for any part of the premises taken by condemnation.

(7) The lease will be for a term extending beyond the repayment period of the loan for a sufficient period to permit accomplishment of the loan objectives. The unexpired term of the lease will be at least 25 percent longer than the loan repayment period.

(8) The rental charged for the lease does not exceed the rate being paid for similar leases.

(c) *Lease forms.* Any lease forms developed by the FmHA State Office with the advice of the Office of the General Counsel (OGC) may be used as guides in preparing the lease.

§§ 1844.17–1844.19 [Reserved]

§ 1844.20 MF eligibility requirements—applicants and tenants.

(a) *Applicant.* The lender must determine that the MF applicant meets all of the following requirements:

(1) *Individual or organization.* Is either an individual who is a citizen of the United States or an organization ultimately owned by citizens which will provide housing in rural areas for eligible low or moderate income or senior citizen families. Such an organization may be a State or local public agency, private profit or nonprofit corporation, consumer cooperative, trust, partnership, or similar organization. Forms of articles of incorporation and by-laws may be obtained from FmHA for adaptation or use as guide material for some types of applicants.

(2) *Legal capacity.* Possesses legal capacity to incur the obligations of the loan.

(3) *Ability and experience.* Possesses ability and experience necessary to carry out the undertakings and obligations required in connection with the loan.

(4) *Other available financing.* Is unable to provide the housing from his or its resources and with the exception of a State or local public agency, is unable to obtain the necessary credit from private or cooperative sources upon terms and conditions which he or it could reasonably be expected to fulfill.

(5) *Operate and maintain.* Has the ability and intention to operate and maintain the housing for the purposes for which the loan is made.

(6) *Own the housing.* Owns the completed housing or becomes the owner thereof before a request is made for issuance of a contract of guarantee.

(7) *Initial operating capital and other assets.* Has initial operating capital (and any other assets that will not be provided with the loan) needed for a sound loan, except such initial operating expenses as are authorized by § 1844.21(f) to be included in loans to nonprofit and State and local public agency borrowers. Initial operating capital should be sufficient to pay for such costs as property and liability insurance premiums, fidelity bond premiums if the applicant is an organization, utility hookup deposits, maintenance equipment, movable furnishings and equipment, printing lease forms, and other initial expenses. The initial operating capital required will amount to at least 2 percent of the total cost of the housing project.

(8) *Management.* Is able to provide the necessary management to assure successful operation of the housing project. Management services may be provided by the applicant, a management firm, or an agent. In any case, the borrower must obtain the written approval of the lender or holder and FmHA for the management plan to be used.

(b) *Tenants.* To be eligible to rent an MF dwelling unit, the family as defined in § 1844.1 must be:

(1) A senior citizen family without regard to income, or

(2) A nonsenior citizen family that has an adjusted current annual income not exceeding that for a moderate income family for the State in which the housing is or is to be located. The maximum adjusted income for a moderate income family for the particular State

may be ascertained from any FmHA office.

§ 1844.21 MF loan purposes.

An MF loan may be made to an eligible applicant for such of the following purposes as necessary to enable the applicant to provide adequate, decent, safe and sanitary rural rental housing in a community in a rural area for the use of low or moderate income or senior citizen families to:

(a) *Buy, build, rehabilitate, improve or relocate.* Buy, build, rehabilitate, improve, or relocate MF dwellings.

(b) *Purchase land.* Purchase or improve only such land that is necessary for the housing project. The cost of land purchased with loan funds may not exceed its present market value in its present condition. Present market value will be determined by a current appraisal. See § 1841.16 of this chapter.

(c) *Utilities.* Provide necessary utilities such as water supply, sewage disposal, streets, heat, light, and other systems necessary in connection with the housing project.

(d) *Facilities.* Develop necessary facilities in connection with the housing project such as:

(1) Maintenance workshop and equipment storage.

(2) Central cooking and dining facilities to serve the project tenants when the project is large enough to justify such facilities to supplement the kitchen facilities in each unit.

(3) Small infirmary for emergency care when justified.

(4) Laundry room and equipment if not provided in the individual units or otherwise conveniently available.

(5) Storage facilities for use of tenants.

(6) Appropriate recreational facilities subject to FmHA approval.

(e) *Equipment and material.* Provide essential housing project equipment and material and purchase and install essential dwelling unit equipment and material such as range, refrigerator, clothes washer and clothes dryer, if not otherwise conveniently available, or wall-to-wall carpeting whether or not such equipment or material becomes real estate or fixtures under applicable State law. In any case in which equipment or material is purchased with loan funds, it will be considered a part of the housing.

(f) *Site preparation.* Provide landscaping, foundation plantings, seeding or sodding of lawns, grading, and other necessary facilities related to buildings such as walks, yards, fences, parking areas, and driveways.

(g) *Expenses, fees, and social security taxes.* Pay related costs such as fees and charges for legal, appraisal, architectural, engineering, and other technical services, a typical builder's fee if the development is not performed under contract, closing costs, connection fees for water, sewer, electricity, gas, and a loan fee is authorized in § 1841.2 of this chapter. Loan funds also may be used to pay the borrower's share of social security taxes for labor hired by the borrower in connection with making planned improvements.

(h) *Interim financing.* Pay interim financing debts incurred for authorized loan purposes. This is not considered to be refinancing.

(i) *Initial operating expenses.* Pay, in the case of nonprofit and State and local public agency borrowers, initial operating expenses up to 2 percent of the costs of the housing project and necessary and appropriate fees and charges which the borrower cannot pay from its own resources.

§ 1844.22 Prohibited MF loan purposes.

An MF loan will not be guaranteed if loan funds are to be used for:

(a) *Personal property.* Purchase of furniture or other personal property for dwelling units, except essential equipment and material authorized in § 1844.-21.

(b) *Refinancing debts.* Refinancing debts of the applicant, but this will not preclude use of loan funds to pay interim financing debts.

(c) *Special purposes.* Special purposes such as:

(1) Nursing of medical facilities, other than an infirmary for emergency care when justified.

(2) Commercial facilities, but this prohibition does not apply to service-type facilities which are not otherwise conveniently available to tenants in the area.

(3) Housing for transient or hotel purposes. All rental periods must be at least 30 days.

(4) Nursing or special care homes, or institutional-type housing.

(5) Any facilities not authorized under § 1844.21.

(6) Housing which the applicant plans to sell in the near future.

(7) Housing which the applicant plans to lease to another operator.

(d) *Fees, commissions, etc.* Payment of any fee, salary, commission, profit, or compensation to an applicant, or to any officer, director, trustee, stockholder, member, or agent of an applicant, except as authorized in § 1844.21 (g).

§ 1844.23 MF loan limitations and special provisions.

For an MF loan to be guaranteed:

(a) *Loan limits.* The amount of the loan or loans will be limited to not more than 95 percent of the total cost of each housing project or 95 percent of the security value of each such project, whichever is less.

(b) *Type of housing.* All housing must meet the following requirements:

(1) Be economical in construction, consistent with the market needs of the community, and not of elaborate or extravagant design or material.

(2) Consist of one or more multiunit-type structures, each containing two or more family units and any necessary facilities and essential equipment.

(3) Be residential in character and be designed to meet the needs of eligible tenants who are capable of caring for themselves.

(4) Any building purchased, repaired, enlarged, or otherwise improved or rehabilitated with loan funds must be structurally sound, functionally adequate, decent, safe, sanitary, convenient, comfortable, and in good condition before the loan is guaranteed.

(5) Be located in a residential area as part of a community where necessary facilities and services such as those described in § 1844.30(b)(5) are generally readily available.

(6) Contain bathroom and kitchen facilities in each unit.

(c) *Construction or development.* See § 1844.46.

(d) *Loan resolution or loan agreement.* A loan resolution or loan agreement will be executed. It will provide for adequate management and administration of each project and contain a pledge of the housing income as security. It will also require that the dwelling units be leased to eligible tenants, and contain regulatory provisions giving the loan holder power to impose requirements regarding the housing and related operations of the applicant. Forms of loan resolutions and loan agreements may be obtained from FmHA for adaptation or use as guide material.

§ 1844.24 MF rates, terms, and security.

(a) *Interest rate to borrower.* See § 1841.13 of this chapter.

(b) *Loan terms.* Each loan will be scheduled for repayment over a period not to exceed 40 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured.

(c) *Security.* The entire loan must be secured by a first lien on the housing, and adequate security must be obtained without taking a lien on any offsite equipment or facilities. See § 1844.23(d) requiring a pledge of housing income as security. The provisions of § 1844.15 regarding security instruments for SF loans also apply to MF loans. For MF loans, the security instruments will also include a Loan Resolution or Loan Agreement which will contain provisions including but not limited to the following:

(1) The loan shall be used solely for the specific eligible purposes for which the loan is approved by the lender, in order to provide rental housing and related facilities for eligible occupants as defined by the Farmers Home Administration, United States Department of Agriculture (herein called Government). Such housing and facilities and the land constituting the site are herein called "the housing."

(2) *Regulatory covenants.* So long as the loan obligations remain unsatisfied, the borrower shall:

(i) Impose and collect such fees, assessments, rents and charges that the income of the borrower will be sufficient at all times for operation and maintenance of the housing, payments on the loan obligations, and maintenance of accounts for these purposes.

(ii) Not use the housing for any purpose other than as rental housing and related facilities for eligible occupants unless the lender or holder gives prior consent.

(iii) Do other things as may be required by the lender or holder in connection with the operation of the housing or with any of the borrower's operations or affairs which

V40123 FEB 3 75 XUM

may affect the housing, the loan obligations, or the security.

(3) *Refinancing of loan.* If at any time it appears to the Government that borrower is able to obtain a loan upon reasonable terms and conditions to refinance the loan obligations then outstanding, upon request from the Government the borrower will apply for, take all necessary actions to obtain, accept such refinancing loan, and will use the proceeds for said purpose.

(4) *General provision.* The provisions of this resolution are representations to the lender to induce the lender to make a loan to the borrower. If the borrower should fail to comply with or perform any provision of this resolution or any requirement made by the Government, lender, or holder pursuant to this resolution, such failure shall constitute default as fully as default in payment of amounts due on the loan obligations. In the event of such failure, the lender or holder at its option may declare the entire amount of the loan obligations immediately due and payable and, if such entire amount is not paid forthwith, may take possession of and operate the housing and proceed to foreclose its security, and may enforce all other available remedies.

§ 1844.25 MF loans on leasehold interests.

The provisions of § 1844.16 with respect to SF loans on leasehold interests are also applicable to MF loans on leasehold interests.

§§ 1844.26–1844.29 [Reserved]

§ 1844.30 Preapplication in all MF cases and in certain SF packaged cases.

The preapplication procedure outlined in this section is applicable to all MF cases, and to SF packaged cases involving two or more dwellings whether the packager has or has not already obtained applications from eligible families for loans with which to obtain the SF housing. Such procedure is also applicable to all subdivision cases in which it is contemplated that loans will be made, insured, or guaranteed by the Department of Housing and Urban Development (DHUD), the Veterans Administration (VA), or FmHA, separately or collectively, to construct 10 or more new SF dwelling units and in which subdivision neither of said agencies has made, insured or guaranteed a housing loan. The applicant or packager should keep costs to a minimum until the preapplication conference is held and authorization is given to proceed with preparation of a loan application. The following preapplication steps will be taken:

(a) *Guide material.* As a first step, the lender, builder or developer, and MF applicant or SF packager will study the planning and development provisions of Part 1804 of this chapter.

(b) *Preapplication information.* The SF packager or MF applicant will file a preapplication with the lender who will furnish a copy of it to FmHA. The preapplication will be made on Form AD–621, "Preapplication for Federal Assistance." In paragraph 7 of that form, after showing the amount of loan requested from the lender, insert "Guarantee." The following information will be submitted with the preapplication:

(1) *Need for SF or MF guaranteed loan(s).* Advice as to inability of the MF applicant or prospective class or classes of low or moderate income SF applicants to provide the needed housing with their own resources, or to obtain it from other sources without an FmHA guarantee. In MF cases this advice will be supported by a current financial statement of the applicant. If the MF applicant is a partnership or a profit corporation, a current financial statement will be required from each partner, member, or stockholder who holds an interest in the organization of 20 percent or more. In any MF case in which a financial statement is required from an individual, it will also include the interests and signature of the spouse.

(2) *Operating capital, assets, and equity in MF cases.* Information showing that the applicant has initial operating capital and other necessary assets and equity that will not be provided with the guaranteed loan. See § 1844.20(a)(7), § 1844.22(a), and § 1844.23(a).

(3) *Operating experience in MF cases.* Statement of applicant's experience in operating rental housing or similar businesses, with a statement on the proposed method of operation and management.

(4) *Need and demand for proposed SF or MF housing.* A realistic estimate of need and demand for the number of living units of the type proposed, based on the availability of existing suitable housing in the area. In MF cases the estimate should also show the number of eligible families living in the area who are willing and able to pay the proposed rental rates.

(5) *SF or MF housing site.* Size of tract and advice as to its ownership and any existing option to purchase it; also, a map showing the location and other supporting information on the neighborhood and existing facilities and services, such as medical and dental services, shopping areas, schools, churches, hospitals, recreation, and communication facilities; business and industrial enterprises; streets or roads, central water, electric, gas, and sewerage systems; solid waste disposal services; public and private transportation; and police and fire protection.

(6) *General description of proposed SF or MF housing.* A preliminary plot plan and building plan, if available; advice as to type of construction; estimated total cost per living unit; utilities to be used and whether each is or will be publicly, community, or individually owned; and, if MF apartments are involved, the number and type of units per building.

(7) *Organized MF applicants.* If the applicant is an organization:

(i) A copy of or an accurate citation to the specific provisions of State law under which the applicant is or is to be organized.

(ii) A copy of the applicant's charter or articles of incorporation, bylaws, and other basic authorizing documents if the applicant is already in existence.

(iii) The names and addresses of the applicant's existing or proposed members, directors, and officers, and if any such member, director, or officer is a member of another organization that is engaged in the same or a similar activity, its name, address, and principal business.

(c) *Preapplication conference.* If, after reviewing the preapplication material required by paragraph (b) of this section, the lender is interested in giving further consideration to making a guaranteed loan, the lender will arrange a preapplication conference between the lender, the SF packager or MF applicant, the FmHA, and other appropriate parties. The lender will make a record of the persons attending the conference and the interests they represent. The purpose of the preapplication conference will be to determine whether it appears that the loan is being requested for an authorized purpose, the applicant is eligible, the housing is needed, the proposal is economically sound and feasible, needed utilities, facilities, and services are or will be available at acceptable costs, and any applicable clearinghouse recommendations and environmental impact requirements can be met. If such factors indicate feasibility and if it appears that guarantee funding authority may be available, an MF loan application or SF loan applications may be prepared and steps taken to meet the requirements of Part 1841 of this chapter and this Part 1844, and any applicable clearinghouse and environmental impact requirements.

(d) *FmHA advice.* If all of the conditions mentioned in paragraph (c) of this section are found to exist, FmHA will advise the lender by letter, with a copy to the applicant, that FmHA will issue a contract of guarantee for each loan made, if all applicable requirements of Part 1841 of this chapter and this Part 1844 are met and if guarantee funding authority is then available.

§§ 1844.31–1844.34 [Reserved]

§ 1844.35 Clearinghouse considerations in certain SF and MF cases.

When the preapplication involves a loan or loans for construction of an MF project having 25 or more dwelling units, or construction of 10 or more new dwelling units in a subdivision in which the DHUD, VA, or FmHA has not previously made, insured, or guaranteed a housing loan, the following actions will be taken:

(a) *Applicant's notification to clearinghouse.* The MF loan applicant or SF packager will notify the appropriate clearinghouses of intent to apply for or package a loan or loans to be guaranteed by FmHA, and will send copies of the notification to the lender and FmHA. The notification will be made in the manner and contain the information required by:

(1) Revised Circular A–95 issued by the Office of Management and Budget on November 13, 1973, (38 FR 32874), and any amendments or revisions thereof in effect at the time the preapplication is made.

(2) The clearinghouses involved.

(b) *FmHA's transmittal to clearinghouses.* FmHA will transmit a copy of the initial application (Form AD–621), with enclosures to each clearinghouse as required by said Circular A–95.

(c) *Clearinghouses—reviews and comments.* Clearinghouses will have 30 days after receipt of Form AD–621 and enclosures to review the material and forward to FmHA any comments and recommendations they have.

(d) *Loan processing and conditional commitment.* Loan processing need not be delayed during the 30-day period for clearinghouse comments and recommendations. However:

(1) If a Conditional Committment for Guarantee is executed within 40 days after Form AD–621 and enclosures are forwarded to the clearinghouse, it will contain an express condition that it is "Subject to there being no unfavorable clearinghouse comments or to a decision by FmHA that such comments will not prevent issuance of a Contract of Guarantee." In such cases, as soon as FmHA receives any clearinghouse comments, it will notify the lender and loan applicant or packager of any clearinghouse recommendations required to be met.

(2) If a Conditional Commitment for Guarantee is executed after FmHA has received the clearinghouse comments, it will specify any clearinghouse recommendations required to be met.

§ 1844.36 Environmental impact requirements in certain SF and MF cases.

The MF applicant in each project involving more than 50 MF dwelling units, and the SF packager in subdivision cases involving more than 25 SF dwellings, will furnish completed copies of Form FmHA 449–10, "Applicant's Environmental Impact Evaluation," to FmHA and the lender. Completed copies of the form will also be furnished in other cases involving fewer SF dwellings or MF dwelling units if requested by FmHA or the lender. Such copies will be furnished to FmHA and the lender as soon as possible after the preapplication conference if it appears that the loan may be made and guaranteed. Upon receipt of Form FmHA 449–10, FmHA will forward it to the State Director for determination of whether an environmental impact statement is needed. That determination will be made and required actions taken in accordance with Part 1824 of this chapter.

(a) *Environmental impact statement not required.* If the State Director determines that an environmental impact statement is not required, FmHA will notify the applicant and the lender to that effect.

(b) *Environmental impact statement required.* If the State Director determines that an environmental impact statement is required, the actions provided for in said Part 1824 will be taken.

(c) *Conditional commitment.* If a Conditional Commitment for Guarantee is executed before all such actions have been completed or prior to the waiting period prescribed in said Part 1824, the conditional commitment will contain an express condition that it is:

Subject to the condition that the Contract of Guarantee cannot be issued until all actions required by 7 CFR Part 1824 with respect to environmental impact have been completed, including expiration of the waiting period after the draft statement was issued and completion of any review action after issuance of the final statement, and FmHA determines and informs the applicant and lender that the environmental situation will permit construction and use of the housing.

§§ 1844.37–1844.39 [Reserved]

§ 1844.40 SF application for loan.

The general provisions regarding loan applications are set forth in § 1841.10 of this chapter.

(a) *Application form.* In SF cases, the applicant will apply to the lender on Form FmHA 410–4, "Application for Rural Housing Loans (Nonfarm Tract)." However, in above-moderate income cases, the first sentence of paragraph 21 of that form should be deleted. In farm cases the word "Non" in the title of the form will be deleted, and the word "lot" in paragraph 9 will be changed to "farm."

(b) *Enclosures with application.* Enclosed with the application will be:

(1) *Site information.* A statement to:

(i) Justify the site selection and location, including its suitability for the type of dwelling proposed and its convenience to services and facilities such as those described in § 1844.30(b)(5).

(ii) Explain the proposed site development and how it will be performed.

(2) *Zoning and other legal requirements.* Documentation showing that the site, construction, and related facilities and utilities conform to applicable zoning and other State and local laws, codes, ordinances, and regulations, and that all required permits and approvals have been or will be obtained.

(3) *Guide material.* Advice that the guide material referred to in § 1844.46(b) will be followed in planning and performing construction and development work.

(4) *Cost breakdown.* Detailed breakdown of housing and related costs and sources of payment thereof.

(5) *Equal Opportunity and nondiscrimination.* Form FmHA 400–1, "Equal Opportunity Agreement," if construction costing more than $10,000 is involved. See § 1841.56 of this chapter regarding equal opportunity and nondiscrimination in connection with construction.

§ 1844.41 MF application for loan.

The general provisons regarding loan applications are set forth in § 1841.10 of this chapter. In MF cases, the applicant will apply to the lender in a manner satisfactory to the lender. The material submitted to the lender must contain:

(a) *Tenant eligibility information.* A statement showing that the tenants will be low or moderate income or senior citizen families as defined in § 1844.1 and § 1844.10.

(b) *Plot and building plans.* A plot plan and detailed preliminary drawings and specification; also, any special design features for senior citizens.

(c) *Cost breakdown.* A detailed cost breakdown of the project for such items as land and right-of-way, building construction, equipment, material, facilities, utility connections, architectural and legal fees, and both on-site and off-site improvements. The cost breakdown should show the amount of the cost to be paid from loan funds and the amount thereof to be paid by the applicant from other funds. The cost breakdown also should show separately the cost of any other items to be paid in full by the applicant, such as initial operating capital, furnishings, equipment, and material.

(d) *Method of construction and technical services.* Information on the method of construction and on the architectural, engineering, legal, and other authorized services to be provided.

(e) *Review by State and local officials.* Satisfactory evidence of review and approval of the proposed housing by applicable zoning and other State and local officials whose approval is required by State or local laws, codes, ordinances, or regulations.

(f) *Market survey.* A market survey report based on the number of eligible families in the area who are willing and financially able to occupy the housing at the proposed rental levels. This does not preclude renting to families who are receiving welfare assistance. However, the economic justification for the housing should be based principally on the prospect of eligible families with incomes which are not subject to fluctuations such as those that may occur in welfare assistance payments. A market survey report will include:

(1) *Ten units or less.* Statements supported by statistical data describing and explaining the need and demand for the rural rental housing over the period of the loan in those cases in which the proposed project will contain 10 or fewer dwelling units and will be in a community in which a need and demand for such rental housing obviously exists. Such information may be assembled from census reports, county market evaluations made by DHUD, and other published data that show the number of families living in the town or trade area who are eligible to rent the proposed housing and the condition of the housing they occupy. This information will be used to help determine the maximum number of rental units that may be financed.

(2) *More than 10 units and doubtful cases.* A complete market analysis showing the need and demand for the rural rental housing over the period of the loan in those cases in which the proposed project will include more than 10 dwelling units or in any smaller project in which the lender or FmHA advises the applicant, at the time of the preapplication conference or within 15 days thereafter, that there is doubt concerning such need and demand. The survey could include items such as:

(i) The number of houses or apartments in the area for rent or sale, and the characteristics thereof, such as location, quality, number of bedrooms, type of building, age of structure, whether occupied or vacant, tenure, and price or rental levels. Exhibit F–2 of the FmHA Manual "How to Bring Rental Housing

V 40123 FEB 3 75 XUM

to Your Town" is available in all FmMA offices and may be used for this purpose. The information on tenure of rental housing can be shown in the "Monthly Rental" column along with the monthly rental after inserting "Tenure and" above "Monthly Rental" in the column heading. The information on property for sale and sale price can be shown below the information on rental property by inserting "For Sale" in the left-hand column and "Sale Price" in the "Monthly Rental" column above a listing of such property for sale.

(ii) Characteristics of the persons eligible to rent the proposed housing, such as single or couple, male or female, size of family, number of senior citizens and nonsenior citizens, and income and financial condition; present living arrangements of eligible families in the area and the extent to which inadequate housing is associated with health or financial conditions; and the number of eligible families who are willing and financially able to occupy the proposed housing. Exhibit F-4 of the FmHA Manual "How to Bring Rental Housing to Your Town" is available in all FmHA offices and may be used for this purpose. The information on the financial condition and size of eligible families and the extent to which housing is inadequate because of health or financial situations, may be shown on the bottom or back of Exhibit F-4.

(iii) Advice as to present and near term anticipated housing needs for the area. Such advice may be obtained from sources such as census reports, county market evaluations made by DHUD, other published data, personnel departments of large employers, realtors, chambers of commerce, and school superintendents.

(3) *Signed expressions of interest in renting regardless of the number of dwelling units.* If, because there are few eligible families in the area or for other reasons, there is a question as to whether all of the dwelling units can be rented soon after construction is completed, signed expressions of interest in renting the units will be obtained from a sufficient number of eligible families to clearly indicate that full occupancy will occur soon after the construction is completed. Exhibit F-3 of the FmHA Manual "How to Bring Rental Housing to Your Town" is available in all FmHA offices and may be used for this purpose.

(g) *Rental rates.* A schedule of rental rates proposed for the housing and any separate charges for the use of related equipment, facilities, or utilities.

(h) *Financial statement.* A current dated and signed financial statement showing the debt structure of the applicant.

(i) *Budgets.* Detailed operating budgets for the first year's operation and a typical year's operation. Except to the extent that initial operating capital is included in a loan to a nonprofit borrower, the first year's budget should show that the applicant has sufficient operating capital on hand or sufficient planned income to pay all operating costs. The first year's budget should also show that the applicant has sufficient capital on hand or sufficient planned income to meet scheduled payments on debts during the planning and construction period prior to occupancy. The typical year's budget should show there will be ample income to pay essential operating costs, meet required debt payments, and permit accumulation of required reserves. Exhibit F-5 of the FmHA Manual "How to Bring Rental Housing to Your Town" is available in all FmHA offices and may be used for this purpose.

(1) The budgets, in estimating rental income, will include an approximately 10 percent allowance for vacancies, nonpayment of rent, and contingency expense.

(2) The budgets should provide for accumulating and maintaining a reserve at the rate of 1 percent per annum of the value of the buildings, project owned utilities, and related equipment, material, and facilities financed wholly or partially with the loan until a reserve equal to 10 percent of their value is reached, which reserve will thereafter be maintained. Budgets should not include an additional item for depreciation since the purpose of a reserve account is to provide funds for this purpose.

(3) All applicable taxes, including Federal and any State income taxes, should be included in the budgets and separately identified. If the applicant considers itself tax-exempt, evidence of exemption must be included in the loan docket before the contract of guarantee is executed. Information as to Federal income tax exemption may be obtained from the District Office of the Internal Revenue Service (IRS). An eligible nonprofit organization may be able to qualify for Federal income tax exemption under section 501(c)(4) of the Internal Revenue Code.

(j) *Management.* A statement in narrative form outlining the proposed manner of management of the housing, such as whether by owner or hired manager, and experience and other factors pertaining to the qualifications of the manager; duties and responsibilities of officers and employees; and policy regarding method of selecting tenants.

(k) *Lease, rules, and regulations.* A copy of the proposed form of lease or rental agreement to be offered tenants, and a copy of any rules or regulations governing administration and occupancy.

(l) *Survey.* A satisfactory survey of the land to be given as security prepared by a licensed surveyor. If necessary, a new survey will be obtained.

(m) *Equal opportunity and nondiscrimination.* A statement by the applicant that there will be no discrimination or segregation by the applicant or by any agent or agency, lessee, or operator on account of race, color, religion, sex, or national origin in connection with the use, occupancy, rental, or sale of the housing. Form FmHA 400-1 should also be enclosed with the application if construction costing more than $10,000 is involved. See § 1841.56 of this chapter on equal opportunity and nondiscrimination in connection with construction.

(n) *Guide material.* Advice that guide material referred to in § 1841.46(b) will be followed in planning and performing construction and development work.

§§ 1844.42–1844.44 [Reserved]

§ 1844.45 SF and MF guarantee commitments and interim financing.

The general provisions with respect to guaranteeing and processing loans are set forth in Part 1841 of this chapter. If the lender decides to approve the loan subject to issuance of a satisfactory conditional commitment for guarantee, the following steps will be taken in both SF and MF cases unless otherwise indicated:

(a) *Request for conditional commitment to guarantee loan.* The lender will submit to FmHA:

(1) Form FmHA 449-9, "Request for Conditional Commitment to Guarantee Loan," and enclosures required therein. In all MF cases, in packaged SF cases involving two or more dwelling units, and in a subdivision in which it is contemplated that loans will be made, insured, or guaranteed by DHUD, VA, or FmHA, separately or collectively, to construct 10 or more new SF dwelling units and in which neither of said agencies has previously made, insured, or guaranteed a housing loan, this request will not be made until all preapplication processing has been completed. See § 1844.30.

(2) A copy of the loan agreement or loan resolution to be used in MF cases.

(3) A statement in SF cases showing the total current annual family income, the reduction(s) therefrom, and the adjusted current annual family income. See § 1844.10.

(b) *Conditional commitment for guarantee.* FmHA will review the material submitted and issue to the lender Form FmHA 449-14, "Conditional Commitment for Guarantee," or, if a conditional commitment cannot be issued, FmHA will so advise the lender on Form FmHA 449-13. The conditional commitment will specify any clearinghouse recommendations required to be met and any environmental impact requirements to be met or, if the conditional commitment is issued before any such requirements are determined, it will contain the express condition set forth in § 1844.35(d) or § 1844.36(c), where applicable.

(c) *Interim financing.* The lender may either furnish any financing needed for acquisition, during the period of construction or other development, or may require the applicant to obtain such interim financing from other sources.

§ 1844.46 Acquisition, construction, and development.

(a) *Acquisition of property.* The lender is responsible for seeing that any property to be acquired with loan funds is acquired as planned and that the required security is obtained.

(b) *Construction or development.* The lender and borrower are responsible for seeing that the loan purposes are accomplished with the loan funds. This includes, but is not limited to seeing that:

(1) Part 1804 of this chapter is used as a guide for planning and performing development work.

(2) Compliance is made with applicable laws, ordinances, codes, and regulations, including 4900.1 containing Minimum Property Standards (MPS) for "One and Two Family Dwellings," and 4910.1 containing MPS for "Multifamily Housing," issued by DHUD. Copies of MPS may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(3) Drawings, specifications, and estimates are adequate. The services of a registered architect will be required for all MF projects consisting of 4 or more units.

(4) Adequate water, electric, heating, waste disposal, and any other necessary utilities and facilities are obtained.

(5) Method of construction or development is proper.

(6) Construction or development contracts contain adequate provisions for the undertaking and are properly awarded and executed, and contractors are bonded when the lender considers bonding necessary.

(7) Equal opportunity and nondiscrimination requirements are met. See §§ 1841.26(a)(9) and 1841.56 of this chapter and § 1844.56.

(8) Construction or development is performed expeditiously and properly, including inspection of sites and construction or development in various stages of completion to determine that the work and material conform with the drawings and specifications and any other requirements.

(9) Periodic or partial payments for construction or development are limited to a reasonable percentage of the actual value of the work and material in place.

(10) Final payment is made only after final inspection has been made and the construction or development has been found proper in all respects.

(11) No claims or liens of laborers, materialmen, contractors, subcontractors, or other parties exist against the borrower or the security property.

§ 1844.47 Inspections of construction, also compliance reviews.

Inspections will be made during construction by a qualified construction inspector approved by the lender. In connection with inspections of construction, equal opportunity and nondiscrimination compliance reviews will be made as required by § 1841.56(f) of this chapter.

(a) *Inspections required by lender.* The lender will see that the following three inspections (and any additional inspections it deems necessary or advisable) are made:

(1) When footings and foundation are ready to be placed.

(2) When shell is closed in but plumbing, electrical and mechanical work are still exposed.

(3) When construction is completed.

(b) *FmHA inspections.* If more than $2,500 of guaranteed loan funds are used to construct or repair buildings, provide land development work, acquire real or personal property, or for similar purposes, the County Supervisor or other qualified FmHA personnel will make such inspections as the County Supervisor deems necessary in the particular case to ascertain the existence and condition of such property. Ordinarily, only one inspection will be made. However, regardless of the number of inspections, one inspection will always be made when construction is completed. Such inspections will be reflected on Form FmHA 424-12, "Inspection Report," or on the running case record.

§ 1844.48 Review of appraisals.

The appraisal report which the lender is required to submit to FmHA as an enclosure with the request for conditional commitment to guarantee the loan will cover any then known existing property that is to serve as security. A final appraisal report on the security property will be submitted by the lender to FmHA with the request for contract of guarantee.

(a) *FmHA review.* These appraisal reports are part of the material to be reviewed by FmHA in determining whether to issue a conditional commitment to guarantee the loan or a contract of guarantee. The review of each appraisal will be made by the FmHA County Supervisor or other FmHA personnel designated by him. The review will consist of an actual on-the-ground evaluation as well as checking the contents of the appraisal report furnished by the lender.

(b) *Cross references.* See §§ 1841.16 and 1841.23 of this chapter and § 1844.45 regarding appraisals and FmHA review of material.

§ 1844.49 [Reserved]

§ 1844.50 Processing contracts of guarantee.

(a) *Request for contract of guarantee.* When construction, relocation, major repairs, or other major development has been completed, final inspection has been made, the housing has been approved by the lender, any clearinghouse or environmental impact requirements made by FmHA have been met, and the permanent financing loan has been properly closed, the lender will submit to FmHA:

(1) Form FmHA 449-16, "Request for Contract of Guarantee."

(2) Form FmHA 449-19, "Guarantee Fee Report," and a check for the amount of the guarantee fee required to be paid at the time of issuance of the Contract of Guarantee. See § 1841.30 et seq. of this chapter regarding guarantee fees, guarantee fee reports, and guarantee fee payments.

(b) *Contract of guarantee.* FmHA will issue Form FmHA 449-17, "Contract of Guarantee," or will advise the lender on Form FmHA 449-13 of the reasons why it cannot be issued. See § 1841.27 of this chapter.

§§ 1844.51–1844.55 [Reserved]

§ 1844.56 Equal opportunity and nondiscrimination in SF and MF cases.

In addition to the requirements of § 1841.56 of this chapter with respect to equal opportunity and nondiscrimination in relation to construction, the lender or holder and borrower are responsible for seeing that there is no discrimination or segregation by them or by any agency, lessee, or operator on account of race, color, religion, sex, or national origin in connection with the use, occupancy, rental, or sale of housing. These requirements should be discussed with the applicant or packager, builder or developer, and other parties involved as early in the negotiations as possible. For a specific statement of some of those responsibilities, see the following:

(a) *Executive Order No. 11063.* It is dated November 20, 1962 (27 FR 11527, 3 CFR 652 (1959–63 Compilation), 42 U.S.C.A. 1982 note), and prohibits such discrimination or segregation in cases in which federal financial assistance is involved in the provisions, rehabilitation, or operation of housing and related facilities.

(b) *Fair Housing Act.* This is Title VIII of the Civil Rights Act of 1968 (Pub. L. 90-284, 42 U.S.C. 3601 et seq.). It prohibits discrimination in the sale or rental of dwellings provided in whole or in part with loans guaranteed by the Federal Government; and it provides for filing and handling complaints and investigations regarding, and enforcement of remedies for violations of, fair housing requirements.

§§ 1844.57–1844.58 [Reserved]

§ 1844.59 Loan servicing in SF and MF cases.

The following provisions with respect to loan servicing, in addition to those in §§ 1841.46 and 1841.56 of this chapter, and those loan guarantee processing steps in § 1844.100, are applicable to RH loans.

(a) *FmHA investigations.* The County Supervisor will make investigations from time to time as he considers necessary to determine whether the loan is being properly serviced, but such investigations will not relieve the holder of full responsibility for proper servicing of the loan. If a problem develops, whether discovered by the County Supervisor or the holder or its agent, the County Supervisor will work with the holder or its agent in trying to get the problem resolved satisfactorily.

(b) *Certification in MF cases.* The holder in MF cases will furnish FmHA a letter every other year certifying that all tenants of the MF units are eligible low or moderate income or senior citizen families, or that they meet the requirements of any written waiver on eligibility issued by FmHA.

(c) *Reamortization in SF and MF cases.* If the borrower's payments on principal are 10 percent or more ahead of schedule or are substantially delinquent so that they cannot be brought current within 1 year, the holder may agree to reamortize the loan, provided:

(1) The reamortized repayment schedule does not extend beyond the original loan maturity date.

(2) The holder believes that the new repayment schedule can be met.

XUM V40123 FEB 3 75 XUM

(3) The holder obtains the written approval of FmHA. See § 1841.46(1) of this chapter with respect to alteration of instruments.

(4) The reamortization is accomplished by amendment of the existing note rather than by taking a new replacement note.

(d) *Graduation of borrowers.* Part 1865 of this chapter will be followed in making FmHA's determination as to whether borrowers (other than above-moderate income SF borrowers) are able to graduate to other credit without an FmHA guarantee. See §§ 1844.60 and 1844.66 of this part regarding graduation of borrowers.

§ 1844.60 Transfer and assumption in SF and MF cases.

The provisions of §§ 1841.60, 1841.61, 1841.62, and 1843.20, all in this chapter, are applicable to RH transfer and assumption cases, except that ability to provide the financing or to obtain it from other sources is not a factor in above moderate income cases.

§§ 1844.61–1844.65 [Reserved]

§ 1844.66 Liquidation in SF and MF cases.

The following provisions with respect to liquidation, in addition to those of § 1841.66 et seq. of this chapter are applicable to RH loans.

(a) *Graduation of borrowers.* The provisions of § 1843.30(a) of this chapter are equally applicable to RH loan borrowers, other than above-moderate income borrowers.

(b) *Loss settlement options.* (1) *General policy.* The general policy for RH loans will be to select the option to "Pay loss before liquidation." (See § 1841.67 (a) of this chapter).

(2) *Exceptions to general policy.* The State Director may make exceptions to the general option selection policy stated in paragraph (b)(1) of this section and select another loss settlement option or options set forth in § 1841.67 of this chapter on an individual case basis if:

(i) He obtains prior approval from the National Office on the ground that such action would be more practicable and not to the financial detriment of FmHA, and

(ii) He obtains advice from the OGC of the U.S. Department of Agriculture (USDA) concerning the option or options selected.

(3) *Real estate title evidence.* In the event the State Director selects the option to "Accept title to property from registered holder" set forth in § 1841.67 (c) of this chapter and the holder is a "supervised" holder approved under § 1841.4 of this chapter, FmHA will rely on the holder's general warranty deed unless the State Director, on advice of the USDA OGC decides that an owner's title insurance policy or an attorney's opinion or certificate of title is necessary for FmHA's protection. If the conveyance is to be made by a "non-supervised" holder approved pursuant to § 1841.4 of this chapter, the State Director will consider, among other things, the financial condition, organizational structure, and prospects of the holder for continuation in business and maintaining financial responsibility for a future period of at least 5 years, in deciding whether to require an owner's title insurance policy or an attorney's opinion or certificate of title as well as a general warranty deed.

(4) *Bidding at forced sales.* FmHA will not bid at any foreclosure or other forced sale unless a special exception is made by the National Office on the basis that bidding is the only satisfactory way to adequately protect the interests of FmHA as guarantor.

§§ 1844.67–1844.89 [Reserved]

§ 1844.90 Forms and forms distribution in SF and MF cases.

(a) *FmHA forms.* The following chart lists the applicable FmHA and Department of Agriculture (AD) forms, number to be prepared, signatures required, and distribution. These forms may be obtained from FmHA.

FmHA form No.	Name of form	Total number	Signed by [1]	Distribution [1]
400-1	Equal Opportunity Agreement	3	B—O	O—L, C—B, C—FmHA.
400-3	Notice to Contractors and Applicants	4	L—O	O—Con, C—B, C—L, C—FmHA.
400-6	Compliance Statement	4	L&Con, 3—O	O—L, C—Con, C—B, C—FmHA.
410-4	Application for Rural Housing Loans (Non-farm Tract).	2	B—O	O—L, C—FmHA.
424-12	Inspection Report	3	L—O	O—L, C—FmHA, C—Con.
424-20	Request for Subdivision Feasibility Analysis	4	Con—O	O—FmHA, C—L, C—B, C—Con.
440-3	Record of Actions	[4]	GAO—O	O—FC, C—FC, C—FmHA, C—St. Dir.
440-10	Cancellation of Loan or Grant Check and/or Obligation.	3	FmHA, 3—O	O—FC, C—St. Dir., C—FmHA.
440-46	Environmental Impact Assessment	2	FmHA—O	O—St. Dir., C—FmHA.
449-7	Assumption Agreement for Guaranteed Loans (New Terms).	4	B—O	O—L, C—B, 2C—FmHA.
449-9	Request for Conditional Commitment to Guarantee Loan.	2	L—O	O—FmHA, C—L.
449-10	Applicant's Environmental Impact Evaluation.	3	B—O	O—FmHA, C—L, C—B.
449-13	Denial Letter	2	FmHA—O	O—L, C—FmHA.
449-14	Conditional Commitment for Guarantee	3	FmHA—O	O—L, C—FmHA.
449-16	Request for Contract of Guarantee	2	L—O	O—FmHA, C—L.
449-17	Contract of Guarantee	2	FmHA—O	O—L, C—FmHA.
449-18	Lenders or Holders Request for Approval	2	L—O	O—FmHA, C—L.
449-19	Guarantee Fee Report	3	L—O	O—FmHA, C—FmHA, C—L first report.
		3	L—O	O—FC, C—FmHA, C—L subsequent report. FmHA.
449-20	Report of Lose	3	L—O	O—FmHA, C—L, C—FmHA.
451-1	Acknowledgement of Cash Payment	2	FmHA—O	O—L, C—FmHA.
471-7	Notice and Acknowledgement of Sale of Insured or Guaranteed Loan.	4	L—O	O—FC, C—FC, C—L, C—FmHA.

Agriculture form No.	Name of form	Total number	Signed by [1]	Distribution [1]
AD-621	Preapplication for Federal Assistance	4	SF packager or MF applicant.	O—L, C—FmHA, C—FmHA, C—Signer.
		3	Not signed	C—Con, C—L, C—B.
AD-425	Contractor's Affirmative Action Plan for Equal Employment Opportunity Under Executive Order 11246 and Executive Order 11375.			

[1] Signatures and Distribution: L—Lender; B—Borrower or assumptor; FC—Finance Office; FmHA—Authorized FmHA Official; Con—Contractor.
[2] When County Supervisor is not GAO, prepare 5 and distribute: O—GAO, 3C—GAO, C—FmHA.
NOTE.—O—Original; C—Copy; Lender includes Holder; GAO—Guarantee Approval official.

(b) *Other forms and information.* Another form that may be obtained from FmHA (although it is not an FmHA form) is Form AD-425, "Contractor's Affirmative Action Plan for Equal Employment Opportunity Under Executive Order 11246 and Executive Order 11375." Any needed forms not furnished by FmHA will be provided by the lender, holder, or applicant. They may obtain information and copies of other FmHA forms that may be helpful in various aspects of loan making, construction and development, and servicing.

(c) *Racial code.* Some FmHA forms, such as Form FmHA 449-6, and Form FmHA 449-7, contain space for coding the race of the applicant for the loan or assumption. In the code "W" means," "White," "N/B" means "Negro(Black)," and "S" means "Spanish American," "AI" means "American Indian," and "O" means any other race. The lender is responsible for completing this code on all forms on which it appears in accordance with his best judgment as to the race of the applicant.

§§ 1844.91–1844.99 [Reserved]

§ 1844.100 Guarantee processing steps.

In addition to taking steps to comply with any applicable preapplication requirements, and any environmental impact and clearinghouse requirements made by FmHA, the following steps (sometimes referred to by paragraph number) will be taken:

(a) *Form FmHA 449-9.* (1) Lender will submit this form with required enclosures to County Supervisor.

(2) County Supervisor will analyze material submitted and make any independent investigation he considers necessary.

(3) If material shows that loan cannot be guaranteed (for reasons that would not be affected by County Committee Certification), County Supervisor will send lender denial letter on Form FmHA 449-13.

(4) If material indicates that loan appears to qualify for guarantee, County Supervisor will proceed to Step "(b)" or "(c)," whichever is applicable.

(b) *Tentative approval and record of actions—when County Supervisor is guarantee approval official.* County Supervisor will:

(1) Sign Tentative Approval on Form FmHA 449-9. This approval is tentative because it is subject to future compliance with conditions and requirements of request for conditional commitment and Record of Actions, as well as those of Form FmHA 449-14 yet to be executed.

(2) Prepare Form FmHA 440-3 in original and 3 copies, sign original and conform all copies.

(3) Mail to Finance Office original and 1 copy of Form FmHA 440-3.

(4) Mail to State Director 1 copy of Form FmHA 440-3 for use in keeping record of guarantee funding reservations.

(5) Take no further action until he receives original of Form FmHA 440-3 from Finance Office or other advice from Finance Office or State Director that guarantee funding authority is available.

(c) *Tentative approval and record of actions—when County Supervisor is NOT guarantee approval official.* (1) *County Supervisor will:* (i) Insert his comments and recommendations on back of Form FmHA 449-9.

(ii) Prepare upper portion of Form FmHA 440-3 in original and 4 copies.

(iii) Send to guarantee approval official original Form FmHA 449-9 with enclosures, original Form FmHA 440-2, "County Committee Certification or Recommendation," and original and 3 copies of Form FmHA 440-3.

(2) *Guarantee approval official:* (i) Will analyze material received from County Supervisor and make, or require County Supervisor to make, any independent investigation guarantee approval official considers necessary.

(ii) If it appears that loan will qualify for guarantee, he will sign tentative approval on Form FmHA 440-9, "Supplementary Payment Agreement," complete and sign original Form FmHA 440-3 and conform 3 copies, mail original and 1 copy of Form FmHA 440-3 direct to Finance Office, and return to County Supervisor Form FmHA 449-9 with enclosures, and 1 conformed copy of Form FmHA 440-3. If District Director is guarantee approval official, he will send other conformed copy of Form FmHA 440-3 to State Director.

(iii) If he concludes that loan does not qualify for guarantee, he will set forth his reasons on Form FmHA 440-3 and return all material to County Supervisor.

(3) *When County Supervisor receives material from guarantee approval official:* (i) If guarantee approval official has rejected guarantee, County Supervisor will insert guarantee approval official's reasons (contained in Form FmHA 440-3) in denial letter on Form FmHA 449-13 and sign and send it to lender.

(ii) If guarantee approval official has signed tentative approval on Form FmHA 449-9, County Supervisor will take no further action until he receives original Form FmHA 440-3 from Finance Office or other advice from Finance Office or State Director that guarantee funding authority is available.

(d) *Advice concerning guarantee funding authority and issuance of conditional commitment.* As soon as possible after Finance Office receives original and copy of Form FmHA 440-3 from guarantee approval official, it will complete its portion of that form to show whether guarantee funding authority has been reserved and mail original to County Supervisor. When County Supervisor receives original of Form FmHA 440-3 from Finance Office or earlier advice from Finance Office or State Director regarding availability of guarantee funding authority, he will proceed as follows:

(1) If guarantee funding authority is not available, County Supervisor will notify lender to that effect on Form FmHA 449-13 or by regular letter.

(2) If original Form FmHA 440-3 received from Finance Office shows guarantee funding has been reserved, or if earlier advice has been received from Finance Office or State Director that guarantee funding authority is available, County Supervisor will complete and execute Form FmHA 449-14 in original and 2 copies and send original and 1 copy to lender. If County Supervisor is not guarantee approval official, he will include in Form FmHA 449-14 any conditions and requirements made by guarantee approval official in Form FmHA 440-3.

(e) *Acceptance or Rejection of Conditions.* When lender receives the original and copy of Form FmHA 449-14, it (and applicant in MF cases) will complete and sign Acceptance or Rejection of Conditions on back of copy of Form FmHA 449-14 and return it to County Supervisor.

(1) If County Supervisor does not receive signed Acceptance or Rejection of Conditions within 30 days after sending Form FmHA 449-14 to lender, he will follow up to ascertain status of matter.

(2) If Acceptance or Rejection of Conditions shows that Contract of Guarantee is not desired, County Supervisor will prepare and mail Form FmHA 440-10 to Finance Office as notice to cancel guarantee funding reservation.

(f) *Expiration of Conditional Commitment for Guarantee.* If Form FmHA 449-14 expires because FmHA does not receive Form FmHA 449-16 from lender before expiration date in Form FmHA 449-14 or any extension thereof or because of earlier notification from lender that it does not desire to obtain an FmHA guarantee, County Supervisor will prepare and mail Form FmHA 440-10 to Finance Office as notice to cancel guarantee funding reservation.

(g) *Request for Contract of Guarantee and subsequent actions.* (1) *Submission by lender.* After loan has been closed and housing has been completed and passed FmHA inspection, lender will submit to County Supervisor:

(i) Form FmHA 449-16.

(ii) Form FmHA 449-19 (original and 1 copy) and check for amount of guarantee fee required to be paid at time of issuance of Contract of Guarantee. The cancelled check will serve as lender's receipt, so separate receipt will not be issued unless lender requests one. In that event, Form FmHA 451-1, "Acknowledgement of Cash Payment," may be used if the word "cash" is deleted from the title of the form and if the last paragraph is deleted.

(2) *Actions by County Supervisor.* The County Supervisor will check material submitted by lender and make any independent investigation he considers necessary.

(i) If everything is in proper order, County Supervisor will:

(A) Indicate his approval by signing in the place provided on Form FmHA 449-16.

(B) Prepare Form FmHA 449-17 in original and 1 copy.

(C) Execute original Contract of Guarantee and send it to lender, and conform his copy.

(D) Mail Form FmHA 449-19 and guarantee fee check to Finance Office. This will constitute notice to Finance Office that Contract of Guarantee has been issued and that check should be processed for collection. The report will also provide Finance Office with lender's name, address, and IRS tax number.

(ii) If material submitted by lender is not in proper order, County Supervisor will:

(A) If he is not guarantee approval official, request any advice or assistance he deems necessary from guarantee approval official.

(B) Take matter up with lender if he thinks defects may be corrected.

(C) If defects are corrected, take actions provided for in paragraph (g)(2)(i) of this section.

(D) Issue denial letter to lender on Form FmHA 449-13 if efforts to obtain correction are unsuccessful or if defects are of such nature they cannot be corrected, return Guarantee Fee Report and guarantee fee check to lender, show on denial letter that "Guarantee Fee Report and guarantee fee check are returned herewith," and prepare and mail Form FmHA 440-10 to Finance Office as notice to cancel guarantee funding reservation.

Dated: January 27, 1975.

[50 CFR Part 219]

ABANDONMENT PROVISIONS REGARDING ILLEGALLY IMPORTED MARINE MATERIALS

Establishment of Comment Period

On January 16, 1975, notice of proposed amendments were published in the FEDERAL REGISTER (40 FR 2820–2821) concerning abandonment to United States Customs Officials of alleged illegally imported marine mammals or marine mammal parts or products, and endangered species or endangered species parts or products by the owners thereof.

Comments concerning the proposed amendments may be submitted to the Director, National Marine Fisheries Service, NOAA, U.S. Department of Commerce, Washington, D.C. 20235. All materials received on or before April 7, 1975 will be considered.

Dated: January 28, 1975.

JOSEPH W. SLAVIN,
Acting Director, National Marine Fisheries Service, NOAA.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

ALPHA-METHYL STYRENE, STYRENE, TERPHENYLS, VINYL TOLUENE, ACROLEIN, P-TERT-BUTYLTOLUENE, CUMENE (ISOPROPYL BENZENE), CYCLOHEXANE, DIPHENYL (BIPHENYL), ETHYL BENZENE, FURFURAL

Standards Completion Project

On March 18, 1974, the Assistant Secretary of Labor for Occupational Safety and Health announced the joint OSHA NIOSH Standards Completion Project. The purpose of the project is to issue completed standards for all of the toxic materials listed in Tables G–1, G–2 and G–3 of 29 CFR 1910.93, with the exception of some substances which are or will be the subjects of NIOSH Criteria Documents. These exceptions will be the subjects of separate rulemaking proceedings, outside of the Standards Completion Project.

Section 1910.93 lists exposure limits for certain hazardous or toxic substances. The new standards will establish requirements for monitoring employee exposure, medical surveillance, methods of compliance, handling and use of liquid forms of the substance, employee training, recordkeeping, and sanitation and housekeeping, among other things. In addition, the proposals are also designed to enable employers to better understand and comply with existing OSHA safety standards. The exposure limits listed in § 1910.93 are not at issue in the proposals, and no changes to these limits will be proposed or made in the standards issued as part of the Standards Completion Project.

The Office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor invites public participation in the development of the proposed standards. Drafts of the technical content of proposed standards have been prepared for the following substances: Alpha-Methyl Styrene, Styrene, Terphenyls, Vinyl Toluene, Acrolein, P-Tert-Butyltoluene, Cumene (Isopropyl Benzene), Cyclohexane, Diphenyl (Biphenyl), Ethyl Benzene, Furfural.

These draft technical standards reflect only the technical intent of NIOSH and OSHA and do not necessarily contain the specific language which will appear in the proposed standards.

Interested persons are invited to submit written data, views and arguments concerning these drafts or the program in general. Comments are requested concerning requirements of each section of the draft technical standards and alternatives to the provisions of each section. Information submitted in response to the Notice of Intent to Prepare An Environmental Impact Statement, published in the FEDERAL REGISTER on September 20, 1974 (39 FR 33843) need not be resubmitted.

Communications should be submitted to the Docket Officer, Standards Completion Project, Occupational Safety and Health Administration, U.S. Department of Labor, Room 260, 1726 M Street, NW., Washington, D.C. 20210, postmarked no later than March 5, 1975. The communications will be available for public inspection and copying, at the above location.

Copies of the draft technical standards on the above listed substances are available for inspection and copying, upon request, at the above address and at any of the following OSHA regional and area offices:

This advance notice of proposed rulemaking is issued under section 6 of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593; 29 U.S.C. 655) and Secretary of Labor's Order No. 12-71 (36 FR 8754).

Signed at Washington, D.C., this 28th day of January 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-3019 Filed 1-31-75;8:45 am]

[29 CFR Part 1910]

CARCINOGENS: 4,4'-METHYLENE BIS (2-CHLOROANILINE)

Notice of Proposed Rulemaking

Pursuant to authority in section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (the "Act") (84 Stat. 1593; 29 U.S.C. 655), Secretary of Labor's Order No. 12-71 (36 FR 8754), and 29 CFR Part 1911, it is hereby proposed to amend Part 1910 of Title 29 of the Code of Federal Regulations by adding the following standard concerning exposure of employees to 4,4'-Methylene bis (2-chloroaniline) as § 1910.93e. This proposal is issued pursuant to the remand of the United States Court of Appeals for the Third Circuit in *Synthetic Organic Chemical Manufacturers Association* v. *Brennan*, F. 2d (Nos. 74-1129, 74-1149, 74-1268, December 17, 1974).

Background. On May 22, 1972, the Deputy Assistant Secretary of Labor for Occupational Safety and Health requested information from the Director of the National Institute for Occupational Safety and Health (NIOSH) on nine substances alleged to be carcinogens. As part of his effort to gain the best available scientific data, the Director published on July 6, 1972, at 37 FR 13285, a request for information concerning 15 substances, including 4,4'-Methylene bis (2-chloroaniline). The data, arguments, and conclusions received by NIOSH were made available to the Occupational Safety and Health Administration (OSHA).

On January 4, 1973, a petition for an emergency temporary standard from the Oil, Chemical, and Atomic Workers Union (OCAW) and Health Research Group (HRG) was received by the Department of Labor. The petition contained relevant information on the danger of exposure to 10 carcinogens, and suggested regulations to prevent worker exposure to the substances.

On February 9, 1973, a notice was published in the FEDERAL REGISTER (38 FR 4037) of the receipt of the petition for issuance of an emergency temporary standard, and information was requested from interested persons on the issues involved. In response to the notice, more than 50 written comments were received.

Pursuant to section 6(c) of the Act (84 Stat. 1596, 29 U.S.C. 655), an emergency temporary standard on carcinogens was promulgated on May 3, 1973, at 38 FR 10929. The standard concerned work practices and controls designed to protect employees from exposure to 14 carcinogenic substances, including 4,4'-Methylene bis (2-chloroaniline).

A standards advisory committee on carcinogens was appointed and began its meetings on June 25, 1973. The members of the committee represented employers, employees, Federal and state agencies and professionals. The committee terminated its meetings on August 24, 1973, and submitted to the Assistant Secretary of Labor for Occupational Safety and Health its recommendations for a standard on certain carcinogens on August 27, 1973. The recommendations were published in the FEDERAL REGISTER on September 7, 1973 (38 FR 24375).

A rulemaking proceeding was conducted under section 6(b) and (c) of the Act, with the emergency temporary standard serving as a proposal as required by section 6(c)(3) of the Act. Notice of the proceeding was published in the FEDERAL REGISTER on July 16, 1973 (38 FR 18900). On July 27, 1973, a revision of the emergency temporary standard was published at 38 FR 20074, and an amended notice of rulemaking proceeding was published at 38 FR 22141, on August 16, 1973.

The notices invited interested persons to submit, prior to September 5, written comments, data and arguments concerning the proposals, and also provided for the presentation of oral testimony at a public hearing scheduled for September 11-14, 1973. Numerous written comments were received and about 36 parties testified at the hearing. The record of the hearing was initially held open until September 28, for additional comments. After the close and certification of the record by the administrative law judge, additional comments mailed on or before September 28 were received. On October 2 the judge reopened the record for the limited purpose of including these additional comments. On October 15, the judge closed the proceeding and forwarded the certified record to the Assistant Secretary of Labor for Occupational Safety and Health for final decision.

A final environmental impact statement on the proposed standard on carcinogens was filed with the Council on Environmental Quality on October 2, 1973, and copies were distributed to appropriate agencies. In a letter dated November 2, 1973, the Council pointed out alleged deficiencies in the statement filed. Pursuant to that letter, a supplement to the statement was sent to the Council on November 29, 1973, with a request for a waiver of the full, 30-day review period. By letter dated December 10, 1973, the Council advised that the request had been denied. Notice of the filing of the supplement was published by the Council on December 14, 1973 (38 FR 34488).

On January 29, 1974, OSHA promulgated final occupational safety and health standards on 14 carcinogens (39 FR 3756) based on the rulemaking proceeding which had been conducted. Separate standards were promulgated for each of the 14 substances, and were codified as §§ 1910.93c through 1910.93p. The standard on exposure to 4,4'-Methylene bis (2-chloroaniline) was contained in § 1910.93e and was republished on June 27, 1974 at 39 FR 23551.

Within 60 days after promulgation of the carcinogen standards, the Synthetic Organic Chemical Manufacturers Association (SOCMA), Polyurethane Manufacturers Association (PMA), and Oil, Chemical and Atomic Workers and Health Research Group (OCAW-HRG), petitioned under section 6(f) of the Act for review of various portions of the carcinogen standards. On August 26, 1974, the United States Court of Appeals for the Third Circuit handed down its decision in *Synthetic Organic Chemical Manufacturers Association* v. *Brennan*, 503 F. 2d 1155, (No. 74-1129), covering one of the 14 carcinogens, ethyleneimine ("EI"). The court upheld the Secretary's determination that EI is carcinogenic and upheld the standard, except as to the special provisions in the standard for laboratory activities. As to the laboratory requirements, the court found that adequate notice had not been given of OSHA's intention to make special provisions for laboratories, and therefore vacated and remanded these special provisions.

On December 17, 1974, the same court issued its decision in *Synthetic Organic Chemical Manufacturers* v. *Brennan*, F. 2d (Nos. 74-1129, 74-1149, 74-1268), disposing of the remaining challenges to the standards on carcinogens. The court, relying on its rationale in the first decision, upheld the Secretary's determinations concerning carcinogenicity of the substances involved, including 4,4'-Methylene bis (2-chloroaniline), and sustained the Secretary's various determinations on particular aspects of the standards. However, the court remanded the provisions on medical examinations in all the standards, because of the Secretary's failure to explain the lack of specificity in these requirements, and vacated the special provisions concerning laboratories, because of the lack of adequate notice. In addition, the court vacated the entire standard on 4,4(-Methylene bis (2-chloroaniline) (29 CFR 1910.93e) because, in the court's view, the procedure followed by OSHA in promulgating § 1910.93e did not comply with the statutory requirements. Specifically, the court held that the Secretary erred in not publishing a proposed regulation after receipt of the recommendations of the advisory committee, and that the public was not given adequate time to comment on the advisory committee's report.

Accordingly, the court vacated the standard on 4,4'-Methylene bis (2-chloroaniline) and remanded it for the publication of a proposed standard to be followed by the required procedures for public comment and hearing. While a petition for rehearing on this portion of the court's decision has been filed, this notice of proposed rulemaking is published pursuant to the court's mandate in order to assure effective protection of workers in the swiftest possible time. It is recognized, however, that action by the court on the Secretary's petition may necessitate changes in the proceedings initiated by this notice.

Proposed Standard. The proposal contained herein for the regulation of occupational exposure to 4,4'-Methylene bis (2-chloroaniline) is identical with the final standard on 4,4'-Methylene bis (2-chloroaniline) promulgated on January 29, 1974, and contained in § 1910.93e. That standard was issued after an extensive rulemaking proceeding which had formally commenced in May 1973 with the publication of the emergency temporary standard and which was based on the combined efforts of OSHA and NIOSH extending back at least a year before the promulgation of the emergency standard. All the evidence, testimony, comments, views and arguments developed during this extended period of of time, including the advisory committee recommendations, were considered in formulating the final standard. Accordingly, OSHA believes that the standard on 4,4'-Methylene bis (2-chloroaniline) promulgated on January 29, 1974, and vacated by the court on procedural grounds, serves as the best possible basis for the current proposal. In addition, the action of the court has created a gap in the significant protection afforded to employees by the carcinogen standards. The need to fill this gap as quickly as possible, consistent with the statutory procedures, further supports the wisdom of utilizing the promulgated standard as the proposal in this rulemaking proceeding. However, while we are proposing the same standard which was vacated by the court, the final standard which will issue as a result of this proceeding will be based on the entire record developed herein, including the record of the earlier proceeding.

The basis for the Secretary's finding that 4,4'-Methylene bis (2-chloroaniline) is a carcinogen and the explanation of and rationale for the various elements of this proposal are fully set out in the preamble to the carcinogen standards published at 39 FR 3756, and are incorporated by reference herein. The finding of carcinogenicity, based largely on extrapolation from animal data contained in the NIOSH hazard review document, was sustained by the court in its decision of December 17, 1974. The treatment of 4,4'-Methylene bis (2-chloroaniline) as a carcinogen in the proposal is based on the same considerations set out in the preamble to the carcinogen standards and affirmed by the court.

As noted, the terms of this proposal are identical with the final standard promulgated on January 29, 1974. Discussion and explanation of the particular elements of the proposal, such as the basic scheme of control through the use of isolated systems and closed systems, the exclusion of mixtures containing less than one percent of 4,4'-Methylene bis (2-chloroaniline) and the special provisions for premix solutions, the requirement for the establishment of regulated areas, the special provisions for maintenance and decontamination activities, emergencies, and laboratory activities, and the requirements for signs, information and training, medical surveillance and recordkeeping, are contained in the preamble to the final standard, incorporated herein by reference.

The proposal includes special provisions for laboratory activities, identical with those contained in the standard promulgated on January 29, 1974. The inclusion of these laboratory provisions in the proposal provides notice to all interested parties that special requirements for laboratories are contemplated and satisfies the court's mandate as to the laboratory provisions in the standard on 4,4'-Methylene bis (2-chloroaniline). A separate rulemaking proceeding will be instituted shortly to re-propose laboratory requirements for the 13 other carcinogen standards.

The court, in its decision of December 17, 1974, remanded, without vacating, the medical examination provisions of all the carcinogen standards because of the failure to explain the lack of specific requirements making these provisions effective. OSHA has requested NIOSH to develop, on an expedited basis, appropriate medical protocols for all 14 carcinogens. The specific medical requirements for each substance, when available from NIOSH, will be proposed as amendments to the carcinogen standards in a separate rulemaking proceeding. However, so as not to delay the filing of the gap created by the court's vacating the standard on 4,4'-Methylene bis (2-chloroaniline), and so as to provide the fullest medical protection possible based on the currently available information, this proposal is issued now with the same medical examination provisions as contained in the standard promulgated on January 29, 1974. The court's remand and the direction to provide greater specificity in the medical examination provisions will be complied with as soon as the necessary information becomes available to OSHA.

It was suggested during the court litigation on the carcinogen standards that

XUM

the extent of the prohibition on open vessel operations is unclear. Section 1910.93e, as promulgated on January 29, 1974, and as proposed herein, contains the following definition of open-vessel system in paragraph (b)(13):

(13) "Open-vessel system" means an operation involving 4,4'-Methylene bis (2-chloroaniline) in an open vessel, which is not in an isolated system, a laboratory type hood, nor in any other system affording equivalent protection against the entry of 4,4'-Methylene bis (2-chloroaniline) into regulated areas, nonregulated areas, or the external environment.

Paragraph (c)(3) provides that "open vessel system operations as defined in paragraph (b)(13) of this section are prohibited." Thus, the proposal would prohibit only those open vessel operations defined as such in paragraph (b)(13), and would permit open vessel operations if they are conducted in an isolated system, a laboratory type hood, or in any other system affording equivalent protection against the entry of 4,4'-Methylene bis (2-chloroaniline) into the surrounding atmosphere.

As noted above, draft and final environmental impact statements on the carcinogen standards were prepared during the course of the first rulemaking proceeding. Since the proposal issued herein is identical with the standard promulgated as a result of the rulemaking proceeding, the Director of the Office of Standards Development has determined that it is likely that all relevant environmental impacts of this proposal have already been considered. Accordingly, no new draft environmental impact statement will be prepared for this proceeding. However, pursuant to the regulations in 29 CFR Part 1999, the environmental impact of this proposal is an issue in the proceeding. If significant new information concerning the environmental impact of this proposal becomes available, the Director of the Office of Standards may supplement or amend the final environmental impact statement, pursuant to 29 CFR 1999.5(h).

Interested persons are invited to submit written data, views, or arguments concerning the proposed standard, postmarked on or before March 10, 1975. Written comments must be submitted in quadruplicate to OSHA Committee Management Office, Docket OSH-70, 1726 M Street, NW., Room 260, U.S. Department of Labor, Washington, D.C. 20210 (Phone: (202) 961-2248 or 2487). The data, views and arguments will be available for public inspection and copying at the above address. All written submissions received will be made a part of the record of this proceeding. Data, views and arguments submitted during the first rulemaking proceeding on the carcinogen standards, including the advisory committee report, will be made a part of the record of this proceeding and need not be resubmitted. They will also be available for inspection and copying at the above address.

In order to expedite this rulemaking proceeding and in anticipation of requests for a hearing, we are scheduling an informal public hearing, pursuant to section 6(b) of the Act and 29 CFR Part 1911, to begin on April 1, 1975 in the Departmental Auditorium, Constitution Avenue, between 12th and 14th Streets, NW., Washington, D.C. 20210. All aspects of the proposed standard, including environmental impact, will be at issue in the hearing. Beginning at 9:30 a.m. e.d.t. on April 1, 1975, the presiding Administrative Law Judge will hold a pre-hearing conference in order to settle any matters relating to the proceeding. All persons intending to make presentations should attend the pre-hearing conference which is open to the public. The hearing will be conducted, and the decisions made, in accordance with 29 CFR Part 1911.

Persons desiring to appear at the hearing must file a notice of intention to appear on or before March 18, 1975 with OSHA Committee Management Office, Docket OSH-70, 1726 M Street, NW., Room 260, U.S. Department of Labor, Washington, D.C. 20210 (Phone: 202-961-2248 or 2487). The notice must contain the following information:

(1) The name and address of the person to appear;
(2) The capacity in which he will appear;
(3) The approximate amount of time required for the presentation;
(4) The specific provisions of the proposal that will be addressed;
(5) A brief statement of the position that will be taken with respect to each provision addressed; and
(6) A summary of the evidence with respect to each such provision proposed to be adduced at the hearing.

The oral proceedings will be reported verbatim. All statements and documents that are intended to be submitted for the record of the hearing must be submitted in quadruplicate. The use of prepared statements by witnesses is encouraged.

The Administrative Law Judge shall have all the powers necessary or appropriate to conduct a fair and full informal hearing, including the powers:

(a) To regulate the course of the proceedings;
(b) To dispose of procedural requests, objections, and comparable matters;
(c) To confine the presentations to matters pertinent to the proposed standard;
(d) To regulate the conduct of those present at the hearing by appropriate means;
(e) In his discretion, to question, and permit questioning of any witnesses; and
(f) In his discretion, to keep the record open for a reasonable, stated time to receive written information from any person who has participated in the oral proceeding.

Following the close of the hearing, the presiding Administrative Law Judge shall certify the record thereof to the Assistant Secretary of Labor for Occupational Safety and Health.

The proposed standard will be reviewed after consideration of all relevant oral and written information, data, views, or arguments, including the record of the earlier proceeding, and may be adopted with or without changes.

Accordingly, pursuant to sections 6(b) and 8(c) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593, 1599; 29 U.S.C. 655, 657), Secretary of Labor's Order No. 12-71 (36 FR 8754), and 29 CFR Part 1911, it is hereby proposed to amend Part 1910 of Title 29 of the Code of Federal Regulations by adding § 1910.93e as set forth below.

(Secs. 6, 8, 84 Stat. 1593, 1599 (29 U.S.C. 655, 657) Secretary of Labor's Order No. 12-71, 36 FR 8754, and 29 CFR Part 1911)

Signed at Washington, D.C. this 27th day of January, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

§ 1910.93e 4,4'-Methylene bis(2-chloroaniline).

(a) *Scope and application.* (1) This section applies to any area in which 4,4'-Methylene bis(2-chloroaniline), Chemical Abstracts Service Registry Number 101144 is manufactured, processed, repackaged, released, handled, or stored, but shall not apply to trans-shipment in sealed containers, except for the labeling requirements under paragraphs (e)(2), (3), and (4) of this section.

(2) This section shall not apply to solid or liquid mixtures containing less than 1.0 percent by weight or volume of 4,4'-Methylene bis(2-chloroaniline).

(b) *Definitions.* For the purposes of this section: (1) "Absolute filter" is one capable of retaining 99.97 percent of a mono disperse aerosol of 0.3 μm particles.

(2) "Authorized employee" means an employee whose duties require him to be in the regulated area and who has been specifically assigned by the employer.

(3) "Clean change room" means a room where employees put on clean clothing and/or protective equipment in an environment free of 4,4'-Methylene bis(2-chloroaniline). The clean change room shall be contiguous to and have an entry from a shower room, when the shower room facilities are otherwise required in this section.

(4) "Closed system" means an operation involving 4,4'-Methylene bis(2-chloroaniline) where containment prevents the release of 4,4'-Methylene bis (2-chloroaniline) into regulated areas, nonregulated areas, or the external environment.

(5) "Decontamination" means the inactivation of 4,4'-Methylene bis(2-chloroaniline) or its safe disposal.

(6) "Director" means the Director, National Institute for Occupational Safety and Health, or any person directed by him or the Secretary of Health, Education, and Welfare to act for the Director.

(7) "Disposal" means the safe removal of 4,4'-Methylene bis(2-chloroaniline) from the work environment.

(8) "Emergency" means an unforeseen circumstance or set of circumstances resulting in the release of 4,4'-Methylene bis(2-chloroaniline) which may result in exposure to or contact with 4,4'-Methylene bis(2-chloroaniline).

(9) "External environment" means any environment external to regulated and nonregulated areas.

(10) "Isolated system" means a fully enclosed structure other than the vessel of containment, of 4,4'-Methylene bis (2-chloroaniline), which is impervious to the passage of 4,4'-Methylene bis (2-chloroaniline), and which would prevent the entry of 4,4'-Methylene bis (2-chloroaniline) into regulated areas, nonregulated areas, or the external environment, should leakage or spillage from the vessel of containment occur.

(11) "Laboratory type hood" is a device enclosed on three sides and the top and bottom, designed and maintained so as to draw air inward at an average liner face velocity of 150 feet per minute with a minimum of 125 feet per minute: designed, constructed, and maintained in such a way that an operation involving 4,4'-Methylene bis(2-chloroaniline) within the hood does not require the insertion of any portion of any employee's body other than his hands and arms.

(12) "Nonregulated area" means any area under the control of the employer where entry and exit is neither restricted nor controlled.

(13) "Open-vessel system" means an operation involving 4,4'-Methylene bis (2-chloroaniline) in an open vessel, which is not in an isolated system, a laboratory type hood, nor in any other system affording equivalent protection against the entry of 4,4'-Methylene bis (2-chloroaniline) into regulated areas, nonregulated areas, or the external environment.

(14) "Protective clothing" means clothing designed to protect an employee against contact with or exposure to 4,4'-Methylene bis(2-chloroaniline).

(15) "Regulated area" means an area where entry and exit is restricted and controlled.

(c) *Requirements for areas containing 4,4'-Methylene bis (2-chloroaniline).* A regulated area shall be established by an employer where 4,4'-Methylene bis(2-chloroaniline) is manufactured, processed, used, repackaged, released, handled or stored. All such areas shall be controlled in accordance with the requirements for the following category or categories describing the operation involved: (1) *Isolated systems.* Employees working with 4,4'-Methylene bis(2-chloroaniline) within an isolated system, such as a "glove box" shall wash their hands and arms upon completion of the assigned task and before engaging in other activities not associated with the isolated system.

(2) *Closed system operation.* Within regulated areas where 4,4'-Methylene bis(2-chloroaniline) is stored in sealed containers, or contained in a closed system, including piping systems, with any sample ports or openings closed while 4,4'-Methylene bis(2-chloroaniline) is contained within: (i) Access shall be restricted to authorized employees only;

(ii) Employees shall be required to wash hands, forearms, face and neck upon each exit from the regulated areas, close to the point of exit and before engaging in other activities.

(3) *Open vessel system operations.* Open vessel system operations as defined in paragraph (b)(13) of this section are prohibited.

(4) *Transfer from a closed system, charging or discharging point operations, or otherwise opening a closed system.* In operations involving "laboratory type hoods," or in locations where 4,4'-Methylene bis(2-chloroaniline) is contained in an otherwise "closed system," but is transferred, charged, or discharged into other normally closed containers, the provisions of this subparagraph shall apply. (i) Access shall be restricted to authorized employees only;

(ii) Each operation shall be provided with continuous local exhaust ventilation so that air movement is always from ordinary work areas to the operation. Exhaust air shall not be discharged to regulated areas, nonregulated areas or the external environment unless decontaminated. Clean makeup air shall be introduced in sufficient volume to maintain the correct operation of the local exhaust system.

(iii) Employees shall be provided with, and required to wear, clean, full body protective clothing (smocks, coveralls, or long-sleeved shirt and pants), shoe covers and gloves prior to entering the regulated area.

(iv) Employees engaged in 4,4'-Methylene bis(2-chloroaniline) handling operations shall be provided with and required to wear and use a half-face, filter-type respirator for dusts, mists, and fumes, in accordance with § 1910.134. A respirator affording higher levels of protection may be substituted.

(v) Prior to each exit from a regulated area, employees shall be required to remove and leave protective clothing and equipment at the point of exit and at the last exit of the day, to place used clothing and equipment in impervious containers at the point of exit for purposes of decontamination or disposal. The contents of such impervious containers shall be identified as required under paragraphs (e)(2), (3), and (4) of this section.

(vi) Employees shall be required to wash hands, forearms, face and neck on each exit from the regulated area, close to the point of exit, and before engaging in other activities.

(vii) Employees shall be required to shower after the last exit of the day.

(viii) Drinking fountains are prohibited in the regulated area.

(5) *Maintenance and decontamination activities.* In cleanup of leaks or spills, maintenance or repair operations on contaminated systems or equipment, or any operations involving work in an area where direct contact with 4,4'-Methylene bis(2-chloroaniline) could result, each authorized employee entering that area shall: (i) Be provided with and required to wear clean, impervious garments, including gloves, boots and continuous-air supplied hood in accordance with § 1910.134.

(ii) Be decontaminated before removing the protective garments and hood:

(iii) Be required to shower upon removing the protective garments and hood.

(6) *Laboratory activities.* The requirements of this subparagraph shall apply to research and quality control activities involving the use of 4,4'-Methylene bis (2-chloroaniline). (i) Mechanical pipetting aids shall be used for all pipetting procedures.

(ii) Experiments, procedures and equipment which could produce aerosols shall be confined to laboratory-type hoods or glove boxes.

(iii) Surfaces on which 4,4'-Methylene bis(2-chloroaniline) is handled shall be protected from contamination.

(iv) Contaminated wastes and animal carcasses shall be collected in impervious containers which are closed and decontaminated prior to removal from the work area. Such wastes and carcasses shall be incinerated in such a manner that no carcinogenic products are released.

(v) All other forms of 4,4'-Methylene bis(2-chloroaniline) shall be inactivated prior to disposal.

(vi) Laboratory vacuum systems shall be protected with high-efficiency scrubbers or with disposable absolute filters.

(vii) Employees engaged in animal support activities shall be (*a*) provided with, and required to wear, a complete protective clothing change, clean each day, including coveralls or pants and shirt, foot covers, head covers, gloves, and appropriate respiratory protective equipment or devices; and

(*b*) Prior to each exit from a regulated area, employees shall be required to remove and leave protective clothing and equipment at the point of exit and at the last exit of the day, to place used clothing and equipment in impervious containers at the point of exit for purposes of decontamination or disposal. The contents of such impervious containers shall be identified as required under paragraphs (e)(2), (3), and (4) of this section.

(c) Required to wash hands, forearms, face and neck upon each exit from the regulated area close to the point of exit, and before engaging in other activities; and

(*d*) Required to shower after the last exit of the day.

(viii) Employees, other than those engaged only in animal support activities, each day shall be (*a*) provided with and required to wear a clean change of appropriate laboratory clothing, such as a solid front gown, surgical scrub suit, or fully buttoned laboratory coat.

(*b*) Prior to each exit from a regulated area, employees shall be required to remove and leave protective clothing and equipment at the point of exit and at the last exit of the day, to place used clothing and equipment in impervious containers at the point of exit for purposes of decontamination or disposal. The contents of such impervious containers shall be identified as required under paragraphs (e)(2), (3), and (4) of this section.

XUM
V40123
FEB 3 75
XUM

(c) Required to wash hands, forearms, face and neck upon each exit from the regulated area close to the point of exit, and before engaging in other activities.

(ix) Air pressure in laboratory areas and animal rooms where 4,4'-Methylene bis(2-chloroaniline) is handled and bioassay studies are performed shall be negative in relation to the pressure in surrounding areas. Exhaust air shall not be discharged to regulated areas, nonregulated areas or the external environment unless decontaminated.

(x) There shall be no connection between regulated areas and any other areas through the ventilation system.

(xi) A current inventory of 4,4'-Methylene bis (2-chloroaniline) shall be maintained.

(xii) Ventilated apparatus such as laboratory type hoods, shall be tested at least semi-annually or immediately after ventilation modification or maintenance operations, by personnel fully qualified to certify correct containment and operation.

(7) *Premixed solutions.* Where 4,4'-Methylene bis(2-chloroaniline) is present only in a single solution at a temperature not exceeding 120°F. the establishment of a regulated area is not required; however, (i) Only authorized employes shall be permitted to handle such materials;

(ii) Each day employees shall be provided with and required to wear a clean change of protective clothing (smocks, coveralls, or long-sleeved shirts and pants), gloves, and other protective garments and equipment necessary to prevent contact with the solution in the processes used;

(iii) Employees shall be required to remove and leave protective clothing and equipment when leaving the work area at the end of the work day, or at any time solution is spilled on such clothing or equipment. Used clothing and equipment shall be placed in impervious containers for purposes of decontamination or disposal. The contents of such impervious containers shall be identified, as required under paragraphs (e) (2), (3), and (4) of this section;

(iv) Employees shall be required to wash hands and face after removing such clothing and equipment and before engaging in other activities;

(v) Employees assigned to work covered by this subparagraph shall be deemed to be working in regulated areas for the purposes of paragraphs (d) (1), (2), (3) (i) and (ii), and (4) (iii) and (iv), (e), (f), and (g) of this section;

(vi) Work areas where solution may be spilled shall be (*a*) covered daily or after any spill with a clean covering; or

(*b*) Cleaned thoroughly daily and after any spill.

(d) *General regulated area requirements*—(1) *Employee identification.* A daily roster of employees entering regulated areas shall be established and maintained. The rosters or a summary of the rosters shall be retained for a period of 20 years. The rosters and/or summaries shall be provided upon request to authorized representatives of the Assistant Secretary and the Director. In the event that the employer ceases business without a successor, rosters shall be forwarded by registered mail to the Director.

(2) *Emergencies.* In an emergency, immediate measures including, but not limited to, the requirements of subdivisions (i), (ii), (iii), (iv), and (v) of this subparagraph shall be implemented. (i) The potentially affected area shall be evacuated as soon as the emergency has been determined.

(ii) Hazardous conditions created by the emergency shall be eliminated and the potentially affected area shall be decontaminated prior to the resumption of normal operations.

(iii) Special medical surveillance by a physician shall be instituted within 24 hours for employees present in the potentially affected area at the time of the emergency. A report of the medical surveillance and any treatment shall be included in the incident report, in accordance with paragraph (f) (2) of this section.

(iv) Where an employee has a known contact with 4,4'-Methylene bis(2-chloroaniline) such employee shall be required to shower as soon as possible, unless contraindicated by physical injuries.

(v) An incident report on the emergency shall be reported as provided in paragraph (f) (2) of this section.

(3) *Hygiene facilities and practices.* (i) Storage or consumption of food, storage or use of containers of beverages, storage or application of cosmetics, smoking, storage of smoking materials, tobacco products or other products for chewing, or the chewing of such products, are prohibited in regulated areas.

(ii) Where employees are required by this section to wash, washing facilities shall be provided in accordance with § 1910.141(d) (1) and (2) (ii) through (vii).

(iii) Where employees are required by this section to shower, facilities shall be provided in accordance with § 1910.141 (d) (3).

(iv) Where employees wear protective clothing and equipment clean change rooms shall be provided, in accordance with § 1910.141(e), for the number of such employees required to change clothes.

(v) Where toilets are in regulated areas, such toilets shall be in a separate room.

(4) *Contamination control.* (i) Regulated areas, except for outdoor systems, shall be maintained under pressure negative with respect to nonregulated areas. Local exhaust ventilation may be used to satisfy this requirement. Clean makeup air in equal volume shall replace air removed.

(ii) Any equipment, material, or other item taken into or removed from a regulated area shall be done so in a manner that does not cause contamination in nonregulated areas or the external environment.

(iii) Decontamination procedures shall be established and implemented to remove 4,4'-Methylene bis(2-chloroaniline) from the surfaces of materials, equipment and the decontamination facility.

(iv) Dry sweeping and dry mopping are prohibited.

(e) *Signs, information and training*—(1) *Signs.* (i) Entrances to regulated areas shall be posted with signs bearing the legend:

CANCER-SUSPECT AGENT

AUTHORIZED PERSONNEL ONLY

(ii) Entrances to regulated areas containing operations covered in paragraph (c) (5) of this section shall be posted with signs bearing the legend:

CANCER-SUSPECT AGENT EXPOSED IN THIS AREA

IMPERVIOUS SUIT INCLUDING GLOVES, BOOTS, AND AIR-SUPPLIES HOOD REQUIRED AT ALL TIMES

AUTHORIZED PERSONNEL ONLY

(iii) Appropriate signs and instructions shall be posted at the entrance to, and exist from, regulated areas, informing employees of the procedures that must be followed in entering and leaving a regulated area.

(2) *Container contents identification.* (i) Containers of 4,4'-Methylene bis(2-chloroaniline) and containers required under paragraphs (c) (4) (v) and (c) (6) (vii) (b), and (c) (6) (viii) (b) and (c) (7) (iii) of this section which are accessible only to, and handled only by authorized employees, or by other employees trained in accordance with subparagraph (5) of this paragraph, may have contents identification limited to a generic or proprietary name, or other proprietary identification, of the carcinogen and percent.

(ii) Containers of 4,4'-Methylene bis(2-chloroaniline) and containers required under paragraphs (c) (4) (v), (c) (6) (vii) (b), and (c) (6) (viii) (b) and (c) (7) (iii) of this section which are accessible to, or handled by employees other than authorized employees or employees trained in accordance with subparagraph 5 of this paragraph shall have contents identification which includes the full chemical name and Chemical Abstracts Service Registry number as listed in paragraph (a) (1) of this section.

(iii) Containers shall have the warning words "CANCER-SUSPECT AGENT" displayed immediately under or adjacent to the contents identification.

(iv) Containers which have 4,4'-Methylene bis(2-chloroaniline) contents with corrosive or irritating properties shall have label statements warning of such hazards, noting, if appropriate, particularly sensitive or affected portions of the body.

(3) *Lettering.* Lettering on signs and instructions required by subparagraph (1) of this paragraph shall be a minimum letter height of 2 inches. Labels on containers required under this section shall not be less than ½ the size of the largest lettering on the package, and not less than 8 point type in any instance; provided that no such required lettering need be more than 1 inch in height.

(4) *Prohibited statements.* No statement shall appear on or near any required sign, label, or instruction which contradicts or detracts from the effect of any required warning, information or instruction.

(5) *Training and indoctrination.* (i) Each employee prior to being authorized to enter a regulated area, shall receive a training and indoctrination program including, but not necessarily limited to: (*a*) The nature of the carcinogenic hazards of 4,4'-Methylene bis(2-chloroaniline), including local and systemic toxicity;

(*b*) The specific nature of the operation involving 4,4'-Methylene bis(2-chloroaniline) which could result in exposure;

(*c*) The purpose for and application of the medical surveillance program, including, as appropriate, methods of self-examination;

(*d*) The purpose for and application of decontamination practices and purposes;

(*e*) The purpose for and significance of emergency practices and procedures;

(*f*) The employee's specific role in emergency procedures;

(*g*) Specific information to aid the employee in recognition and evaluation of conditions and situations which may result in the release of 4,4'-Methylene bis(2-chloroaniline);

(*h*) The purpose for and application of specific first aid procedures and practices;

(*i*) A review of this section at the employee's first training and indoctrination program and annually thereafter.

(ii) Specific emergency procedures shall be prescribed, and posted, and employees, shall be familiarized with their terms, and rehearsed in their application.

(iii) All materials relating to the program shall be provided upon request to authorized representatives of the Assistant Secretary and the Director.

(f) *Reports*—(1) *Operations.* Not later than March 1, 1974, the information required in subdivisions (i), (ii), (iii), and (iv) of this subparagraph shall be reported in writing to the nearest OSHA Area Director. Any changes in such information shall be similarly reported in writing within 15 calendar days of such change. (i) A brief description and in-plant location of the area(s) regulated and the address of each regulated area:

(ii) The name(s) and other identifying information as to the presence of 4,4'-Methylene bis(2-chloroaniline) in each regulated area;

(iii) The number of employees in each regulated area, during normal operations including maintenance activities; and

(iv) The manner in which 4,4'-Methylene bis(2-chloroaniline) is present in each regulated area: e.g. whether it is manufactured, processed, used, repackaged, released, stored, or otherwise handled.

(2) *Incidents.* Incidents which result in the release of 4,4'-Methylene bis(2-chloroaniline) into any area where employees may be potentially exposed shall be reported in accordance with this subparagraph (1). A report of the occurrence of the incident and the facts obtainable at that time including a report on any medical treatment of affected employees shall be made within 24 hours to the nearest OSHA Area Director.

(ii) A written report shall be filed with the nearest OSHA Area Director within 15 calendar days thereafter and shall include: (*a*) A specification of the amount of material released, the amount of time involved, and an explanation of the procedure used in determining this figure;

(*b*) A description of the area involved, and the extent of known and possible employee exposure and area contamination; and

(*c*) A report of any medical treatment of affected employees and any medical surveillance program implemented; and

(*d*) An analysis of the circumstances of the incident, and measures taken or to be taken, with specific completion dates, to avoid further similar releases.

(g) *Medical surveillance.* At no cost to the employee, a program of medical surveillance shall be established and implemented for employees considered for assignment to enter regulated areas, and for authorized employees. (1) *Examinations.* (i) Before an employee is assigned to enter a regulated area, a preassignment physical examination by a physician shall be provided. The examination shall include the personal history of the employee, family and occupational background, including genetic and environmental factors.

(ii) Authorized employees shall be provided periodic physical examinations, not less often than annually, following the preassignment examination.

(iii) In all physical examinations, the examining physician shall consider whether there exist conditions of increased risk, including reduced immunological competence, those undergoing treatment with steroids or cytotoxic agents, pregnancy and cigarette smoking.

(2) *Records.* (i) Employers of employees examined pursuant to this paragraph shall cause to be maintained complete and accurate records of all such medical examinations. Records shall be maintained for the duration of the employee's employment. Upon termination of the employee's employment, including retirement or death, or in the event that the employer ceases business without a successor, records, or notarized true copies thereof, shall be forwarded by registered mail to the Director.

(ii) Records required by this paragraph shall be provided upon request to authorized representatives of the Assistant Secretary or the Director; and upon request of an employee or former employee, to a physician designated by the employee or to a new employer.

(iii) Any physician who conducts a medical examination required by this paragraph shall furnish to the employer a statement of the employee's suitability for employment in the specific exposure.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 75-SO-5]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Edenton, N.C., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before March 5, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Edenton transition area described in § 71.181 (40 FR 441) would be amended as follows:

"• • • north of the RBN • • •" would be deleted and "• • • north of the RBN: within a 6.5-mile radius of Plymouth Municipal Airport (Lat. 35°48'30" N., Long. 76°-45'36" W.); within 3 miles each side of the 205° bearing from Plymouth RBN (Lat. 35°-48'23" N., Long. 76°45'30" W.), extending from the 6.5-mile radius area to 8.5 miles southwest of the RBN • • •" would be substituted therefor.

The proposed alteration is required to provide controlled airspace protection for IFR operations at Plymouth Municipal Airport. A prescribed instrument approach procedure to this airport, utilizing the Plymouth (private) Nondirectional Radio Beacon, is proposed in conjunction with the alteration of this transition area.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 23, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

National Highway Traffic Safety Administration

[49 CFR Parts 571, 581]

[Docket No. 74–11, Notice 7; Docket No. 73–19, Notice 6]

MOTOR VEHICLE SAFETY AND DAMAGE STANDARDS

Bumper Requirements; Extension of Comment Period and Scheduling of Public Hearing

The purpose of this notice is to extend the period for submission of comments to the notice published January 2, 1975 (40 FR 10), proposing to amend 49 CFR Part 581, the proposed front and rear end damageability ("bumper") standard, and to schedule a public hearing on the subject matter of the notice.

In the notice, the National Highway Traffic Safety Administration (NHTSA) proposed an immediate reduction in the test requirements of the current bumper standard (Standard No. 215, 49 CFR Part 571.215) and an integration of its provisions into the proposed Part 581 (July 9, 1974, 39 FR 25237). The NHTSA's action was predicated on the results of two agency-conducted cost benefit studies that indicated the current bumper standard was no longer cost beneficial due to the cost and weight of current bumper systems and factors related to inflation and increasing shortages of certain materials, including gasoline. The closing date for the submission of comments was initially set for February 12, 1975.

Petitions have been received from American Motors, General Motors, and the Motor Vehicle Manufacturers Association requesting that the comment period be extended 90 days to allow additional time for preparation of comments to that portion of the notice proposing requirements to be effective September 1, 1978 and September 1, 1979. In addition, considerable Congressional interest in the proposed rulemaking has been manifested. Senator Warren Magnuson criticized the proposed amendment stating that means capable of reducing vehicle weight and cost are available which would not require a lowering of the performance level of bumpers. Requests for an overall extension of the comment period have also been received from some members of Congress. Representative John Moss urged an extension of the comment period until April 1, 1975, and the scheduling of a public hearing to take testimony on the proposed rulemaking. The National Association of Independent Insurers, the American Insurance Association, and certain individual insurance companies not affiliated with trade organizations have expressed a position consistent with that of Congressman Moss by calling for a public hearing and a comment period extension.

In light of the controversy surrounding the proposal and the large number of requests for delay in the expiration of the comment period, the NHTSA hereby extends the period for comments until March 3, 1975, and schedules a public hearing for February 18 and 19, 1975. The public meeting will serve as a forum for discussion of the proposed requirements and will permit interested persons to make oral or written presentations.

Interested persons are invited to attend the meeting. Persons who desire to make a formal presentation should contact Mr. Guy Hunter, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, D.C. 20590 (telephone 202–426–2265), before February 12, 1975, so that limitations (if necessary) and the need for special equipment, such as projectors, can be discussed and final arrangements can be made. A general outline of the planned presentation should also be submitted at this time. Persons whose presentations include slides, motion pictures, or other visual aids should plan to submit copies of them for the record at the meeting.

An agenda will be available at the meeting. A transcript of the meeting will be made, and will be available for examination in the Docket Section, Room 5108, 400 Seventh Street, SW., Washington, D.C., approximately 3 days after the meeting.

The meeting will be held at the U.S. Department of Commerce Auditorium, 14th Street and Constitution Avenue, NW., Washington, D.C. The meeting will be in session from 9:30 a.m. to 5 p.m. on February 18, 1975, and, depending on the requests for time, during the same hours on February 19, 1975.

(Secs. 103, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1407); sec. 102, Pub. L. 92–513, 86 Stat. 947 (15 U.S.C. 1912); delegations of authority at 49 CFR 1.51 and 501.8)

Issued on January 30, 1975.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION

[36 CFR Part 603]

FREEDOM OF INFORMATION FEES

Schedule of Fees

The American Revolution Bicentennial Administration (ARBA) is considering publishing in Title 36, Chapter VI of the Code of Federal Regulations the following regulations concerning the schedule of fees and methods of payment for services rendered under the Freedom of Information Act, as amended (5 U.S.C. 552).

The Freedom of Information Act was amended by Pub. L. 93–502, 88 Stat. 1561, to provide, among other things, that fees for document search and duplication in response to requests under that Act provide for recovery of only direct costs of search and duplication by means of reasonable standard charges.

Interested persons are invited to submit written comments to the General Counsel, American Revolution Bicentennial Administration, 2401 E Street, NW., Washington, D.C. 20276. Comments received on or before March 5, 1975 will be considered before final action is taken on this proposal. Copies of all written comments will be available for examination by interested parties in Room 7240, Columbia Plaza Office Building, 2401 E Street, NW., Washington, D.C.

The present schedule of fees for services performed in response to requests for records under the Freedom of Information Act was published in Volume 37, No. 104 of the FEDERAL REGISTER of May 27, 1972.

Section 603.105 is proposed as follows:

§ 603.105 Schedule of fees and method of payment for services rendered.

(a) Fee schedule for the search and reproduction of information available under the Freedom of Information Act (5 U.S.C. 552), as amended.

(1) Search for records—$5.00 per hour when the search is conducted by a clerical employee. $8.00 per hour when the search is conducted by a professional employee. No charge for searches of less than one hour.

(2) Duplication of records—Records will be duplicated at a rate of $0.25 per page for all copying of four pages or more. There is no charge for duplicating three or less pages.

(3) Other—When no specific fee has been established for a service, or the request for a service does not fall under one of the above categories due to the amount or type thereof, the Deputy Administrator is authorized to establish an appropriate fee based on "direct costs" as provided in the Freedom of Information Act and in accordance with Office of Management and Budget Circular No. A–25. Examples of services covered by this provision include searches involving computer time or special travel, transportation, or communications costs.

(b) If records requested under this part are stored elsewhere than the headquarters of the ARBA at Washington, D.C., the special costs of returning such records to the headquarters for review will be added to the search costs. Search costs are due and payable even if the record which was requested cannot be located after all reasonable efforts have been made, or if the ARBA determines that a record which has been requested, but which is exempt from disclosure under this part, is to be withheld.

(c) Where it is anticipated that the fees chargeable under this section will amount to more than $25., and the requester has not indicated in advance his willingness to pay fees as high as are anticipated, the requester shall be promptly notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In instances where the estimated fees will greatly exceed $25., an advance deposit may be required. The notice or request for an advance deposit shall extend an offer to the requester to consult with knowledgeable ARBA personnel in an attempt to reformulate the request in a manner which will reduce the fees and meet the needs of the requester. Dispatch of such a notice or request shall suspend the running of the period for response by the ARBA until a reply is received from the requester.

(d) Fees must be paid in full prior to issuance of requested copies. In the event the requester is in arrears for previous requests for which the ARBA was unable to find or provide the requested information (see b. above), copies of records will not be provided for any subsequent request until the arrears have been paid in full.

(e) Remittances shall be in the form either of a personal check or bank draft drawn on a bank in the United States, or a postal money order. Remittances shall be made payable to the order of the Treasurer of the United States and mailed to the Deputy Administrator, American Revolution Bicentennial Administration, 2401 E Street, NW., Washington, D.C. 20276.

(f) A receipt for fees paid will be given only upon request. Refund of fees paid for services actually rendered will not be made.

(g) The Deputy Administrator, or an officer designated by the Deputy Administrator may in accordance with the Freedom of Information Act, as amended, waive all or part of any fee provided for in this section when the Deputy Administrator or the designated officer deems it to be in either the ARBA's interest or in the general public's interest.

JOHN W. WARNER,
Administrator.

JANUARY 28, 1975.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[FCC 75–87; Docket No. 20337, RM–2296]

FM BROADCAST STATIONS

Proposed Table of Assignments

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Baxley, Sandersville and Sparta, Georgia).

1. The backlog of petitions for amendment of the FM Table of Channel Assignments (§ 73.202(b)) prompts the Commission to embark upon expediting procedures which if successful will substantially compress the amount of time required to process such petitions from receipt to final disposition.

2. On December 4, 1974, the Commission adopted an Order (FCC 74–1334) amending Part 1 of the rules relating to practice and procedures in rule making proceedings, wherein § 1.401 was amended to permit a petitioner seeking amendment of the FM or TV Table of Assignments to submit a draft notice of proposed rule making with his petition. We believe this amendment can expedite action on future petitions. However, it does not compress the processing time for those petitions currently backlogged. Therefore, in the interest of expediting action on backlogged petitions we shall, where possible, follow a format in issuing notices of proposed rule making which will include the minimum amount of data deemed necessary to solicit meaningful comments upon which to base a final decision. This is the first Notice to which the format has been applied. The format should not be considered fixed since usage may dictate changes or abandonment.

3. *Petitioner, Proposal and Comments.* (a) Petition for rulemaking filed December 4, 1973, by WHAB Radio, Inc. (WRI), Baxley, Georgia, proposed to assign Class C Channel 234 to Baxley. In order to accommodate this assignment, it also proposed to substitute Channel 237A for Channel 249A at Ocilla, Georgia.

(b) By letter dated January 28, 1974, counsel for the Broadcast Good Music Committee (BGMC) pointed to a conflict between an application (BPH–8716) for use of Channel 237A at Fitzgerald, Georgia, and the petition for assignment of Channel 234 to Baxley, Georgia.

(c) WRI, on July 9, 1974, amended its petition with new engineering data proposing Channel 233 in lieu of Channel 234 for Baxley. In order to accommodate this assignment, it also proposed the substitution of Channel 228A for 232A at Sandersville, Georgia, and substitution of Channel 244A for 228A at Sparta, Georgia. (Channels 232A and 228A are assigned but unapplied for.)

4. *Demographic Data.*

Location: Baxley, in the County of Appling, Georgia, is approximately 73 miles west southwest of Savannah, and 38 miles north of Waycross.

Population (1970 Census): Baxley 3,503; Appling County 12,726.

Local Broadcast Service: one, petitioner's 5 kW daytime Station WUFE, 1260 kHz.

Manufacturing: 28 plants in and around Baxley with clothing mills and factories predominating.

Bank Deposits: total approximately $10,000,000.

Retail Stores: 56 with annual receipts of $758,000.

Churches: 60 Protestant, one Catholic Parish.

Civic and Fraternal Clubs: Jaycees, Lions, Kiwanis, Exchange Club, Woodmen, VFW and American Legion.

5. *Proposed Service.* Channel 233 at Baxley with operating power of 75 kW and antenna located 500 ft. above average terrain would provide:

First FM service to 7,968 persons in a 641.6 square mile area;

Second FM service to 25,531 persons in a 751.4 square mile area;

Third FM service to 20,861 persons in a 1,313.1 square mile area.

6. *Mileage Separations.* Assign Channel 233 at Baxley, Georgia—no short spacings on Channels 230 through 236.

Substitute Channel 228A for 232A at Sandersville, Georgia—no short spacings on Channels 225 through 231. (Meets required separation of 105 miles to WFDR, Channel 222, Manchester, Georgia.)

Substitute Channel 244A for Channel 228A at Sparta, Georgia—no short spacings provided transmitter site is at least 1.2 miles northeast of the community.

7. *Preclusions.* If Channel 233 is assigned to Baxley, Georgia, one community, namely, Screvan, Georgia, with a 1970 population of 936 persons, would be precluded from using Channel 234. No community larger than Baxley will be precluded.

8. *Other FM Broadcast Services.* Applying the Roanoke Rapids-Goldsboro doctrine (9 F.C.C. 2d 672 (1967)) petitioner shows that fourteen operating FM stations or assignments would provide service inside the 1 mV/m contour of a Baxley facility operating at 75 kW ERP from a height of 500 AAT. Baxley is shown not to lie inside the 1 mV/m contour of any of the fourteen stations or assignments.

9. *Class C vs. Class A Channel.* Petitioner supports assignment of Class C channel to Baxley on the basis that there are presently no Class A channels that can be used at Baxley that would not cause the deletion of or changes in channel assignments elsewhere or changes in proposed rule making petitions. Additional support on this issue is requested from petitioner.

10. Petitioner states that as soon as Channel 233 is assigned to Baxley it will file application therefor, and upon grant, will construct an FM station promptly.

11. In light of the above, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) as follows:

City	Channel No. Present	Channel No. Proposed
Baxley, Ga.		233
Sandersville, Ga.	232A	228A
Sparta, Ga.	228A	244A

12. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated herein.

13. Interested parties may file comments on or before March 21, 1975, and reply comments on or before April 10, 1975.

Adopted: January 21, 1975.

Released: January 29, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations as set forth in the notice of proposed rule making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal discussed in the notice of proposed rule making to which this Appendix is attached. Proponent will be expected to answer whatever questions are

XUM
V40123
FEB 3 75
XUM

presented in initial comments. The proponent of the proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal in this notice, they will be considered as comments in the proceeding, and public notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rule making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

5. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[FR Doc.75-3038 Filed 1-31-75;8:45 am]

[47 CFR Part 73]

[Docket No. 20339; RM-2228; RM-2323]

FM BROADCAST STATIONS

Table of Assignments

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Cleveland, Athens, Etowah, and South Pittsburg, Tennessee).

1. Notice of proposed rule making is hereby given concerning amendment of the FM Table of Assignments (section 73.202(b) of the Commission's rules and regulations) as concerns the petitions of WBAC, Inc., Cleveland, Tennessee (WBAC), McMinn Broadcasters, Inc., Etowah, Tennessee (McMinn), and Marion County Broadcasting Service, Inc., South Pittsburg, Tennessee (Marion County), variously proposing the assignment of Channels 252A and 269A.

2. WBAC, licensee of Class IV AM Station WBAC at Cleveland, proposes the assignment of Channel 252A to Cleveland. This requires the deletion of that channel at Athens, Tennessee, for which WBAC proposes substitution of Channel 269A (RM-2228).[1] McMinn, licensee of daytime-only AM Station WCPH at Etowah, counterproposes that Channel 269A be assigned to Etowah which is about 10 miles southeast of Athens. Marion County, licensee of daytime-only AM Station WEPG at South Pittsburg, proposes the assignment of Channel 269A to South Pittsburg (RM-2323). In relationship to Chattanooga, South Pittsburg is approximately 23 miles west, Cleveland about 25 miles east northeast, Etowah and Athens about 42 and 45 miles to the northeast.

3. The following table sets forth the population of each city,[2] the county in which located (and the population thereof), and the nature of broadcast service in each community, as well as present FM channel assignments:

[2] All population data are from the 1970 U.S. Census.

City	Population	County	County population	Aural B/C service	FM channels presently assigned
South Pittsburg	3,613	Marion	20,557	WEPG (daytime only)	
Cleveland [1]	20,651	Bradley	50,686	WBAC (class IV); WCLE (daytime only); WCLE-FM (channel 264).	264
Etowah	3,736	McMinn	35,462	WCPH (daytime only)	
Athens	11,790	do	35,462	WYXI (daytime only); WLAR (class IV).	252A

[1] County seat.

4. *RM-2228.* As already noted, WBAC is the licensee of daytime-only Station WBAC at Cleveland. In support of its petition, WBAC states that the rapid growths of Cleveland and Bradley County in the 1960–70 decade (the population increase of the city was 27.5% and that of the county 32.3%) are quickly outstripping present communications facilities. Thus, WBAC proposes the assignment of Channel 252A to Cleveland, which requires the deletion of that channel's assignment at Athens, Tennessee, and for which WBAC proposes the substitution of Channel 269A. In this respect, Channel 252A would have to be sited four miles northwest of the center of Cleveland. WBAC has adduced information as to the socio-political character of Cleveland, which we need not detail here. WBAC originally petitioned for assignment of Channel 269A to Cleveland as a drop-in assignment (see fn. 1), but when the Commission staff pointed out that a station on Channel 269A would have to be sited appreciably north of the city in order to meet mileage spacing to Station WBIE-FM, Channel 268, Marietta, Georgia, and Channel 272A at Soddy-Daisy[3], and that the terrain possibly affected the ability of a station so sited to place a principal community signal (70 dBu) over Cleveland, WBAC amended its petition to specify Channel 252A at Cleveland.

5. McMinn opposes WBAC's proposal to substitute Channel 269A at Athens because of the conflict with its own petition[4] for that channel for Etowah on the basis that the latter has no nighttime aural service while Cleveland has two nighttime aural broadcast services (WBAC and WCLE-FM). McMinn asserts a greater Section 307(b) need for the channel at Etowah. McMinn also sets forth demographic data about Etowah and McMinn County. In further pleadings, WBAC argues that McMinn's petition should be dismissed, since that party could apply for any channel assigned to Athens under the 10-mile rule (Section 73.203(b)). McMinn disputes WBAC's contentions: it says that Channel 252A may not be used at Etowah because of the need to meet the 105-mile adjacent channel spacing to Station WBFM(FM), Channel 251, Seneca, South Carolina (the actual spacing is 97 miles); and, as concerns the proposed substitution of Channel 269A for 252A at Athens, McMinn says that because of a pending application for Channel 252A at Athens it is barred from applying for use of Channel 269A at Etowah inasmuch as the Athens applicant is entitled to a show cause order because in hearing (see para. 7 below).

6. *RM-2323.* Marion County, in support of its petition, argues that daytime-only Station WEPG is unable to serve the nighttime local needs of South Pittsburg particularly in view of the fact that the workers of the many nearby industries which operate on two shifts depend on radio information for weather and road conditions. In this respect, the petitioner points out that there are repeated floodings (of the Tennessee River and its tributaries) in Marion County (for example, Marion County was officially designated a National Disaster Area because of flooding in March 1973, when hundreds of homes were evacuated and damage was estimated at $2.5 million). Petitioner states that it is ready, willing, and able to promptly proceed to apply for and build a station if Channel 269A is assigned to South Pittsburg, which it asserts is the only FM channel available for assignment to that community. We are told that South Pittsburg, the seat of Marion County, is a community located in South Central Tennessee on I-24, the main route from Chattanooga to Nashville, about 23 miles west of Chattanooga and three miles north of the Alabama border, that it is an industrial, commercial, and trade center of Marion County and the northern part of Jackson County, Alabama, and that the authorized construction of a bridge over the Tennessee River at South Pittsburg will increase the number of industrial and commercial jobs in the area. Petitioner also asserts that the 1970 Census figure is not truly indicative of population, for the towns of Richard City (population 132) and Kimball (population 807) which are adjacent to, and utilize municipally operated facilities, schools, libraries and other South Pittsburg's services should be included, which increases the population to 4,552. Information has also been adduced as to socio-political nature of South Pittsburg and its econmic growth.

7. The WBAC and McMinn proposals are in direct conflict since Channel 269A cannot be assigned to both Athens and Etowah. As McMinn has shown, Channel 252A may not be used at Etowah because of the adjacent mileage separation requirement to Station WBFM(FM), Seneca, South Carolina. However, if Channel 269A is assigned to Athens, McMinn may apply for it under the 10-mile rule. (The outstanding application for Channel 252A that was in hearing status has been dismissed; see 3 J's Broadcasting Company, 41 F.C.C. 2d 664 (1973).[5] The proposal of Marion County to assign Channel 269A to South Pittsburg is considered here because of the proximity to Athens and Etowah for which the same channel is variously proposed.

8. The fundamental issue here is whether a second FM channel should be assigned to Cleveland or a first channel assignment should be made to Etowah. Relevant is Policy to Govern Requests For Additional FM Assignments, 8 F.C.C. 2d 79 (1967), which requires a convincing showing of need for the proposed assignment to Cleveland.

9. A sufficient showing has been made that the public interest, convenience, and necessity might be served by the consideration of the proposed channel assignments. To the extent that there is a conflict, one of two possible solutions could be made. One is to assign Channel 269A to both South Pittsburg and Etowah as first assignments, make no change at Athens, and deny the petition of WBAC to assign an additional channel to Cleveland. The other is to assign Channel 269A to South Pittsburg, assign Channel 252A at Cleveland, and substitute Channel 269A at Athens. Under this alternative, McMinn could apply for use of the Athens 269A assignment at Etowah under the 10-mile rule.

10. In view of the foregoing, it is proposed to amend § 73.202(b) of the Commission's rules and regulations, in either of the following manners as concerns the named communities:

City	Channel No. Present	Channel No. Proposed
PLAN I		
Etowah, Tenn.		269A
South Pittsburg, Tenn.		269A
or		
PLAN II		
Cleveland, Tenn.	264	252A, 296
Athens, Tenn.	252A	264A
South Pittsburg, Tenn.		269A

Authority for the action taken herein may be found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules and regulations.

11. *Showings required.* Comments are invited as to the proposals and issues referred to above. WBAC, Inc. and McMinn Broadcasters, Inc. should particularly address themselves to the question whether there should be a second FM channel assignment at Cleveland as opposed to a first one at Etowah. The parties to this proceeding may incorporate by reference data and information already adduced in the pleadings before us. Each should affirm that it is ready, willing, and able to promptly proceed to apply for a channel if the channel assignment is made to the particular community and to promptly build a station if a construction permit is granted. Failure to file comments or address the issues raised may result in dismissal.

12. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (Section 1.420(d).)

(b) With respect to petitions for rule making which conflict with the proposals in this notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

13. Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments on or before March 17, 1975, and reply comments on or before April 7, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

14. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission. These will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

Adopted: January 17, 1975.

Released: January 28, 1975.

[47 CFR Part 73]

[Docket No. 20338; RM-2333]

FM BROADCAST STATIONS

Table of Assignments

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Portage, Michigan).

1. Notice of proposed rule making is hereby given concerning amendment of the FM Table of Assignments (section 73.202(b) of the Commission's rules and regulations) with respect to the petition of Robert B. Taylor, licensee of daytime-only AM Station WBUK, Portage, Michigan, proposing the assignment of Channel 299 to Portage, Michigan, as its first FM channel assignment.

2. Portage (population 33,950) is located in Kalamazoo County (population 201,550) and is contiguous to Kalamazoo (population 85,555).[1] During the last two decades Portage experienced steady growth from a community with a population of 7,946 (1950 Census) to 20,181 (1960 Census) to 33,950 (1970 Census). During the same period Kalamazoo's growth increased from 57,704 (1950 Census) to 82,089 (1960 Census) to 85,555 (1970 Census).

3. Petitioner attributes Portage's growth, in part, to the location of the Upjohn Co., a manufacturer of pharmaceutical supplies, within the community. Other manufacturing industries have also settled in the area. Portage was proclaimed a city in 1964 by legislative action and is presently governed under a council manager system which consists of seven councilmen, including a mayor, and a hired city manager. The city has a 42-man police force; a fire department with 17 paid firemen and 30 volunteers; a school system of 10,847 students, 16 schools, 549 staff members, and 60 buses; and a library containing 30,000 books.

4. Currently, Portage is served by one local AM radio station, WBUK, (Class II, daytime-only), and by four Class III AM stations (2 daytime-only and 2 unlimited-time) and 2 FM stations (one educational station operating on a commercial channel) which are situated in Kalamazoo.

5. With respect to the technical feasibility of a Portage FM channel assignment, the transmitting antenna would have to be placed at least 13 miles southeast of the community. Since Portage is within 250 miles of the Canada-United States border, Canadian approval of the

[1] Population figures are from the 1970 Census unless otherwise specified.

[1] This party originally proposed assignment of Channel 269A to Cleveland. In response to a Commission inquiry asking for further information as to the availability of a transmitter site, WBAC amended its petition to specify Channel 252A at Cleveland.

[3] Four applications are now pending for that channel.

[4] McMinn filed "Comments on Petition for Rule Making Or, in the Alternative, Petition for Rule Making."

[5] The mutually exclusive application of Athens Broadcasting, Inc., has been voluntarily dismissed previously.

XUM
V40123
FEB 3 75
XUM

proposal is required according to the Working Agreement under the Canadian-United States FM Agreement of 1947.

6. The preclusion study reveals that preclusion occurs on Channels 296A and 299. The area precluded on Channel 296A as a result of the proposed assignment affects a very small region northwest of Coldwater, Michigan (population 9,099). Coldwater is already served by AM Station WTUB (Class III, unlimited-time) and FM Station WANG (Channel 253). Petitioner asserts that there is no city in this precluded area and any use of Channel 296A in this area would be limited to a Coldwater license.

7. The preclusion occurring on Channel 299 affects an area southeast of Portage containing the communities of Sturgis (population 9,295), Colon (population 1,172) and Bronson (population 2,390). Sturgis is assigned unlimited-time AM Station WSTR (Class IV) and FM Channel 257A (WSTR–FM). Colon and Bronson are without local aural service. Petitioner does not state whether or not alternate channels are available for these communities. He should supply such information in his comments.

8. The Commission notes that petitioner has represented that he will promptly apply for a construction permit for such channel, and, if awarded a permit, will construct and operate a station.

9. Petitioner has furnished a showing based upon Roanoke Rapids criteria[1] which asserts that the Portage assignment has the potential of bringing a second FM service to 9,010 persons in a 48.7 square-mile area. No first FM service would be offered.

10. Petitioner avers that he has no intention of operating the proposed FM broadcasting station as a Kalamazoo facility.[2] He feels that assignment of the proposed channel would provide needed local service. In passing, Petitioner further notes that, Kalamazoo, itself, is not overserved in FM station assignments since only two assignments exist and one of these is used for educational purposes exclusively.

11. Accordingly, in view of the foregoing and pursuant to authority contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and section 0.281(b)(6) of the Commission's rules and regulations, it is proposed to amend the FM Table of Assignments, section 73.202(b) of the Commission's Rules and Regulations as follows:

City	Channel No.	
	Present	Proposed
Portage, Mich.		299

[1] *Roanoke Rapids-Goldsboro, North Carolina*, 9 F.C.C. 2d 672 (1967).

[2] The Commission nevertheless notes the potential existence of a so-called Berwick issue, Berwick Broadcasting Corp., et al., 12 F.C.C. 2d 8 (1968), whether local service is the realistic intention of the applicant where the locality is a suburb of a larger community.

12. *Showings required.* Comments are invited on the proposal discussed above. Petitioner is expected to file comments even if only to resubmit or incorporate by reference his former pleadings. He should reaffirm his present intention to apply for the channel if it is assigned and, if authorized, to construct the station promptly. Failure to file may lead to denial of the request.

13. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date of filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

14. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before March 17, 1975, and reply comments on or before April 7, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

15. In accordance with the provisions of § 1.419 of the Commission's Rules and Regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

16. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, N.W., Washington, D.C.

Adopted: January 17, 1975.

Released: January 28, 1975.

FM BROADCAST STATIONS

[Docket No. 20185; RM-1510]

Table of Assignments

In the Matter of amendment of § 73.202 (b), Table of Assignments, FM Broadcast Stations (Schulenberg, Texas).

1. We here consider the notice of proposed rule making, adopted September 9, 1974 (39 Fed. Reg. 33240), proposing the assignment of Channel 272A to Schulenberg, Texas, and accordingly amending the FM Table of Assignments (section 73.202(b) of the Commission's rules and regulations). This proopsal was based on the petition of Dr. A. J. A. Watzlavick.

2. Consideration of the petition had been deferred pending the negotiation, adoption, and implementation of the United States-Mexico FM Broadcasting Agreement, effective August 9, 1973 (see 43 F.C.C. 2d 293 (1973); and 46 F.C.C. 2d 153 (1974). Because of changed circumstances, the petitioner has been afforded an opportunity to amend or supplement his petition (see Public Notice, adopted April 11, 1974 (Mimeo No. 20582)). Although Dr. Watzlavick did not avail himself of that opportunity, a Notice of Proposed Rule Making was adopted. It set forth pertinent information about the population (2,294[1]), the nature of broadcast service, and other data about Schulenberg (e.g., located in Fayette County, population 17,650). The times to file comments and reply comments expired November 4 and 25, 1974, respectively.

3. Neither the petitioner nor anyone else filed comments. In view of our policy to assign an FM channel to a city of less than 10,000 population only if someone is ready, willing, and able to promptly proceed to apply for the channel if it is assigned and to apply if the application is granted, it is appropriate to dismiss this proceeding.

4. Accordingly, it is ordered, That pursuant to authority contained in Sections 4(i), 303(r) of the Communications Act of 1934, as amended, the petition of Dr. A. J. A. Watzlavick (RM–1510) is dismissed.

5. It is further ordered, That this proceeding is terminated.

Adopted: January 15, 1975.

Released: January 28, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[47 CFR Part 81]

[Docket No. 20340; RM No. 1893]

MARINE RADAR EQUIPMENT

Notice of Proposed Rule Making

In the Matter of amendment of Part 81 of the Commission's rules to provide for the demonstration of marine radar equipment.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Electra Marine Demonstrators, Inc. (Electra) has filed a petition for rule making to provide for the licensing of marine radar demonstrators under the provisions of Part 81 of the Commission's rules. Electra is engaged in the sale of type approved marine radar equipment and demonstrates this equipment to prospective customers under its experimental radio licenses in accordance with § 5.254 of the rules. This section imposes stringent conditions precedent on experimental licensees before they can operate their stations in order to alleviate potential harmful interference to other users.

3. The petitioner claims that these restrictions are burdensome and unnecessary for the demonstration of type approved marine radar equipment using frequencies specified in Parts 81 and 83 of the rules.

4. The purpose of the proposed rule amendment is to avoid the conditions necessarily imposed on experimental radio activities which may not be necessary for the demonstration of type approved equipment for sale purposes.

5. Licensing of type approved marine radar equipment for demonstration purposes under Part 81 appears appropriate provided limited conditions are established to enable the Commission to timely proscribe those demonstrations which would cause interference. Accordingly, we are proposing amendment to Part 81 to allow licensing of type approved marine radar equipment for demonstration purposes.

6. The proposed amendments, as set forth in the attached Appendix, are issued pursuant to the authority contained in sections 4(i), 303 (b), (d), (e), (f), (j) and (r) and 318 of the Communications Act of 1934, as amended.

7. Pursuant to the applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before March 7, 1975, and reply comments on or before March 17, 1975. All relevant and timely filed comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into consideration other relevant information before it, in addition to the specific comments invited by this Notice.

8. In accordance with the provisions set forth in § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Broadcast and Docket Reference Room at its headquarters in Washington, D.C.

Adopted: January 22, 1975.

Released: January 28, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 81 of Chapter 1 of Title 47 of the Code of Federal Regulations is amended as follows:

1. A new paragraph (r) is added to § 81.4 to read as follows:

§ 81.4 Maritime radiodetermination service.

* * * * * *

(r) Shore radar test station.

A shore radar station used solely for the demonstration of maritime radar apparatus.

2. A new § 81.404 is added to read as follows:

§ 81.404 Shore radar test stations.

Sales equipment demonstrators shall, at least 24 hours prior to the date of any equipment demonstration, notify the Commission's Engineer-in-Charge of the District Office in which the station is to be operative of the following:

(a) The name of the licensee;

(b) The operating power, emission, bandwidth, and radio frequency;

(c) The name and telephone number of a person, who can establish prompt communications on a 24-hour basis, with the equipment operator to coordinate compliance with Section 81.175 of the Commission's rules;

(d) The anticipated itinerary of the equipment operator, including approximate dates and geographic locations; and

(e) Shore radar test stations authorized under this part are secondary and shall not cause interference to any other station authorized in accordance with the Table of Frequency Allocations.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1100]

[Ex Parte No. 55 (Sub-No. 13)]

CONTESTED APPLICATIONS

Requirements for Withdrawal or Dismissal

JANUARY 29, 1974.

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 28th day of January, 1975.

It is ordered, That based upon the reasons set forth in the attached notice, a proceeding be, and it is hereby, instituted pursuant to 5 U.S.C. 552, 553, and 559 (the Administrative Procedure Act) for the purpose of amending rule 247(f) (49 CFR 1100.247(f)) so as to impose stronger sanctions upon applicants who voluntarily withdraw an application less than 45 days prior to hearing or who fail to appear and prosecute an application at a scheduled hearing.

It is further ordered, That the attached notice be, and it is hereby, adopted and incorporated by reference into this order.

And it is further ordered, That notice of the institution of this proceeding shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

The existing regulation provides that an applicant has a maximum period of 30 days after the expiration of the protest period (i.e. 60 days after the issues are published in the FEDERAL REGISTER) during which to notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application. Failure to comply with this time schedule or failure to appear at a hearing scheduled thereon, subjects an applicant and its representative to censure unless good cause is shown.

Under the proposed modification an applicant would have until 45 days prior to the scheduled commencement of a hearing to determine whether its best interests would best be served by continued prosecution of its application or by withdrawal and to so notify the Commission in writing. Unless good cause is shown therefor, a withdrawal with less than 45 days remaining before a scheduled hearing, or the failure by applicant to appear and prosecute the application at such hearing will bar the filing of any application for the same or any part of the same authority by the same applicant for a period of one year after the date of the dismissal order.

The proposed rule is designed to encourage applicants to gather appropriate materials and to prepare for presentation at oral hearings well in advance of the commencement of the hearing and to discourage applicants who belatedly withdraw their application because they have not readied the materials necessary to establish a prima facie case. Where a case has been assigned for hearing, grouped with other cases on an itinerary, arrangements made to reserve a hearing room, reporting services arranged, assignment made to an Administrative Law Judge, and travel and hotel reservations made, both by the Judge and reporter, and by all other parties, the disruption of a late withdrawal is apparent. Once such a case has been assigned a place in an itinerary with other cases, the itinerary must be carried out in order to conduct the hearings on the other cases, notwithstanding the loss of days caused by the late withdrawal. Since the Commission customarily gives all parties to a case at least 30 days' notice of a hearing, a withdrawal on less than 30 days' notice before the hearing makes it impossible to set in another case. The result is a substantial waste of this Commission's time and resources with the added detriment arising from the fact that another case could well have been heard during these lost days. As a practical matter, unless the withdrawal occurs at least 45 days prior to the assigned hearing date, the administrative problems of locating another case which can be set in, and preparing the necessary notices and serving them, makes 45 days' notice a minimum deadline.

Oral hearings do not appear necessary at this time and none is contemplated. Anyone wishing to present views and evidence, either in support of, or in opposition to, the action proposed in this notice may do so by the submission of written data, views, or arguments. An

XUM
V40123
FEB 3 75
XUM

original (and 15 copies whenever possible) of such data, views, or arguments shall be filed with this Commission on or before March 12, 1975.

All written submissions will be available for public inspection during regular business hours at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue, Washington, D.C.

This notice of proposed rulemaking is issued under the authority of sections 552, 553, and 559 of the Administrative Procedure Act (5 U.S.C. 552, 553, and 559).

Issued in Washington, D.C., January 28, 1975.

ROBERT L. OSWALD,
Secretary.

Accordingly, it is proposed that the present rule 247(f) (49 CFR 1100.247(f)) be deleted and that a new rule 247(f) be substituted therefore which would read as follows:

§ 1100.247 Special rules governing notice of filing of applications by motor carriers of property or passengers and brokers under sections 206 (except section, 206(a)(6) relating to Certificates of Registration), 209 and 211, by water carriers under sections 302(e), 303, and 309, and by freight forwarders under section 410 of the Interstate Commerce Act, and certain other procedural matters with respect thereto. (Rule 247)

(f) *Withdrawal or dismissal of contested applications.* As provided in paragraph (e) of this section an applicant that does not intend timely to prosecute its application should promptly request dismissal thereof. Failure to prosecute an application under procedures ordered or directed by the Commission will result in dismissal thereof, and if the Commission's procedures are found to have been abused, may subject applicant and its representative to censure. Withdrawal of an application less than 45 days prior to the scheduled commencement of oral hearings or failure by applicant to appear and prosecute the application at such hearing will bar the filing of any application for the same or any part of the same authority by the same applicant for a period of one year after the date of the dismissal order.

[FR Doc.75-3080 Filed 1-31-75;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 200]

[(Release Nos. 33-5561, 34-11207, 35-18786, 39-377, IC-8652, IA-434); File No. S7-549]

CONFIDENTIAL TREATMENT OF INFORMATION

Request Procedures

The Securities and Exchange Comisaion announced today the publication for comment of a proposed amendment to § 200.80 of Title 17 of the Code of Federal Regulations, which relates to Commission records and information, to reflect the Commission's recognition that staff letters of comment in connection with registration statements or with other materials filed with the Commission, and correspondence between members of the public and the Commission's staff do not necessarily contain sensitive information that is entitled to be withheld from public scrutiny consistent with the Freedom of Information Act, 5 U.S.C. 552. Pursuant to the proposed amendment, paragraph (i) of § 200.80(c)(4) will be repealed, and paragraphs (ii) and (iii) will be renumbered as paragraph (i) and paragraph (ii) respectively.

In addition, the Commission proposes to adopt a new § 200.83 of Title 17 of the Code of Federal Regulations, which will implement a procedure that will to the fullest extent permitted by law allow affected persons to request and obtain confidential treatment of information supplied to the Commission other than in formal filings.[1] On July 4, 1967, the Freedom of Information Act became effective. In anticipation of that event the Commission on June 30, 1967, announced an amendment to its rule concerning Commission records and information to reflect in full the nature of information available from the Commission and the manner in which that information might be obtained. That rule recognized that certain matters are exempted from the disclosure requirements of the Freedom of Information Act and will not generally be made available by the Commission to any person. Those non-public matters were set forth in paragraph (c) of § 200.80. The Commission's rule sought to interpret the language of the statutory exemptions from the disclosure requirements of the Freedom of Information Act in a manner consistent both with the legislative purposes in adopting that Act and with the continued effective performance of the Commission's basic responsibilities under the federal securities laws.

The Freedom of Information Act does not require that the Commission withhold records or information merely because it may be entitled to do so under the terms of the exemptive provisions the Act contains. Accordingly, when it has become apparent that no significant interference with effective performance of the Commission's duties will result from full public disclosure and that no substantial interest of any members of the public will be impaired the Commission has acted to effect disclosure of materials it might lawfully withhold. Thus, the Commission has previously provided for publication of interpretative and no-action letters and certain other written communications, 17 CFR 200.81, and has also recognized the public availability of materials filed with the Commission pursuant to Rule 14a-8(d) under the Securities Exchange Act, 17 CFR 240.14a-8(d), and related materials—matters which the Commission considered to be within exemptions from the Act.

The Commission is now of the view that normally it is unnecessary to withhold letters of comment prepared by its staff with respect to various registration statements and applications for registration, replies thereto received from members of the public, or related material. Under the rule originally adopted by the Commission, "commercial or financial information" contained in these types of documents was deemed to have been submitted to the Commission in confidence, pursuant to 5 U.S.C. 552(b)(4),[2] in the absence of a contrary indication.[3] By repeal of this provision the Commission would indicate that information contained in that type of correspondence and in related materials will in the future normally be treated as public.[4] Since members of the public who corresponded with the Commission in the past are entitled to rely upon the assurance of confidentiality contained in the repealed provision, however, the Commission does not intend the repeal to have any retroactive impact.

In order to assure that no truly sensitive information will inadvertently be disclosed to the detriment of any person dealing with the Commission—particularly where the staff has expressly requested to be supplied with the information—the Commission has proposed a rule specifically authorizing requests for confidential treatment. Under that rule, 17 CFR 200.83, a request may be made that information contained in specified correspondence be accepted and retained in confidence by the Commission in either of two circumstances: where the information is a trade secret or other sensitive commercial or financial information or is information the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Under the procedures to be established by the rule, a request for confidential treatment must contain a clear explanation why the information should be accepted and retained in confidence. Where a need for confidential treatment has been shown, a request will normally be granted if the Commission is satisfied that it may lawfully withhold the information from public scrutiny consistent with the Freedom of Information Act's requirements. Unless the request is explicitly granted, the information will be

[1] Confidential treatment of information contained in documents formally filed with the Commission is governed by other provisions. See, e.g., section 24(b) of the Securities Exchange Act, 15 U.S.C. 78x(b).

[2] This section was originally enacted as 5 U.S.C. 552(c)(4), Pub. L. 89-487, 80 Stat. 250, but was renumbered upon codification of the Freedom of Information Act, Pub. L. 90-23, 81 Stat. 54.

[3] See 17 CFR 200.80(c)(4)(ii) [1970] which was renumbered as § 200.80(c)(4)(i) when no-action and interpretative letters were made public, 17 CFR 200.81, pursuant to Securities Act Release No. 33-5098, 35 FR 17779 (Nov. 19, 1970).

[4] Of course, correspondence of special kinds—such as would relate, for example, to an investigatory matter, see 17 CFR 200.80(c)(7)—will normally continue to be withheld in accordance with provisions of the Commission's rules that remain in force.

treated as public thirty days after receipt. If a request is denied or is not promptly acted upon, however, a request for return of the document and any copies thereof will be honored.

The Commission's proposed rule emphasizes that the Commission will not honor oral requests or any request not made in conformity to the rule and will not honor requests that are unnecessarily broad or where the basis upon which confidential treatment is requested is not adequately explained. Nor will the Commission permit its limited manpower to be devoted to the correction of deficiencies in the request; the burden will be entirely upon the requesting party to meet the rule's requirements in the first instance.

The proposed rule also makes clear that the Commission does not intend to devote its resources to defend against the disclosure of information submitted in confidence if the person from whom the information was received is not willing to join in that defense. Accordingly, the Commission will make the information public if it appears that the person who requested and obtained confidential treatment is unwilling to aid in the defense of a judicial proceeding brought to compel the Commission to disclose that information.

Finally, the proposed rule provides that it will not be construed to prevent the Commission from either publicly disclosing or withholding information or records to the extent permitted by law consistent with what it believes the public interest to require, except with respect to trade secrets and processes, which shall in no event be disclosed.

Interested persons are invited to submit their views and comments on whether the proposal should be adopted.

The text of § 200.80(c)(4), as amended, and the text of the proposed new rule § 200.83 are as follows:

§ 200.80 Commission records and information.

• • • • •

(c) Non-public matters. Certain materials and records are considered to be nonpublic. Thus the Commission will not generally publish or make available to any person matters that are: • • •

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential, including:

(i) Information contained in any document submitted to or required to be filed with the Commission where the Commission has undertaken formally or informally to receive such submission or filing for its use or the use of specified persons only, such as preliminary proxy material filed pursuant to Rule 14a-6 under the Securities Exchange Act (17 CFR 240.14a-6), filed pursuant to Rule 316(a) under the Securities Act (17 CFR 230.316(a)), agreements filed pursuant to Rule 15c-3-1(c)(7)(G) under the Securities Exchange Act (17 CFR 240.15c3-1(c)(7)(vii)), schedules filed pursuant to Part II of Form X-17A-5 (17 CFR 249.617) in accordance with Rule 17a-5(b)(3) under the Securities Exchange Act (17 CFR 240.17a-5(b)(3)), statements filed pursuant to Rule 17a-5(k)(1) under the Securities Exchange Act (17 CFR 240.17a-5(k)(1)), and reports filed pursuant to Rule 17a-10 under the Securities Exchange Act (17 CFR 240.17a-10); and

(ii) Information contained in reports, summaries, analyses, letters, or memoranda arising out of or in connection with an examination or inspection of the books and records of any person or any other investigation.

• • • • •

§ 200.83 Public availability of correspondence.

(a)(1) A request may be made that information contained in correspondence between any person and a member of the Commission or its staff, transmitted after --------, 1975, be accepted and retained in confidence by the Commission where information is being supplied (i) which involves a trade secret or other sensitive commercial or financial information or (ii) the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

(2) Notwithstanding the provisions of paragraph (a)(1) of this rule, this rule shall not apply to any letter or other written communication which is a part of a personnel file, medical file or investigatory file and which is generally considered non-public pursuant to Commission Rule 17 CFR 200.80(c)(6) or 200.80(c)(7). Nor shall this rule apply to any letter or other written communication which relates to a request to the staff of the Commission for interpretative legal advice and which is subject to the disclosure procedures prescribed in 17 CFR 200.81.

(b)(1) A request for confidential treatment shall contain a concise statement of the reasons why the information should be accepted and retained in confidence, shall state the length of time for which confidential treatment is requested, and may state on what basis, if any, the request itself should be afforded confidential treatment.

(2) Information for which confidential treatment is being requested shall be supplied in a document separate from documents containing information for which confidential treatment is not being requested.

(c) Where a need for confidential treatment has been demonstrated, a request for confidential treatment will normally be granted to the extent that sections 552(b)(4) and 552(b)(6) of Title 5 of the United States Code appear to permit the information supplied to be withheld from public disclosure, provided, however, that the Commission, consistent with the public interest, may limit the length of time for which confidential treatment shall be accorded.

(d) Information that is the subject of a request for confidential treatment shall be made available for public inspection and copying thirty days after it has been received unless confidential treatment has earlier been granted, except that if a request for confidential treatment has been denied or has not been acted upon within twenty days after its receipt, a person who has requested confidential treatment may seek and obtain prompt return of the document, and any existing copies thereof, containing information for which confidential treatment has been requested and that document shall not be made available to any person.

(e) Letters written by members of the Commission or its staff and any other document contained in the Commission files that refer to information retained by the Commission in confidence will be nonpublic to the extent, but only to the extent, that they contain that information; letters or documents containing confidential information will not be made public except upon deletion of all information retained by the Commission in confidence.

(f) The Commission will not honor oral requests for confidential treatment of information contained in correspondence or otherwise made other than in conformity to this rule, will not honor requests that are unnecessarily broad in scope or where inadequate explanation is given, or permit its staff to devote its time to remedy deficiencies in the request.

(g) No request for confidential treatment of information should be made by any person who does not intend in good faith to aid the Commission in the defense of any proceeding that might thereafter be brought to compel the Commission to disclose the information. Unless such information was submitted for the convenience and at the request of the Commission or its staff, the Commission will make public information it has previously retained in confidence under paragraph (c) of this rule if the person who requested and obtained confidential treatment of that information (or those in whose behalf he acted) are unwilling, upon request, to aid in the defense of a judicial proceeding brought to compel the Commission to disclose the information.

(h) Except with respect to trade secrets and processes, which shall in no event be publicly disclosed, nothing in this rule shall be interpreted to prevent the Commission from retaining, or after notice and opportunity to object from publicly disclosing, information or records to the extent otherwise permitted by law consistent with what the Commission believes the public interest requires.

To be considered, written statements of views and comments should be submitted to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 on or before February 28, 1975, and should refer to file S7-549. All such communications will be available for public inspection.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

DEBT MANAGEMENT ADVISORY COMMITTEES

Charter Renewal

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 5 U.S.C. App. I, Supp. III), the Department of the Treasury announces its decision to continue utilization of the following industry committees as advisory committees:

Titles: Securities Industry Association, Government Securities and Federal Agencies Committee; American Bankers Association, Government Borrowing Committee.

Purpose: These committees are utilized by the Secretary of the Treasury and his staff for advice in carrying out Federal financings and public debt management. They consider commercial and financial information relevant to Treasury debt management operations, advise the Secretary of the Treasury and his staff, and make reports and recommendations.

Statement of Public Interest: The membership of these committees represents a cross section of the financial community. The members are intimately acquainted with commercial and financial information and day-to-day market factors relevant to Treasury debt management operations. It is in the public interest to insure, that the Secretary of the Treasury and his staff have this supplemental information in order to manage the public debt.

Authority for these committees will expire two years from the date new charters are signed by the Assistant Secretary (Administration) and filed with the appropriate Committees of the Senate and House of Representatives.

Dated: January 28, 1975.

[SEAL] JACK F. BENNETT,
Under Secretary for Monetary Affairs.

Office of the Secretary

FARM CREDIT ADMINISTRATION

Designation of Securities for Exemption Under the Securities Exchange Act of 1934

Paragraph 12 of section 3(a) of the Securities Exchange Act of 1934, as amended, provides in part that when used in Title I thereof, unless the context otherwise requires, the term "exempted security" or "exempted securities" shall include "such securities issued or guaranteed by corporations in which the United States has a direct or indirect interest as shall be designated for exemption by the Secretary of the Treasury as necessary or appropriate in the public interest or for the protection of investors."

Notice is hereby given that pursuant to the above-described authority, the Secretary of the Treasury designated for exemption on November 27, 1974, the Federal Farm Credit Banks—Consolidated Systemwide Notes of the twelve Federal Land Banks, the twelve Federal Intermediate Credit Banks, and the thirteen Banks for Cooperatives, issued pursuant to § 4.2(d) of the Farm Credit Act of 1971 (12 U.S.C. 2153).

This designation for exemption may be revoked, modified or amended at any time with respect to securities not issued prior to such time.

Dated: January 28, 1975.

JOHN K. CARLOCK,
Fiscal Assistant Secretary.

DEPARTMENT OF DEFENSE

Office of the Secretary

DEFENSE INDUSTRY ADVISORY GROUP IN EUROPE (DIAGE)

Closed Meeting

The Defense Industry Advisory Group in Europe (DIAGE) will hold a closed meeting on February 20, 1975, in the United States Mission to the North Atlantic Treaty Organization, Brussels, Belgium, on matters which come under the purview of subparagraph (4), section 552(b) Title 5 USC.

The agenda topics will be cooperation and standardization in armaments RD&P, status of NATO projects, and discussion of activities of U.S. defense industry firms in Europe.

Any person desiring information about the advisory group may telephone Brussels 241.44.00 ext 5728, or write to the Executive Secretary, Defense Industry Advisory Group—Europe, USNATO, HQS NATO, 1110 Brussels, Belgium.

MAURICE W. ROCHE,
Directorate for Correspondence and Directives, OASD (Comptroller).

JANUARY 29, 1975.

[FR Doc.75-2996 Filed 1-31-75;8:45 am]

DEFENSE SCIENCE BOARD TASK FORCE

Advisory Committee Meeting

The Defense Science Board Task Force on Department of Defense Space Shuttle Utilization will meet in closed session on 25 and 26 February 1975, at the Pentagon, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will examine how the Space Shuttle with its new capabilities can lead to more effective military space operations in the future.

In accordance with Pub. L. 92-463, section 10, paragraph (d), it has been determined that Defense Science Board meetings concern matters listed in section 552(b) of Title 5 of the United States Code, particularly subparagraph (1) thereof, and that the public interest requires such meetings to be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10, Pub. L. 92-463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

DEPARTMENT OF JUSTICE

FEDERAL ADVISORY COMMITTEE ON FALSE IDENTIFICATION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. Appendix I) that the fourth meeting of the Federal Advisory Committee on False Identification will be held at 10:00 a.m., Thursday, February 13, 1975, at the Department of Justice, 10th and Constitution Avenue, NW., Washington, D.C. The Department of Justice regrets the administrative delays which resulted in less than the usual 15 days notice for this meeting.

The Committee was established by the Attorney General to study the criminal use of false identification at Federal, state and local levels and to recommend measures to prevent the criminal use of false identification and the obtaining of fraudulent identification documents.

At the fourth meeting Committee Task Forces will continue to examine the false identification problem in the following areas: Government payments; commercial transactions; fugitives; Federal identification documents; and state and local identification documents. Each area will be covered with emphasis on: (1) the number of cases in which member agencies or organizations are victimized by false identification; (2) the dollar impact of using false identification; and (3) social and political costs of the criminal use of false identification. The meeting, open to the public, will adjourn at approximately 3:30 p.m.

Further information concerning this meeting may be obtained from David J. Muchow, General Crimes Section, Criminal Division, Department of Justice, Room 402 Federal Triangle Building, 315 9th Street, NW., Washington, D.C., 20530, telephone, area code 202-739-2745. Minutes of the meeting will be available for public inspection two weeks after the meeting in Room 402, Federal Triangle Building.

JOHN C. KEENEY,
Acting Assistant Attorney General.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Group 561]

ARIZONA

Filing of Plats of Survey

JANUARY 27, 1975.

Plats of survey of lands described below will be officially filed in the Arizona State Office, Phoenix effective at 10:00 A.M., on March 20, 1975.

1. Gila and Salt River Meridian, Arizona.

T. 6 N., R. 6 E.

A survey of a portion of the subdivisional lines of the township.

Sec. 31, lots 1, 2, 3, and 4, E½W½, and E½.

The area described aggregates 636.85 acres. The area of this survey varies from rough and broken to rolling land. The elevation ranges from 2,540 feet above sea level to 2,760 feet above sea level.

2. Gila and Salt River Meridian, Arizona.

T. 6 N., R. 5 E.

A dependent resurvey of a portion of the subdivisional lines of the township, a survey of a portion of subdivisional lines within section 22, and a metes and bounds survey of Tract 37.

The area described aggregates 3,480.54 acres.

The area of this survey varies from rough and broken to rolling land. The elevation ranges from 2,640 feet above sea level along the east boundary of section 36 to 3,600 feet above sea level near the northwest corner of section 15.

All of the above described lands are embraced in the Tonto National Forest and located in the Camp Creek drainage. Timber, palo verde, mesquite, catclaw acacia, undergrowth, young trees, brush, ocotillo, and cacti are found in this area. The soil is sandy and decomposed granite.

Since the lands are withdrawn by the Tonto National Forest, the described lands will not be subject to disposition under the general public land laws by reason of the official filing of the plats.

CHARLES G. BAZAN, JR.,
Chief, Branch of Records and Data Management.

[NM 24431, 24432, 24433, 24434, 24435]

NEW MEXICO

Applications

JANUARY 23, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for five 4½-inch natural gas pipelines rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 27 N., R. 5 W.,
Sec. 10, NE¼NE¼, W½SW¼;
Sec. 14, SW¼NW¼, NW¼SW¼;
Sec. 15, SE¼NE¼, SW¼NW¼, and NW¼SW¼.

These pipelines will convey natural gas across .663 miles of national resource lands in Rio Arriba County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, NM 87107.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[FR Doc.75-3045 Filed 1-31-75;8:45 am]

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Notice of Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant:
Mr. Earl A. Pyle
U.S. Fish and Wildlife Service
Fishery Research
300 Booth Street (Room 4005)
Reno, Nevada 89502

NOVEMBER 11, 1974.

To: Director, Fish and Wildlife Service, Att: Chief, Division of Law Enforcement, Through Chief, Division of Cooperative Research.

From: Earl A. Pyle, Cui-ui Project Leader, Reno, Nevada 89502.

Subject: Endangered Species Permit Application.

13.12(a)(1): Name; EARL A. PYLE. Address: Room 4005, 300 Booth Street, Reno, Nevada 89502. Phone: 702-784-5606.

(2) Birth Date: February 10, 1926. Height: 5'6". Weight: 165 lbs. Color of Hair: Brown. Color of Eyes: Blue. Sex: Male. Employer: U.S. Fish and Wildlife Service.

(3) N/A.
(4) Pyramid Lake, Nevada.
(5) N/A.
(6) N/A.
(7) I hereby certify that I have read and am familiar with the regulations contained in Title 50 Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

EARL A. PYLE.

(8) December 1, 1974.
(9) November 8, 1974.
(10) Earl A. Pyle.

17.23(a)(1): Cui-ui Lakesucker, Chastmistes cujus. Sufficient adult males and females will be trapped and spawned (and released) to permit release of approximately 2 million fry back into Pyramid Lake, each year.

(2) N/A.

(3) Chastmistes cujus was declared an endangered species in 1967 and recovery plans include artificial propagation, habitat rehabilitation and population assessment. Subpopulation relocation to insure species survival, is included within the recovery plan.

In the early Spring sexually mature Cui-ui adults gather near the mouth of the Truckee River attempting to pass upstream to spawn. Low water flows within the river have prevented the relatively poor swimming Cui-ui from moving upstream and aduits will be netted, transported to nearby holding ponds, artificially spawned, then released back into Pyramid Lake. Eggs taken from the adults will be incubated and reared to swim-up size and released into the lake and the Truckee River. A small portion of the progeny will be retained for various types of nutritional and life history studies.

A fishway, to permit ascension of spawners, is presently being constructed with completion scheduled in 1976. If successful this fishway will provide a means for population assessment and will obviate the necessity for artificial propagation. In the interests of species survival, however, artificial propagation should be continued until the fishway has proved successful and it is certain spawning grounds formerly used by the Cui-ui remain suitable.

(4) Spawning and incubating facilities are located on a small, freshwater stream approximately one mile west of Sutcliffe, Nevada which is on the western shores of Pyramid Lake. The land is occupied under a lease agreement with the Pyramid Lake Paiute Indian Tribe. A small dam on the stream provides water for incubating and rearing units and a well has been drilled to provide supplemental water in the event of stream failure. Water from the dam flows into 30 hatching jars (1.5 million eggs can be incubated at one time); from the jars the water flows into 12 shallow rearing troughs; from the troughs the water flows into two large tanks which serve as spawning tanks and later as fry-rearing tanks; from these tanks the water flows into a small earthen pond which serves as a holding pond for ripening spawners and later, as a nursery pond for fry. The water returns to the stream from the pond. Office facilities for staff members are in Reno, Nevada, approximately 40 miles from the field site. The office address is: U.S. Fish and Wildlife Service, Fishery Research, Room 4005, 300 Booth Street, Reno, Nevada 89502. Phone 702-784-5606 or 702-784-5228.

(5) N/A.
(6) N/A
(7) N/A.
(b)(1) N/A.
(b)(2) N/A.

BUREAU OF SPORT FISHERIES AND WILDLIFE,
January 8, 1975.

To: Director, U.S. Fish and Wildlife Service, Att'n: Division of Law Enforcement (Betty Gillas).

From: Earl A. Pyle, Cui-ui Project Leader, Reno, Nevada 89502.

Subject: Endangered Species Permit Application-Supplemental Information.

Additional information requested by your office, with regard to an Endangered Species Permit Application for the Cui-ui Project, is as follows:

1. Population Size—Present techniques will not permit quantification of the population. Observations have been the basis for estimates of declining numbers and I am attaching a Special Report "Status of the Endangered Cui-ui Lakesucker" which summarizes the events leading to the current status of this fish.

2. Program Utilization of Specimens—No more than 800 adult specimens, per year, will be required for the operation of our Program. All of these fish, with the exception of inadvertent mortality, will be returned to their original habitat after utilization. Mortality in the past has been less than one per cent with most of this attributable to handling stress.

EARL A. PYLE

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before March 5, 1975 will be considered.

Dated: January 29, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

[FR Doc.75-3015 Filed 1-31-75;8:45 am]

ENDANGERED SPECIES PERMIT

Notice of Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant:
Dr. Clark Hubbs
Department of Zoology
The Univeristy of Texas at Austin
Austin, Texas 78712

Application to the Director, Bureau of Sport Fisheries and Wildlife (Fish and Wildlife Service), for a permit to study the survivorship of the Fountain darter (*Etheostoma fonticola*) Pecos gambusia (*Gambusia nobilis*) from specimens collected in nature and to do similar work on stocks of the Comanche Springs pupfish (*Cyprinodon elegans*), Clear Creek gambusia (*Gambusia heterochir*), and Big Bend gambusia (*Gambusia gaigei*) that have been cultured at The University of Texas for more than 2 years, under Title 50, Chapter 1, Subchapter B, Part 13 of the Code of Federal Regulations, effective January 4, 1974.

1. Applicant: Dr. Clark Hubbs, Department of Zoology, The University of Texas at Austin, Austin, Texas 78712, phone 512 471-1176 or 471-4882.

2. Description of applicant:
a. Date of birth: 15 March 1921.
b. Height: 1.7 meters.
c. Weight: 68 kilograms.
d. Color of hair: brown.
e. Color of eyes: brown.
f. Sex: male.
g. Institutional affiliation: Department of Zoology, The University of Texas at Austin.

3. Principal supervisor: Dr. Hugh S. Forrest, Department of Zoology, The University of Texas at Austin, Austin, Texas 78712, Phone: 512 471-7131.

4. Location of activity: San Marcos Springs, Diamond Y Springs, University of Texas Brackenridge Field Laboratory, all in Texas and Dexter National Fish Hatchery, Dexter, New Mexico.

5. This permit is requested under Part 17, section 23 of subchapter B.

Many southwestern fishes are critically endangered by declining surface water flows caused by consumptive water use. It is urgent that a refugium be available to 1) maintain fishes when their natural environment is dry or nearly so and 2) to determine the survivorship potential of these fishes when human perturbations threaten natural conditions.

All work will be under the direct supervision of Dr. Clark Hubbs, Department of Zoology, University of Texas at Austin, or Dr. Anthony A. Echelle, Department of Biology, Baylor University, Waco, Texas.

6. Certification:
I hereby certify that I have read and am familiar with the regulations contained in Title 50 Part 13, of the Code of Federal Regulations and the other applicable parts of Subchapter B of Chapter 1 of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

7. Desired effective date and duration: The permit will become effective at the conclusion of the 30 day period following the appearance of the notice in the Federal Register and extend for a period of 2 years following the date the permit becomes effective.

8. Date: November 11, 1974.

9. Signature of applicant:

Dr. Clark Hubbs
Department of Zoology
University of Texas at Austin
Austin, Texas 78712

17.23(a)(3)—The purpose of the permit will be to continue the maintenance of endangered species. The threats to these endangered species are diverse, but these endangered species will be cultured for (1) insuring survival of endangered species and (2) to build up stocks sufficiently so that scientific experiments can be carried out to determine the environmental perimeters limiting their distribution.

17.23(a)(4)—The species will be maintained at the University of Texas, Brackenridge Field Laboratory. An additional species will be cultured at the Dexter National Fish Hatchery at Dexter, New Mexico.

17.23(a)(7)—No fishes will be imported into the United States under this permit.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before March 5, 1975 will be considered.

Dated: January 29, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

SEA WORLD, INC.

Amendments to Permit

A permit to take Pacific Walrus for public display was issued to Sea World, Inc., Mission Bay, San Diego, California, on May 7, 1974, pursuant to the Marine Mammal Protection Act of 1972. A notice of the issuance of the permit was published on May 17, 1974 (39 FR 17571).

On June 7, 1974, the permittee submitted a request for significant amendments to the permit. These were published in the FEDERAL REGISTER on September 3, 1974 (39 FR 31927-30).

The request of Sea World, Inc., was considered, pursuant to § 13.23 of Title 50 Code of Federal Regulations. Notice is hereby given that on December 20, 1974, portions of the permit were amended: section 3(e)(f)(i), and section 5. Section 3(g) was deleted. Other suggested changes and amendments were considered and denied. All other terms and conditions of the permit remain in effect.

The premit and amendments are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Dated: January 29, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

Geological Survey

[OCS Order No. 12]

PUBLIC INSPECTION OF RECORDS

Gulf of Mexico Area

A Notice published in the FEDERAL REGISTER on July 22, 1974 (39 FR 26656), solicited comments on the content of the proposed OCS Order.

Changes made in the Order since its earlier publication as a proposed Order include the listing of information available for inspection from various forms required to be submitted pursuant to OCS Order No. 11 for the Gulf of Mexico Area.

Also included is a new paragraph advising of the availability for public inspection of accident investigation reports, pollution incident reports, inspection reports, and enforcement actions.

Other modifications were made in the Order consistent with the intent of the Order, but clarifying its meaning.

This Order will be effective February 1, 1975.

W. A. RADLINSKI,
Acting Director.

This Order is established pursuant to the authority prescribed in 30 CFR 250.11 and in accordance with 30 CFR 250.97 and 43 CFR 2.2, and supersedes OCS Order No. 12, dated August 13, 1971. Section 250.97 of 30 CFR provides as follows:

Public Inspection of Records. Geological and geophysical interpretations, maps, and data required to be submitted under this part shall not be available for public inspection without the consent of the lessee so long as the lease remains in effect or until such time as the supervisor determines that release of such information is required and necessary for the proper development of the field or area.

Section 2.2 of 43 CFR provides in part as follows:

Determinations as to Availability of Records. (a) Section 552 of Title 5, U.S. Code, as amended by Pub. L. 90-23 (the act codifying the "Public Information Act") required that identifiable agency records be made available for inspection. Subsection (b)[1] of section 552 exempts several categories of records from the general requirement but does not require the withholding from inspection of all records which may fall within the categories exempted. Accordingly, no request made of a field office to inspect a record shall be denied unless the head of the office or such higher field authority as the head of the bureau may designate shall determine (1) that the record falls within one or more of the categories exempted and (2) either that disclosure is prohibited by statute or Executive Order or that sound grounds exist which require the invocation of the exemption. A request to inspect a record located in the headquarters office or a bureau shall not be denied except on the basis of a similar determination made by the head of the bureau or his designee, and a request made to inspect a record located in a major organizational unit of the Office of the Secretary shall not be denied except on the basis of a similar determination by the head of that unit. Officers and employees of the Department shall be guided by the "Attorney General's Memorandum on the Public Information Section of the Administrative Procedure Act" of June 1967.

(b) An applicant may appeal from a determination that a record is not available for inspection to the Solicitor of the Department of the Interior, who may exercise all of the authority of the Secretary of the Interior in this regard. The Deputy Solicitor may decide such appeals and may exercise all of the authority of the Secretary in this regard.

The operator shall comply with the requirements of this Order. Any departures from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR § 250.12(b).

[1] Subsection (b) of section 552 provides that:

(b) This section does not apply to matters that are—

• • • • •

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

• • • • •

(9) Geological and geophysical information and data, including maps, concerning wells.

1. *Availability of Records Filed on or after December 1, 1970.* It has been determined that certain records pertaining to leases and wells in the Outer Continental Shelf and submitted under 30 CFR Part 250 shall be made available for public inspection, as specified below, in the Area office, Metairie, Louisiana.

A. *Form 9-152—Monthly Report of Operations.* All information contained on this form shall be available, except the information required in the Remarks column.

B. *Form 9-330—Well Completion or Recompletion Report and Log.*

(1) Prior to commencement of production, all information contained on this form shall be available, except Item 1a, Type of Well; Item 4, Location of Well, At top prod. interval reported below; Item 22, If Multiple Compl., How many; Item 24, Producing Interval; Item 26, Type Electric and Other Logs Run; Item 28, Casing Record; Item 29, Liner Record; Item 30, Tubing Record; Item 31, Perforation Record; Item 32, Acid, Shot, Fracture, Cement Squeeze, etc.; Item 33, Production; Item 37, Summary of Porous Zones; and Item 38, Geologic Markers.

(2) After commencement of production, all information shall be available, except Item 37, Summary of Porous Zones; and Item 38, Geologic Markers.

(3) If production has not commenced after an elapsed time of five years from the date of filing Form 9-330 as required in 30 CFR § 250.38(b), all information contained on this form shall be available, except Item 37, Summary of Porous Zones; and Item 38, Geologic Markers. Within 90 days prior to the end of the 5-year period, the lessee or operator shall file a Form 9-330 containing all information requested on the form, except Item 37, Summary of Porous Zones; and Item 38, Geologic Markers, to be made available for public inspection. Objections to the release of such information may be submitted with the completed Form 9-330.

C. *Form 9-331—Sundry Notices and Report on Wells.* (1) When used as a "Notice of Intention to" conduct operations, all information contained on this form shall be available, except Item 4, Location of Well, At top prod. interval; and Item 17, Describe Proposed or Completed Operations.

(2) When used as a "Subsequent Report of" operations, and after commencement of production, all information contained on this form shall be available, except information under Item 17 as to subsurface locations and measures and true vertical depths for all markers and zones not placed on production.

D. *Form 9-331C—Application for Permit to Drill, Deepen or Plug Back.* All information contained on this form, and location plat attached thereto, shall be available, except Item 4, Location of Well, At proposed prod. zone; and Item 23, Proposed Casing and Cementing Program.

E. *Form 9-1869—Quarterly Oil Well Test Report.* All information contained on this form shall be available.

F. *Form 9-1870—Semi-Annual Gas Well Test Report.* All information contained on this form shall be available.

G. *Multi-point Back Pressure Test Report.* All information contained on this form used to report the results of required multi-point back pressure test of gas wells shall be available.

H. *Sales of Lease Production.* Information contained on monthly Geological Survey computer printout showing sales volumes, value, and royalty of production of oil, condensate, gas and liquid products, by lease, shall be made available.

2. *Filing of Reports.* All reports on Forms 9-152, 9-330, 9-331, 9-331C, 9-1869, 9-1870, and the forms used to report the results of multi-point back pressure tests, shall be filed in accordance with the following: All reports submitted on these forms after the effective date of this Order shall include a copy with the words "Public Information" shown on the lower right-hand corner. All items on the form not marked "Public Information" shall be completed in full; and such forms, and all attachments thereto, shall not be available for public inspection. The copy marked "Public Information" shall be completed in full, except that the items described in 1(A), (B), (C), and (D) above, and the attachments relating to such items, may be excluded. The words "Public Information" shall be shown on the lower right-hand corner of this set. This copy of the form shall be made available for public inspection.

3. *Availability of Records Filed Prior to December 1, 1970.* Information filed prior to December 1, 1970, on Forms 9-152, 9-330, 9-331, and 9-331C is not in a form which can be readily made available for public inspection. Requests for information on these forms shall be submitted to the Supervisor in writing and shall be made available in accordance with 43 CFR Part 2.

4. *Availability of Inspection Records.* All accident investigation reports, pollution incident reports, facilities inspection data, and records of enforcement actions are also available for public inspection.

D. W. SOLANAS,
Oil and Gas Supervisor, Field Operations.

Approved:

RUSSELL G. WAYLAND,
Chief, Conservation Division.

GULF ISLANDS NATIONAL SEASHORE ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Gulf Islands National Seashore Advisory Commission will be held on February 19th at 1 p.m., C.S.T., and February 20th at 8:30 a.m., C.S.T., at the Gulf State Park Resort, Drawer K, Gulf Shores, Alabama 36542.

The purpose of the Gulf Islands National Seashore Advisory Commission meeting is to discuss:

1. Comprehensive design for Santa Rosa Beach
2. Development Plan for Naval Live Oaks, Gulf Islands National Seashore, Florida
3. Development Plans for Ship Island and Davis Bayou, Gulf Islands National Seashore, Mississippi
4. Fort Stabilization Program
5. Summer Operational Programs

Members of the Advisory Commission are as follows:

Mr. J. Earle Bowden (Chairman)
Gulfport, Mississippi
Mr. Gordon D. Allen
Gulfport, Mississippi
Lt. Col. Lloyd J. Caillevet
Biloxi, Mississippi
Mr. John R. Cox
Destin, Florida
Mr. Robert D. Cramer
Pensacola, Florida
Mr. Donald E. Danly
Pensacola, Florida
Mr. Paul Frank
Gulfport, Mississippi

XUM
V40123
FEB 3 75
XUM

Mr. E. B. Jones
Pensacola, Florida
Mr. J. R. Lemon
Ocean Springs, Mississippi
Honorable H. Bryant Liggett
Pensacola, Florida
Mr. Nicholas A. Mavar, Jr.
Biloxi, Mississippi
Mr. Charles E. Moes
Gulf Breeze, Florida
Mr. Duncan Moran
Ocean Springs, Mississippi
Mr. Dee Parkton
Crestview, Florida
Mr. Davage Runnells, Jr.
Destin, Florida
Lt. Col. Mercer Richard Smith (Ret)
Gulf Breeze, Florida
Mr. James Stevens
Gulfport, Mississippi
Mr. G. Earl Wallis
Milton, Florida
Mr. E. P. Wilkes
Biloxi, Mississippi
Dr. J. Kinabrew Williams, Jr.
Pascagoula, Mississippi
Mrs. Erica Woolley
Pensacola, Florida

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited, and persons will be accommodated on a first-come first-served basis. Any member of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting or who wish to submit written statements, may contact Paul C. Swartz, Chief, Cooperative Activities Division, Southeast Region, National Park Service, at Area Code 404/526-7560. Minutes of the meeting will be available for public inspection four weeks after the meeting at the office of the Southeast Region, 3401 Whipple Ave., Atlanta, Georgia 30344.

DAVID D. THOMPSON, JR.,
Regional Director, Southeast Region, National Park Service.

INDEPENDENCE NATIONAL HISTORICAL PARK ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Independence National Historical Park Advisory Commission will be held at 10:30 a.m. on February 20, 1975, at 313 Walnut Street, Philadelphia, Pennsylvania.

The Commission was established by Pub. L. 80-795 to render advice on such matters relating to the park as may from time to time be referred to them for consideration.

The members of the Commission are as follows:

Mr. Arthur C. Kaufmann (Chairman)
Mr. John P. Bracken
Hon. Michael J. Bradley
Hon. James A. Byrne
Mr. Filindo B. Masino
Mr. Frank C. P. McGlinn
Mr. John B. O'Hara
Mr. Howard D. Rosengarten
Mr. Charles R. Tyson

The matters to be considered at this meeting include:

1. Management of Independence Mall.
2. Bicentennial Events.
3. Superintendent's Progress Report.

The meeting will be open to the public. Any person may file with the Commission an oral or written statement concerning the matters to be discussed. Persons desiring further information concerning this meeting, or who wish to submit statements, may contact Hobart G. Cawood, Superintendent, Independence National Historical Park, Philadelphia, Pennsylvania, at Area Code 215, 597-7120.

Minutes of the meeting shall be available for inspection two weeks after the meeting at the office of the Independence National Historical Park, 313 Walnut Street, Philadelphia, Pennsylvania.

Dated: January 21, 1975.

CHESTER L. BROOKS,
Regional Director, Mid-Atlantic Region, National Park Service.

Office of the Secretary

ALASKA

Availability of Final Environmental Statements

[INT FES 75-22]

ALASKA COASTAL NATIONAL WILDLIFE REFUGE, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Alaska Coastal National Wildlife Refuges in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Alaska Coastal National Wildlife Refuges and their management by the agency indicated below.

Proposal recommends that: Approximately 44,000 acres of public lands and waters along the coast of Alaska be designated by Congress as the Barren Islands, Bering Sea, Chukchi Sea, Kodiak, and Shumagin Islands National Wildlife Refuges.

Management by: Fish and Wildlife Service.

[INT FES 75-17]

ARCTIC NATIONAL PARK, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Gates of the Arctic National Park in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Gates of the Arctic National Park and its management by the agency indicated below.

Proposal recommends that: Approximately 9.1 million acres of public lands and waters in northcentral Alaska be designated by Congress as the Gates of the Arctic National Park in the Noatak, Alatna, Tinayguk, Killik (including Eastern Creek) and the North Fork of the Koyukuk Rivers be designated as Wild Rivers in accordance with the National Wild and Scenic Rivers Act of 1968.

Management by: National Park Service.

[INT FES 75-8]

ARCTIC NATIONAL WILDLIFE REFUGE, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Arctic National Wildlife Refuge in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Arctic National Wildlife Refuge and its management by the agency indicated below.

Proposal recommends that: Approximately 4 million acres of public lands and waters in northeast Alaska be designated by Congress as the Arctic National Wildlife Refuge and that portions of the Ivishak and Wind Rivers be designated as Wild Rivers in accordance with the National Wild and Scenic Rivers Act of 1968.

Management by: Fish and Wildlife Service.

[INT FES 75-15]

BIRCH CREEK NATIONAL WILD RIVER, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Birch Creek National Wild River in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Birch Creek National Wild River and its management by the agency indicated below.

Proposal recommends that: A 135-mile segment of Birch Creek and 200,000 acres of adjacent public lands in Interior Alaska be designated by Congress as the Birch Creek National Wild River.

Management by: Bureau of Land Management.

[INT FES 75-16]

CHUGACH NATIONAL FOREST, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Additions to the Chugach National Forest in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Additions to the Chugach National Forest and its management by the agency indicated below.

Proposal recommends that: Approximately 590,000 acres of public lands and waters in southeast Alaska be designated by Congress as the Chugach National Forest.

Management by: Forest Service, Department of Agriculture.

[INT FES 75-13]

FORTYMILE NATIONAL WILD AND SCENIC RIVER, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Fortymile National Wild and Scenic River in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Fortymile National Wild and Scenic River and its management by the agency indicated below.

Proposal recommends that: 375 miles of the Fortymile River system and 320,000 acres of adjacent public lands and waters in east-central Alaska be designated by Congress as the Fortymile National Wild and Scenic River.

Management by: Bureau of Land Management.

[INT FES 75-18]

KATMAI NATIONAL PARK, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Katmai National Park in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Katmai National Park and its management by the agency indicated below.

Proposal recommends that: Approximately 1.9 million acres of public lands and waters in southwest Alaska be designated by Congress as the Katmai National Park.

Management by: National Park Service.

[INT FES 75-21]

MOUNT MCKINLEY NATIONAL PARK, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Mount McKinley National Park in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Mount McKinley National Park and its management by the agency indicated below.

Proposal recommends that: Approximately 3.2 million acres of public lands and waters adjacent to the existing Mount McKinley National Park in central Alaska be designated by Congress as the Mount McKinley National Park.

Management by: National Park Service.

[INT FES 75-23]

NOATAK NATIONAL ARCTIC RANGE, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Noatak National Arctic Range in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Noatak National Arctic Range and its management by the agencies indicated below.

Proposal recommends that: Approximately 7.59 million acres of public lands and waters in northwest Alaska be designated by Congress as the Noatak National Arctic Range; that the range be included in the National Wildlife Refuge System and be jointly managed with the Bureau of Land Management under a 20-year moratorium; that approximately 265 miles of the Noatak River be designated as a Wild River in accordance with the National Wild and Scenic Rivers Act of 1968.

Management by: Fish and Wildlife Service and Bureau of Land Management.

[INT FES 75-20]

SELAWIK NATIONAL WILDLIFE REFUGE, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Selawik National Wildlife Refuge in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Selawik National Wildlife Refuge and its management by the agency indicated below.

Proposal recommends that: Approximately 1.4 million acres of public lands and waters east of Kotzebue Sound, Alaska, be designated by Congress as the Selawik National Wildlife Refuge.

Management by: Fish and Wildlife Service.

[INT FES 75-12]

TOGIAK NATIONAL WILDLIFE REFUGE, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Togiak National Wildlife Refuge in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Togiak National Wildlife Refuge and its management by the agency indicated below.

Proposal recommends that: Approximately 2.7 million acres of public lands and waters north of Bristol Bay, Alaska, be established by Congress as the Togiak National Wildlife Refuge and that approximately 60 miles of the Kanektok River be designated as a Wild River in accordance with the National Wild and Scenic Rivers Act of 1968.

Management by: Fish and Wildlife Service.

[INT FES 75-14]

UNALAKLEET NATIONAL WILD RIVER, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Unalakleet National Wild River in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Unalakleet National Wild River and its management by the agency indicated below.

Proposal recommends that: A 60-mile segment of the Unalakleet River and 104,000 acres of adjacent public lands and waters east of Norton Sound, Alaska, be designated by Congress as the Unalakleet National Wild River.

Management by: Bureau of Land Management.

[INT FES 75-19]

YUKON DELTA NATIONAL WILDLIFE REFUGE, ALASKA

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Yukon Delta National Wildlife Refuge in Alaska. The proposal is made in accordance with the Alaska Native Claims Settlement Act of 1971. The environmental statement considers the legislative establishment of the Yukon Delta National Wildlife Refuge and its management by the agency indicated below.

Proposal recommends that: Approximately 4.7 million acres of public lands and waters adjacent to the Clarence Rhode National Wildlife Range, Alaska, be designated by Congress as the Yukon Delta National Wildlife Refuge.

Management by: Fish and Wildlife Service.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Designation Number A129]

MISSOURI

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in 15 Missouri Counties. The Secretary has found that this need exists as a result of a natural disaster shown on the attached sheet which also lists the 15 counties.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR § 1832.3(b) including the recommendation of Governor Christopher S. Bond that such designation be made.

Applications for Emergency loans must be received by this Department no losses and October 21, 1975, for producLosses and October 21, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 27th day of January, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

MISSOURI—15 COUNTIES, 1974

Camden	Montgomery
Carter	Reynolds
Crawford	St. Clair
Dunklin	Shannon
Grundy	Shelby
Henry	Texas
Hickory	Warren
Lincoln	

Natural disasters:

Excessive rainfall March 1 through June 10, drought June 10 through August 15, and freeze March 23 and 24, 1974, occurred in the following counties:

Camden	St. Clair
Crawford	Shannon
Hickory	Texas
Reynolds	

Excessive rainfall April 1 through June 15, drought June 15 through August 15, and freeze October 1 and 2, 1974, occurred in the following counties:

Dunklin	Montgomery
Grundy	Shelby
Lincoln	Warren

Carter County suffered because of drought June 10 through August 15 and freeze March 23 and 24, 1974.

Henry County suffered because of excessive rainfall March 1 through June 10, drought June 10 through August 15 and freeze October 1 and 2, 1974.

Soil Conservation Service

BEAR-PIERCE-CEDAR CREEK WATERSHED PROJECT

Notice of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture gives notice that an environmental impact statement is not being prepared for the Bear-Pierce-Cedar Watershed Project, Gage County, Nebraska.

The environmental assessment of this federal action indicated that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Wilson J. Parker, State Conservationist, Soil Conservation Service, USDA, 134 South 12th Street, Room 604, Lincoln, Nebraska 68508, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by 10 single purpose floodwater retarding stuctures and one grade stabilization structure.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service
134 South 12th Street, Room 604
Lincoln, Nebraska 68508

Requests for the negative declaration should be sent to the above address.

No administrative action in implementation of the proposal will be taken until February 18, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: January 24, 1975.

WM. B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.75-3032 Filed 1-31-75;8:45 am]

BIG MORTAR-SNUFF BOX SWAMP WATERSHED PROJECT

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Big Mortar-Snuff Box Swamp Watershed Project, Long and McIntosh Counties, Georgia, USDA-SCS-EIS-WS-(ADM)-75-1-(D)-GA.

The environmental impact statement concerns a plan for watershed protection, flood prevention and drainage. The planned works of improvement include conservation land treatment supplemented by channel work, dikes, and streambank protection. The channel work will consist of approximately 4.5 miles of single purpose new channel construction for agricultural and pine forest drainage, approximately 139.5 miles of multiple purpose new channel construction for flood prevention and agricultural and pine forest drainage, 2.2 miles of dikes for flood prevention and 2.1 miles of streambank protection measures. The proposed channel work and dikes will provide improved water management in this flatland watershed which is used primarily for production of pine forest products. Small subsistence type farms are scattered throughout most of the watershed.

With the exception of approximately 0.5 mile of man-made channels, channel work is proposed where none or practically no defined channel exists. Of the approximately 144 miles of channels proposed on or adjacent to drainageways, 49.3 miles will involve those with intermittent flow, and 94.7 miles with only ephemeral flow. To be constructed concurrently with the channels are 13 green tree reservoirs (1,022 acres), 9 public fishing areas, and 27 wildlife watering facilities.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 355 East Hancock Avenue, Athens, Georgia 30601.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Charles W. Bartlett, State Conservationist, Soil Conservation Service, 355 East Hancock Avenue, Athens, Georgia 30601.

Comments must be received on or before March 21, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: January 23, 1975.

WM. B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

LUNICE CREEK SUBWATERSHED PROJECT

Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for work remaining to be done in the Lunice Creek Subwatershed Project, Grant County, West Virginia.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. James S. Bennett, State Conservationist, Soil Conservation Service, USDA, Federal Building, High Street, Morgantown, West Virginia 26505, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by two single-purpose floodwater retarding structures and 4,365 linear feet of dike.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, Federal Building, High Street, Morgantown, West Virginia 26505.

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until February 18, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: January 23, 1975.

WM. B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

SEA RIM STATE PARK RECREATION DEVELOPMENT RC&D PROJECT

Notice of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Sea Rim State Park Recreation Development RC&D Project, Jefferson County, Texas.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Edward E. Thomas, State Conservationist, Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan to develop public water-based recreational and educational facilities on a 15,336 acre tract of land. The plan provides an opportunity for the public to learn about the ecology of the marsh as a part of the recreational experience.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501.

No administrative action on implementation of the proposal will be taken until February 18, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.901, National Archives Reference Services)

Date: January 28, 1975.

VICTOR H. BARRY, Jr.,
Deputy Administrator for Field Services.

DEPARTMENT OF COMMERCE

National Bureau of Standards

CUSTOMARY SYSTEM OF WEIGHTS AND MEASURES

Commercial Weights and Measures Units

In the FEDERAL REGISTER of July 27, 1968 (33 FR 10755), the National Bureau of Standards, in accordance with a recommendation of the House Committee on Science and Astronautics and pursuant to the responsibility of the National Bureau of Standards for "the custody, maintenance, and development of the national standards of measurement" (15 U.S.C. 272), published a listing of the common weights and measures used in normal commerce throughout the United States, and related them to the standards developed in accordance with existing law. In connection with the notice of July 27, 1968, the following explanatory material will assist in the proper interpretation and application of the data in column three under "Linear Measurement, U.S. Customary," and under "Area Measurement, U.S. Customary":

As the July 27, 1968 notice states, all U.S. Customary Units of linear and area measurement that will be found in ordinary commerce are derived from the yard. The yard was last defined in a notice in the FEDERAL REGISTER of July 1, 1959 (24 FR 5348), as being exactly equal to 0.9144 meter.

The foot defined by the equations:

3 feet = 1 yard = 0.9144 meter, exactly
1 foot = 0.3048 meter, exactly

is known as the International Foot. In addition, the July 1, 1959 notice defines the U.S. Survey Foot as follows:

$$1 \text{ survey foot} = \frac{1200}{3937} \text{ meter, exactly}$$

or

1 survey foot = 0.304 800 61 meter, approximately

Accordingly, it is necessary to differentiate between the international foot, used for engineering, and the U.S. survey foot, used for mapping and land measurement. The metric equivalents listed in the July 27, 1968 notice for land measurements: statute mile (U.S. survey mile), acre, square mile, section, and township are approximate; metric equivalents to more figures can be determined from the survey foot. For example, the U.S. survey mile equals 1.609 347 kilometers, approximately, whereas the international mile equals 1.609 344 kilometers, exactly. Metric equivalents of all surveyor's units, e.g., links, rods, and chains, are derived from the survey foot.

The relationship

1 international nautical mile = 1.852 kilometers

is exact, but the relationship

6 076.115 international feet = 1 international nautical mile

is not exact.

Dated: January 17, 1975.

RICHARD W. ROBERTS,
Director.

FEDERAL INFORMATION PROCESSING STANDARDS COORDINATING AND ADVISORY COMMITTEE

Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that the Federal Information Processing Standards Coordinating and Advisory Committee (FIPSCAC) will hold a meeting from 9 a.m. to 1 p.m. on Wednesday, March 12, 1975, in Dining Room C, Administration Building, of the National Bureau of Standards, in Gaithersburg, Maryland.

The purpose of the meeting is to review the actions of the Federal Information Processing Standards (FIPS) Task Groups and to consider other matters relating to Federal Information Processing Standards.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify Joseph O. Harrison, Jr., Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234 (Phone 301-921-3551).

Dated: January 28, 1975.

National Institutes of Health

ACUPUNCTURE RESEARCH

Notice of a Conference

The National Institute of General Medical Sciences will sponsor a conference on acupuncture research, March 14, 1975. It is the Institute's intent to bring together those individuals directing NIH supported research projects and other experts knowledgeable in such fields of anesthesiology, neurophysiology, and physical medicine. The conference is aimed at reviewing and discussing current progress in the sponsored research projects and other investigations in order to establish the present state of the field and identify promising areas for further study.

The meeting will be held at the National Institutes of Health in Bethesda, Maryland, Building 31C, Conference Room 8, starting at 9 a.m. Attendance by the public will be limited to space available.

For further information please contact Dr. Howard P. Jenerick, NIGMS, Building 31, Room 4A-31, telephone (301) 496-5163.

Dated: January 27, 1975.

Office of the Secretary

OFFICE OF THE REGIONAL DIRECTOR, REGION VII, KANSAS CITY, MISSOURI

Statement of Organization, Functions, and Delegations of Authority

Section 1E87.20J of Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, Office of the Secretary is amended to conform with the standardized functions of the Assistant Regional Director for Financial Management. The amended section reads as follows:

J. Assistant Regional Director for Financial Management Region VII.

1. Provides financial management support to the Regional Director and Regional agency heads for decentralized programs and activities. Under policies and procedures established by the Office of the Assistant Secretary, Comptroller, supervises the performance of the following financial management functions: accounting and financial reporting, budget formulation and execution, and work with State and local government and HEW grantees to include indirect cost negotiation, single letter-of-credit implementation, technical assistance, and audit follow-up.

2. On behalf of the Regional Director, provides coordination and liaison with the HEW Audit Agency, the Treasury Department, the General Services Administration, and the General Accounting Office on financial management matters.

3. Is responsible for the financial administration and management of allotments or allowances which are issued to the Regional Director.

4. Performs Regional accounting and reporting activities: accounting controlling fiscal services and reporting for all HEW activities for which the Regional Director is delegated the authority to provide such services

5. Performs budget activities as follows: prepares the Regional budget for activities for which the Regional Director has delegated authority and assists other Regional staffs in developing their budgets; prepares consolidated Regional budget estimates and justifications and assists the Regional Director and Regional Agency Heads in advocating program budget priorities for centralized and decentralized programs based on Regional needs and characteristics; supervises budget execution in the Region including the recording and distribution of budget resources based on allocations, allotments and allowances for Regional activities; prepares recommended allowances and manpower allocations for activities delegated directly to the Regional Director; oversees the development of financial operating plans for other Regional activities, reviews these plans, and provides comments to the Regional Director and other Regional personnel; develops and implements a budget data system capable of monitoring financial operating plans and maintaining current information of fund availability for Regional programs; and receives Regional personnel ceiling allowances and monitors recruitment and employment against these allowances.

6. Carries on cost allocation and payment systems activities as follows: pursuant to delegations of authority from the Regional Director is responsible for indirect cost rate negotiations (including State and local cost allocation plans) based on cost policies and procedures established by the Division of Financial Management Standards and Procedures; provides financial management technical assistance to State and local governments and to other HEW grantees and contractors; assists the Office of the Assistant Secretary, Comptroller to develop the single letter of credit system within the Region; and assists the Regional Director and Regional Agency Heads in assuring effective follow-up of audit findings of major managerial significance as disclosed by reviews of grantees' management systems.

Dated: January 27, 1975.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

CIVIL AERONAUTICS BOARD

[Docket 27416; Order 75-1-72]

AMERICAN AIRLINES, INC., ET AL.

Excursion Fares

Correction

In FR Doc. 75-2026, in the issue of Wednesday, January 22, 1975, appearing at page 3489, the word "provision" in the second line, of the second full paragraph, in the second column on page 3490, should be changed to read "proposes".

[Docket 27452; Order 75-1-117]

RIGHT-O-WAY, INC.

Order of Suspension and Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of January, 1975.

By tariff revision[1] issued December 17, 1974 and marked to become effective January 30, 1975, Right-O-Way, Inc. d/b/a Right-O-Way Air Freight (Right-O-Way), an air freight forwarder, proposes to reduce its basic domestic liability from $0.50 per pound based upon the number of pounds of the total shipment, irrespective of the number of pounds lost or damaged, to one based upon the number of pounds of the part or parts of the shipment lost or damaged. The forwarder would continue its present minimum liability of not less than $50 per shipment.

Right-O-Way asserts that the proposal is designed "to correct problems in loss and damage claims," and that it meets "similar competitive rules on file for other forwarders."

The proposal significantly reduces the protection now offered shippers for domestic consignments without adequate justification. Right-O-Way submits no data to support its assertions, and does not indicate its loss and damage problems. Moreover, the carrier fails to identify the "other forwarders" who have such rules. A survey by the Board's staff of current liability rules has revealed that, with respect to domestic traffic, none of the major forwarders, only one of a large sample of smaller forwarders, and only one direct carrier have liability limitations rules based on the weight of the part(s) lost or damaged.[2]

Upon consideration of the foregoing and other relevant factors, the Board finds that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That: 1. An investigation be instituted to determine whether the provisions in Rule No. 80(D) on 5th Revised Page 10 of C.A.B. No. 3 issued by Miller Traffic Service, Inc., Agent, and rules, regulations, or practices affecting such provisions, are or will be, unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and, if found to be unlawful, to determine and prescribe the lawful provisions and rules, regulations, or practices affecting such provisions;

2. Pending hearing and decision by the Board, Rule No. 80(D) on 5th Revised Page 10 of C.A.B. No. 3 issued by Miller Traffic Service, Inc., Agent, is suspended and its use deferred to and including April 29, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension, except by order or special permission of the Board;

3. The proceeding herein designated Docket 27452, be assigned for hearing before an Administrative Law Judge of the Board at a time and place to be designated; and

4. Copies of this order shall be filed with the tariff and served upon Right-O-Way, Inc. d/b/a Right-O-Way Air Freight, which is hereby made a party to Docket 27452.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-3067 Filed 1-31-75;8:45 am]

[Docket Nos. 27454 and 23080-2, Order 75-1-118]

SERVICE MAIL RATES FOR AIR NEW ENGLAND, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of January, 1975.

In the recently concluded *New England Service Investigation* (Docket 22973), Air New England, Inc., was awarded a certificate of public convenience and necessity by the Board to provide passenger, property and mail services over a regional New England route. On January 13, 1975, Air New England filed with the Board a petition requesting the establishment of a service mail rate to be applicable to its certificated services.[1]

The U.S. Postal Service filed an answer in support of Air New England's petition, suggesting that the carrier be made a party to Docket 23080-2 and that the temporary domestic service mail rates be fixed for Air New England's mail services upon commencement of certificated operations by the carrier.

Air New England's petition does not comply with Rule 303 of the Board's rules of practice in that it does not set forth the rates sought to be established nor any economic justification for a proposed rate. The petition will therefore be dismissed.

Since it is necessary that an effective mail rate be established from the date Air New England commences service pursuant to its certificate of public convenience and necessity, we are herein instituting an investigation to determine the fair and reasonable service mail rates to be paid the carrier by the Postmaster General for the carriage of mail in its certificated services. Pending completion of that investigation, we are proposing the establishment of temporary rates.

As noted previously, the Postal Service has suggested that the temporary rates currently applicable to mail service performed by trunkline and local-service carriers pursuant to Board orders in Docket 23080-2 be established for Air New England's service. Although the Postal Service does not set forth any reasons for its suggestion, nevertheless the Board must give consideration to the fact that the user of the service has suggested rates it is willing to pay.

We propose to establish the temporary rates suggested by the Postal Service. Certain of the routes certificated for service by Air New England were previously operated by Delta Air Lines, Inc., and Delta's mail service was subject to the temporary rates established in Docket 23080-2. It appears reasonable that the same service to be performed by Air New England should be compensated at the same rates, on a temporary basis. Furthermore, the Board has determined in Docket 22973 that, for certain purposes, Air New England shall be treated as a local-service carrier.[2] Those carriers are also subject to the temporary service mail rates established in Docket 23080-2. In these circumstances, and in view of the agreement of the Postal Service, we tentatively conclude that the current temporary service mail rates and the final service mail rates to be established in Docket 23080-2 are fair and reasonable for the mail service performed by Air New England pursuant to its certificate of public convenience and necessity.

We therefore propose to issue an order adopting this conclusion and providing that: 1. On and after the date of commencement of certificated air transportation by Air New England, Inc., the fair and reasonable temporary rates of compensation to be paid by the Postmaster General for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, to Air New England, Inc., for operations between points which it presently or hereafter is authorized to carry

---

[1] Revision to Tariff C.A.B. No. 3, Miller Traffic Service, Inc., Agent.

[2] Only The Flying Tiger Line Inc., among the direct carriers, bases its limitations (for local domestic traffic) on the weight lost or damaged, but at a rate of $9.07 per pound.

[1] Air New England has previously provided noncertificated mail services in the New England region pursuant to contract with the Postal Service.

[2] Orders 74-10-101 and 74-10-102.

mail by its certificates of public convenience and necessity are the temporary rates established in Docket 23080-2.

2. The investigation instituted herein is consolidated into Docket 23080-2, and Air New England is made a party to Docket 23080-2.

3. The temporary service mail rates established herein shall be paid in their entirety by the Postmaster General and shall be subject to retroactive adjustment, commencing with the date of inauguration of services by Air New England, Inc., pursuant to its certificate of convenience and necessity as may be required by the order establishing final service mail rates in Docket 23080-2.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204(a) and 406 thereof, and the regulations promulgated in 14 CFR, Part 302,

It is Ordered, That: 1. The petition filed by Air New England, Inc., on January 13, 1975, in Docket 23080-2 is hereby dismissed;

2. An investigation is hereby instituted to determine the fair and reasonable rates to be paid by the Postmaster General to Air New England, Inc., for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith over Air New England's entire system on and after the date of commencement of services by Air New England, Inc., pursuant to the certificate of public convenience and necessity issued by the Board;

3. All interested persons, and particularly Air New England, Inc. and the Postmaster General, are directed to show cause why the Board should not adopt the foregoing findings and conclusions and fix, determine, and publish the temporary rates and charges specified herein pending the fixing of final rates and charges;

4. Further procedures herein shall be in accordance with the Rules of Practice, 14 CFR Part 302, and if there is any objection to the rates and charges or to the other findings and conclusions proposed herein, notice thereof shall be filed within 8 days, and, if notice is filed, written answer and supporting documents shall be filed within 15 days, after the date of service of this order;

5. If notice of objection is not filed within 8 days, or if notice is filed and answer is not filed within 15 days, after service of this order, or if an answer timely filed raises no material issue of fact, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of an order fixing temporary service mail rates, and the Board may enter an order incorporating the findings and conclusions proposed herein and fixing and determining the temporary rates and charges herein specified;

6. If notice of objection and answer are filed presenting issues for hearing, issues going to the establishment of the fair and reasonable temporary rates and charges herein shall be limited to those specifically raised by such answers except as otherwise provided in 14 CFR 302.207; and

7. This order shall be served upon the Postmaster General and Air New England, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 303-3]

CIVIL SUBSONIC TURBOJET ENGINE-POWERED AIRPLANE NOISE RETROFIT AND FLEET NOISE LEVEL REQUIREMENTS

Proposed Aircraft Noise Abatement Regulations

Section 611(c)(1) of the Federal Aviation Act (the Act) of 1958, 49 U.S.C. 1431, as amended by section 7(b) of the Noise Control Act of 1972, 86 Stat. 1239, requires that the Administrator of the Environmental Protection Agency submit to the Federal Aviation Administration (FAA) proposed regulations to provide such control and abatement of aircraft noise and sonic boom (including control and abatement through the exercise of any of the FAA's regulatory authority over air commerce or transportation or over aircraft or airport operations) as EPA determines is necessary to protect the public health and welfare.

In compliance with the Act, on January 28, 1975, the EPA submitted two proposed regulations to the Administrator of the FAA. These proposed regulations are Civil Subsonic Turbojet Engine-Powered Airplane Noise Retrofit Requirements and Fleet Noise Level Requirements and have been submitted to the Federal Aviation Administration under the authority of 49 U.S.C. 1431.

ROGER STRELOW,
Assistant Administrator, Air and Waste Management.

SCIENCE ADVISORY BOARD ECOLOGY ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the Ecology Advisory Committee of the Science Advisory Board will be held beginning at 9 a.m., February 24 and 25, 1975, in Room 1112, Building 2, Crystal Mall, 1921 Jefferson Davis Highway, Arlington, Virginia.

This is the first meeting of the Committee. The agenda includes discussion of the organizational structure, operational procedures, and functions of the Committee as an entity of the Science Advisory Board; an overview of the Environmental Sciences Research Program, Office of Research and Development, focusing on the Ecological Processes and Effects research responsive to the Agency's regulatory and standard setting responsibilities; and discussions of environmental problem areas requiring greatly improved ecological understanding for effective policy formulation and decision making. Topics may include such areas as the effects of acid rainfall and the natural occurrence of carcinogens in the environment. It is anticipated that one or more topics will be selected for Committee study.

The meeting is open to the public. Any member of the public wishing to attend, participate, or obtain additional information should contact Dr. J. Frances Allen, Executive Secretary, Ecology Advisory Committee, (703) 557-7720.

WILSON K. TALLEY,
Assistant Administrator for Research and Development.

TEXAS STATE DEPARTMENT OF HEALTH

Issuance of Specific Exemption To Use Strychnine To Control Rabid Skunks

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the Texas State Department of Health (hereafter referred to as the "Applicant") to use strychnine alkaloid or strychnine sulfate baits in a rabid skunk control program; this program is intended to prevent exposure of domestic animals and man on one 6,000 acre ranch located in Bowie and Red River Counties, Texas.

This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for the use of pesticides under emergency conditions. All interested parties are referred to the application on file in the Office of the Director, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Room 347, East Tower, Washington, D.C. 20460.

Background. On May 15, 1974, the EPA granted a specific exemption from the registration provisions of the amended FIFRA to the Texas State Department of Health, Austin, Texas. This exemption, valid only through June 30, 1974, permitted the use of strychnine alkaloid baits for emergency control of rabid foxes, raccoons, skunks, possums, bobcats, and coyotes only in Sutton and Schleicher Counties, on non-Federal lands. Notice of the issuance of this specific exemption was published in the FEDERAL REGISTER on June 5, 1974 (39 FR 19977).

However, a gravid cow with encephalitic symptoms was recently observed in a barn located on the Wood ranch, which covers 6,000 acres of Bowie and Red River Counties, Texas. The cow was sent to the Veterinary Medicine Laboratory at Texas A & M University for diagnosis; since the animal was in the late stages of pregnancy, the calf was delivered by caesarean section. Tests by the veterinary pathologist were negative for encephalitis, but the fluorescent antibody test for rabies in brain tissue was positive. Subsequent investigations have revealed that thirteen (13) workers on the Wood ranch and seven (7) veterinary personnel have been exposed to the rabid cow. These twenty (20) people are currently being treated for rabies. It has also been determined that the rables are being carried by rabid skunks which frequent the cattle barns on the ranch at night.

The Governor of Texas, through the Applicant, has requested permission to use strychnine poisoned bait in fourteen barns located on the Wood ranch to suppress the skunk population. The program will require five (5) ounces of strychnine.

Conclusion. In light of the information provided by the Applicant, the EPA has granted a specific exemption to use a strychnine bait for control of rabid skunks frequenting barns on the ranch in question, subject to the following restrictions:

(1) Bait stations containing not more than one-fourth (¼) grain of strychnine sulfate or strychnine alkaloid will be applied in barns by experienced personnel of the Texas State Department of Health;

(2) The total amount of strychnine will not exceed five (5) ounces;

(3) The bait will be placed in the evening and removed in the morning. Exposure will be five (5) consecutive nights. The program will commence as soon as a suitable strychnine product can be obtained and, in any case, shall be completed prior to February 28, 1975;

(4) The area treated will be fourteen barns located on the Wood ranch. Ranch employees living in houses adjacent to the treated barns will be notified of the poisoned bait applications;

(5) EPA Regional personnel will be contacted to discuss monitoring of the program; and

(6) The Applicant will comply with the provisions of § 166.5 entitled "Procedure to be followed upon approval of a specific exemption" under the amended FIFRA.

Dated: January 29, 1975.

JAMES L. AGEE,
Assistant Administrator for Water and Hazardous Materials.

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of Section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington DC 20460.

On or after April 4, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after April 4, 1975.

Dated: January 27, 1975.

JOHN B. RITCH, Jr.,
Director, Registration Division.

APPLICATIONS RECEIVED (OPP—32000/181)

EPA File Symbol 36271-R. American Lava Coating Corp. 41 Cain Dr., Plainview NY 11803. DAIRY & LIVESTOCK SPRAY. Active Ingredients: Pyrethrins 0.10%; Piperonly Butoxide, Technical 1.00%; Petroleum Distillate 98.90%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11694-LA. Dymon, Inc., 3401 Kansas Ave., PO Box 6235, Kansas City KS 66106. C.M.S. 4. Active Ingredients: Aromatic Petroleum Derivative Solvent 45%; Malathion (0,0-dimethyl dithiophosphate of diethyl mercaptosuccinate) 55%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11694-LI. Dymon, Inc. I.T.C. 20. Active Ingredients: Aromatic Petroleum Derivative Solvents 45%; Malathion (0,0-dimethyl of diethyl mercaptosuccinate) 55%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11694-L. Dymon, Inc. OCTICIDE 1. Active Ingredients: Aromatic Petroleum Derivative Solvent 82%; Malathion (0,0-dimethyl dithiophosphate of diethyl mercaptosuccinate) 18%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11694-LT. Dymon, Inc. CHLORMAL-21 CONCENTRATE. Active Ingredients: Aromatic Petroleum Derivative Solvents 40%; Mathathion (0,0-dimethyldithiophosphate of diethyl mercaptosuccinate) 55%. Method of Support: Application proceeds under 2(c) of interim policy.

APPLICATIONS RECEIVED (OPP-32000/182)

EPA File Symbol 36271-E. American Lava Coating Corp., 41 Cain Dr., Plainview NY 11803. DAIRY SPRAY CONCENTRATE. Active Ingredients: Pyrethrins 1.0%; Piperonyl Butoxide, Technical 10.0%; Petroleum Distillate 79.0%. Method of Support: Application proceeds under 2(c) of interim policy.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 20329, 20330, 20331, File Nos. [BPH-8434, 8435, and 8490]

ARTHUR R. TEMPLAR AND SHARON D. TEMPLAR ET AL.

Construction Permits

Requests: 103.9 MHz; Channel No. 280 33 kW(H&V); 300 feet; Tecumseh Broadcasting Corporation Fort Wayne, Indiana. Requests: 103.9 MH; Channel No. 280) kW(H&V); 300 feet, Weber Broadcasting, Inc. Fort Wayne, Indiana. Requests: 103.9 MHz; Channel No. 280 3 kW(H&V); 300 feet.

1. The Commission, by the Chief of the Broadcast Bureau, acting pursuant to delegated authority, has before it the three above-captioned applications which are mutally exclusive in that they seek the same channel in Fort Wayne, Indiana.

2. The demographic data submitted with each of the applications reveals that Fort Wayne has an extensive population which is enrolled in school, including several universities in the community. Public and private school enrollment in the county is in excess of 70,000 students. However, neither Weber Broadcasting, Inc. [Weber], nor Tecumseh Broadcasting Corporation [Tecumseh] has included any interviews with student leaders among the individuals consulted in the course of the community leader survey. As this segment of the population is clearly significant, it is not apparent that the efforts of Weber and Tecumseh fully comport with the requirements of the Commission's *Primer on the Ascertainment of Community Problems by Broadcast Applicants*, 27 FCC 2d 650 (1971). Accordingly, an appropriate issue will be specified as to both of these applicants to consider this deficiency further.

3. Tecumseh proposes to side-mount its FM antenna on a uniform cross-section guyed tower, located approximately 4,300 feet from the directional antenna system of station WFWR(AM), Fort Wayne, Indiana. In the event that Tecumseh is successful in its application,

V 40 23 FEB 3 75 XUM

the construction permit will be conditioned as follows, in order to determine whether the FM structure will distort the existing pattern:

Prior to the issuance of program test authority for the construction authorized herein, the permittee shall file with the Commission sufficient field intensity measurements of standard broadcast station WFWR made both before commencement and after completion of the construction of the antenna specified herein, to satisfactorily demonstrate that the radiation pattern has not changed because of said construction. Minimum required measurements shall include at least ten (10) consecutive points, including the measured field intensity at the monitoring locations for each of the radials included in the last proof of performance on file with the Commission. Measurement shall be made for both directional and non-directional modes of operation. These measurements, together with their ratio (DA/NDA) shall be submitted in tabulated form. Also, measurement data shall be certified by all parties involved before submission to the Commission. The engineer selected by the permittee to make the measurements shall be acceptable to all parties, and the cost of making the measurements, and any corrective measures that may be required to restore the patterns to the conditions prior to this construction shall be borne by the permittee herein. Also, permittee shall be responsible for maintenance and repair of any detuning circuits necessary to restore the radiation pattern of station WFWR.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

a. To determine the efforts made by Tecumseh Broadcasting Corporation to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet these problems;

b. To determine the efforts made by Weber Broadcasting, Inc., to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet these problems;

c. To determine which of the proposals would, on a comparative basis, better serve the public interest;

d. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

6. It is further ordered, That, in the event that Tecumseh Broadcasting Corporation is successful in its application, the construction permit will contain the special condition discussed in paragraph 3, above.

7. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person of by attorney, shall within 20 days of the mailing of this order, file with the Commission in triplicate a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

8. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible, and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: January 24, 1975.

Released: January 28, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

FEDERAL ENERGY ADMINISTRATION

CONSUMER AFFAIRS AND SPECIAL IMPACT ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Consumer Affairs and Special Impact Advisory Committee will meet on Thursday, February 20, 1975, at 9 a.m., in Room 3400, 12th & Pennsylvania Avenue, NW., Washington, D.C.

This Committee was established to provide the Federal Energy Administration with diversified knowledge and experiences possessed by a wide range of highly qualified individuals who have been extensively involved in planning, developing, and implementing programs to remedy the problems of the consumer, the poor, the elderly, and the handicapped persons in rural and urban America.

The Agenda for the meeting is as follows:

1. Socio-Economic Analysis of the President's Energy Policies and Alternatives.
2. Lifeline Rate Concept.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Officer (202) 961-7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on January 28, 1975.

DAVID G. WILSON,
Acting General Counsel.

FEDERAL POWER COMMISSION

[Docket No. E-8851]

ALABAMA POWER CO.

Extension of Procedural Dates

JANUARY 27, 1975.

On January 16, 1975, the Cooperatives and the Municipalities (Intervenors) jointly filed a motion to extend the procedural dates fixed by order issued July 18, 1974, as most recently modified by notice issued October 21, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor's Testimony, February 24, 1975.
Service of Company Rebuttal, March 31, 1975.
Hearing, April 14, 1975 (10:00 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-2973 Filed 1-31-75;8:45 am]

[Docket No. RI74-144]

AZTEC OIL & GAS CO.

Formal Hearing

JANUARY 27, 1975.

On January 3, 1975, Aztec Oil & Gas Company (Aztec) filed an application for rehearing of Opinion No. 699-H [1] requesting, inter alia, special relief for sales of its gas to El Paso Natural Gas Company (El Paso) in the San Juan Basin subarea of the Rocky Mountain Area [2] which are involved in Docket No. RI74-144. In Opinion No. 699-H (mimeo at 66-68), the Commission established a just and reasonable rate of 35¢ per Mcf for gas in the Rocky Mountain Area from wells commenced prior to January 1, 1973, which is sold pursuant to contracts dated on or after October 1, 1968. The Commission also required refunds of any amounts collected subject to refund in excess of 35¢.

[1] Opinion And Order On Rehearing Affirming In Part And Modifying In Part Opinion No. 699 And Granting In Part And Denying In Part Petitions For Rehearing, ---- F.P.C. ----, Docket No. R-389-B (issued December 4, 1974) (hereinafter referred to as Opinion No. 699-H).

[2] Initial Rates For Future Sales Of Natural Gas For All Areas, Docket Nos. R-389-B, R-389-A, Order No. 435, 46 F.P.C. 68 (1971), affirmed sub nom. American Public Gas Association, et al. v. FPC, 498 F. 2d (D.C. Cir., May 23, 1974); Area Rates For The Rocky Mountain Area, Docket No. R-425, Opinion No. 658, 49 F.P.C. 924 (1973).

Previously, on January 2, 1974, Aztec has filed seven rate increases to 57.72¢ per Mcf for sales to El Paso under its FPC Gas Rate Schedule Nos. 2, 4, 5, 12, 28, 29, and 35.[3] By order issued February 1, 1974, Aztec's proposed rates were suspended in Docket No. RI74-144 for five months until July 2, 1974, and thereafter became effective subject to refund.

Aztec claims in its application for rehearing that Opinion No. 699-H should not apply to its sales in Docket No. RI74-144 and that it should be given an opportunity to show that it is entitled to special relief with respect to such sales. The national ceiling established in Opinion No. 699-H is applicable to a few of the subject sales made by Aztec because the wells were commenced on or after January 1, 1973. There may also be a few sales to which the 35¢ Rocky Mountain rate is applicable. But, the just and reasonable rate for the bulk of Aztec's sales will be determined in Docket No. R-478. While no determination has yet been made in Docket No. R-478, it is reasonably clear that Aztec will also seek special relief there. In these circumstances, we think it best to set for immediate hearing the proceeding in Docket No. RI74-144 so as to give Aztec an opportunity to show that it is entitled to special relief for all of its sales. This seems preferable to holding a hearing now on the few sales covered by Opinion No. 699-H, and later holding another hearing on the sales which will be covered by Docket No. R-478, particularly in light of the rate level sought by Aztec in Docket No. RI74-144. Pending our determination in Docket No. RI74-144, Aztec may continue to collect its increased rates subject to refund in Docket No. RI74-144 for sales involved there and shall not be required to make any refunds pursuant to Opinion No. 699-H for sales covered by that opinion.[4]

Petitions to intervene in Docket No. RI74-144 were previously filed by El Paso (January 31, 1974), Public Utilities Commission of the State of California (P.U.C.C.) (March 8, 1974), and Southern Union Gas Company (Southern) (April 18, 1974).

The twenty year primary term of each of Aztec's seven basic contracts has expired. Aztec has formally served notices of termination for two of the contracts involved (FPC Gas Rate Schedule Nos. 3 and 12) and the remaining five are continuing on a month to month basis until either party gives 60 day notice of intent to terminate. Each of the five continuing contracts has a clause in it stating that the price of the subject gas shall be the market value at the delivery point (at the beginning of each successive five year period after expiration of the basic contract term) for gas of similar quality and pressure in the area from which the gas is being produced. In its January 31, 1974 petition in opposition to the Aztec filing subsequently suspended in Docket No. RI74-144, El Paso did not question Aztec's right to file for increased rates under the expired contracts, but did contend that Aztec lacked contractual authorization as regards the five continuing contracts, citing "United Gas Pipe Line Co. v. Mobil Gas Service Corp." 350 U.S. 332 (1956). Aztec, in its February 25, 1974 answer to El Paso's petition, contended that the aforementioned "market value" clause satisfied Mobil. The contract issue raised by El Paso shall be decided in this hearing as well as the issues concerning Aztec's entitlement to special relief.

The Commission finds: (1) Good cause exists to permit the intervention of El Paso, Southern and P.U.C.C.

(2) A hearing is necessary to determine the just and reasonable rate or rates that Aztec may charge for the sales of natural gas covered by this docket.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections ·, 5, 7, 14, and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter 1), Docket No. RI74-144 is set for the purpose of hearing and disposition.

(B) A public hearing on the issues presented by the application herein shall be held commencing on March 25, 1975, 10 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) A Presiding Law Judge to be designated by the Chief Law Judge for that purpose (See delegation of authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(D) Aztec and any intervenor supporting the application shall file their direct testimony and evidence on or before February 21, 1975. All testimony and evidence shall be served upon the Presiding Judge, the Commission Staff, and all parties to this proceeding.

(E) The Commission Staff, and any intervenor opposing the application, shall file their direct testimony and evidence on or before March 11, 1975. All testimony and evidence shall be served upon the Presiding Judge, and all other parties to this proceeding.

(F) All rebuttal testimony and evidence shall be served on or before March 18, 1975. All parties submitting rebuttal testimony and evidence shall serve such testimony upon the Presiding Judge, the Commission Staff, and all other parties to the proceeding.

(G) The above-named petitioners are permitted to intervene in these proceedings subject to the Rules and Regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in these proceedings; and, *Provided, further,* That such intervenors shall accept the record as it has been established in the proceedings to date.

(H) Petitions to intervene in these proceedings shall continue to be entertained until February 24, 1975.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

DUKE POWER CO.

Change in Rates

JANUARY 24, 1975.

Take notice that on January 20, 1975, Duke Power Company (Duke) tendered for filing a supplement to its Rate Schedule FPC No. 241 for service to the City of Easley, South Carolina. Duke states that all load previously on Delivery Point No. 2 will be transferred to Delivery Point No. 3 and that the contract demand for Delivery Point No. 3 is increased.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 13, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP75–109]

FLORIDA GAS TRANSMISSION CO. AND TRANSCONTINENTAL GAS PIPE LINE CORP.

Order Setting Matters for Hearing, Granting Intervention, and Establishing Procedures

JANUARY 27, 1975.

On September 30, 1974, Florida Gas Transmission Company (Florida Gas) and Transcontinental Gas Pipe Line Corporation (Transco) jointly filed in Docket No. CP75–109 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas and the retention in place and operation of related exchange facilities.

The Applicants request authorization to exchange natural gas on a simultaneous Mcf-for-Mcf basis. Applicants propose that Florida Gas shall deliver to Transco up to 25,000 Mcf of natural gas per day at the point where Florida Gas' 6-inch Helen Gohlke Lateral intersects Transco's 24-inch pipeline in Victoria County, Texas. Transco proposes to simultaneously redeliver to Florida Gas (at points up stream) approximately 25,000 Mcf per day from the outlets of Sun's Oil Company (Sun's) Tijerna-Canales-Blucker Gasoline Plant in Brooks County, Texas, and Sun's Starr Gasoline Plant in Starr County, Texas.

Applicants also request authorization to construct and operate the facilities necessary to provide the initial interconnection between Applicants.

Applicants contend that the purpose of the exchange is to enable Florida Gas to take into its system quantities of gas available from Sun which because of capacity limitations upon its 6-inch line Florida Gas would be unable to receive. The gas resulting from the exchange would be transported on behalf of Florida Gas for the use of Florida Power and Light Company for use in the latter's generating stations. Applicants further contend that the proposed service would allow Florida Gas to accommodate Sun's increased production rates which are presently in excess of Florida Gas' 6-inch lateral by using existing Transco facilities which have sufficient capacity to receive increased quantities of gas.

The exchange was commenced on August 8, 1974, on an emergency basis pursuant to § 157.22 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.22) and expired on October 7, 1974. Believing that the emergency was to continue beyond the 60-day period authorized by § 157.22 the parties filed this application (dated September 30, 1974) to maintain the facilities in place and continue the exchange. The Commission denied Applicant's requests for waiver of the 60-day limit by letter dated October 30, 1974, for lack of a showing as to any adverse effects which would result from such a denial.

After due notice by publication in the FEDERAL REGISTER on October 22, 1974 (39 FR 37539), a petition to intervene was filed by Sun in support of the instant application. No further petitions to intervene, notices of intervention, or protests to granting the application have been filed.

In view of the factual and legal issues raised by the Applicants joint request for authorization of the proposed exchange of natural gas and retention in place of related exchange facilities we conclude that an evidentiary hearing should be held. Specifically, Florida Gas, Transco, and Sun should present evidence justifying the end use of the increased flow of natural gas resulting from the exchange by Florida Gas for its customer Florida Power (for use as boiler fuel) given existing curtailment rates of Florida Gas' higher priority customers as categorized under § 2.78 of the Commission's regulations. Furthermore the above parties should present all other evidence necessary to show that the authorization sought is required by the present or future public convenience and necessity.

The Commission finds: (1) Good cause exists to set for formal hearing the matters raised by the joint application of Florida Gas and Transco for a grant of permanent authorization for an exchange of natural gas between the two applicants and the facilities necessary therefore.

(2) The participation of Sun as an intervener may be in the public interest.

The Commission orders: (A) Pursuant to the provisions of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and Regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held commencing February 20, 1975, at 10 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., 20426. The Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose—See Delegation of Authority (18 CFR 3.5(d))—shall preside at the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

(B) On or before February 6, 1975, Florida Gas and Transco shall file and serve their testimony comprising their case in chief upon all parties to this proceeding including Commission Staff. Such presentation shall cover all issues raised by the Applicant's September 30, 1974, filing in Docket No. CP75–109 as well as all issues referred to in this order.

(C) Sun shall be permitted to intervene in this proceeding subject to the rules and regulations of the Commission, *Provided, however,* That participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene and *Provided, further,* That the admission of such intervener shall not be construed as recognition by the Commission that intervener may be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-2975 Filed 1-31-75;8:45 am]

[Docket No. RP75–55]

MOUNTAIN FUEL SUPPLY CO.

Tender of Revised Tariff Sheets

JANUARY 27, 1975.

Take notice that on January 21, 1975, Mountain Fuel Supply Company (Mountain Fuel) tendered for filing Second Revised Sheet No. 51–A to Rate Schedule X–4 and First Revised Sheet No. 73–A to Rate Schedule X–5, both sheets being applicable to Mountain Fuel's FPC Gas Tariff, Original Volume No. 1. Mountain Fuel states that the purpose of this filing is to make the increase authorized by Opinion No. 699–H effective as of June 21, 1974. Mountain Fuel states further that the proposed increase is also authorized by Article 4 of Rate Schedules X–4 and X–5.

Mountain Fuel states that a copy of this filing has been mailed to Colorado Interstate Gas Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-2976 Filed 1-31-75;8:45 am]

[Docket No. CP75–216]

COLORADO INTERSTATE GAS CO. ET AL.

Application

JANUARY 29, 1975.

Take notice that on January 27, 1975, Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), P.O. Box 1087, Colorado Springs, Colorado 80944, Cascade Natural Gas Corporation (Cascade), P.O. Box 24464, Seattle, Washington 98124, and Mountain Fuel Supply Company (Mountain Fuel), P.O. Box 11368, Salt Lake City, Utah 84139, filed a joint application pursuant to Section 7 of the Natural Gas Act for authority to continue to implement a short-term sale of natural gas by CIG to Rocky Mountain Natural Gas Company, Inc. (Rocky Mountain), all as more fully set forth in the application, which is on file with the Commission and open to public inspection

By the instant application, CIG requests authority to sell up to 10,000 Mcf of gas per day for a period commencing February 2, 1975, and terminating April 15, 1975, to Rocky Mountain. According to the application the sale is expected to average about 6,000 Mcf of gas per day or less and will be interruptible, subject to the operations of CIG's system. CIG states that it will charge Rocky Mountain 72.17 cents per Mcf for deliveries up to 6,000 Mcf per day and 97.57 cents for all volumes delivered in excess of 6,000 Mcf per day. The application states that Applicants are advised that Rocky Mountain will not require any additional authorizations to undertake the proposed transaction.

Applicants state that the short-term sale is proposed because Rocky Mountain, which endeavors to obtain its gas supply entirely within the state of Colorado, has been forced to enter into several short-term gas supply arrangements similar to the one proposed in the instant application as a result of declines in local gas production. Applicants further state that Rocky Mountain has informed CIG that without this supplemental supply of gas Rocky Mountain will be forced to curtail partially its firm deliveries in February and March 1975, including residential and small commercial customers.

In order to implement the subject sale, according to the application, CIG, whose system does not connect with Rocky Mountain's has entered into a gas exchange agreement with Cascade and Mountain Fuel whereby Cascade will make deliveries to Rocky Mountain for CIG's account from an existing interconnection in the Divide Creek Field in Mesa County, Colorado, and reduce deliveries to Mountain Fuel at Bonanza, Utah, under Cascade's FPC Rate Schedule No. 1, by a volume equal to the volume delivered to Rocky Mountain, and whereby CIG will deliver to Mountain Fuel for Cascade's account volumes, equal to those which Cascade delivered to Rocky Mountain, at an existing interconnection between CIG's and Mountain Fuel's systems in Sweetwater County, Wyoming. The application further states that should the exchange account between CIG and Mountain Fuel not be in balance on April 15, 1975, the account will be balanced within a reasonable time. No new facilities are proposed by Applicants to effectuate said gas exchange.

The application relates that CIG has been selling gas to Rocky Mountain and that the subject exchange has been in operation pursuant to § 157.22 of the Commission's regulations under the Natural Gas Act (18 CFR 157.22) since December 4, 1974. Said emergency operations were originally scheduled to terminate, according to the application, on February 1, 1975. Applicants, therefore, request authorization to continue the sale and exchange as heretofore described for the reasons hereinbefore explained.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket Nos. RP74–48 and RP75–3]

TRANSCONTINENTAL GAS PIPE LINE CO.

Conference

JANUARY 29, 1975.

Take notice that on Tuesday, February 11, 1975, a conference of all interested parties in the above-referenced dockets will be convened at 10 a.m. in Room No. 5200 at the offices of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, their attendance at the conference will not be deemed to authorize their intervention or to make them a party to these proceedings.

In accordance with the provisions of § 1.18 of the rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of Transcontinental Gas Pipe Line Company's proposed tariff changes, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CP75–208]

NORTH PENN GAS CO.

Application

JANUARY 27, 1975.

Take notice that on January 21, 1975, North Penn Gas Company (Applicant), 76–80 Mill Street, Port Allegany, Pennsylvania 16743, filed in Docket No. CP75–208 an application pursuant to section 7 of the Natural Gas Act for permission and approval to abandon 18,460 feet of 14-inch pipeline together with appurtenances and rights-of-way in Tioga and Richmond Townships, Pennsylvania, and for a certificate of public convenience and necessity authorizing the construction and operation of 55,000 feet of 14-inch pipeline in Delmar, Farmington and Middleburg Townships, Pennsylvania, for the purpose of replacing the pipeline proposed to be abandoned, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that the proposed replacement of pipeline is necessitated by the construction of the Tioga-Hammond Dam by the U.S. Army Corps of Engineers (Corps). The Corps, according to Applicant, has taken or will take, the pipeline facilities proposed to be abandoned and will reimburse Applicant for all reasonable and legitimate costs of relocating or rearranging said facilities. Applicant estimates the cost of constructing the new pipeline at $1,829,780.44.

Applicant states that the pipeline facilities must be replaced in order to maintain a direct connection between the wholesale supplier of Applicant and Applicant's storage facilities, which support pipeline system supplies and offset supplier curtailments during periods of high priority winter loads.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 12, 1975, file with the Federal Power

XUM V40123 FEB 3 75 XUM

Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. E-8882]

PUBLIC SERVICE COMPANY OF COLORADO

Filing of Supplement to Service Agreement

JANUARY 27, 1975.

Take notice that on January 10, 1975, the Public Service Company of Colorado (PSCC) tendered for filing a supplement to its service agreement with the Colorado-Ute Electric Association, Inc., designated FPC Rate Schedule No. 12. PSCC originally filed the service agreement with the Commission on July 1, 1974, and by order issued August 30, 1974, the Commission suspended the proposed service agreement for five months and set the matter for hearing.

Any person desiring to be heard or to protect said supplement should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 10, 1975. Protests will be considered by the Commission in determing the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this supplement are on file with the Commission and are available for public inspection.

[Docket No. CP73-27]

STINGRAY PIPELINE CO.

Tariff Filing

JANUARY 24, 1975.

Take notice that on January 13, 1975, Stingray Pipeline Company (Stingray), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP73-27 First Revised Sheet No. 4 to Original Volume No. 1 of its FPC Gas Tariff to become effective on January 1, 1975.

Stingray states that the rate level reflected in First Revised Sheet No. 4 utilizes a 12.6 percent cost of debt capital (10½ percent x 1.2) for the 75 percent portion of Stingray's capitalization which consists of debt. The interest charge of 12.6 percent for the first quarter of 1975 has been established pursuant to the terms of the Revolving Credit and Term Loan Agreement, dated April 1, 1973 which was introduced as Exhibit No. 8 in the record in Docket No. CP73-27, et al.

Any person desiring to be heard or to make any protest with reference to said tariff filing should on or before February 12, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

WESTERN MASSACHUSETTS ELECTRIC CO.

Amendment to Rate Schedule

JANUARY 24, 1975.

Take notice that on January 6, 1975, Western Massachusetts Electric Company (WMECO) tendered for filing a proposed amendment to its FPC Electric Tariff Volume No. 1. WMECO states that no change in rates will result from the proposed amendment.

WMECO further requests an effective date of December 21, 1974 and, in order for said date to be allowed, they ask that Section 35.11 of the Commission Regulations be waived.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI65-407, etc.]

JURISDICTIONAL SALES OF NATURAL GAS

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

JANUARY 20, 1975.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 13, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Denial of Clearance of Report Proposal

Notice is hereby given that the General Accounting Office (GAO) will not issue clearance of a proposal by the Interstate Commerce Commission to require household goods carriers to file a new annual performance report. The requirement and data to be included in the report are specified in 49 CFR 1056.7(b). Respondents were to be some 2,500 household goods carriers.

In section 409 of Pub. L. 93-153, the Congress gave GAO responsibility for insuring that the information required by the independent regulatory agencies is obtained with a minimum burden on business enterprises and that the information is not presently available from other sources within the Federal government. GAO finds that the information sought in the proposal will not result in unnecessary duplication of information already available. However, upon a review of the material submitted with the proposal, as well as recent information submitted to GAO by potential respondents, GAO has determined it would be unduly burdensome to require respondents to compile new performance information retroactively for calendar year 1974. On that basis, we will not issue a clearance of the proposal. This determination is based on the retroactive nature of the proposal, not on its substance.

CARL F. BOGAR,
Assistant Director,
Regulatory Reports Review Group.

INTERNATIONAL JOINT COMMISSION UNITED STATES AND CANADA

NIAGARA FALLS

Preservation and Enhancement

In the matter of a public hearing on Preservation and Enhancement of the American Falls at Niagara; 9:30 a.m., Tuesday, 4 March 1975, Riverview Room, Ramada Inn, 401 Buffalo Avenue, Niagara Falls, New York 14303.

The International Joint Commission will conduct a public hearing at the above noted time and place to receive the views and comments of all those interested in measures to preserve or enhance the beauty of the American Falls at Niagara and in the Final Report of the Commission's American Falls International Board.

In 1967, the Governments of Canada and the United States requested the Commission to investigate and recommend what measures are feasible and desirable (a) to effect the removal of the talus at the base of the American Falls and (b) to retard or prevent future erosion as well as other measures which may be desirable or necessary to preserve or enhance the beauty of the Falls. In 1970 the two Governments extended the terms of the Reference to include recommendations as to the measures feasible and desirable to protect the immediate areas of the American Falls and of the Goat Island Flank of the Horseshoe Falls if it were found that these areas were endangered by the possibility of erosion or other geological conditions.

The Board concluded in its Report dated June 1974 that the process of erosion and recession should not be interrupted, but safety measures should be undertaken to protect the viewing public. The Board concluded further that a broad international environmental study should be undertaken of conditions in the vicinity of Niagara Falls in order to determine what other measures might be desirable to enhance the beauty of the Falls.

At the hearing statements may be made orally or in writing and the evidence submitted will be considered by the Commission in formulating its report and recommendations to the Governments. Where written statements are provided it would be helpful to have sufficient copies deposited with the Secretaries for the use of the Commission, the news media and others interested. Copies of the Board's report and a summary brochure are available upon request to the Secretaries of the Commission.

D. G. CHANCE,
Secretary, Canadian Section, International Joint Commission.

W. A. BULLARD,
Secretary, United States Section, International Joint Commission.

INTERNATIONAL TRADE COMMISSION

[337-40]

ELECTRONIC FLASH DEVICES

Notice of Termination of Investigation, in Part

On January 28, 1975, the Commission ordered the termination of investigation No. 337-40 with respect to Braun North America, a division of the Gillette Company of Cambridge, Massachusetts; Braun North America is one of the parties named in the investigation as importers and distributors of the product the subject of the investigation. This termination was based on the submissions of the parties to this investigation and on the existence of a licensing agreement covering the patents in issue between Honeywell, Inc., and the Gillette Company and Braun A.G. of the Federal Republic of Germany. Braun A. G. is the foreign manufacturer of electronic flash devices imported by Braun North America.

By order of the Commission.

Issued: January 29, 1975.

KENNETH R. MASON,
Secretary.

NATIONAL ENDOWMENT FOR THE ARTS AND HUMANITIES

ADVISORY COMMITTEE RESEARCH PANEL

Meeting

JANUARY 20, 1975.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463) notice is hereby given that a meeting of the Research Panel will meet at Washington, D.C. on February 18, 1975.

The purpose of the meeting is to review research grant applications on General Research on Archaeology submitted to the National Endowment for the Humanities for possible grant funding.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552 (b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, NW., Washington, D.C. 20506, or call area code 202 382-2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

[FR Doc.75-3024 Filed 1-31-75;8:45 am]

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR MOLECULAR BIOLOGY

Notice of Determination

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), it is hereby determined that the establishment of an Advisory Panel for Molecular Biology as hereinafter identified, is necessary, appropriate, and in the public interest in connection with the performance of duties imposed upon the National Science Foundation by the National Science Foundation Act of 1950, as amended, and other applicable law. This determination follows consultation with the Office of Management and Budget (OMB), pursuant to section 9(a)(2) of the Federal Advisory Committee Act and OMB Circular No. A-63, Revised.

1. *Name of Panel:* Advisory Panel for Molecular Biology.

2. *Purpose:* To provide advice on the technical and scientific aspects of specific proposals submitted to the Molecular Biology Section for consideration of funding. The Advisory Panel for Molecular Biology is established as a result of a merger between the Advisory Panel for Biochemistry and the Advisory Panel for Biophysics.

3. *Effective Date of Establishment and Duration:* The panel is established effective 15 days after publication of this Notice and after the filing of the charter with the standing committees of Congress having legislative jurisdiction of the National Science Foundation. The panel's duration shall be two years from the effective date.

4. *Membership:* The membership of the panel shall be fairly balanced in terms of the points of view represented and the panel's function. The panel will be comprised of panel members who are currently serving on the Advisory Panel for Biochemistry and the Advisory Panel for Biophysics until completion of their terms, after which new members may be selected from the community of research scientists in Molecular Biology. There will be no discrimination on the basis of race, color, national origin, religion or sex.

5. *Panel Operation:* The panel will operate in accordance with provisions of the Federal Advisory Committee Act (Pub. L. 92-463), Foundation policy and procedures, OMB Circular No. A-63, Revised and other directives and instructions issued in implementation of the Act.

H. GUYFORD STEVER,
Director.

[FR Doc.75-3055 Filed 1-31-75;8:45 am]

ADVISORY PANEL ON SCIENCE EDUCATION PROJECTS

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Problem Assessment and Experimental Projects Subpanel, to be held at 9 a.m. on February 20 and 21, 1975, in Room 651, 5225 Wisconsin Avenue, NW., Washington, D.C.

The purpose of this Subpanel is to provide advice and recommendations concerning the merit of specific proposals submitted for consideration by the Problem Assessment and Experimental Projects Program.

This meeting will not be open to the public because the Subpanel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10 (d) of Pub. L. 92-463.

For further information about this Subpanel, please contact Dr. Richard W. West, Project Manager, Problem Assessment and Experimental Projects, Rm. 666-W, National Science Foundation, Washington, D.C. 20550, telephone, 202/282-7947.

R. GAIL ANDERSON,
Acting Committee Management Officer.

JANUARY 29, 1975.

[FR Doc.75-3053 Filed 1-31-75;8:45 am]

ADVISORY PANEL FOR OCEANOGRAPHY

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Oceanography to be held at 9 a.m. on February 19 and 20, 1975, in rooms 338 and 642, 1800 G Street NW., Washington, D.C.

The purpose of the Panel is to provide advice and recommendations in the evaluation of specific research proposals and to advise the Foundation on the impact of its research support programs on the scientific community in oceanography.

The agenda for this meeting is as follows:

FEBRUARY 19—RMS. 338 AND 642

9:00—Review and evaluation of research proposals in oceanography.

FEBRUARY 20—RM. 642

9:00—Introductory Remarks—Dr. Crary, Division Director, Environmental Sciences.
9:30—Energy-related Oceanographic Research—Dr. Harriss, Energy Task Coordinator for the Division of Environmental Sciences.
10:00—US-USSR Cooperative Agreement, Oceanography—Mr. Jennings, Head, Office for the International Decade of Ocean Exploration.
10:30—Estimating Future Requirements for Oceanographic Facilities—Ms. Johrde, Head, Office of Oceanographic Facilities and Support.
11:30—National Academy of Sciences' Report on Biological Oceanography—Dr. Williams, Program Director, Biological Oceanography.
12:30—Lunch
1:00—International Decade of Ocean Exploration—Mr. Jennings, Head, Office for the International Decade of Ocean Exploration.
1:45—Support of Oceanographic Research, Office of Naval Research—Dr. Ostinso, Deputy Division Director for Ocean Science and Technology, ONR.
2:30—New Directions in Oceanographic Research—Dr. Crary, Division Director, Environmental Sciences.
3:15—Other Business.
3:30—Adjourn.

The entire session on February 19 will be devoted to reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552 (b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

The February 20 session shall be open to the public. Individuals who wish to attend should inform Ms. Charlene Cardwell, Secretary to the Division Director, Environmental Sciences, by telephone, 202/632-4274, or by mail, Rm. 308, National Science Foundation, Washington, D.C. 20550, prior to the meeting.

For further information concerning this Panel, please contact Dr. A. P. Crary, Division Director, Environmental Sciences, at the above address. Summary minutes relative to the open portion of this meeting may be obtained from the Management Analysis Office, Rm. K-720, 1800 G Street, NW., Washington, D.C. 20550.

R. GAIL ANDERSON,
Acting Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-298; Operating License DPR-46]

COOPER NUCLEAR STATION

Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has considered the issuance of changes to the Environmental Technical Specifications Appendix B of Operating License No. DPR-46. These changes would authorize the Nebraska Public Power District (the licensee) to operate the Cooper Nuclear Station with an increased temperature across the condensers during thermal plume mapping studies and periods when ice control is required; and include revisions to administrative controls to reflect current Regulatory practice.

The U.S. Nuclear Regulatory Commission, Division of Reactor Licensing, has prepared an environmental impact appraisal for the proposed change to the Environmental Technical Specifications Appendix B, of License No. DPR-46, Cooper Nuclear Station, described above: On the basis of this appraisal, we have concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the proposed action. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and the Auburn Public Library, 1118-15th Street, Auburn, Nebraska 68305.

Dated at Rockville, Maryland, this 27th day of January, 1975.

For the Nuclear Regulatory Commission.

JAN A. NORRIS,
Acting Chief, Environmental Projects Branch 4, Division of Reactor Licensing.

[FR Doc.75-3061 Filed 1-31-75;8:45 am]

[Docket No. 50-298]

NEBRASKA PUBLIC POWER DISTRICT

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 10 to Facility Operating License No. DPR-46 issued to Nebraska Public Power District which revised Appendix B, Environmental Technical Specifications for operation of the Cooper Nuclear Station, located in Nemaha County, Nebraska. The amendment is effective as of its date of issuance.

The amendment permits modification to the Environmental Technical Specification, Maximum ΔT Across Condenser, to provide operational flexibility during thermal plume mapping studies and during periods when a portion of the condenser discharge is recirculated for ice control. In addition, administrative controls have been revised to reflect current regulatory practice.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated January 27, 1975, (2) Amendment No. 10 to License No. DPR-46, with any attachments, and (3) the Commission's related Negative Declaration with supporting Environmental Impact Appraisal, issued concurrently with this notice. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and the Auburn Public Library, 1118-15th Street, Auburn, Nebraska 68305.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

[Docket No. 50-255]

CONSUMERS POWER CO.

Consideration of Proposed Amendment to Provisional Operating License

The Nuclear Regulatory Commission (the Commission) is considering an amendment, as proposed by the licensee, to Provisional Operating License No. DPR-20 issued to the Consumers Power Company (the licensee) for operation of the Palisades Plant (the facility) located in Covert Township, Van Buren County, Michigan.

The present license requires that at the end of no more than 90 effective full power days or no more than 6 calendar months from the date of initial criticality after the August 1973 shutdown (which was achieved on September 5, 1974), whichever occurs first, an inspection of the steam generator tubes be conducted in accordnace with Regulatory Guide 1.83, "Inservice Inspection of Pressurized Water Reactor Steam Generator Tubes" (issued June 1974), as that guide applies to inspections after the baseline inspection.

The proposed amendment would delete the calendar time provision of 6 months for this inspection, so that the Regulatory Guide 1.83 inspection will not be required by March 5, 1975. The requirement to conduct this inspection at the end of no more than 90 effective full power days of operation following September 5, 1974, would be retained in its present form. The amendment is proposed by the licensee's application for amendment dated January 23, 1975.

The Commission has determined, pursuant to section 189 of the Atomic Energy Act of 1954, as amended (the Act), that thirty days' notice of the proposed amendment is required. Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Act and the Commission's regulations.

On or before March 5, 1975, any person whose interest may be affected by the proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714 and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by March 5, 1975. A copy of the petition and/or request for a hearing should be sent to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and Judd L. Bacon, Senior Attorney, Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201 and R. Rex Renfrow, III, Esquire, Isham, Lincoln & Beale, One First National Plaza, Chicago, Illinois 60670, attorneys for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated January 23, 1975, and the licensee's inspection report dated January 3, 1975. Also related to this action are the following: (1) The Commission's Safety Evaluation dated August 30, 1974, issued in connection with Amendment No. 10 to the operating license dated August 30, 1974, which was issued in response to the licensee's application for amendment dated August 20, 1974, and its letter to the Directorate of Licensing dated August 28, 1974, requesting interim Technical Specifications; and (2) the Commission's Safety Evaluation dated November 27, 1974, issued in connection with Amendment No. 11 to the operating license dated November 27, 1974, which was issued in response to the licensee's August 20, 1974 application for amendment as supplemented November 7, 1974. All of the above documents are available for inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Michigan. 49006. Copies of any license amendment, related Safety Evaluation, and attachments, when issued, may be inspected at the above locations. A copy of any license amendment and the related Safety Evaluation and attachments, when issued, may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 30th day of January 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch #1, Division of Reactor Licensing.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 01/28/75 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

DEPARTMENT OF LABOR

Office of the Secretary

PPG INDUSTRIES, INC.

Certification of Eligibility to Apply for Adjustment Assistance

Under date of December 13, 1974, a petition requesting certification of eligibility to apply for adjustment assistance was filed with the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, by the United Glass and Ceramic Workers of North America, AFL-CIO, and by the Window Glass Cutters League of America, AFL-CIO, on behalf of workers and former workers of the Mt. Vernon, Ohio plant of PPG Industries, Inc., Pittsburgh, Pennsylvania. The request for certification was made under Proclamation 3967 (Adjustment of Duties on Certain Sheet Glass) of February 27, 1970. In that proclamation the President, among other things, acted to provide under section 302(a)(3) with respect to the sheet glass industry that its workers may request the Secretary of Labor for certifications of eligibility to apply for adjustment assistance under Chapter 3, Title III, of the Trade Expansion Act of 1962.

The Act, section 302(b)(2), provides that the Secretary of Labor shall certify as eligible to apply for adjustment assistance under Chapter 3 any group of workers in an industry with respect to which the President has acted under section 302(a)(3), upon a showing by such group of workers to the satisfaction of the Secretary of Labor that the increased imports (which the Tariff Commission has determined to result from concessions granted under trade agreements) have caused or threaten to cause unemployment or underemployment of a significant number or proportion of workers of such workers' firm or subdivision thereof. The same degree of causal connection is applicable here as under the tariff adjustment and other adjustment assistance provisions; that is, the increased imports have been the major factor.

The Director, Office of Foreign Economic Policy, upon receipt of the December 13, 1974 petition, instituted an investigation (Notice of Delegation of Authority and Notice of Investigation 34 FR 18342, 37 FR 2472, 39 FR 44293, 29 CFR 90.11). After that, the Director made a recommendation to me relating to the matter of certification. In the recommendation she noted that a significant number or proportion of the workers of PPG's Mt. Vernon plant became unemployed or underemployed when the plant began to curtail production in June 1974. She further noted that imports of sheet glass of the types produced at the Mt. Vernon plant decreased substantially from prior levels during 1973 and the first nine months of 1974. The primary cause of production cutbacks and associated layoffs at the plant was the decline in domestic building construction. Residential housing starts in the United States declined significantly from 1972 to 1973, and fell sharply in the first nine months of 1974 compared to the first nine months of 1973. A major portion of the sheet glass produced at the Mt. Vernon plant is used in building construction. Another cause of the production and employment declines was the increased competition which the company faced from float glass in the window glass market. Float glass is a higher quality glass than sheet glass and can be produced in window glass thicknesses at about the same cost as sheet glass. PPG's production of float glass increased substantially from 1971 to 1973.

After due consideration, I have concluded that increased imports of sheet glass were not the major factor causing the unemployment or underemployment of the workers at the Mt. Vernon, Ohio plant of PPG Industries, Inc., Pittsburgh, Pennsylvania. Accordingly, I make no certification of eligibility to apply for adjustment assistance.

Signed at Washington, D.C. this 28th day of January 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

STATES OF ALABAMA, ARIZONA, ARKANSAS, CONNECTICUT AND PENNSYLVANIA

Availability of Extended Unemployment Compensation and Federal Supplemental Benefits

The unemployment compensation laws of the States of Alabama, Arizona, Arkansas, Connecticut, and Pennsylvania establish programs for the payment of extended unemployment compensation in accordance with the Federal-State Extended Unemployment Compensation of 1970, 84 Stat. 708. Extended unemployment compensation is payable under these programs to unemployed individuals who have exhausted their rights to regular unemployment compensation during an extended benefit period which begins and ends according to indicators of insured unemployment as set forth in the law.

In addition, the Emergency Unemployment Compensation Act of 1974, Pub. L. 93-572, provides for further extended benefits (referred to herein as Federal Supplemental Benefits) to unemployed individuals who have exhausted

XUM
V40-123
FEB 3 75
XUM

their rights to regular unemployment compensation and extended unemployment compensation (or are not entitled to extended unemployment compensation because of the ending of their eligibility periods) in States which have entered into an agreement with the Secretary of Labor of the United States pursuant to the Act. Federal Supplemental Benefits are payable under the Act during a Federal Supplemental Benefit Period which begins and ends according to indicators in the law which are the same as the indicators for extended benefit periods under the Federal-State Extended Unemployment Compensation Act of 1970.

In accordance with those laws the following determinations of "on" indicators have been made, and the beginning dates of extended benefit periods and Federal Supplemental Benefits Periods are announced as follows:

Alabama: Tom J. Ventress, Director of the State of Alabama Department of Industrial Relations, has determined that there was a State "on" indicator in Alabama for the week ending on December 28, 1974, and an extended benefit period therefore commenced in that State with the week beginning on January 12, 1975. Similarly, I have determined that there was a Federal Supplemental Benefits "on" indicator in Alabama for the week ending on December 28, 1974, and a Federal Supplemental Benefit Period therefore commenced in that State with the week beginning on January 12, 1975.

Arizona: William J. Mayo, Director of the State of Arizona Department of Economic Security, has determined that there was a State "on" indicator in Arizona for the week ending on December 21, 1974, and an extended benefit period therefore commenced in that State with the week beginning on January 5, 1975. Similarly, I have determined that there was a Federal Supplemental Benefit "on" indicator in Arizona for the week ending on December 21, 1974, and a Federal Supplemental Benefit Period therefore commenced in that State with the week beginning on January 5, 1975.

Arkansas: Henry L. McHenry, Acting Administrator of the State of Arkansas Employment Security Division, has determined that there was a State "on" indicator in Arkansas for the week ending on December 14, 1974, and an extended benefit period therefore commenced in that State with the week beginning on December 29, 1974. Similarly, I have determined that there was a Federal Supplemental Benefit "on" indicator in Arkansas for the week ending on December 21, 1974, and a Federal Supplemental Benefit Period therefore commenced in that State with the week beginning on January 5, 1975.

Connecticut: Jack A. Fusari, Administrator of the State of Connecticut Labor Department—Employment Security Division, has determined that there was a State "on" indicator in Connecticut for the week ending on December 7, 1974, and an extended benefit period therefore commenced in that State with the week beginning on December 22, 1974. Similarly, I have determined that there was a Federal Supplemental Benefit "on" indicator in Connecticut for the week ending on December 21, 1974, and a Federal Supplemental Benefit Period therefore commenced in that State with the week beginning on January 5, 1975, as previously announced in an earlier notice published at 40 FR 3524.

Pennsylvania: John M. Clark, Executive Director of the Bureau of Employment Security of the Commonwealth of Pennsylvania Department of Labor and Industry, has determined that there was a State "on" indicator for the week ending on December 14, 1974, and an extended benefit period therefore commenced in Pennsylvania with the week beginning on December 29, 1974. Similarly, I have determined that there was a Federal Supplemental Benefit "on" indicator in Pennsylvania for the week ending on December 21, 1974, and a Federal Supplemental Benefit Period therefore commenced in Pennsylvania with the week beginning on January 5, 1975, as previously announced in an earlier notice published at 40 FR 3524.

Persons who believe they may be entitled to extended unemployment compensation under the laws of those States, or may be entitled to Federal Supplemental Benefits under the Emergency Unemployment Compensation Act of 1974, or who wish to inquire about their rights under those laws, should contact the State employment security office or unemployment insurance claims office in their locality.

Signed at Washington, D.C. this 28th day of January, 1975.

PETER J. BRENNAN,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice No. 687]

ASSIGNMENT OF HEARINGS

JANUARY 29, 1975.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 116142 Sub 77, M. Bruenger & Co., Inc., now being assigned April 7, 1975 (3 days), at Kansas City, Mo., in a hearing room to be designated later.

MC 107496 Sub 965, Ruan Transport Corporation, now being assigned April 10, 1975 (2 days), at Kansas City, Mo., in a hearing room to be designated later.

MC 40978 Sub 21, Chair City Motor Express Company, now assigned March 11, 1975, at Columbus, Ohio, is cancelled and the application is dismissed.

MC 381 Sub 5, Genova Express Lines, Inc., now being assigned April 1, 1975, at the offices of the Interstate Commerce Commission, Washington, D.C.

MC 139360, Raemarc, Inc., now being assigned April 1, 1975, at Chicago, Ill. (1 day), in a hearing room to be later designated.

MC 112801 Sub 160, Transport Service Co., a Corporation, now being assigned April 2, 1975 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC 134740 Sub 4, Jack Baulos, Inc., now being assigned April 3, 1975 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC 139733 Sub 2, J. L. Hutchison, DBA J. L. Hutchison, now being assigned April 4, 1975 (1 day), in a hearing room to be later designated, Chicago, Ill.

MC 105269 Sub 57, Graff Trucking Company, Inc., now being assigned April 7, 1975 (1 week), at Chicago, Ill., in a hearing room to be later designated.

MC-F-12150, Motor Cargo — Purchase — Wholesale Services, Inc., dba R & R Transportation Company and MC 114818 Sub 15, Motor Cargo, Continued to February 18, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-107295 Sub 723, PRE-FAB TRANSIT CO., now being assigned April 2, 1975, at the offices of the Interstate Commerce Commission, Washington, D.C.

MC-C-8422, International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America v. Pilot Freight Carriers Inc., now being assigned April 1, 1975, at the offices of the Interstate Commerce Commission, Washington, D.C.

MC-F-12321, Akers Motor Lines, Inc.—Control—Central Motor Lines, Inc., now being assigned April 9, 1975, at the offices of the Interstate Commerce Commission, Washington, D.C.

MC 13900 Sub 18, Midwest Haulers, Inc., now being assigned continued hearing February 19, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 22229 Sub 82, Terminal Transport Co., Inc., now being assigned continued hearing February 20, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

Ex Parte No. 307, Investigation into the Distribution and Manipulation of Rail Rolling Stock to Depress Prices on Certain Grain Shipments for Export, now being assigned for Pre-hearing Conference on March 5, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-F-12249, Briggs Transportation Co.—Purchase—Burlington Chicago, Cartages, Inc., continued to March 11, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-3076 Filed 1-31-75;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

JANUARY 29, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42931—*Sand, Gravel, Crushed Stone, Etc., and Related Articles Between Points in Southern Territory.* Filed by M. B. Hart, Jr., Agent, (No. A6340), for interested rail carriers. Rates on sand, gravel, crushed stone, limestone and related articles, in carloads, as described in the application, between points in southern territory.

Grounds for relief—Short-line distance formula and rate relationship.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 11]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 24, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67, (49 C.F.R. 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is one file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 107496 (Sub-No. 984TA), filed January 17, 1975. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Weed killing compounds, liquid* (in bulk), from Lafayette, Ind., to points in Illinois and Iowa, for 180 days. Supporting shipper: Eli Lilly and Company, P.O. Box 618, Indianapolis, Ind. 46206. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Bldg., Des Moines, Iowa 50309.

No. MC 111397 (Sub-No. 111TA) (Correction), filed January 9, 1975, published in the FEDERAL REGISTER issue of January 23, 1975, and republished as corrected this issue. Applicant: DAVIS TRANSPORT, INC., 1345 South 4th Street, Paducah, Ky. 42001. Applicant's representative: H. S. Melton, Jr., P.O. Box 1407, Avondale Station, Paducah, Ky. 42001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Radioactive waste materials*, requiring special disposition, and *non-radioactive waste materials*, requiring special disposition for ecological purposes; from the cities of San Francisco and Eureka, and the counties of San Francisco, Alameda, Solano, Contra Costa, Santa Clara, San Mateo, Sacramento, San Diego, Los Angeles, and Orange, Calif., Cimarron, Okla., Albuquerque, N. Mex., to burial site of Nuclear Engineering Company, near Beatty, Nev., (2) *Containers*, used in the transportation of the above materials, between points named in (1), for 180 days. Supporting shipper: Nuclear Engineering Company, Inc., 9200 Shelbyville Road, P.O. Box 7246, Louisville, Ky. 40207. Send protests to: Floyd A. Johnson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 435 Federal Office Bldg., 167 North Main Street, Memphis, Tenn. 38103.

NOTE.—The purpose of this republication is to add part (2) to the commodity description, which was previously omitted.

No. MC 119792 (Sub-No. 48TA) (Correction), Filed December 6, 1974, published in the FEDERAL REGISTER issue of December 18, 1974, and republished as corrected this issue. Applicant CHICAGO SOUTHERN TRANSPORTATION CO., INC., 3215 South Hamilton Ave., Chicago, Ill. 60608. Applicant's representative: Acelrod, Goodman, Steiner & Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Potatoes and frozen potato products*, from the plantsite and storage facilities of J. R. Simplot Company, Inc., at Crookston and Minneapolis, Minn., to points in Kentucky, Tennessee, Alabama, Mississippi, Louisiana, North Carolina, South Carolina, Georgia, Virginia, and Florida, for 180 days. Supporting shipper: Bill R. Daniels, General Manager, J. R. Simplot Company, Inc., P.O. Box 618, Crookston, Minn. 57616. Send protests to: Robert G. Anderson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

NOTE.—The purpose of this republication is to correct the name of the applicant.

No. MC 119798 (Sub-No. 2TA), filed January 17, 1975. Applicant: SOUTHWEST SUPPLY, INC., 350 Roanoke Street, Bluefield, W. Va. 24701. Applicant's representative: John M. Friedman, 2930 Putnam Avenue, Hurricane, W. Va. 25526. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, requiring protective service, from the warehouse facilities of Southwest Supply, Inc., Bluefield, W. Va., to points in Dickenson, Lee, Russell, Scott, Washington, and Wise Counties, Va., for 180 days. Supporting shipper: Borden, Inc., 180 East Broad Street, Columbus, Ohio 43215. Send protests to: H. R. White, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 3108 Federal Office Bldg., 500 Quarrier Street, Charleston, W. Va. 25301.

No. MC 120950 (Sub-No. 1TA), filed January 16, 1975. Applicant: AMERICAN MOVING & STORAGE COMPANY, INC., 2911 Day Street, Montgomery, Ala. 36108. Applicant's representative: Alan F. Wohlstetter, Denning & Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in the Counties of Autauga, Bullock, Butler, Chilton, Coosa, Crenshaw, Elmore, Lowndes, Macon, Montgomery, Perry, Tallapoosa, and Wilcox, State of Alabama. Restriction: Restricted to the transportation of traffic having a prior or subsequent movement, in containers, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating and decontainerization of such traffic for 180 days. Supporting shippers: Columbia Export Packers, Inc., 19032 South Vermont Avenue, Torrance, Calif. 90502. Department of Defense, Regulatory Law Office, Office of the Judge Advocate General, Department of the Army, Washington, D.C. 20310. DeWitt Freight Forwarding, 6060 North Figueroa Street, Los Angeles, Calif. 90042. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1616, 2121 Bldg., Birmingham, Ala. 35203.

No. MC 123255 (Sub-No. 46TA), filed January 20, 1975. Applicant: B & L MOTOR FREIGHT, INC., 140 Everett Avenue, Newark, Ohio 43055. Applicant's representative: C. F. Schnee, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fencing, aluminum or steel*, separate or combined, and *parts and accessories*, necessary for installation thereof, from the plantsite and warehouse facilities of Anchor Post Products, Inc., located at or near Fremont, Ind., to Akron, Cleveland, Columbus, Cincinnati, Dayton, and Toledo, Ohio, Detroit, Mich., Baltimore, Md., Chicago and Peoria, Ill., Pittsburgh, Pa., and Buffalo, N.Y., and points in their commercial zones. Materials, equipment, and supplies used in the manufacture and shipping of fencing, aluminum or steel, separate or combined, and parts and accessories necessary for installation thereof, from Akron, Cleveland, Columbus, Cincinnati, Dayton, and Toledo, Ohio, Detroit, Mich., Baltimore, Md., Chicago and Peoria, Ill., Pittsburgh, Pa., and Buffalo, N.Y., and points in their commercial zones, to the plantsite and warehouse facilities of Anchor Post Products, Inc., located at or near Fremont, Ind. Supporting shipper: Anchor Post Products, Inc., P.O. Box 703, Fremont, Ind. 46737. Send protests to: Frank L. Calvary, District Supervisor, Interstate Commerce Commission, 220 Federal

TRANSPORT STATISTICS

Proposed Revision

On page 40337-40338 of the FEDERAL REGISTER of November 15, 1974, there was published a notice of proposed revision to transport statistics. The revision provides for the exclusion of all but the 100 largest Class I motor carriers of property listed in Table 17, Part 7, Transport Statistics in the United States. The statistical information from these carriers will be more useful and offer a uniform set of revenues and expenses in a year to year tabulation. The efficiency gain will not be at the expense of the balance of the deleted Class I motor carriers of property. The statistical data for the eliminated carriers will still be available to interested parties on special computer printouts. Interested persons were given 15 days in which to submit comments, suggestions, or objections regarding the proposed revision.

No written objections have been received and the proposed revision is hereby adopted without change and is set forth below.

Effective Date.—This ICC revision notice is effective January 23, 1975.

Approved January 23, 1975.

Issued in Washington, D.C. on January 27, 1975.

[SEAL] JOHN A. GRADY, *Director, Bureau of Accounts.*

1. Table 17 of Part 7, Motor Carriers, Transport Statistics in the United States is revised to the limit of the 100 largest motor carriers of property.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

JANUARY 29, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065 (a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission within 10 days from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 31462 (Sub-No. E1), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between Phoenix City, Ark., on the one hand, and, on the other, Blytheville, Ala. The purpose of this filing is to eliminate the gateways of (1) any point in Missouri within 25 miles of Cairo, Ill.; (2) any point in Georgia; and (3) any point in Tennessee.

No. MC 31462 (Sub-No. E2), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Colorado on and north of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 40 to junction Colorado Highway 94, thence along Colorado Highway 94 to Colorado Springs, Colo., thence along U.S. Highway 24 to junction U.S. Highway 6, thence along U.S. Highway 6 to Grand Junction, Colo., thence along U.S. Highway 50 to the Colorado-Utah State line, on the one hand, and, on the other, points in Alabama. The purpose of this filing is to eliminate the gateways of (1) any point in Georgia; (2) any point in Tennessee; (3) any point in Missouri within 25 miles of Cairo, Ill.; and (4) any point within 30 miles thereof.

No. MC 31462 (Sub-No. E3), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Florida on, east, and south of a line beginning at the Florida-Georgia State line, thence along U.S. Highway 90 to junction Florida Highway 12, thence along Florida Highway 12 to junction Florida Highway 65, thence along Florida Highway 65 to junction Florida Highway 67, thence along Florida Highway 67 to Carrabelle, Fla., on the one hand, and, on the other, points in Alabama. The purpose of this filing is to eliminate the gateway of any point in Georgia.

No. MC 31462 (Sub-No. E4), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Illinois on and north of a line beginning at the Illinois-Indiana State line, thence along Illinois Highway 114 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 165, thence along Illinois Highway 165 to junction Illinois Highway 9, thence along Illinois Highway 9 to junction Illinois Highway 121, thence along Illinois Highway 121 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Illinois Highway 78, thence along Illinois Highway 78 to junction Illinois Highway 125, thence along Illinois Highway 125 to Beardstown, Ill., thence along U.S. Highway 67 to junction Illinois Highway 103, thence along Illinois Highway 103 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Missouri State line, and points in that part of Alabama on and east of a line beginning at the Tennessee-Alabama State line, thence along Interstate Highway 65 to junction Alabama County Highway 69, thence along Alabama Highway 69 to junction Alabama County Highway 77, thence along Alabama County Highway 77 to junction Alabama County Highway 22, thence along Alabama County Highway 22 to junction U.S. Highway 78, thence along U.S. Highway 78 to Birmingham, Ala., thence along U.S. Highway 11 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction Alabama County Highway 1, thence along Alabama County Highway 1 to junction Alabama County Highway 35, thence along Alabama County Highway 35 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Alabama County Highway 23, thence along Alabama County Highway 23 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction Alabama Highway 59, thence along Alabama Highway 59 to junction Alabama Highway 225, thence along Alabama Highway 225 to junction Interstate Highway 10, thence along Interstate Highway 10 to Mobile, Ala., thence along Alabama Highway 163 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of (1) any point in Georgia; (2) any point in Tennessee; and (3) Cairo, Ill., or any point within 25 miles thereof.

No. MC 31462 (Sub-No. E6), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points

XUM V40123 FEB 3 75 XUM

in that part of Alabama on and east of a line beginning at the Alabama-Tennessee State line, thence along Interstate Highway 59 to junction U.S. Highway 43, thence along U.S. Highway 43 to Mobile, Ala., on the one hand, and, on the other, points in Iowa. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point in Illinois within 25 miles thereof; (2) any point in Georgia; and (3) any point in Tennessee.

No. MC 31462 (Sub-No. E7), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Alabama on and east of a line beginning at the Alabama-Florida State line, thence along Alabama Highway 167 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Alabama Highway 167, thence along Alabama Highway 167 to junction U.S. Highway 231, thence along U.S. Highway 231 to Sylacauga, Ala., thence along Alternate U.S. Highway 231 to junction Alabama Highway 77, thence along Alabama Highway 77 to junction Interstate Highway 59, thence along Interstate Highway 59 to the Alabama-Georgia State line, on the one hand, and, on the other, points in Kansas. The purpose of this filing is to eliminate the gateways of (1) any point in Missouri within 25 miles of Cairo, Ill.; (2) any point in Georgia; and (3) any point in Tennessee.

No. MC 31462 (Sub-No. E8), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Alabama on, east, and south of a line beginning at the Alabama-Georgia State line, thence along U.S. Highway 278 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction Alabama Highway 49, thence along Alabama Highway 49 to junction Alabama Highway 120, thence along Alabama Highway 120 to junction Alabama Highway 81, thence along Alabama Highway 81 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Alabama Highway 239, thence along Alabama Highway 239 to junction Alabama County Highway 27, thence along Alabama County Highway 27 to junction Alabama Highway 51, thence along Alabama Highway 51 to junction Alabama Highway 10, thence along Alabama Highway 10 to junction Alabama County Highway 69, thence along Alabama County Highway 69 to junction Alabama Highway 27, thence along Alabama Highway 27 to junction Alabama County Highway 67, thence along Alabama County Highway 67 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line, on the one hand, and, on the other, points in the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateways of (1) any point in Georgia; (2) any point in Tennessee; (3) Burlington, Iowa, or any point within 50 miles thereof; and (4) Cairo, Ill., or any point in Illinois within 25 miles thereof.

No. MC 31462 (Sub-No. E10) filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Alabama on, east and south of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 31 to junction Alabama Highway 24, thence along Alabama Highway 24 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in Minnesota. The purpose of this filing is to eliminate the gateway of (1) any point in Missouri within 25 miles of Cairo, Ill., (2) Burlington, Iowa, or any point within 50 miles thereof; (3) any point in Tennessee; and (4) any point in Georgia.

No. MC 31462 (Sub-No. E11), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Alabama, on the one hand, and, on the other, points in Montana. The purpose of this filing is to eliminate the gateways of (1) Williston, N. Dak., or any point in North Dakota within 200 miles thereof; (2) Burlington, Iowa, or any point within 50 miles thereof; (3) Alden, Minn., or any point in Minnesota within 35 miles thereof; (4) Cairo, Ill., or any point within 25 miles thereof; (5) any point in Georgia; and (6) any point in Tennessee.

No. MC 31462 (Sub-No. E12), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Alabama on, east, and south of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 31 to junction Alabama Highway 24, thence along Alabama Highway 24 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in that part of Nebraska on and north of a line beginning at the Nebraska-Iowa State line, thence along Nebraska Highway 51 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Nebraska Highway 32, thence along Nebraska Highway 32 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction U.S. Highway 30, thence along U.S. Highway 30 to Grand Island, thence along U.S. Highway 281 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Nebraska Highway 61, thence along Nebraska Highway 61 to the Nebraska-Kansas State line. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point in Illinois within 25 miles thereof; (2) any point in Georgia; and (3) any point in Tennessee.

No. MC 31462 (Sub-No. E13), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Alabama, on the one hand, and, on the other, points in North Dakota. The purpose of this filing is to eliminate the gateways of (1) any point in Georgia; (2) any point in Tennessee; (3) any point in Missouri within 25 miles of Cairo, Ill.; (4) Burlington, Iowa, or any point within 50 miles thereof; and (5) Alden, Minn., or any point in Minnesota within 35 miles thereof.

No. MC 31462 (Sub-No. E14), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Alabama, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of any point in Georgia.

No. MC 31462 (Sub-No. E15), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Alabama on and east of a line beginning at the Alabama-Georgia State line, thence along Alabama County Highway 56 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction Interstate Highway 59, thence along Interstate Highway 59 to junction Alabama Highway 68, thence along Alabama Highway 68 to junction Alabama County Highway 43, thence along Alabama County Highway 43 to Alabama Highway 75, thence along Alabama Highway 75 to junction Alabama Highway 35, thence along Alabama Highway 35 to junction U.S. Highway 72, thence along U.S. Highway 72 to the Alabama-Tennessee State line, and points in that part of Oklahoma on and north of a line beginning at the Oklahoma-Missouri State line, thence along U.S. Highway 60 to junction Interstate Highway 44, thence along Interstate Highway 44 to Oklahoma City, Okla., thence along Oklahoma Highway 152 to junction Oklahoma Highway 58, thence along Oklahoma Highway 58 to junction Oklahoma Highway 9, thence along Oklahoma Highway 9 to junction Oklahoma Highway 54, thence along Oklahoma Highway 54 to junction Oklahoma Highway 19, thence along Oklahoma Highway 19 to junction U.S. Highway 283, thence along U.S. Highway 283 to Altus, Okla., thence along U.S. Highway 62 to junction Oklahoma Highway 44, thence along Oklahoma Highway 44 to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateways of (1) any point in Missouri within 25 miles of Cairo, Ill.; (2) any point in Tennessee; and (3) any point in Georgia.

No. MC 31462 (Sub-No. E16), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Alabama, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateway of any point in Georgia.

No. MC 61403 (Sub-No E7), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, between points in Illinois, on the one hand, and, on the other, points in North Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending along North Carolina Highway 107 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction North Carolina Highway 209, thence along North Carolina Highway 209 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction North Carolina Highway 208, thence along North Carolina Highway 208 to the North Carolina-Tennessee State line, and, points in South Carolina. The purpose of this filing is to eliminate the gateway of Kingsport, Tenn.

No. MC 61403 (Sub-No. E12), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, (1) between points in Missouri, on and north of a line beginning at the Mississippi River and extending along U.S. Highway 60 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Missouri Highway 21, thence along Missouri Highway 21 to the Missouri-Arkansas State line, except St. Louis, on the one hand, and, on the other, points in New Jersey, points in North Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 276 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction unnumbered highway, thence along unnumbered highway to junction Interstate Highway 40, thence along Interstate Highway 40 to the North Carolina-Tennessee State line, and to points in South Carolina, and Virginia, and (2) from St. Louis, Mo., to points in Connecticut, Delaware, Maine, points in Maryland on and east of U.S. Highway 15, points in Massachusetts, New Hampshire and Rhode Island. The purpose of this filing is to eliminate the gateways of Kingsport, Tenn., and points in Virginia.

No. MC 61403 (Sub-No. E13), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Chemicals*, in bulk, in tank vehicles, (a) between points in New Jersey, on the one hand, and, on the other, points in Tennessee and Texas (*Kingsport, Tenn.), (b) between points in New Jersey west of a line beginning at the Delaware River and extending along unnumbered highway to junction U.S. Highway 206, thence along U.S. Highway 206 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction New Jersey Highway 54, thence along New Jersey Highway 54 to junction New Jersey Highway 47, thence along New Jersey Highway 47 to junction unnumbered highway near Delmont, thence along unnumbered highway to Delaware Bay, on the one hand, and, on the other, points in South Carolina on and west of a line beginning at the South Carolina-North Carolina State line and extending along U.S. Highway 321 to junction South Carolina Highway 121, thence along South Carolina Highway 121 to junction U.S. Highway 76, thence along U.S. Highway 76 to junction South Carolina Highway 6, thence along South Carolina Highway 6 to junction U.S. Highway 321, thence along U.S. Highway 321 to the South Carolina-Georgia State line (*Kingsport, Tenn.), (b) between points in New Jersey on and east of a line beginning at the Delaware River and extending along unnumbered highway to junction New Jersey Highway 545, thence along New Jersey Highway 545 to junction U.S. Highway 206, thence along U.S. Highway 206 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction New Jersey Highway 54, thence along New Jersey Highway 54 to junction New Jersey Highway 47, thence along New Jersey Highway 47 to junction unnumbered highway near Delmont, thence along unnumbered highway to the Delaware Bay, on the one hand, and, on the other, points in South Carolina on and west of a line beginning at the South Carolina-North Carolina State line and extending along U.S. Highway 321 to junction Interstate Highway 26, thence along Interstate Highway 26 to junction U.S. Highway 601, thence along U.S. Highway 601 to junction Alternate U.S. Highway 17, thence along Alternate U.S. Highway 17 to the South Carolina-Georgia State line, (*Kingsport, Tenn.), (c) from points in New Jersey to points in Florida on and west of U.S. Highway 331, and Oklahoma, (*Kingsport, Tenn., and Sheffield, Ala.), (2) *lacquers and varnishes*, in bulk, in tank vehicles, from Newark, N.J., to points in Florida on and south of Florida Highway 40, (*Tampa, Fla.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 61403 (Sub-No. E15), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Chemicals*, in bulk, in tank vehicles, (a) between points in North Carolina on and east of U.S. Highway 441, on the one hand, and, on the other, points in Texas and Wisconsin, (*Kingsport, Tenn.), (b) between points in North Carolina on and west of U.S. Highway 221, on the one hand, and, on the other, points in Pennsylvania, (*Kingsport, Tenn.), (c) between points in that part of North Carolina bounded by a line beginning at the North Carolina-Tennessee State line and extending along U.S. Highway 421 to junction North Carolina Highway 16, thence along North Carolina Highway 16 to the North Carolina-South Carolina State line, thence along the North Carolina-South Carolina State line to U.S. Highway 221, thence along U.S. Highway 221 to junction North Carolina Highway 194, thence along North Carolina Highway 194 to junction U.S. Highway 19E, thence along U.S. Highway 19E to the Tennessee-North Carolina State line, thence along the Tennessee-North Carolina State line to the point of beginning, on the one hand, and, on the other, points in Pennsylvania on and north of a line beginning at the Pennsylvania-Ohio State line and extending along Interstate Highway 80 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Pennsylvania-New York State line, (*Kingsport, Tenn.), (d) from points in North Carolina on and west of North Carolina Highway 16, to points in Connecticut, Maine, Massachusetts, New Hampshire, Vermont, and Rhode Island, (*Kingsport,

XUM
V40123
FEB 3 75
XUM

Tenn.), and (e) from points in North Carolina to points in Oklahoma, (*Kingsport, Tenn., and Sheffield, Ala.); and (2) *liquid chemicals*, in bulk, in tank, vehicles, (a) from points in North Carolina, to points in Colorado on and east of U.S. Highway 85, Iowa, Kansas, Nebraska, and points in North Dakota and South Dakota on and east of U.S. Highway 85, (*Kingsport, Tenn., and Marshall, Ill.), (b) from points in North Carolina on and west of a line beginning at the North Carolina-Tennessee State line and extending along U.S. Highway 321 to junction North Carolina Highway 16, thence along North Carolina Highway 16 to the North Carolina-South Carolina State line, to points in Kanawha County, W. Va., (*Elizabethton, Tenn.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 61403 (Sub-No. E16), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, (a) between points in Pennsylvania, on the one hand, and, on the other, points in Texas, (*Kingsport, Tenn.), (b) from points in Pennsylvania, to points in Florida on and west of U.S. Highway 331, (*Kingsport, Tenn., and Sheffield, Ala.), (c) from points in Pennsylvania on and east of U.S. Highway 219, to points in Oklahoma, (*Kingsport, Tenn., and Sheffield, Ala.), (d) between points in Pennsylvania, south, and west of a line beginning at the Tennessee-Kentucky State line and extending along U.S. Highway 231 to junction Tennessee Highway 99, thence along Tennessee Highway 99 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to junction Interstate Highway 40, thence along Interstate Highway 40 to the Tennessee-Arkansas State line, (*Kingsport, Tenn.), (e) between points in Pennsylvania on and east of U.S. Highway 219, on the one hand, and, on the other, points in Tennessee, (*Kingsport, Tenn.), (f) between points in Pennsylvania on and east of U.S. Highway 202, on the one hand, and, on the other, points in South Carolina on and west of South Carolina Highway 121, (*Kingsport, Tenn.), (g) between points in Pennsylvania which are both west of U.S. Highway 202, and east of U.S. Highway 219, on the one hand, and, on the other, points in South Carolina on and west of a line beginning at the South Carolina-North Carolina State line and extending along U.S. Highway 321 to junction Interstate Highway 26, thence along Interstate Highway 26 to junction U.S. Highway 601, thence along U.S. Highway 601 to junction Alternate U.S. Highway 17, thence along Alternate U.S. Highway 17 to the South Carolina-Georgia State line, (*Kingsport, Tenn.), (h) between points in Pennsylvania west of U.S. Highway 219, on the one hand, and, on the other, points in South Carolina, (*Kingsport, Tenn.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 61403 (Sub-No. E20), filed May 31, 1974. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, (a) between points in Arkansas on, south, and east, of a line beginning at the Arkansas-Tennessee State line and extending along Interstate Highway 40 to junction U.S. Highway 167, thence along U.S. Highway 167 to the Arkansas-Louisiana State line, on the one hand, and, on the other, points in Ohio on and east of a line beginning at the Ohio-West Virginia State line and extending along U.S. Highway 33 to junction Ohio Highway 13, thence along Ohio Highway 13 to junction Ohio Highway 78, thence along Ohio Highway 78 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction Ohio Highway 800, thence along Ohio Highway 800 to junction Ohio Highway 183, thence along Ohio Highway 183 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction Ohio Highway 534, thence along Ohio Highway 534 to Lake Erie (*Kingsport, Tenn.), (b) between points in Arkansas on and north of a line beginning at the Arkansas-Tennessee State line and extending along Interstate Highway 40 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Arkansas-Texas State line, on the one hand, and, on the other, points in South Carolina on and east of U.S. Highway 25 (*Kingsport, Tenn.), (c) between points in Arkansas, on the one hand, and, on the other, points in Tennessee on and east of Tennessee Highway 70, and points in Kentucky on and east of a line beginning at the Kentucky-Virginia State line and extending along U.S. Highway 421 to Kentucky Highway 80, thence along Kentucky Highway 80 to junction Kentucky Highway 15, thence along Kentucky Highway 15 to junction Kentucky Highway 30, thence along Kentucky Highway 30 to junction Kentucky Highway 7, thence along Kentucky Highway 7 to the Kentucky-Ohio State line (*Kingsport, Tenn.), and (d) between points in Arkansas on and south of U.S. Highway 64, on the one hand, and, on the other, points in New York, Pennsylvania, and points in West Virginia on and east of a line beginning at the West Virginia-Ohio State line and extending along U.S. Highway 35 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Interstate Highway 77, thence along Interstate Highway 77 to the West Virginia-Virginia State line (*Kingsport, Tenn.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 78687 (Sub-No. E1), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flour*, from New York, N.Y., Newark, N.J., and points in New Jersey within three miles of New York, N.Y., to points in that part of New York on and west of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 12 to junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 87, thence along New York Highway 87 to the St. Lawrence River (except Buffalo and Syracuse). The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E2), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flour*, from Philadelphia, Pa., to points in that part of New York on and west of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 12 to junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 87, thence along New York Highway 87 to the St. Lawrence River (except Buffalo and Syracuse). The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E3), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty oil drums*, from New York, N.Y., Newark, N.J., and points in New Jersey within three miles of New York, to points in that part of New York on and west of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 12 to junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 87, thence along New York Highway 87 to the St. Lawrence River. (Except Buffalo and Syracuse). The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E4), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Butter*, from points in that part of New York (excluding Buffalo and Syracuse) on and west of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 12 to the junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 11 to junction New York Highway 87, thence along New York Highway 87 to the St. Lawrence River, to New York, N.Y., and points in that part of New Jersey east and south of a line beginning at the Perth Amboy, N.J., and extending along U.S. Highway 9, to junction U.S. Highway 1 thence along U.S. Highway 1 to junction New Jersey Highway 7, thence along New Jersey Highway 7 to junction New Jersey Highway 3, thence along New Jersey Highway 3 to junction New Jersey Highway 4, thence along New Jersey Highway 4 to the Hudson River. The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E5), filed June 4, 1974 Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Baked goods*, from New York, N.Y., Newark, N.J., and points in New Jersey within three miles of New York, N.Y., to points in that part of New York (excluding Buffalo and Syracuse) west of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 12 to the junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 87, thence along New York Highway 87 to the St. Lawrence River, to New York, N.Y., and points in that part of New Jersey east and south of a line beginning at the Perth Amboy, N.J., and extending along U.S. Highway 9, to junction U.S. Highway 1 thence along U.S. Highway 1 to junction New Jersey Highway 7, thence along New Jersey Highway 7 to junction New Jersey Highway 3, thence along New Jersey Highway 3 to junction New Jersey Highway 4, thence along New Jersey Highway 4 to the Hudson River. The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E6), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Baled rags*, from New York, N.Y., Newark, N.J., and points in New Jersey within three miles of New York, N.Y., to points in that part of New York on and west of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 12 to the junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 87, thence along New York Highway 87 to the St. Lawrence River (except Buffalo and Syracuse). The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E7), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, New York 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metal*, from points in Broome, Cortland, Onondaga, Ontario, Steuban, and Tompkins Counties, N.Y., to New York, N.Y., and points in that part of New Jersey east and south of a line beginning at the Atlantic Ocean and extending along U.S. Highway 9 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction New Jersey Highway 7, thence along New Jersey Highway 7 to junction New Jersey Highway 3, thence along New Jersey Highway 3 to junction New Jersey Highway 4, thence along New Jersey Highway 4 to the Hudson River. The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E8), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lead and Zinc scrap metals*, from New York, N.Y., and that part of New Jersey east and south of a line beginning at Perth Amboy, N.J., and extending along U.S. Highway 9 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction New Jersey Highway 7 to junction New Jersey Highway 3, thence along New Jersey Highway 3 to junction New Jersey Highway 4, thence along New Jersey Highway 4 to the Hudson River, to points in that part of New York (excluding Buffalo and Syracuse) west of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 12 to the junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 87, thence along New York Highway 87 to the St. Lawrence River. The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E9), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, from New York, N.Y., Newark, N.J., and those points in New Jersey within three miles of New York, N.Y., to points in that part of New York (excluding Buffalo and Syracuse) on and west of a line beginning at the New York-Pennsylvania State line, and extending along New York Highway 12 to junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 87, thence along New York Highway 87 to the St. Lawrence River. The purpose of this filing is to eliminate the gateway of Scranton, Pa.

No. MC 78687 (Sub-No. E10), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, and *salt products*, from the facilities of Morton Salt Company, Division of Morton International, Inc., at Milo Township, N.Y., to points in Ohio, Indiana, and the Lower Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Retsoff, N.Y.

No. MC 78687 (Sub-No. E11), filed June 4, 1974. Applicant: LOTT MOTOR LINES, INC., 118 Monell St., Penn Yan, N.Y. 14527. Applicant's representative: David C. Venable, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt* and *salt products*, from the facilities of Morton Salt Company, Division of Morton International Inc., at Milo Township, N.Y., to points in Delaware, Maryland, Virginia, West Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Myers, N.Y.

No. MC 95540 (Sub-No. E498), filed May 20, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd. NE., Atlanta, Ga. 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, except plywood, from Uhrichsville, Ohio, to points in South Carolina on and west of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 276 to its junction with Interstate Highway 26, thence along Interstate Highway 26 to junction with South Carolina Highway 14, thence along South Carolina Highway 14 to junction U.S. Highway 76, thence along U.S. Highway 76 to junction South Carolina Highway 56, thence along South Carolina Highway 56 to junction South Carolina Highway 39, thence along South Carolina Highway 39 to junction with U.S. Highway 178, thence along U.S. Highway 178 to junction South Carolina Highway 3, thence along South Carolina Highway 3 to its junction with South Carolina Highway 64, thence along South Carolina Highway 64 to its junction with U.S. Highway 17, thence along U.S. Highway 17 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateways of Knoxville, and Morristown, Tenn.

No. MC 106920 (Sub-No. E2), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLanchlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority

sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen sweet cream and frozen milk*, processed or unprocessed, from Elmira, N.Y., to points in Indiana southwest of a line beginning at the Michigan-Indiana State line and extending along Indiana Highway 19 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Indiana-Ohio State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E18), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLanchlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen dairy products*, as defined by the Commission, from Elmira, N.Y., to points in Alabama. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E26), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk, cream, and buttermilk* (except concentrated whole milk and concentrated skim milk), in bulk, in tank vehicles, from points in Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 8 to junction Minnesota Highway 101, thence along Minnesota Highway 101 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Wisconsin-Michigan State line, to points in Tennessee east of a line beginning at the Tennessee-Kentucky State line and extending along U.S. Highway 79 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to the Tennessee-Alabama State line, and west of a line beginning at the Tennessee-Kentucky State line and extending along U.S. Highway 231 to the Tennessee-Alabama State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E27), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk, cream, and buttermilk* (except concentrated whole milk and concentrated skim milk), in bulk, in tank vehicles, from points in Wisconsin to points in Florida and Georgia. The purpose of this filing is to eliminate the gateways of Drake, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E28), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk, cream, and buttermilk* (except concentrated whole milk and concentrated skim milk), in bulk, in tank vehicles, from points in Wisconsin on, north, and east of a line beginning at the Wisconsin-Illinois State line and extending along U.S. Highway 12 to junction Wisconsin Highway 89, thence along Wisconsin Highway 89 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 25, thence along Wisconsin Highway 25 to the Wisconsin-Minnesota State line, to points in Alabama. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E29), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk, cream, and buttermilk* (except concentrated whole milk and concentrated skim milk), in bulk, in tank vehicles, from points in Wisconsin east of a line beginning at the Minnesota-Wisconsin State line, and extending along Wisconsin Highway 35 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Wisconsin Highway 35, thence along Wisconsin Highway 35 to junction U.S. Highway 53, thence along U.S. Highway 53 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to junction Wisconsin Highway 71, thence along Wisconsin Highway 71 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to junction U.S. Highway 10, thence along U.S. Highway 10 to Lake Michigan, to points in Kentucky north and east of a line beginning at the Ohio-Kentucky State line and extending along Interstate Highway 65 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E30), filed June 4, 1974. Aplicant: IRIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Helley, 805 McLachlen Bank Bldg., 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk, cream, and buttermilk* (except concentrated whole milk and concentrated skim milk), in bulk, in tank vehicles, from points in Minnesota beginning at the United States-Canada International Boundary line and extending along U.S. Highway 75 to junction Minnesota Highway 11, thence along Minnesota Highway 11 to junction Minnesota Highway 220, thence along Minnesota Highway 220 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 73, thence along Minnesota Highway 73 to junction U.S. Highway 53, thence along U.S. Highway 53 to the United States-Canada International Boundary line, to points in Mississippi east of a line beginning at the Tennessee-Mississippi State line and extending along U.S. Highway 45 to junction Mississippi Highway 6, thence along Mississippi Highway 6 to junction Mississippi Highway 15, thence along Mississippi Highway 15 to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 49, thence along U.S. Highway 49 to junction Mississippi Highway 13, thence along Mississippi Highway 13 to junction U.S. Highway 98, thence along U.S. Highway 98 to junction Mississippi Highway 35, thence along Mississippi Highway 35 to the Mississippi-Louisiana State line. The purpose of this filing is to eliminate the gateway of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 112668 (Sub-No. E2), filed May 16, 1974. Applicant: HARVEY R. SHIPLEY & SONS, INC., R.F.D., Finksburg, Md. 21048. Applicant's representative: NORMAN E. SHIPLEY (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, in bulk, in dump vehicles (except feed ingredients, rock salt, and rock salt compounds intended for use in the melting of ice and snow), to points in Kent and Sussex Counties, Del. The purpose of this filing is to eliminate the gateway of Glyndon, Md.

No. MC 114211 (Sub-No. E498), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities, the transportation of

which, because of size or weight, requires the use of special equipment or special handling and except those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), between points in that part of Nebraska on and south and west of a line beginning at the Iowa-Nebraska State line, thence along U.S. Highway 30 to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Nebraska-South Dakota State line to points in that part of Minnesota on and north of a line beginning at the South Dakota-Minnesota State line, thence along U.S. Highway 12 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to Duluth, Minn. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and Milbank, S. Dak.

No. MC 114211 (Sub-No. E499), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 69 to junction Interstate Highway 880, thence along Interstate Highway 80 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Iowa Highway 330, thence along Iowa Highway 330 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction Iowa Highway 96, thence along Iowa Highway 96 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 18, thence along U.S. Highway 18 to the Iowa-Illinois State line on the one hand, and, on the other, points in that part of Missouri on and west of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 63 to junction Business Route 63, thence along Business Route 63 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Business Route U.S. Highway 63, thence along Business Route U.S. Highway 63 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 137, thence along Missouri Highway 137 to junction Texas County Highway T, thence along Texas County Highway T to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Business Route U.S. Highway 63, thence along Business Route U.S. Highway 63 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Missouri-Arkansas State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E501), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled rollers*, from points in Arizona to points in Connecticut and Massachusetts, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Minneapolis, Minn., and Canton, S. Dak.

No. MC 114211 (Sub-No. E502), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 75 to the Texas-Oklahoma State line to points in Vermont, New Hampshire, Maine, and to points in that part of Massachusetts on and east and north of a line beginning at the Vermont-Massachusetts State line, thence along U.S. Highway 7 to junction Massachusetts Highway 9, thence along Massachusetts Highway 9 to the Atlantic Ocean, and to points in that part of New York on and east of a line beginning at the New York-Canada International Boundary line, thence along U.S. Highway 9 to junction New York Highway 196, thence along New York Highway 196 to junction U.S. Highway 4, thence along U.S. Highway 4 to junction New York Highway 67, thence along New York Highway 67 to junction New York Highway 22, thence along New York Highway 22 to junction New York Highway 7, thence along New York Highway 7 to the New York-Vermont State line, restricted to the transportation of traffic originating at or destined to the plant sites, warehouse sites, and experimental farms of Deere and Company. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Dubuque, Iowa.

No. MC 114211 (Sub-No. E505), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (other than pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products), and *fittings and accessories* therefor when moving with such pipe from points in that part of Michigan on and east and south of a line beginning at the Ohio-Michigan State line, thence along U.S. Highway 127 to junction Michigan Highway 78, thence along Michigan Highway 78 to junction Michigan Highway 21, thence along Michigan Highway 21 to Port Huron, Mich., and to points in that part of Ohio on and north of a line beginning at the West Virginia-Ohio State line, thence along Interstate Highway 70 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-Indiana State line to points in Idaho, Utah, and Arizona, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Company located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E508), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Illinois on and north of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 30 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Iowa State line to points in Texas, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

No. MC 114211 (Sub-No. E509), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and southeast of a line beginning at the Illinois-Iowa State line, thence along U.S. Highway 30 to junction Iowa-Highway 38, thence along along Iowa Highway 38 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Iowa-Missouri State line to points in Nebraska, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

No. MC 114211 (Sub-No. E510), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and southwest of a line beginning at the Missouri-Iowa State line, thence along U.S. Highway 169 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction Iowa Highway 31, thence along Iowa Highway 31 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line, to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 114211 (Sub-No. E511), filed June 4, 1974. Applicant: WARREN

TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities, the transportation of which, because of size or weight, requires the use of special equipment or special handling, and except the transportation of those commodities described in *Mercer Extension Oil—Field Commodities*, 74 M.C.C. 459), between points in that part of South Dakota on and east of a line beginning at the North Dakota-South Dakota State line, thence along U.S. Highway 281 to junction South Dakota Highway 50, thence along South Dakota Highway 50 to junction South Dakota Highway 37, thence along South Dakota Highway 37 to the South Dakota-Nebraska State line, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E512), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities, the transportation of which, because of size or weight, require the use of special equipment or special handling and except the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), between points in that part of South Dakota on and east of a line beginning at the North Dakota-South Dakota State line, thence along South Dakota Highway 15 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction South Dakota Highway 19, thence along South Dakota Highway 19 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction Interstate Highway 29, thence along U.S. Highway 29 to the South Dakota-Iowa State line, on the one hand, and, on the other, points in Kansas and Colorado. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 115093 (Sub-No. E2), filed December 23, 1974. Applicant: MERCURY MOTOR EXPRESS, INC., P.O. Box 23406, Tampa, Fla. 33682. Applicant's representative: Clayton R. Byrd (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Confectionery* (except in bulk), in vehicles equipped with mechanical refrigeration, from the facilities of M & M/Mars, a division of Mars, Incorporated, at Albany, Ga., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, Pennsylvania, Rhode Island, the District of Columbia; and points in New York on and south of New York Highway 7; and the following points in North Carolina; points in and east of Alleghany, Cabarrus, Iredell, Surry, Union, and Yadkin Counties, N.C.; points in Mecklenburg County, N.C., on and east of a line beginning at the North Carolina South Carolina State line along U.S. Highway 521 to Charlotte, thence along North Carolina Highway 16 to the Mecklenburg-Gaston County line; points in Alexander, Catawba, Gaston, and Lincoln Counties, N.C., on and east of North Carolina Highway 16; and points in Wilkes County, N.C., on and east of a line beginning at the Alexander Wilkes County line, along North Carolina Highway 16 to Wilkesboro, thence along North Carolina Highway 18 to the Wilkes-Alleghany County line; and the following points in Virginia; points in and east of Bland, Carroll, and Wythe Counties, Va., and points in Grayson, Smyth, and Tazewell Counties, Va., on and east of Virginia Highway 16; and the following points in West Virginia: points in and east of Boone, Kanawha, Macon, Mercer, Putnam, and Wyoming Counties, W. Va.; points in Cabell and Lincoln Counties, W. Va., on and east of West Virginia Highway 10; points in Logan County, W. Va., on and east of a line beginning at the Mingo-Logan County line along West Virginia Highway 80 to Man, thence along West Virginia Highway 10 to the Logan-Lincoln County line; points in McDowell County, W. Va., on and east of a line beginning at the Virginia-West Virginia State line along West Virginia Highway 16 to Yukon, thence along West Virginia Highway 83 to Bradshaw, thence along West Virginia Highway 80 to the McDowell-Wyoming County line.

(2) *Confectionery* (except in bulk), in vehicles equipped with mechanical refrigeration, from the facilities of M & M/Mars, a division of Mars, Incorporated, at Atlanta, Decatur and Doraville, Ga., to points in Connecticut, Delaware, Massachusetts, New Jersey, Rhode Island, and the District of Columbia; and points in Maryland except those points in Garrett County, Md., south of a line beginning at the West Virginia-Maryland State line along Maryland Highway 560 to Oakland, thence along Maryland Highway 39 to the Maryland-West Virginia State line; and points in New York on and south of New York Highway 7; and the following points in North Carolina: points in and east of Cumberland, Granville, Harnett, Hoke, Lee, Richmond, Scotland, and Wake Counties; points in Anson County, N.C. on and east of North Carolina Highway 109; points in Chatham County, N.C., on and east of a line beginning at the Moore-Chatham County line along North Carolina Highway 22 to its junction with North Carolina Highway 902, thence along North Carolina Highway 902 to Pittsboro, thence along U.S. Highway 15 to the Chatham-Orange County, line; points in Durham County, N.C., on and east of U.S. Highway 501; points in Montgomery County, N.C., on and south of a line beginning at the Richmond-Montgomery County line along North Carolina Highway 109 to Mount Gilead, thence along North Carolina Highway 731 to its junction with U.S. Highway 220.

Thence along U.S. Highway 220 to Candor, thence along North Carolina Highway 211 to the Montgomery-Moore County line; points in Moore County, N.C., on and east of a line beginning at the Montgomery Moore County line along North Carolina Highway 211 to its junction with North Carolina Highway 705, thence along North Carolina Highway 705 to Robbins, thence along Unnumbered highway to Highfalls, thence along North Carolina Highway 22 to the Moore-Chatham County line; points in Orange County, N.C., on and east of U.S. Highway 15; and points in Person County, N.C., on and east of U.S. Highway 501; and the following points in Pennsylvania; points in and east of Butler, Somerset, Venango, Warren, and Westmoreland Counties, Pa., points in Allegheny County, Pa., on and east of a line beginning at the Washington-Allegheny County line along U.S. Highway 19 to Pittsburgh, thence along Pennsylvania Highway 65 to the Allegheny-Beaver County line; points in Beaver County, Pa., on and east of Pennsylvania Highway 65; points in Crawford County, Pa., on and east of U.S. Highway 19; points in Erie County, Pa., on and east of a line beginning at the Crawford-Erie County line along U.S. Highway 19 to Waterford, thence along Pennsylvania Highway 97 to Union City, thence along Pennsylvania Highway 8 to Lowville, thence along Pennsylvania Highway 89 to Colt Station, thence along Pennsylvania Highway 430 to the Pennsylvania New York State line; points in Fayette County, Pa., on and east of a line beginning at the West Virginia Pennsylvania State line along Pennsylvania Highway 381 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Fayette-Washington County line; points in Lawrence County, Pa., on and east of a line beginning at the Beaver-Lawrence County line along Pennsylvania Highway 65 to Energy, thence along Pennsylvania Highway 388 to Eastbrook, thence along Pennsylvania Highway 168 to the Lawrence-Mercer County line; points in Mercer County, Pa., on and east of U.S. Highway 19; and points in Washington County, Pa., on and east of a line beginning at the Fayette-Washington County line along U.S. Highway 40 to Washington.

Thence along U.S. Highway 19 to the Washington-Allegheny County line; and the following points in Virginia: points in and east of Albemarle, Amherst, Appomattox, Charlotte, Frederick, Greene, Mecklenburg, Nelson, Page, and Shenandoah Counties, Va., points in Augusta County, Va., on and east of U.S. Highway 11; points in Belford County, Va., on and north of U.S. Highway 501; points in Campbell County, Va., on and east of U.S. Highway 501; points in Halifax County, Va., on and east of U.S. Highway 501; points in Rockbridge County, Va., on and east of a line beginning at the Amherst-Rockbridge County line along

U.S. Highway 501 to BuenaVista, thence along U.S. Highway 60 to the Rockbridge Amherst County line; and points in Rockingham County, Va., on and east of a line beginning at the Augusta Rockingham County line along U.S. Highway 11 to Harrisonburg, thence along U.S. Highway 33 to the Virginia-West Virginia State line; and the following points in West Virginia: points in Berkeley, Hampshire, Hardy, Jefferson, Mineral, and Morgan Counties, W. Va., points in Grant County, W. Va., on and east of a line beginning at the Pendleton Grant County line along U.S. Highway 220 to Petersburg, thence along West Virginia Highway 42 to Mount Storm, thence along U.S. Highway 50 to the West Virginia-Maryland State line; points in Pendleton County, W. Va., and east of a line beginning at the Virginia-West Virginia State line along U.S. Highway 33 to Franklin thence along U.S. Highway 220 to the Pendleton-Grant County line; and points in Preston County, W. Va., on and east of a line beginning at the Maryland-West Virginia State line along West Virginia Highway 7 to Kingwood, thence along West Virginia Highway 26 to Brandonville, thence along Unnumbered highway through Clifton Mills to the West Virginia Pennsylvania State line. Restrictions: The authority granted herein is restricted to the transportation of shipments originating at the above-named facilities. In addition, carrier shall not, pursuant to the irregular route authority contained hereinabove, transport shipments moving between any two points authorized hereinabove to be served by it in regular route operations. The purpose of this filing is to eliminate the gateway of Florence County, S.C.

No. MC 115180 (Sub-No. E1), filed May 16, 1974. Applicant: ONLEY REFRIGERATED TRANSPORTATION, INC., 265 West 14th St., New York, N.Y. 10014. Applicant's representative: George A. Olson, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meat, fresh or frozen*, from points in Iowa and Illinois; (2) *Butter, cheese, and oleomargarine*, from points in Illinois, Indiana, and Ohio; (3) *Meats, meat products, and meat by-products* (except meat, fresh or frozen), *dairy products, and articles distributed by meat packing houses*, as defined by the Commission; (a) from Chicago, and other Illinois points in the Chicago Commercial Zone; (b) from the facilities of Swift & Co., at Rochelle, Ill. (restricted to the transportation of shipments originating at the named origin); (c) from the facilities of the Momence Pork Parkers Co., at Momence, Ill. (restricted to the transportation of shipments originating at the named origin); (d) from the facilities of Armour and Co., near Sterling, Ill. (restricted to the transportation of shipments originating at named origin); (e) from the facilities of Swift & Co., at or near Grand Island, Nebr. (restricted to the transportation of shipments originating at the named origin and against the transportation of hides); (f) from the facilities of Wilson & Co., Inc., at Monmouth, Ill. (restricted (1) to the transportation of shipments originating at the named origins, and (2) against the transportation of hides); (g) from points in Iowa (except Columbus Junction, Mason City, Waterloo, Ft. Dodge, Ottumwa, Cherokee, and Dubuque); (h) from the facilities of Producers Packing Co., near Garden City, Kans. (restricted to the transportation of shipments originating at the named origin and against the transportation of hides); (i) from the facilities of Missouri Beef Packers, Inc., at or near Phelps City, Mo. (restricted to the transportation of shipments originating at the named origin and against the transportation of hides); to New York, N.Y. Newark, N.J., and points in New Jersey within 15 miles of Newark, N.J. Restricted in each part above against the transportation of commodities in bulk, in tank vehicles. The purpose of this filing is to eliminate the gateways of points in Lehigh and Northampton Counties, Pa.

No. MC 115703 (Sub-No. E1), filed April 7, 1974. Applicant: KREITZ MOTOR EXPRESS, INC., P.O. Box 375, Wyomissing, Pa. 19610. Applicant's representative: James Alan Vitez (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery*, between points in Connecticut, on the one hand, and, on the other, points in Delaware, the District of Columbia, Maryland, North Carolina, Ohio, Virginia, West Virginia, and that part of New York on and west of a line beginning at the New York-Pennsylvania State line extending along New York Highway 287 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 96, thence along New York Highway 96 to junction New York Highway 14, thence along New York Highway 14 to Lake Ontario. The purpose of this filing is to eliminate the gateways of Berks, York, and Luzerne Counties, Pa.

No. MC 115703 (Sub-No. E2), filed April 7, 1974. Applicant: KREITZ MOTOR EXPRESS, INC., P.O. Box 375, Wyomissing, Pa. 19610. Applicant's representative: James Alan Vitez (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery*, between points in Delaware on and north of Delaware Highway 8, on the one hand, and, on the other, points in West Virginia, Rhode Island, Ohio, North Carolina, New York, Massachusetts, that part of New Jersey on and north of U.S. Highway 22, and that part of Maryland on and west of a line beginning at the Maryland-Pennsylvania State line extending along U.S. Highway 222 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction Maryland Highway 23, thence along Maryland Highway 23 to junction Maryland Highway 138, thence along Maryland Highway 138 to junction Interstate Highway 83, thence along Interstate Highway 83 to Hunts Valley, westerly to Reisterstown, thence along U.S. Highway 140 to junction Maryland Highway 91, thence along Maryland Highway 91 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Maryland Highway 97, thence along Maryland Highway 97 to junction Maryland Highway 28, thence along Maryland Highway 28 to the Maryland-Virginia State line. The purpose of this filing is to eliminate the gateways of Berks, Luzerne, and York Counties, Pa.

No. MC 115703 (Sub-No. E3), filed April 7, 1974. Applicant: KREITZ MOTOR EXPRESS, INC., P.O. Box 375, Wyomissing, Pa. 19610. Applicant's representative: James Alan Vitez (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery*, between points in the District of Columbia, on the one hand, and, on the other, points in Massachusetts, New Jersey, New York, Ohio, Rhode Island, and that part of West Virginia on and west of a line beginning at the West Virginia-Pennsylvania State line extending along U.S. Highway 119 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Interstate Highway 64, thence along Interstate Highway 64 to the West Virginia-Kentucky State line. The purpose of this filing is to eliminate the gateways of Berks, Luzerne, and York Counties, Pa.

No. MC 115703 (Sub-No. E4), filed April 7, 1974. Applicant: KREITZ MOTOR EXPRESS, INC., P.O. Box 375, Wyomissing, Pa. 19610. Applicant's representative: James Alan Vitez (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery*, between points in Maryland on and east of U.S. Highway 15 and on and north of U.S. Highway 50, on the one hand, and, on the other, points in Massachusetts, New York, Ohio, Rhode Island, North Carolina, that part of Virginia on and south of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 250 to junction nIterstate Highway 64, thence along Interstate Highway 64 to junction U.S. Highway 17, thence along U.S. Highway 17 to the Virginia-North Carolina State line, and that part of West Virginia on and west of U.S. Highway 522. Title 15—Commerce and Foreign Trade

CHAPTER VIII—BUREAU OF ECONOMIC ANALYSIS, DEPARTMENT OF COMMERCE

PART 804—FOREIGN DIRECT INVESTMENT IN THE UNITED STATES SURVEY REGULATIONS

Final Survey Regulations

Notice is hereby given of the promulgation in final form by the Department of Commerce of a new Part 804 of Title 15 of the Code of Federal Regulations to include the regulations concerning the Survey of Foreign Direct Investment in the United States, to be conducted as a part of the study required to be carried out by the Department of Commerce pursuant to the Foreign Investment Study Act of 1974 (Pub. L. 93-479).

On November 5, 1974, and November 27, 1972, notices of proposed rulemaking regarding these regulations were published in the FEDERAL REGISTER (39 FR 39076 and 39 FR 41382). The public was given the opportunity to submit in writing comments, data, views, arguments, or suggestions pertaining to the proposed survey regulations prior to their publication in final form. A number of public comments were received in response to the notices mentioned above. A public hearing on the proposed survey regulations was also held by the Office of Management and Budget on December 3, 1974, to receive comments on the survey form from interested parties pursuant to its authority under the Federal Reports Act (44 U.S.C. 3501). All suggestions and comments received pursuant to the above-mentioned notices and the Office of Management and Budget hearing have been carefully considered and taken into account in the final survey regulations published herein.

The changes resulting from public suggestions and comments in these final survey regulations are mainly of a clarifying nature. The final survey regulations published hereunder are promulgated under the authority of the Foreign Investment Study Act of 1974 ("The Act") which directs the Secretary of Commerce, among other matters, to:

(1) Investigate and review the nature, scope, magnitude, and rate of foreign direct investment activities in the United States;

(2) Survey the reasons foreign firms are undertaking direct investment in the United States;

(3) Identify the processes and mechanisms through which foreign direct investment flows into the United States, the financing methods used by foreign direct investors, and the effects of such financing on American financial markets;

(4) Analyze the scope and significance of foreign direct investment in acquisitions and takeovers of existing American enterprises, the significance of such investments in the form of new facilities or joint ventures with American firms, and the effects thereof on domestic business competition;

(5) Analyze the concentration and distributon of foreign direct investment in specific geographic areas and economic sectors;

(6) Analyze the effects of foreign direct investment on United States national security, energy, natural resources, agriculture, environment, real property holdings, balance of payments, balance of trade, the United States international economic position, and various significant American product markets;

(7) Analyze the effect of foreign direct investment in terms of employment opportunities and practices and the activities and influence of foreign and American management executives employed by foreign firms;

(8) Analyze the effect of Federal, regional, state, and local laws, rules, regulations, controls, and policies on foreign direct investment activities in the United States;

(9) Compare the purpose and effect of United States, state and local laws, rules, regulations, programs, and policies on foreign direct investment in the United States with laws, rules, regulations, programs, and policies of selected nations and areas where such comparison may be informative;

(10) Compare and contrast the foreign direct investment activities in the United States with the investment activities of American investors abroad and appraise the impact of such American activities abroad on the investment activities and policies of foreign firms in the United States; and

(11) Study the adequacy of information, disclosure, and reporting requirements and procedures;

(12) Determine the effects of variations between accounting, financial reporting, and other business practices of American and foreign investors on foreign investment activities in the United States; and

(13) Study and recommend means whereby information and statistics on foreign direct investment activities can be kept current.

These regulations define foreign direct investment in the United States for purposes of the Act, set forth reporting and recordkeeping requirements pertaining to this survey, outline confidentiality provisions applicable to reports and analysts studying the reports, describe the reporting form to be used and where such form can be obtained, and specify penalties for violation of the regulations.

The Act authorizes the Secretary, pursuant to section 7(a), to issue such rules as he deems necessary to carry out his functions under the Act. Rules, in addition to those for this Survey of Foreign Direct Investment in the United States, may be proposed at a later date if necessary to enable the Secretary to carry out other functions under the Act.

The final regulations for the Survey of Foreign Direct Investment in the United States are as follows:

Subpart A—Definitions

Sec.
804.1 Person.
804.2 Associated group.
804.3 Affiliated foreign group.
804.4 Business enterprise.
804.5 Branch.
804.6 Control or controlling interest.
804.7 Reporter.
804.8 U.S. affiliate.
804.9 Parent.
804.10 Foreign parent.
804.11 Foreign affiliate of foreign parent.
804.12 United States.
804.13 Foreign.
804.14 The Act.
804.15 The Secretary.

Subpart B—Recordkeeping and Reporting Requirements

804.16 Determination by the Secretary.
804.17 Reports.
804.18 Exemptions and exclusions.
804.19 Records.
804.20 Protection of information.
804.21 Miscellaneous.

Subpart C—Description of Forms Prescribed Under this Part

804.22 Copies.
804.23 Form BE-12.

Subpart D—Penalties

804.24 Civil and criminal penalties.
804.25 False statements generally.

Subpart A—Definitions

§ 804.1 Person.

The term "person" means an individual, a government, a corporation, a branch, a partnership, an associated group, an affiliated foreign group, a joint stock company, a trust, an estate, or other unincorporated organization.

§ 804.2 Associated group.

The term "associated group" means two or more foreign persons who, by the appearance of their actions, by agreement, or by an understanding, exercise their voting privileges in a concerted manner to influence the management of a U.S. business enterprise. The following are deemed to be associated groups:

a. Members of the same family.

b. A foreign business enterprise and one or more of its officers or directors.

c. Members of a syndicate or joint venture.

d. Foreign owners of a U.S. business enterprise whose interests in the enterprise are held or managed by a U.S. or a foreign trust.

§ 804.3 Affiliated foreign group.

The term "affiliated foreign group" means a primary foreign person (that foreign person which is not owned to the extent of more than 50 percent of its voting rights by another foreign person) and all of its majority-owned non-U.S. business enterprises.

§ 804.4 Business enterprise.

The term "business enterprise" means any organiaztion, branch, or venture which exists for profit-making purposes, and any real estate which is owned.

§ 804.5 Branch.

Branch shall include—

(a) The operations or activities conducted by an incorporated or unincorporated person in its own name in a different location, but not through an incorporated entity.

(b) The U.S. business of foreign mutual insurance companies.

§ 804.6 Control or controlling interest.

The term "control or controlling interest" means for the purposes of this survey, the direct and/or indirect ownership through intermediaries or affiliates of 10 percent or more of the voting securities of an incorporated business enterprise, or an equivalent interest in an unincorporated business enterprise.

§ 804.7 Reporter.

The term "reporter" means the U.S. business enterprise required to file a report in this survey, or for which a report is required to be filed.

§ 804.8 U.S. affiliate.

The term "U.S. affiliate" means a U.S. business enterprise owned directly or indirectly by a foreign person to the extent of 10 percent or more of its voting securities for an incorporated business enterprise, or an equivalent interest for an unincorporated business enterprise.

§ 804.9 Parent.

Parent refers to:

(a) The foreign person (including an individual business enterprise which is a member of an affiliated foreign group) holding a direct ownership interest in a U.S. affiliate of that foreign person.

(b) A U.S. affiliate, of a foreign person, which holds a direct ownership interest in another U.S. affiliate of that same foreign person.

§ 804.10 Foreign parent.

"Foreign parent" refers to a foreign person (including an individual business enterprise which is a member of an affiliated foreign group) holding a direct or indirect ownership interest in a U.S. affiliate of that foreign person.

§ 804.11 Foreign affiliate of foreign parent.

With reference to a given U.S. affiliate, a "foreign affiliate of foreign parent" is any individual foreign business enterprise which is a member of an affiliated foreign group owning a given U.S. affiliate, but which does not have a direct ownership interest in that U.S. affiliate.

§ 804.12 United States.

"United States" shall refer to the 50 states of the United States; the District of Columbia; the Commonwealth of Puerto Rico; the Panama Canal Zone; the U.S. Virgin Islands; Guam; American Samoa; and all other territories and possessions of the United States.

§ 804.13 Foreign.

The term "foreign" means that which is situated outside the United States; belonging to, characteristic of, or under the jurisdiction of a country or political entity other than the United States.

§ 804.14 The Act.

For the purposes of this part, "the Act" means the Foreign Investment Study Act of 1974 (Pub. L. 93-479, 88 Stat. 1450).

§ 804.15 The Secretary.

The term "the Secretary" means the Secretary of Commerce.

Subpart B—Recordkeeping and Reporting Requirements

§ 804.16 Determination by the Secretary.

The Secretary hereby determines that the recordkeeping and reporting provisions of this subpart are necessary to enable him to carry out his functions under the Act.

§ 804.17 Reports.

(a) *Basic requirement.* Every business enterprise subject to the jurisdiction of the United States, which was controlled directly or indirectly by a foreign person at any time during the year ending December 31, 1974, is required to report.

1. Reports are required even though the U.S. business enterprise may have been established, liquidated, sold to U.S. persons, or destroyed during the reporting period.

2. If the U.S. business enterprise is in the nature of real property not identifiable by name, the report must be filed in the name of the foreign beneficial owner, or in the name of such foreign beneficial owner by the agent or representative of such owner.

(b) *Intermediary of a foreign beneficial owner.* 1. If the foreign controlling interest in a U.S. business enterprise, including real estate, was held, exercised, administered, or managed by a U.S. estate, trust, nominee, agent, manager, custodian, or other intermediary of the foreign beneficial owner such estate, trust, nominee, agent, manager, custodian, or other intermediary shall be responsible for reporting the required information for the U.S. business enterprise, and shall report on behalf of the U.S. business enterprise or shall instruct the U.S. business enterprise in question to submit the required information. Upon so instructing the U.S. business enterprise, the intermediary shall be released from further liability provided he has informed the Department of Commerce of the date such instructions were given, the name and address of the U.S. business enterprise, and has supplied the U.S. business enterprise with any information in the possession of the intermediary which is necessary to permit the U.S. business enterprise to complete the form. A foreign person who establishes a trust shall be considered a foreign parent of that U.S. business enterprise.

2. For the purposes of this survey, when the report is filed by the U.S. intermediary, the accounts or transactions of the U.S. intermediary with a foreign beneficial owner shall be considered as accounts or transactions of the U.S. business enterprise with the foreign beneficial owner.

§ 804.18 Exemptions and exclusions.

(a) Property held exclusively for personal use, and not for profit-making purposes, is exempt for purposes of this survey. For example, hunting lodges, homes, and automobiles for personal use are exempt. However, foreign ownership of real estate in the United States for business must be reported, except as otherwise exempted by this section.

(b) A report need not be filed for ownership in a U.S. business enterprise held by persons who are:

(1) Citizens of a foreign country who have resided in the United States for one year or more, except those who are officers or employees of the government of their country of citizenship and members of the immediate family of such individuals provided they are citizens of the foreign country.

(2) U.S. citizens who are residents of foreign countries and who are officers or employees of the U.S. Government and members of the immediate families of such individuals provided they are citizens of the United States.

(3) U.S. citizens who are resident outside of the United States for less than one year.

(c) U.S. religious bodies, charitable organizations, and other nonprofit organizations are not business enterprises and, therefore, foreign ownership of these types of U.S. organizations is not reportable.

(d) Partial exemption based on value—if the value of both total assets, including real property investment, and total revenues of any U.S. affiliate otherwise required to report, were each less than $100,000 on December 31, 1974, such U.S. affiliate is required to file only PART I of Form BE-12 for this survey, with a notation in item 20 of PART I, that both total assets and total revenues are less than $100,000. The value of total assets is to be based on gross book value, as shown on the books of the U.S. business enterprise.

§ 804.19 Records.

(a) Every person subject to the provisions of this part and to the jurisdiction of the United States, whether or not such person is exempt from reporting requirements of this part, shall maintain a complete and accurate record of any information which is germane to transactions covered by the Survey of Foreign Direct Investment in the United States being conducted under this part, or which is germane to any other functions in the study being conducted under this Act as the Secretary may otherwise determine.

(b) Such records (including but not limited to journals, other books of original entry, minute books, stock transfer records, lists of shareholders, financial statements, and worksheets) shall be maintained for a period of two years after the due date for the filing of the survey report provided in paragraph 804.21(h).

(c) Every person required to keep records under this part shall produce all records or reproductions thereof and make them available to inspection and copying upon request by any sworn employee designated by the Secretary, without any charge or expense to the Government.

§ 804.20 Protection of information.

(a) *Confidentiality.* In addition to the Secretary, the only individuals who may have access to information furnished under the provisions of this part are those sworn employees, including consultants, of the Department of Commerce designated by the Secretary. Neither the Secretary nor any such employee may:

(1) Use any information furnished under this part except for analytical or statistical purposes within the United States Government; or

(2) Publish, or make available to any other person in any manner, any such information in a manner whereby the information furnished by any person un-

XUM V40123 FEB 3 75 XUM

der this part can be specifically identified, except for purposes of an enforcement proceeding under the Act; *Provided*, That the Secretary or his designated sworn employees may exchange information furnished under the provisions of this part with the Secretary of the Treasury or his designated sworn employees on order to prevent any duplication or omission in the studies conducted by each Secretary pursuant to the Act.

(b) *Notification of customers.* Whenever a person is required to submit any report pursuant to this part which contains information which can be specifically identified as being part of the records of its customers, where such person is not directly involved in the ownership or management of assets for the customers as a nominee, agent, partner, fiduciary, trustee, or in a similar relationship, the Secretary, upon being provided the names and addresses of such customers, shall send a notice to customers, that information from their records will be disclosed pursuant to the Act. Any persons having submitted names of customers pursuant to the provisions of this paragraph shall be required to submit a report on its due date or within 10 days of being notified by the Secretary that notice to such customers has been given, whichever is later.

§ 804.21 Miscellaneous.

(a) *Accounting records to be used.* In supplying the information required in this survey, data for corporations should be derived from the records used to generate reports to stockholders. Reports for unincorporated persons should be derived from equivalent records.

(b) *Reporting period.* Reports should be submitted on a calendar year basis for the year ending December 31, 1974. If this necessitates the estimation of annual data based upon quarterly or monthly reports in order to present the data on a calendar year basis, or closer to a calendar year basis, such estimates are acceptable. Where a company is not on a calendar year basis, a report may be submitted covering a year ending between November 16, 1974 and February 15, 1975, the actual date coinciding with the actual ending date of a fiscal year or a fiscal quarter within that period, provided that the equity relationships and intercompany balances between reporter and parent do NOT materially differ from those existing on December 31, 1974.

(c) *Annual stockholder's report.* Reporters are requested to submit, along with their completed Form BE–12, a copy of their annual report to stockholders.

(d) *Required information not available.* All reasonable efforts should be made to obtain information required for reporting. Every question on each form should be answered, except where reporters are specifically exempt from reporting certain parts or items on the forms. Where only partial information is available, an appropriate indication should be given.

(e) *Estimates.* If actual figures are not available, estimates shall be supplied. When data items requiring detailed breakdowns cannot be fully subdivided, totals should be supplied and an estimated percentage breakdown should also be supplied.

(f) *Specify.* Certain data lines require that reporters "Specify" items included in the total for such lines. In all such cases, the Reporter should give the type and dollar amount of the items included in the line.

(g) *Space on form insufficient.* When space is insufficient to permit a full answer to any item on the form, the information required should be submitted on supplementary sheets appropriately labeled and referenced to the item and the form.

(h) *Filing date.* Reports shall be filed on or before April 30, 1975, or no later than 60 days after publication of final rules and regulations in the FEDERAL REGISTER, whichever date is later.

(i) *Extensions.* Requests for an extension will NOT normally be granted; however, in hardship cases written requests for an extension will be considered provided they are received 15 days prior to the due date and enumerate substantive reasons necessitating the extension.

(j) *Assistance.* If there are any questions concerning the report, telephone (202) 523–0547.

(k) *Number of copies.* A single original copy shall be filed with the Bureau of Economic Analysis. In addition, each reporter should retain a copy of this report for his files.

(l) *Where to send reports.* All reports shall be sent to the Bureau of Economic Analysis, Attention: International Investment Division, BE–50 (LM), U.S. Department of Commerce, Washington, D.C. 20230.

(m) *Treasury Department's Foreign Portfolio Investment Study.* The Department of the Treasury is concurrently conducting a survey of foreign portfolio investment in the United States for the year 1974. All U.S. business enterprises owned to the extent of less than 10 percent by a foreign person and not required to report in this survey of foreign direct investment, should contact the Department of the Treasury concerning reporting requirements for the portfolio survey.

Subpart C—Description of Forms Prescribed Under This Part

§ 804.22 Copies.

Copies of the forms described in this subpart may be obtained from the Bureau of Economic Analysis, Attention: International Investment Division, BE–50 (LM), U.S. Department of Commerce, Washington, D.C. 20230.

§ 804.23 Form BE–12.

On Form BE–12, each U.S. business enterprise which was controlled directly or indirectly by a foreign person at any time during the year ending December 31, 1974, is required to report information on investment and transactions between the U.S. business enterprise and its parent(s); information on direct financial transactions between the U.S. business enterprise and all foreign affiliates of all foreign parents which did not have a direct line of ownership in the U.S. business enterprise any time during the year ending December 31, 1974; various financial schedules covering the year ending December 31, 1974; information on merchandise trade of the U.S. business enterprise with foreigners; information, by state, on employment, revenues, operating assets, and land owned; and other information concerning the operations of the U.S. business enterprise and its relationship with the foreign person(s) having the controlling interest in the U.S. business enterprise.

Subpart D—Penalties

§ 804.24 Civil and criminal penalties.

In accordance with section 8 of the Act, the penalties and enforcement procedures described in paragraphs (a), (b) and (c) of this section shall apply to violations of this part and any reporting requirement imposed hereunder, or any other rule, regulation, order or instruction promulgated by the Secretary under the authority of the Act.

(a) *Civil penalty.* Attention is directed to section 8(a) of the Act which provides:

> Whoever fails to furnish any information required pursuant to the authority of this Act, whether required to be furnished in the form of a report or otherwise, or to comply with any rule, regulation, order, or instruction promulgated pursuant to the authority of this Act may be assessed a civil penalty not exceeding $10,000 in a proceeding brought under subsection (b) of this section.

(b) *Civil proceeding; injunction.* Attention is directed to section 8(b) of the Act which provides:

> Whenever it appears to either the Secretary of the Treasury or the Secretary of Commerce that any person has failed to furnish any information required pursuant to the provisions of this Act, whether required to be furnished in the form of a report or otherwise, or has failed to comply with any rule, regulation, order, or instruction promulgated pursuant to the authority of this Act, the Secretary may in his discretion bring an action, in the proper district court of the United States or the proper United States court of any territory or other place subject to the jurisdiction of the United States, seeking a mandatory injunction commanding such person to comply with such rule, regulation, order, or instruction, and upon a proper showing by the Secretary of the relevance to the purposes of the Act of such rule, regulation, order, or instruction, a permanent or temporary injunction or restraining order shall be granted without bond, and such person shall also be subject to the civil penalty provided in subsection (a) of this section if the judge finds that such penalty is necessary to obtain compliance with such injunction or restraining order.

(c) *Criminal penalties.* Attention is directed to section 8(c) of the Act which provides:

> Whoever wilfully fails to submit any information required pursuant to this Act, whether required to be furnished in the form of a report or otherwise, or wilfully violates any rule, regulation, order, or instruction promulgated pursuant to the authority of this Act shall, upon conviction, be fined not more than $10,000 or, if a natural person, may be imprisoned for not more than one year or both; and any officer, director, or agent of any corporation who knowingly participates in such violation may be punished by a like fine, imprisonment, or both.

§ 804.25 False statements generally.

Attention is also directed to section 1001 of Title 18, United States Code, which provides:

> Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and wilfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than 5 years, or both.

FREDERICK B. DENT,
Secretary of Commerce.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

TEXTILE AND APPAREL CATEGORIES WITH THE TARIFF SCHEDULES OF THE UNITED STATES ANNOTATED

Correlation Tables

JANUARY 28, 1975.

There is published below a Correlation of the Tariff Schedules of the United States Annotated numbers arranged by the cotton, wool, and man-made fiber categories used by the United States in administering the textile trade agreements program. A full description of the textile and apparel products falling within each of the cotton, wool, and man-made fiber categories may be obtained by using the Tariff Schedules of the United States Annotated which also provides category placement for the item numbers covered by the program. The list of Tariff Schedules of the United States Annotated numbers published in the FEDERAL REGISTER on January 25, 1974 (39 FR 3430), as amended, is hereby superseded effective January 31, 1975.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

FOREWORD

This publication presents the *Tariff Schedules of the United States Annotated* numbers as revised through January 1, 1975, under each of the Cotton, Wool and Man-Made Fiber categories (or groupings) used by the United States in monitoring import shipments of these textile products and to administer the United States textile trade agreements programs. In order to facilitate the use of this publication, the descriptions of the *Tariff Schedules of the United States Annotated* numbers have been simplified. The simplified descriptions, however, are not intended to modify, change, or contradict in any way the substance or meaning of the descriptions presented in the *Tariff Schedules of the United States Annotated*. In any case where the descriptions in this publication conflict with those in the *Tariff Schedules of the United States Annotated*, the descriptions in the latter document shall prevail.

XUM V40123 FEB 3 75 XUM

EXPLANATORY NOTES

A- FIBER: COVERAGE

1.- Cotton: includes all yarns, fabrics, apparel and articles wholly or in chief value cotton.

2.- Wool: includes all yarns, fabrics, apparel and articles wholly or in chief value wool or hair and textile manufactures containing wool as defined below.

The term "Hair" is limited to the hair of the Camel and to hair of the Alpaca, Cashmere goat, Angora goat and the hair of other animals including the Llama, the Vicuna and the Angora rabbit.

The term "Containing wool" refers to articles, not in chief value cotton, wool or man-made fiber, in which the wool component equals or exceeds by weight the man-made fiber component, provided that such articles contain 5 percent or more but not over 17 percent of wool by weight; or articles containing over 17 percent of wool by weight, regardless of the weight of all other textile components.

3.- Man-made fibers: includes all yarns, fabrics, apparel and articles wholly or in chief value of the filaments, strips and fibers covered in sub-part E-2A of the Tariff Schedules of the United States Annotated (TSUSA).

Subject to the limitations set forth in TSUSA, the respective provisions in this publication for filaments, strips and fibers cover such articles whether they are formed by extrusion or by other processes, of substances derived by man from cellulosic or non-cellulosic materials by chemical processes.

The provisions of this publication include grouped glass filaments and glass fibers suitable for the manufacture of textile manufactures only if they have been made into yarns or cordage or if they are present in fabrics or other articles in the form of yarns or cordage.

The term "Containing man-made fibers" refers to articles not in chief value cotton, wool or man-made fibers and not described under the term "Containing wool" in which the man-made fiber component is 5 percent or more by weight.

B- YARNS:

The fourth and fifth digits of TSUSA classifications for cotton yarns represent yarn number or yarn number groupings. To simplify and shorten the listing of many such items, we have here omitted these two digits and have shown only the first three plus the sixth and seventh digits. Any TSUSA with these digits, regardless of the fourth and fifth digits, appears in the category indicated.

The terms used in defining the various types of man-made fiber yarns are defined fully in the TSUSA.

C- FABRICS:

The fourth and fifth digits of TSUSA classes for cotton fabrics represent the average yarn number of such fabrics and are not pertinent to the assignment of these classes to categories. As in the case of the cotton yarns, we have omitted these segments of the numbers in this publication.

The term "Fancy or Figured" means fabrics which have been woven with two or more colors or kinds of filling; with eight or more harnesses; with jacquard, lappet or swivel attachments, or by any combination of these weaving methods.

D- APPAREL AND ARTICLES:

Definitive headnotes covering such items as "Entireties", "Ornamented", etc. are to be found in the TSUSA. For the purpose of this publication, such descriptions are abbreviated in order to help identify the classes for category assignment. Users should refer to the TSUSA for full descriptions.

NOTICE TO FEDERAL REGISTER READERS

As part of its continuing program to improve the quality of the daily FEDERAL REGISTER and CODE OF FEDERAL REGULATIONS, the Office of the Federal Register is soliciting the views of interested persons on the effectiveness of individual Federal Register documents and on regulations contained in the CODE OF FEDERAL REGULATIONS.

Our goal is twofold:

First—to make each document published in the FEDERAL REGISTER easily understandable, thus making compliance easier, more efficient, and less costly; and

Second—to identify and correct any existing Federal regulations which are obsolete, unnecessarily wordy, or unclearly stated.

We believe this effort is consistent with the objectives stated by President Ford in his October 8th speech on the economy in which he announced "a joint effort by the Congress, the executive branch and the private sector to identify and eliminate existing Federal rules and regulations that increase costs to the consumer without any good reason in today's economic climate."

The Office of the Federal Register welcomes your comments and suggestions. The survey blank below is provided for that purpose. All comments received will be maintained in a public docket and will be available for inspection in the Office of the Federal Register to any interested persons or agencies. Comments which point out the need for substantive changes in existing regulations also will be forwarded to the responsible agency.

I. For the following reasons I found it difficult to understand the document from _____ (agency) in column _____, page _____ of the _____ (date) issue of the FEDERAL REGISTER:

☐ only technical language was used; ☐ document contained long and difficult sentences; ☐ preamble did not contain a clear and concise explanation of the document's purpose; ☐ other (explain) _____

_____

_____

II. I believe that the requirement(s) contained in:

A. The document from _____ (agency) in column _____, page _____ of the _____ (date) issue of the FEDERAL REGISTER, or

B. Section(s) _____ of Title _____ of the CODE OF FEDERAL REGULATIONS

impose(s) an: ☐ unnecessary; ☐ unreasonable; ☐ impractical; or ☐ obsolete requirement on those persons subject to that regulation.

My reasons are: _____

_____

_____

III. (Optional) I suggest that the provision(s) mentioned above be rewritten as follows:

_____

_____

_____

Please mail to:

Office of the Federal Register
National Archives and Records Service
General Services Administration
Washington, D.C. 20408

Name and address (optional)

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Fed ral agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4346

Reserving Certain Lands Adjacent to and Enlarging the Boundaries of the Buck Island Reef National Monument in the Virgin Islands of the United States

By the President of the United States of America

A Proclamation

The Buck Island Reef National Monument, situated off the northeast coast of Saint Croix Island in the Virgin Islands of the United States, was established by Proclamation No. 3443 of December 28, 1961 (76 Stat. 1441). It now has been determined that approximately thirty acres of submerged land should be added to the monument site in order to insure the proper care and management of the shoals, rocks, undersea coral reef formations and other objects of scientific and historical interest pertaining to this National Monument.

These thirty acres of submerged lands are presently owned in fee by the United States. They will be conveyed to the Government of the Virgin Islands on February 3, 1975, pursuant to Section 1(a) of Public Law 93–435 (88 Stat. 1210), unless the President, under Section 1(b)(vii) of that Act, designates otherwise.

Under Section 2 of the Act of June 8, 1906, 34 Stat. 225 (16 U.S.C. 431), the President is authorized to declare by public Proclamation objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be national monuments, and may reserve as a part thereof parcels of land, the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected. The aforementioned thirty acres of submerged lands are contiguous to the site of the Buck Island Reef National Monument, constitute a part of the ecological community of the Buck Island Reef, and will not enlarge the monument boundaries beyond the smallest area compatible with its proper care and management.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, by virtue of the authority vested in me by Section 1(b)(vii) of Public Law 93–435 (88 Stat. 1210), do hereby proclaim that the lands hereinafter described are excepted from the transfer to the Government of the Virgin Islands under Section 1(a) of Public Law 93–435; and, by virtue of the authority vested in me by Section 2 of the Act of June 8, 1906, 34 Stat. 225 (16 U.S.C. 431),

V40-24 FEB 4 75 XUM XUM

do hereby proclaim that, subject to valid existing rights, the lands hereinafter described are hereby added to and made a part of the Buck Island Reef National Monument, and Proclamation No. 3443 of December 28, 1961, establishing the Buck Island Reef National Monument is amended accordingly.

Beginning at latitude 17°47′30″ N, longitude 64°36′32″ W; thence approximately 1000 feet to latitude 17°47′27″ N, longitude 64°36′22″ W; thence approximately 900 feet to latitude 17°47′18″ N, longitude 64°36′22″ W; thence approximately 1000 feet to latitude 17°47′15″ N, longitude 64°36′22″ W; thence approximately 1500 feet to latitude 17°47′30″ N, longitude 64°36′32″ W, the place of beginning, embracing an area of approximately 30 acres.

IN WITNESS WHEREOF, I have hereunto set my hand this first day of February, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred and ninety-ninth.

Gerald R. Ford

PROCLAMATION 4347

Reserving Certain Submerged Lands Adjacent to Rose Atoll National Wildlife Refuge Territory of American Samoa and, Certain Submerged Lands for the Defense Needs of the United States in the Territories of Guam and the Virgin Islands

By the President of the United States of America

A Proclamation

The submerged lands surrounding the Rose Atoll National Wildlife Refuge in American Samoa are necessary for the protection of the Atoll's marine life, including the green sea and hawksbill turtles. The submerged lands in Apra Harbor and those adjacent to Inapsan Beach and Urano Point in Guam, and certain submerged lands on the west coast of St. Croix, United States Virgin Islands are required for national defense purposes. These submerged lands in American Samoa, Guam and the United States Virgin Islands will be conveyed to the Government of those territories, on February 3, 1975, pursuant to Section 1(a) of Public Law 93–435 (88 Stat. 1210), unless the President, under Section 1(b)(vii) of that Act, designates otherwise.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, by virtue of authority vested in me by Section 1(b)(vii) of Public Law 93–435 (88 Stat. 1210) do hereby proclaim that the lands hereinafter described are excepted from the transfer to the Government of American Samoa, the Government of Guam and the Government of the United States Virgin Islands under Section 1(a) of Public Law 93–435.

American Samoa. The submerged lands adjacent to Rose Atoll located 78 miles each-southeast of Tau Island in the Manua Group at latitude 14°32′52″ south and longitude 168°08′34″ west, which lands shall be under the joint administrative jurisdiction of the Department of Commerce and the Department of the Interior.

Guam. (1) The submerged lands of inner and outer Apra Harbor; and, (2) the submerged lands adjacent to the following uplands: (a) Unsurveyed land, Municipality of Machanao, Guam, as delineated on Commander Naval Forces, Marianas Y & D Drawing Numbered 597–464, lying between the seaward boundaries of Lots Numbered 9992 through 9997 and the mean high tide, containing an undetermined area of land, (b) unsurveyed land, Municipality of Machanao, Guam, as delineated on Commander Naval Forces, Marianas Y & D Drawing Numbered 597–464, lying between the seaward boundary of Lot Numbered 10080 and the line of mean high tide, containing an undetermined amount of land, and (c) Lot Numbered PO 4.1 in the Municipality of Machanao, Guam, as delineated on Y & D Drawing Numbered 597–

XUM
V40-24
FEB 4 75
XUM

464, more particularly described as surveyed land bordered on the north by Lot Numbered 10080, Machanao, east by Northwest Air Force Base, south by U.S. Naval Communication Station (Finegayan) and west by the sea containing a computed area of 125.50 acres, more or less. All of the above lands within the territory of Guam shall be under the administrative jurisdiction of the Department of the Navy.

The Virgin Islands. (1) The submerged lands as described in the Code of Federal Regulations revised as of July 1, 1974, cited as 33 CFR 207.817 areas "A" & "B", (2) the submerged lands seaward of the 100 fathom curve off the coast of St. Croix beginning at a point 17°40'30" N and ending at a point 17°46'30" North as depicted on Coast and Geodetic Survey Chart Numbered 25250, Third Edition; Title: St. Croix, Virgin Islands Underwater Range, and (3) the submerged lands seaward of the Underwater Range Operational Control Center, St. Croix, Virgin Islands presently leased to the Department of the Navy and described as Plot #18 of Estate Sprat Hall subdivision, located in northside Quarter "A", St. Croix containing 4.84 acres of land. All of the above lands within the territory of the Virgin Islands shall be under the administrative jurisdiction of the Department of the Navy.

IN WITNESS WHEREOF, I have hereunto set my hand this first day of February, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred and ninety-ninth.

Gerald R. Ford

PROCLAMATION 4348

American Heart Month, 1975

By the President of the United States of America

A Proclamation

An estimated 28.5 million Americans suffer from some form of heart and blood vessel disease. These diseases cause more than one million deaths each year. Approximately twenty-five percent of these deaths occur among persons under age 65.

Although heart and blood vessel diseases still account for slightly more than half of all deaths each year in the United States, death rates from these disorders declined over the five-year period 1968–1973 (the most recent year for which reliable statistics are available).

This decline did not just happen. It has been achieved through the application of improved methods of prevention, diagnosis, and treatment that has grown out of an intensive and sustained research effort.

Over the years, two agencies have been the prime movers in the Nation's assault on the cardiovascular diseases. One is the National Heart and Lung Institute, an agency of the Federal Government; the other is the American Heart Association, a voluntary health organization that draws its operating funds from private contributions. For more than 25 years, the two organizations have worked hand-in-hand toward common goals: to search for and apply new or improved methods of prevention, diagnosis, and treatment for cardiovascular disorders; to support the training of research and clinical personnel in the cardiovascular field; to provide community service to victims of cardiovascular diseases; and to carry out programs of information and education on cardiovascular topics for health professionals and for the general public.

To encourage continuation of this combined assault on the cardiovascular diseases, the Congress has requested the President to issue annually a proclamation designating February as American Heart Month.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby proclaim the month of February 1975, as American Heart Month. And I invite the Governors of the States, the Commonwealth of Puerto Rico, and the officials of other areas subject to the jurisdiction of the United States, to heed the nationwide problem of heart and blood vessel diseases. Our support of programs to prevent premature death from cardiovascular diseases is essential to combat this leading menace to the Nation's health.

IN WITNESS WHEREOF, I have hereunto set my hand this third day of February, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

XUM V40-24 FEB 4 75 XUM

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 4—Accounts

CHAPTER III—COST ACCOUNTING STANDARDS BOARD

PART 303—RELEASE OF INFORMATION

Fee Schedules

NOTE: FR Doc. 75-2804, which revised §§ 303.5 and 303.6 to conform with certain requirements established by Pub. L. 93-502, appeared in the Proposed Rules section of the issue for Thursday, January 30, 1975 (40 FR 4445). It should have been printed in the Rules and Regulations section of that issue.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Activities Involving Assistance to American Indians

Part 2, Subtitle A of Title 7, Code of Federal Regulations, is amended to specifically delegate to the Assistant Secretary for Administration the authority to coordinate all Departmental activities involving assistance available to American Indians.

7 CFR 2.25(h) is amended as follows:

§ 2.25 Delegations of Authority to the Assistant Secretary for Administration.

• • • • • •

(h) *Related to equal opportunity.* (1) Coordinate all aspects of the Department's civil rights program including all Departmental activities involving assistance to American Indians.

• • • • • •

Effective date: December 1, 1974.

Done at Washington, D.C. this 30th day of January 1975.

EARL L. BUTZ,
Secretary of Agriculture.

[FR Doc.75-3172 Filed 2-3-75;8:45 am]

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Activities Involving Assistance to American Indians

The purpose of this amendment is to specifically redelegate responsibility of the Assistant Secretary for Administration to the Director, Office of Equal Opportunity to coordinate all Departmental activities involving assistance available to American Indians. 7 CFR 2.80(a) is amended by adding a new subparagraph (9) as follows:

§ 2.80 Director, Office of Equal Opportunity.

(a) • • •

(9) Coordinate all Departmental activities involving assistance to American Indians.

Effective date: December 1, 1974.

Done at Washington, D.C. this 30th day of January 1975.

JOSEPH R. WRIGHT, Jr.,
Assistant Secretary for Administration.

[FR Doc.75-3173 Filed 2-3-75;8:45 am]

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER VII—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 724—FIRE-CURED, DARK AIR-CURED, VIRGINIA SUN-CURED, CIGAR-BINDER (TYPES 51 & 52), AND CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54, & 55)

Subpart—Proclamations, Determinations and Announcements of National Marketing Quotas and Referendum Results

U.S.D.A. announcement of national marketing quotas for fire-cured dark air-cured, Virginia sun-cured, cigar binder (types 51 & 52), and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobaccos.

Basis and purpose. Sections 724.6 and 724.7 are issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended, hereinafter referred to as the "Act," to proclaim national marketing quotas for cigar-binder (types 51 & 52), and cigar-filler and binder (types 42, 43, 44, 53, 54, & 55) tobacco respectfully for each of the three marketing years beginning October 1, 1975, October 1, 1976, and October 1, 1977. Sections 724.12 through 724.17 are issued pursuant to, and in accordance with, the Act to determine the reserve supply level and the total supply of fire-cured, dark air-cured, Virginia sun-cured, cigar-binder, and cigar-filler and binder tobacco for the marketing year beginning October 1, 1974, and to announce for the 1975-76 marketing year the amounts of the national marketing quotas, national acreage allotments, national acreage factors for apportioning the national acreage allotments (less reserves) to old farms, and the amounts of the national reserves and parts thereof available for (a) new farms and (b) making corrections and adjusting inequities in old farm allotments for fire-cured (type 21), fire-cured (type 22-24), dark air-cured, Virginia sun-cured, cigar-binder, and cigar-filler and binder tobacco. The material previously appearing in these sections under centerheads Proclamation of Quotas and Determinations and Announcements—1974-75 Marketing Year remain in full force and effect as to the crop to which it was applicable.

The determinations contained in §§ 724.12 through 724.17 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from tobacco producers and others as provided in a notice (39 FR 45296) given in accordance with the provisions of 5 U.S.C. 553.

It is determined that acreage-poundage quotas will not be announced for the 1975-76 marketing year for any of these kinds of tobacco.

Since the Act requires the holding of separate referendums of fire, dark air, sun-cured, cigar-binder, and cigar-filler and binder tobacco farmers within 30 days after issuance of the proclamation of national marketing quotas to determine whether such farmers favor marketing quotas, since such farmers must be notified, insofar as practicable of their farm acreage allotments prior to the referenda and since notices of allotments cannot be mailed until the issuance of the proclamation, and since fire-cured, dark air-cured, and sun-cured tobacco farmers are now making their plans for producing tobacco in 1975 and need to know, at the earliest possible date, the applicable 1975 tobacco allotments for their farms, it is hereby found that compliance with the 30-day effective date provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Therefore, the proclamations, determinations and announcements contained herein shall become effective upon February 3, 1975.

Section 312(b) of the Act provides, in part, that the amount of the national marketing quota is the total quantity of a kind of tobacco which may be marketed which will make available during such marketing year a supply of such tobacco equal to the reserve supply level. The amount of the national marketing quota so announced may, not later than the following March 1, be increased by not more than 20 percent if the Secretary determines that such increase is necessary in order to meet market demands or to avoid undue restrictions of marketings in adjusting the total supply to the reserve supply level.

The reserve supply level is defined in the Act as 105 percent of the normal supply. The normal supply is defined in the Act as a normal year's domestic consumption and exports, plus 175 percent

XUM V40124 FEB 4 75 XUM

of a normal year's domestic consumption and 65 percent of a normal year's exports. A normal year's domestic consumption is defined in the Act as the yearly average quantity produced in the United States and consumed in the United States during the 10 marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A normal year's exports is defined in the Act as the yearly average quantity produced in the United States which was exported from the United States during the 10 marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

FIRE-CURED (TYPE 21) TOBACCO

The yearly average quantity of fire-cured (type 21) tobacco produced in the United States which is estimated to have been consumed in the United States during the 10 marketing years preceding the 1974–75 marketing year was about 2.6 million pounds. The average annual quantity of fire-cured (type 21) tobacco produced in the United States and exported from the United States during the ten marketing years preceding the 1974–75 marketing year was 5.2 million pounds (farm-sales weight basis). Taking into account the irregular pattern of both domestic use and exports, and the market demand for the various grades, 2.8 million pounds have been used as a normal year's domestic consumption and 5.3 million pounds have been used as a normal year's exports. Application of the formula prescribed by the Act results in a reserve supply level of 17.2 million pounds.

Manufacturers and dealers reported stocks of fire-cured (type 21) tobacco held on October 1, 1974, as 7.1 million pounds. The 1974 fire-cured (type 21) tobacco crop is estimated to be 6.0 million pounds. Therefore, the total supply of fire-cured (type 21) tobacco for the 1974–75 marketing year is 13.1 million pounds. During the 1974–75 marketing year, it is estimated that disappearance will total about 5.9 million pounds. By deducting this disappearance from the total supply, a carryover of 7.2 million pounds for the 1975–76 marketing year is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1975, results in a computed national marketing quota for the 1975–76 marketing year of 10.0 million pounds. Use of the authority of the Secretary in section 312(b) of the Act to increase the computed quota by 20 percent to 12.0 million pounds, is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 12.0 million pounds.

In accordance with section 313(g) of the Act, the 1975 national marketing quota, divided by the 1970–74, 5-year national average yield of 1,157 pounds per acre, results in a 1975 national acreage allotment of 10,371.65 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 90.00 acres, by the total of the 1975 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

FIRE-CURED (TYPES 22–24) TOBACCO

The yearly average quantity of fire-cured (types 22–24) tobacco produced in the United States which is estimated to have been consumed in the United States during the ten years preceding the 1974–75 marketing year was about 16.8 million pounds. The average annual quantity of fire-cured (types 22–24) tobacco produced in the United States and exported during the ten marketing years preceding the 1974–75 marketing year was 23.7 million pounds (farm-sales weight basis). Exports of fire-cured (types 22–24) tobacco are very irregular, while domestic use has trended downward. Accordingly, a normal year's domestic consumption has been set at 15.0 and a normal year's exports at 23.7. Application of the formula prescribed by the Act results in a reserve supply level of 84.4 million pounds.

Manufacturers and dealers reported stocks of fire-cured (types 22–24) tobacco held on October 1, 1974, as 45.1 million pounds. The 1974 fire-cured (types 22–24) crop is estimated to be 28.3 million pounds. Therefore, the total supply of fire-cured (types 22–24) tobacco for the marketing year beginning October 1, 1974 is 73.4 million pounds. During the 1974–75 marketing year it is estimated that disappearance will total about 38.2 million pounds. By deducting this disappearance from the total supply, a carryover of 35.2 million pounds for the 1975–76 marketing year is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1975, results in a computed national marketing quota for the 1975–76 marketing year of 49.2 million pounds. Use of the authority of the Secretary in section 312(b) of the Act to increase the computed quota by 20 percent to 59.0 million pounds is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 59.0 million pounds.

In accordance with section 313(g) of the Act, the 1975 national marketing quota, divided by the 1970–74, 5-year national average yield of 1,784 pounds per acre, results in the 1975 national acreage allotment of 33,071.75 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.125 is determined by dividing the national acreage allotment, less a national reserve of 223.00 acres, by the total of the 1975 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

DARK AIR-CURED TOBACCO

The yearly average quantity of dark air-cured tobacco produced in the United States which is estimated to have been consumed in the United States during the ten years preceding the 1974–75 marketing year was about 16.8 million pounds, and the average annual quantity produced domestically and exported during this period was 2.9 million pounds (farm-sales weight basis). Total disappearance of dark air-cured tobacco has been trending downward for many years. Therefore, in accordance with the Act, 16.4 million pounds has been used as a normal year's domestic consumption and 2.6 million pounds as a normal year's exports. Application of the formula prescribed by the Act results in a reserve supply level of 51.9 million pounds.

Manufacturers and dealers reported stocks of dark air-cured tobacco held on October 1, 1974, as 36.9 million pounds. The 1974 dark air-cured crop is estimated to be 12.1 million pounds. Therefore, the total supply for the marketing year beginning October 1, 1974, is 49.0 million pounds. During the 1974–75 marketing year, it is estimated that disappearance will total about 18.6 million pounds. By deducting this disappearance from the total supply, a carryover of 30.4 million pounds for the 1975–76 marketing year, is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1975, results in a national marketing quota for the 1975–76 marketing year of 21.5 million pounds.

In accordance with section 313(g) of the Act, the 1975 national marketing quota, divided by the 1970–74, 5-year national average yield of 1,788 pounds per acre, results in a 1975 national acreage allotment of 12,024.61 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.100 is determined by dividing the national acreage allotment, less a national reserve of 41.00 acres, by the total of the 1975 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

VIRGINIA SUN-CURED TOBACCO

The yearly average quantity of Virginia sun-cured tobacco produced in the United States which is estimated to have been consumed in the United States during the ten marketing years preceding the 1974–75 marketing year was about 1,150 thousand pounds, and the average annual quantity produced in the United States and exported during the same period was 275 thousand pounds (farm-sales weight basis). While there has been a downward trend in exports and domestic use during the base period, total disappearance has exceeded production during 8 years of the 10-year period. Farms are producing only about 42 percent of the allotted acreage and disappearance has declined because of inadequate supplies. With this in mind, 1,350 thousand pounds has been used as a normal year's domestic consumption and 250 thousand pounds as a normal year's exports. Application of the formula prescribed by the Act results in a reserve supply level of 4,332 thousand pounds.

Manufacturers and dealers reported stocks of Virginia sun-cured tobacco held on October 1, 1974, as 2,974 thousand pounds. The 1974 Virginia sun-cured tobacco crop is estimated to be 918 thousand pounds. Therefore, the total supply of Virginia sun-cured tobacco for the 1974–75 marketing year is 3,892 thousand pounds. During the 1974–75 marketing year, it is estimated that disappearance will total about 1,100 thousand pounds. By deducting this disappearance from the total supply, a carryover of 2,792 thousand pounds for the 1975–76 marketing year, is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1975 results in a computed national marketing quota for the 1974–75 marketing year of 1,540 thousand pounds. Use of the authority of the Secretary in section 312(b) of the Act to increase the computed quota by 20 percent to 1,848 thousand pounds is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 1,848 thousand pounds.

In accordance with section 313(g) of the Act, the 1974 national marketing quota, divided by the 1970–74, 5-year national average yield of 1,196 pounds per acre, results in a 1975 national acreage allotment of 1,545.15 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 14.50 acres, by the total of the 1975 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

CIGAR-BINDER (TYPES 51 & 52) TOBACCO

The yearly average quantity of cigar-binder (types 51 & 52) tobacco produced in the United States which is estimated to have been consumed in the United States during the ten years preceding the 1974–75 marketing year was about 4.0 million pounds. The average annual quantity of cigar-binder tobacco produced in the United States and exported from the United States during the ten marketing years preceding the 1974–75 marketing year was .9 million pounds (farm-sales weight basis). Since farmers are producing only about 27 percent of the allotted acreage and since use is being controlled by the short supply, average domestic consumption has been used as a normal year's domestic consumption and average exports as a normal year's exports. Application of the formula prescribed by the Act results in a reserve supply level of 13.1 million pounds. Manufacturers and dealers reported stocks of cigar-binder tobacco held on October 1, 1974, as 7.0 million pounds. The 1974 cigar-binder crop is estimated to be 2.5 million pounds. Therefore, the total supply of cigar-binder tobacco for the 1974–75 marketing year is 9.5 million pounds. During the 1974–75 marketing year, it is estimated that disappearance will total about 3.2 million pounds. By deducting the estimated disappearance during the 1974–75 marketing year from the total supply, a carryover of 6.3 million pounds at the beginning of the 1975–76 marketing year is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1975, results in a computed national marketing quota for the 1975–76 marketing year of 6.8 million pounds. Use of the authority of the Secretary in section 312(b) of the Act to increase the computed quota by 20 percent to 8.2 million pounds is deemed to be justified in order to avoid undue restrictions of marketings. This results in a national marketing quota of 8.2 million pounds.

In accordance with section 313(g) of the Act, the 1974 national marketing quota of 8.2 million pounds, divided by the 1970–74, 5-year national average yield of 1,712 pounds per acre, results in a 1975 national acreage allotment of 4,789.72 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of .950 is determined by dividing the national acreage allotment, less a national reserve of 47.89 acres, by the total of the 1975 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national allotment, less reserve, to old farms.

CIGAR-FILLER AND BINDER TOBACCO

The yearly average quantity of cigar-filler and binder tobacco produced in the United States which is estimated to have been consumed in the United States during the ten years preceding the 1974–75 marketing year was about 24.2 million pounds. The average annual quantity of cigar-filler and binder tobacco produced in the United States and exported from the United States during the ten marketing years preceding the 1974–75 marketing year was 0.2 million pounds (farm-sales weight basis). Following reasonable marketing trends, a normal year's domestic consumption has been set at 24.7 million pounds and a normal year's exports at 0.2 million pounds. Application of the formula prescribed by the Act, results in a reserve supply level of 71.6 million pounds.

Manufacturers and dealers reported stocks of cigar-filler and binder tobacco held on October 1, 1974, as 41.7 million pounds. The 1974 cigar-filler and binder crop is estimated to be 20.9 million pounds. Therefore, the total supply of cigar-filler and binder tobacco for the 1974–75 marketing year is 62.6 million pounds. During the 1974–75 marketing year, it is estimated that disappearance will total about 24.8 million pounds. By deducting this disappearance from the total supply, a carryover of 37.8 million pounds at the beginning of the 1975–76 marketing year is obtained.

The difference between the reserve supply level and the estimated carryover on October 1, 1975, results in national marketing quota for the 1975–76 marketing year of 33.8 million pounds.

In accordance with section 313(g) of the Act, the 1975 national marketing quota of 33.8 million pounds, divided by the 1970–74, 5-year national average yield of 1,895 pounds per acre, results in the 1975 national acreage allotment of 17,836.41 acres.

Pursuant to the provisions of section 313(g), a national acreage factor of 1.0 is determined by dividing the national acreage allotment, less a national reserve of 62.00 acres, by the total of the 1975 preliminary farm acreage allotments. The preliminary farm acreage allotments reflect the factors specified in section 313(g) for apportioning the national acreage allotment, less reserve, to old farms.

Part 724 is amended by revising Subpart—Proclamations, determinations, and announcements of national marketing quotas and referendum results, as follows:

PROCLAMATION OF QUOTAS

Sec.
724.6 Cigar-binder (types 51 and 52)—1975–76, 1976–77, and 1977–78 marketing years.
724.7 Cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) 1975–76, 1976–77, 1977–78 marketing years.

DETERMINATIONS AND ANNOUNCEMENTS—1975–76 MARKETING YEARS

724.12 Fire-cured (type 21) tobacco.
724.13 Fire-cured (types 22–24) tobacco.
724.14 Dark air-cured tobacco.
724.15 Virginia sun-cured tobacco.
724.16 Cigar-binder (types 51 and 52) tobacco.
724.17 Cigar-filler and binder (type 42, 43, 44, 53, 54, and 55) tobacco.

AUTHORITY: The provisions of this subpart are issued under secs. 301, 312, 313, 375, 52 Stat. 38, as amended, 46, as amended, 66, as amended; 7 U.S.C. 1301, 1312, 1313, 1375.

PROCLAMATION OF QUOTAS

§ 724.6 Cigar binder tobacco (types 51 and 52)—1975–76, 1976–77, and 1977–78 marketing years.

Since the 1974–75 marketing year is the last of three consecutive years for which marketing quotas previously proclaimed will be in effect for cigar-binder tobacco, a national marketing quota for such kind of tobacco for each of the three marketing years beginning October 1, 1975, October 1, 1976, and October 1, 1977, is hereby proclaimed.

§ 724.7 Cigar-filler and binder tobacco (types 42, 43, 44, 53, 54, and 55)—1975–76, 1976–77, and 1977–78 marketing years.

Since the 1974–75 marketing year is the last of three consecutive years for which marketing quotas previously proclaimed will be in effect for cigar-filler and binder tobacco, a national marketing quota for such kind of tobacco for each of the three marketing years beginning October 1, 1975, October 1, 1976, and October 1, 1977 is hereby proclaimed.

FEB 4 75
XUM

DETERMINATIONS AND ANNOUNCEMENTS—1975–76 MARKETING YEAR

§ 724.12 Fire-Cured (type 21) tobacco.[1]

(a) *Reserve supply level.*[1] The reserve supply level for fire-cured (type 21) tobacco is 17.2 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 2.8 million pounds and a normal year's exports of 5.3 million pounds.

(b) *Total supply.*[1] The total supply of fire-cured (type 21) tobacco for the marketing year beginning October 1, 1974, is 13.1 million pounds, calculated in accordance with the Act, from a carryover of 7.1 million pounds and estimated 1974 production of 6.0 million pounds.

(c) *Carryover.*[1] The estimated carryover of fire-cured (type 21) tobacco for the marketing year beginning October 1, 1974, is 7.2 million pounds, calculated in accordance with the Act by subtracting the estimated disappearance for the marketing year beginning October 1, 1975, of 5.9 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of fire-cured (type 21) tobacco which will make available during the marketing year beginning October 1, 1975, a supply equal to the reserve supply level of such tobacco is 10.0 million pounds, and a national marketing quota of such amount is hereby announced. It is determined however, that a national marketing quota in the amount of 10.0 million pounds would result in undue restriction of marketings during the 1975–76 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for fire-cured (type 21) tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1975 is 12.0 million pounds.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1975–76 marketing year by the 5-year 1970–74 national average yield of 1,157 pounds is 10,371.65 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments is 1.0. It was calculated in accordance with the Act by dividing the national acreage the total of the preliminary allotments for 1975 old farms.

(g) *National reserve.* The national acreage reserve is 90.00 acres, of which 15.00 acres are made available for 1975 new farms, and 75.00 acres are made available for making corrections and adjusting inequities in old farm allotments. allotment, less the national reserve, by

§ 724.13 Fire-cured (types 22–24) tobacco.

(a) *Reserve supply level.*[1] The reserve supply level for fire-cured (types 22–24) tobacco is 84.4 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 15.0 million pounds and a normal year's exports of 23.7 million pounds.

(b) *Total supply.*[1] The total supply of fire-cured (types 22–24) tobacco for the marketing year beginning, October 1, 1974, is 73.4 million pounds, calculated in accordance with the Act, from a carryover of 45.1 million pounds and estimated 1974 production of 28.3 million pounds.

(c) *Carryover.*[1] The estimated carryover of fire-cured tobacco (types 22–24) for the marketing year beginning October 1, 1975, is 35.2 million pounds, calculated in accordance with the Act by subtracting the estimated disappearance for the marketing year beginning October 1, 1974, of 38.2 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of fire-cured (types 22–24) tobacco which will make available during the marketing year beginning October 1, 1975, a supply equal to the reserve supply level of such tobacco is 49.2 million pounds, and a national marketing quota of such amount is hereby announced. It is determined, however, that a national marketing quota in the amount of 49.2 million pounds would result in undue restriction of marketings during the 1975–76 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for fire-cured (types 22–24) tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1975, is 59.0 million pounds.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1975–76 marketing year by the 5-year 1970–74 national average yield of 1,784 pounds is 33,071.75 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1975–76 marketing year is 1.125. It was calculated in accordance with the Act by dividing the national acreage allotment, less the national reserve, by the total of the preliminary allotments for 1975 old farms.

(g) *National reserve.* The national acreage reserve is 223.00 acres, of which 10.00 acres are made available for 1975 new farms and 213.00 acres are made available for making corrections and adjusting inequities in old farm allotments.

§ 724.14 Dark air-cured tobacco.

(a) *Reserve supply level.*[1] The reserve supply level for dark air-cured tobacco is 51.9 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 16.4 million pounds and a normal year's exports of 2.6 million pounds.

(b) *Total supply.*[1] The total supply of dark air-cured tobacco for the marketing year beginning October 1, 1974, is 49.0 million pounds calculated in accordance with the Act, from a carryover of 36.9 million pounds and estimated 1974 production of 12.1 million pounds.

(c) *Carryover.*[1] The estimated carryover of dark air-cured tobacco for the marketing year beginning October 1, 1975, is 30.4 million pounds, calculated in accordance with the Act by subtracting the estimated disappearance for the marketing year beginning October 1, 1974, of 18.6 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of dark air-cured tobacco which will make available during the marketing year beginning October 1, 1975, a supply equal to the reserve supply level of such tobacco is 21.5 million pounds, and a national marketing quota of such amount is hereby announced.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1975–76 marketing year by the 5-year, 1970–74, national average yield of 1,788 pounds, is 12,024.61 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1975–76 marketing year is 1.100. It was calculated in accordance with the Act by dividing the national acreage allotment, less reserve, by the total of the preliminary allotments for 1975 old farms.

(g) *National reserve.* The national acreage reserve is 41.00 acres, of which 5.00 acres are made available for 1975 new farms, and 36.00 acres are made available for making corrections and adjusting inequities in old farm allotments.

§ 724.15 Virginia sun-cured tobacco.

(a) *Reserve supply level.*[2] The reserve supply level for Virginia sun-cured tobacco is 4,332 thousand pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 1,350 thousand pounds and a normal year's export of 250 thousand pounds.

(b) *Total supply.*[2] The total supply of Virginia sun-cured tobacco for the marketing year beginning October 1, 1974, calculated in accordance with the Act, is 3,892 thousand pounds, consisting of carryover of 2,974 thousand pounds and estimated 1974 production of 918 thousand pounds.

(c) *Carryover.*[2] The estimated carryover of Virginia sun-cured tobacco for the marketing year beginning October 1, 1975, is 2,792 thousand pounds, calculated in accordance with the Act by subtracting the estimated disappearance for the marketing year beginning October 1, 1974, of 1,100 thousand pounds from the total supply of such tobacco.

(d) *National marketing quota.*[2] The amount of Virginia sun-cured tobacco which will make available during the marketing year beginning October 1,

[1] Rounded to the nearest tenth of a million.

[1] Rounded to the nearest tenth of a million.

[1] Rounded to the nearest tenth of a million.
[2] Rounded to the nearest thousand pounds.

1975, a supply equal to the reserve supply level of such tobacco is 1,540 thousand pounds, and a national marketing quota of such amount is hereby announced. It is determined, however, that a national marketing quota in the amount of 1,540 thousand pounds would result in undue restriction of marketings during the 1975–76 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for Virginia sun-cured tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1975, is 1,848 thousand pounds.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1975–76 marketing year by the 5-year, 1970–74, national average yield of 1,196 pounds, is 1,545.15 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1975–76 marketing year is 1.0. It was calculated in accordance with the Act by dividing the national acreage allotment, less reserve, by the total of the preliminary allotments for 1975 old farms.

(g) *National reserve.* The national acreage reserve is 14.50 acres, of which 5.00 acres are made available for 1975 new farms, and 9.50 acres are made available for making corrections and adjusting inequities in old farm allotments.

§ 724.16 Cigar-binder (type 51 and 52) tobacco.

(a) *Reserve supply level.*[1] The reserve supply level for cigar-binder (types 51 & 52) tobacco is 13.1 million pounds calculated as provided by the Act, from a normal year's domestic consumption of 4.0 million pounds and a normal year's exports of .9 million pounds.

(b) *Total supply.*[1] The total supply of cigar-binder (types 51 & 52) tobacco for the marketing year beginning October 1, 1974, is 9.5 million pounds, calculated in accordance with the Act from a carryover of 7.0 million pounds and estimated 1974 production of 2.5 million pounds.

(c) *Carryover.*[1] The estimated carryover of cigar-binder (types 51 & 52) tobacco for the marketing year beginning October 1, 1975, is 6.3 million pounds, calculated in accordance with the Act, by subtracting the estimated disappearance for the marketing year beginning October 1, 1974, of 3.2 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of cigar-binder (types 51 & 52) tobacco which will make available during the marketing year beginning October 1, 1975, a supply equal to the reserve supply level of such tobacco is 6.8 million pounds, and a national marketing quota of such amount is hereby announced. It is determined, however, that a national marketing quota in the amount of 6.8 million pounds would result in undue restrictions of marketings during the 1975–76 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for cigar-binder (type 51 & 52) tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1975, is 8.2 million pounds.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1975–76 marketing year by the 5-year, 1970–74 national average yield of 1,712 pounds is 4,789.72 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1975–76 marketing year is 0.950. It was calculated in accordance with the Act by dividing the national acreage allotment, less reserve, by the total of the preliminary allotments for the 1975 old farms.

(g) *National reserve.* The national acreage reserve is 47.89 acres all of which are made available for making corrections and adjusting inequities in old farm allotments.

§ 724.17 Cigar-filler and binder (types 42–44, 53–55) tobacco.

(a) *Reserve supply level.*[1] The reserve supply level for cigar-filler and binder (types 42–44, 53–55) tobacco is 71.6 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 24.7 million pounds and a normal year's exports of 0.2 million pounds.

(b) *Total supply.*[1] The total supply of cigar-filler and binder (types 42–44, 53–55) tobacco for the marketing year beginning October 1, 1974, is 62.6 million pounds calculated in accordance with the Act, from a carryover of 41.7 million pounds and estimated 1974 production of 20.9 million pounds.

(c) *Carryover.*[1] The estimated carryover of cigar-filler and binder (types 42–44, 53–55) tobacco for the marketing year beginning October 1, 1975, is 37.8 million pounds, calculated in accordance with the Act, by subtracting the estimated disappearance for the marketing year beginning October 1, 1974, of 24.8 million pounds from the total supply of such tobacco.

(d) *National marketing quota.*[1] The amount of cigar-filler and binder (types 42–44, 53–55) tobacco which will be made available during the marketing year beginning October 1, 1975, a supply equal to the reserve supply level of such tobacco is 33.8 million pounds, and a national marketing quota of such amount is hereby announced.

(e) *National acreage allotment.* The national acreage allotment, calculated in accordance with the Act by dividing the national marketing quota for the 1975–76 marketing year by the 5-year, 1970–74 national average yield of 1,895 pounds, is 17,836.41 acres.

(f) *National acreage factor.* The national acreage factor for use in determining farm acreage allotments for the 1975–76 marketing year is 1.0. It was calculated in accordance with the Act by dividing the national acreage allotment, less reserve by the total of the preliminary allotments for 1975 old farms.

(g) *National reserve.* The national acreage reserve is 62.00 acres, of which 50.00 acres are made available for 1975 new farms, and 12.00 acres are made available for making corrections and adjusting inequities in old farm allotments.

Effective date: February 3, 1975.

Signed at Washington, D.C. on January 30, 1975.

E. J. PERSON,
Acting Administrator, Agricultural Stabilization and Conservation Service.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Emergency Amendment—Department of Defense Allocations; Cancellation of Public Hearing

On January 9, 1975, the Federal Energy Administration issued an emergency amendment to § 211.26 of Part 211, Chapter II, Title 10, Code of Federal Regulations (40 FR 2692, January 15, 1975). A public hearing on the amendment was scheduled for February 5, 1975.

Only three requests to make oral presentations were received by FEA prior to 4:30 p.m., January 27, 1975, and those requests were subsequently withdrawn. Therefore, FEA hereby gives notice that the public hearing is cancelled.

ROBERT E. MONTGOMERY, JR.,
General Counsel.

JANUARY 31, 1975.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

PART 104—PROCEEDINGS TO SUSPEND OR REVOKE THE PRIVILEGE OF ANY AGENT TO APPEAR BEFORE SBA

Miscellaneous Amendments; Correction

The document published December 30, 1972 (37 FR 28895), amending Part 101 incorrectly contained an amendment purporting to revise § 104.1. This was in error and should have revised § 101.4. The text of § 104.1 is being reinstated to read as follows:

§ 104.1 Rules of procedure.

The Small Business Administrator (referred to in this part as "Administrator" may, in accordance with § 103.-13-4 of this chapter, suspend or revoke the privilege of any agent (called "Respondent" in this part) to appear before SBA. Proceedings for such purpose shall be governed by the rules in this part.

Dated: January 30, 1975.

THOMAS S. KLEPPE,
Administrator.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74-SO-19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On March 13, 1974, a notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 9671), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal aviation regulations that would designate the Selmer, Tenn., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal aviation regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

SELMER, TENN.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Robert Sibley Airport (latitude 35°12'38" N., longitude 88°30'30" W.); within 3 miles each side of the 334° bearing from Sibley RBN (latitude 35°14'15" N., longitude 88°31'03" W.,), extending from the 6.5-mile radius area to 8.5 miles northwest of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on January 23, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-3108 Filed 2-3-75;8:45 am]

[Docket No. 13668; Amdt. No. 103-23]

PART 103—TRANSPORTATION OF DANGEROUS ARTICLES AND MAGNETIZED MATERIALS

Loading and Carrying Dangerous Articles: Inspection Requirements and Radiation Monitoring

The purpose of these amendments to Part 103 of the Federal Aviation Regulations is to prohibit the carriage of any dangerous article in an aircraft unless the outside container in which that article is packaged has been inspected to determine that, in all outward respects, it complies with the packaging, marking, and labeling requirements of Part 103. In addition to this inspection, these amendments require that, after June 30, 1975, when radioactive materials are to be carried, the exterior surfaces of the package, and, when appropriate, certain parts of the aircraft, be scanned with a radiation monitoring instrument.

These amendments are based on a Notice of Proposed Rule Making (Notice No. 74-18) published in the FEDERAL REGISTER on April 25, 1974 (39 FR 14612). Interested persons have been afforded an opportunity to participate in the making of these amendments and due consideration has been given to all comments received in response to that Notice. Except as discussed hereinafter, these amendments and the reasons therefore are the same as those in Notice 74-18.

More than 65 comments were received in response to Notice 74-18. These range from full support of the proposal to recommendation of revisions to total objection. Several commentators made suggestions that were not within the scope of the Notice, and, accordingly, these comments are not discussed, but will be retained for consideration in future rule making. The most frequent objection was to the requirement that air carriers monitor shipments of hazardous materials and, especially, that they be required to acquire expensive radiation monitoring equipment and have it available at each place where packages containing radioactive materials are loaded or unloaded. The FAA believes, however, that inspection by air carriers to the limited extent required by these amendments is necessary in the interests of safety. This inspection does not require the opening of packages but only the inspection of containers for leaks, holes, dents or other evidence that the packaging is not intact. With respect to the monitoring of radioactive shipments, the FAA realizes that, in order to fulfill the requirements that are adopted by these amendments, persons who transport radioactive materials by air will be required to obtain radiation monitoring equipment and to have it available wherever packages containing such materials are loaded or unloaded aboard their aircraft.

A number of commentators objected to the scanning of the passenger compartment with a radiation monitoring device prior to departure of the aircraft for a variety of reasons. One commentator noted that such scanning would produce unnecessary apprehension in the passengers and might result in aircraft delays. Another, an air carrier, objected to the requirement since it has instituted procedures to check radioactive shipments with radiation monitoring equipment at acceptance, transfer points and destination stations. Others objected to the fact that standards for maximum acceptable radiation levels in the passenger compartment are vague whereas the standards for individual packages are specific and workable. After further consideration in light of these comments, the proposed requirement for a scan of the passenger compartment prior to takeoff of any aircraft carrying radioactive materials has not been adopted. Instead, the regulations, as adopted, require only a scan of each package containing radioactive materials to be loaded aboard the aircraft.

In addition, proposed § 103.23(c)(1) has been revised to clarify the determination to be made prior to placing any package containing radioactive materials in an aircraft. The FAA believes that these measures will be more effective in detecting any possible conditions that might involve radiation levels in excess of those permitted by the regulations than would scanning the passenger compartment as proposed.

The requirements to be complied with in conducting the scanning of any package of radioactive material, and, when required, any cargo compartment in which it has been carried, are set out in a separate paragraph, new paragraph (d) of § 103.23. The radiation levels that are specified in § 103.23(d) for scanning any package bearing a radioactive yellow II label, any package containing a radioactive yellow III label, any package that contains radioactive materials but that does not bear either of these labels, and for scanning a compartment from which a package has been unloaded, are those that are currently prescribed in Title 49 Part 173 and in § 103.23(b).

Several commentators objected to the requirement that was proposed in Notice 74-18 that the compartment in which any package containing radioactive materials is carried be scanned for excessive radiation after removal of the package. These commentators pointed out that even though one package has been removed, the cargo compartment might contain other packages of the material for later delivery. The FAA agrees with these comments, and accordingly, new § 103.23(c)(2) has been changed from what was proposed as new § 103.23(c)(3) in Notice 74-18 to require only that each package of radioactive materials that is removed from the aircraft be scanned in accordance with new § 103.23(d). Only in the event that the level of radiation of the package exceeds those levels specified in paragraph (d) will the aircraft operator be required to empty the compartment of all cargo and conduct the scan of the cargo compartment that was proposed in Notice 74-18.

As proposed in Notice 74-18, the scan required by § 103.23 is required to be performed using a radiation monitoring instrument with an accuracy of plus or minus 20 percent. Accordingly, the measurements that are required to be taken by that section are designed to tolerate a 20 percent deviation. However, deviations in the radiation dose rate that are lower than those indicated on any package will not require any action on the part of the aircraft operator.

The requirement that the operator of the aircraft scan any package that contains radioactive materials with an appropriately sensitive radiation monitoring instrument before acceptance of it for carriage by air becomes effective after June 30, 1975, because the FAA believes that aircraft operators that carry radioactive materials should be given time to acquire the necessary radiation monitoring instruments and to train personnel in their use.

An editorial change has been made to § 103.3(a) to clarify the meaning of the phrase "a facsimile of [the shipper's] signature." Section 103.3(a), as adopted, permits the signature that is required on the shipper certificate to be made by typewriter or other mechanical means.

A phrase, "and the package seal has not been broken," has been added to § 103.4(1) to clarify the fact that the seal on any package containing radioactive materials must be intact in order to assure that the package has not been illicitly opened.

A redundancy has been removed from what was proposed for § 103.4 by the exclusion of paragraph (4) of the proposed section since that paragraph merely reiterated what was said in paragraph (3).

These amendments are issued under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421), and sections 105 and 108 of Pub. L. 93-633, as delegated to the Administrator by the Secretary of Transportation (40 FR 2861).

In consideration of the foregoing, and for the reasons stated in Notice 74-18, Part 103 of the Federal Aviation Regulations is amended, effective March 7, 1975, as follows:

1. By amending § 103.3 by revising paragraph (a) and by adding a new paragraph (d) to read as follows:

§ 103.3 Certification requirements.

(a) No person may offer any dangerous article for shipment in an aircraft unless there is accompanying the shipment a clear and visible statement that the shipment complies with the content, quantity, packaging, marking, and labeling requirements of this part. The shipper's statement shall include a statement of whether the shipment is eligible under this part for shipment in passenger-carrying aircraft. The shipper or his authorized agent shall sign the statement manually, or by typewriter or other mechanical means.

* * * * *

(d) No person may accept any dangerous article for shipment in an aircraft unless—

(1) It is accompanied by the statement required by paragraph (a) of this section;

(2) The inspection required by § 103.4 discloses that the packaging, marking, and labeling of the hazardous material is in compliance with this Part; and

(3) After June 30, 1975, for radioactive materials, the inspection required by § 103.23(c) discloses that the radiation dose rate does not exceed any requirement set forth in § 103.23(d).

2. By adding a new § 103.4 to read as follows:

§ 103.4 Inspection requirements.

(a) No person may carry any dangerous article in an aircraft unless, prior to placing the article in the aircraft, the operator of the aircraft has inspected the outside container in which that article is packaged and has determined that—

(1) The container has no dents, holes, leakage or other indication that the integrity of the packaging has been compromised and, for radioactive materials, that the package seal has not been broken;

(2) The labeling and marking of the container complies with the requirements of this part; and

(3) The dangerous article is authorized, and is within the quantity limitations specified, by this part for carriage aboard the aircraft.

3. By adding new paragraphs (c) and (d) to § 103.23 to read as follows:

§ 103.23 Special requirements for radioactive materials.

* * * * *

(c) In addition to the inspection required by § 103.4, after June 30, 1975, the operator of the aircraft shall—

(1) Before placing any package of radioactive materials in an aircraft, scan it in accordance with paragraph (d) of this section.

(2) After the removal of any package containing radioactive materials from an aircraft and before the next departure of the aircraft—

(i) Examine the package visually for any evidence of leakage, and scan it in accordance with paragraph (d) of this section; and

(ii) When the examination or the scanning required by subparagraph (2)(i) of this paragraph discloses any leakage or indicates that the level of radiation exceeds any of the levels specified in subparagraph (2) of paragraph (d) of this section, immediately empty the compartment from which the package was unloaded and scan the compartment in accordance with paragraph (d) of this section.

(d) In conducting the scanning required by paragraph (c) of this section, the operator shall—

(1) Use a radiation monitoring instrument that is accurate to plus or minus 20 percent;

(2) When scanning a package, scan each exterior surface of the package to determine whether the level of radiation being emitted exceeds any of the following:

(i) Any level of radiation specified for the package in any shipper's statement required by § 103.3 or 49 CFR Part 173.

(ii) Any level of radiation indicated by any label or marking on the package.

(iii) A transport index of 0.5 for a package bearing a radioactive yellow II label.

(iv) A transport index of 10 for a package bearing a radioactive yellow III label.

(v) A radiation dose rate of zero millirem per hour at 3 feet from all exterior surfaces for a package that does not bear a radioactive yellow II or a radioactive yellow III label.

(3) When scanning a compartment from which the package has been unloaded, scan the compartment to determine the following:

(i) Whether there has been any spillage of radioactive material.

(ii) Whether the radiation dose rate at any surface of the compartment exceeds 0.5 millirem per hour.

(e) No person may operate any aircraft when a scanning in accordance with paragraph (d)(3) of this section indicates any spillage of radioactive materials or a dose rate of 0.5 millirem or more per hour until —

(1) There is no significant removable radioactive surface contamination; and

(2) A new scanning indicates a dose rate of less than 0.5 millirem per hour.

4. By amending § 103.25 to read as follows:

§ 103.25 Notification of pilot in command.

(a) Whenever articles subject to the provisions of this Part are carried in an aircraft, the operator of the aircraft shall include in the cargo load manifest, and in a written notice given to the pilot in command before takeoff, the following information:

(1) The shipping name and the classification of each dangerous article as prescribed in 49 CFR 172.5.

(2) The quantity in terms of weight, volume, or as otherwise appropriate.

(3) The location of the dangerous articles in the aircraft.

(4) The results of the inspections required by § 103.23.

Issued in Washington, D.C., on January 28, 1975.

ALEXANDER P. BUTTERFIELD,
Administrator.

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

SUBCHAPTER B—REGULATIONS UNDER THE FEDERAL POWER ACT

[Docket No. RM75-3; Order No. 520-A]

PART 32—INTERCONNECTION OF FACILITIES; EMERGENCIES; TRANSMISSION TO FOREIGN COUNTRY

Denial of Applications for Rehearing and Reconsideration

JANUARY 27, 1975.

The Commission, on November 29, 1974, issued its Order No. 520, 39 FR 42903, amending part 32 of the Commission's regulations under the Federal Power Act by establishing new §§ 32.60 through 32.62. The new regulations govern the filing of applications for emergency authorizations pursuant to section 202(c) of the Act.[1] No prior regulations had been issued before by the Commission to implement the statutory authority under that section of the Act. Section 32.60 provides guidance as to the general applicability of section 202(c). Section 32.61 provides regulations governing the filing by electric utilities of all applications for the Commission's "emergency" authorizations. Section 32.62 provides regulations governing the filing of applications for "emergency" orders specifically based upon claimed inadequate supplies of fuel (including coal, petroleum, natural gas and nuclear fuel) for electric generating plants or an inadequate supply of energy for system needs from any source (including hydro).

Five pleadings have been filed, variously entitled as "Applications for Rehearing" and for "Reconsideration" of Order No. 520, by Congressman Harrington of Massachusetts (Congressman Harrington), Richmond Power & Light of Richmond, Indiana (Richmond), the Iowa State Commerce Commission (Iowa), the Public Service Commission of the State of New York (New York), and Southern California Edison Company (Edison). All except Iowa's pleading, which was filed on January 2, 1975, were timely filed. Iowa's "Motion for Clarification and/or Reconsideration", therefore, may not properly be treated as an "Application for Rehearing" pursuant to section 1.34(a) of our rules of practice and procedure. It will, however, be considered as a motion for reconsideration. Tennessee Valley Authority (TVA), although it did not file an application for rehearing, by letter of its General Counsel to this Commission's then Acting General Counsel, dated December 23, 1974, communicated its views on Order No. 520 and the new regulations, insofar as they relate to TVA.

In issuing these regulations, it was our intention to promulgate regulations governing the criteria and standards under which the Commission could make the necessary and appropriate findings as the basis for declaring an "emergency" to exist under section 202(c), indicate the type of action or actions that may be taken by the Commission, and set forth the ratemaking principles that will be applied, subject, however, to further findings of fact and the applicability of those criteria, standards and ratemaking principles in individual cases. For these purposes, we duly issued and published notice, on August 26, 1974, 39 FR 31654, of the commencement of the proceeding and of the proposed new regulations. Opportunity for interested persons to comment upon the proposed regulations was provided and over 70 comments were received and considered (footnote 1, Order No. 520).

In our discussion of ratemaking principles in Order No. 520, we indicated that the hearing which section 202(c) contemplates has been provided by this rulemaking proceeding. This, of course, does not take the place of any necessary hearings required to determine any factual issues involving the applicability of these new regulations in particular cases. But, we do not anticipate that hereafter we should countenance substantive challenges to these criteria, standards and ratemaking principles. Accordingly, it is appropriate to treat the four timely filed petitions and applications as having been filed pursuant to section 1.34 of the Commission's rules of practice and procedure and section 313(a) of the Act.[2]

Congressman Harrington's application cites the fact that in our order we disagreed with his contention that the definition of an "emergency" under section 202(c) "should be broad enough to encompass the kind of severe economic dislocations" now facing the Nation. Particularly, he emphasizes a national policy "to end our dependence on the oil cartel." We said in Order No. 520, that while we did not reject these goals, we could not agree that such national policy objectives alone trigger issuance of section 202(c) emergency orders.

Moreover, in Order No. 520, we intended to confine our actions as closely as possible to the statutory list of causes for a finding of an "emergency" that does not include the "severe economic dislocations", although we recognize that they may contribute to the principal causes of any specific emergency for which an application may be filed. What section 202(c) authorizes is temporary interconnections, generation and transmission of bulk power and energy to forestall imminent threats to the reliability of service, *not* actions designed to meet such long-range national goals. As we said in Order No. 520 (footnote [1]), the Commission has been implementing such broad national economic goals in other programs and proceedings.

Both Congressman Harrington and Richmond have restated essentially the same position in advancing arguments with respect to the market structure and operations of the bulk power industry. They advanced similar positions and contentions in the "Coal-by-Wire" proceeding in Docket No. RM74-22 *et al.*, that are now pending on applications for rehearing of the Commission's order issued August 26, 1974, 39 FR 32060. That order denied their position. These parties ask the Commission to establish area-wide inter-regional rates and rate schedules for temporary, emergency transmission service. In effect, they contend that the present industry structure should be changed from its present basis in which each transmitting company buys and sells in succession, as the power and energy moves from the generator-supplier across intervening systems to a remote "emergency" applicant.

Congressman Harrington recommends that the Commission should establish policies which permit these utilities (generator-supplier and emergency applicant) to "deal with each other directly" without the necessity of dealing with each intervening utility and possibly resulting in a "substantial, and

[1] Section 202 (c), 49 Stat. 849; 16 U.S.C. 824a(c).

[2] Section 313(a), 49 Stat. 860; 72 Stat. 947; 16 U.S.C. 825 l (a); Pacific Gas and Electric Co. v. F.P., —— F.2d —— (CADC No. 73-1358); decided June 26, 1974, slip op. pp. 11-12.

undeserved profit" to such intervening utilities. Richmond's arguments center upon the common theme of its lack of "accessibility" to transmission at reasonable rates and terms, as constituting a "roadblock to speedy Commission action and expeditious self-help" by the parties in an emergency.

Without in any sense reconsidering in this proceeding the position and contentions of Congressman Harrington and Richmond now pending before us in the other proceeding (Docket No. RM74-22 et al.) and without prejudice to those positions and contentions, we find that it is sufficient for the purpose of this proceeding to conclude, as we do, that these recommendations for changing the basic structure and operations of the bulk power industry are beyond the appropriate scope of this proceeding. Our notice of rulemaking issued August 26, 1974, and published in this proceeding, 39 FR 31654, August 30, 1974, contains no reference to any proposal to restructure the industry. Furthermore, we cannot agree with these two parties that to legislate such restructuring of the industry in this proceeding that is aimed at expeditiously issuing regulations needed to govern emergency orders and encourage emergency transfers on a voluntary basis, would lead to the "expeditious self-help" referred to by Richmond. Indeed, it is essential in view of the fuel and energy problems now facing the industry, described in the August 26 notice, supra, and touched briefly in Order No. 520, that these regulations be issued and made completely effective without delay. These recommendations and contentions, therefore, are denied.

Richmond raises a question that indicates the need for clarification of Order No. 520. In contending that an "exorbitant" fuel price should be treated as a proper predicate for an emergency order, Richmond incorrectly complains of the Commission's emphasis on fuel shortages and asserts that the regulation "speaks only in terms of fuel" as the sole criterion of relief under 202(c). In this respect, it has overlooked the fact that the new regulations, particularly §§ 32.60 and 32.61, as stated above (mimeo. p. 1), apply to all of the statutory causes justifying issuance of emergency orders. These statutory causes are listed in Order No. 520. The issuance of specific requirements for fuel and energy shortages does not, per se, de-emphasize the importance of the other statutory causes.

Richmond's application for rehearing also contends, in effect, that in order to avoid the burden of building its own transmission facilities when faced with "uneconomic transmission charges" of an adjacent utility, the regulations should provide for emergency orders under section 202(c) directing that adjacent utility to transmit at lower rates the power and energy that Richmond may be able to sell to or purchase from a third utility. A situation based solely on a claim of "exorbitant" transmission charges cannot constitute one of the statutory causes. Section 202(c) lists shortages of transmission facilities—not the level of the rates charged therefor. This contention is similar to Richmond's position in its comments filed October 23, 1974, in which it sought to treat "exorbitant" fuel charges as the basis for a section 202(c) order. In Order No. 520, we fully considered and disagreed with Richmond's "exorbitant" fuel charges contentions. At this time we see no need for regulations more detailed than those in §§ 32.60 and 32.61 to cover any temporary emergency interconnections needed to cope with shortages of generating and transmission facilities. We will, therefore, continue to handle them on an ad hoc basis.

Richmond contends that the regulations governing rates and charges (§ 32.62 E) should include more specific requirements with respect to transmission losses and any benefits to the transmitting systems. It also complains that a rate component to reflect the "imprudence" of the applicant for an emergency order, insofar as it may be shown that he could have eliminated or alleviated the emergency conditions, constitutes a "penalty price" for the emergency service. Richmond contends that such penalty will not benefit the ultimate consumers of the inefficient utility and such rate component will tend to "inhibit the likelihood of transactions" between the parties. Richmond objects to the "share-the-savings" rate form (§ 32.62 E(3)), inter alia, contending that there is likely to be no incentive for a seller to transact under this formula since its incremental costs are likely to be higher than the buyer's past incremental costs. Richmond also complains that the rate regulations should not include any cost component for environmental degradation.

We have considered and disagree with Richmond's rate recommendations to the effect that the regulations should include more specific requirements with respect to transmission losses and any benefits to the transmitting systems. We have provided for the reflection of "transmission network losses," under both the Fully Allocated Cost method (§ 32.62 E (1)(d)) and the Incremental Cost Plus Additional Compensation method (§ 32.62 E(2)(b)). Inclusion of these costs will be allowed when and to the extent such transmission losses are found to be incurred. In view of the complex nature of transmission networks and the numerous and varying factors involved, as we found and discussed in our August 26 order in RM74-22, the transmission losses and benefits likely will vary among the transmitting systems. Such losses and benefits, therefore, will be considered on an ad hoc basis. Moreover, we gave adequate consideration in Order No. 520 to the reflection of environmental costs and disagree with Richmond's position on this cost component.

As we have discussed more fully with respect to Iowa's and Edison's recommendations, infra, the "imprudence" factor must be related to proper costing methods and allowances, and shall not be permitted to justify excess profits. With respect to the share-the-savings rate form, Richmond's objection implies that in a given case the Commission might prescribe that rate form even though the facts clearly indicated that the Seller's incremental costs exceed the Buyer's "avoided costs of fuel" just before the shortage. We cannot agree with that generalized assumption because the determination of which rate form would be utilized in any Commission section 202(c) rate order would depend upon all of the facts on a case-by-case basis (§ 32.62 E(2)).

Iowa's application proceeds on the basis of several misinterpretations of Order No. 520's language and of the new regulations and concludes that "if it is the purpose of Order No. 520 to permit profits in excess of a fair return on the supplier-transmitters' total state and federal operations," in effect, these ratemaking principles are not "just and reasonable" and, therefore, are unlawful.

We shall assume, although it does not so specify, that Iowa's contentions are addressed to the rates and charges for services which factually are agreed to be characterized as "nonfirm" or "off-peak" with no attributes of "firm" service. For such "non-firm" service the new regulations (§ 32.62 E (2) and (3)) provide that the "incremental costs plus additional compensation" or "share-the-savings" principles shall be utilized. Iowa appears to be misled by our recitation of the contentions of numerous parties that the additional compensation should create an "incentive" encouraging the requested supplier-transmitter voluntarily to sell and deliver the requested emergency power and energy. Based upon this apparent misunderstanding, Iowa contends that the order approves additional compensation over and above allocable costs, including inter alia:

(i) Compensation for revenue reductions occasioned by any reduction in services to the supplier's own customers which would otherwise be applied to cover the supplier's costs associated with the services foregone (§ 32.62 E(2)(c)(ii), p. 37); and

(ii) Rates equal to the supplier's incremental generation costs, plus one-half of the difference between the costs to the purchaser and the purchaser's decremental costs (§ 32.62 E(3), p. 38).

Iowa has overlooked the capstone requirement which limits the total charge for non-firm service to an amount not exceeding fully allocated costs. Therefore, even if "additional compensation" over and above incremental costs may be warranted, as provided for in § 32.61 E (2)(c), the sum of these payments may not exceed fully allocated costs of the supplying and transmitting systems. This fully allocated cost limitation is equally applicable to the optional costing method in the case of non-firm service in which the "share-the-savings" approach is utilized (§ 32.62 E(3)).

Moreover, Iowa's argument is misplaced with reference to the allowance for "revenue reductions" (§ 32.62 E(2)

XUM
V 40 24
FEB 4 75
XUM

(c)(ii)), where the supplier's services to its own existing customers are reduced in order to make the emergency service to an applicant possible.[4] Iowa proceeds from the unfounded assumption that such compensation for revenue reductions would result in such a supplier receiving profits in excess of a fair return on its total state and Federal operations.

The intention of our regulations is that where any revenue is foregone, leaving certain costs unrecoverable, due to any ordered reduction in service to the supplier's own customers, such costs would be recovered by the emergency supplier, with the limitation that the total charge for non-firm service shall not exceed fully allocated costs. Obviously, retail rate increases granted by a state agency to offset such reduced revenues might be presented to the Commission in determining whether in fact revenue had been foregone and whether "additional compensation" is warranted. Iowa is incorrect in assuming that our ratemaking principles would permit a supplier to be unjustly enriched and allowed to collect profits in excess of a fair return.

Certain basic legal concepts of section 202(c), as set forth in Order No. 520, warrant repetition since they constitute the background of the answers to concerns set forth in the applications for rehearing, filed by New York and Edison, as well as the letter of December 23, 1974, upon behalf of the TVA. Collectively, these documents now before us point to the fact that the electric operations of a federally owned electric utility system such as TVA may be subject to other Federal statutory provisions or to state requirements. The TVA comments are framed in terms of asserted Federal legal limitations as to whom and geographically where the Tennessee Valley Authority may provide electric service.[4] Initial comments were filed by Illinois Commerce Commission that were stated in terms of state requirements affecting electric utility services or fuel uses within a state in opposition to the use thereof for electric services in other states (Order No. 520, footnote 11; infra, p. 12).

In dealing with emergency power supply arrangements, the subject matter of this proceeding, valid Federal requirements are recognized by the Commission. Order No. 520 expressly so states in connection with war emergencies (Order, p. 3, footnote 3). To the extent that other valid Federal requirements may apply in the non-war emergency circumstances listed in section 202(c) of the Federal Power Act, they are to be similarly recognized. We anticipate that any federally owned or federally financed electric utility system which may be affected by a Commission order or proceeding pursuant to section 202(c) of the Federal Power Act, will direct the Commission's attention, at the time of such proceeding, to what it may regard as the specific legal limitations in the light of the particular emergency relief which may be sought from the Commission. Absent specific facts of an "emergency", as defined in section 202(c) of the Federal Power Act, it is not possible to apply every Federal statute or executive order in the abstract and to conclude that in no conceivable circumstance could a federally owned or financed electric utility system be called upon by the Commission to assist in helping to meet emergency conditions. And the converse is equally clear, as recognized by TVA's letter of December 23, 1974, which indicates that federally owned or financed systems may find themselves the requesting recipients of Commission directed emergency services.

Section 202(c), as pointed out in Order No. 520, requires us to exercise Congressionally delegated responsibilities to act in the interests of public health, welfare and safety considerations (p. 5, footnote 4):

> • • • This is a temporary power designed to avoid a repetition of the conditions during the last war, when a serious power shortage arose. Drought and other natural emergencies have created similar crises in certain sections of the country; such conditions should find a Federal agency ready to do all that can be done in order to prevent a break-down in electric supply.

This section of the Federal Power Act is not a substitute or surrogate for general economic regulatory procedure, as prescribed in section 201 of the Federal Power Act, (16 U.S.C. 824).[5] It is recognized that federally owned or financed electric utilities are not subject to Commission regulation as "public utilities". The Commission is not here exercising its general authority under section 201, but rather its emergency authority of section 202(c) of the Federal Power Act. Accordingly, the Commission finds it not appropriate to seek to exempt federally owned or financed electric systems from the reach of section 202(c).

In respect to state legal requirements, Order No. 520 interprets section 202(c), (p. 5) "• • • as a grant of Federal authority—pre-emptive of established divisions of Federal and state regulatory authority • • • to meet emergency conditions • • •", but warranting Federal Power Commission consideration of such requirements, including fuel requirements, in the context of the exercise of section 202(c) authority. Order No. 520 states (p. 12):

> Nor do we agree with some of the comments that our authority under section 202(c) is jurisdictionally restricted by state statutes or the application of state agency regulations, which require utilities therein to acquire and maintain adequate fuel inventories.[11] While we do not accept such state requirements as limiting our basic jurisdiction pursuant to section 202(c), we do consider such state responsibilities and requirements to be important factors for consideration by us in determining whether an "emergency" exists and which might warrant an order of the Commission requiring such utilities to share their inventories and capacities in a manner not otherwise authorized under state standards.

New York's petition appropriately suggests that state regulatory commissions be included as additional addressees in the requirement that copies of applications for emergency orders be served upon the potential supplier-transmitters. We shall provide for amending § 32.61 (i), (j) as New York requests, and also shall provide for service of copies of reports to the Commission (subsection (k)) upon state commissions and the regional reliability council.

New York also comments that it believes that Order No. 520 does not give sufficient recognition to New York's comments filed October 23, 1974, in which it suggested that a Nation-wide policy on utility fuel inventories should be established to assure a more equitable achievement of the Federal Energy Administration's fuel allocation program. It urges that unless prudent and uniform storage levels are developed and enforced, the Commission's regulations may unjustly result in transferring fuel deliveries from a utility which has reserved additional storage for emergencies to another utility which has refused to accept the burden of acquiring such additional storage facilities and inventories. We refer to our discussion infra of Edison's similar contentions (mimeo. p. 14) and to our conclusion that such

[3] Iowa ignores the fact that the Commission indicated that "it contemplates that emergency power or energy transfers desirably should not result in the dropping of loads of ultimate consumers of the supplying utility systems" (§ 32.62 D).

[4] A somewhat similar reference was made in a number of the initial comments relative to other federally owned hydroelectric systems or federally financed rural electric cooperatively owned systems, but no applications for rehearing of Order No. 520 were filed by such parties to this proceeding.

[5] Indeed it is significant that the emergency power of section 202(c) is in terms authorizing the Commission to "require by order • • • such *generation*, delivery, interchange, or *transmission* of electric energy as in its *judgment will best meet* the *emergency* and serve the public interest", whereas section 202(b) authorizes orders directed to "public utilities". Moreover, brief reference to other sections of Part II of the Act shows the distinction intended in the case of emergency orders directing operations, as contrasted with normal orders directing "public utilities'" operations. Section 201(b) excludes jurisdiction over generation and intrastate transmission. The specific reference to these operations in section 202(c) shows the inapplicability of the exclusionary clauses of section 201, not only as to generation and transmission facilities, but also as to the limitations of the term "public utility" in section 201(e) and the exclusion of governmental agencies under section 201(f).

[11] Illinois Commerce Commission states that its basic premise is that Illinois utilities should not export electricity outside the State unless and until the Illinois requirements are assured. Southern California Edison Company contends that the Act does not authorize the Commission to require a utility, in effect, to reduce its service or to render "inadequate service" in order to protect customers of another utility which has not met its service obligations, in the absence of a "national emergency" such as war, etc., quoting the provisions of 202(c).

prudent and uniform fuel storage inventories may not, at least at this time, be prescribed by regulation. Additionally, New York appears not to have perceived the import of certain relevant provisions of the regulations, for it urges that such additional storage and inventory costs be given explicit recognition in pricing formulae.

With respect to pricing formulae, we agree. It was with that thought in mind (urged not only by New York, but other commentators) that we included in the various "incremental-cost" provisions, the phrase "incremental fuel expense (i.e., replacement fuel costs)", in § 32.-62E(2) (a) and (b). In our view also, the provisions for "an allocable portion of investment costs of its respective production plant", should include all investment in additional fuel storage and/or inventory. Section 32.62E(1)(a). Moreover, the adequacy of the applicant's fuel inventory and supply (§ 32.-62C) will be reviewed in considering additional cost components based upon the applicant's "imprudence", if any, in failing to eliminate or to alleviate the emergency conditions (§ 32.62E(2)(c)).

In our August 26 notice of rulemaking, we sought the comments of all interested persons with regard to assisting us in the development of the fuel storage and inventory standards for our "emergency" determinations and the pertinent ratemaking determinations. We also stated that such comment and the data received would be helpful to all governmental economic regulatory authorities in assessing the cost incidence of fuel supply acquisition, retention and utilization, for both state and Federal ratemaking purposes. Although we considered the comments received for the purposes of setting the criteria and standards, we intend to continue our own efforts and to encourage similar actions by other agencies, leading toward an increased and more equitable fuel inventory program throughout the Nation.

Edison's application reasserts its position, which we rejected in Order No. 520, that the Commission's issuance of the new regulations exceeds its statutory authority with respect to the scope of the term "emergency" since it may be applicable to a single utility and is not limited to "national emergencies". Edison presents no new facts or legal principles not considered in Order No. 520 and its arguments continue to assume that the Commission will act in an arbitrarily unreasonable fashion (see footnote 11, Order No. 520 by:

> (i) Granting the application of even an "imprudent" utility management which Edison assumes is shown to have failed to take action to eliminate or alleviate such utility's shortage of fuel or energy; and (Application, B. 1, p. 3)
>
> (ii) Granting an applicant's request for an emergency order as a result of which the applicant would receive a "higher percentage of, or better service" than the customers served by the supplier-transmitter of such service. (Application, C. 2, p. 6).

It is true that Order No. 520 indicates that after considering all of the comments submitted on the subject of fuel inventory and facilities criteria and standards, the Commission concluded that it has the authority to require utilities to share with others their inventories and capacities in a manner not otherwise authorized in normal circumstances under applicable law and regulations.[6]

Contrary to Edison's contentions, the regulations indicate the Commission's intent is that its orders "desirably should not result in dropping of loads of ultimate customers of the supplying systems". Moreover, due to the operational complexities, intricacies and imponderable problems which threaten service interruptions, as discussed herein above, we conclude, as urged by the National Electric Reliability Council (NERC), that "no single system average in terms of days of storage can be applied on a regional or national basis to define an 'emergency'." That is not to say that the regulations authorized the Commission to take unreasonable, inequitable, discriminatory or otherwise unfounded actions in order to protect the ultimate consumers served by such admittedly "imprudent" utility management. The Commission, in more extreme circumstances, nevertheless, is required to protect the public interest and the interests of the ultimate consumer "consistent with the public health, welfare and safety considerations" (section 32.61(e)), even where due to the imprudence of utility management the level of emergency service ordered may not sufficient to save the utility itself harmless from load reductions. It is the consumer's "stake" in the emergency that is of primary concern to the Commission. *Otter Tail Power Co. v. F.P.C.*, 429 F. 2d 232, 236 (CA8, 1970), cert. denied, 401 U.S. 947 (1971).

Edison (Application, B. 2, p. 4) also objects to our stating in Order No. 520 that this proceeding "has provided the 'hearing' required by section 202(c)". We have clarified above (mimeo. P. 2) the meaning of that statement. As restated, we think that Edison's objections to the order are not well taken. Edison's objections to the ratemaking principles in section 32.62 E of the new regulations are adequately answered in our discussions of other applicants' recommendations.

Finally, Edison raises the question whether this Commission is subject to the requirements of Executive Order No. 11821, issued November 27, 1974, relating to Inflation Impact Statements. In a letter addressed to the Office of Management and Budget, dated December 19, 1974, the Chairman of this Commission pointed out that E.O. 11821 is directed to the "executive branch" of Government and to "each Federal department and agency" and recommended that OMB's draft of implementing regulations be revised to expressly exclude the Federal Power Commission and other independent regulatory Commissions.

In our view, the new executive order is not applicable, particularly since the actions of this Commission are subject to existing substantive and procedural statutory requirements under which the economic impact and reasonableness of public utility rates and services are already subject to extensive and intensive cost-based regulation. Inasmuch as our new regulations are intended and presently required for temporary emergency situations, and the ratemaking principles expressed therein are cost-based, they are not inflationary. The additional delay and procedural complexities of another layer of regulation therefore are not justifiable. Accordingly, no Inflation Impact Statement is being issued.

The Commission finds.

(1) The assignments of error and grounds for rehearing and reconsideration set forth in the applications for rehearing filed herein by Congressman Harrington, Richmond, New York and Edison and the motion for reconsideration filed by Iowa, present no new facts or principles of law that were not considered by the Commission when it issued Order No. 520 on November 29, 1974, or which having now been considered warrant any change in or modification of said order, except as provided below.

(2) It is necessary and appropriate and in the public interest in the administration of the provisions of the Federal Power Act, particularly section 202(c) thereof, that § 32.61 (i), (j) and (k) of the Commission's regulations under the Federal Power Act, issued as provided in Commission Order No. 520, be amended to require that copies of applications for emergency assistance, proposed supplier responses thereto and any reports to the Commission, be served upon interested state regulatory commissions (having jurisdiction over the "potential source" utilities) and the regional reliability council for the applicant's area identified pursuant to § 32.61(i).

(3) The amendments to the Commission's regulations under the Federal Power Act prescribed herein below which were not included in the notice of this proceeding issued August 26, 1974, (39 FR 31654), are administrative in nature, and intended to expedite the Commission's consideration of applications pursuant to section 202(c) of the Act, consistent with the prime purpose of the proposed rulemaking; further compliance with the notice provision of 5 U.S.C. 553, therefore, is unnecessary.

The Commission, acting pursuant to the provisions of the Federal Power Act, as amended, particularly sections 202, 309, 49 Stat. 848, 849, 858, 859, and section 313(a) of the Act, 49 Stat. 860; 72 Stat. 947, orders:

(A) The applications for rehearing filed by Congressman Harrington, Richmond, New York and Edison and the motion for reconsideration filed by Iowa are hereby denied, except as provided below with respect to New York's application.

§ 32.61 [Amended]

(B) Section 32.6 (i), (j) and (k) of the Commission's regulations under the Federal Power Act, as issued by Commis-

[6] Order No. 520, mimeo. p. 12.

sion Order No. 520 on November 29, 1974, in Docket No. RM75-3, are hereby modified as follows:

(1) Paragraph (f)—in the second sentence, following the phrase, "filed pursuant to this subsection, *add*,", interested State regulatory commissions having jurisdiction over the "potential source" and/or transmitting utilities)";

(2) Paragraph (j)—following "submit their answers to the Commission", *add* "and serve copies thereof on the interested State regulatory commissions and the Regional Reliability Council"; and

(3) Paragraph (k)—following the first sentence, *add*, "Copies thereof shall simultaneously be served on the interested State regulatory commissions and the Regional Reliability Council".

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE

[TD 75-36]

PETITIONS FOR RELIEF

Procedures for Regional Commissioners

On November 6, 1973, there were published in the FEDERAL REGISTER (38 FR 30549) amendments to §§ 171.33(b) and 172.33(b) of the Customs regulations (19 CFR 171.33(b), 172.33(b)) which delegated to regional commissioners of Customs the authority to decide supplemental petitions for relief in certain cases arising under §§ 171.21 and 172.21 of the Customs regulations (19 CFR 171.21, 172.21).

In the interest of uniformity, it has been determined that the same delegation to regional commissioners should be made with respect to special cases acted upon by district directors of Customs which arise under §§ 10.39, 171.22, and 172.23 of the Customs regulations (19 CFR 10.39, 171.22, 172.22).

In addition, the policy of filing all supplemental petitions for relief with the district director who initiated the case, is restated.

Accordingly, §§ 10.39, 171.33, and 172.33 of the Customs regulations (19 CFR 10.39, 171.33, 172.33), are hereby amended as set forth below:

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

Paragraphs (c), (d), (e), (f) of §10.39 are amended to delete the word "application" wherever it appears in those paragraphs, and substitute the word "petition" therefor.

Paragraph (g) of § 10.39 is amended to read as follows:

§ 10.39 Cancellation of bonds.

• • • • •

(g) If the petitioner is not satisfied with the district director's action under this section and submits a supplemental petition, both the original and the supplemental petitions shall be transmitted to the regional commissioner of Customs with a full report on the case.

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 171—FINES, PENALTIES, AND FORFEITURES

Paragraphs (b)(1) and (b)(2) of §171.33 are amended to read as follows:

§ 171.33 Supplemental petitions for relief.

• • • • •

(b) *Consideration*—(1) *Decisions of the district director.* Where the district director has the authority to grant relief in accordance with the provisions of §§171.21 and 171.22, he may grant additional relief if he believes it is warranted. If there has been a specific request on the part of the petitioner for review by the regional commissioner, or if the district director believes no additional relief is warranted, or if the petitioner is not satisfied with the additional relief granted by the district director, together with all pertinent documents, shall be forwarded to the regional commissioner of the region in which the district lies for reconsideration and disposition of the case, except as provided in § 171.22(c).

(2) *Decisions of the Commissioner of Customs.* A supplemental petition appealing a decision of the Commissioner of Customs shall be filed, together with all pertinent documents, with the district director who initiated the case for transmittal to the Commissioner of Customs for reconsideration.

(R.S. 251, as amended, secs. 618, 624, 46 Stat. 757, as amended, 759 (19 U.S.C. 66, 1618, 1624))

PART 172—LIQUIDATED DAMAGES

Paragraphs (b)(1) and (b)(2) of §172.33 are amended to read as follows:

§ 172.33 Supplemental petitions for relief.

• • • • •

(b) *Consideration*—(1) *Decisions of the district director.* Where the district director has authority to grant relief in accordance with the provisions of §§ 172.21 and 172.22, he may grant additional relief if he believes it is warranted. If there has been a specific request on the part of the petitioner for reconsideration by the regional commissioner, or if the district director believes no additional relief is warranted, or if the petitioner is not satisfied with the additional relief granted by the district director, the supplemental petition, together with all pertinent documents, shall be forwarded to the regional commissioner of the region in which the district lies for reconsideration and disposition of the case, except as provided in § 172.22(d)(3).

(2) *Decisions of the Commissioner of Customs.* A supplemental petition appealing a decision of the Commissioner of Customs shall be filed, together with all pertinent documents, with the district director who initiated the case for transmittal to the Commissioner of Customs for reconsideration.

(R.S. 251, as amended, sec. 624, 46 Stat. 759 (19 U.S.C. 66, 1624))

Because these amendments involve a matter relating to agency procedure or practice, notice and public procedure thereon are found to be unnecessary and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. These amendments shall become effective on February 4, 1975.

[SEAL] VERNON D. ACREE, *Commissioner of Customs.*

Approved: January 28, 1975.

DAVID R. MACDONALD, *Assistant Secretary of the Treasury.*

[FR Doc.75-3162 Filed 2-3-75;8:45 am]

[T.D. 75-35]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

Supplies and Equipment for Aircraft

Section 10.59(f), Customs Regulations, relating to free withdrawal of supplies and equipment for aircraft, amended to add Romania to the list of qualified countries.

In accordance with section 309(d), 46 Stat. 690, as amended (19 U.S.C. 1309 (d)), the Secretary of Commerce has found and in a letter dated December 4, 1974, has advised the Secretary of the Treasury that Romania allows to aircraft registered in the United States and engaged in foreign trade privileges substantially reciprocal to those provided for in sections 309 and 317, 46 Stat. 690, as amended, 696, as amended (19 U.S.C. 1309, 1317). Corresponding privileges are accordingly extended to aircraft registered in Romania and engaged in foreign trade effective as of the date of such notification.

Accordingly, paragraph (f) of § 10.59, Customs Regulations, is amended by the insertion of "Romania" in appropriate alphabetical order and the number of this Treasury Decision in the opposite column headed "Treasury Decision(s)" in the list of nations in that paragraph.

(Secs. 309, 317, 624, 46 Stat. 690, as amended, 696, as amended, 759 (19 U.S.C. 1309, 1317, 1624))

As there is a statutory basis for the exemption from Customs duties on withdrawal of supplies by aircraft when reciprocity has been established, notice and

public procedure thereon are found to be unnecessary and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

[SEAL] VERNON D. ACREE, *Commissioner of Customs.*

Approved: January 28, 1975.

DAVID R. MACDONALD, *Assistant Secretary of the Treasury.*

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74-223]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Columbia and Snake Rivers, Pasco, Washington

This amendment changes the regulations for the Burlington Northern Railroad drawbridge across the Snake River, mile 1.5, to require that the draw open on signal at all times. The amendment also makes editorial changes for clarity and simplicity, and updates the regulation to reflect current ownership of the two bridges by the Burlington Northern Railroad rather than the Northern Pacific Railroad. This amendment was circulated as a public notice dated September 27, 1974, by the Commander, Thirteenth Coast Guard District, and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGD 74-223) on September 20, 1974, (39 FR 33805). Three responses were received and posed no objections to the proposal.

The proposal included a change in the regulations governing the operation of the Burlington Northern Railroad drawbridge across the Columbia River at mile 328. After the notice of proposed rulemaking was issued, the Burlington Northern Railroad requested that the Coast Guard reconsider the proposed change for this bridge because the Railroad feels that the present regulations meet the needs of navigation. After studying the bridge logs, the Coast Guard agrees that the present regulations are sufficient and therefore the present regulations for the opening of the bridge will remain in effect.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.760 to read as follows:

§ 117.760 Columbia and Snake Rivers in the vicinity of Pasco, Washington; bridges.

(a) The draws of the Union Pacific Railroad bridge across the Columbia River at mile 323.5 between Burbank and Kennewick and the Burlington Northern Railroad bridge across the Snake River at mile 1.5 between Pasco and Burbank shall open on signal.

(b) The draw of the Burlington Northern railroad bridge across the Columbia River at mile 328.0 between Pasco and Kennewick shall open on signal from 8 a.m. to 4 p.m. At all other times the draw shall open on signal if at least two hours notice is given through the General Yardmaster, Pasco, Washington. The owner of or agency controlling this bridge shall, on both the upstream and downstream sides of the bridge, post a notice stating how and to whom notice is to be given.

(c) Signals.

(1) Opening sound signal—to be repeated until acknowledged by the drawtender.

(i) Union Pacific Railroad bridge—2 long blasts and 1 short blast;

(ii) Burlington Northern Railroad bridges—1 long blast and 2 short blasts.

(2) Opening visual signals may be used in conjunction with sound signals for all bridges listed in this section. These visual signals are a white flag by day and a white light at night swung in a full circle at arm's length in full sight of the bridge facing the draw.

(3) The acknowledging sound signal shall be the same as the opening sound signal when the draw will open. When the draw cannot open, the signal shall be 4 short blasts, given in rapid succession, repeated until acknowledged by the same signal from the vessel.

(4) Sound and visual signals may be omitted when radiotelephone communications have been satisfactorily established and maintained between the draw-tender and the approaching vessel, until the vessel has passed through the bridge.

(d) When two vessels approaching from opposite directions meet near a drawbridge listed in this section, the downbound vessel shall have the right-of-way. When one vessel waits for passage of another, the waiting vessel shall repeat the call signal for the bridge and receive an acknowledging signal from the drawtender before proceeding.

(e) Vessels with hinged or adjustable masts or booms projecting above their fixed structure shall lower these appurtenances and pass under the bridges, if practicable, without signaling for the draw to open.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)) 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on March 7, 1975.

Dated: January 28, 1975.

R. I. PRICE, *Rear Admiral, U.S. Coast Guard Chief, Office of Marine Environment and Systems.*

[FR Doc.75-3126 Filed 2-3-75;8:45 am]

[CGD 75-023]

PART 127—SECURITY ZONES

Curtis Creek, Baltimore Harbor, Maryland: Termination

Captain G. H. Patrick Bursley, United States Coast Guard, Captain of the Port, Baltimore, Maryland, issued the following order terminating the Security Zone in Curtis Creek, Baltimore Harbor, Maryland, as published in the April 10, 1974 issue of the FEDERAL REGISTER (39 FR 12988), effective May 1, 1974:

CURTIS CREEK, BALTIMORE HARBOR, MARYLAND; TERMINATION

This amendment terminates the Security Zone established adjacent the United States Coast Guard Yard on Curtis Creek, Baltimore Harbor, Maryland, as published in the United States FEDERAL REGISTER, Vol. 39, No. 70, Page 12988, for Wednesday, April 10, 1974. The Security Zone is no longer needed as the Rumanian Fishing Trawler INAU has been moved to the Baltimore Inner Harbor by the United States Marshal and special security is no longer deemed necessary."

§ 127.504 [Amended]

Accordingly, Part 127 of Chapter I of Title 33 of the Code of Federal Regulations is amended by revoking § 127.504.

(40 Stat. 220, as amended, sec. 1, 63 Stat. 503, Sec. 6(b), 80 Stat. 937; (50 U.S.C. 191; 14 U.S.C. 91; 49 U.S.C. 1655(b)); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; (3 CFR, 1949-1953 Comp. 356, 778, 873, 3 CFR 1964-1965 Comp. 349); 33 CFR Part 6, 49 CFR 1.46(b))

Dated: January 30, 1975.

R. I. PRICE, *Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.*

[Docket No. FI 460]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Administrative Withdrawal of Special Flood Hazard Maps

The purpose of this notice is to indicate periods in which the insurance purchase requirement under the National Flood Insurance Program, authorized by the National Flood Insurance Act of 1968, as amended, and the Flood Disaster Protection Act of 1973 (Pub. L. 92–234, December 31, 1973), 42 U.S.C. 4001–4128, was suspended.

The Flood Disaster Protection Act requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally-related financial assistance for acquisition or construction purposes in an identified flood plan area having special flood hazards that is located within any community currently participating in the program.

Until July 1, 1975, the statutory requirement for the purchase of flood insurance does not apply until and unless the community enters the program and the special flood hazard areas have been identified. However, after July 1, 1975, the requirement will apply to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for buildings in these areas unless the community has entered the program.

Prior to July 1, 1975, no insurance purchase requirement exists under the Act unless two requirements are met: (1) the property is located in a formally identified special flood hazard area (See 24 CFR Part 1915) and (2) flood insurance is available (See 24 CFR Part 1914). Thus, if a community's eligibility has been suspended, and insurance is not currently available, then flood insurance is not required by the Act on any closing during the period of suspension. Where a map has not yet been published for a community otherwise eligible to participate in the program, insurance is not required.

Similarly, the insurance purchase requirement with respect to a particular community may be altered by the issuance or withdrawal of the Federal Insurance Administration's (FIA's) official flood maps, the Flood Insurance Rate Map (FIRM) or the Flood Hazard Boundary Map (FHBM). If the FIA withdraws a FHBM for any reason the insurance purchase requirement is completely suspended during the period of withdrawal. However, if the community is in the Regular Program and only the FIRM, is withdrawn but a FHBM remains in effect, then flood insurance is still required for properties located in identified special flood hazard areas, but the maximum amount of insurance available is first layer coverage under the Emergency Program, since the community's Regular Program status is suspended while the map is withdrawn. (For definitions see 24 CFR Part 1909 et seq.)

Accordingly, to provide notice with respect to those persons concerned as to the period of withdrawal, the entries read as follows:

§ 1915.3 Notice of administrative withdrawal of special flood hazard maps.

[Docket No. FI–466]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

Issued: January 23, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.75-2021 Filed 2-3-75;8:45 am]

Title 37—Patents, Trademarks and Copyrights

CHAPTER I—PATENT AND TRADEMARK OFFICE, DEPARTMENT OF COMMERCE

NAME CHANGE

Pursuant to authority contained in 35 U.S.C. 6, as amended (85 Stat. 364), Chapter I of Title 37 of the Code of Federal Regulations is amended as follows:

The heading of Chapter I is changed to read as set forth above.

Wherever the name "Patent Office," and the title "Commissioner of Patents," appear in Chapter I, they are changed to read, respectively, "Patent and Trademark Office" and "Commissioner of Patents and Trademarks."

Public Law 93-596, 88 Stat. 1949, changed the name of the Patent Office to "Patent and Trademark Office," and the title of the Commissioner of Patents to "Commissioner of Patents and Trademarks."

It is the general policy of the Patent and Trademark Office to afford interested members of the public an opportunity to participate in the rulemaking process. However this amendment is entirely editorial in nature. Therefore, the public rulemaking procedure is waived and this amendment will become effective on February 4, 1975.

C. MARSHALL DANN,
Commissioner of Patents.

Approved:

BETSY ANKER JOHNSON,
Assistant Secretary for Science and Technology.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

PART 240—GUIDELINES FOR THE THERMAL PROCESSING OF SOLID WASTES

PART 241—GUIDELINES FOR THE LAND DISPOSAL OF SOLID WASTES

Correction

In FR Doc. 74-29328 appearing at page 2933 in the issue for Wednesday, August 14, 1974, in § 241.100, paragraph (d), penultimate line, the word now reading "much", should read "such".

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20109]

PART 89—PUBLIC SAFETY RADIO SERVICES

PART 91—INDUSTRIAL RADIO SERVICES

PART 93—LAND TRANSPORTATION RADIO SERVICES

Correction

Amendment of Parts 89, 91, and 93 of the rules to reallocate land mobile channels in the 470–512 MHz band in the New York and Los Angeles urbanized area. In the Report and Order, FCC 74-1353, [40 FR 1021] adopted December 10, 1974 and released December 19, 1974, the appendix is corrected as follows:

§ 89.123 [Amended]

§ 91.114 [Amended]

1. In § 89.123(b) and § 91.114(b), the power/height table in foot note (2) to Figure "A" is amended to read as follows:

Antenna height above sea level (feet)	*Power (ERP)*
1,500 to 2,000	155 W.
2,001 to 2,500	100 W.
2,501 to 3,000	70 W.
3,001 to 3,500	50 W.
3,501 to 4,000	40 W.
4,001 to 4,500	30 W.
4,501 and above	25 W.

2. In § 91.114, paragraph (b), the tabulation of frequencies in Channel 15, Business Radio Service, is amended to read as follows:

CHANNEL 15

Business		
Base		Mobile
477.6625 to 478.3375	and	480.6625 to 481.3375
478.7625 to 478.8875		481.7625 to 481.8875

3. Change § 91.114(j) to 91.114(l) and correct frequency tabulations to read as follows:

CHANNEL 14

Petroleum-Forest Products-Manufacturers		Business	
Base	Mobile	Base	Mobile
472.8125 to 472.8875	475.8125 to 475.8875	471.6625 to 472.4375	474.6625 to 475.4375

CHANNEL 20

Power-Telephone Maintenance		Business	
Base	Mobile	Base	Mobile
507.3125 to 507.4125	510.3125 to 510.4125	507.6625 to 508.4375	510.6625 to 511.4375

§ 93.114 [Amended]

4. In 93.114(a), change subparagraph (8) to (9). In paragraph (b) amend the power/height table in footnote (2) to Figure "A" to read as follows:

Antenna height above sea level (feet)	*Power (ERP)*
1,501 to 2,000	155 W.
2,001 to 2,500	100 W.
2,501 to 3,000	70 W.
3,001 to 3,500	50 W.
3,501 to 4,000	40 W.
4,001 to 4,500	30 W.
4,501 and above	25 W.

Released: January 28, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-3043 Filed 2-3-75;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-1; Notice 1]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires, Tire Selection and Rims for Passenger Cars

Correction

In FR Doc.75-2130 appearing at page 3596 in the issue for Thursday, January 23, 1975, in § 571.110 the amendatory language in paragraph 4 now reading "• • • the J–JJ test rim • • •", should read "• • • the 6–JJ test rim • • •".

[Docket No. 73-9; Notice 09]

PART 570—VEHICLE IN USE INSPECTION STANDARDS

Subpart B—Motor Vehicles With a GVWR of More Than 10,000 Pounds

This notice responds to petitions for reconsideration of Vehicle in Use Inspection Standards for vehicles with a GVWR of more than 10,000 pounds.

NHTSA issued on July 16, 1974, the vehicle in use inspection standards to be implemented by the States for vehicles with a GVWR of more than 10,000 pounds (39 FR 26026). Subsequently, petitions for reconsideration were received from Ford Motor Company (Ford), General Motors Corporation (GM), the Motor Vehicle Manufacturers Association (MVMA), the Midland-Ross Corporation (Midland) and the Bendix-Westinghouse Corporation (Bendix). The NHTSA response to matters raised in these petitions will be given by subject grouping.

BRAKE PEDAL RESERVE

Ford has called the attention of NHTSA to a typographical error in the formula shown in paragraph 570.55(c)(1) and used for computing the brake pedal reserve. Instead of the relationship

$$\frac{A-B}{A\times 100}$$

the formula should be shown as

$$\frac{A-B}{A}\times 100.$$

The standard will be corrected accordingly.

Midland petitioned to revise the wording in paragraph 570.55(c) to require vehicles with modified vehicle brake systems, such as with an additional tag axle utilizing existing hydraulic brake fluid capacity, to meet the requirements of the brake pedal reserve test. Currently, this test is waived for all vehicles with brake systems designed to operate with greater than 80 percent pedal travel, whether through original design or modification. Since it was NHTSA's original intent that the waiver apply only when the original manufacturer's design criteria established pedal travel at greater than 80 percent, this petition is granted, and the second sentence of paragraph 570.55(c) is amended to read:

"The brake pedal reserve test is not required for vehicles with brake systems designed by the original vehicle manufacturer to operate with greater than 80 percent pedal travel."

AIR BRAKE SYSTEM INTEGRITY

Ford petitioned to expand Table 1 (Air brake system pressure build-up time) to include vehicles equipped with reservoirs of smaller capacities and varying designs, such as vehicles that use wedge brakes and the newly-developed compact brake chambers. Further, GM recommended that the values in Table 1 representing total reservoir volume be separated by 1 cubic inch to avid column overlapping and resultant errors in utilizing the tables. The NHTSA concurs with these suggestions, and Table 1 is expanded to include requirements for 9-inch and 12-inch brake chambers and the columnar reservoir volume range values are separated by 1 cubic inch.

GM questioned the chamber volumes used in Table 1 as "not reflecting a substantial portion of industry usage." This

XUM
V40-24
FEB 4 75
XUM

question was also discussed by Midland-Ross, which submitted chamber area volume figures ranging from 16 inches to 36 inches. Likewise, Bendix submitted volume figures which were consistent with those submitted by Midland-Ross. The Midland-Ross petition also suggested that to be fair to all manufacturers, the reservoir build-up times as shown in Table 1 should be increased by a factor of 20 percent to compensate for normal compressor wear and deterioration. NHTSA concurs in these views, and Table 1 is amended to utilize composite volume figures deemed representative of industry practice for the representative brake chambers as shown in Table 2 below:

TABLE 2.—*Chamber volumes for representative brake chambers*

Chamber size (inches):	Volume (cubic inches)
9	18
12	25
16	43
20	51
24	66
30	88
36	125

Further, the following formula is established to compute the time in seconds:

$$\text{Time (seconds)} = \frac{\text{Actual Reservoir Capacity} \times 25 \times 1.20}{\text{Required Reservoir Capacity}}$$

Bendix petitioned for the use of only a single maximum time figure of 30 seconds for an increase in the air pressure from 85 to 100 psi in the reservoirs with the engine running at the vehicle manufacturer's maximum recommended number of revolutions per minute. Although this requirement would simplify Table 1, it would not cover all of the combinations of brake chambers and reservoirs used in the trucking industry. NHTSA therefore concludes that Table 1 is necessary, and Bendix's petition is accordingly denied.

MVMA in its petition pointed out the problems involved in requiring the inspector to identify the number and size of brake chambers and the number and size of the reservoirs before he could use Table 1. In the judgment of this agency, it is not an unreasonable burden on the truck owner or operator to provide this readily-available information to an inspector at the time of inspection. MVMA's petition is therefore denied.

Midland petitioned to revise paragraph 570.57(a)(1) to assure conformity of test conditions between FMVSS 121 and the air brake system pressure build-up test of Table 1. This request is considered valid, and paragraph 570.57(a)(1) is revised to read: "The air brake system compressor shall increase the air pressure in the truck or truck tractor reservoir(s) from 85 to 100 psi in not more than the time specified in Table 1, with the engine running at the vehicle manufacturer's maximum recommended number of revolutions per minute."

Ford petitioned for the elimination of 570.61(b), shock absorber condition, contending that shock absorbers do not affect the safety of all large motor vehicles, are offered only to improve operator comfort and have only a minimal effect on vehicle stability. Although the relationship between comfort and control may be hard to define, NHTSA concludes that the operator's response to varying loads, weather conditions, and road conditions is affected by the condition of the shock absorbers on the motor vehicle being driven. Further, results of two test programs carried out by NHTSA indicate that shock absorber degradation does have an effect on the handling characteristics of motor vehicles. Therefore, based on currently available data, NHTSA concludes that the shock absorbers are a contributing factor to safe motor vehicle operations, and Ford's petition is denied.

In consideration of the foregoing, 49 CFR Part 570, Subpart B, Motor Vehicles With a GVWR of More Than 10,000 Pounds, is amended as follows:

1. The second sentence of § 570.55(c) is amended to read:

§ 570.55 Hydraulic brake system.

* * * * * * *

(c) * * * The brake pedal reserve test is not required for vehicles with brake systems designed by the original vehicle manufacturer to operate with greater than 80 percent pedal travel.

2. Section 570.55(c)(1) is amended by changing the formula to read:

$$\frac{A-B}{A} \times 100$$

3. Section 570.57(a)(1) is amended to read:

§ 570.57 Air brake system and air-over-hydraulic brake subsystem.

* * * * * * *

(a) * * *

(1) The air brake system compressor shall increase the air pressure in the truck or truck trailer reservoir(s) from 85 to 100 psi in not more than the time specified in Table 1, with the engine running at the vehicle manufacturer's maximum recommended number of revolutions per minute.

4. Table 1. "Air brake system pressure build-up time", following § 510.57 *Air brake system and air-over-hydraulic brake sub-systems*, is revised to read as follows:

TABLE 1.—*Air brake system pressure buildup time*

[85–100 lb/in ²]

System				Time in seconds [1]													
				Installed brake reservoir volume in cubic inches													
Front axle number and size chambers	Rear axle number and size chambers	Required volume [2]	Vol	1,000	1,251	1,501	1,751	2,001	2,501	3,001	3,501	4,001	4,501	5,001	5,501	6,001	6,501	7,001	7,501	8,001

(2) 30	(2) 36	5,112	.0059																	
											22	25	28	31	34	37	40	43	46	49

[1] Time (seconds) = $\frac{\text{Actual reservoir capacity} \times (25 \times 1.20)}{\text{Required reservoir capacity}}$

[2] Required volume: (a) Volumes for respective chamber sizes listed in chart A; (b) required volume based on 12:1 ratio (SAE J813).

5. Section 570.57 is further amended by adding Table 2 as follows:

TABLE 2.—*Chamber volumes for representative brake chambers*

Chamber size (inches):	Volume (cubic inches)
9	18
12	25
16	43
20	51
24	66
30	88
36	125

Effective date. Because the amendments correct errors and modify inspection procedures, but create no additional burden, it is found for good cause shown that they should be effective February 4, 1975.

(Sec. 103, 108, 119, Pub. L. 84–563, 80 Stat. 718; 15 U.S.C. 1392, 1397, 1401; delegation of authority at 49 CFR 1.51)

Issued on: January 24, 1975.

NOEL C. BUFE,
Acting Administrator.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Amd. No. 3 to S.O. No. 1158]

PART 1033—CAR SERVICE

Chicago and North Western Transportation Company Authorized To Operate Over Tracks of Union Pacific Railroad Company

JANUARY 30, 1975.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of January 1975.

Upon further consideration of Service Order No. 1158 (38 FR 30001, and 39 FR 15130 and 38381), and good cause appearing therefor:

It is ordered, That Service Order No. 1158 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

§ 1033.1158 Service Order No. 1158.

(a) *Chicago and North Western Transportation Company authorized to operate over tracks of Union Pacific Railroad Company.* * * *

(e) Expiration date. The provisions of this order shall expire at 11:59 p.m., January 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., January 31, 1975.

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

By the Commission, Railroad Service Board

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75–3176 Filed 1–3–75;8:45 am]

[Amdt. No. 1 to Corrected S.O. No. 1189]

PART 1033—CAR SERVICE

Great Plains Railway Company Authorized To Operate Over Tracks of Chicago and North Western Transportation Company

JANUARY 30, 1975.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of January 1975.

Upon further consideration of Service Order No. 1158 (39 FR 24510), and good cause appearing therefor:

It is ordered, That Corrected Service Order No. 1189 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

§ 1033.1189 Service Order No. 1189.

(a) *Great Plains Railway Company authorized to operate over tracks of Chicago and North Western Transportation Company.* * * *

* * * * * * *

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., January 31, 1975.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75–3177 Filed 2–3–75;8:45 am]

[S.O. No. 1210]

PART 1033—CAR SERVICE

Providence and Worcester Company Authorized To Operate Over Tracks of Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees

JANUARY 30, 1975.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of January 1975.

It appearing that the Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees (PC), in Finance Docket No. 26154, has been authorized to abandon operations over the line of the Providence and Worcester Company (P&W) between Worcester, Massachusetts, and Providence, Rhode Island; that the P&W has concurrently been authorized to resume separate operation of its line between these points; that the Slatersville, Rhode Island branch and the Wrentham, Rhode Island branch of the PC have been severed of direct connections with the remainder of the PC by reason of abandonment of operations of the PC over the line of the P&W; that the P&W has consented to operate the Slatersville and Wrentham branches of the PC for the account of the PC, subject to approval by the Commission of a permanent operating agreement; that operation by the P&W of the Slatersville and Wrentham branches of the PC is necessary to provide uninterrupted railroad service to shippers served by these lines; that such operation by the P&W over tracks of the PC is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1210 Service Order No. 1210.

(a) *Providence and Worcester Company authorized to operate over tracks of Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees.* The Providence and Worcester Company (P&W) be, and it is hereby, authorized to operate over tracks of the Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees (PC), for the account of the PC, from a point of connection near Woonsocket, Rhode Island, to the ends of the track at Woonsocket and at Slatersville, Rhode Island, a distance of approximately 4.4 miles, (the Slatersville branch), and from a point of connection near Valley Falls, Rhode Island, to the end of the track, a distance of approximately one mile (the Wrentham branch), pending approval by the Commission of permanent agreements for the operation of these lines.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

XUM
V40I24
FEB 4 75
XUM

(c) *Rates applicable.* Inasmuch as this operation by the P&W over tracks of the PC is deemed to be due to carrier's disability, the rates applicable to traffic moved by the P&W over these tracks of the PC shall be the rates applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 11:59 p.m., February 3, 1975.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., August 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), and 17(2)))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Amdt. No. 9 to S.O. No. 1083]

PART 1033—CAR SERVICE

Southern Pacific Transportation Company Authorized To Operate Over Tracks of the Texas and Pacific Railway Company

JANUARY 30, 1975.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of January 1975.

Upon further consideration of Service Order No. 1083 (36 FR 21203, 23803; 37 FR 12726; 38 FR 876, 19126, 29590; 39 FR 14595, 24373 and 35574), and good cause appearing therefor:

It is ordered, That: Service Order No. 1083 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

§ 1033.1083 Service Order No. 1083.

(a) *Southern Pacific Transportation Company authorized to operate over tracks of the Texas and Pacific Railway Company.* • • •

• • • • •

(e) *Expiration date.* This order shall expire at 11:59 p.m., May 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., January 31, 1975.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), and 17(2)))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-3178 Filed 2-3-75;8:45 am]

[Amdt. No. 7 to S.O. No. 1106]

PART 1033—CAR SERVICE

Baltimore and Ohio Railroad Company Authorized To Operate Over Tracks of Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees

JANUARY 30, 1975.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of January 1975.

Upon further consideration of Service Order No. 1106 (37 FR 15307; 38 FR 3332, 14754, 33302, and 39 FR 3827 and 27671), and good cause appearing therefor:

It is ordered, That Service Order No. 1106 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

§ 1033.1106 Service Order No. 1106.

(a) *The Baltimore and Ohio Railroad Company authorized to operate over tracks of Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees.* • • •

• • • • •

(e) Expiration date. The provisions of this order shall expire at 11:59 p.m., July 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., January 31, 1975.

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Amdt. No. 6 to S.O. No. 1084]

PART 1033—CAR SERVICE

Chicago, Rock Island and Pacific Railroad Company Authorized To Operate Over Tracks of Chicago and North Western Transportation Company

JANUARY 30, 1975.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of January 1975.

Upon further consideration of Service Order No. 1084 (36 FR 22063; 37 FR 12726, 28059; 38 FR 20840 and 39 FR 3827 and 27672), and good cause appearing therefor:

It is ordered, That Service Order No. 1084 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

§ 1033.1084 Service Order No. 1084.

(a) *Chicago, Rock Island and Pacific Railroad Company authorized to operate over tracks of Chicago and North Western Transportation Company.* • • •

• • • • •

(e) Expiration date. This order shall expire at 11:59 p.m., July 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., January 31, 1975.

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 982]

FILBERTS GROWN IN OREGON AND WASHINGTON

Proposed Modification in Rate of Assessment for the 1974–75 Fiscal Year

Notice is given of a proposal to modify the rate of assessment by increasing it from 0.20 cent per pound to 0.275 cent per pound, for the 1974–75 fiscal year. This proposal was recommended by the Filbert Control Board under § 982.61 of the marketing agreement, as amended, and Order No. 982, as amended (7 CFR Part 982), regulating the handling of filberts grown in Oregon and Washington. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The current rate of assessment of 0.20 cent per pound of assessable filberts is contained in § 982.319(b) (39 FR 37479) of Subpart—Operating Reserve Funds; Budget of Expenses and Rate of Assessment (7 CFR 982.300–982.319). This assessment rate was based upon a production estimate of 8,500 tons. The Filbert Control Board now estimates this production to be 6,500 tons. Based upon this reduced estimate of production, the assessment rate on assessable filberts must be increased in order to provide sufficient funds to meet the authorized expenses and reserve requirements of the Board.

Consideration will be given to any written data, views, or arguments, pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than February 21, 1975. All written submissions made regarding this notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is to amend § 982.319 (b) to read as follows:

§ 982.319 Expenses of the Filbert Control Board and rate of assessment for the 1974–75 fiscal year.

• • • • •

(b) *Rate of Assessment.* The rate of assessment for said fiscal year, payable by each handler under § 982.61, is fixed at 0.275 cent per pound of filberts.

Dated: January 30, 1975.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

[Docket Nos. AO–313–A28, AO–10–A50]

MILK IN THE SOUTHERN ILLINOIS AND ST. LOUIS-OZARKS MARKETING AREAS

Proposed Amendments to Tentative Marketing Agreements and Orders; Notice of Hearing

Notice is hereby given of a public hearing to be held at the Ramada Inn, 12031 Lackland Road (Interstate 270 off Page Avenue), St. Louis, Missouri 63141, beginning at 9:30 a.m. (local time), on February 19, 1975, with respect to proposed amendments to the tentative marketing agreements and to the orders, regulating the handling of milk in the Southern Illinois and St. Louis-Ozarks marketing areas.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreements and to the orders.

Evidence also will be taken to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision under the rules of practice and procedure (7 CFR Part 900.12(d)) with respect to proposals Nos. 1 and 2.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY LAND O'LAKES, INC.

Proposal No. 1. Revise § 1032.52(b) of the Southern Illinois order as follows:

§ 1032.52 Plant location adjustments for handlers.

• • • • •

(b) For purposes of calculating such adjustment, transfers between plants shall be assigned Class I disposition at the transferee-plant only to the extent that 115 percent of Class I disposition at the transferee-plant exceeds the sum of receipts at such plant from producers and handlers described in § 1032.9(c), and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

• • • • •

PROPOSED BY MID-AMERICA DAIRYMEN, INC.

Proposal No. 2. Revise § 1062.52(f) of the St. Louis-Ozarks order as follows.

§ 1062.52 Plant location adjustments for handlers.

• • • • •

(f) In the case of transfer between plants, location adjustment shall be assigned Class I disposition at the transferee-plant only to the extent that 115 percent of Class I disposition at the transferee-plant exceeds the sum of the receipts at such plant from producers and handlers described in § 1062.9(c), and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, and assign the Class I milk to receipts from other pool plants with plus location adjustment, and then in sequence to receipts from plants at which the smallest minus adjustments apply.

• • • • •

PROPOSED BY THE DAIRY DIVISION, AGRICULTURAL MARKETING SERVICE

Proposal No. 3. Make such changes as may be necessary to make the entire marketing agreements and the orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrator, P.O. Box 1495, Maryland Heights, Missouri, 63043, or from the Hearing Clerk, Room 112-A, Administration Building, United States Department of Agriculture, Washington, D.C. 20250 or may be there inspected.

Signed at Washington, D.C., on January 30, 1975.

JOHN C. BLUM,
Associate Administrator.

[Regs. No. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Child's Benefits

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendment to the regulation set forth in tentative form below is proposed by the Commissioner of Social Security with the approval of the Secretary of Health, Education, and Welfare. The proposed amendment provides that a child born out of wedlock to a living wage earner entitled to old-age insurance benefits or disability insurance

V40-24 FEB 4 75 XUM

benefits is a "child" of the wage earner for purposes of entitlement to child's insurance benefits if the wage earner was decreed by a court to be the child's father, or was ordered by a court to contribute to the child's support because the child is his or her son or daughter, or acknowledged in writing that the child is his or her son or daughter; or is shown to be the child's father by other satisfactory evidence and is living with the child or contributing to the child's support at the time the child's application is filed. Under the present regulations, a child born out of wedlock to a living wage earner after the wage earner's entitlement to old-age or disability insurance benefits has begun, is precluded from being considered a "child" for social security purposes. The proposed amendment changes the regulations to conform with the U.S. Supreme Court's decision in *Jimenez v. Weinberger*, 417 U.S. 628 (1974), which declared the time requirements of section 216(h)(3)(B) of the Social Security Act to be unconstitutional. This change is effective with benefit payments for months beginning June 1974.

Consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue, SW., Washington, D.C. 20201, or on before March 6, 1975. The regulations will be effective upon final publication in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

Regulations No. 4 of the Social Security Administration, as amended (20 CFR Part 404), are further amended by revising paragraph (d) of § 404.1101 to read as follows:

PART 404—FEDERAL OLD-AGE, SURVIVORS AND DISABILITY INSURANCE (1950–....)

§ 404.1101 Determination of Relationship.

Whether a claimant bears the necessary relationship for entitlement under title II of the Act, as wife, husband, widow, widower, child, or parent of the insured individual upon whose wages and self-employment income and application is based is determined as follows:

• • • • • •

(d) If the application for child's benefits is filed in or after July 1965 and the claimant is the natural son or daughter of the insured individual but does not have the relationship of child to the insured individual under the criteria described in paragraph (a) or (c)(1) of this section, such child will nevertheless be deemed the child of such insured individual for purposes of child's benefits beginning no earlier than September 1965, if:

(1) In the case of an insured individual who is entitled to old-age insurance benefits and in the month before he became entitled to such benefits was not entitled to disability insurance benefits:

(i) Such insured individual has acknowledged in writing that the claimant is his son or daughter, or he has been decreed by a court to be the father of the claimant, or he has been ordered by a court to contribute to the support of the claimant because claimant is his son or daughter, or

(ii) Such insured individual is shown by satisfactory evidence to be the father of the claimant and is living with or contributing to the support of the claimant at the time such application for benefits is filed;

(2) In the case of an insured individual who is entitled to disability insurance benefits or who was entitled to such benefits in the months before the first month for which he was entitled to old-age insurance benefits:

(i) Such insured individual has acknowledged in writing that the claimant is his son or daughter, or he has been decreed by a court to be the father of the claimant, or he has been ordered by a court to contribute to the support of the claimant because the claimant was his son or daughter, or

(ii) Such insured individual is shown by satisfactory evidence to be the father of the claimant and is living with or contributing to the support of the claimant at the time such application for benefits is filed;

(3) In the case of a deceased insured individual:

(i) Such insured individual has acknowledged in writing that the claimant is his son or daughter, or he had been decreed by a court to be the father of the claimant, or he had been ordered by a court to contribute to the support of the claimant because the claimant was his son or daughter, and such acknowledgement, court decree, or court order was made before the death of such insured individual, or

(ii) Such insured individual is shown by satisfactory evidence to have been the father of the claimant and that he was living with or contributing to the support of the claimant at the time he died.

The term "insured individual" used in this paragraph (d) refers to the child's mother or father except where a provision refers only to the "father."

(Secs. 205, 206, and 1102; 53 Stat. 1368, as amended; 68 Stat. 1082, as amended; 49 Stat. 647, as amended; (42 U.S.C. 405, 406 and 1302))

(Catalog of Federal Domestic Assistance Program No. 13.803, Social Security—Retirement Insurance)

Dated: January 20, 1975.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: January 30, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 110]

[CGD 75-022]

ANCHORAGE GROUNDS

Los Angeles and Long Beach Harbors, Calif.

The Coast Guard is considering amending the anchorage regulations by terminating Quarantine Anchorage B (Los Angeles Harbor) as described in § 110.214(a)(2) of Title 33 of the Code of Federal Regulations.

The reason for the proposed amendment is the anchorage is no longer used for routine quarantine boardings and is so located that ships anchored in the anchorage endanger vessels transiting the channel.

The Director, Quarantine Division, Department of Health, Education, and Welfare, Public Health Service, has no objection to the disestablishment of the anchorage.

The termination of Quarantine Anchorage B will necessitate the removal of all references to this anchorage presently found in § 110.214 (a)(1)(ii) and (a)(3)(i).

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander, Eleventh Coast Guard District, Heartwell Building, 19 Pine Avenue, Long Beach, California 90802. Each person submitting comments should include his name and address, identify the notice (CGD 75-022), and give any reasons for any recommended change in the proposal. Copies of all communications received will be available for examination by interested persons at the office of the Commander, Eleventh Coast Guard District.

The Commander, Eleventh Coast Guard District will forward any comments received before March 7, 1975, and his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters who will evaluate all communications received and take final action on the proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed to amend Title 33 of the Code of Federal Regulations by revoking paragraph (a)(2) of § 110.214 and amending paragraphs (a)(1)(ii) and (a)(3)(i) of § 110.214 to read as follows:

§ 110.214 Los Angeles and Long Beach Harbors, Calif.

(a) • • •

(1) • • •

(ii) Vessels requiring examination by quarantine, customs, or immigration authorities may anchor in this area.

• • • • • •

(2) [Revoked]

(3) • • •

(i) In this area, the requirements of commercial vessels will predominate.

Vessels requiring examination by quarantine, customs, or immigration authorities for the ports of Los Angeles or Long Beach may anchor in this area.

• • • • • •

(Sec. 7, 38 Stat. 1053, as amended, sec. 6(g)(1)(A), 80 Stat. 937; (33 U.S.C. 471, 49 U.S.C. 1655(g)(1)(A); 49 CFR 1.46(c)(1), 33 CFR 1.05-1(c)(1))

Dated: January 30, 1975.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.75-3125 Filed 2-3-75;8:45 am]

[33 CFR Part 128]

[CGD 74-185]

PROPOSED RULES FOR MOORING BARGES ON THE MISSISSIPPI RIVER

Navigation Areas

The Coast Guard is considering amending the regulations concerned with navigation areas by adding requirements for the mooring of barges on the Mississippi River between miles 88 and 123 above the Head of Passes.

Interested persons may participate in this rule making procedure by submitting written data, views, or arguments on the proposal contained in this document to the Coast Guard (G-CMC/82), Washington, D.C. 20590. Each person submitting comments should identify the notice number (CGD 74-185), any specific wording recommended, reasons for any recommended change, and the name, address, and organization, if appropriate, of the commenter.

All comments received by March 17, 1975, will be fully considered and evaluated before final action is taken on the proposal in this document. Copies of all written communications received will be available for examination by the public in room 8234, 400 Seventh Street, SW, Washington, D.C. This proposal may be changed in the light of the comments received.

The Coast Guard will hold a public hearing on this proposal on 19 February 1975 at 0930. The public hearing will be held in Room 105, Court of Appeals Building, 600 Camp Street, New Orleans, Louisiana. Interested persons are invited to attend the hearing and present oral or written statements on this proposal.

River barge traffic is important to the port of New Orleans and the needs of the whole Mississippi valley. This importance is best illustrated by statistics prepared by the Statistics Department of the Port of New Orleans, based on data supplied by the Corps of Engineers, U.S. Army. In 1972, 92,511 barges moved in and out of the Port of New Orleans, compared with 63,796 in 1962, and 51,172 in 1952. During the high water season of 1973-74, especially in late December and early January, the Port of New Orleans and the adjacent areas on the Mississippi River experienced a series of barge breakaways from moorings. The Board of Commissioners of the Port of New Orleans concluded that the breakaways resulted from—

1. Extremely high water accompanied by swift current;

2. Careless operation by some of the barge fleet operators;

3. The inadequacy of certain mooring facilities; and

4. Silting at the mouth of the Mississippi River which delayed shipments of cargoes causing an unusually large build-up of barges.

Based on this conclusion, the Board of Commissioners petitioned the Department of Transportation to promulgate rules that regulate barge operating, mooring, and fleeting procedures on the inland waters of the United States and that recognize the differences between normal and flood stage conditions in each regulated locality.

The proposal in this document is in response to that petition. Under the authority of Title 1 of the Ports and Waterways Safety Act of 1972 (33 U.S.C. 1221-1227), delegated by the Secretary to the Commandant of the Coast Guard in 49 CFR 1.46(o)(4), the Coast Guard may direct the anchoring, mooring, or movement of a vessel when necessary to prevent damage to or by that vessel or her cargo, stores, supplies, or fuel. The amendments in this document would implement that authority by adding to the list of Regulated Navigation Areas the waters of the Mississippi River between miles 88 and 127 above the Head of Passes and adding regulations for the mooring of barges on these waters.

These proposed regulations contain equipment and procedural requirements and specific requirements for high water when the Mississippi River stage stands 12-feet or more on the Carrollton Gauge or when the Carrollton Gauge stands 8 feet, the Mississippi River is rapidly rising, and the district commander has determined these circumstances to be especially hazardous and has issued orders directing that the specific requirements are in effect. These high water requirements provide that moored barges will be attended by radar equipped towboats. It is the Coast Guard's intention at this time not to allow persons affected by this requirement to substitute shore based or air-borne radar for the required radar equipped towboats.

The Coast Guard is also considering an additional section that would be added to the proposed Subpart C of Part 128. This section would allow tiers (defined in the proposed § 128.1503(b) to mean barges moored interdependently in rows or groups) only at fleeting facilities unless the person in charge of each tier complies with the substantive requirements contained in proposed §§ 128.1509, 128.1515, 128.1517, 128.1519, 128.1521, and 128.1529. Comments received on this additional requirement will determine the final rule.

The Coast Guard has determined that the proposal contained in this document would have no foreseeable significant impact on the quality of the human environment. An environmental assessment with a negative declaration has been drafted. Copies of this draft may be obtained in Room 7315, Coast Guard Headquarters, Washington, D.C. 20590. Interested persons are invited to comment on this draft statement.

In consideration of the foregoing, it is proposed to amend 33 CFR Part 128 by adding Subpart C to read as follows:

Subpart C—Mooring Barges on the Mississippi River Between Miles 88 and 127 Above Head of Passes

Sec.

128.1500 Mississippi River.
128.1503 Definitions.
128.1505 Waivers.

MOORING

128.1507 Mooring: General.
128.1509 Mooring: Fleeting facility.
128.1513 Mooring: Barge-to-barge; barge-to-vessel; barge-to-pier.

SUPERVISION OF MOORINGS

128.1515 Fleeting facility: Strength of mooring devices, wires, chains, lines and connecting gear.
128.1517 Fleeting facility: Inspection of moorings.
128.1519 Fleeting facility: Record maintenance.
128.1521 Fleeting facility: Surveillance.

BREAKAWAYS

128.1523 Correcting mooring deficiencies and rescouring breakaways.
128.1525 Radio communication during breakaway.

HIGH WATER

128.1527 Applicability.
128.1529 Fleeting facilities: Towboat attendance of barges.
128.1531 Fleet operations during low visibility.

PENALTIES

128.1533 Civil penalties.
128.1535 Criminal penalties.

AUTHORITY: Sec. 104, 86 Stat. 427 (33 U.S.C. 1224); 49 CFR 1.46(o)(4).

§ 128.1500 Mississippi River.

(a) The following is a Regulated Navigation Area—the waters of the Mississippi River between miles 88 and 127 above Head of Passes.

(b) Regulations for this Regulated Navigation Area appear in §§ 128.1503 through 128.1535.

§ 128.1503 Definitions.

As used in this subpart:

(a) "Fleeting facility" means an area on the river on which a mooring service is established.

(b) "Tier" means barges moored interdependently in rows or groups.

(c) "Fleet" includes one or more tiers.

(d) "Person in Charge" includes any owner, agent, pilot, master, officer, operator, crewmember, supervisor, dispatcher, watchman, or other person navigating, controlling, directing or otherwise responsible for the movement, action, securing, or security of any vessel, barge, tier, or fleet subject to the regulations in this subpart.

XUM
V40-24
FEB 4 75
XUM

(e) "Breakaway" means a barge that is adrift and is not under the control of a towing vessel.

(f) "Mooring device" includes a deadman, anchor, pile, cruciform bit, or other reliable holding apparatus.

§ 128.1505 Waivers.

The Captain of the Port may, upon written request, waive any regulation in this subpart if he finds that the proposed operation under the waiver prevents breakaways. A written request for a waiver must state the need for the waiver and describe the proposed operation.

MOORING

§ 128.1507 Mooring: General.

(a) No person may secure a barge to trees or to other vegetation.

(b) No person may allow a barge to be moored with unraveled or frayed lines or other defective or worn moorings.

(c) If barges are moored side to side, they must be secured at each corner of abutting sides.

(d) If barges are moored end to end, they must be secured at each corner of abutting ends.

§ 128.1509 Mooring: Fleeting facility.

(a) If there is only one barge moored at a fleeting facility, the upstream end of that barge must be secured to at least one mooring device and the downstream end must be secured to at least one other mooring device.

(b) If barges are moored in tiers, the shoreward barge at the upstream end of the tier must be secured to at least one mooring device, and the shoreward barge at the downstream end of the tier must be secured to at least one other mooring device.

(c) Each wire used between a barge and mooring device must have at least a diameter of 1¼". Chain or line used between a barge and a mooring device must be of at least equivalent strength to 1¼" diameter wire.

§ 128.1513 Mooring: Barge-to-barge; barge-to-vessel; barge-to-pier.

A barge moored to another barge, a vessel, or a pier must be secured by—

(a) Three parts of wire rope of at least ⅞" diameter with an eye at each end of the rope passed over the timberhead, caval, or button;

(b) A mooring line of natural or synthetic fiber rope that has at least 75 percent of the breaking strength of three parts of ⅞" diameter wire rope; or

(c) Fixed rigging that is at least equivalent to three parts of ⅞" diameter wire rope.

SUPERVISION OF MOORINGS

§ 128.1515 Fleeting facility: Strength of mooring devices, wires, lines and connecting gear.

The person in charge of a fleeting facility shall ensure that all mooring devices, wires, chains, lines and connecting gear are of sufficient strength and in sufficient number to withstand forces that may be exerted on them by the moored barges.

§ 128.1517 Fleeting facility: Inspection of moorings.

(a) The person in charge of a fleeting facility shall assign a person to inspect moorings in accordance with the requirements in paragraph (b) of this section.

(b) The person assigned to inspect moorings shall inspect—

(1) At least twice during each day during periods that are six hours or more apart, each mooring wire, chain, line, and connecting gear between mooring devices and each wire, line, and connecting equipment used to moor each barge; and

(2) After a towboat adds to, withdraws from, or moves barges moored at a fleeting facility, each mooring wire, line, and connecting equipment of each barge within each tier affected by that operation.

(c) The person who inspects moorings shall take immediate action to correct each deficiency.

§ 128.1519 Fleeting facility: Record maintenance.

The person in charge of a fleeting facility shall maintain and make available to the Coast Guard records containing the following information:

(a) The time of commencement and termination of each inspection required in § 128.1517(b).

(b) The name of each person who makes the inspection required in § 128.1517(b).

(c) The time of, date of, identification of, and any hazardous cargo in each barge entering and departing the fleeting facility.

(d) The identification of each towboat that moves a barge into, within, or out of the fleeting facility.

NOTE: The requirements in § 128.1519(c) for the listing of hazardous cargo refers to articles categorized as hazardous in Subchapter D and O of Chapter I, Title 46, Code of Federal Regulations.

§ 128.1521 Fleeting facility: Surveillance.

(a) The person in charge of a fleeting facility shall assign a watchman to observe the barges in the fleeting facility.

(b) The watchman who observes the barges shall—

(1) Keep the barges under constant surveillance;

(2) Detect movements that are unusual for properly secured barges; and

(3) Correct each observed deficiency.

BREAKAWAYS

§ 128.1523 Correcting mooring deficiencies and recurring breakaways.

The person in charge of mooring barges shall take immediate action to—

(a) Resecure each breakaway; and

(b) Report each breakaway as soon as possible to the Captain of the Port, New Orleans, by telephone, radio, or other means of rapid communication.

§ 128.1525 Radio communication during breakaway.

The person in charge of a vessel engaged in recovery of a breakaway shall monitor and communicate on channel 13 (156.65 MHz) VHF–FM.

HIGH WATER

§ 128.1527 Applicability.

Sections 128.1529 and 128.1531 apply to barges in the Mississippi River between mile 88 and 127 above Head of Passes during high water when—

(a) The Carrollton gauge stands 12 feet or more; or

(b) The Carrollton gauge stands 8 feet, the Mississippi River is rapidly rising, and the district commander determines these circumstances to be especially hazardous and issues orders directing that §§ 128.1529 and 128.1531 are in effect.

§ 128.1529 Fleeting facilities: Towboat attendance of barges.

During high water, the person in charge of a fleeting facility must comply with the following requirements:

(a) Each fleet consisting of six or more barges must be attended by at least one radar equipped towboat for each 100 barges or less.

(b) Each fleet must have 2 or more towboats in attendance when—

(1) Barges are withdrawn from or moved within the fleet and the fleet at the start of the operation contains 6 or more barges; or

(2) Barges are added to the fleet and the number of barges being added and the fleet at the start of the operation total 6 or more.

(c) Every towboat required in paragraph (b) of this section must be—

(1) Capable of performing the operations described in that paragraph;

(2) Immediately operational;

(3) Radio equipped; and

(4) Positioned within 500 yards of the barges.

(d) The person in charge of each towboat required in paragraph (b) of this section shall maintain a continuous—

(1) Watch on the barges moored in the fleeting facility; and

(2) Guard on channel 13 (156.65 MHz) VHF–FM.

(e) During periods when visibility is less than 200 yards, the person in charge of each towboat required in paragraph (b)(1) of this section shall maintain a continuous radar surveillance of the barges moored in the fleeting facility.

§ 128.1531 Fleeting operations during low visibility.

During high water when visibility is reduced to less than two hundred yards—

(a) Tows may not be assembled or disassembled; and

(b) No barge may be added to, withdrawn from, or moved within a fleet except—

(1) A single barge may be added to or withdrawn from the channelward or downstream end of the fleet; and

(2) Barges made up in a tow may depart a fleet from the channelward or downstream end of the fleet.

PENALTIES

§ 128.1533 Civil Penalties.

33 U.S.C. 1226 prescribes that whoever violates a regulation issued under Title 1 of the Ports and Waterways Safety Act of 1972 is liable to a civil penalty of not more than $10,000.

§ 128.1535 Criminal Penalties.

33 U.S.C. 1227 prescribes that whoever willfully violates a regulation issued under Title 1 of the Ports and Waterways Safety Act of 1972 shall be fined not less than $5,000 or more than $50,000 or imprisoned for not more than 5 years, or both.

(Sec. 104, 86 Stat. 427 (33 U.S.C. 1224); 49 CFR 1.46(o)(4))

Dated: January 30, 1975.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.75-3128 Filed 2-3-75;8:45 am]

[33 CFR Part 175]

[CGD 74-159]

REVOCATION OF EXCEPTION FOR NON-APPROVED LIFESAVING DEVICES ON WHITE WATER CANOES AND KAYAKS

Notice of Proposed Rulemaking

The Coast Guard is considering amending Subchapter S to Title 33, Code of Federal Regulations, to revoke the exception for Personal Flotation Device (PFD) carriage granted to persons using a canoe or kayak that is enclosed by a deck or spray skirt (33 CFR 175.17). Any interested person may submit written data, views, or arguments concerning this notice to U.S. Coast Guard (G-CMC/82), Room 8234, 400 Seventh Street, S.W., Washington, D.C. 20590. All communications received before April 17, 1975, will be considered before action is taken on the proposed revocation. Each person submitting comments should include his name and address, identify this notice (CGD 74-159), and give reasons and supporting data for any recommendations. All comments will be available for examination in Room 8234.

In the 28 March 1973 issue of the FEDERAL REGISTER, the Coast Guard published new requirements for the carriage of personal flotation devices (PFD's) on board recreational boats. These PFD regulations were established in Part 175 of Title 33, Code of Federal Regulations. Section 175.17 (Exceptions) of the PFD regulations provides that:

§ 175.17 Exceptions.

(a) A person using a canoe or kayak that is enclosed by a deck and spray skirt need not comply with § 175.15(a) (Personal Flotation Devices required on canoes and kayaks) if he wears a vest-type lifesaving device that—

(1) Has no less than 150 separate permanently inflated air sacs made of not less than 12 mil polyvinylchloride film and has not less than 13 pounds of positive buoyancy in fresh water, if worn by a person who weighs more than 90 pounds; or

(2) Has no less than 120 separate permanently inflated air sacs made of not less than 12 mil polyvinylchloride film and has not less than 8½ pounds of positive buoyancy in fresh water, if worn by a person who weighs 90 pounds or less.

. . . . .

This exception was granted because the Coast Guard recognized that white water canoeing requires special lifesaving equipment allowing maximum freedom of movement to manage the canoe and because the configuration of such canoes does not allow readily accessible stowage of lifesaving equipment. It was further recognized that, at the time of issuance of the regulations, there was no Coast Guard approved PFD of suitable characteristics on the market which would satisfy the requirements of the white water canoeist.

The Coast Guard, while granting this exception, considered that in the near future suitable PFD's would be developed which would be satisfactory for white water canoeing and which could be approved under existing PFD specifications (e.g. Type III). Therefore, in the preamble of the Notice of Proposed Rulemaking, dated 6 October 1972 (37 FR 21262), the Coast Guard served notice of its intent to allow the exception in § 175.17(a) to apply only until 1 July 1974.

Since promulgation of the PFD regulation, the Coast Guard has approved numerous Type III PFD's which, in the judgment of the Coast Guard, are suitable for use by white water canoeists. The following is a listing of such presently approved Type III PFD's. The approval number, which identifies the specific PFD model which the Coast Guard believes is suitable for white water use, is listed after the name of each manufacturer.

A. B. Sea Ltd., 3596 East Geddes Avenue, Littleton, Colorado. 80121.
160.064/673/0 160.064/674/0 160.064/675/0
Omega Marketing, Post Office Box 487, Marblehead, Massachusetts. 01945.
160.064/602/0 160.064/603/0 160.064/604/0
160.064/605/0 160.064/606/0
Plastimo, 15 Rue Ingenier, Veriere 56100, Lorient, France.
160.064/485/0 160.064/486/0 160.064/487/0
160.064/488/0 160.064/489/0
Seda Products, Post Office Box 5509, Fullerton, California. 92635.
160.064/663/0 160.064/664/0 160.064/665/0
160.064/666/0
Stearns Manufacturing Company, Post Office Box 1498, St. Cloud, Minnesota. 56301.
160.064/322/0 160.064/323/0

It should be emphasized that there may be other presently approved Type III PFD's not listed here but which enthusiasts find fully suitable for use in white water. Thus, the above listing should not be considered as an endorsement of one brand of PFD over another. In addition to the above listed companies, Harishok Limited of England has submitted a Type III PFD for approval. It is anticipated that other companies will submit devices for approval which will meet the criteria of a Type III device and which the white water enthusiast will find suitable.

In view of the presently approved devices and in the anticipation of further devices being submitted for approval, the Coast Guard proposes to revoke the exception granted in 33 CFR 175.17(a). However, to allow additional time for operators to obtain approved PFD's this revocation would become effective on 1 October 1975, rather than 1 July 1974, as initially proposed.

In consideration of the foregoing the Coast Guard proposes to amend § 175.17 of Title 33, Code of Federal Regulations by revising paragraph (a) to read as follows:

(a) A person using a canoe or kayak, before October 1, 1975, that is enclosed by a deck or spray skirt need not comply with § 175.15(a) if he wears a vest-type lifesaving device that—

. . . . .

(Section 5 of the Federal Boat Safety Act of 1971, (46 U.S.C. 1454); 49 CFR 1.46(o)(1))

Dated: January 28, 1975.

A. F. FUGARO,
Captain, U.S. Coast Guard, Acting Chief, Office of Boating Safety.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 75-SO-3]

DESIGNATION OF TRANSITION AREA

Notice of Proposed Rule Making

Correction

In FR Doc. 75-2069 appearing at page 3611 in the issue for Thursday, January 23, 1975, the paragraph on page 3612 which begins, "The Kingstree transition area would be designated as:", the 9th line beginning, "79°52' . . ." should be corrected to read "79°51' . . ."

[14 CFR Part 71]

[Airspace Docket No. 75-SW-5]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal aviation regulations to designate a transition area at Ozark, Ark.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before March 6,

XUM
V40124
FEB 4 75
XUM

1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal aviation regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

OZARK, ARK.

That airspace extending upward from 700 feet above the surface within a 9-statute-mile radius of Ozark-Franklin County Airport, Ozark, Ark., latitude 35°30'36" N., longitude 93°50'23" W.

The proposed transition area will provide controlled airspace for aircraft executing approach/departure procedures proposed at the Ozark-Franklin County Airport, Ozark, Ark.

Concurrently with this action, the Ozark-Franklin County Airport will be changed from VFR to IFR status.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); Sec 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Texas, on January 24, 1975.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.75-3109 Filed 2-3-75;8:45 am]

[14 CFR Part 103]

[Docket No. 14249; Notice No. 75-2]

CARRIAGE OF RADIOACTIVE MATERIALS

Proposed Rule Making

The Federal Aviation Administration is considering amending Part 103 of the Federal Aviation Regulations to limit the carriage of radioactive materials on passenger-carrying aircraft to those intended for use in, or incident to, research or medical diagnosis or treatment and to those shipments of radioactive materials that meet requirements in 49 CFR 172 and 173 which exempt them from packaging, marking and labeling requirements for shipment by rail express and which are now exempt from the applicability of Part 103. The proposed amendments would implement section 108 of the Transportation Safety Act of 1974 (Pub. L. 93-633) in the light of views presented by interested persons at a public hearing held by the FAA on January 20, 1975 (40 FR 2607).

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, S.W., Washington, D.C. 20591. All communications received on or before March 10, 1975, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. In view of the statutory requirement for completion of this rule-making action, as explained hereinafter, no extensions of the date specified for filing comments will be entertained. Interested persons who wish to submit comments are urged to do so promptly.

Section 108 of the Transportation Safety Act of 1974, enacted into law on January 3, 1975, directs the Secretary of Transportation to issue regulations within 120 days after the date of enactment, in accordance with section 108 and pursuant to section 105 of that Act, with respect to the transportation of radioactive materials on any passenger-carrying aircraft in air commerce. The pertinent provision of section 108 of the Act states in part:

Sec. 108(a) General—• • • Such regulations shall prohibit any transportation of radioactive materials on any such aircraft unless the radioactive materials involved are intended for use in, or incident to, research, or medical diagnosis or treatment, so long as such materials as prepared for and during transportation do not pose an unreasonable hazard to health and safety. The Secretary shall further establish effective procedures for monitoring and enforcing the provisions of such regulations.

(b) Definition—As used in this section, "radioactive materials" means any materials or combination of materials which spontaneously emit ionizing radiation. The term does not include materials in which (1) the estimated specific activity is not greater than 0.002 microcuries per gram of material; and (2) the radiation is distributed in an essentially uniform manner.

To implement section 108 of the Act, it is proposed to amend § 103.1 and include for the purpose of Part 103 a definition of the term "radioactive materials", that conforms to the definition of the term in section 108(b) of the Act. The proposal would also add to § 103.1 a definition of the term "research," as used in section 108(a) of the Act, since it is not defined in the Act. In addition, this proposal would amend § 103.7 to restrict the carriage of radioactive materials on passenger-carrying aircraft to those materials intended for use in, or incident to, research, or medical diagnosis or treatment and those exempted by § 103.1(c) from the requirements of Part 103.

The legislative history of the Act indicates that it was not the intent of Congress to prohibit the carriage of tiny trace elements or small quantities of radioactive material on passenger-carrying aircraft, notwithstanding the literal wording of section 108 of the Act (Congressional Record of December 19, 1974; Volume 120, Number 179, page H12351). Accordingly, this proposal would amend § 103.1(c) and exclude from the applicability of Part 103 human beings and animals with an implanted medical device, such as a heart pacemaker, that contains radioactive material or with radiopharmaceuticals that have been injected or ingested. The FAA believes these devices and materials used for medical purposes do not pose an unreasonable hazard to health and safety aboard passenger-carrying aircraft.

In addition, in light of the legislative history of the Act, it is proposed to amend § 103.1(c) and exempt from the applicability of Part 103 small quantities of radioactive materials that meet those requirements in 49 CFR Parts 172 and 173 in effect on the issuance date of this Notice that exempt them from the packaging, marking and labeling requirements for shipment by rail express. These materials, which have been exempted under the regulations of 49 CFR Parts 172 and 173 for more than 20 years, are currently excluded from the applicability of Part 103 and this proposal would continue to exclude them under the exemption authority of section 107(a) of the Act for a period of two years. The two year period is necessary, since such a limitation is required by the exemption authority of section 107(a) of the Act, but that authority permits exemptions to be renewed.

Included in this category of exempted materials are devices such as luminous clocks and watches, aircraft dials, electron tubes, and exit markers. Also included are calibration sources that are component parts of radiation survey instruments routinely used by personnel of shippers, carriers, and regulatory agencies to monitor shipments for compliance with applicable regulations, as well as schedule quantities of materials not contained in any devices. The maximum allowable radiation level at the surface for any package of such exempted materials is 0.5 millirem per hour and in the event any material were lost from any package it would not pose any hazard to health and safety. Accordingly, the FAA considers the continued exemption of those materials to be safe and consistent with the public interest and the policy of the Hazardous Materials Transportation Act.

This proposal would also amend § 103.3 to prohibit a shipper from offering, and an aircraft operator from accepting, radioactive materials subject to Part 103 for shipment in a passenger-carrying aircraft, unless there is accompanying the shipment a clear and visible statement, in addition to that required by

current § 103.3(a), that the shipment contains radioactive materials intended for use in, or incident to, research, or medical diagnosis or treatment and meets the requirements of Part 103 for shipment in passenger-carrying aircraft.

The FAA believes the present provisions of Part 103 are adequate to ensure that radioactive materials authorized for carriage aboard passenger-carrying aircraft by section 108(a) of the Act will not, when so carried, pose an unreasonable hazard to health and safety. However, it should be noted that in 1973 the FAA suspended the effectiveness of that part of Amendment 103-17 governing the distribution of packages of radioactive materials aboard aircraft to permit the completion of studies then being conducted. The FAA stated that it would, thereafter, take whatever rule-making action it deemed appropriate. Studies and surveys conducted by the United States Atomic Energy Commission (AEC), in cooperation with the Department of Transportation, Office of Hazardous Materials, and the FAA to evaluate the adequacy and effectiveness of the present regulations of Part 103 for the transportation of radioactive materials by air have been completed and the AEC has issued a report based thereon. The FAA is currently developing a notice of proposed rule making based upon the studies and surveys conducted, including the AEC report.

These amendments are proposed under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421), and sections 105, 107, and 108 of Pub. L. 93-633, as delegated to the Administrator by the Secretary of Transportation (40 FR 2861).

In consideration of the foregoing, it is proposed to amend Part 103 of the Federal Aviation Regulations as follows:

1. By amending § 103.1(c) by revising subparagraph (4) and adding a new subparagraph (6) to read as follows:

§ 103.1 Applicability.

• • • • • •

(c) This part does not apply to—• • •

(4) Prior to (2 years after effective date of amendment) radioactive materials that meet those requirements in 49 CFR Parts 172 and 173 in effect on (issuance date of this notice) that exempt them from the packaging, marketing, and labeling requirements for shipment by rail express.

• • • • • •

(6) Human beings and animals with an implanted medical device, such as a heart pacemaker, that contains radioactive material or with radio pharmaceuticals that have been injected or ingested.

2. By amending § 103.1 by adding a new paragraph (d) to read as follows:

§ 103.1 Applicability.

• • • • • •

(d) For the purposes of this part—

(1) Radioactive materials means any materials or combination of materials which spontaneously emit ionizing radiation. The term does not include materials in which (i) the estimated specific activity is not greater than 0.002 microcuries per gram of material; and (ii) the radiation is distributed in an essentially uniform manner.

(2) Research means investigation or experimentation aimed at the discovery and interpretation of facts or revision of accepted theories or laws in the light of new facts.

3. By amending § 103.3 by adding a new paragraph (d) to read as follows:

§ 103.3 Certification requirements.

• • • • • •

(d) In addition to the requirements of paragraph (a) of this section, no shipper may offer, and no person operating an aircraft may knowingly accept, any radioactive materials subject to the requirements of this part for shipment in a passenger-carrying aircraft unless there is accompanying the shipment a clear and visible statement that the shipment contains radioactive materials intended for use in, or incident to, research, or medical diagnosis or treatment and meets the requirements of this part for shipment in passenger-carrying aircraft.

4. By amending § 103.7 by revising paragraph (b)(6) to read as follows:

§ 103.7 Passenger-carrying aircraft.

No person may carry any dangerous article in a passenger-carrying aircraft except—

• • • • • •

(b) The following articles when packaged, marked, and labeled as specifically provided in 49 CFR Parts 171 through 173 for shipment by rail express:

• • • • • •

(6) Subject to applicable provisions of this Part, radioactive materials intended for use in, or incident to, research, or medical diagnosis or treatment and those radioactive materials that are exempted by § 103.1(c) (4) and (6) from the requirements of this part.

Issued in Washington, D.C., on January 29, 1975.

R. P. SKULLY,
Director,
Flight Standards Service.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 85]

[FRL 329-8]

CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Extension of Comment Period for Proposed Selective Enforcement Auditing Procedures

The Environmental Protection Agency published a notice of proposed rulemaking, 39 FR 45360, dated Tuesday, December 31, 1974, for Selective Enforcement Auditing of new motor vehicles. In order to afford interested persons an opportunity to participate in the rulemaking proceeding the notice invited written submissions of data, views, or arguments relative to the proposed regulation. The closing date for comments was set for March 3, 1975. Submissions to the docket by the Motor Vehicle Manufacturers Association and Ford Motor Company indicate that the March 3, 1975, closing date does not allow adequate time for participants to fully respond to the solicitation of data, views, or arguments, and request that the comment period be extended.

The Agency has considered these requests and has concluded that an extension of the comment period is warranted. Accordingly, the closing date is hereby extended to April 17, 1975, and all comments received on or before that date will be considered. Interested persons may participate in this rulemaking proceeding by submitting written comments (ten (10) copies) to Director, Mobile Source Enforcement Division (EG-340), room 3220 WSM, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460. All comments will be available for public inspection during normal working hours at the Freedom of Information Office, room 232 WSM, 410 M Street, SW., Washington, D.C. 20460.

Dated: January 29, 1975.

ALAN G. KIRK II,
Assistant Administrator for
Enforcement and General Counsel.

Gorton, Guy Erwin, 5828 Tobias Avenue, Van Nuys, California, convicted on October 3, 1972, in the Los Angeles Superior Court, Santa Monica Department West H, California; and on August 22, 1956, in the Los Angeles Superior Court, Los Angeles, California.

Green, Stephen L., 1040 S. 2nd East, #4, Salt Lake City, Utah, convicted on December 24, 1969, in the District Court for the Seventh Judicial District, Bonneville County, Idaho.

Gossin, Adelbert P., Green Road, Hubbardsville, New York, convicted on April 8, 1947, in the County Court of Oneida County, Utica, New York.

Groce, Willis, 219 Owen, Detroit, Michigan, convicted on or about October 25, 1932, in the Recorder's Court of the City of Detroit, Michigan; and on April 19, 1940, in the United States District Court, Eastern District of Michigan, Southern Division.

Hagewood, Karl B., 48427 1st Street, Oakridge, Oregon, convicted on October 16, 1967, in the United States District Court, Southern District of California.

Hessler, Jr., Richard A., L/Cpl., 226 McCarthy Midway Island, MCB Quantico, Virginia, convicted on November 21, 1973, in the Circuit Court of the County of Prince William, Manassas, Virginia.

Hollander, Nancy A., 7012 Victoria Avenue, Apt. #6, Highland, California, convicted on October 20, 1971, in the Superior Court, Riverside, California.

Keeler, Burton A., 5205 Wan-I-Da Avenue, N.E., Tacoma, Washington, convicted on October 13, 1930, in the Court of Common Pleas, Lorain County, Ohio; on February 25, 1953, in the Superior Court of the State of Washington, in and for Spokane County; and on December 9, 1960, in the Superior Court of the State of Washington, County of King.

Klima, Craig, 5652 West Reighmoor Road, Omro, Wisconsin, convicted on June 8, 1971, in the County Court, Winnebago County, Wisconsin.

Litts, Edward L., 2927 Gilbert Street, Marinette, Wisconsin, convicted on March 13, 1972, in the Marinette County Circuit Court, Marinette, Wisconsin.

McCraw, Dewey, 23750 Columbus, Warren, Michigan, convicted on October 16, 1950, and March 7, 1951, in the Circuit Court, Jefferson County, Alabama.

Mader, Irvin, 20 Tyler, Apt. 115, Highland Park, Michigan, convicted on February 21, 1933, in the Circuit Court of Madison County, Kentucky.

Mitchell, Berry, Cranks, Kentucky, convicted on January 9, 1950, in the Harlan Circuit Court, Harlan County, Kentucky.

Moritz, Leonard V., R. R. 4, Menomonie, Wisconsin, convicted on November 20, 1972, in the Dunn County Court, Menomonie, Wisconsin.

Myers, Jon Ronald, East Road, New Sweden, Maine, convicted on February 22, 1971, in the United States District Court for the District of Arizona.

Ochs, Larry Francis, Lucinda, Pennsylvania, convicted on November 10, 1972, in the Court of Common Pleas of Clarion County, Pennsylvania.

Pratt, Melvin Dale, P.O. Box 92, Bassett, Wisconsin, convicted on December 22, 1961, March 6, 1964, and May 24, 1966, in the Kenosha County Court, State of Wisconsin.

Reynolds, John Walter, Perryville Road, Springfield, Kentucky, convicted on July 16, 1973, in the United States District Court, Western District of Kentucky.

Rhea, John C., 151 East 6th Street, Russellville, Kentucky, convicted on December 14, 1972, in the United States District Court, Western District, Bowling Green, Kentucky.

Rittenberry, R. L., 701 Park Avenue, Poplar Bluff, Missouri, convicted on September 8, 1970, in the Circuit Court of Butler County, Missouri.

Roskelley, Curtis R., 778 North 300 West, Apt. 2, Salt Lake City, Utah, convicted on November 30, 1970, in the District Court of the First Judicial District of the State of Utah, in and for the County of Cache.

Sanchez, Paul P., 8542 Columbus, #21, Sepulveda, California, convicted on September 16, 1966, in the United States District Court, Northern District of California, Sacramento, California.

Schroyer, Russell T., 6505 Colgate Avenue, Baltimore, Maryland, convicted on May 3, 1974, in the United States District Court for the District of Maryland.

Sherman, Marvin M., 19613 Antago Street, Livonia, Michigan, convicted on February 28, 1944, in the State Court of Colorado, Denver, Colorado; and on July 17, 1947 in the United States District Court, Denver, Colorado.

Staszak, Darrell R., 3819A South Alabama Avenue, Milwaukee, Wisconsin, convicted on May 6, 1971, in the Milwaukee County Circuit Court, State of Wisconsin.

Sterling, Noel Leon, 2151 North 192nd, Seattle, Washington, convicted on October 1, 1968, in the King County Superior Court, Seattle, Washington.

Stevens, Raymond, Route 1, Box 32, Raven, Virginia, convicted on July 28, 1970, in the Circuit Court of the County of Buchanan, Commonwealth of Virginia.

Taylor, Raymond Gilbert, 22420 Petersburg Drive, East Detroit, Michigan, convicted on May 23, 1972, in the United States District Court for the Eastern District of Michigan.

Via, George Thomas, 2202 Zable Drive, Charleston, West Virginia, convicted on or about December 14, 1961, in the Intermediate Court of Kanawha County, West Virginia.

Wagner, Robert, 1691 B Valley Forge Court, Wheaton, Illinois, convicted on August 4, 1967, in the United States District Court, State of Oregon.

Watson, Billy E., 4329 Fulton Street, Houston, Texas, convicted on March 25, 1957, in the District Court #3, Harris County, Texas.

Wingert, Francis Alvern, 4801 W. 40th Street, Sioux Falls, South Dakota, convicted on or about January 21, 1971, in the Minnehaha County Circuit Court, Sioux Falls, South Dakota.

Wix, Patrick A., P. O. Box 54, Pittsville, Wisconsin, convicted on March 20, 1972, in Branch 2 County Court, Wood County, Wisconsin.

Woodrich, Raymond Lee, 639 West High Street, Lincoln, Nebraska, convicted on August 9, 1971, in the District Court of Washington County, Nebraska; and on September 3, 1972, in the District Court of Burt County, Nebraska.

Signed at Washington, D.C. this 21st day of January, 1975.

REX D. DAVIS,
Director, Bureau of Alcohol,
Tobacco and Firearms.

EMPLOYEE BENEFIT PLANS

Interim Exemption From Prohibitions on Securities Transactions With Certain Broker-Dealers, Reporting Dealers and Banks

CROSS REFERENCE: For a document concerning the granting of an exemption by both the Internal Revenue Service and the Department of Labor with respect to certain securities transactions between employee benefit plans and certain broker-dealers, reporting dealers and banks from the prohibited transaction provisions of section 4975 of the Internal Revenue Code of 1954 and section 406 of the Employee Retirement Income Security Act of 1974, see FR Doc. 75-3340, infra.

Office of the Secretary

[Public Debt Series No. 2-75]

SERIES D-1978 TREASURY NOTES

Rates of Percent Per Annum

JANUARY 29, 1975.

The Secretary of the Treasury announced on January 28, 1975, that the interest rate on the notes described in Department Circular—Public Debt Series—No. 2-75, dated January 23, 1975, will be 7⅛ percent per annum. Accordingly, the notes are hereby redesignated 7⅛ percent Treasury Notes of Series D-1978. Interest on the notes will be payable at the rate of 7⅛ percent per annum.

JOHN K. CARLOCK,
Fiscal Assistant Secretary.

DEBT MANAGEMENT ADVISORY COMMITTEES

Meetings and Determination

Notice is hereby given, pursuant to section 10 of Pub. L. 92-463, that meetings will be held in Washington on February 24, 1975, of the following debt management advisory committees:

American Bankers Association
Government Borrowing Committee
Securities Industry Association
Government Securities and Federal Agencies Committee

The agenda for the meetings will include a briefing for the advisory committees by Treasury staff on current debt management problems, deliberations by the two committees, and reports to the Secretary of the Treasury and Treasury staff.

Pursuant to the authority placed in Heads of Departments by section 10(d) of Pub. L. 92-463, and vested in me by Treasury Department Order 190, revised, I hereby determine that these meetings are concerned with information exempt from disclosure under section 552(b)(4) of Title 5 of the United States Code, and that the public interest requires that such meetings be closed to the public.

My reasons for this determination are as follows. The Treasury Department requires frank and full advice from representatives of the financial community prior to making its final decision on major financing operations. Historically, this advice has been offered by debt management advisory committees established by the several major segments of the financial community, which committees are utilized by this Department at meetings called by representatives of this office. When so utilized they are recognized to be advisory committees under Pub. L. 92-463. The advice provided consists of commercial and financial information given and received in confidence in order to avoid adverse effects of premature disclosure on the financial markets and the economy. As such these debt management advisory committee activities concern matters which fall within the exemption covered by section 552(b)(4) of Title 5 of the United States Code for matters which are "trade secrets and commercial or financial information obtained from a person and privileged or confidential."

The Special Assistant to the Secretary (Debt Management) shall be responsible for maintaining records of the meetings of these committees and for providing annual reports setting forth a summary of their activities and such other matters as may be informative to the public consistent with the provisions of 5 U.S.C. 552(b)(4).

Dated: January 29, 1975.

[SEAL] JACK F. BENNETT,
Under Secretary for
Monetary Affairs.

AIR UNIVERSITY BOARD OF VISITORS

Closed Meeting

JANUARY 29, 1975.

The Air University Board of Visitors will hold a closed meeting on March 18, 1975, at 2 p.m. in the Air University Conference Room, Austin Hall, Building 800, Maxwell Air Force Base, Alabama.

The board will present to the Commander, Air University, a report of findings and recommendations concerning Air University educational programs. The meeting will include an exchange of internal views on matters listed in 5 U.S.C. 552(b)(2) and, therefore, is closed to the public.

For further information on this meeting, contact Dorothy D. Reed, Coordinator, AU Board of Visitors, Office of the Deputy Chief of Staff, Education, Headquarters Air University (EDV), on 205-293-5158 or 205-293-7423.

STANLEY L. ROBERTS,
Colonel, USAF Chief, Legislative
Division, Office of The Judge
Advocate General.

CONSUMER TASK GROUP COMMITTEE ON ENERGY CONSERVATION NATIONAL PETROLEUM COUNCIL

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

The Consumer Task Group of the Committee on Energy Conservation of the National Petroleum Council will meet on February 19, 1975 at 9:30 a.m. in the National Petroleum Council's conference room, 1625 K Street NW., Washington, D.C. The agenda includes the following items:

1. Review of progress on preparation of a report on Phase II of the current study on the possibilities for energy conservation in the United States and the impact of such measures on the future energy posture of the Nation. This study was requested by the Secretary of the Interior on July 23, 1973. Phase I of the study was completed on September 10, 1974.

2. Discussion of participation by the Task Group in Phase II of the study.

3. Discussion of any other matters pertinent to the overall assignment of the Task Group.

The meeting will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meeting. Interested persons who wish to speak at the meeting must apply to the Council and obtain approval in accordance with its established procedures.

The purpose of the National Petroleum Council is to provide advice, information and recommendations to the Secretary of the Interior, upon request, on any matter relating to petroleum or the petroleum industry.

Further information with respect to this meeting may be obtained from Ben Tafoya, Office of the Assistant Secretary—Energy and Minerals, Department of the Interior, Washington, D.C., telephone number 343-7976.

Dated: January 31, 1975.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

RAISIN ADVISORY BOARD

Notice of Public Meeting

Under the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770), notice is given of a meeting of the Raisin Advisory Board at 1:30 p.m., February 20, 1975, in the Forum of the Sheraton Inn, Freeway 99 and Clinton Avenue, Fresno, California.

The purpose of the meeting is to: Review possible changes in minimum grade and condition standards for raisins; receive a report of a meeting between raisin industry representatives and U.S. Department of Agriculture officials in Washington, D.C.; and discuss domestic and export shipments of raisins in the current crop year. The meeting will be open to the public.

The Raisin Advisory Board is established under the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1-19, 48 Stat. 31, as amended; (7 U.S.C. 601-674)).

The names of Board members, agenda, summary of the meeting and other information pertaining to the meeting may be obtained from Clyde E. Nef, Manager, Raisin Administrative Committee, 732 North Van Ness Street, Fresno, California, 93720; telephone 209-268-5666.

Dated: January 30, 1975.

JOHN C. BLUM,
Associate Administrator.

Farmers Home Administration

[Designation No. A131]

MISSISSIPPI

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in five counties in Mississippi as a result of natural disasters. The attached chart shows the counties, disasters, and dates on which the disasters occurred.

Therefore, the Secretary has designated these areas as eligible for emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor William L. Waller that such designation be made.

Applications for emergency loans must be received by this Department no later than March 27, 1975, for physical losses and October 28, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 28th day of January, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Mississippi, 4 counties, 1974

County	Excessive rainfall	Drought	Freeze and/or frost	Below normal temperatures
Choctaw	Mar. 1 to June 1	July 1 to Sept. 15	Oct. 3	
Leflore	Apr. 1 to June 16 (also flood Sept. 5 to Nov. 30.	Aug. 1 to Aug. 31	Nov. 14	
Marshall	Apr. 15 to May 10	June 24 to July 23	Oct. 2	June 1 to Sept. 30 (5° below normal 4-year average. Averaged 78° in August).
Pontotoc	Apr. 1 to June 23		Oct. 3 and 4	Apr. 1 to May 20.

[FR Doc. 75-3138 Filed 2-3-75; 8:45 am]

Soil Conservation Service

BOIS d'ARC BAYOU WATERSHED, ARKANSAS, ET AL.

Notice of Authorization for Planning

This provides notice of authorization dated January 29, 1975 to concerned state conservationists of the Soil Conservation Service to provide planning assistance to specified local organizations for the indicated watersheds. The state conservationist may now proceed with investigations and surveys as necessary to develop watershed plans under authority of the Watershed Protection and Flood Prevention Act (Pub. L. 83-566), as amended.

Environmental assessments will be made during the planning process. Environmental impact statements or negative declarations will be made available to the general public, filed with the Council on Environmental Quality, and the notice of availability published in the FEDERAL REGISTER.

Persons interested in any of these projects may contact the local organizations or the concerned state conservationist as indicated below:

Arkansas: *Bois d'Arc Bayou Watershed;* 10,700 acres; Little River County.

Sponsors—Bois d'Arc Bayou Improvement District and Little River Conservation District.

State Conservationist—Mrs. M. J. Spears, Soil Conservation Service, Federal Building, Room 5029, 700 West Capitol Street, P.O. Box 2323, Little Rock, Arkansas 72203.

Texas: *Brushy Creek Watershed;* 20,528 acres; Jackson and Lavaca Counties.

Sponsors—Jackson County County-Wide Drainage District, Jackson Soil and Water Conservation District, Lavaca Soil and Water Conservation District, and Jackson County Commissioners Court.

State Conservationist—Mr. E. E. Thomas, Soil Conservation Service, 16-20 South Main Street, P.O. Box 648, Temple, Texas 76501.

West Virginia: *Upper Mud River Watershed;* 60,922 acres; Boone and Lincoln Counties.

Sponsors—Guyan Soil Conservation District, Boone County Court and Lincoln County Court.

State Conservationist—Mr. J. S. Bennett, Soil Conservation Service, 75 High Street, P.O. Box 865, Morgantown, West Virginia 26505.

KENNETH E. GRANT,
Administrator, Soil Conservation Service.

JANUARY 29, 1975.

[FR Doc.75-3139 Filed 2-3-75;8:45 am]

MIDDLE OCONEE—WALNUT CREEK WATERSHED PROJECT, GEORGIA

Notice of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Middle Oconee—Walnut Creek Watershed Project, Hall and Jackson Counties, Georgia.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Charles W. Bartlett, State Conservationist, Soil Conservation Service, USDA, 355 East Hancock Avenue, Athens, Georgia 30601, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by seven single purpose floodwater retarding structures, and one multiple purpose structure for flood prevention and municipal and industrial water supply.

The environmental assessment file is available for inspection during regular hours at the following location:

Soil Conservation Service, USDA, 228 Federal Building, 355 East Hancock Avenue, Athens, Georgia 30601

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until February 19, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

Domestic and International Business Administration

UNIVERSITY OF CALIFORNIA—SAN FRANCISCO

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00289-33-77030. Applicant: University of California, San Francisco, 1438 South Tenth Street, Richmond, California 94804. Article: Model CPS-2 Coherent NMR Pulse Spectrometer. Manufacturer: Spin-Lock Electronics, Ltd., Canada. Intended use of article: The article is intended to be used in research with a two fold objective. First, to develop a fast, reliable method of diagnosing a cancerous or precancerous condition that can be employed on a routine basis. Second, to establish the cause of the larger water proton relaxation times observed in samples from tumorous animals in terms of cellular or molecular properties that may be altered by the existence of cancer in an animal.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the article was ordered (December 18, 1973).

Reasons: The foreign article provides the capabilities for a CPMG pulse sequence (for measurement of T_2, spin-spin relaxation measurements; and, by a modification, measurement of diffusion coefficients) and T_1 (spin lattice relaxation time) spin locking experiments. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated July 2, 1974, that the combination of capabilities described above is pertinent to the applicant's studies of water in normal and malignant cells. HEW also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's purposes which was available at the time the article was ordered. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

A. H. STUART,
Director, Special Import Programs Division.

DUTY-FREE ENTRY OF SCIENTIFIC ARTICLES

Applications

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether

XUM V40124 FEB 4 75 XUM

an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before February 24, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00306-98-29900. Applicant: University of Pittsburgh, Department of Physics, Pittsburgh, Pennsylvania 15260. Article: Far Ultraviolet Interference Filter. Manufacturer: Engins Matra, France. Intended use of article: The foreign article will be used to filter for ultraviolet light in equipment intended to measure atomic oxygen at stratospheric altitudes. Application received by Commissioner of Customs: January 8, 1975.

Docket Number: 75-00307-33-46040. Applicant: Central Connecticut State College, 1615 Stanley Street, New Britain, Connecticut 06050. Article: Electron Microscope, Model HS-9. Manufacturer: Hitachi Limited, Japan. Intended use of article: The article is intended to be used for research on biological materials ranging from viruses, bacteria, blue-green algae and diatoms to multicellular plant and animal tissues. Specific interest lies in the organelles and structures involved in genetic transmission and in development of new stain techniques for wide microscopic applications. Research will also include studies involving Ehrlich ascites tumor cells. In addition, the article is intended to be used in the course Biology 472, Principles and Techniques of Electron Microscopy, to provide advanced undergraduate and graduate students with a grounding in the physical theories of transmission electron microscopy as well as the sequential operational procedures from specimen preparation and ultramicrotomy to darkroom techniques and interpretations of EM graphs they have made. Application received by Commissioner of Customs: January 8, 1975.

Docket Number: 75-00308-33-46500. Applicant: State Laboratory Institute, 305 South Street, Boston, Massachusetts 02130. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of Article: The article is intended to be used as a tool that will permit rapid and accurate diagnosis of selected human and animal virus diseases. The materials to be studied include specimens which will be examined directly for virus and/or viral antigens in skin lesions; vesicle fluid; tissue from organs including brain, liver, lung, spleen, pancreas and other organs; exfoliated cells from throat and the reproductive system; biopsy specimens; leucocytes; exudates; and transudates. Application received by Commissioner of Customs: January 8, 1975.

Docket Number: 75-00309-33-90000. Applicant: Good Samaritan Hospital and Medical Center, 1015 NW. 22nd Avenue, Portland, Oregon 97210. Article: EMI Scanner and Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of Article: The article is intended to be used for research experiments to be conducted for the study of patients both with and without the use of adjunctive intravenous contrast agents, to localize epilepigenic foci and record postictal changes in the central nervous system of epilepsy patients. The article will also be used as an educational tool for the resident doctor staff which includes Neuroscience Institute, neurosurgery, neurology and neuroradiology residents. Application received by Commissioner of Customs: January 8, 1975.

Docket Number: 75-00310-33-90000. Applicant: Mercy Hospital and Medical Center, 4077 Fifth Avenue, San Diego, California 92103. Article: EMI Scanner with Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of Article: The article is intended to be used for clinical research into brain tumors, brain damage, brain infection, and other intracranial disease. The article will also be used for postgraduate instruction in all fields with emphasis in Radiology, Neurosurgery, and Neurology, Pediatrics and Internal Medicine. Application received by Commissioner of Customs: January 8, 1975.

Docket Number: 75-00311-33-46040. Applicant: Children's Hospital Medical Center, 300 Longwood Avenue, Boston, Massachusetts 02108. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of Article: The article is intended to be used primarily for biomedical research in studies of animal (including human) calcifying tissues. The research will involve investigation of cells and subcellular components, as well as matrix and matrix components. The work will include: (1) Changes in cell structure and subcellular components of the different types of bone cells under influence of hormones and drugs; (2) structure of bone cells, subcellular components and matrix components in bone diseases; (3) changes in cellular and subcellular structure and matrix components of articular cartilage in experimental models and in arthritis; (4) the nature of the initial mineral deposits in bone matrix and their subsequent maturation; (5) the relationship between these mineral deposits and structures in the organic matrix, as well as between the mineral deposits and cellular components. Application received by Commissioner of Customs: January 8, 1975.

Docket Number: 75-00312-75-42800. Applicant: Brookhaven National Laboratory, Associated Universities, Inc., Upton Long Island, New York 11973. Article: Electron Analyzing Magnet. Manufacturer: Voest, Austria. Intended use of article: The article intended to be used in a research program of investigating the properties of atomic nuclei. The experiments to be conducted consist of irradiating targets of various elements in a beam of slow neutrons at the Brookhaven High Flux Beam Research Reactor and observing the electrons which are ejected after neutrons are captured by target nuclei. Application received by Commissioner of Customs: January 8, 1975.

Docket Number: 75-00313-33-46500. Applicant: University of Texas Medical Branch, Marine Biomedical Institute, 200 University Blvd., Galveston, Texas 77550. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of the cellular structure of embryonic marine fish larvae, particularly the leptocephalous larvae of eels and related fishes. The development of embryonic cells as they transform to adult organs with specific functions will be traced. Application received by Commissioner of Customs: January 8, 1975.

National Bureau of Standards

DEVELOPMENT OF VOLUNTARY PRODUCT STANDARDS

Simplified Practice Recommendation Action on Proposed Withdrawal

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the withdrawal of Simplified Practice Recommendation R 252-60, "Standard Sizes of Pint, Quart, and Half-Gallon Rectangular Ice Cream Cartons and Molds."

It has been determined that this standard is technically inadequate and of insufficient public concern to warrant continuation as a Department of Commerce standard and that revision would serve no useful purpose. This action is taken in furtherance of the Department's announced intentions as set forth in the public notice appearing in the FEDERAL REGISTER of November 19, 1974 (39 FR 40599), to withdraw this standard.

The effective date for the withdrawal of this standard will be 60 days after the publication of this notice. This withdrawal action terminates the authority to refer to this standard as a voluntary standard developed under the Department of Commerce procedures.

Dated: January 29, 1975.

RICHARD W. ROBERTS,
Director.

[FR Doc.75-3143 Filed 2-3-75;8:45 am]

Patent and Trademark Office

CHANGE IN NAME OF THE PATENT OFFICE

On January 2, 1975, President Ford signed into law H.R. 7599, a bill changing the name of the Patent Office to the "Patent and Trademark Office" and the title of the Commissioner of Patents to the "Commissioner of Patents and Trademarks." This change reflects the dual role of the Patent Office in administering both the patent law (Title 35, United States Code) and the Trademark Act of 1946 (60 Stat. 427 (15 U.S.C. 1051, et seq.)).

In order to minimize the cost of implementing this law (Pub. L. 93-596) and because of the similarity of the old and new names, existing stationery, printed forms, publications, etc. will continue in use until such supplies are exhausted. During the interim, the terms "Patent Office" and "Commissioner of Patents", appearing on patent grants and other official documents issued or dated on and after January 2, 1975, shall be construed to mean "Patent and Trademark Office" and "Commissioner of Patents and Trademarks." This same interpretation shall apply to the use of these terms in the patent and trademark rules of practice, 37 CFR, Parts 1 and 2, until such time as the Code of Federal Regulations is revised and new rules of practice are published.

In addition, the public is encouraged to minimize its costs in complying with this new law by exhausting reasonable quantities of existing stationery and forms which contain printed reference to the Patent and Trademark Office as the Patent Office and the Commissioner of Patents and Trademarks as the Commissioner of Patents. In preparing other written matter for submission to the Patent and Trademark Office, the public should use the new designation.

C. MARSHALL DANN,
Commissioner of Patents and Trademarks.

Approved:

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

[FR Doc.75-3136 Filed 2-3-75;8:45 am]

Office of the Secretary

CTAB PANEL ON SULFUR OXIDE CONTROL TECHNOLOGY

Meetings

The formation of a Panel on Sulfur Oxide Control Technology under the U.S. Department of Commerce Technical Advisory Board (CTAB) is now under consideration to provide the Secretary an assessment of how the utility industry in the Northeastern United States can best utilize sulfur-bearing Appalachian coal in meeting energy needs while complying with the Clean Air Act of 1970. This notice provides the schedule for the following meetings which are contingent on the establishment of the Panel.

Date	*Time*	*Purpose*	*Meeting place*
March 6, 1975	8:30 a.m. to 5 p.m.	Reports from members and consultants on scenario studies.	Room 4830, Main Commerce Bldg., Washington, D.C.
March 7, 1975	8:30 a.m. to 5 p.m.	Assignment to panel members and consultants.	Room 6802, Main Commerce Bldg., Washington, D.C.
March 10, 1975	8:30 a.m. to 5 p.m.	Reports from members and consultants on scenario studies.	Room 6802, Main Commerce Bldg., Washington, D.C.
March 11, 1975	8:30 a.m. to 5 p.m.	Assignment to panel members and consultants.	Room 6802, Main Commerce Bldg., Washington, D.C.

A limited number of seats will be available to the press and to the public. Written statements or inquiries may be filed with the Chairman before or after any of these meetings.

Persons desiring further information on the Panel or on individual meetings should contact Dr. Bruce B. Robinson, Room 3877, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C. 20230.

Dated: January 31, 1975.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology, U.S. Department of Commerce.

[Administrative Order 216-6]

POLICIES AND PROCEDURES IN THE PREPARATION OF ENVIRONMENTAL STATEMENTS

Proposed Federal Actions

On January 9, 1974, there was published in the FEDERAL REGISTER (39 FR 1473) a notice soliciting public comment on a previously published (38 FR 33625) Department Administrative Order (DAO) which prescribed policies and procedures to be followed throughout the Department in the preparation of statements and comments on proposals for legislation and other major actions significantly affecting the quality of the environment. The notice also rescinded the initially prescribed effective date (11-27-73) of the DAO, pending receipt and evaluation of comment.

Pursuant to the above, the Department received some suggestions for clarification from the Environmental Protection Agency, but no comments from the public. The EPA suggestions resulted in technical changes to the DAO but no substantive changes were effected.

The order was subsequently issued in final form effective November 27, 1974, and is printed below for the information of all concerned.

Issued: January 27, 1975.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

This order, effective November 27, 1974, supersedes the material appearing at 38 FR 33625 of December 6, 1973, as amended by 39 FR 1473 of January 9, 1974, including all attachments.

SECTION 1. *Purpose.* .01 This order prescribes the policies and procedures to be followed throughout the Department in the preparation of statements and comments on proposals for legislation and other major actions significantly affecting the quality of the human environment. This order implements the Council on Environmental Quality (CEQ) guidelines which are attached hereto as an Appendix. See 38 FR 20550, August 1, 1973.

.02 This revision contains additional procedures that should assist the Department in meeting the requirements of the National Environmental Policy Act of 1969 (the "Act").

SEC. 2. *Statutory Background.* .01 Section 102(2)(C) of the Act requires that all Federal agencies include in every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment a detailed statement by the responsible official on:

a. The environmental impact of the proposed action;

b. Any adverse environmental effects which cannot be avoided;

c. Alternatives to the proposed action;

d. The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity; and

e. Any irreversible and irretrievable commitments of resources which would be involved in the proposed action, should it be implemented.

.02 The section of the Act cited above further prescribes that prior to making any detailed statement, the responsible Federal official shall consult with and obtain the comments of any Federal agency which has jurisdiction by law or special expertise with respect to any environmental impact involved. Copies of such statement, and the comments and views of the appropriate Federal, State and local agencies which are authorized to develop and enforce environmental standards, shall be made available to appropriate officials as well as to the public, and shall accompany the proposal

XUM
V40-24
FEB 4 75
XUM

through the existing agency review process.

SEC. 3. *Scope.* .01 *Inclusions.* For the purposes of this order, the term "major actions" shall include:

a. Legislative actions including:

1. Reports or recommendations relating to legislation initiated by the Department, including those for appropriations;

2. Reports or recommendations relating to legislation initiated outside the Department for which the Department would have primary responsibility; and

3. Items classified in Section 1500.12 of the CEQ guidelines.

b. Projects and continuing activities including those directly undertaken by the Department or supported in whole or in part by the Department through technical assistance, contracts, grants, cost sharing, subsidies, loans or other forms of funding support. They include grants and loans for public works and development facilities, economic development planning assistance, or economic development technical assistance as provided in Attachment D to OMB Circular A-95 revised (effective January 1, 1974).

c. Policy changes or new procedures that may have a significant impact on the quality of the human environment, including rules and regulations.

d. Research projects and activities when:

1. Research is to be conducted in a manner which would have direct impact on the quality of the human environment, however, localized such impact may be (e.g., cloud seeding experiments); or

2. Research is intended to form the basis for development of future projects which would be considered major actions under this order.

e. Projects in a series where related projects under a program have substantial, similar impacts on the quality of the human environment. In such a case, the program, rather than the individual projects, may be considered to be the major action for the purposes of this order, unless the proposed projects are to be conducted under widely varying geographic or environmental conditions. When a program statement is prepared in accordance with this order, supplemental statements may still be required for specific actions.

.02. *Exclusions.* The dollar and physical size of a project will not necessarily determine whether it is a "major action." The following shall not be considered "major actions" under this order:

a. Normal housekeeping functions including personnel actions, procurement for general supplies and contracts for personnel services;

b. Amendments to actions, including increases in cost, which do not alter the environmental impact of the actions; or

c. Other actions specifically determined by the Deputy Assistant Secretary for Environmental Affairs (the "DAS") not to fall under the requirements of this order.

.03 *Significant Impact.* a. The term "significant impact" shall include impacts of both beneficial and detrimental effects, even if, on balance, they are believed to have a beneficial effect. A significant environmental impact may exist depending upon the extent to which there is a potential for:

1. The alteration of an ecosystem; or

2. Measurably affecting existing or future population of man or other forms of life.

b. Also, section 1500.6 of the CEQ guidelines provides a further discussion of what may constitute a significant impact.

c. For the purposes of this order, "cumulative impacts" shall mean actions which, in themselves, would not involve a significant impact on the quality of the human environment, but which, nonetheless shall be considered as having a significant impact if they can reasonably be expected to set a precedent for a series of subsequent actions which, when considered cumulatively, would result in a significant impact. Also, several related Federal actions in a specific area may result in a significant impact as a result of the aggregated actions.

SEC. 4. *Policies.* .01 The Department shall, to the maximum extent possible, cooperate fully in the national effort to improve the quality of the human environment, including extending its services to other Federal, State and local agencies for assistance in evaluating the impact of Federal actions upon the environment.

.02 As a general policy, the Department will only review draft environmental impact statements submitted by, or with the concurrence of, the Federal agencies having lead agency assignments for the preparation of statements. In other cases, operating units should consult with the DAS in regard to appropriate handling of requests for review of environmental impact statements.

.03 No major action, including action relating to legislative matters which will significantly affect the quality of the human environment, shall be taken or approved within the Department unless a detailed environmental statement has been prepared and approved as provided herein.

.04 The Department itself is responsible for the preparation of environmental statements on those actions related to responsibilities formally delegated or assigned to the Department. Where an agency within the Department relies upon an applicant or contractor to submit environmental information, the agency must specify the type of information to be required and the agency must independently evaluate the information and environmental issues and take responsibility for the scope and content of the environmental statement. The development of a position on the environmental issues may not be delegated outside of the Department and the views of a contractor or applicant may not be adopted without independent evaluation. Environmental impact statements shall normally not be prepared in support of matters which are the primary responsibility of other agencies.

.05 The CEQ guidelines state "Proposed major actions, the environmental impact of which is likely to be highly controversial, should be covered in all cases." (section 1500.6(a), CEQ guidelines.) A proposed action shall be considered controversial where a substantial number of persons are known to question or dispute the size, effect or environmental impact of the proposed action, or where actions of a similar nature have been opposed on environmental grounds in the past.

SEC. 5. *Responsibilities.* .01 *Assistant Secretary for Science and Technology.* Pursuant to the provisions of Department Organization Order 10-1, the Office of the Assistant Secretary for Science and Technology, shall:

a. Review, evaluate, circulate, and where appropriate, approve discussion papers prepared pursuant to section 6 of this order, and conduct Departmental coordination and clearance thereof;

b. After completion of such review, evaluation, coordination and approval, designate appropriate documents as draft of final environmental impact statements;

c. Arrange for draft environmental impact statements to be made available to other agencies and to the public and transmit such statements to the CEQ in accordance with Council guidelines;

d. Receive for review draft environmental impact statements prepared by other agencies and referred to the Department of Commerce for that purpose and, where appropriate, prepare the comments of the Department thereon;

e. With the concurrence of the General Counsel interpret the National Environmental Policy Act and guidelines established thereunder by the Council; and provide guidance to operating units in preparing and commenting on environmental statements;

f. Supplement Department of Commerce procedures for the preparation, review, and coordination of environmental impact statements, except as noted in paragraph .03 below; and

g. Represent the Department in determining which Federal agency will be the "lead agency" with respect to any environmental impact statement, pursuant to section 1500.7(b) of the CEQ guidelines.

.02 *Heads of Operating Units.* In addition to following the procedures set forth in section 6 of this order, Heads of Operating Units shall:

a. Review statements prepared by the other agencies which have been referred to them by the DAS for that purpose. See section 1500.9(e) of the CEQ guidelines;

b. Keep the DAS advised of (1) future actions that will have or will be likely to have a significant impact on the environment and (2) other matters that affect the Assistant Secretary's responsibilities in the environmental area;

c. Maintain and submit quarterly to the Office of Environmental Affairs, in accordance with the provisions of section

8 of this order, a list of administrative actions for which environmental statements are being prepared. Negative determination in regard to preparation of environmental impact statements should be included when required by the special conditions listed in section 1500.6(e) of the CEQ guidelines; and

d. Forward promptly to the DAS any request for comments received directly from other agencies. However, this does not preclude field offices from providing a preliminary response to an impact statement received locally, if it is made clear that the official DoC position will be forthcoming at a later date.

.03 The *General Counsel.* Pursuant to the provisions of Department Organization Order 10-6, and the provisions of DAO 218-1, supplementary procedures for the preparation, review and coordination of environmental statements required in connection with legislative proposals or reports shall be prescribed, as necessary, by the General Counsel of the Department.

.04 *Assistant Secretary for Administration.* Pursuant to the provisions of Department Organization Order 10-5 and the provisions of DAO 203-1, supplementary procedures for the preparation, review, and coordination of environmental statements required in connection with budget materials shall be prescribed, as necessary, by the Assistant Secretary for Administration.

SEC. 6. *Procedures.* .01 *Heads of Operating Units* shall: a. Prepare, at the earliest practicable time, a discussion paper for any proposed action which may have a significant environmental impact. The discussion paper should consider whether the proposed action is a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act. These discussion papers should primarily contain relevant factual information and include economic and technical considerations as well as environmental values;

b. Submit the discussion paper to the DAS for circulation within the Department;

c. Review the discussion paper with the DAS to determine whether a draft environmental impact statement or a negative declaration should be prepared pursuant to section 1500.11(f) of the CEQ guidelines;

d. If it is determined that an environmental impact statement is to be prepared, make a public announcement of that determination. This announcement shall be sent to the CEQ, and other Federal, State, and municipal agencies as appropriate, and it shall be publicly posted. The announcement shall request comments which may be helpful in the preparation of the draft environmental statement. A current list of major Federal actions for which an environmental impact statement is being prepared will be maintained for public inspection;

e. Prepare a letter of transmittal to be signed by the DAS (see Exhibits 1 and 2) for each interested government agency and each interested member of the public to which the draft environmental impact statement will be sent;[1]

f. Receive and give due consideration to comments from other government agencies and members of the public; prepare a letter of transmittal to be signed by the DAS to each government agency and each member of the public who commented on the draft environmental impact statement; and effect the necessary distribution of the final environmental impact statement;

g. The draft environmental impact statement or the final environmental impact statement as appropriate, should accompany other relevant documents throughout the review process. In the case of legislative proposals originated by the Department which will significantly affect the quality of the human environment, the draft environmental impact statement should be prepared prior to the submission of the proposal to OMB for final clearance;

h. Determine with the DAS whether a public hearing is to be authorized. If the DAS so authorizes, a public hearing shall be convened by the head of the operating unit or his representative and conducted according to such procedures as he deems appropriate. Such a hearing shall not be held sooner than fifteen days after the draft environmental impact statement is made available to the public. Upon completion of the public hearing, the head of the operating unit shall prepare a report to the DAS stating where and when the hearing was held, who was in attendance and what positions were taken; and

i. Insure that environmental impact statements include all information required in paragraph 1500.8(a) of the CEQ guidelines. Environmental impact statements should be as short as feasible and easily understood. Where possible, appendices and footnotes are to be preferred to extensive textual discussions or detailed information not of general interest.

.02 The *Deputy Assistant Secretary for Environmental Affairs* shall: a. Circulate discussion papers within the Department of Commerce and determine pursuant to this order when an environmental impact statement shall be prepared;

b. Supervise the preparation of the draft environmental impact statement and the final environmental impact statement;

c. Authorize public hearings pursuant to this order; and

d. Assist agencies in obtaining adequate public notice both of the preparation and availability of each draft environmental impact statement.

SEC. 7. *Implementation of actions requiring statements.* To the maximum extent practicable, no actions subject to section 102(2)(C) of the Act are to be taken sooner than ninety (90) days after a draft environmental impact statement has been announced as available to the public by the CEQ in the FEDERAL REGISTER, or sooner than thirty (30) days after the final environmental impact statement has been made available to the public by the CEQ. When actions must be taken sooner than the above guidance permits, a full explanation should be prepared to supplement the environmental impact statement and the CEQ should be consulted in advance whenever possible.

SEC. 8. *Reporting Requirements.* .01 In order to comply with section 1500.6(e) of the revised CEQ guidelines, all operating units should submit to the Office of Environmental Affairs a listing of major Federal actions for which environmental statements are being prepared. This listing should be updated by revised submissions due on the last working day of each calendar quarter. The list should also include, with appropriate explanations, those actions for which a negative determination has been made concerning the preparation of an environmental impact statement when:

a. Such actions would normally require the preparation of a statement;

b. Statements have been prepared for similar actions;

c. A previous announcement has been made that a statement would be prepared; or

d. The CEQ has made a specific request that preparation of a statement be considered.

.02 A consolidated listing will be furnished by the Office of Environmental Affairs to the CEQ for publication in the FEDERAL REGISTER.

SEC. 9. *Advice of the General Counsel.* Responsible officers will seek the advice of the General Counsel on legal questions arising in connection with the foregoing functions.

FREDERICK B. DENT,
Secretary of Commerce.

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

Social and Economic Statistics Administration

ESTIMATES OF THE VOTING AGE POPULATION FOR 1974

In accordance with the requirements of the Federal Election Campaign Act of 1971 (47 U.S.C. 803), notice is hereby given that the estimates of the voting age population (18 years of age and over) for calendar year 1974 for each state, congressional district, the District of Columbia, the Commonwealth of Puerto Rico, and the Territories of Guam and the Virgin Islands are as shown in the following table. These estimates have been certified to the Comptroller General.

FREDERICK B. DENT,
Secretary of Commerce.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[GRASP 5G0047]

BEATRICE FOODS CO., INC.

Filing of Petition for Affirmation of GRAS Status

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201 (s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1786; (21 U.S.C. 321(s), 348, 371 (a))) and the regulations for affirmation of GRAS status (21 CFR 121.40), published in the FEDERAL REGISTER of December 2, 1972 (37 FR 25705), notice is given that a petition (GRASP 5G0047) has been filed by Beatrice Foods Co., Inc., 1526 South State St., Chicago, IL 60605 and placed on public display at the office of the Hearing Clerk, Food and Drug Administration, proposing affirmation that magnesium caseinate for use as an ingredient for making cheese alternate products which can be blended with natural cheese or used alone as a total substitute for cheese is generally recognized as safe (GRAS).

Preliminary review of this petition by the Food and Drug Administration has concluded that GRAS or food additive consideration of this product must be based upon scientific procedures, as defined in the FEDERAL REGISTER of September 23, 1974 (39 FR 34194).

Interested persons may, on or before April 17, 1975, review the petition and/or file comments (preferably in quintuplicate) with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. Comments should include any available information that would be helpful in determining whether the substance is, or is not, generally recognized as safe. A copy of the petition and received comments may be seen in the office of the Hearing Clerk, address given above, during working hours, Monday through Friday.

Dated: January 21, 1975.

HOWARD R. ROBERTS,
Acting Director,
Bureau of Foods.

HIGHER EDUCATION PERSONNEL TRAINING PROGRAMS

Proposed Criteria for Funding of Applications for Fellowships, Institutes, and Short-Term Training Programs for Fiscal Year 1975

Correction

In FR Doc. 75–2637 appearing at page 4327 in the FEDERAL REGISTER of Wednesday, January 29, 1975, the following correction should be made:

In the third column, the last sentence in the document should read, "All relevant material received not later than February 28, 1975 will be considered".

Social and Rehabilitation Service

SRS HEARING CLERK

Designation

The SRS Intergovernmental Program Compliance Officer is hereby designated to serve as the SRS Hearing Clerk.

In accordance with 45 CFR 213.2 and 213.5, the duties of the SRS Hearing Clerk shall include:

1. Recipient of all official papers and documents filed in connection with hearings convened by the Administrator under the authority of sections 201.4 and 201.6 of title 45, Code of Federal Regulations;

2. Establishment and maintenance of the official docket of all papers, documents and proceedings in connection with such hearings;

3. Maintenance for public inspection and copying, of all pleadings, correspondence, exhibits, transcripts of testimony, exceptions, briefs, decisions and other documents filed in the docket in connection with such hearings.

All communications and inquiries may be directed to:

SRS Hearing Clerk, Room 5224, Mary Swizter Building, 330 C Street, SW, Washington, D.C. 20201, Phone: (202) 245–0365 or (202) 245–0192.

Dated: January 28, 1975.

JAMES S. DWIGHT, Jr.,
Administrator.

U.S. SOLAS SUBCOMMITTEE WORKING GROUP ON RADIOCOMMUNICATIONS

Open Meeting

This is to give notice in accordance with section 10(a) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. I) of October 6, 1972 that the U.S. Solas Subcommittee Working Group on Radiocommunications will conduct an open meeting on Thursday, 20 February 1975, in Room 847 of the Federal Communications Commission, 1919 M. Street, NW, Washington, D.C. The meeting is scheduled to begin at 1:30 p.m.

The purpose of the meeting is to discuss the agenda for the Radiocommunications Subcommittee of the Intergovernmental Maritime Consultative Organization (IMCO).

The Safety of Life at Sea Subcommittee was established by the Department of State to provide advice, from the best information available towards improvement of safety of life at sea. In addition the Subcommittee may consider any matters which may be put forward by the International Conference on Safety of Life at Sea, by the IMCO Assembly, Council or Maritime Safety Committee, or which may originate within the SOLAS Subcommittee itself.

Public members of the Subcommittee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing:

Capt. W. T. Adams
Chief, Telecommunications Management Division
U.S. Coast Guard (G–OTM/74)
Washington, D.C. 20590

or by calling (202) 426 1345.

Dated: January 30, 1975.

J. A. PALMER,
Rear Admiral, U.S. Coast Guard, Chief, Office of Public and International Affairs.

Federal Aviation Administration

[Docket No. 14249]

CARRIAGE OF RADIOACTIVE MATERIALS

Public Hearing

The Federal Aviation Administration will hold a public hearing in order to receive the views of all interested persons regarding proposed amendments to Part 103 of the Federal Aviation Regulations which would implement section 108 of the Transportation Safety Act of 1974 (Pub. L. 93–633). These proposals are set forth in Notice of Proposed Rule Making No. 75–2, which is published elsewhere in this issue of the FEDERAL REGISTER. The hearing will be conducted on Thursday, February 27, 1975, at 9:30 a.m. at the Federal Aviation Administration, Auditorium—3rd Floor, 800 Independence Avenue, SW, Washington, D.C. 20591.

Section 108 of the new Transportation Safety Act of 1974, enacted into law on January 3, 1975, directs the Secretary of Transportation to issue regulations limiting the carriage of radioactive materials on passenger-carrying aircraft within 120 days after the date of enactment, in accordance with section 108 and pursuant to section 105 of the Act, including an opportunity for informal oral presentation. Pursuant to the authority delegated to the Administrator by the Secretary, the FAA has issued Notice 75–2 and will hold a public hearing in order to afford interested persons an opportunity for informal oral presentation regarding the proposals set forth in Notice 75–2.

The hearing will be an informal hearing conducted by a designated representative of the Administrator under 14 CFR 11.33. It will not be a judicial or evidentiary type hearing, so there will be no cross-examination of those persons presenting statements (5 U.S.C. Sec. 553).

An FAA spokesman will make an opening statement discussing, in brief, the proposals made in Notice 75–2. Interested persons will then be given an opportunity to present their oral statements. These statements should be responsive to Notice 75–2.

After all initial statements have been completed, those persons who wish to make rebuttal statements will be given an opportunity to do so in the same order in which they made their initial statements.

Interested persons are invited to attend the hearing and present oral or written statements on the proposals set forth in Notice 75–2. Such statements will be made a part of the record of the hearing. Any person who wishes to make an oral statement at the hearing should notify the FAA prior to the date of hearing, stating the amount of time requested for his initial statement. Written comments and all other communications concerning the hearing should be addressed to Office of the Chief Counsel, Rules Docket, AGC–24, Federal Aviation Administration, Department of Transportation, 800 Independence Avenue SW., Washington, D.C. 20591, marked "Attention" Presiding Officer, Public Hearing on Notice 75–2."

Notice 75–2, is published in this issue of the FEDERAL REGISTER and proposes amendments to Part 103 to implement section 108 of the Transportation Safety Act of 1974 by limiting the carriage of radioactive materials on passenger-carrying aircraft to those shipments intended for use in, or incident to, research or medical diagnosis or treatment and to those that meet the requirements of 49 CFR 172 and 173 which exempt them from the packaging, marking and labeling requirements for shipment by rail express and which are now exempt from the applicability of Part 103 of the Federal Aviation Regulations.

The FAA will carefully consider all statements presented at the hearing and relevant written comments received and made a part of the record and all other comments received in response to Notice 75–2. After consideration of all those statements and comments, the FAA will issue an appropriate amendment.

A transcript of the hearing will be made and anyone may purchase a copy of it from the reporter.

(Secs. 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421) and secs. 105, 107 and 108 of Pub. L. 93–633 as delegated to the Administrator by the Secretary of Transportation (40 FR 2861))

Issued in Washington, D.C., on January 29, 1975.

R. P. SKULLY,
Director,
Flight Standards Service.

Chief Counsel,
Federal Railroad Administration.

[FR Doc.75–3114 Filed 2–3–75;8:45 am]

National Highway Traffic Safety Administration

[Docket No. Ex 75–5; Notice 1]

POLAR CO.

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standards

The Polar Company of Holdingford, Minn., has applied for a temporary exemption from Motor Vehicle Safety Standard No. 121 Air Brake Systems, on the basis that compliance would cause it substantial economic hardship.

Polar manufactured 365 vehicles in the 12-month period from December 1, 1973 to November 30, 1974, generally trailers required as of January 1, 1975 to conform to Standard No. 121. Polar represents that its primary and secondary suppliers have failed to deliver components necessary for conformance (air brakes and axles) as promised, and proposed delivery dates extend into the first half of 1975. Accordingly, Polar asks for a 6-month exemption from the Standard, at the end of which it will comply. Because of its limited sales in a competitive field the company believes that a 6-month shut-down could result in a loss of its entire market. The company's net income in the fiscal year ending May 31, 1974, was $427,000. It argues that the exemption is in the public interest, as Polar "is the largest employer in the small rural area of Holdingford, Minnesota", and a denial would mean a loss of jobs, perhaps permanent, for its 125 employees.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of The Polar Company described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW, Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: February 14, 1975.

Proposed effective date: Date of issuance of exemption.

(Sec. 3, Pub. L. 92–548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on January 30, 1975.

ROBERT L. CARTER,
Associate Administrator
Motor Vehicle Programs.

[FR Doc.75–3298 Filed 2–3–75;8:45 am]

Office of the Secretary

[OST Docket No. 22; Notice No. 75–2]

DETROIT, TOLEDO & IRONTON RAILROAD COMPANY; ANN ARBOR RAILROAD COMPANY

Standard Time Zone Boundaries; Operating Exceptions

Effective 2 a.m., February 23, 1975, until 2 a.m., April 27, 1975, portions of the lines of the Detroit, Toledo and Ironton Railroad Company and the Ann Arbor Roalroad Company are granted exemptions, for operating purposes only, from the standard time zones created by Congress in the Act of March 19, 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260–67). The exceptions permit operation on eastern daylight time. The portions of the lines which are permitted operation on eastern advanced (daylight saving) time are as follows:

Railroad	From	To
Ann Arbor	Ohio-Michigan State line (north of Alexis, Ohio).	Owosso, Mich.
Do	Pittsfield and Pittsfield Junction, Mich.	Saline, Mich.
Detroit, Toledo and Ironton.	Ohio-Michigan State line (north of Metamora, Ohio).	Detroit and Dearborn, Mich.
Do	Ohio-Michigan State line (north of Denson, Ohio).	Tecumseh, Mich.
Do	Ohio-Michigan State line (north of Alexis, Ohio) (over the tracks of the Ann Arbor Railroad).	Diann, Mich.

(Act of March 18, 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260–67); sec. 6(e)(5) of the Department of Transportation Act (49 U.S.C. 1655(e)(5)); sec. 1.59(b) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.59(b))

Issued in Washington, D.C., on January 28, 1975.

RODNEY E. EYSTER,
General Counsel.

[FR Doc.75–3142 Filed 2–3–75;8:45 am]

CIVIL AERONAUTICS BOARD

[Order No. 75–1–123, Docket No. 27457]

DELTA AIR LINES, INC.

Order of Suspension and Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of January, 1975.

By tariff revision bearing the issue date of December 26, 1974, and marked to become effective February 1, 1975, Delta Air Lines, Inc. (Delta) proposes to establish a surcharge of $6.00 per shipment of nonradioactive restricted articles and a surcharge of $15.00 per shipment of radioactive restricted articles, as defined in the Restricted Articles Tariff, C.A.B. No. 82.

Delta asserts, in support of its proposal and in answer to several complaints, inter alia, that these charges are designed to cover additional equipment, handling, and administrative costs incurred in the carriage of restricted articles, as compared to the shipment of general commodity traffic; that, in a man-minute survey conducted systemwide, restricted articles required services additional to those required for other general commodity shipments; that the concept of a surcharge for these shipments is already an established tariff practice; and that the total number of such shipments in the coming year is expected to be unchanged from 1974, and the proposal will thus generate an additional $348,000 revenue annually.

Complaints variously requesting rejection, or in the alternative, suspension and investigation, have been filed by Shulman Air Freight, Inc. (Shulman), E. R. Squibb and Sons, Diagnostic Isotopes, Inc., the Council for Safe Transportation of Hazardous Articles, New England Nuclear Corporation, Amersham-Searle, Hyland Division of Travenol Laboratories, Inc., Abbott Laboratories, American Medical Association, American College of Radiology, the Joint Review Committee on Education Programs in Nuclear Medicine Technology, American Hospital Association, the Scientific Apparatus Makers Association, American College of Nuclear Physicians, The Society of Nuclear Medicine, and the College of American Pathologists.[1]

The complaints variously allege, inter alia, that the proposals will create economic hardship and plus an undue burden on shippers and the public; that the shipper of restricted articles is already paying a severe economic penalty, because, due to quantity limitations, such articles must frequently be tendered on many single airbills at minimum charges;[2] that there is no precedent of similar charges of this magnitude via other modes; that the proposed surcharges result in total charges disproportionate to the service, and Shulman alleges that such charges represent about 60 percent of its current door-to-door charge for a typical radioactive shipment; that the costs submitted are per shipment, without regard for the number of pieces per shipment; and that the rates proposed appear exorbitant and are designed to serve as a penalty to discourage this traffic by air.

Upon consideration of all relevant matters, the Board finds that Delta's proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated.

[1] In addition, informal letters of protest have been received from the American College of Nuclear Medicine, Jet Air Freight, and Mallinckrodt Nuclear. These letters are being filed in the correspondence section of this Docket.

[2] This allegation is not clearly understood as to why a shipper may be required to tender the parts of a large volume of hazardous material consigned from one origin to one destination via the same carrier on many airbills at minimum charges. We find no such restriction in any of Delta's applicable tariffs as to quantity limitations per airbill as distinguished from quantity limitations imposed upon hazardous material in a single package or that which may be carried in a single aircraft or inaccessible cargo bin. We note, for example, that Delta has in its tariff C.A.B. No. 175, specific commodity rates from San Juan to Los Angeles, San Diego, and San Francisco on small arms ammunition (a Class C explosive) for quantities from 100 up to 3,000 pounds, while at the same time, Delta's governing restricted articles tariff, i.e., Airline Tariff Publishing Company, Agent's C.A.B. No. 82, provides for a maximum net quantity per package of 50 pounds on passenger aircraft and 150 pounds per package on cargo aircraft and a maximum weight of 50 pounds per aircraft for such traffic when carried in an inaccessible cargo bin. Thus, a single 3,000-pound shipment of small arms ammunition in the usual course may move upon more than one flight.

The Board further concludes that the proposal should be suspended pending investigation.

In support of its assertion that restricted articles require additional services peculiar to such articles, Delta submits the results of a man-minute survey designed to quantify the costs of certain of the services and presents a list of other direct and indirect costs, including agents' training, consultant services, and the costs of radiation survey meters. According to the carrier, the survey was presented to each of its air freight stations systemwide to arrive at the additional average time (including originating, transfer, and terminating time) devoted solely to the processing and handling of such articles above that compared to general commodity freight. The survey purportedly indicates that a radioactive restricted article incurs an additional cost over regular bulk freight of $15.10 and a nonradioactive restricted article incurs an additional cost of $6.97 per shipment, including return on investment. The surcharges are proposed to apply per shipment, since Delta asserts that a vast majority of restricted-article movements are single-piece shipments, and that, moreover, no matter how many pieces make up a restricted-article shipment, there is usually only one airwaybill and shipper's certificate to process, and, consequently, terminal handling costs will not vary significantly because of the number of pieces per shipment.

Delta's cost support of its proposed surcharges consists of the results of an in-house study, presenting the costs classified by a number of categories in conclusory form. It is very difficult, if not impossible, from the materials before us, to evaluate the validity of Delta's conclusions as to the additional costs incurred in handling the radioactive and other hazardous materials,[3] as well as to determine the manner and to what extent, if any, demonstrated costs should be passed on to the shipper.[4] The supporting detail supplied by Delta is minimal for a number of the major items. In these circumstances, we cannot find that Delta has supported the large surcharges proposed, and we shall suspend the tariff pending investigation.

While we recognize that there may be considerable variation among the different carriers as to the additional precautions taken and costs incurred in handling hazardous materials, our action herein is consistent with our previous suspensions of proposals establishing a $3.00 surcharge per shipment in Orders 74–1–100 for Braniff Airways, Inc. and 73–12–116 for United Air Lines, Inc., and a $5.00 surcharge in Order 74–12–71 for Airlift International, Inc.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly Sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation is instituted to determine whether the charges and provisions in Rule No. 51(D) on 1st, 2nd, and 3rd Revised Pages 18–C of Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 96, and rules, regulations, or practices affecting such charges and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful charges and provisions, and rules, regulations, or practices affecting such charges and provisions;

2. Pending hearing and decision by the Board, the charges and provisions in Rule 51(D) on 1st, 2nd, and 3rd Revised Pages 18–C of Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 96, are suspended and their use deferred to and including May 1, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated Docket 27457, be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated;

4. Except to the extent granted herein, the complaints of Shulman Air Freight, Inc. in Docket 27331, E. R. Squibb and Sons in Docket 27332, Diagnostic Isotopes, Inc. in Docket 27333, the Council for Safe Transportation of Hazardous Articles in Docket 27339, New England Nuclear Corporation in Docket 27341, Amersham-Searle in Docket 27342, Hyland Division of Travenol Laboratories in Docket 27343, Abbott Laboratories in Docket 27344, American Medical Association in Docket 27381, American College of Radiology in Docket 27383, the Joint Review Committee on Education Programs in Nuclear Medicine Technology in Docket 27388, the Scientific Apparatus Makers Association in Docket 27389, the American Hospital Association in Docket 27393, American College of Nuclear Physicians in Docket 27404, The Society of Nuclear Medicine in Docket 27405, and the College of American Pathologists in Docket 27406 are dismissed; and

5. Copies of this order shall be filed with the tariff and served upon Delta Air Lines, Inc., Shulman Air Freight, Inc., E. R. Squibb and Sons, Diagnostic Isotopes, Inc., the Council for Safe Transportation of Hazardous Articles, New England Nuclear Corporation, Amersham-Searle, Hyland Division of Travenol Laboratories, Abbott Laboratories, American Medical Association, American College of Radiology, the Joint Review Committee on Education Programs in Nuclear Medicine Technology,

[3] For example, the carrier's data indicate that the bulk of the costs (excluding return on investment) of handling restricted articles consists of "Direct Administrative and Managerial Costs" and "Agent Training (incl. instructors)" costs. No factual support of these two costs figures, however, is shown.

[4] The Board notes that the American College of Radiology alleges a sharp impact of this proposal having the effect of adding $1.00 or more to the costs of each nuclear examination provided.

[Order No. 75-1-119; Docket No. 25280
Agreement C.A.B. 24925 R-1 and R-2]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreement Related to Specific Commodity Rates; Order

JANUARY 29, 1975.

Issued under delegated authority.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement names additional specific commodity rates, as set forth below, reflecting reductions from general cargo rates, and were adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated January 22, 1975.

Agreement C.A.B.	Specific commodity Item No.	Description and rate
24925:		
R-1	9522	Handicraft Products,[1] 267 cents per kg., minimum weight 100 kgs. 255 cents per kg., minimum weight 300 kgs. From Teresina to New York.
R-2	0056	Chocolate Manufactures 115 cents per kg., minimum weight 500 kgs. From Honolulu to Osaka 110 cents per kg., minimum weight 500 kgs. From Honolulu to Tokyo.

[1] See tariff for complete commodity descriptions.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, It Is Ordered, That:

Agreement C.A.B. 24925, R-1 and R-2, be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications, provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Chief, Passenger and Cargo Rates Division, Bureau of Economics.

[FR Doc.75-3163 Filed 2-3-75;8:45 am]

[Order No. 75-1-130; Docket No. 22859]

OZARK AIR LINES, INC.

Domestic Air Freight Rate Investigation; Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of January, 1975.

By tariff revisions filed January 2 and marked to become effective February 1, 1975, Ozark Air Lines, Inc. (Ozark) proposes, inter alia, a 10 percent systemwide increase in all bulk general commodity rates except minimum charges, which will remain unchanged at $12.00.

In support of its proposal, Ozark asserts that the proposed increase will partially offset an immediate need for additional air freight revenues due to fuel and other cost increases experienced since its last rate adjustment. The carrier states that it sustained losses exceeding $1,384,000 on air freight operations for the 12 months ended September 30, 1974, while for the same period it received freight revenues of $5,275,000. The proposed increases are estimated to generate approximately $353,000 of additional revenue in 1975.

The proposed rates and charges come within the scope of the Domestic Air Freight Rate Investigation, Docket 22859, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending investigation.

The Board has reviewed these rates in the light of recent industry average costs, including a full return on investment, of carrying air freight. With the exception of human remains, Ozark's proposed rates do not exceed those costs and will be permitted to become effective.

The rates on human remains, however, which are published in the tariff as a rating equal to 129 percent of the general commodity rates, significantly exceed costs for those commodities in all markets. In view of the foregoing and upon consideration of all other relevant factors, the Board finds that the proposal, to the extent it results in higher rates for movements of human remains, should be suspended.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly Sections 204(a), 403, 404, and 1002 thereof,

It Is Ordered, That:

1. Pending hearing and decision by the Board, the increased rates, charges, and provisions described in Appendix A hereto are suspended and their use deferred to and including May 1, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board; and

2. Copies of this order shall be filed with the tariffs and served upon Ozark Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board;[1]

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-3165 Filed 2-3-75;8:45 am]

[Order No. 75-1-133; Docket No. 27114 et al.]

PAN AMERICAN WORLD AIRWAYS, INC. AND TRANS WORLD AIRLINES, INC.

Application for Approval of Route Agreement; Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of January, 1975.

By Order 74-11-24, dated November 5, 1974, the Board advised Pan American World Airways and Trans World Airlines that a joint application for approval of an agreement filed on October 22, 1974, in Docket 27114, which contemplates a temporary restructuring of their Pacific and Transatlantic route systems was not susceptible of expeditious Board action due to the lack of factual support for the requests and the inclusion of certain controversial route transfer items that would require notice and hearing. However, the Board reasserted its commitment to give expedited consideration to any proposals for suspension or deletion of any points or operations that the carriers might deem uneconomic as a means of ameliorating their financial problems. TWA and Pan American were invited to resubmit separate requests for suspension, exemption and approval of agreements, pursuant to sections 401(j), 416, and 412 of the Act under the Board's nonhearing procedures and were urged to eliminate controversial route transfer proposals—such as the transfer of Pan American's nonstop turnaround authority in the Los Angeles-Hawaii market to TWA—which would preclude expeditious processing.

On November 20, 1974, Pan American and TWA informed the Board that they had failed to reach agreement regarding new filings in accordance with Order 74-11-24, but indicated that negotiations were still continuing. An agreement was finally reached which

[1] Appendix A filed as part of the original document.

culminated in the filing of Amendment No. 1 to the Joint Agreement on December 17, 1974. The amendment eliminates the proposal to substitute TWA for Pan American in the Los Angeles-Hawaii turnaround market and in its stead proposes the substitution of TWA for Pan American in Austria.

In accordance with the terms of the joint agreement, as amended, and consistent with the spirit of Order 74-11-24, Pan American and TWA filed applications requesting (1) authority to suspend service temporarily at certain points for a five-year period,[1] (2) temporary exemption authority to serve certain points which are to be suspended on the other carrier's system,[2] (3) changes in their respective Approved Service Plans to reflect the foregoing suspensions and exemptions,[3] and (4) approval of the joint agreement, as amended, pursuant to section 412 of the Act which, in addition to the above, provides that Pan American will refrain from operating single-plane service in the Chicago/Los Angeles/Philadelphia-London markets and that TWA will refrain from operating single-plane service in the Washington-London market.

In support of the various requests for relief, the applicants assert, inter alia, that approval of the total package will provide substantial benefits to both the carriers and the public and will help alleviate the carrier's current financial difficulties attributable to overcapacity in international markets, skyrocketing fuel costs and a significant decline in international traffic. The applicants further claim that affirmative Board action will result in a saving of expenses incurred by Pan American and TWA of $52.7 million[4] and $100.7 million,[5] respectively, and a positive contribution to their system operating results in 1975 of $24.2 million for Pan American and $25.4 million for TWA. It is also asserted that approval will have no detrimental effect on any other certificated carrier and will not injure the traveling public since sufficient capacity will still be available to provide needed services. Finally, the applicants allege that approval will result in a total fuel savings for both carriers of 147 million gallons in 1975.

Answers in opposition to some or all of the applications were filed by the Air Line Pilots Association (ALPA),[6] Braniff Airways, the Department of Justice (DOJ), The Flying Tiger Line (FTL), the County of Hawaii, the International Association of Machinists and Aerospace Workers (IAM), the Las Vegas and St. Louis Parties, the Master Executive Council of Pan American (MEC-Pan American), the Master Executive Council of TWA (MEC-TWA), Representative Norman Mineta-Member of Congress, National Airlines,[7] Northwest Airlines, Overseas National Airways (ONA), the City and Chamber of Commerce of Philadelphia,[8] the Pittsburgh Parties, Seaboard World Airlines Trans International Airlines (TIA), and World Airways.

Several of the respondents argue, inter alia, that a hearing is required because (a) the proposal is, in essence, a route transfer arrangement which requires section 408 approval after notice and hearing and (b) the implications on the public interest are so great that even if section 408 is not applicable, Board precedent requires a hearing under section 412 of the Act. It is also asserted that it would be unlawful for the Board to grant the various exemption requests without a hearing.[9] The supplementals also argue that implementation of the agreement will encourage widespread shifting of capacity into the charter market and request the imposition of restrictions on the charter authority of Pan American and TWA. Certain civic parties oppose aspects of the agreement which would result in the elimination or suspension of service in several markets affecting their respective cities.[10] The labor parties, in general, request a hearing to evaluate the impact of the agreement on airline employees and seek imposition of labor protective provisions. Other respondents urge that the Board avoid any action in this docket which could have an influence on action the Board may take in the pending Transatlantic Route Proceeding, Docket 25908. Finally, in addition to raising many of the contentions stated above, DOJ asserts that implementation of the agreement will significantly diminish the level of competition in virtually all of the affected markets, in contravention of the statutory policy favoring competition; that the joint applicants have not demonstrated that approval of this agreement is necessary to satisfy an important transportation need; and that less anticompetitive alternatives such as the unilateral suspension of service in beyond-gateway markets would meet the same objectives.

Answers in support of the various applications were filed by the Port Authority of New York and New Jersey, the Department of Transportation (DOT), and the Department of Commerce (DOC).[11]

Upon consideration of the foregoing and all the relevant facts, we have decided to grant the suspension[12] and exemption applications and to approve the joint agreement, as amended, for a period of two years or until 90 days following final Board decision in the Transatlantic Route Proceeding, Docket 25908, whichever first occurs.[13]

[1] In Docket 27255, Pan American requests authority to suspend service for five years at Paris, on route 132; the Azores, Lisbon, Barcelona, Nice, and Rome on segment 1, Part I, route 132; the Azores, Lisbon, Madrid, and Casablanca on route 133; and Austria on route 132. In Docket 27207, TWA requests authority to suspend service for five years at Frankfurt, Sri Lanka (formerly Ceylon), that portion of India south of the 20th parallel (i.e., Bombay), Thailand (Bangkok), Hong Kong, Taiwan (Taipei), Okinawa, Guam, Hilo, Honolulu, and Los Angeles/Ontario/Long Beach on routes 147 and 164. In Docket 27321 TWA requests suspension of service at Hilo and Honolulu, Hawaii, on route 2.

[2] In Docket 27323, Pan American requests exemption authority for five years to serve Okinawa, Taipei and Bombay (Pan American already holds authority at Honolulu, Guam, Hong Kong and Bangkok, at which points TWA requests suspension). In Docket 27299, TWA requests an exemption to serve Austria, Barcelona, Nice, and Casablanca on route 147 (TWA already holds authority to serve Lisbon and the Azores at which points Pan American is seeking suspension).

[3] Pan American in Docket 27255 requests amendment of its Approved Service Plan (a) for route 130 to add for five years the points Naha, Okinawa; Taipei, Taiwan; Colombo, Sri Lanka; and Bombay, India; (b) for route 132, Part II, to reflect the suspension authority at Paris and Vienna and to add to segment 1 thereof the points Rome, Italy; Bombay, India; Colombo, Sri Lanka; Bangkok, Thailand; and Hong Kong. TWA in Docket 27300 requests a change in its Approved Service Plan-Foreign Air Transportation for route 147 to add Vienna; Barcelona, Spain; Nice, France; and Casablanca, Morocco; and to delete Frankfurt, Germany; Bombay, India; Colombo Sri Lanka; Bangkok Thailand; and Hong Kong.

[4] Supplement to Amended Application for Approval of Agreement, App. C, pp. 1-2.

[5] *Id.*, App. D, p. 1 (variable plus net fixed expenses).

[6] ALPA also filed a petition for reconsideration of Order 74-11-24. Since Order 74-11-24 is neither a final order nor an interlocutory order instituting a proceeding or defining the scope and issues of a proceeding within the meaning of Rule 37 of the Board's procedural regulations, the petition does not properly lie and therefore will be dismissed.

[7] A previously filed pleading entitled Motion for Clarification of Order 74-11-24 was filed by National. In light of the carrier's more recent answer raising the same matters the motion is superfluous and will be dismissed.

[8] Philadelphia filed a consolidated answer to the various proposals together with a motion for leave to file an unauthorized document, which we will grant. Philadelphia also filed a further answer in response to the supplemental applications filed by Pan American and TWA.

[9] Northwest specifically opposes grant of Taiwan/Okinawa exemption authority to Pan American while FTL requests a condition on Pan American's service to Taiwan and Okinawa prohibiting such service via Japan and Alaska.

[10] Philadelphia does not oppose TWA's suspension at Frankfurt or the agreement provisions whereby Pan American will refrain from providing single-plane service between Philadelphia and London so long as a condition is imposed requiring the provision of daily nonstop or one-stop single-plane service by a U.S.-flag carrier in the Philadelphia-London/Frankfurt markets.

[11] In addition, Continental filed a motion requesting a hearing on that portion of the original agreement relating to mainland-Hawaii turnaround authority. That aspect of the agreement was eliminated by the applicants in Amendment No. 1 to the joint agreement and related applications were dismissed by Order 75-1-28, January 7, 1975. Accordingly, Continental's motion will be dismissed as moot.

[12] Since TWA received authority to postpone inauguration of service to Hilo by Order 73-7-104, we will dismiss that part of its applications in Dockets 27255 and 27321 requesting suspension of service at Hilo.

[13] We are issuing amended Approved Service Plans to reflect the authority granted herein, filed as part of the original document.

XUM

Grant of temporary suspensions of service, temporary exemption authority, and approval of the agreement are governed by sections 401(j), 416(b) and 412 of the Act, respectively. Each of these sections require a finding by the Board that grant of the authority will be in the public interest. In view of the critical financial crisis confronting Pan American and TWA created by the combination of an absolute decline in the international travel market and rapidly rising costs beyond the control of the applicants or the U.S. government the Board has concluded that approval of the agreement and grant of the suspension and exemption applications as conditioned below is required by the public interest. The temporary action taken herein will provide immediate financial improvement to this nation's two primary U.S.-flag international carriers and in so doing help preserve the continuation of worldwide U.S.-flag service in the period immediately ahead.

Pan American and TWA have experienced severe and continuing financial problems in their international operations which threaten the long-term stability of these carriers and, as a consequence, threaten the disruption of U.S.-flag international service. Pan American reported losses (before taxes) on its Atlantic Division of $33.7 million for the year ended September 30, 1974, and a system loss of $94.4 million for the same period. TWA's Atlantic Division losses (before taxes) amounted to $25.9 million for the same period and the carrier lost $17 million over its entire system. Many factors contributing to this situation are beyond the control of the carriers and include rapidly increasing fuel costs, and the unprecedented decline in international traffic—particularly across the Atlantic—influenced by general worldwide economic conditions. At the present juncture there is no foreseeable likelihood that these conditions will improve. Without immediate regulatory action these destructive conditions place in jeopardy the continued existence of Pan American and substantially impair the viability of TWA's international services such that there is a realistic prospect that the major bulk of U.S. flag international service will cease. These are unusual circumstances which present a serious transportation need justifying approval and swift implementation of the agreement. We believe that grant of the several applications now before us holds the promise of significant financial improvement for both Pan American and TWA, and will help insure the maintenance of economically viable U.S.-flag service.

We have carefully evaluated the economic impact projections presented by the applicants and the DOT and find that these estimates present a reasonable range of operating results. The projected net operating gains for the first year under the agreement ranging between $17 million and $24.2 million for Pan American and between $16 million and $25.4 million for TWA are substantial,[14] and should help mitigate the serious financial losses, which have been increasing.

The primary benefits Pan American will receive from the agreement proposal will accrue in the Pacific as a result of the elimination of TWA's duplicative services and the addition of revenues from the integration of Taipei, Okinawa, and Bombay into Pan American's Pacific system. The applicant's estimate a net profit improvement to Pan American from Pacific and mainland-Hawaii operations in 1975 of over $25 million.[16] Additionally, Pan American's Atlantic operations should be strengthened as a result of the suspension of TWA's Frankfurt service and the savings to be realized from station closings made possible by the temporary suspensions. We recognize that the implementation of the agreement will have a net adverse impact upon Pan American's Atlantic Division results; however, these European suspensions are important facets of the entire package and, in the context of both the Pacific and Atlantic aspects, the carrier's overall financial situation will be substantially improved.

TWA will receive its greatest improvements in Europe principally as a result of the elimination of service by Pan American at Paris and between Los Angeles and London.[16] TWA will also experience a positive net impact as a result of the suspension of Pan American and the related exemption to TWA in the U.S.-Iberian markets. While TWA's temporary suspension of service at Frankfurt and in the Pacific will not result in a positive contribution to the carrier,[17] these aspects are important elements of the agreement and the net negative impact on TWA from the suspensions in the Pacific and at Frankfurt is more than outweighed by the improvements to be derived through the implementation of other portions of the agreement. The DOT estimates that the Europe proposal will have a positive impact on TWA of about $26.8 million.

We view this agreement as but the first of many self-help programs which we anticipate the carriers undertaking to improve their financial positions. The applicants should consider implementing immediately such other cost-saving programs as unilateral suspension of unprofitable routes, reductions of overall levels of operations, reductions in operating expenses through austerity measures, reduction of capital expenditures, the sale of aircraft and other assets, and other route restructuring proposals. Our action should afford the applicants immediate short-term relief and we anticipate that they will attempt to achieve additional economies over the long term by taking action—independent of the instant proposal—to reduce excess capacity and trim their fleets to levels commensurate with traffic demand. We rely upon the representations of the applicants that "over the longer term there would be an opportunity for aircraft ownership cost savings—either through sale or redeployment of equipment as well as opportunity for savings in other elements of expenses • • •." Any effort by Pan American or TWA to redistribute capacity made available as a result of this agreement into areas already the beneficiary of substantial U.S.-flag capacity (such as, for example, the charter market) would be inconsistent with the purposes for which this agreement is approved.

With respect to the exemption requests the statute requires, in addition to public interest findings, a finding that the operations of Pan American and TWA are affected by unusual circumstances such that enforcement of the certification provisions of the Act, the Board's regulations, and the terms of their certificates would place an undue burden on them. The Board believes that the severe financial conditions facing the joint applicants establish unusual circumstances warranting the expeditious grant of the exemption and suspension authority requested herein. Immediate regulatory action is demanded by the deterioration of Pan American and TWA, brought on, in part, by traffic and cost conditions not within their control.

Furthermore, we have determined that, under the circumstances presented, a formal evidentiary hearing is not required. We are not persuaded by the arguments of various respondents that a hearing is required by statute before the Board could approve the agreement and the related applications before us.

First, section 408 of the Act is not applicable in the instant circumstances since the agreement does not contemplate any change in certificate authority or the actual purchase and/or transfer of certificate ("property" as used in section 408) rights from one carrier to another. Rather, the authority we are granting involves only temporary suspensions of service, exemptions, and agreement approval and does not affect the underlying certificate rights of Pan American and TWA. Indeed, the primary thrust of the arrangement involves the temporary suspension of service aspect, while the temporary grant of new authority under section 416(b) accounts for only a small portion of the total transaction. Thus, while TWA will receive authority to temporarily suspend service at eight points,[15] Pan American will receive exemption authority at only three points [19] similarly, while Pan American will receive authority to temporarily suspend service at nine points,[20] TWA will receive exemption authority at only four points.[21] Moreover, a hearing is not required by law on applications filed pursuant to sections 412, 401(j) and 416(b) of the Act.[22]

As a matter of discretion we determined that a hearing on the matters raised is not desirable and, in fact, that any significant delay would not only vitiate the benefits to be derived from the agreement—which benefits, if they are to have any salutary effect, must be implemented immediately—but would be tantamount to disapproval of the proposal. We appreciate, in this connection, that certain of our actions herein—i.e. the temporary exemption of TWA to serve Vienna, Barcelona, Nice, and Casablanca—raise certain Ashbacker problems [23] in connection with the avoidance of prejudice to the rights of competing applicants to a fair comparative consideration of applications for certificate authority.[24] Several applicants in the pending Transatlantic Case have filed applications which seek authority at the four points which will be served on an interim basis by TWA. However, none of these applicants has prosecuted its application insofar as the four points are concerned. Consequently, the need for resolving complex issues and the potential for prejudice to competing applicants is limited. Furthermore, consistent with ordinary practice the Board will not rely upon interim exemption operations in considering a grant of certificate authority. On the other hand, the grant of exemption authority in no way compromises the Board's ability to place the exemption points on the routes of other applicants as the public convenience and necessity may require. In short, we find that the limited potential for prejudice, coupled with the critical need for immediate action on the agreement before us, warrants the grant of exemption authority notwithstanding the pendency of the Transatlantic Case.

The Board has scrutinized all answers to the proposals before us and concludes that approval and implementation of the agreement subject to certain conditions set forth below will not adversely affect the traveling public or any certificated air carrier.

In view of Northwest's objection, we will condition Pan American's exemption authority at Okinawa and Taiwan so as to prohibit Pan American from providing single-plane service in competition with Northwest to and from points not previously served by TWA on its Taiwan/Okinawa flights. Specifically, we will prohibit Pan American from performing single-plane service (including single-flight number) in any Taiwan/Okinawa city-pair market currently authorized by Northwest's certificates which did not receive single-plane service by TWA as reflected in the general schedule No. 51 on file with the Board effective November 1, 1974.[25] The above restriction will afford protection to Northwest by assuring that service provided by Pan American between Taiwan and Okinawa, on the one hand, and points on Northwest's system, on the other hand, will be limited to markets currently served by TWA. This condition will have no diminishing impact on the benefits to be derived by Pan American from the agreement, since Pan American does not propose any service which is not currently being provided by TWA.[26]

With regard to the arguments of the DOJ as to the impact of the agreement on competition in the affected markets, it is our belief that the gravity of the financial situation confronting Pan American and TWA, our two largest international competitors, is so severe that unless immediate emergency route-related action is taken to provide short-term economic relief there is a substantial likelihood of significant disruption of the international services of these carriers. Such a disruption could presage the virtual termination of all U.S.-flag competition in the affected international markets. The DOJ's desire to maintain existing levels of competition, at all costs, ignores the ultimate anticompetitive effect resulting from termination of the services of one or both of the carriers.[27]

In the Board's judgment the substantial benefits which Pan American and TWA will reap from the temporary emergency action taken in this order, will in the long run preserve U.S.-flag competition.

The DOT submitted a detailed market-by-market analysis of the impact on competition which would result from the agreement. We have carefully examined DOT's study and agree with its conclusion that the public benefits which will derive by reason of the prompt approval of the agreement outweigh its anticompetitive effects. In general, competition in Atlantic city-pair markets will be reduced from three carriers to two carriers, and there will remain adequate frequencies to meet the demands of the traveling public. In those individual markets in which two-carrier competition will be temporarily eliminated, sufficient numbers of daily flights will still be provided by the remaining carrier or through connecting services. In the Pacific, the suspension of TWA's Orient service will, in general, leave two U.S.-flag carriers (Pan American and Northwest) providing combination service and three U.S.-flag carriers (Pan American, Northwest, and FTL) providing all-cargo service, in addition to service provided by various foreign air carriers. The only market which will become a monopoly nonstop market is Guam-Honolulu in which Pan American will be the only carrier. While we do not believe that this situation warrants disapproval of the agreement at this time, we intend to carefully monitor load factors in this, as well as all other markets, in which competition has been reduced and will take immediate action to assure that the traveling public is afforded sufficient levels of service.

With respect to the matters raised by the supplemental carriers, we have stated that we will not look with favor upon a redistribution of capacity into areas already receiving a surfeit of U.S.-flag service. Jurisdiction will be retained so that we may take appropriate action at any time to insure against any widespread shifting of capacity into the charter market. World's proposed condition limiting Pan American's and TWA's charter service to markets in which single-plane service is provided and TIA's proposed condition placing a ceiling on the charter activity of Pan American and TWA are rejected. Such conditions are inherently uneconomic and could place Pan American and TWA at a serious disadvantage vis-a-vis their competitors, preventing them from utilizing capacity made available from cutbacks in areas not embraced by this or other Board-approved agreements. World's proposed condition is too restrictive and goes far beyond the mere prevention of increases in charter capacity; rather it would have the effect of substantially choking off much of the applicants' existing charter service for which no justification has been shown.

We are not convinced by the arguments of the Pittsburgh and Philadelphia parties that the suspension of TWA

---

[14] The joint applicants estimate that Pan American and TWA will achieve a net benefit of $24.2 million and $25.4 million, respectively, in the first year of operations under the agreement, while the DOT projects benefits to Pan American and TWA of $17 million and $16 million, respectively. National questions the equities of the proposed transaction and asserts that TWA will receive greater advantages in Europe than Pan American. As stated below, it is not appropriate to measure the agreement's benefits by isolating its various components. Some aspects of the agreement will give greater benefit to one carrier while other aspects will give greater benefit to the other carrier; but, as the figures above reflect, when viewed as a whole the proposal will result in approximately equal improvement to both carriers.

[16] The applicants estimate that the suspension of TWA's mainland-Hawaii service will inure to Pan American's benefit to the extent of $8.4 million in 1975, while the other improvements to Pan American's Pacific system will improve the carrier by about $16.7 million.

[16] The applicants estimate that this aspect will have a positive net impact to TWA of over $38 million. The DOT estimates that the Europe proposal will have a positive impact on TWA of about $26.8 million.

[17] The applicants estimate that these aspects will have a net negative impact on TWA of $28.0 million in 1975.

[15] Frankfurt, Bombay, Bangkok, Hong Kong, Taipei, Okinawa, Guam, and Honolulu.

[19] Bombay, Taipei, and Okinawa.

[20] Paris, the Azores, Lisbon, Barcelona, Madrid (on route 133), Casablanca, Rome, and Vienna.

[21] Vienna, Barcelona, Nice, and Casablanca.

[22] Air Line Pilots Association v. C.A.B., 494 F.2d 1118 (D.C. Cir. 1974); Air Line Pilots Association v. C.A.B., 475 F.2d 900 (D.C. Cir. 1973); National Air Carrier Association v. C.A.B., 436 F.2d 185 (D.C. Cir. 1970).

[23] Ashbacker Radio Corp. v. F.C.C., 326 U.S. 327 (1945).

[24] See Kodiak Airways, Inc. v. C.A.B., 447 F. 2d 341 (D.C. Cir. 1971).

[25] Since we are restricting Pan American's Taiwan/Okinawa service to that provided by TWA and since TWA can not now serve Taiwan and Okinawa via points in Japan and Alaska the condition requested by FTL prohibiting Pan American from serving Taiwan and Okinawa via Japan or Alaska will not be necessary.

[26] Appendix A, Application for Exemption, Docket 27323.

[27] In addition, the DOJ overlooks the fact that the certificates of Pan American and TWA do not guarantee any particular level of competition in city-pair markets.

XUM
V40-24
FEB 4 75
XUM

at Frankfurt and the elimination of Pan American's service in the Philadelphia-London market will have an impact on transatlantic service to Pittsburgh and Philadelphia of such magnitude to warrant disapproval of these aspects of the agreement. The certificates of Pan American and TWA do not now require those carriers to provide single-plane service in any particular city-pair market; decisions to provide such service are left to the carriers' discretion. Thus, several months ago TWA elected to eliminate single-plane service in the Pittsburgh-Frankfurt market; and Pan American would have been free to likewise eliminate its Philadelphia-London and Philadelphia-Frankfurt single-plane service. Denial of this portion of the agreement as requested by Philadelphia and Pittsburgh will provide no guarantee that single-plane service in these markets will continue; and we do not believe it appropriate to use this forum as a means of imposing any greater responsibilities to serve these markets than already contained in the carriers' certificates.[28]

With respect to the contentions of the labor parties, we are not inclined to impose labor protective provisions or recommend labor protective guidelines on the basis of the record now before us. The applicants and labor parties have not presented sufficient information with respect to the impact of the agreement on employees and the financial impact on the applicants of the imposition of labor protective provisions upon which we can make an informed judgment. However, we do not believe that a hearing on these matters is either required or desirable since such data can be presented in written pleadings. Accordingly, we will direct the applicants and interested labor parties to file further pleadings in this docket within 21 days of this order setting forth in detail estimates of the impact of the agreement, by station, on each class of employees of Pan American and TWA, and the financial impact on the applicants which may result from the imposition of standard labor protective provisions. The parties should consider the possible tailoring of the standard labor protective provisions normally imposed in more expansive merger cases, to fit the scope of the present agreement, or the use of labor protective guidelines such as those adopted in the Alaska Service Investigation.[29] In the meantime, the agreement will be implemented and the Board will consider whether to impose any labor protective conditions it may find required by the public interest retroactive to the date on which the agreement is approved.

Finally, several respondents assert that any Board action approving the agreement must be reviewed by the President pursuant to section 801 of the Act. We disagree. Section 801 deals in terms of "issuance, denial, transfer, amendment, cancellation, suspension, or revocation of, and the terms, conditions, and limitations contained in, any certificate authorizing an air carrier to engage in overseas or foreign air transportation * * *." (emphasis added). The temporary suspensions here in issue are suspensions of service under section 401(j) of the Act, as distinguished from suspension of certificate authority under section 401(g) of the Act. The action we are taking does not affect, modify or suspend the underlying certificate authority held by the applicants and, consequently, sections 401(g) and 801 do not apply.[30] DOJ incorrectly attempts to place the instant suspensions within the ambit of section 401(g) of the Act (which is subject to Presidential approval) by claiming that 401(j) service suspensions are permissive while 401(g) certificate suspensions are mandatory and that the instant suspensions in light of the contractual obligations arising from the agreement become mandatory. As far as the Board is concerned, the certificate rights of the two carriers to serve the points herein suspended remain intact and the carriers can reinstate service at those points at any time. The fact that reinstitution of suspended service may give rise to breach of contract liability, as between the parties, and, in that sense, may be considered by the applicants as imposing a mandatory obligation, such obligation does not arise from the Board's suspension authority or from its section 412 approval, but rather from the terms of the agreement.[31]

Accordingly, it is ordered, That:

1. Pan American World Airways be and it hereby is exempted from section 401 of the Act, the Board's rules and regulations, and the terms, conditions, and limitations of its certificate for route 130 insofar as they would otherwise prevent Pan American from serving Bombay, India and points in Taiwan and Okinawa subject to the condition that Pan American shall not perform single-plane service (including single-flight number) in any Taiwan/Okinawa city-pair market currently authorized in the certificates of Northwest which did receive single-plane service by TWA as reflected in TWA's general schedule No. 51 on file with the Board effective November 1, 1974;

2. Trans World Airlines be and it hereby is exempted from section 401 of the Act, the Board's regulations and the terms, conditions, and limitations of its certificate for route 147 insofar as they may prevent TWA from serving Vienna, Austria; Barcelona, Spain; Nice, France; and Casablanca, Morocco;

3. Pan American World Airways be and it hereby is authorized pursuant to section 401(j) of the Act to suspend service at Paris, France; and Vienna, Austria, on route 132; the Azores, Lisbon, Portugal; Barcelona, Spain; Nice, France; and Rome, Italy on segment 1, Part I of route 132; the Azores and Lisbon, Portugal; Madrid, Spain; and Casablanca, Morocco; on route 133;

4. Trans World Airlines be and it hereby is authorized pursuant to section 401(j) of the Act to suspend service at Frankfurt, Germany; Colombo, Sri Lanka; that portion of India South of the 20th parallel; Bangkok, Thailand; Hong Kong; Taipei, Taiwan; Okinawa; Guam; and Honolulu, Hawaii on routes 147 and 164, Los Angeles/Ontario/Long Beach on route 164, and Honolulu on route 2;

5. The agreement between Pan American World Airways and Trans World Airlines be and it hereby is approved;

6. The exemption and suspension authority granted in paragraphs 1 through 4, above, and the Board's approval of the joint agreement in paragraph 5, above, shall be effective for a period of two years or until 90 days after final Board decision in the Transatlantic Route Proceeding, Docket 25908, whichever first occurs, unless sooner terminated by the Board;

7. The application of Pan American World Airways for amendment of its Approved Service Plan-Foreign Air Transportation for route 130 and for Part II of route 132 be and it hereby is granted;

8. The Approved Service Plan-Foreign Air Transportation of Pan American for route 130 and for Part II of route 132 be and they hereby are designated in the forms attached hereto;

9. The application of Trans World Airlines for amendment of its Approved Service Plan-Foreign Air Transportation for route 147 be and it hereby is granted;

10. The Approved Service Plan-Foreign Air Transportation of Trans World Airlines for route 147 be and it hereby is designated in the form attached hereto and TWA's Approved Service Plan-Foreign Air Transportation for route 164 be and it hereby is terminated;

11. Pan American World Airways, Trans World Airlines and interested labor parties are directed to file further pleadings within 21 days of this order as set forth at page 11 of this order;

[28] Philadelphia's fear that the elimination of Pan American's single-plane service between Philadelphia and London may ultimately cause Pan American to seek a suspension or deletion of its service to Philadelphia is not a proper ground for disapproval of this portion of the agreement. See Order 73-4-97, p. 3. The suspension of service by Pan American at Philadelphia cannot be accomplished without Board authority. Any application seeking such authority will be carefully evaluated by the Board after the views of all interested carrier and civic parties are presented. In fact the Board denied a Pan American request to suspend service at Philadelphia. Order 74-1-27, January 4, 1974.

[29] Order 71-12-45, p. 23. The financial estimates should also reflect the impact of any modifications to the standard labor protective provisions.

[30] Order 74-4-135 and cases cited in n. 3 thereof; cf. Pan American World Airways v. C.A.B., 261 F. 2d 754 (D.C. Cir. 1958).

[31] We will not adopt the condition requested by Seaboard prohibiting "Pan American and TWA from taking action to deny Seaboard World equal access to any cargo shippers (including forwarders and agents) which, prior to the realignment, used the transatlantic services of the 'replaced carrier.'" If the applicants take any action which may be in violation of the Act or the Board's Regulations, Seaboard is free to file a complaint with the Bureau of Enforcement and establish its claim in that forum. Finally, we find entirely inappropriate Seaboard's request that the Board find that it is entitled to compensatory relief because of the action taken in this docket.

12. The petition of the Air Line Pilots Association for reconsideration of Order 74-11-24 be and it hereby is dismissed;

13. The motion of National Airlines for clarification of Order 74-11-24 be and it hereby is dismissed;

14. The motion of the City and Chamber of Commerce of Philadelphia for leave to file an otherwise unauthorized document be and it hereby is granted;

15. The motion of Continental Air Lines be and it hereby is dismissed;

16. The applications of Trans World Airlines in Dockets 27207 and 27321 insofar as they request suspension of service at Hilo, Hawaii be and they hereby are dismissed;

17. Except to the extent granted herein the applications of Pan American and Trans World Airlines in Dockets 27207, 27321, 27299, 27300, 27255, 27323, 27114 be and they hereby are denied; and

18. Jurisdiction is hereby retained for the purpose of modifying, amending, or revoking the authority and approvals granted herein at any time in the Board's discretion without hearing.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

CIVIL SERVICE COMMISSION

MANPOWER SHORTAGE

Listing

Under the provisions of 5 U.S.C. § 5723 the Civil Service Commission has found effective January 3, 1975, that there is a manpower shortage for the single position of Chairman of the Provider Reimbursement Review Board for Medicare, Social Security Administration, Department of Health, Education, and Welfare. The appointee may be paid for the expense of travel and transportation to his first post of duty.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-3154 Filed 2-3-75;8:45 am]

PHYSICAL SCIENCE TECHNICIAN, MARE ISLAND NAVAL SHIPYARD, CALIFORNIA

Establishment of Minimum Rates and Rate Ranges

Under authority of 5 U.S.C. 5303 and Executive Order 11721, the Civil Service Commission has established special minimum salary rates and rate ranges as follows:

TABLE No. 500

Occupational Coverage: GS-1311—5/8, Physical Science Technician (Limited to employees assigned to Radiological Monitoring and Control duties only).
Geographic Coverage: Mare Island Naval Shipyard, California.
Effective date: First day of the first pay period beginning on or after February 2, 1975.

PER ANNUM RATES

Grade	1	2	3	4	5	6	7	8	9	10
GS-5	$9,915	$10,198	$10,481	$10,764	$11,047	$11,330	$11,613	$11,896	$12,179	$12,462
GS-6	10,737	11,053	11,369	11,685	12,001	12,317	12,633	12,949	13,265	13,581
GS-7	11,573	11,924	12,275	12,626	12,977	13,328	13,697	14,080	14,381	14,732
GS-8	12,416	12,804	13,192	13,580	13,968	14,356	14,744	15,132	15,520	15,908

Under provisions of section 3-2b, Chapter 571, FPM, agencies may pay the travel and transportation expenses to first post of duty, under 5 U.S.C. 5723, of new appointees to positions cited.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 330-6]

OCEAN DUMPING

Notice of Receipt of Application and Meeting

Notice is hereby given of the filing by the United States Air Force of an application for a permit under the Marine Protection, Research, and Sanctuaries Act of 1972, Pub. L. 92-532, 33 U.S.C. 1401 (the "Act") to incinerate at sea the remaining stores of the compound known as Herbicide Orange. The applicant has also requested the designation of a new ocean disposal site in which the incineration will take place.

According to the information submitted by the Air Force as part of its application, there are approximately 1,400,000 gallons of Herbicide Orange in storage on Johnston Island in the Pacific Ocean and approximately 860,000 gallons in storage at Gulfport, Mississippi. The herbicide consists of approximately 50% by volume of the normal butyl ester of 2,4-dichlorophenoxyacetic (2,4-D) acid and 50% by volume normal butyl ester of 2,4,5-trichlorophenoxyacetic (2,4,5-T) acid. The Air Force intends to incinerate the chemical compound in a location approximately 120 miles from Johnston Island and 850 miles west of the Hawaiian Islands. The area in which incineration is proposed is bounded by the following coordinates:

14d 45' to 18d 45' north latitude.
171d 30' to 175d 0' west longitude.

The chemical wastes would be incinerated at above 1400 degrees C. aboard the *M/T Vulcanus,* a vessel recently used by the Shell Chemical Company to incinerate organochlorine wastes in the Gulf of Mexico. According to the application, it is expected that the combustion process will result in a worst case incineration efficiency of 99.9 percent. Using the assumed 99.9 percent figure and a maximum waste feed rate to each of the two incinerators of 12 metric tons per hour, the following mass discharges are anticipated by the Air Force (in pounds per second):

Carbon dioxide	23.1
Hydrogen chloride	4.1
Carbon monoxide	1.2
Carbon particles	0.07
Pyrolyzates of orange and its constituents	0.01

The Air Force has prepared and filed with the Council on Environmental Quality a final Environmental Impact Statement relating to the proposed incineration and the disposal site. Copies of this document, the application for a permit, and other relevant materials, are available for inspection at the following offices:

EPA Region IX, Room 100, 100 California Street, San Francisco, CA.
EPA Region IV, Room 306, 1421 Peachtree Street, NE, Atlanta, GA.
Freedom of Information Center, Room 221 West Tower, 401 M Street SW., Washington, D.C.

Notice also is hereby given of a public meeting to consider the issues raised by the application of the Air Force. This meeting will be preliminary to and not in lieu of the public hearing provided for in the regulations relating to ocean dumping, 40 CFR 222.5. It will be held beginning at 9:30 a.m. on February 19, 1975, at the GSA Auditorium, 18th & F Streets NW., Washington, D.C.

The preliminary meeting has been called to discuss several factual and legal issues that may arise in connection with the processing of this application. The Agency invites comments from the public on the following questions:

1. Whether feasible alternative methods of disposal exist.
2. Whether Herbicide Orange is a "chemical" or "biological warfare agent" within the meaning of the Act, and whether it retains this character following incineration.
3. Whether incineration of Herbicide Orange at high combustion efficiency is compatible with the Act, assuming the compound is a warfare agent.
4. Whether adequate techniques exist with which to monitor the incineration of Herbicide Orange.
5. Whether incineration is a feasible and environmentally safe means of disposal of Herbicide Orange.
6. Whether the disposal site requested by the Air Force is an appropriate location for incineration of this waste.

XUM
V40124
FEB 4 75
XUM

Although the normal procedure is for the Regional Administrators to process applications for ocean dumping permits, the application of the Air Force will be considered by Headquarters due to the novel scientific and legal issues raised, and the possibility that the initial permit would be issued as a research permit.

The public is invited to comment on any of the issues outlined above. Also, any person may request a public hearing to consider the issuance or denial of the permit and designation of the site by submitting written objections to the issuance or denial of the permit or designation of the site. Title 40 Parts 220–227 of the Code of Federal Regulations sets forth the procedures and criteria relating to public hearings and approval of permits under the Act. Written comments, requests for a hearing and other correspondence relative to this application should be addressed, on or before March 5, 1975, date of this publication in the FEDERAL REGISTER, to the Chief, Marine Protection Branch, Oil and Special Materials Control Division (WH-448), 401 M Street SW., Washington, D.C. 20460.

Dated: January 31, 1975.

JAMES L. AGEE,
Assistant Administrator for Water and Hazardous Materials.

[FR Doc.75-3283 Filed 2-3-75;8:45 am]

[FRL 330-3]

SOUTH CAROLINA

Notice of Public Hearing and Notice of Request for Approval of State Program for the Control of Discharges of Pollutants to Navigable Waters

A public hearing to consider the request of the State of South Carolina for State Program Approval to participate in the National Pollutant Discharge Elimination System (NPDES) permit program for the control and abatement of discharges into waters of the State in compliance with the 1972 Amendments to the Federal Water Pollution Control Act, 33 U.S.C.A. §§ 1251-1376 (Supp. 1973) (hereinafter, the "Act"), will be held on March 5, 1975, at 10 a.m., G.S.T. Peeples Auditorium, Third Floor, J. Marion Sims Building, 2600 Bull Street, Columbia, South Carolina 29201.

Section 402(b) of the Act provides that the Governor of a State desiring to administer the NPDES permit program to control discharges into waters within its jurisdiction may submit to the Administrator of the United States Environmental Protection Agency (EPA) a full and complete description of the program the State intends to administer, including a statement from the State Attorney General that the laws of the State provide adequate authority to carry out the described program. The Administrator is required to approve each such submitted program unless the program does not meet the requirements of section 402(b) and EPA's guidelines. Among other authorities, the State must have: (1) Adequate authority to issue permits which comply with all pertinent requirements of the Act, (2) adequate authority, including civil and criminal penalties, to abate violations of permits or the permit program, and (3) authority to ensure that the Administrator, the public, or any other affected States, and other affected agencies, are given notice of each application and are given the opportunity for a public hearing before acting on each permit application. Also, the State must have and commit itself to use manpower and resources sufficient to act on all outstanding permit applications in a timely manner and consistent with the periods prescribed by the Act. EPA's guidelines establishing State Program Elements Necessary for Participation in the NPDES were published in Volume 37 of the FEDERAL REGISTER, December 22, 1972 (40 CFR Part 124), beginning at page 28390.

The State of South Carolina proposes that the South Carolina Department of Health and Environmental Control, 2600 Bull Street, Columbia, South Carolina 29201, operate the NPDES program.

The Governor's request and the program description may be inspected at the offices of the South Carolina Department of Health and Environmental Control at the above address, or at the Regional Office of the United States Environmental Protection Agency, 1421 Peachtree Street, NE., Altanta, Georgia 30309, or phone (404) 526-5727.

The public hearing panel will consist of the Administrator, or his representative, who will serve as the presiding officer; the Deputy Commissioner for Environmental Quality Control, or his representative; and the Regional Administrator, Region IV, or his representative.

All interested persons wishing to attend, to comment upon, or to support or to object to this State request are invited to attend the public hearing. Written comments may be presented at the hearing or submitted by March 12, 1975, either in person or by mail to the Regional Office of the United States Environmental Protection Agency at the above address.

Oral statements will be received and considered but for accuracy of the record, all testimony should be submitted in writing. Statements should summarize extensive written material so that there will be time for all interested persons to be heard. Persons submitting written statements are encouraged to bring additional copies for the use of the hearing panel and other interested persons. The Presiding Officer may, at his discretion, exclude oral testimony if it is overly repetitious of previous testimony heard or if it is not relevant to the decision to approve or require revision to the State program as submitted.

The hearing record will be left open for a period of seven days following the hearing to allow any person to submit additional written statements or to present views or evidence tending to rebut testimony presented during the hearing.

All comments or objections received by March 12, 1975, or presented at the public hearing will be considered by EPA before taking final action on the South Carolina Request for State Program Approval.

ALAN G. KIRK II,
Assistant Administrator for Enforcement and General Counsel.

JANUARY 31, 1975.

[FR Doc.75-3284 Filed 2-3-75;8:45 am]

FEDERAL ENERGY ADMINISTRATION

NORTHEAST ADVISORY COMMITTEE Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Northeast Advisory Committee will meet Friday, February 21, 1975 at 10:30 a.m., Room 2003A, Sen. Brooke Conference Room, JFK Federal Building, Government Center, Cambridge Street, Boston, Massachusetts.

The Committee was established to provide advice to the Federal Energy Administration regarding the interests and problems of this area of the country as they relate to FEA policies and programs.

The agenda for the meeting is as follows:

1. Presidential Energy Programs.
a. Impact on Consumers in Northeastern States.
b. Impact on Independent Fuel Oil Marketers.
c. Effectiveness in Achieving Conservation and Import Reduction Objectives.
d. National Security Storage Program.
e. Exploration on Atlantic Outer Continental Shelf.
f. Development of Deep Water Ports.
2. Alternative Proposals.
a. Continuation of Current Conservation Efforts.
b. Increased Conservation of All Fuels Including Natural Gas and Electricity.
c. Use of Allocation Program.
d. Incentives for Construction of Additional Refining Capacity in the Northeast and Elsewhere.
3. FEA Allocation and Price Issues.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Officer, (202) 961-7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on January 30, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

FEDERAL MARITIME COMMISSION

[Docket No. 75-3]

CHEVRON CHEMICAL CO. AND MITSUI O.S.K. LINES, LTD.

Filing of Complaint

Notice is hereby given that a complaint filed by Chevron Chemical Company against Mitsui O.S.K. Lines, Ltd. was served by the Commission January 29, 1975. The complaint alleges violation by respondent of section 18(b) of the Shipping Act, 1916 in connection with application of its tariff rates to certain shipments of "OLOA 229".

Hearing in this matter, if deemed necessary, shall commence on or before July 29, 1975.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-3158 Filed 2-3-75;8:45 am]

COMPANHIA NACIONAL DE NAVEGACAO AND COMPANHIA DE NAVEGACAO ANGOLANA, S.A.R.L.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, (46 U.S.C. 814)).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW, Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before February 24, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Renato C. Giallorenzi, Esquire
67 Broad Street
New York, New York 10004

Agreement No. 10152 is a joint service agreement between Companhia Nacional de Navegacao and Companhia de Navegacao Angolana, S.A.R.L., operating in the trade between Canadian, and United States Atlantic and Gulf ports and ports of West Africa. As a joint service the parties will act as a single member or party within any conference, pooling agreement or any other agreement subject to the Shipping Act, 1916, and will be represented by the East Coast Overseas Corp. of New York City. The parties will establish, maintain and file with the Commission, as a joint service, rates, charges and practices in those trades where they are not members of a conference. The parties will cooperate as to the tonnage to be contributed by each. They shall share equally the costs, expenses, profits and losses incurred by and derived from the joint service.

By Order of the Federal Maritime Commission.

Dated: January 29, 1975.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. RP-74-94-2]

ARKANSAS LOUISIANA GAS CO.; RICELAND FOODS, INC.

Petition for Extraordinary Relief

JANUARY 28, 1975.

Take notice that on December 16, 1974, Riceland Foods, Inc., (Riceland) Post Office Box 927, Stuttgart, Arkansas 72160 filed in Docket No. RP74-94-2 a petition for extraordinary relief pursuant to section 4 of the Natural Gas Act and section 2.78 of the Commission's rules of practice and procedure, (18 CFR 2.78). Riceland requests relief from the operation of the currently effective curtailment plan of Arkansas Louisiana Gas Company, (Arkla). In support of its petition Riceland avers that it is a soybean processing cooperative owned by 25,000 farmers from various states of the mid-south, and that it utilizes natural gas volumes which it purchases from Arkla for soybean and vegetable oil processing as well as grain drying.

Riceland operates two plants, located at Stuttgart and Helena, Arkansas. The Stuttgart plant has a peak day requirement of 5,750 Mcf and a monthly requirement of 125,000 Mcf, while the Helena plant has analogous requirements of 4,250 Mcf and 96,000 Mcf. These two plants employ approximately 800 employees and Riceland claims that the curtailment of gas deliveries from Arkla will result in the extended layoff of most of these people as well as reducing the output of its products.

Riceland requests that all gas deliveries from Arkla to its plants be considered Priority 2 volumes under Arkla's curtailment plan. Currently, as substantial portion of this gas is classified in Priority 4. Riceland's petition requests relief until it is able to make operational alternate fuel facilities which it estimates will be functioning by December, 1975.

A shortened notice period in this proceeding may be in the public interest.

Any person desiring to be heard or to make any protest with reference to said petition should on or before February 12, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. The petition is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9224]

ARKANSAS POWER & LIGHT CO.

Proposed Changes in FPC Rate Schedules

JANUARY 28, 1975.

Take notice that on January 21, 1975, Arkansas Power & Light Company (Company) tendered for filing proposed changes in twe of the Company's rate schedules:

(1) Arkansas Power & Light Company Rate Schedule FPC No. 67.
(2) Arkansas Power & Light Company Rate Schedule FPC No. 52.

Both of these schedules are contracts between the Company and the Arkansas Electric Cooperative Corporation (AECC). The changes in FPC No. 67 include the addition of three points of delivery and an increase in capacity at six other points of delivery. The changes in FPC No. 52 include the deletion of three points of delivery, an increase in capacity at three points of delivery, and the relocation with an accompanying increase in capacity at another point. Some of the changes are not proposed to take effect until May 1, 1975 or June 1, 1975. For these reasons the Company requests waiver of the Commission's ninety day rule on filings. The Company states that due to the difficulty in making accurate estimates on the billing effect of these changes, no billing data was filed. The Company states there will be no change in rates or provisions in the two schedules other than those noted above. The

XUM
V40-24
FEB 4 75
XUM

Company requests waiver of the Commissions regulations concerning this proposed filing.

A copy of the filing has been mailed to AECC.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

CITIES SERVICE GAS CO.

Postponement of Hearing

JANUARY 28, 1975.

On January 28, 1975, Cities Service Gas Company filed a motion to extend the hearing date fixed by order issued January 23, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the hearing date in the above matter is postponed until March 4, 1975, at 10 a.m. (e.d.t.).

KERR-McGEE CORP. ET AL.

Extension of Time

JANUARY 28, 1975.

On January 22, 1975, Kerr-McGee Corporation filed a request to extend the time within which to elect to transfer sums under the overriding royalty provision of the Commission's order of October 29, 1974, in the above-designated matter. On January 23, 1975, Southern Natural Gas Company and Phillips Petroleum Company jointly filed a similar motion.

Upon consideration, notice is hereby given that the time in which to take the above action is extended to and including February 26, 1975.

[Docket No. RI75-104]

MESA PETROLEUM CO.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes to Become Effective Subject to Refund [1]

JANUARY 23, 1975.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

* Unless otherwise stated, the pressure base is 15.025 lb/in²a.
[1] Base rate—subject to applicable taxes and Btu adjustment.
[2] For gas delivered from wells completed prior to June 1, 1970.
[3] Increase to the national rate pursuant to Opinion No. 699, as amended.
[4] Increase to the order No. 435 ceiling rate.
[5] The pressure base is 14.73 lb/in²a.
[6] Rate schedule established by Commission order issued Dec. 31, 1974, in docket No. G-4547, et al., Atlantic Richfield Co., et al.
[7] Not used.
[8] Not used.
[11] Accepted as of the date set forth in the "Effective date unless suspended" column.
[12] Those rate increases are subject to and in excess of the 35.0 cents ceiling established in opinion No. 699-H for sales from the Rocky Mountain Area under contracts dated on or after Oct. 1, 1968, from wells commenced prior to Jan. 1, 1973, and are rejected.

The proposed rate increases of Mesa are subject to the ceiling rates established in Opinion Nos. 658 and 699-H. Those proposed rates for sales subject to and in excess of the Opinion No. 658 ceiling rate are suspended for five months. Those rates for sales subject to and not in excess of ceilings established in Opinion No. 699-H are accepted as of June 21, 1974, or the contractual effective date, whichever is later. Those proposed rates subject to and in excess of the 35.0¢ ceiling established in Opinion No. 699-H for sales from the Rocky Mountain Area under contracts dated on or after October 1, 1968, from wells commenced prior to January 1, 1973, are rejected.

In regard to any sale of natural gas for which the proposed increased rate is filed under the provisions of Opinion No. 699-H, issued December 4, 1974, in Docket No. R-389-B, no part of the proposed rate increase above the prior applicable area ceiling rate may be made effective until the seller submits a statement in writing demonstrating that Opinion No. 699-H is applicable to the particular increased rate filing, in whole or in part. The proposed increased rates for which such support shall have been satisfactorily demonstrated on or before January 31, 1975, will be made effective as of June 21, 1974.

[Docket No. RP74-100]

NATIONAL FUEL GAS SUPPLY CORP.

Extension of Procedural Dates

JANUARY 27, 1975.

On January 17, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued August 9, 1974, as most recently modified by notice issued December 12, 1974, in the above-designated matter. The motion states that National Fuel has been notified and opposes the extension.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's testimony, March 21, 1975.
Service of Intervenor's Testimony, April 4, 1975.
Service of Company Rebuttal, April 18, 1975.
Hearing, May 6, 1975 (10 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3096 Filed 2-3-75;8:45 am]

[Docket Nos. RP71-119 and RP74-31-26]

PANHANDLE EASTERN PIPE LINE CO.

Petition for Extraordinary Relief

JANUARY 30, 1975.

Take notice that on January 24, 1975, Brockway Glass Company, Inc. ("Brockway") filed a petition for permanent extraordinary relief from the natural gas curtailments imposed by Panhandle Eastern Pipe Line Company ("Panhandle") on Brockway's glass container plant located at Lapel, Indiana. Brockway, a direct sale customer of Panhandle, states that due to unexpected additional curtailments being imposed this winter season by Panhandle, Brockway could effectively lose delivery of the required 644 Mcf per average day necessary to fuel the feeders, the annealing lehrs, and the mold heating oven at the Lapel plant. If the minimum 644 Mcf of process gas per average day is curtailed, Brockway will not have sufficient gas to maintain full production and will as a result suffer irreparable injury. Without relief, the Lapel plant will have to shut down, at least in part. This will create a significant loss of employment in the town of Lapel, in which Brockway is one of the largest employers. Irreparable injury will also occur to Brockway itself and to its customers.

Brockway states that, since it is installing propane facilities, full extraordinary relief is only necessary for the period March 1, 1975 through June 30, 1975, by which time it expects the propane facilities to be operational. Thereafter Brockway requests extraordinary relief only if, despite its efforts, it is unable to secure a propane supply which, along with the natural gas available from Panhandle, is equal to 644 Mcf per average day. Thus, in the event of such a shortfall, it would only be requesting extraordinary relief to the extent necessary to make up the difference between 644 Mcf per average day and the sum of the available propane and the available natural gas supply from Panhandle.

Any volumes delivered pursuant to such extraordinary relief in excess of entitlements under the effective Panhandle curtailment plan would be subject to payback out of subsequent daily entitlements in excess of 644 Mcf per average day.

In order to avoid irreparable injury pending hearings on its request for permanent relief, Brockway has also moved for immediate temporary relief identical with the permanent relief requested. In

XUM
V40-24
FEB 4 75
XUM

this connection, Brockway requested and Panhandle has agreed to a grant of emergency relief from curtailments during the months of January and February.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said petition should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before February 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3087 Filed 1-30-75;10:48 am]

[Docket Nos. E-7795, E-7986]

PHILADELPHIA ELECTRIC CO.

Extension of Time

JANUARY 27, 1975.

On January 20, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued June 4, 1974, as most recently modified by notice issued November 26, 1974, in the above-designated matter. On January 27, 1975, Philadelphia Electric Company filed an answer to the motion.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, February 11, 1975.
Service of Intervenor's Testimony, February 21, 1975.
Service of Company Rebuttal, March 4, 1975.
Hearing (unchanged), March 11, 1975 (10 a.m. e.d.t.).

[Docket No. R-389-B]

RATES; CERTAIN SALES OF NATURAL GAS AND NEW DEDICATIONS TO INTERSTATE COMMERCE

Order of Clarification of Opinion No. 699-F

JANUARY 27, 1975.

Just and Reasonable national rates for sales of natural gas from wells commenced on or after January 1, 1973, and new dedications of natural gas to interstate commerce on or after January 1, 1973.

On January 3, 1975, we issud an Order Modifying in Part Opinion No. 699-F. The order of January 3, 1975, was issued to make clear our view that the sale of natural gas under section 157.29 should be limited to a single sixty (60) day period. The order reinstated Paragraph (B) of Opinion No. 699-C so as to preclude more than one sixty (60) day sale regardless of a change in the identity of the seller or sellers and regardless of a change in the identity of a purchaser. Under § 1.13(c) of the Commission's rules and regulations the order of January 3, 1975, was effective as of the date of its issuance (18 CFR 1.13(c)).

On January 7, 1975, Transcontinental Gas Pipe Line Corporation (Transco) filed a telegram which (inter alia) requested "* * * clarification of whether or not its suppliers are required to cease immediately those current 60-day sales to Transco which were commenced in good faith in reliance on Commission Opinion No. 699-F." Transco stated that "* * * one producer has already ceased emergency deliveries to Transco because of the Commission's January 3, 1975 order * * *". The January 7, 1975, telegram from Transco further stated "Should Transco cease the other 60-day purchase now apparently prohibited, a further loss of approximately 7,000 Mcf per day, or a total of approximately 203,000 Mcf from January 7, 1975 for the remainder of the period, would result."

On January 23, 1975, Transco filed a second telegram in which it stated that the one supplier which has ceased emergency deliveries to it immediately following issuance of our January 3, 1975, order, had informed Transco that it would complete the remaining forty-four (44) days of emergency deliveries—it having made sixteen (16) days of such deliveries prior to January 3, 1975—if such sales would not jeopardize the non-jurisdictional status afforded by § 157.29 of the regulations.

We recognized in the order of January 3, 1975, that "* * * [c]onfusion was created when in Opinion No. 699-F, in response to an application for rehearing filed by [Transco] we modified Opinion No. 699-C to permit the sale of natural gas under § 157.29 for periods of up to 60 days to more than one pipeline * * *", and we do not question the "good faith reliance" of Transco and its suppliers. However, under our order of January 3, 1975, we cannot authorize the resumption of the emergency purchase by Transco which ceased on January 3, 1975. Likewise we cannot authorize the continuation of the other emergency purchase of 7,000 Mcf per day alluded to by Transco in its January 7, 1975 telegram, inasmuch as this purchase, according to Transco, also appears to be prohibited. These producer-suppliers of Transco must, therefore, file an application for a permanent certificate or temporary authorization in accordance with Section 157.29(c) as promulgated in Opinion No. 699-B, issued September 9, 1974, —— FPC ——.

The Commission orders. The request of Transcontinental Gas Pipe Line Corporation, as set forth in its telegrams of January 7 and 23, 1975, is denied.

By the Commission.[1]

[Project No. 2545]

WASHINGTON WATER POWER CO.

Application for Change in Land Rights

JANUARY 28, 1975.

Public notice is hereby given that an application for a change in land rights was filed on January 14, 1975, pursuant

[1] Dissenting opinion of Commissioners Brooke and Moody filed as part of the original.

to the Federal Power Act (16 U.S.C. 791a-825r) by The Washington Water Power Company of Spokane, Washington (Correspondence to: Mr. J. P. Buckley, Vice President and Secretary, The Washington Water Power Company, P.O. Box 3727, Spokane, Washington 99220), Licensee for Project No. 2545—Spokane River. The project is located on the Spokane River in Spokane, Stevens, and Lincoln Counties, Washington near the cities of Spokane, Nine Mile Falls, and Reardan.

The Company is requesting Commission approval of the conveyance in fee of two parcels of land within the project boundary totaling 0.74 acres to Spokane County, Washington. The two parcels are located within the Nine Mile Falls development approximately 800 feet downstream of the Nine Mile Dam. The property would be used by Spokane County for road purposes which entails realigning portions of routes to the proposed new Nine Mile Falls bridge F.A.S. (Federal Aid Secondary) No. S-1415 proposed to be constructed in 1975. The new bridge would be located 400 feet north of and would replace an existing bridge built in 1919 which is now obsolete. The new bridge would connect Nine Mile Road, S.R. 291, with realigned portions of Charles Road, F.A.S. 1415, and the Carlson Road. This construction is the first stage of plans to connect S.R. 291 to S.R. 231 in Lincoln County via F.A.S. Route 1415.

Any person desiring to be heard or to make protest with reference to this application should on or before February 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, protests or petitions to intervene in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

INTERNATIONAL TRADE COMMISSION

[TEA-W-261]

WILLIAMSTON PARTS CO., INC. and WESTMINISTER MANUFACTURING CO., INC.

Workers' Petition for a Determination

Notice of Investigation

On the basis of petitions filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers and former workers of the Williamston Pants Co., Inc., Williamston, S.C., and Westminster Manufacturing Co., Inc., Westminster, S.C., the United States International Trade Commission, on January 29, 1975, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with men's and boys' trousers (of the types provided for in Items 380.00, 380.04, 380.06, 380.39, 380.81, and 380.84 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before February 14, 1975.

The petition filed in this case is available for inspection at the Office of the Secretary, United States International Trade Commission, 8th and E Streets, NW., Washington, D.C., and at the New York City office of the International Trade Commission located at 6 World Trade Center.

By order of the Commission.

Issued: January 30, 1975.

AD HOC ADVISORY SUBCOMMITTEE TO EVALUATE PROPOSALS FOR PARTICIPATION IN THE SCIENTIFC DEFINITION OF EXPLORER-CLASS PAYLOADS

Notice of Date and Place of Meeting

Two sections of the NASA Ad Hoc Advisory Subcommittee of the Space Science and Applications Steering Committee to evaluate proposals for participation in the scientific definition of Explorer-Class payloads will meet at the Goddard Space Flight Center in Greenbelt, Maryland during February. On February 19, 20, and 21, 1975, Subcommittee Section A (Magnetospheric Scout Missions and Cosmic Dust) will meet in Room 200 of Building 26 from 8:30 a.m. to 4:30 p.m. On February 25, 26, and 27, 1975, Subcommittee Section B (Electrodynamics) will meet in the Management Conference Center in Building 8 from 8:30 a.m. to 4:30 p.m. The meetings of other subcommittee sections will be advertised in the FEDERAL REGISTER and convened in the near future.

The Subcommittee sections will discuss, evaluate and categorize proposals for participation on Mission Definition Teams which will define Explorer-Class Atmospheric and Space Physics Payloads. Throughout the Subcommittee sessions, the professional qualifications of the proposers and their potential scientific contributions to the Mission Definition Teams will be candidly discussed and appraised. Discussion of these matters in a public session would invade the privacy of the proposers and the other individuals involved. The meeting will be closed to members of the public.

Since the Subcommittee session will be concerned throughout with matters listed in 5 U.S.C. 552(b)(6), it is hereby determined that the session will be closed to the public.

For further information please contact Dr. David P. Cauffman at 202/755-3685.

BOYD C. MYERS, II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-528, 50-529, 50-530]

ARIZONA PUBLIC SERVICE COMPANY, ET AL. (PALO VERDE, UNITS 1, 2, AND 3)

Notice and Order Scheduling Second Prehearing Conference

At the Special Prehearing Conference held in this proceeding on January 23, 1975, the Atomic Safety and Licensing Board (the Board) granted leave to Mr. Carmine F. Cardamone, Jr. to file an amended petition to intervene. Also, the Board set a schedule for responses by the Applicants and the U.S. Nuclear Commission Regulatory Staff (the Staff) to the amended petition of Mr. Cardamone and to an amended petition to intervene filed by the Arizona Clean Energy Coalition. In view of these developments, the Board has scheduled a Second Prehearing Conference to hear oral argument on these two amended petitions to intervene.

Accordingly, please take notice that a Second Prehearing Conference will be held in the above-captioned proceeding on Thursday, February 27, 1975, at 10:30 a.m. local time at the County Board of Supervisors Auditorium, 205 West Jefferson Street, Phoenix, Arizona.

The attorneys for the respective parties and the petitioners to intervene are directed to confer in advance of the Second Prehearing Conference in such manner as they deem appropriate and report to the Board at said conference on any stipulations regarding interest and/or contentions, and on any other mutual agreeable procedures to expedite this proceeding.

Members of the public are invited to attend the Second Prehearing Conference as well as the Evidentiary Hearing to be held at a later date to be fixed by the Board.

[Docket No. 50-3]

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

Receipt of Request for Variance

The Consolidated Edison Company of New York, Inc. (licensee) is authorized by Provisional Operating License No. DPR-5 to operate a nuclear power reactor identified as Unit No. 1 at the licensee's Indian Point Station, located in Westchester County, New York at steady-state power levels up to 615 MWt. By letter dated January 15, 1975, the licensee has requested a variance for Unit No. 1 from the requirement for compliance with the Commission's Interim Acceptance Criteria (36 FR 12247, June 29, 1971) for emergency core cooling systems for light-water reactors. The licensee has previously been granted variances from compliance with these requirements for limited periods (See 39 FR 24942 and 39 FR 29215).

Notice is hereby given that the request is under consideration.

The requested variance would allow the Indian Point Nuclear Generating Unit No. 1 to resume power operation until the present core is expended, a period of approximately four months. The requested variance also may require exemption from the containment testing requirements of 10 CFR Part 50, Appendix J. The variance from the requirements of the Interim Acceptance Criteria may be granted upon a finding that good cause has been shown, and that there is reasonable assurance that the granting of the variance will not adversely affect the health and safety of the public. The exemption from the requirements of Appendix J, if required, may be granted in accordance with 10 CFR 50.12. In connection with this request, the submission of views and comments by any interested persons is invited. Such views and comments should be submitted in writing, addressed to the Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, on or before February 24, 1975.

A copy of the licensee's January 15, 1975 request and related correspondence and documents are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York.

Dated at Bethesda, Maryland, this 28th day of January, 1975.

For the U.S. Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch #3, Division of Reactor Licensing.

[FR Doc.75-3059 Filed 2-3-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUMMIT POWER STATION SUBCOMMITTEE

Meeting

JANUARY 30, 1975.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on the Summit Power Station, Units 1 and 2, will hold a meeting on February 20, 1975 in the Sir Galahad Room of the Royal Court Inn, 1750 S. Elmhurst, Des Plaines, Illinois.

The purpose of the meeting will be to discuss the application by the Delmarva Power and Light Company for construction permits for the Summit Power Station, Units 1 and 2.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

THURSDAY, FEBRUARY 20, 1975,
9 A.M.-5 P.M.

Discussions with the Delmarva Power and Light Company and the NRC Staff.

Representatives of the Delmarva Power and Light Company will make presentations on various aspects of the design of the high temperature gas-cooled reactors proposed for the Summit Power Station.

In connection with the above agenda, the Subcommittee will hold executive sessions prior to, and at the close of the day's public session, which will involve a discussion of its preliminary views, and an exchange of opinions of the Subcommittee members and internal deliberations and formulation of recommendations to the ACRS. In addition, the Subcommittee may hold a closed session with the NRC Staff and representatives of the Delmarva Power and Light Company to discuss privileged information relating to the proposed design features.

I have determined, in accordance with section 10(d) of Pub. L. 92-463, that the executive sessions at the beginning and end of the day's session will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than February 13, 1975, to the Executive Secretary, Advisory Committee on Reactor Safeguards, Nuclear Regulatory Commission, Washington, D.C. 20555. Such comments shall be based upon documents which are on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and the Newark Free Library, Elkton and Delaware Roads, Newark, Delaware 19711.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3:30 p.m. on February 20, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on February 18, 1975 to the Advisory Committee on Reactor Safeguards (telephone 202-634-1371) between 8:30 a.m. and 5:15 p.m., e.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW., Washington, D.C. 20555, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portions of the meeting will be available for inspection on or after February 24, 1975 at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE., Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 after May 20, 1975.

Copies may be obtained upon payment of appropriate charges.

JAMES R. LINDSAY,
Acting Assistant, Advisory Committee Management Officer.

[FR Doc.75-3149 Filed 2-3-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON COMBUSTION ENGINEERING SYSTEM

Meeting

JANUARY 30, 1975.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Combustion Engineering System 80 will hold a meeting on March 1, 1975 in the Pineapple Room of the Sheraton Tobacco Valley Inn at 450 Bloomfield Avenue, Windsor, Connecticut. The purpose of the meeting will be to discuss the Combustion Engineering System 80 Standard Safety Analysis Report.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

SATURDAY, MARCH 1, 1975—8:45 A.M. UNTIL ABOUT 2:45 P.M.

The Subcommittee will hear presentations by representatives of Combustion Engineering, Inc. and will hold discussions with this group pertinent to its review of matters related to the Combustion Engineering System 80 Standard Safety Analysis Report.

In connection with the above agenda item, the Subcommittee will hold executive sessions, not open to the public, at approximately 8:30 a.m. on March 1, 1975 and at the end of the day to consider matters related to the above review. These sessions will involve an exchange of opinions and discussions of preliminary views and recommendations of Subcommittee members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the executive sessions, the Subcommittee may hold one or more closed sessions with representatives of the NRC Staff and Combustion Engineering, Inc. for the purpose of discussing privileged information relating to the matters under review, if necessary.

I have determined, in accordance with section 10(d) of Public Law 92-463, that the above-noted executive sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that closed sessions may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than February 21, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, Nuclear Regulatory Commission, Washington, D.C. 20555. Such comments shall be based upon documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 171 H Street, NW, Washington, D.C. 20555.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 10:30 a.m. and 11:30 a.m. on March 1, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on February 28, 1975 to the Advisory Committee on Reactor Safeguards (telephone 202-634-1371) between 8:30 a.m. and 5:15 p.m., Eastern Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW, Washington, D.C. 20555, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after March 3, 1975 at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE, Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the minutes of the meeting will be made available for inspection on or after March 3, 1975 at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555 after June 1, 1975. Copies may be obtained upon payment of appropriate charges.

JAMES R. LINDSAY,
Acting Assistant Advisory Committee Management Officer.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, SUBCOMMITTEE ON EMERGENCY CORE COOLING SYSTEMS (ECCS)

Meeting

JANUARY 30, 1975.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on ECCS will hold a meeting on February 22, 1975 in Room 1046, 1717 H Street, NW, Washington, D.C. The purpose of this meeting will be to discuss analytical models formulated to meet current ECCS criteria for fuel fabricated by EXXON Nuclear Company, Inc.

XUM
V40-24
FEB 4 75
XUM

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

SATURDAY, FEBRUARY 22, 1975, 9:00 A.M.–4:00 P.M.

Discussion with the NRC Staff on models formulated to meet ECCS criteria.

In connection with the above agenda item, the Subcommittee will hold executive sessions before and after the meeting to discuss its preliminary views and to exchange opinions and formulate recommendations to the ACRS. In addition, following the public portion of the meeting, the Subcommittee may hold a closed session with the NRC Staff to discuss privileged information relating to the ECCS models.

I have determined, in accordance with subsection 10(d) of Public Law 92–463, that the executive session at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussions of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held to discuss certain documents which are privileged and fall with exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and the free interchange of internal views and to avoid undue interference with Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than February 14, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Such comments shall be based upon documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:00 p.m. and 3:00 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on February 21, 1975 to M. W. Libarkin, (telephone 202–634–1371) between 8:30 a.m. and 5:15 p.m., Eastern Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW, Washington, D.C. 20555, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE, Washington, D.C. 20002, (telephone 202–547–6222) upon payment of appropriate charges.

(j) On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room 1717 H Street, NW, Washington, D.C. 20555 after May 24, 1975. Copies may be obtained upon payment of appropriate charges.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 29, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and the indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529), or from the reviewer listed.

[Rel. No. 8653]

LENOX FUND

Filing of Application Pursuant to Section 8(f) of the Act for an Order Declaring That Company Has Ceased To Be an Investment Company

JANUARY 28, 1975.

Notice is hereby given that The Lenox Fund (the "Applicant"), registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the "Act") filed an application pursuant to section 8(f) of the Act on May 8, 1974, for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

At a special meeting of Applicant's shareholders held on April 23, 1974, a majority of shares of Applicant's outstanding common stock voted in favor of a proposed merger agreement pursuant to which Applicant was to be merged into Bayrock Growth Fund, Inc. ("Growth Fund").

Under the agreement, each outstanding share of Applicant's common stock would be converted into a number of shares of Growth Fund's common stock to be determined on the basis of the relative net asset values of the two funds as of the close of business on the last business day preceding the effective date of the merger. The merger was consummated in accordance with the terms of the agreement on April 24, 1974, and the separate corporate existence of applicant, accordingly, ceased on that date.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given, that any interested person may, not later than February 24, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following February 24, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[70-5609]

NARRAGANSETT ELECTRIC CO.

Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

JANUARY 28, 1975.

Notice is hereby given that The Narragansett Electric Company ("Narragansett"), an electric utility subsidiary company of New England Electric System ("NEES"), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and rules 42 and 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Narragansett proposes to issue and sell $15,000,000 aggregate principal amount of its First Mortgage Bonds, Series L____ percent, to mature in not more than 30 years from March 1, 1975. Such bonds will be sold pursuant to the competitive bidding requirements of rule 50 and the interest rate (which shall be a multiple of ⅛ of 1 percent) and the price exclusive of accrued interest (which shall be not less than 100 percent nor more than 102.75 percent of the principal amount) will be determined by competitive bidding. The bonds will be issued under the First Mortgage Indenture and Deed of Trust dated as of September 1, 1944, between Narragansett and Rhode Island Hospital Trust National Bank, Trustee, as heretofore supplemented and amended and as to be further supplemented by an eleventh Supplemental Indenture to be dated as of March 1, 1975. Narragansett shall notify prospective bidders no later than the second full business day prior to the time designated for the submission of bids of (i) the maturity date of the bonds and (ii) whether or not the bonds shall be redeemable during the first five years of their term in connection with a refunding of the bonds at a lesser effective interest cost to Narragansett.

The proceeds from the sale of the bonds will be applied to the payment of $7,500,000, Series H Bonds, 8½ percent, maturing April 1, 1975 and to the payment of outstanding short term notes payable which were issued to pay for capitalizable expenditures or to reimburse the treasury therefor.

The application states that the Department of Business Regulation of Rhode Island has jurisdiction over the issue and sale of the bonds, and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction. The fees and expenses to be paid by Narragansett are estimated at $85,000, including service fees, at cost, of New England Power Service Company, a wholly-owned subsidiary company of NEES, of $30,000. The fees of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment.

Notice is further given that any interested person may, not later than February 28, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF LABOR

Labor-Management Services Administration

EMPLOYEE BENEFIT PLANS

Interim Exemption From Prohibitions on Securities Transactions With Certain Broker-Dealers, Reporting Dealers and Banks

This is notice that the Department of Labor and the Internal Revenue Service have granted the following exemption under the authority of section 408(a) of the Employee Retirement Income Security Act of 1974 and section 4975(c)(2) of the Internal Revenue Code of 1954, respectively. The exemption applies to certain securities transactions between employee benefit plans subject to Title I and Title II of the Act and certain broker-dealers, reporting dealers and banks by exempting such transactions from the restrictions of section 406 of the Act and section 4975 of the Code.

Notices of an exemption proceeding were published on January 13, 1975, in the FEDERAL REGISTER (40 FR 2483 and 2455, respectively) and a public hearing was held on January 21, 1975, regarding a proposed exemption. The comments received in response to these notices and the oral testimony received at the public hearing constitute the record on which the determinations and findings contained herein are based.

In response to the notices of exemption proceeding, comments were submitted for the record by the Securities Industry Association, the National Association of Securities Dealers, The American Bankers Association, certain broker-dealers and other interested persons. Interested persons, including the Securities and Exchange Commission, stated that there are uncertainties in the securities industry over the application of the prohibited transaction provisions. The Commission expressed great concern about the severe disruption and dislocation in the capital markets and the probable concomitant negative impact on employee benefit plans and their beneficiaries which may occur from the immediate application of the prohibited transaction provisions without a temporary relief period in which to resolve the uncertainties and other problems created by their application.

More specifically, the written comments and testimony stated that there is great uncertainty in the securities industry over the nature and extent to which ordinary and customary transactions between broker-dealers and employee benefit plans are subject to the prohibited transaction provisions of section 406 of the Act and section 4975 of the Code, or are covered by the transitional rule provided in sections 414(c)(4) and 2003(c)(2)(D) of the Act, and the extent to which broker-dealers fall within the definitions of fiduciary contained in section 3(21) of the Act and section 4975(e)(3) of the Code, of party in interest contained in section 3(14) of the Act, and of disqualified person contained in section 4975(e)(2) of the Code. Citing the recent effective date of January 1, 1975 of section 4975 of the Code and of Part 4, Title I of the Act, the complexity of the provisions of such section and such part, and the risks of civil liability, the comments and testimony contained suggestions and requests that a temporary exemption be granted.

The record established the following:

The securities industry is singularly important in facilitating the raising of capital and is singularly important in maintaining market liquidity, particularly for institutional investors. Further, the field of securities trading is unique, complex, and closely regulated.

Those who invest plan assets and the broker-dealers, reporting dealers and banks who deal with them have traditionally been guided by the "best execution" principle, namely, securing the best price for the plan in executing the purchase or sale of securities without regard to whether the broker-dealer or bank functions in an agency (broker) relationship or in a principal (dealer) relationship to the plan.

Major segments of the securities markets (the so-called "over-the-counter market" and "third market") are dealer markets, as is the underwriting of corporate securities, and the bulk of trading in corporate bonds and government securities is in dealer markets.

In the securities markets as presently constituted, to obtain the best execution, plans often must sell to or purchase from securities dealers. Further, most plans, as a result of their normal selling and purchasing activities, have varied and ongoing relationships incidental to their securities transactions (including but not limited to, receipt of brokerage services, investment research services, securities custodial services, and securities portfolio evaluation services) with the securities firms with which they deal. It would be difficult for most plans immediately to change such relationships. If no exemption were granted for a temporary period, there is a substantial probability that those responsible for plan assets would be suddenly and substantially prevented from engaging in securities transactions with those broker-dealers and banks which provide the markets for the securities and are most capable of handling such transactions, that the potential resulting disruption of the market for securities transactions for plans would not only increase costs to plans, but would also substantially impede, if not prevent, the execution of securities transactions which proper plan management may dictate, and that this would, in turn, result in serious

XUM V40-24 FEB 4 75 XUM

harm to the plans, their participants and beneficiaries.

The Department of Labor and the Internal Revenue Service have determined to grant the temporary exemption contained herein to prevent the harm to employee benefit plans and to the interests in plans of participants and beneficiaries which, in all likelihood, would result from the immediate and full application of all of the prohibited transactions provisions. Such temporary exemption is protective of the rights of plan participants and beneficiaries because it contains significant safeguards, is of short duration, and covers a class of transactions and a class of persons which are subject to close regulation.

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code, in view of the foregoing, and based upon the entire record, including the written comments submitted in response to the notice and the testimony at the public hearing, the Department of Labor and the Internal Revenue Service make the following findings and determinations:

(1) The exemption is administratively feasible,

(2) It is in the interests of the plan and of its participants and beneficiaries, and

(3) It is protective of the rights of participants and beneficiaries of the plan.

Accordingly, the following interim exemption is granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code.

The restrictions of section 406 of the Act and section 4975 of the Code shall not apply to the following transactions:

(a) *Period from January 1, 1975 to February 15 1975.* With respect to a broker-dealer registered under the Securities Exchange Act of 1934, a reporting dealer who makes primary markets in Government securities and reports daily to the Federal Reserve Bank of New York its positions with respect to Government securities and borrowings thereof, or a bank supervised by the United States or a State, any purchase or sale of a security between an employee benefit plan and such a broker-dealer, reporting dealer, or bank, which purchase or sale has a final settlement date before February 15, 1975, if:

(1) Such broker-dealer, reporting dealer, or bank ordinarily and customarily engaged in similar transactions on December 31, 1974;

(2) Such transaction is at least as favorable to the plan as an arm's-length transaction with an unrelated party would be;

(3) The transaction was not, at the time of such transaction, a prohibited transaction (within the meaning of section 503(b) of the Internal Revenue Code of 1954 or the corresponding provisions of prior law); and

(4) In the case of such a bank or reporting dealer, such purchases or sales are purchases or sales of securities of the United States Government or of an agency of the United States Government (hereinafter referred to as "Government securities").

(b) *Period ending April 30, 1975.* With respect to a broker-dealer, reporting dealer, or bank, within the meaning of paragraph (a) of this document, any purchase or sale of a security between an employee benefit plan and such a broker-dealer, reporting dealer, or bank, which has a final settlement date after February 14, 1975, but before May 1, 1975, if the requirements of paragraph (a) (1), (2), (3), and (4) of this document are met and if such broker-dealer, reporting dealer, or bank does not render investment advice to the plan and does not have any discretionary authority or discretionary control respecting management of the plan or disposition of the assets of the plan. For purposes of this paragraph, such a broker-dealer, reporting dealer, or bank shall not be deemed to be rendering investment advice or having any such discretionary authority or discretionary control solely because it does one or more of the following:

(1) It renders advice to a plan (i) which is solely incidental to the conduct of its business as a broker or dealer, limited, however, in the case of a bank, to the conduct of that part of its business consisting of dealing in Government securities, and (ii) it receives no special compensation therefor (within the meaning of section 202(a)(11)(C) of the Investment Advisers Act of 1940 (15 U.S.C. 80b-2(a)(11)(C)));

(2) It provides services which enable a plan to evaluate its portfolio performance;

(3) It provides securities custodial services for a plan;

(4) It executes purchases or sales of securities on behalf of a plan in the ordinary course of its business as a broker, dealer, or bank, pursuant to instructions of an unrelated fiduciary if such instructions specify the security to be purchased or sold, a price range within which such security is to be purchased or sold, a time span during which such security may be purchased or sold (not to exceed five business days), and the minimum or maximum quantity of such security which may be purchased or sold within such price range.

(c) *Affiliates.* For purposes of paragraphs (a) and (b) of this document, an affiliate of any broker-dealer, reporting dealer, or bank shall be treated as the same entity as such broker-dealer, reporting dealer, or bank. For this purpose a corporation or partnership is an affiliate of an incorporated or unincorporated broker-dealer, reporting dealer, or bank if it is a member of a controlled group which includes such broker-dealer, reporting dealer, or bank; and a controlled group shall be defined in the same manner as the term "controlled group of corporations" is defined in section 1563(a) of the Internal Revenue Code of 1954, except that "50 percent" shall be substituted for "80 percent" wherever the latter percentage appears in such section, and except that in the case of a partnership, the term "corporation" shall be read as including a partnership, and the term "stock" shall be read as including the profits interest of a partnership.

PAUL J. FASSER, JR.,
Assistant Secretary of Labor for Labor-Management Relations.

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

JANUARY 30, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 14, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC-2304 (Sub-No. E1), filed June 4, 1974. Applicant: THE KAPLAN TRUCKING COMPANY, 2900 Chester Ave., Cleveland, Ohio 44114. Applicant's representative: John P. McMahon, 100 East Broad St., Suite 1800, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel* and *iron and steel products*, requiring specialized handling and *equipment;* between Wilmington, Del., and points in New Jersey, on the one hand, and, on the other, points in that part of Kentucky within 10 miles of the confluence of the Ohio and Licking Rivers at or near Covington, Ky. (Philadelphia, Pennsylvania, and Norwood, Ohio)*; (2) *Iron and steel and iron and steel products;* between points in Monmouth, Morris, Essex, Passaic, Union, Somerset, Middlesex, Hudson, and Bergen Counties, N.J., points in New York, Pennsylvania, West Virginia, that part of Michigan on and south of Michigan Highway 21, that part of Indiana on and north of U.S. Highway 30, and that part of Illinois on and north of Interstate Highway 80, on the one hand, and, on the other, points in Kentucky within 10 miles of the confluence of the Ohio and Licking Rivers at or near Covington, Ky. (Norwood, Ohio; New York, N.Y., Lima, Ohio, and points within 20 miles thereof, and all points in Pennsylvania on and west of U.S. Highway 219)*; (3) *Iron and steel* and *iron and steel articles;* between points in New York, Pennsylvania, and those in Monmouth, Morris, Essex, Passaic, Union, Somerset, Middlesex, Hudson, and Bergen Counties, N.J., on the one hand, and, on the other, points in that part of Michigan on south and west of a line beginning at the Ohio-Michigan State line and extending along U.S. Highway 127 to its junction with U.S. Highway 27, thence along U.S. Highway 27 to its junction with Michigan Highway 21, thence along Michigan Highway 21 to Lake Michigan, and points in that part of Indiana and Illinois on and north of Interstate Highway 70 (points in Ohio)*;

(4) *Iron and steel* and *iron and steel products* (except in bulk or requiring the use of special equipment); between points in that part of West Virginia on and north of a line beginning at the Kentucky-West Virginia State line and extending along Interstate Highway 64 to its junction with Interstate Highway 77, thence along Interstate Highway 77 to the West Virginia-Virginia State line on the one hand, and, on the other, points in that part of Indiana on and north of a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 36 to its junction with Indiana Highway 3, thence along Indiana Highway 3 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to the Indiana-Illinois State line, and points in that part of Illinois on and north of Interstate Highway 70 (points in Ohio)*; (5) *Iron and steel* and *iron steel products* (except in bulk or requiring the use of special equipment); between points in that part of Ohio on, east and north of a line beginning at Lake Erie and extending along U.S. Highway 42 to its junction with Ohio Highway 13, thence along Ohio Highway 13 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction U.S. Highway 22, thence along U.S. Highway 22 to the Ohio-West Virginia State line, on the one hand, and, on the other, points in Indiana (Lima, Ohio, and points within 20 miles thereof)*;

(6) *Iron and steel* and *iron and steel products* (except in bulk or requiring the use of special equipment); between points in that part of Ohio on and east of a line beginning at the Michigan-Ohio State line and extending along U.S. Highway 24 to its junction with Ohio Highway 66, thence along Ohio Highway 66 to its junction with U.S. Highway 224, thence along U.S. Highway 224 to its junction with U.S. Highway 127, thence along U.S. Highway 127 to the Ohio-Kentucky State line, on the one hand, and, on the other, points in that part of Indiana on, west, and north of a line beginning at the Indiana-Illinois State line and extending along Interstate Highway 65 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to the Indiana-Illinois State line (Lima, Ohio, and points within 20 miles thereof)*; (7) *Iron and steel* and *iron and steel products* (except in bulk or requiring the use of special equipment); between points in that part of Ohio on and east of a line beginning at Lake Erie and extending U.S. Highway 42 to its junction U.S. Highway 30, thence along U.S. Highway 30 to its junction with U.S. Highway 30S, thence along U.S. Highway 30S to its junction with U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Kentucky State line, on the one hand, and, on the other, points in that part of Indiana on and north of Indiana Highway 28 (Lima, Ohio, and points within 20 miles thereof)*;

(8) *Iron and steel* and *iron and steel products* (except in bulk or requiring the use of special equipment), between points in that part of Ohio on, west and north of a line beginning at Lake Erie and extending along Ohio Highway 4 to its junction with U.S. Highway 30S, thence along U.S. Highway 30S to its junction U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Indiana State line, on the one hand, and, on the other, points in that part of Indiana on and south of a line beginning at the Ohio-Indiana State line and extending along Interstate Highway 70 to its junction with Interstate Highway 74, thence along Interstate Highway 74 to the Indiana-Illinois State line (Lima, Ohio, and points within 20 miles thereof)*; (9) *Iron and steel* and *iron and steel products* (except in bulk or requiring the use of special equipment); between points in West Virginia and that part of Ohio on and south of a line beginning at the West Virginia-Ohio State line and extending along U.S. Highway 30 to its junction with U.S. Highway 30N, thence along U.S. Highway 30N to its junction with U.S. Highway 30, thence along U.S. Highway 30 to the Indiana-Ohio State line, on the one hand, and, on the other, points in that part of Michigan on and south of Michigan Highway 21 (Lima, Ohio, and points within 20 miles thereof)*; (10) *Iron and steel* and *iron and steel articles* (except in bulk or requiring the use of special equipment), between points in Monmouth, Morris, Essex, Passaic, Union, Somerset, Middlesex, Hudson, and Bergen Counties, N.J., and points in New York, on the one hand, and, on the other, points in Indiana and Illinois (points in Ohio)*;

(11) *Iron and steel* and *iron and steel articles* (except in bulk or requiring the use of special equipment); between points in Monmouth, Morris, Essex, Passaic, Union, Somerset, Middlesex, Hudson, and Bergen Counties, N.J., and points in that part of New York on and east of U.S. Highway 15, and points in Pennsylvania on and east of U.S. Highway 15, on the one hand, and, on the other, points in that part of Michigan on and south of Michigan Highway 21 (points in Ohio)*; (12) *Iron and steel* and *iron and steel articles* (except in bulk or requiring the use of special equipment); between points in that part of Pennsylvania on, south, and east of a line beginning at the West Virginia-Pennsylvania State line and extending along Interstate Highway 79 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in that part of Michigan on and south of Michigan Highway 21 (points in Ohio)*; (13) *Iron and steel* and *iron and steel products*, which because of size or weight or bulk require the use of flat-bottom equipment or equipment having sides no higher than 36 inches, in shipments weighing not less than 10,000 pounds each from one consignor; from points in that part of Ohio on, north, and east of a line beginning at the Pennsylvania-Ohio State line and extending along Interstate Highway 76 to its junction with Interstate Highway 71, thence along Interstate Highway 71 to Lake Erie, points in that part of Pennsylvania on and north of Interstate Highway 80, points in New York and points in Monmouth, Morris, Essex, Passaic, Union, Somerset, Middlesex, Hudson, and Bergen Counties, N.J., to Connersville and Evansville, Indiana, and points in the Chicago-Illinois Commercial Zone (Cuyahoga County, Ohio)*;

(14) *Iron and steel* and *iron and steel products*, requiring specialized handling and equipment; between Baltimore, Md., on the one hand, and, on the other, points in that part of Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line and extending along Interstate Highway 81 to its junction with Pennsylvania Turnpike N.E. Extension, thence along the Pennsylvania Turnpike N.E. Extension to Philadelphia and points in that part of New York on and east of a line beginning at the New York-Pennsylvania State line and extending along Interstate Highway 81 to its junction with New York Highway 57, thence along New York Highway 57 to Lake Ontario (Philadelphia, Pa.)*; (15) *Iron and steel and iron and steel products*, requiring specialized handling and equipment; between Wilmington, Del., on the one hand, and, on the other, point in that part of Pennsylvania on, north, and west of a line beginning at the Maryland-Pennsylvania State line and extending along Interstate Highway 83 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to the Pennsylvania-New Jersey State line, points in New York, and points in that part of West Virginia on and north of Interstate Highway 70, and points in Ohio (Philadelphia, Pa.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 16682 (Sub-No. E11), filed June 20, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Ave., Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture*, from points in Rhode Island to New York, N.Y. (Hoboken, N.J.)*; (2) *New furniture*, from Syracuse, Fayetteville, and Oneida, N.Y., to points in Delaware (Philadelphia, Pa.)*; (3) *New furniture*, between New York, N.Y., on the one hand, and, on the other, points in Virginia and West Virginia (Hoboken, N.J.)*; and (4) *New furniture*, from Avenel, N.J., to points in Maryland, Ohio, Pennsylvania, Virginia, and West Virginia (Hoboken, N.J.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 16682 (Sub-No. E14), filed May 13, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Ave., Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New commercial and institutional furniture, fixtures and equipment*, uncrated, (1) between Chicago, Ill., on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia; and (2) between Chicago, Ill., on the one hand, and, on the other, points in Arizona, Arkansas, California, Colorado, Idaho, Kansas, Missouri (except St. Louis, Mo.), Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateway of points in Illinois (except Chicago), and Indiana.

No. MC 30280 (Sub-No. E70), filed January 19, 1975. Applicant: WATKINS CAROLINA EXPRESS, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), from Baltimore, Md., to points in that part of North Carolina on and east of a line beginning at the Tennessee-North Carolina State line, thence along U.S. Highway 25 to the South Carolina-North Carolina State line, thence along the North Carolina-South Carolina State line to junction U.S. Highway 421, thence along U.S. Highway 421 to junction U.S. Highway 401, thence along U.S. Highway 401 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction North Carolina Highway 86, thence along North Carolina Highway 86 to the North Carolina-Virginia State line, thence along the North Carolina-Virginia State line to the North Carolina-Tennessee State line, thence along the North Carolina-Tennessee State line to its junction with U.S. Highway 25. The purpose of this filing is to eliminate the gateways of (1) Danville, Va., or any point within 5 miles thereof; and (2) Reidsville, N.C.

No. MC 30845 (Sub-No. E1), filed May 15, 1974. Applicant: ELLIS MOVING & STORAGE, P.O. Box 1295, Nashville, Tenn. 37202. Applicant's representative: Stanley I. Goldman, 1700 K Street NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission; (1) between points in Alabama, on the one hand, and, on the other, points in New York, New Jersey, Kentucky, Ohio, Indiana, and Illinois (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (2) between points in Alabama, on the one hand, and, on the other, points in Massachusetts and Rhode Island (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (3) between points in Florida, on the one hand, and, on the other, points in Indiana and Illinois (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (4) between points in Georgia, on the one hand, and, on the other, points in Indiana, Illinois, Oklahoma, Arkansas, and Missouri (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (5) between points in Alabama and Mississippi, on the one hand, and, on the other, points in Maine, New Hampshire, and Vermont (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va., and points in Pennsylavnia, Ohio, West Virginia, and Maryland within 125 miles of said Counties)*; (6) between points in Mississippi, on the one hand, and, on the other, points in Massachusetts, Connecticut, Pennsylvania, Delaware, Maryland, Rhode Island, and the District of Columbia (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (7) between points in Mississippi, on the one hand, and, on the other, points in New York, New Jersey, West Virginia, Virginia, North Carolina, and Ohio (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (8) between points in Tennessee, on the one hand, and, on the other, points in Massachusetts, Connecticut, and Rhode Island

(Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*

(9) Between Nashville, Tenn., and Points in Tennessee within 250 miles of Nashville and points in Kentucky within 65 miles of Nashville, Tenn., on the one hand, and, on the other, points in Maine, New Hampshire, and Vermont (Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va., and points in Pennsylvania, Ohio, West Virginia, and Maryland within 125 miles of said Counties)*; (10) between points in Kentucky within 65 miles of Nashville, Tenn., on the one hand, and, on the other, points in Massachusetts, Connecticut, Pennsylvania, Delaware, Maryland, Rhode Island, and the District of Columbia (Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (11) between points in Esca, Santa Rosa, Okaloosa, Walton, Holmes, Washington, and Bay Counties, Fla., on the one hand, and, on the other, points in Maine, New Hampshire, and Vermont (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va., and points in Pennsylvania, Ohio, West Virginia, and Maryland within 125 miles of said Counties)*; (12) between points in Esca, Santa Rosa, Okaloosa, Walton, Holmes, Washington, and Bay Counties, Fla., on the one hand, and on the other, points in Connecticut, Massachusetts, and Rhode Island (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (13) between Esca, Santa Rosa, Okaloosa, Walton, Holmes, Washington, and Bay Counties, Fla., on the one hand, and, on the other, points in New York, New Jersey, West Virginia, and points in that part of Virginia on and west of Interstate Highway 81 (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (14) between points in Florida (except the counties of Esca, Santa Rosa, Okaloosa, Walton, Holmes, Washington, and Bay), on the one hand, and, on the other, Oklahoma (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (15) between points in Florida, on the one hand, and, on the other, Huntsville, Ala. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (16) between Miami, Fla., on the one hand, and, on the other, Birmingham, Ala., Jackson, Miss., and Shreveport, La. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (17) between Miami, Fla., on the one hand, and, on the other, Caribou, Me. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va., and points in Pennsylvania, Ohio, West Virginia, and Maryland within 125 miles of said Counties)*;

(18) Between Tampa, Fla., on the one hand, and, on the other, Caribou, Me. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va., and points in Pennsylvania, Ohio, West Virginia, and Maryland within 125 miles of said Counties)*; (19) between Miami and Tampa, Fla., on the one hand, and, on the other, Dayton and Cleveland, Ohio (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (20) between Miami and Tampa, Fla., on the one hand, and, on the other, Erie, Pa. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (21) between Miami, Fla., on the one hand, and, on the other, Pittsburgh, Pa. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (22) between Pensacola, Fla., on the one hand, and, on the other, Norfolk, Va.; Oklahoma City, Okla.; Dayton, Ohio, and Cleveland, Ohio (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (23) between Pensacola, Fla., on the one hand, and, on the other, Baltimore, Md.; Dover, Del.; Erie, Pa., and Pittsburgh, Pa. (Lawrence, Wayne, Hardin, and Giles, Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (24) between points in Florida, on the one hand, and, on the other, points in that part of Kentucky on and west of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 127 to its junction with U.S. Highway 68, thence along U.S. Highway 68 to its junction with U.S. Highway 25, thence along U.S. Highway 25 to the Kentucky-Ohio State line (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (25) between Atlanta, Ga., on the one hand, and, on the other, Shreveport and Lake Charles, La.; Jackson, Tupelo, and Clarksdale, Miss.; Wheeling, W. Va.; and Huntsville, Ala. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (26) between Savannah, Ga., on the one hand, and, on the other, Shreveport, La., Jackson and Tupelo, Miss.; and Huntsville, Ala. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*;

(27) Between points in Georgia, on the one hand, and, on the other, points in that part of Arkansas on and north of a line beginning at the Tennessee-Arkansas State line and extending along Interstate Highway 40 to its junction with Interstate Highway 30, thence along Interstate Highway 30 to the Texas-Arkansas State line, and points in that part of Kentucky on and west of U.S. Highway 65 (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (28) between Valdosta, Ga., on the one hand, and, on the other, Buffalo, N.Y., and Dayton and Cleveland, Ohio (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (29) between Valdosta, Ga., on the one hand, and, on the other, Milwaukee and Ashland, Wisc., and Caribou, Me. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (30) between Valdosta, Ga., on the one hand, and, on the other, Erie, Pa. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (31) between points in Alabama, on the one hand, and, on the other, points in that part of West Virginia on and north of U.S. Highway 60 (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (32) between points in Alabama (except points in Fort Payne, Cherokee, Cleburne, Randolph, Chambers, Lee, Russell, Barbour, Henry, and Houston Counties), on the one hand, and, on the other, points in Connecticut (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (33) between points in Alabama (except points in Jackson, De Kalb, Cherokee, Etowah, Calhoun, Cleburne, Talladega, Clay, Randolph, Coosa, Tallapoosa, Chambers, Autauga, Elmore, Lee, Macon, Lowndes, Montgomery, Bullock, Russell, Butler, Crenshaw, Pike, Barbour, Conecuh, Escambia, Covington, Coffee, Dale, Henry, Geneva, and Houston Counties), on the one hand, and, on the other, points in Pennsylvania; Wilmington, Dela., and Baltimore, Md. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*; (34) between points in Lauderdale, Limestone, Madison, Jackson, Colbert, Franklin, Marion, Winston, Lawrence, Morgan, Cullman, and Marshall Counties, Ala., on the one hand, and, on the other, points in Delaware and points in that part of the eastern shore of Virginia and Maryland on and south of U.S. Highway 40 (Lawrence, Wayne, Hardin, and Giles Counties, Tenn., and Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va.)*;

(35) Between points in Alabama, on the one hand, and, on the other, points in Missouri (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (36) between points in Alabama (except points in Cherokee, Etowah, Calhoun, Cleburne, Talladega, Clay, Randolph, Chilton, Coosa, Tallapoosa, Chambers, Autauga, Elmore, Lee, Macon, Montgomery, Russell, Lowndes, Bullock, Barbour, Butler, Crenshaw, Pike, Conecuh, Coffee, Henry, Covington, Dale, Escambia, Geneva, and Houston Counties), on the one hand, and, on the other, Norfolk, Va. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (37) between Jackson, Miss., on the one hand, and, on the other, Greenville and Charleston, S. Caro.; Chicago and Peoria, Ill.; Huntsville, Ala.; Evansville and South Bend, Ind. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (38) between Tupelo, Miss., on the one hand, and, on the other, Greenville and Charleston, S. Caro.; Chicago and Peoria, Ill.; Huntsville, Ala.; St. Louis, Mo.; South Bend, Ind., and Jacksonville, Fla. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (39) between Gulfport, Miss., on the one hand, and, on the other, Chicago and Peoria, Ill.; Milwaukee and Ashland, Wisc.; Huntsville, Ala.; St. Louis and Springfield, Mo.; South Bend and Evansville, Ind. (Lawrence, Wayne, Hardin, and Giles Counties, Tenn.)*; (40) between Clarksdale, Miss., on the one hand, and, on the other, Jacksonville, Fla., and Dothan, Ala. (Lawrence,

Wayne, Hardin, and Giles Counties, Tenn.) *; (41) between Knoxville and Kingsport, Tenn., on the one hand, and, on the other, Milwaukee and Ashland, Wisc.; Omaha, Nebr.; Denver, Colo., and Des Moines, Iowa (Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va., and points in Pennsylvania, Ohio, West Virginia, and Maryland within 125 miles of said Counties) *; (42) between Kingsport, Tenn., on the one hand, and, on the other, El Paso, Amarillo, and Lubbock, Tex. (Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va., and points in Pennsylvania, Ohio, West Virginia, and Maryland within 125 miles of said Counties) *; and (43) between Chattanooga, Tenn., on the one hand, and, on the other, Milwaukee and Ashland, Wisc., and Denver, Colo. (Belmont County, Ohio, and Marshall, Brooke, and Ohio Counties, W. Va., and points in Pennsylvania, Ohio, West Virginia, and Maryland within 125 miles of said Counties) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 31462 (Sub-No. E9), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Alabama on and east of a line beginning at the Alabama-Florida State line, thence along Alabama Highway 55 to Andalusia, Ala., thence along U.S. Highway 29 to junction U.S. Highway 331; thence along U.S. Highway 331 to junction Alabama County Highway 4, thence along Alabama County Highway 4 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Alabama Highway 145, thence along Alabama Highway 145 to junction Alabama County Highway 47, thence along Alabama County Highway 47 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction Alabama County Highway 27, thence along Alabama County Highway 27 to Leeds, Ala., thence along Alabama Highway 25 to junction U.S. Highway 231, thence along U.S. Highway 231 to Huntsville, Ala., thence along Alabama Highway 53 to junction Alabama County Highway 11, thence along Alabama County Highway 11 to the Alabama-Tennessee State line, on the one hand, and, on the other, points in that part of Missouri on and north of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 60 to junction Missouri Highway 174, thence along Missouri Highway 174 to junction Interstate highway 44, thence along Interstate Highway 44 to the Missouri-Oklahoma State line. The purpose of this filing is to eliminate the gateway of (1) any point in Missouri within 25 miles of Cairo, Ill.; (2) any point in Tennessee; and (3) any point in Georgia.

No. MC 31462 (Sub-No. E19), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Alabama, on the one hand, and, on the other, points in Virginia. The purpose of this filing is to eliminate the gateway of any point in Georgia.

No. MC 31462 (Sub-No. E215), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Kentucky, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateway of any point in Missouri within 25 miles of Cairo, Ill.

No. MC 31462 (Sub-No. E216), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Kentucky on and south of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 60 to the Kentucky-West Virginia State line, on the one hand, and, on the other, points in that part of Montana on and east of a line beginning at the International Boundary line between the United States and Canada, thence along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, Mont., thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point within 25 miles thereof; (2) Williston, N. Dak., or any point within 200 miles thereof; and (3) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E284), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Michigan, on the one hand, and, on other, points in that part of Missouri on and north of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 66 to the Missouri-Oklahoma State line. The purpose of this filing is to eliminate the gateway of any point in Missouri within 50 miles of Burlington, Iowa.

No. MC 31462 (Sub-No. E285), filed May 13, 1974: Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Mississippi, on the one hand, and, on the other, points in the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point within 50 miles thereof; and (2) Cairo, Ill., or any point within 25 miles thereof.

No. MC 31462 (Sub-No. E286), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Oklahoma, on the one hand, and, on the other, points in Michigan. The purpose of this filing is to eliminate the gateway of any point in Missouri within 50 miles of Burlington, Iowa.

No. MC 31462 (Sub-No. E303), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the Lower Peninsula of Michigan to points in Mississippi. The purpose of this filing is to eliminate the gateways of (1) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof, and (2) Cairo, Ill., or any point within 25 miles thereof.

No. MC 31462 (Sub-No. E304), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Mississippi, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, or any point within 50 miles thereof; and (2) any point in Missouri within 25 miles of Cairo, Ill.

No. MC 31462 (Sub-No. E305), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority

sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Mississippi, to points in New York. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point within 25 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E307), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Mississippi, to points in Vermont. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point within 25 miles thereof; (2) Fort Wayne, Indiana, or any point in Indiana within 40 miles thereof; and (3) Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E308), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Mississippi, to points in Indiana. The purpose of this filing is to eliminate the gateway of Cairo, Ill.

No. MC 31462 (Sub-No. E309), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Mississippi, on the one hand, and, on the other, points in North Dakota. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point within 25 miles thereof; (2) Burlington, Iowa, or any point within 50 miles thereof; and (3) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E310), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the International Boundary line between the United States and Canada, thence along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, Mont., thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Idaho-Montana State line, on the one hand, and, on the other, points in Mississippi. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point in Illinois within 25 miles thereof; (2) Williston, N. Dak., or any point in North Dakota within 200 miles thereof; and (3) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E311), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Missouri on and north of a line beginning at the Mississippi River, thence along U.S. Highway 60 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction Missouri Highway 21, thence along Missouri Highway 21 to junction Missouri Highway 8, thence along Missouri Highway 8 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Kansas-Missouri State line, on the one hand, and, on the other, points in Mississippi. The purpose of this filing is to eliminate the gateway of any point in Missouri within 25 miles of Cairo, Ill.

No. MC 31462 (Sub-No. E312), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of South Dakota on and north of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 16 to junction South Dakota Highway 45, thence along South Dakota Highway 45 to junction South Dakota Highway 44, thence along South Dakota Highway 44 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 183, thence along U.S. Highway 183 to the South Dakota-Nebraska State line, on the one hand, and, on the other, points in Mississippi. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point within 25 miles thereof; and (2) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E313), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Mississippi, on the one hand, and, on the other, points in Nebraska. The purpose of this filing is to eliminate the gateway of Cairo, Ill., or any point within 25 miles thereof.

No. MC 31462 (Sub-No. E314), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in that part of Mississippi on and north of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 84 to the Mississippi-Louisiana State line, to points in New Jersey. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point within 25 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E315), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Mississippi, to points in that part of Ohio on and north of a line beginning at the Indiana-Ohio State line, thence along Ohio Highway 29 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 22, thence along U.S. Highway 22 to the Ohio-West Virginia State line. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point in Illinois within 25 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E316), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster,

Tex. 75146. Applicant's representative: R. L. Rork (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Mississippi, to points in that part of Pennsylvania on and north of a line beginning at the Pennsylvania-West Virginia State line, thence along U.S. Highway 22 to junction Pennsylvania Highway 286, thence along Pennsylvania Highway 286 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Pennsylvania Highway 93, thence along Pennsylvania Highway 93 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Pennsylvania-New Jersey State line. The purpose of this filing is to eliminate the gateways of (1) Cairo, Ill., or any point in Illinois within 25 miles thereof; and (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 33317 (Sub-No. E1), filed June 3, 1974. Applicant: BISON FREIGHTWAYS, INC., 700 N. Keyser Ave., Scranton, Pa. 18508. Applicant's representative: Kenneth R. Davis, 999 Union St., Taylor, Pa. 18517. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, with the usual exceptions, between points in Susquehanna and Wayne Counties, Pa. (except those points on and south of Pennsylvania Highway 371), points in Broome, Chenango, and Delaware Counties, N.Y., those points in Ostege County, N.Y., which are within 50 miles of Hancock, N.Y., on the one hand, and, on the other, New York, N.Y., and those points in Union, Passaic, Essex, Hudson, and Bergen Counties, N.J. The purpose of this filing is to eliminate the gateway of Hancock, N.Y.

No. MC 40978 (Sub-No. E1), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS CO., P.O. Box 686, Sheboygan, Wis. 53081. Applicant's representative: R. E. Becker (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture, dental equipment, and stone fixtures*, from Chicago, Ill., and points in Illinois within 100 miles of Chicago, Ill., to points in the Upper Peninsula of Michigan (Sheboygan Falls, Wis.)*; and (2) *New furniture, dental equipment, and stone fixtures*, from Chicago, Ill., and points in Illinois within 100 miles of Chicago, Ill., to points in Minnesota (points in and on that part of Wisconsin bounded by a line beginning at the Minnesota-Wisconsin State line, and extending in a northerly direction along an unnumbered highway to Nelson, Wis., thence along Wisconsin Highway 25 to Durand, Wis., thence along Wisconsin Highway 85 to Eau Claire, Wis., thence along U.S. Highway 53 to junction U.S. Highway, thence along U.S. Highway 8 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Michigan State line, thence along the Wisconsin-Michigan State line to junction Wisconsin Highway 139, thence along Wisconsin Highway 139 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Michigan State line, thence along the Wisconsin-Michigan State line to junction Wisconsin Highway 139, thence along Wisconsin Highway 139 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 32, thence along Wisconsin Highway 32 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to Marinette, Wis., thence along Lake Michigan to the Wisconsin-Illinois State line, thence along the Wisconsin-Illinois State line to the Wisconsin-Iowa State line, thence along the Wisconsin-Iowa State line to the point of beginning)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 40978 (Sub-No. E2), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS COMPANY, P.O. Box 686, Sheboygan, Wis. 53081. Applicant's representative: R. E. Becker (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture and furniture parts*, from Munster, Ind., to points in Minnesota on and the Upper Peninsula of Michigan; (2) *New furniture and furniture parts*, from Munster, Ind., to points in Wisconsin (except those points on and bounded by a line beginning at the Illinois-Wisconsin State line and extending in a northerly direction along U.S. Highway 51 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Lake Michigan). The purpose of this filing is to eliminate the gateway of those points in that part of Wisconsin bounded by a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 51, thence in a northerly direction along U.S. Highway 51 to junction U.S. Highway 14 in Wisconsin, thence along U.S. Highway 14 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Lake Michigan.

No. MC 40978 (Sub-No. E3), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS COMPANY, P.O. Box 686, Sheboygan, Wis. 53081. Applicant's representative: R. E. Becker (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New institutional, new household and new office fixtures and equipment*, uncrated, from those points in that part of the State of Wisconsin, bounded by a line beginning at Algoma, Wis., and extending in a westerly direction along Wisconsin Highway 54 to junction Wisconsin Highway 57, thence along Wisconsin Highway 57 to junction U.S. Highway 151, thence along U.S. Highway 151 to the Wisconsin-Michigan State line, thence along the Wisconsin-Michigan State line to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to Lake Michigan (except Two Rivers, Wis.), to points in Iowa; (2) *New furniture*, from points in that part of Wisconsin bounded by a line beginning at Marinette, Wis., and extending in a westerly direction along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to Lake Michigan (except Two Rivers, Wis), to points in Indiana, and (3) *New furniture*, from points in that part of Wisconsin, bounded by a line beginning at Algoma, Wis., and extending in a westerly direction along Wisconsin Highway 54 to junction Wisconsin Highway 57, thence along Wisconsin Highway 57 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction U.S. Highway 45, thence along U.S Highway 45 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to Lake Michigan (except Two Rivers, Wis), to points in Iowa. The purpose of this filing is to eliminate the gateway of Sheboygan Falls, Wis.

No. MC 40978 (Sub-No. E4), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS CO., P.O. Box 686, Sheboygan, Wis. 53081. Applicant's representative: R. E. Becker (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New institutional, new household and new office fixtures and equipment*, uncrated, from points in that part of Wisconsin, bounded by a line beginning at Port Washington, Wis., and extending in a westerly direction along Wisconsin Highway 64 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Wisconsin Highway 49, thence along Wisconsin Highway 49 to junction Wisconsin Highway 21, thence along Wisconsin Highway 21 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction U.S. Highway 45, thence northerly along U.S. Highway 45 to the Wisconsin-Michigan State line, to points in Ohio, Kentucky, and the Lower Peninsula of Michigan (Sheboygan Falls, Wis.)*; (2) *New furniture and furniture parts*, from Burlington, Iowa, and the facilities of the Brammer Manufacturing Company at Davenport, Iowa, to points in the Upper Peninsula of Michigan (Sheboygan Falls, Wis.)*; and (3) *New furniture and furniture parts*, from Burlington, Iowa, and the facilities of the Brammer Manufacturing Company at Davenport, Iowa, to points in Minnesota (Wisconsin)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 40978 (Sub-No. E5), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS CO., P.O. Box 686, Sheboygan, Wis. 53081. Applicant's representative: R. E. Becker (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture*, from Sturgis, Mich., to points in Minnesota (Wisconsin)*; (2) *New furniture*, from Sturgis, Mich., to points in the Upper Peninsula of Michigan (Wisconsin)*; and (3) *New furniture*, from Muscatine, Iowa, to points in Minnesota (Wisconsin)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 40978 (Sub-No. E6), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS CO., P.O. Box 686, Sheboygan, Wis. 53081. Applicant's representative: R. E. Becker (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from Muscatine, Iowa, to points in the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Sheboygan Falls, Wis.

No. MC 40978 (Sub-No. E7), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS CO., P.O. Box 686, Sheboygan, Wis. 53081. Applicant's representative: R. E. Becker (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture*, from points in that part of Wisconsin, bounded by a line beginning at Port Washington, Wis., and extending in a westerly direction along Wisconsin Highway 33 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Wisconsin Highway 49, thence along Wisconsin Highway 49 to junction Wisconsin Highway 21, thence along Wisconsin Highway 21 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Wisconsin-Michigan State line, to points in Ohio, Kentucky, and the Lower Peninsula of Michigan; (2) *New institutional, new household and new office fixtures and equipment*, uncrated, from points in that part of Wisconsin bounded by a line beginning at Marinette, Wis., and extending in a westerly direction along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to Lake Michigan (except Two Rivers, Wis.), to points in Indiana; and (3) *New furniture*, from points in that part of Wisconsin bounded by a line beginning at Marinette, Wis., and extending in a westerly direction along Wisconsin Highway 64 to junction U.S. Highway 141, thence along U.S. Highway 141 to junction Wisconsin Highway 22, thence along Wisconsin Highway 22 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 49, thence along Wisconsin Highway 49 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to Lake Michigan, to points in Missouri. The purpose of this filing is to eliminate the gateway of Sheboygan Falls, Wis.

No. MC 40978 (Sub-No. E8), filed May 16, 1974. Applicant: CHAIR CITY MOTOR EXPRESS CO., P.O. Box 686, Sheboygan, Wis. 53081. Applicant's representative: R. E. Becker (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New institutional, new household, and new office fixtures and equipment*, uncrated, from points in that part of Wisconsin bounded by a line beginning at Marinette, Wis., and extending in a westerly direction along Wisconsin Highway 64 to junction U.S. Highway 141, thence along U.S. Highway 141 to junction Wisconsin Highway 22, thence along Wisconsin Highway 22 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 49, thence along Wisconsin Highway 49 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Wisconsin Highway 67, thence along Wisconsin Highway 67 to junction Wisconsin Highway 26, thence along Wisconsin Highway 26 to junction U.S. Highway 51, thence along U.S. Highway 51 to Wisconsin-Illinois State line, to points in the Upper Peninsula of Michigan; and (3) *New furniture*, from points in that part of Wisconsin bounded by a line beginning at Cleveland, Wis., and extending in a westerly direction along Wisconsin Highway 149 to junction Wisconsin Highway 67, thence along Wisconsin Highway 67 to junction Wisconsin Highway 26, thence along Wisconsin Highway 26 to junction U.S. Highway 51 to the Wisconsin-Illinois State line, to points in the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Sheboygan Falls, Wis.

No. MC 104654 (Sub-No. E1), filed May 14, 1974. Applicant: COMMERCIAL TRANSPORT, INC., South 20th St., Belleville, Ill. 62222. Applicant's representative: Edward G. Villalon, 13th & Pennsylvania Ave. NW., Suite 1032, Pennsylvania Bldg., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from St. Elmo, Ill., to points in Ohio. The purpose of this filing is to eliminate the gateways of Speedway, Ind., and Jackson County, Ind.

No. MC 104654 (Sub-No. E2), filed May 14, 1974. Applicant: COMMERCIAL TRANSPORT, INC., South 20th St., Belleville, Ill. 62222. Applicant's representative: Edward G. Villalon, 13th & Pennsylvania Ave. NW., Suite 1032, Pennsylvania Bldg., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Lawrenceville, Ill., to points in that part of Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 45E to junction U.S. Highway 45, thence along U.S. Highway 45 to the Tennessee-Mississippi State line. The purpose of this filing is to eliminate the gateways of Hickman, Ky., and Caruthersville, Mo.

No. MC 104654 (Sub-No. E6), filed May 14, 1974. Applicant: COMMERCIAL TRANSPORT, INC., South 20th St., Belleville, Ill. 62222. Applicant's representative: Edward G. Villalon, Suite 1032 Pennsylvania Bldg., 13th & Pennsylvania Ave. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Lawrenceville, Ill., to points in that part of Arkansas on, north, and east of a line beginning at the Arkansas-Missouri State line extending along U.S. Highway 65 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 49, thence along U.S. Highway 49 to the Arkansas-Mississippi State line. The purpose of this filing is to eliminate the gateways of Hickman, Ky., and Caruthersville, Mo.

No. MC 104654 (Sub-No. E8), filed May 14, 1974. Applicant: COMMERCIAL TRANSPORT, INC., South 20th St., Belleville, Ill. 62222. Applicant's representative: Edward G. Villalon, Suite 1032 Pennsylvania Bldg., 13th & Pennsylvania

commodities restricted to traffic originating in the Province of Ontario. The purpose of this filing is to eliminate the gateways of Buffalo, N.Y., and Detroit, Mich.

No. MC 113666 (Sub-No. E5), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Material used in the production of refractory products* (except liquid commodities in bulk), with no transportation for compensation on return except as otherwise authorized, from points in Illinois, Kansas, Wisconsin, and that part of Indiana on and west of U.S. Highway 31 to the ports of entry on the United States-Canada International Boundary line in Maine, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of Armstrong County, Pa.

No. MC 113666 (Sub-No. E6), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Refractory products* (except in bulk), from Fords, N.J., to points in Ohio, Michigan, Indiana, Illinois, Kentucky, Kansas, Missouri, and Wisconsin. The purpose of this filing is to eliminate the gateway of Armstrong County, Pa.

No. MC 113666 (Sub-No. E7), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials* used in the production of refractory products (except liquid commodities in bulk), from points in Kentucky, Missouri, and the Lower Peninsula of Michigan to the Ports of Entry on the United States-Canada International Boundary line located in Maine, New Hampshire, and Vermont, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Tarentum, Pa.

No. MC 113666 (Sub-No. E9), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Urea and ammonium nitrate* (other than liquid), in bags, from ports of entry on the United States-Canada International Boundary line at Ogdensburg, Alexandria Bay, and Rooseveltown, N.Y., to points in Indiana, Illinois, Michigan, and Ohio, with no transportation for compensation on return unless otherwise authorized. The purpose of this filing is to eliminate the gateway of port of entry at Buffalo, N.Y.

No. MC 113666 (Sub-No. E10), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refractory products* (except in bulk), from Greenville, Pa., to ports of entry on the United States-Canada International Boundary line at Ogdensburg, Alexandria Bay, and Rooseveltown, N.Y. Restriction: The transportation of the above commodities restricted to traffic destined to the Province of Ontario, Canada. The purpose of this filing is to eliminate the gateway of the Port of Entry of Buffalo, N.Y.

No. MC 113666 (Sub-No. E12), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry urea*, in bulk, in dump vehicles, and in containers (other than liquid), from Olean, N.Y., to points in Wisconsin, Missouri, Iowa, and Minnesota. The purpose of this filing is to eliminate the gateway of Port of Entry at Detroit, Mich.

No. MC 113666 (Sub-No. E13), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refractory products* (except such commodities in bulk and those which because of their size, weight, or inherent nature, require the use of special equipment), from the plant site of A. P. Green Fire Brick Co., at or near Detroit, Mich., to points in Maryland, Delaware, New Jersey, Massachusetts, Connecticut, and Rhode Island. The purpose of this filing is to eliminate the gateway of Tarentum, Pa.

No. MC 113666 (Sub-No. E14), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry urea*, in bags, from Ports of Entry on the United States-Canada International Boundary line at Ogdensburg, Alexandria Bay, and Rooseveltown, N.Y., to points in Tennessee. The purpose of this filing is to eliminate the gateway of Olean, N.Y.

No. MC 113666 (Sub-No. E15), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Urea and ammonium nitrate* (other than liquid), in bags, from Port of Entry on the United States-Canada International Boundary line at Ogdensburg, Alexandria Bay, and Rooseveltown, N.Y., to points in West Virginia, Kentucky, Missouri, Wisconsin, Iowa, and Minnesota. The purpose of this filing is to eliminate the gateway of Port of Entry of Buffalo, N.Y.

No. MC 113666 (Sub-No. E17), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refractory products* (except in bulk and except such commodities which, because of their size, weight, or inherent nature require the use of special equipment), from the Borough of Tarentum, Allegheny County, Pa., and Porter Township, Clarion County, Pa., to points in the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of the Port of Entry at Detroit, Mich.

No. MC 113666 (Sub-No. E18), filed June 4, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Rd., Freeport, Pa. 16229. Applicant's representative: Daniel R. Smetanick (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refractory products* (except in bulk), from Irondale, New Salisbury, Wellsville, Uhrichsville, Oak Hill, Jackson, South Webster, Columbiana, Warren, Cincinnati, Powhatan, and Center Township, Carroll County, Ohio, Taylor and Mayfield, Ky., Mexico, Fulton, and Vandalia, Mo., to the Ports of Entry on the United States-Canada International Boundary line located in Maine, New Hampshire, Vermont, and at Alexandria Bay, Ogdensburg, and Rooseveltown, N.Y. Restriction: The operations authorized herein are restricted to the transportation of shipments destined to points in the Provinces of Ontario and Quebec, Canada. The purpose of this filing is to eliminate the gateway of the Ports of Entry of Buffalo or Niagara Falls, N.Y.

No. MC 114211 (Sub-No. E476), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from points in Iowa on and north and west of a line beginning at the South Dakota-Iowa State line, thence along Iowa Highway 10 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Minnesota State line, to points in that part of Michigan on and north of a line beginning at Muskegon, Mich., thence along Interstate Highway 96 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Michigan-Indiana State line, and to points in that part of Indiana on and east of a line beginning at the Michigan-Indiana State line, thence along U.S. Highway 69 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Indiana Highway 101, thence along Indiana Highway 101 to junction U.S. Highway 224, thence along U.S. Highway 224 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Indiana Highway 18, thence along Indiana Highway 18 to junction Indiana Highway 9, thence along Indiana Highway 9 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Indiana-Kentucky State line, and to points in that part of Kentucky on and east of a line beginning at the Indiana-Kentucky State line, thence along Interstate Highway 65 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line, and to points in that part of Tennessee on and east of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to the Tennessee-Alabama State line, and to points in that part of Alabama on and east of a line beginning at the Tennessee-Alabama State line, thence along Interstate Highway 59 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Alabama-Mississippi State line, and to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Interstate Highway 94 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 23, thence along Wisconsin 23 to junction U.S. Highway 41, thence along U.S. Highway 41 to Milwaukee, Wis., and to points in Florida, Georgia, South Carolina, North Carolina, West Virginia, Maine, Vermont, and New Hampshire, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E477), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery, and contractors' equipment and supplies*, from points in Iowa on and north and west of a line beginning at the South Dakota-Iowa State line, thence along Iowa Highway 10 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Minnesota State line to points in that part of Michigan on and north of a line beginning at Muskegon, Mich., thence along Interstate Highway 96 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Michigan-Indiana State line, and to points in that part of Indiana on and east of a line beginning at the Michigan-Indiana State line, thence along U.S. Highway 69 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Indiana Highway 101, thence along Indiana Highway 101 to junction U.S. Highway 224, thence along U.S. Highway 224 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Indiana Highway 18, thence along Indiana Highway 18 to junction Indiana Highway 9, thence along Indiana Highway 9 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Indiana-Kentucky State line, and to points in that part of Kentucky on and east of a line beginning at the Indiana-Kentucky State line, thence along Interstate Highway 65 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line, and to points in that part of Tennessee on and east of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to the Tennessee-Alabama State line, and to points in that part of Alabama on and east of a line beginning at the Tennessee-Alabama State line, thence along Interstate Highway 59 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Alabama-Mississippi State line, and to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Interstate Highway 94 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction U.S. Highway 41, thence along U.S. Highway 41 to Milwaukee, Wis., and to points in Florida, Georgia, South Carolina, North Carolina, West Virginia, Maine, Vermont, and New Hampshire, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E515), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors*, with or without attachments, *tractors attachments*, and *parts* of tractors and tractor attachments when moving in mixed loads between the port of entry at Norfolk, Va., on the one hand, and, on the other, points in Colorado, Nebraska, South Dakota, and Kansas. The purpose of this filing is to eliminate the gateway of Topeka, Kans.

No. MC 114211 (Sub-No. E516), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefore* when moving with such pipe, from points in that part of Tennessee on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 25E to junction Tennessee Highway 63, thence along Tennessee Highway 63 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Tennessee Highway 61, thence along Tennessee Highway 61 to junction Tennessee Highway 58, thence along Tennessee Highway 58 to junction Tennessee Highway 153, thence along Tennessee Highway 153 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Tennessee-Georgia State line to points in Nebraska, Wyoming, Montana, North Dakota, South Dakota, and to points in that part of Kansas on and north of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 73 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 383, thence along U.S. Highway 383 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Colorado State line, and to points in that part of Colorado on and north of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 24 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Colorado-Utah State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Co., located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E517), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa. 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (except pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products), and fittings and accessories therefor when moving with such pipe, the transportation of which, because of size or weight, requires special equipment

from points in that part of Iowa on and west of a line beginning at the Minnesota-Iowa State line. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E518), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefor* when moving with such pipe from points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 75 to junction Texas Highway 14, thence along Texas Highway 14 to junction Texas Highway 6, thence along Texas Highway 6 to junction Texas Highway 21, thence along Texas Highway 21 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to Victoria, Tex., and from points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 75 to the Oklahoma-Texas State line to points in that part of Michigan on and north of a line beginning at Muskegon, Mich., thence along Interstate Highway 96 to junction Michigan Highway 21, thence along Michigan Highway 21 to the Michigan-Canada International Boundary line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Co., located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E519), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefor* when moving with such pipe from points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line, thence along Texas Highway 79 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Texas-Mexico International Boundary line and from points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 81 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Oklahoma Highway 79, thence along Oklahoma Highway 79 to the Oklahoma-Texas State line to points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 34 to junction Illinois Highway 116, thence along Illinois Highway 116 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Co., located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E520), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities, which because of size or weight, require the use of special equipment and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from Aurora, Decatur, Joliet, Morton, Moseville, and Peoria, Ill., to points in New Mexico, Arizona, California, and to points in that part of Nevada on and south of a line beginning at the Utah-Nevada State line, thence along U.S. Highway 50 to junction Nevada Highway 42, thence along Nevada Highway 42 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Nevada Highway 48, thence along Nevada Highway 48 to junction Nevada Highway 81, thence along Nevada Highway 81 to the Nevada-California State line, with no transportation for compensation on return except as otherwise authorized restricted to the transportation of shipments originating at the above-named origins. The purpose of this filing is to eliminate the gateways of points in Kansas and Claremore, Okla.

No. MC 114211 (Sub-No. E521), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors*, from Racine, Wis., to points in Washington, Oregon, Idaho, and to that part of Montana on and west of a line beginning at the Wyoming-Montana State line, thence along Carbon County Highway 297 to junction Carbon County Highway 308, thence along Carbon County Highway 308 to junction U.S. Highway 310, thence along U.S. Highway 310 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 93, thence along U.S. Highway 93 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Montana-Idaho State line and to points in that part of Wyoming on and southwest of a line beginning at the Nebraska-Wyoming State line, thence along U.S. Highway 20 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Wyoming Highway 120, thence along Wyoming Highway 120 to the Wyoming-Nebraska State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Springfield, Ill., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E522), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, restricted against the transportation of any of the described commodities which because of size or weight, require the use of special equipment, thence along U.S. Highway 177 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction Muskogee Turnpike, thence along Muskogee Turnpike to junction Oklahoma Highway 10, thence along Oklahoma Highway 10 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Oklahoma-Arkansas State line to points in that part of Texas on and south of a line beginning at the New Mexico-Texas State line, thence along U.S. Highway 80 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction Texas Highway 29, thence along Texas Highway 29 to junction Texas Highway 190, thence along Texas Highway 190 to junction Texas Highway 16, thence along Texas Highway 16 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Texas Highway 6, thence along Texas Highway 6 to the Gulf of Mexico (except Galveston and El Paso, Tex.), with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 114211 (Sub-No. E523), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors*, with or without attachments, *tractor attachments* and *parts* of tractors and tractor attachments when moving in mixed loads, between points of entry on the United States-Canada International Boundary line in Washington, Idaho, Montana, and North Dakota, on the one hand, and, on the other, points in that part of Illinois on and south of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 36 to junction Illinois Highway 96, thence along Illinois Highway 96 to junction Illinois Highway 4, thence along Illinois Highway 4 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Indiana State line and points in that part of Kansas on and south of a line beginning at the Oklahoma-Kansas State line, thence along U.S. Highway 281 to junction U.S. Highway 56, thence along U.S. Highway 56 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction Kansas Highway 14, thence along Kansas Highway 14 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 73, thence along U.S. Highway 73 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateway of Topeka, Kans.

No. MC 114211 (Sub-No. E524), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories, and attachments* the transportation of which, because of size or weight, requires special equipment, between points in Missouri, on the one hand, and, on the other, points in Washington, Oregon, Idaho, Montana, North Dakota, and points in that part of Nevada on and northwest of a line beginning at the California-Nevada State line, thence along U.S. Highway 50 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Nevada Highway 30, thence along Nevada Highway 30 to the Nevada-Utah State line and points in that part of California on and north of a line beginning at the Nevada-California State line, thence along U.S. Highway 50 to junction California Highway 89, thence along California Highway 89 to junction California Highway 88, thence along California Highway 88 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction California Highway 4, thence along California Highway 4 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Interstate Highway 580, thence along Interstate Highway 580 to junction Interstate Highway 680, thence along Interstate Highway 680 to junction California Highway 17, thence along California Highway 17 to San Jose, Calif., and points in that part of Wyoming on and north of a line beginning at the South Dakota-Wyoming State line. The purpose of this filing is to eliminate the gateways of points in Iowa and Canton, S. Dak.

No. MC 114211 (Sub-No. E525), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, from points in that part of Texas on and west of a line beginning at the New Mexico-Texas State line, thence along U.S. Highway 80 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 83 to the Texas-Mexico International Boundary line to points in Minnesota, South Dakota, Nebraska, Iowa, Kansas, and Illinois. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E526), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements*, other than hand, and *parts thereof* when transported with such agricultural machinery and implements, as described in Sections B and C of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 except those requiring the use of special equipment, from Corpus Christi, Tex., to points in Nebraska restricted against the transportation of which, because of size or weight, requires the use of special equipment or special handling and further restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of points in South Dakota.

No. MC 114211 (Sub-No. E527), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment*, the transportation of which, because of size or weight, requires special equipment, from points in Texas to points in that part of Missouri on and west of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 36 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Missouri-Iowa State line. The purpose of this filing is to eliminate the gateway of points in Kansas and Nebraska.

By the Commission.

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by Division 3 of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's General Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before February 24, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74173. By order of January 20, 1975, Division 3, acting as an Appellate Division, approved the transfer to Articare Transport, Inc., Shrewsbury, Mass., of the operating rights in Certificate No. MC 60186 (Sub-No. 50), issued June 11, 1974, to Nelson Freightways, Inc., Rockville, Conn., authorizing the transportation of foodstuffs from ports of entry on the United States-Canada Boundary line located in Maine, to points in Alabama, Florida, Georgia, Kentucky, Mississippi, New York, North Carolina, South Carolina, Tennessee, Virginia, Pennsylvania, and West Virginia, subject to certain restrictions. James E. Wilson, Pennsylvania Bldg., Pennsylvania Ave. and 13th St. NW., Washington, D.C., 20004, attorney for applicants.

[Notice 12]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 28, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 19251 (Sub-No. 10TA), filed January 21, 1975. Applicant: HERBERT M. ADAMS, doing business as ADAMS VAN & STORAGE CO., 99 South Main Street, Caribou, Maine 04736. Applicant's representative (same as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* (as defined by the Commission), between Caribou and Brunswick, Maine, on the one hand, and, points in Maine on the other, for 180 days. Supporting shipper: Department of Defense, Regulatory Law Office, Office of the Judge Advocate General, Department of the Army, Washington, D.C. 20310. Send protests to: Donald G. Weiler, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 307, 76 Pearl Street, Portland, Maine 04112.

No. MC 93840 (Sub-No. 16TA), filed January 21, 1975. Applicant: W. W. GLESS, doing business as GLESS BROS., Blue Grass, Iowa 52726. Applicant's representative: James M. Hodge, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap iron and scrap steel*, from Decatur, Ill., to Durant, Iowa, for 180 days. Supporting shipper: Russelloy Foundry Co., 1010 4th St., Durant, Iowa 52747. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Bldg., Des Moines, Iowa 50309.

No. MC 107460 (Sub-No. 51TA), filed January 22, 1975. Applicant: WILLIAM Z. GETZ, INC., 3055 Yellow Goose Road, Lancaster, Pa. 17601. Applicant's representative: Donald C. Shipley (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum doors and windows, glazed and unglazed, and aluminum extrusions*, from the plantsite of Capitol Products Corporation, located at or near Kentland, Ind., to the plantsite of Capitol Products Corporation, located at Mechanicsburg, Pa., for 180 days. Supporting shipper: Capitol Products Corporation, Route 11, Mechanicsburg, Pa. 17055. Send protests to: Robert P. Amerine, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 278 Federal Bldg., P.O. Box 869, Harrisburg, Pa. 17108.

No. MC-111485 (Sub-No. 17TA) (Amendment), filed December 19, 1974, published in the FEDERAL REGISTER issue of January 10, 1975, and republished as corrected this issue. Applicant: PASCHALL TRUCK LINES, INC., Route 4, Murray, Ky. 42071. Applicant's representative: Robert H. Kinker, 711 McClure Bldg., P.O. Box 464, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Monumental stone*, from points in Elbert County, Ga., to points in Missouri, Illinois, that part of Indiana in and west of Elkhart, Mosciusko, Fulton, Miami, Cass, Carroll, Tippecanoe, Montgomery, Boone, Putnam, Morgan, Monroe, Greene, Martin, Dubois, and Spencer Counties, Indiana; and that part of Kentucky west of the Tennessee River, for 180 days.

NOTE.—Applicant states that the purpose of filing is to permit it to lawfully continue a service previously performed by tacking and subject to the rules promulgated in Gateway Elimination, 119 MCC 530 (1074), 49 CFR 1065.

Supporting shippers: There are approximately 37 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission, in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Floyd A. Hohnson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 435 Federal Office Bldg., 167 North Main Street, Memphis, Tenn. 38103.

No. MC 111812 (Sub-No. 512TA), filed January 21, 1975. Applicant: MIDWEST COAST TRANSPORT, INC., 900 West Delaware, P.O. Box 1233, Sioux Falls, S. Dak. 57101. Applicant's representative: Ralph H. Jinks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodity bags*, envelopes, packets orouches, or wrappers flat, folded flat or in rools, requiring separation into individual units, with or without compliment of bag ties, for 180 days. NATIONAL REGISTER OF HISTORIC PLACES

Advisory Council on Historic Preservation

Protection of Properties on the National Register; Procedures for Compliance

V40-24 FEB 4 75 XUM

DEPARTMENT OF THE INTERIOR
National Park Service
NATIONAL REGISTER OF HISTORIC PLACES

Pursuant to the National Historic Preservation Act of 1966 (80 Stat. 915, 16 U.S.C. 470) the National Park Service, Department of the Interior has undertaken steps to implement the purposes of that act through: (1) Expansion of the National Register of Historic Places, (2) initiating a program of grants-in-aid for historic preservation, and (3) adoption of procedures and criteria for furthering the Nation's historic preservation program.

It is the purpose of this notice, through publication of information and materials included herein, to apprise the public, as well as governmental agencies, associations, and all other organizations and individuals interested in historic preservation of the implementing actions that have been taken in order that there will be a greater awareness of the means by which properties of State and local historical significance may be nominated for placement in the National Register and of the criteria used in evaluating the properties. The notice includes a list of the properties included in the National Register of Historic Places through December 31, 1974.

RUSSELL E. DICKENSON,
Deputy Director,
National Park Service.

THE NATIONAL HISTORIC PRESERVATION ACT

THE NATIONAL REGISTER OF HISTORIC PLACES AND PROCEDURES FOR REGISTRATION

A. *Introduction.* In the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470, the Congress found and declared:

(a) That the spirit and direction of the Nation are founded upon and reflected in its historic past;

(b) That the historical and cultural foundations of the Nation should be preserved as a living part of our community life and development in order to give a sense of orientation to the American people.

(c) That, in the face of ever-increasing extensions of urban centers, highways, and residential, commercial, and industrial developments, the present governmental and nongovernmental historic preservation programs and activities are inadequate to insure future generations a genuine opportunity to appreciate and enjoy the rich heritage of our Nation; and

(d) That, although the major burdens of historic preservation have been borne and major efforts initiated by private agencies and individuals, and both should continue to play a vital role, it is nevertheless necessary and appropriate for the Federal Government to accelerate its historic preservation programs and activities, to give maximum encouragement to agencies and individuals undertaking preservation by private means, and to assist State and local governments and the National Trust for Historic Preservation in the United States to expand and accelerate their historic preservation programs and activities.

In order to accomplish these purposes, the National Historic Preservation Act provided for three significant innovations: An expanded National Register of Historic Places, a program of grants-in-aid for historic preservation, and an Advisory Council on Historic Preservation empowered to comment upon all undertakings licensed, assisted, or carried out by the Federal Government that have an effect upon properties in the National Register.

Official notice is hereby given to the public and government agencies of the opportunities and restrictions provided by the National Historic Preservation Act. Detailed administrative procedures for the program may be found in the manuals, "Historic Preservation Grants-in-Aid: Policies and Procedures," and "The National Register Program, Volume 2: How to Complete National Register Forms" January 1975 (U.S. Department of the Interior, National Park Service, Washington, D.C.). (Volume 1, "State and Federal Guidelines" to be published later in 1975.)

B. *Expanding the National Register of Historic Places.* The Act authorizes the Secretary of the Interior to expand and maintain a national register of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture. Previously, the National Register included only nationally significant properties that are historical or archeological units of the National Park System or that have been declared eligible for designation as National Historic Landmarks. Because they must meet exacting criteria of national significance, such properties are few in number. The National Historic Preservation Act of 1966 provides a means for States to nominate properties of State and local significance for placement in the National Register.

The following officials have been designated by their Governors to act as State Historic Preservation Officers responsible for State activities under the National Historic Preservation Act:

STATE HISTORIC PRESERVATION OFFICERS

ALABAMA

Chairman, Alabama Historical Commission, Alabama Department of Archives and History, Archives and History Building, Montgomery, Alabama 36104.

ALASKA

Director, Department of Natural Resources, Division of Parks, 323 East Fourth Avenue, Anchorage, Alaska 99501.

ARIZONA

Director, State Parks Board, 1688 West Adams, Phoenix, Arizona 85007.

ARKANSAS

Director, Arkansas Department of Parks and Tourism, State Capitol, Room 149, Little Rock, Arkansas 72201.

CALIFORNIA

Director, Department of Parks & Recreation, State Resources Agency, P.O. Box 2390, Sacramento, California 95811.

COLORADO

Chairman, State Historical Society, Colorado State Museum, 200 14th Avenue, Denver, Colorado 80203.

CONNECTICUT

Director, Connecticut Historical Commission, 59 South Prospect Street, Hartford, Connecticut 06106.

DELAWARE

Director, Division of Historical and Cultural Affairs, Department of State, Dover, Delaware 19901.

FLORIDA

Director, Division of Archives, History, and Records Management, Department of State, 401 East Gaines Street, Tallahassee, Florida 32304.

GEORGIA

Chief, Georgia Department of Natural Resources, 710 Trinity-Washington Building, 270 Washington Street, S.W., Atlanta, Georgia 30334.

HAWAII

Chairman, Department of Land and Natural Resources, State of Hawaii, P.O. Box 621, Honolulu, Hawaii 96809.

IDAHO

Director, Idaho Historical Society, 610 North Julia Davis Drive, Boise, Idaho 83706.

Director, State of Mississippi Department of Archives and History, P.O. Box 571, Jackson, Mississippi 39205.

MISSOURI

Director, Missouri State Park Board, P.O. Box 176, 1204 Jefferson Building, Jefferson City, Missouri 65101.

MONTANA

Administrator, Recreation and Parks Division, Department of Fish and Game, State of Montana, Mitchell Building, Helena, Montana 59601.

NEBRASKA

Director, Nebraska State Historical Society, 1500 R Street, Lincoln, Nebraska 68501.

NEVADA

Administrator, Division of State Parks, 201 South Fall Street, Carson City, Nevada 89701.

NEW HAMPSHIRE

Commissioner, Department of Resources and Economic Development, P.O. Box 856, Concord, New Hampshire 03801.

NEW JERSEY

Commissioner, Department of Environmental Protection, P.O. Box 1420, Trenton, New Jersey 08625.

NEW MEXICO

State Historic Preservation Officer, State Capitol, 403 Capitol Building, Santa Fe, New Mexico 87501.

NEW YORK

Commissioner, Parks and Recreation, Room 303, South Swan Street Building, Albany, New York 12223.

NORTH CAROLINA

Director, Division of Archives and History, Department of Cultural Resources, 109 East Jones Street, Raleigh, North Carolina 27611.

NORTH DAKOTA

Superintendent, State Historical Society of North Dakota, Liberty Memorial Building, Bismarck, North Dakota 58501.

OHIO

Director, Ohio Historical Society, Interstate #71 at 17th Avenue, Columbus, Ohio 43211.

OKLAHOMA

State Historic Preservation Officer, 117 East Oklahoma Avenue, Route 1, Guthrie, Oklahoma 73044.

OREGON

State Parks Superintendent, 300 State Highway Building, Salem, Oregon 97310.

PENNSYLVANIA

Executive Director, Pennsylvania Historical and Museum Commission, Box 1026, Harrisburg, Pennsylvania 17120.

RHODE ISLAND

Director, Rhode Island Department of Community Affairs, 150 Washington Street, Providence, Rhode Island 02903.

SOUTH CAROLINA

Director, State Archives Department, 1430 Senate Street, Columbia, South Carolina 29211.

SOUTH DAKOTA

Cultural Preservation Director, Department of Education and Cultural Affairs, Office of Cultural Preservation, State Capitol, Pierre, South Dakota 57501.

TENNESSEE

Executive Director of the Tennessee Historical Commission, 170 Second Avenue North, Nashville, Tennessee 37201.

TEXAS

Executive Director, Texas State Historical Survey Committee, P.O. Box 12276, Capitol Station, Austin, Texas 78711.

UTAH

Director, Division of State History, 603 East South Temple, Salt Lake City, Utah 84102.

VERMONT

Director, Vermont Division of Historic Sites, Pavilion Building, Montpelier, Vermont 05602.

VIRGINIA

Executive Director, Virginia Historic Landmarks Commission, 221 Governor Street, Richmond, Virginia 23219.

WASHINGTON

Director, Washington State Parks and Recreation Commission, P.O. Box 1128, Olympia, Washington 98504.

WEST VIRGINIA

State Historic Preservation Officer, West Virginia Antiquities Commission, Old Mountainlair, West Virginia University, Morgantown, West Virginia 26506.

WISCONSIN

Director, State Historical Society of Wisconsin, 816 State Street, Madison, Wisconsin 53706.

WYOMING

Director, Wyoming Recreation Commission, 604 East 25th Street, Box 309, Cheyenne, Wyoming 82001.

DISTRICT OF COLUMBIA

Acting Director, Office of Housing & Community Development, Room 112–A, District Building, 14th & E Streets NW, Washington, D.C. 20004.

AMERICAN SAMOA

Executive Secretary, Environmental Quality Commission, Office of the Governor, Pago Pago, American Samoa 96920.

COMMONWEALTH OF PUERTO RICO

State Historic Preservation Officer, Institute of Puerto Rico Culture, Apartado 4184, San Juan, Puerto Rico 00905.

GUAM

Director, Department of Commerce, Government of Guam, P.O. Box 682, Agana, Guam 96910.

TRUST TERRITORY

Chief, Land Resources Branch, Trust Territory of the Pacific Islands, Saipan, Marianas Islands 96950.

VIRGIN ISLANDS

Planning Director, Virgin Islands Planning Board, Charlotte Amalie, St. Thomas, Virgin Islands 00801.

Under Executive 11593 agencies of the Executive branch of the government shall: (1) Administer cultural properties under their control, and (2) initiate measures necessary to preserve, restore, and maintain federally owned sites, structures, and objects of historical, architectural, and archeological significance.

The following are the Federal representatives responsible for implementing this Executive Order:

DEPARTMENT OF AGRICULTURE

Director, Division of Recreation, Forest Service, Department of Agriculture, Washington, D.C. 20250.

DEPARTMENT OF COMMERCE

Deputy Director for Operations, Office of Administrative Services, Department of Commerce, Washington, D.C. 20230.

DEPARTMENT OF DEFENSE

Director, Real Property and Natural Resources Division, Office of the Assistant Secretary of Defense (Installations and Logistics), Washington, D.C. 20301.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Director, Office of Facilities Engineering, Department of Health, Education, and Welfare, Washington, D.C. 20201.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Assistant Secretary for Community Planning and Development, Department of Housing and Urban Development, Washington, D.C. 20410.

DEPARTMENT OF THE INTERIOR

Deputy Assistant Secretary for Fish and Wildlife and Parks, Department of the Interior, Washington, D.C. 20240.

DEPARTMENT OF JUSTICE

Administrative Service Program Staff, Office of Management and Finance, Department of Justice, Washington, D.C. 20530.

DEPARTMENT OF TRANSPORTATION

Community Affairs Specialist, Office of Consumer Affairs, Department of Transportation, Washington, D.C. 20590.

DEPARTMENT OF THE TREASURY

Director of Administrative Programs, Department of the Treasury, Washington, D.C. 20220.

INDEPENDENT AGENCIES

Publications Editor, Appalachian Regional Commission, 1666 Connecticut Avenue, NW., Washington, D.C. 20235.

Director, Data and Support Systems Division, Environmental Protection Agency, Washington, D.C. 20400.

Secretary, Federal Communications Commission, Washington, D.C. 20554.

Advisor of the Chairman, Federal Power Commission, Washington, D.C. 20426.

Historian, Project Environment and Conservation, Federal Power Commission, 825 North Capitol Street, Washington, D.C. 20426.

Historic Preservation Office, General Services Administration, Washington, D.C. 20405.

Chief, Section of Administrative Services, Interstate Commerce Commission, Washington, D.C. 20423.

Director, NASA History Program Office, National Aeronautics and Space Administration, Washington, D.C. 20546.

Landmarks Coordinator, National Capital Planning Commission, 1325 G Street, N.W., Washington, D.C. 20005.

Special Assistant to the Director, National Science Foundation, Washington, D.C. 20550.

Administrator, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

Special Assistant to the Secretary, Smithsonian Institution, Washington, D.C. 20560.

Director of Reservoir Properties, Tennessee Valley Authority, 530 New Sprankle Building, Knoxville, Tennessee 37902.

XUM
V40-24
FEB 4 75
XUM

Assistant for Economic and Community Affairs, Office of the General Manager, Mail Station CA-311, U.S. Atomic Energy Commission, Washington, D.C. 20545.
Program Manager, Logistics and Engineering Department, U.S. Postal Service, L'Enfant Plaza West, Washington, D.C. 20260.
Historian, Veterans Administration, 810 Vermont Avenue, N.W., Washington, D.C. 20420.
Chief, Planning and Reports, International Boundary and Water Commission, United States and Mexico, 200 IBWC Building, 4110 Rio Bravo, El Paso, Texas 79998.

The State Historic Preservation Officer is responsible for the development and implementation of a comprehensive State Historic Preservation Plan, based clearly on the State's history and established in conformance with local, State and Federal legislation and mechanisms, and approved by the Secretary of the Interior. The State Historic Preservation Officer supervises a professional staff in conducting a statewide survey of historic resources addressed to every aspect of the State's history. From this continuing inventory of historic resources, an integral part of the State Historic Preservation Plan, the State Historic Preservation Officer may nominate properties for inclusion in the National Register of Historic Places. The nominated properties which are approved by the National Park Service are entered in the National Register of Historic Places by the Director, Office of Archeology and Historic Preservation, National Park Service.

The following criteria shall be used by the States in evaluating properties for nomination to the National Register of Historic Places and by the National Park Service in reviewing State nominations.

National Register Criteria of Evaluation

The quality of significance in American history, architecture, archeology, and culture is present in districts, sites, buildings, structures, and objects of State and local importance that possess integrity of location design, setting, materials, workmanship, feeling, and association, and:

1. That are associated with events that have made a significant contribution to the broad patterns of our history; or

2. That are associated with the lives of persons significant in our past; or

3. That embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or

4. That have yielded, or may be likely to yield, information important in prehistory or history.

Criteria considerations. Ordinarily cemeteries, birthplaces, or graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the past 50 years shall not be considered eligible for the National Register. However, such properties will qualify if they are integral parts of districts that do meet the criteria or if they fall within the following categories:

(a) A religious property depriving primary significance from architectural or artistic distinction or historical importance.

(b) A building or structure removed from its original location but which is significant primarily for architectural value, or which is the surviving structure most importantly associated with a historic person or event.

(c) A birthplace or grave of a historical figure of outstanding importance if there is no appropriate site or building directly associated with his productive life.

(d) A cemetery which derives its primary significance from graves of persons of transcendent importance, from age, from distinctive design features, or from association with historic events.

(e) A reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other building or structure with the same association has survived.

(f) A property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own historical significance.

(g) A property achieving significance within the past 50 years if it is of exceptional importance.

C. *Grants for historic preservation.* The National Historic Preservation Act also authorizes a program of grants-in-aid to States for comprehensive statewide historic site surveys and preservation plans. Grants are also authorized to States, local governments, private organizations, and individuals for preservation projects in accordance with an approved statewide plan. All grants are made through the States. The State Liaison Officer may then distribute the funds to other approved public and private recipients. Funds may be used for acquisition, protection, rehabilitation, restoration, and reconstruction of properties included in the National Register of Historic Places.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Procedures for The Protection of Historic and Cultural Properties

Properties included in, or eligible for, inclusion in the National Register are afforded protection under the National Historic Preservation Act of 1966 and Executive Order 11593, May 13, 1971, "Protection and Enhancement of the Cultural Environment." The Advisory Council on Historic Preservation has prescribed procedures for Federal agencies to follow. In accordance with these authorities these "Procedures for Protection of Historic and Cultural Properties" were published in the FEDERAL REGISTER of January 25, 1974 (39 FR 3366), and had been codified in 36 CFR Part 800. These procedures are set forth below:

Procedures for the Protection of Historic and Cultural Properties in Accordance With Section 106 of the National Historic Preservation Act and Sections 1(3) and 2(b) of Executive Order 11593

800.1 *Purpose and authorities.* The National Historic Preservation Act of 1966 created the Advisory Council on Historic Preservation, an independent agency of the Executive branch of the Federal Government, to advise the President and Congress on matters involving historic preservation. Its members are the Secretary of the Interior, the Secretary of Housing and Urban Development, the Secretary of the Treasury, the Secretary of Commerce, the Attorney General, the Secretary of Transportation, the Secretary of Agriculture, the Administrator of the General Services Administration, the Secretary of the Smithsonian Institution, the Chairman of the National Trust for Historic Preservation, and 10 citizen members appointed by the President on the basis of their outstanding service in the field of historic preservation.

The Council reviews Federal, federally assisted, and federally licensed undertakings affecting cultural properties as defined herein, in accordance with the following authorities:

(a) *Section 106 of the National Historic Preservation Act.* Section 106 requires that Federal, federally assisted, and federally licensed undertakings affecting properties included in the National Register of Historic Places be submitted to the Council for review and comment prior to the approval of any such undertaking by the Federal agency.

(b) *Section 1(3) of Executive Order 11593, May 13, 1971, "Protection and Enhancement of the Cultural Environment."* Section 1(3) requires that Federal agencies, in consultation with the Council, establish procedures regarding the preservation and enhancement of nonfederally owned historic and cultural properties in the execution of their plans and programs. After soliciting consultation with the Federal agencies, the Advisory Council has adopted procedures, set forth in 36 CFR 800.3 through 800.10, to achieve this objective and Federal agencies should fulfill their responsibilities under section 1(3) by following these procedures. The Council further recommends that Federal agencies use these procedures as a guide in the development, in consultation with the Council, of their required internal procedures.

(c) *Section 2(b) of Executive Order 11593, May 13, 1971, "Protection and Enhancement of the Cultural Environment."* Federal agencies are required, by section 2(a) of the Executive Order, to locate, inventory, and nominate properties under their jurisdiction or control to the National Register. Until such processes are complete, Federal agencies must submit proposals for the transfer, sale, demolition, or substantial alteration of federally owned properties eligible for inclusion in the National Register to the Council for review and comment. Federal agencies must continue to comply with section 2(b) review requirements, even after the initial inventory is complete, when they obtain jurisdiction or control over additional properties that are eligible for inclusion in the National Register or when properties under their jurisdiction or control are found to be eligible for inclusion in the National Register subsequent to the initial inventory.

800.2 *Coordination with agency requirements under the National Environmental Policy Act.* Section 101(b)(4) of the National Environmental Policy Act (NEPA) declares that one objective of the national environmental policy is to "preserve, important historic, cultural, and natural aspects of our national heritage and maintain, wherever possible, an environment which supports diversity and variety of individual choice." In order to meet this objective, the Advisory Council instructs Federal agencies to coordinate NEPA compliance with the separate responsibilities of the National Historic Preservation Act and Executive Order 11593 to ensure that historic and cultural resources are given proper consideration in the preparation of environmental impact statements. Agency obligations pursuant to the National Historic Preservation Act and Executive Order 11593 are independent from NEPA and must be complied with even when an environmental impact statement is not required. However, where both NEPA and the National Historic Preservation Act or Executive Order 11593 are applicable, the Council on Environmental Quality, in its Guidelines for the Preparation of Environmental Impact Statements (40 CFR Part 1500), directs that compliance with section 102(2)(C) of NEPA should, to the extent possible, be combined with other statutory obligations—such as the National Historic Preservation Act and Executive Order 11593—to yield a single document which meets all applicable requirements. To achieve this objective, Federal agencies should undertake, to the fullest extent possible, compliance with the procedures set forth below whenever properties included in or eligible for inclusion in the National Register are involved in a project to ensure that obligations under the National Historic Preservation Act and Executive Order 11593 are fulfilled during the preparation of a draft environmental impact statement required under section 102(2)(C) of NEPA. The Advisory Council recommends that compliance with these procedures be undertaken at the earliest stages of the environmental impact statement process to expedite review of the statement. Statements on projects affecting properties included in or eligible for inclusion in the National Register should be sent directly to the Advisory Council for review. All statements involving historic, architectural, archeological, or cultural resources, whether or not included in or eligible for inclusion in the National Register, should be submitted to the Department of Interior for review.

800.3 *Definitions.* As used in these procedures:

(a) "National Historic Preservation Act" means Public Law 89-665, approved October 15, 1966, an "Act to establish a program for the preservation of additional historic properties throughout the Nation and for other purposes," 80 Stat. 915, 16 U.S.C. 470, as amended, 84 Stat. 204 (1970) and 87 Stat. 139 (1973) hereinafter referred to as "the Act."

(b) "Executive Order" means Executive Order 11593, May 13, 1971, "Protection and Enhancement of the Cultural Environment," 36 FR 8921, 16 U.S.C. 470.

(c) "Undertaking" means any Federal action, activity, or program, or the approval, sanction, assistance, or support of any other action, activity or program, including but not limited to:

(1) Recommendations or favorable reports relating to legislation, including requests for appropriations. The requirement for following these procedures applies to both: Agency recommendations on their own proposals for legislation and agency reports on legislation initiated elsewhere. In the latter case only the agency which has primary responsibility for the subject matter involved will comply with these procedures.

(2) New and continuing projects and program activities: directly undertaken by Federal agencies; or supported in whole or in part through Federal contracts, grants, subsidies, loans, or other forms of funding assistance; or involving a Federal lease, permit, license, certificate, or other entitlement for use.

(3) The making, modification or establishment of regulations, rules, procedures, and policy.

(d) "National Register" means the National Register of Historic Places, which is a register of districts, sites, buildings, structures, and objects, significant in American history, architecture, archeology, and culture, maintained by the Secretary of the Interior under authority of section 2(b) of the Historic Sites Act of 1935 (49 Stat. 666, 16 U.S.C. 461) and section 101(a)(1) of the National Historic Preservation Act. The National Register is published in its entirety in the FEDERAL REGISTER each year in February. Addenda are published on the first Tuesday of each month.

(e) "National Register property" means a district, site, building, structure, or object included in the National Register.

(f) "Property eligible for inclusion in the National Register" means any district, site, building, structure, or object which the Secretary of the Interior determines is likely to meet the National Register Criteria. As these determinations are made, a listing is published in the FEDERAL REGISTER on the first Tuesday of each month, as a supplement to the National Register.

(g) "Decision" means the exercise of agency authority at any stage of an undertaking where alterations might be made in the undertaking to modify its impact upon historic and cultural properties.

(h) "Agency Official" means the head of the Federal agency having responsibility for the undertaking or a subordinate employee of the Federal agency to whom such authority has been delegated.

(i) "Chairman" means the Chairman of the Advisory Council on Historic Preservation, or such member designated to act in his stead.

(j) "Executive Director" means the Executive Director of the Advisory Council on Historic Preservation established by Section 205 of the Act, or his designated representative.

(k) "State Historic Preservation Officer" means the official within each State, authorized by the State at the request of the Secretary of the Interior, to act as liaison for purposes of implementing the Act, or his designated representative.

(l) "Secretary" means the Secretary of the Interior, or his designee authorized to carry out the responsibilities of the Secretary of the Interior under Executive Order 11593.

800.4 *Agency procedures.* At the earliest stage of planning or consideration of a proposed undertaking, including comprehensive or area-wide planning in which provision may be made for an undertaking or an undertaking may be proposed, the Agency Official shall take the following steps to comply with the requirements of section 106 of the National Historic Preservation Act and sections 1(3) and 2(b) of Executive Order 11593.

(a) *Identification of resources.* As early as possible and in all cases prior to agency decision concerning an undertaking, the Agency Official shall identify properties located within the area of the undertaking's potential environmental impact that are included in or eligible for inclusion in the National Register.

(1) To identify properties included in the National Register, the Agency Official shall consult the National Register, including monthly supplements.

(2) To identify properties eligible for inclusion in the National Register, the Agency Official shall, in consultation with the appropriate State Historic Preservation Officer, apply the National Register Criteria, set forth in 36 CFR 800.10, to all properties possessing historical, architectural, archeological, or cultural value located within the area of the undertaking's potential environmental impact. If the Agency Official determines that a property appears to meet the Criteria, or if it is questionable whether the Criteria are met, the Agency Official shall request, in writing, an opinion from the Secretary of the Interior respecting the property's eligibility for inclusion in the National Register. The Secretary of the Interior's opinion respecting the eligibility of a property for inclusion in the National Register shall be conclusive for the purposes of these procedures.

(b) *Determination of effect.* For each property included in or eligible for inclusion in the National Register that is located within the area of the undertaking's potential environmental impact, the Agency Official, in consultation with the

XUM V40-24 FEB 4 75 XUM

State Historic Preservation Officer, shall apply the Criteria of Effect, set forth in 36 CFR 800.8, to determine whether the undertaking has an effect upon the property. Upon applying the Criteria and finding no effect, the undertaking may proceed. The Agency Official shall keep adequate documentation of a determination of no effect.

(c) *Effect established.* Upon finding that the undertaking will have any effect upon a property included in or eligible for inclusion in the National Register, the Agency Official, in consultation with the State Historic Preservation Officer, shall apply the Criteria of Adverse Effect, set forth in 36 CFR 800.9, to determine whether the effect of the undertaking is adverse.

(d) *Finding of no adverse effect.* Upon finding the effect not to be adverse, the Agency Official shall forward adequate documentation of the determination, including evidence of the views of the State Historic Preservation Officer, to the Executive Director for review. Unless the Executive Director notes an objection to the determination within 45 days after receipt of adequate documentation, the Agency Official may proceed with the undertaking.

(e) *Finding of adverse effect.* Upon finding the effect to be adverse or upon notification that the Executive Director does not accept a determination of no adverse effect, the Agency Official shall: (1) Request, in writing, the comments of the Advisory Council; (2) notify the State Historic Preservation Officer of this request; (3) prepare a preliminary case report; and (4) proceed with the consultation process set forth in 36 CFR 800.5.

(f) *Preliminary case report.* Upon requesting the comments of the Advisory Council, the Agency Official shall provide the Executive Director and the State Historic Preservation Officer with a preliminary case report, containing all relevant information concerning the undertaking. The Agency Official shall obtain such information and material from any applicant, grants or other beneficiary involved in the undertaking as may be required for the proper evaluation of the undertaking, its effects, and alternate courses of action.

800.5 *Consultation process*—(a) *Response to request for comments.* Upon receipt of a request for Advisory Council comments pursuant to 36 CFR 800.4(e), the Executive Director shall acknowledge the request and shall initiate the consultation process.

(b) *On-site inspection.* At the request of the Agency Official, the State Historic Preservation Officer, or the Executive Director, the Agency Official shall conduct an on-site inspection with the Executive Director, the State Historic Preservation Officer and such other representatives of national, State, or local units of government and public and private organizations that the consulting parties deem appropriate.

(c) *Public information meeting.* At the request of the Agency Official, the State Historic Preservation Officer, or the Executive Director, the Executive Director shall conduct a meeting open to the public, where representatives of national, State, or local units of government, representatives of public or private organizations, and interested citizens can receive information and express their views on the undertaking, its effects on historic and cultural properties, and alternate courses of action. The Agency Official shall provide adequate facilities for the meeting and shall afford appropriate notice to the public in advance of the meeting.

(d) *Consideration of alternatives.* Upon review of the pending case and subsequent to any on-site inspection and any public information meeting, the Executive Director shall consult with the Agency Official and State Historic Preservation Officer to determine whether there is a feasible and prudent alternative to avoid or satisfactorily mitigate any adverse effect.

(e) *Avoidance of adverse effect.* If the Agency Official, the State Historic Preservation Officer, and the Executive Director select and unanimously agree upon a feasible and prudent alternative to avoid the adverse effect of the undertaking, they shall execute a Memorandum of Agreement acknowledging avoidance of adverse effect. This document shall be forwarded to the Chairman for review pursuant to 36 CFR 800.6(a).

(f) *Mitigation of adverse effect.* If the consulting parties are unable to unanimously agree upon a feasible and prudent alternative to avoid any adverse effect, the Executive Director shall consult with the Agency Official and the State Historic Preservation Officer to determine whether there is a feasible and prudent alternative to satisfactorily mitigate the adverse effect of the undertaking. Upon finding and unanimously agreeing to such an alternative, they shall execute a Memorandum of Agreement acknowledging satisfactory mitigation of adverse effect. This document shall be forwarded to the Chairman for review pursuant to 36 CFR 8006(a).

(g) *Memorandum of Agreement.* It shall be the responsibility of the Executive Director to prepare each Memorandum of Agreement required under these procedures. In preparation of such a document the Executive Director may request the Agency Official to prepare a proposal for inclusion in the Memorandum, detailing actions to be taken to avoid or mitigate the adverse effect.

(h) *Failure to avoid or mitigate adverse effect.* Upon the failure of consulting parties to find and unanimously agree upon a feasible and prudent alternative to avoid or satisfactorily mitigate the adverse effect, the Executive Director shall request the Chairman to schedule the undertaking for consideration at the next Council meeting and notify the Agency Official of the request. Upon notification of the request, the Agency Official shall delay further processing of the undertaking until the Council has transmitted its comments or the Chairman has given notice that the undertaking will not be considered at a Council meeting.

800.6 *Council procedures*—(a) *Review of Memorandum of Agreement.* Upon receipt of a Memorandum of Agreement acknowledging avoidance of adverse effect or satisfactory mitigation of adverse effect, the Chairman shall institute a 30-day review period. Unless the Chairman shall notify the Agency Official that the matter has been placed on the agenda for consideration at a Council meeting, the memorandum shall become final: (1) Upon the expiration of the 30-day review period with no action taken; or (2) when signed by the Chairman. Memoranda duly executed in accordance with these procedures shall constitute the comments of the Advisory Council. Notice of executed Memoranda of Agreement shall be published in the FEDERAL REGISTER monthly.

(b) *Response to request for consideration at Council meeting.* Upon receipt of a request from the Executive Director for consideration of the proposed undertaking at a Council meeting, the Chairman shall determine whether or not the undertaking will be considered and notify the Agency Official of his decision. To assist the Chairman in this determination, the Agency Official and the State Historic Preservation Officer shall provide such reports and information as may be required. If the Chairman decides against consideration at a Council meeting, he will submit a written summary of the undertaking and his decision to each member of the Council. If any member of the Council notes an objection to the decision within 15 days of the Chairman's decision, the undertaking will be scheduled for consideration at a Council meeting. If the Council members have no objection, the Chairman shall notify the Agency Official at the end of the 15-day period that the undertaking may proceed.

(c) *Decision to consider the undertaking.* Upon determination that the Council will consider an undertaking, the Chairman shall: (1) Schedule the matter for consideration at a regular meeting no less than 60 days from the date the request was received, or in exceptional cases, schedule the matter for consideration in an unassembled or special meeting; (2) notify the Agency Official and the State Historic Preservation Officer of the date on which comments will be considered; and (3) authorize the Executive Director to prepare a case report.

(d) *Content of the case report.* For purposes of arriving at comments, the Advisory Council prescribes that certain reports be made available to it and accepts reports and statements from other interested parties. Specific informational requirements are enumerated below. Generally, the requirements represent an explication or elaboration of principles contained in the Criteria of Effect and in the Criteria of Adverse Effect. The Council notes, however, that the Act recognizes historical and cultural resources should be preserved "as a living part of our community life and development." Consequently, in arriving at final comments, the Council considers those elements in an undertaking that have relevance beyond historical and cultural concerns. To assist it in weighing the public interest, the Council welcomes information not only bearing upon physical, sensory, or esthetic effects but also information concerning economic, social, and other benefits or detriments that will result from the undertaking.

(e) *Elements of the case report.* The report on which the Council relies for comment shall consist of:

(1) A report from the Executive Director to include a verification of the legal and historical status of the property; an assessment of the historical, architectural, archeological, or cultural significance of the property; a statement indicating the special value of features to be most affected by the undertaking; an evaluation of the total effect of the undertaking upon the property; a critical review of any known feasible and prudent alternatives; and recommendations to remove or mitigate the adverse effect;

(2) A report from the Agency Official requesting comment to include a general discussion and chronology of the proposed undertaking; when appropriate, an account of the steps taken to comply with section 102(2)(A) of the National Environmental Policy Act of 1969 (83 Stat. 852, 42 U.S.C. 4321): an evaluation of the effect of the undertaking upon the property, with particular reference to the impact on the historic, architectural, archeological and cultural values; steps taken or proposed by the agency to take into account, avoid, or mitigate adverse effects of the undertaking; a thorough discussion of alternate courses of action; and, if applicable and available, a copy of the draft environmental statement prepared in compliance with section 102(2)(C) of the National Environmental Policy Act of 1969;

(3) A report from any other Federal agency having under consideration an undertaking that will concurrently or ultimately affect the property, including a general description and chronology of that undertaking and discussion of the relation between that undertaking and the undertaking being considered by the Council;

(4) A report from the State Historic Preservation Officer to include an assessment of the significance of the property; an identification of features of special value; and evaluation of the effect of the undertaking upon the property and its specific components; an evaluation of known alternate courses of action; a discussion of present or proposed participation of State and local agencies or organizations in preserving or assisting in preserving the property; an indication of the support or opposition of units of government and public and private agencies and organizations within the State; and the recommendations of his office;

(5) A report by an applicant or potential recipient when the Council considers comments upon an application for a contract, grant, subsidy, loan, or other form of funding assistance, or an application for a Federal lease, permit, license, certificate, or other entitlement for use. Arrangements for the submission and presentation of reports by applicants or potential recipients shall be made through the Agency Official having jurisdiction in the matter; and

(6) Other pertinent reports, statements, correspondence, transcripts, minutes, and documents received by the Council from any and all parties, public or private. Reports submitted pursuant to this section should be received by the Council at least two weeks prior to a Council meeting.

(f) *Coordination of case reports and statements.* In considerations involving more than one Federal department, either directly or indirectly, the Agency Official requesting comment shall act as a coordinator in arranging for a full assessment and discussion of all interdepartmental facets of the problem and prepare a record of such coordination to be made available to the Council. At the request of the Council, the State Historic Preservation Officer shall notify appropriate governmental units and public and private organizations within the State of the pending consideration of the undertaking by the Council, and coordinate the presentation of written statements to the Council.

(g) *Council meetings.* The Council does not hold formal hearings to consider comments under these procedures. Two weeks notice shall be given, by publication in the FEDERAL REGISTER, of all meetings involving Council review of Federal undertakings in accordance with these procedures. Reports and statements will be presented to the Council in open session in accordance with a prearranged agenda. Regular meetings of the Council generally occur on the first Wednesday and Thursday of February, May, August, and November.

(h) *Oral statements to the Council.* A schedule shall provide for oral statements from the Executive Director; the referring Agency Official presently or potentially involved; the applicant or potential recipient, when appropriate; the State Historic Preservation Officer; and representatives of national, State, or local units of government and public and private organizations. Parties wishing to make oral remarks shall submit written statements of position in advance to the Executive Director.

(i) *Comments by the Council.* The comments of the Council, issued after consideration of an undertaking at a Council meeting, shall take the form of a three-part statement, including an introduction, findings, and a conclusion. The statement shall include notice to the Agency Official of the report required under 36 CFR 800.6(j) of these procedures. Comments shall be made to the head of the Federal Agency requesting comment or having responsibility for the undertaking. Immediately thereafter, the comments of the Council will be forwarded to the President and the Congress as a special report under authority of section 202(b) of the Act and published as soon as possible in the FEDERAL REGISTER. Comments shall be available to the public upon receipt of the comments by the head of the Federal agency.

(j) *Report of agency action in response to Council comments.* When a final decision on the undertaking is reached by the Federal Agency, the Agency Official shall submit a written report to the Council containing a description of actions taken by the Federal Agency subsequent to the Council's comments; a description of actions taken by other parties pursuant to the actions of the Federal Agency; and the ultimate effect of such actions on the property involved. The Council may request supplementary reports if the nature of the undertaking requires them.

(k) *Record of the Council.* The records of the Council shall consist of a record of the proceedings at each meeting, the case report prepared by the Executive Director, and all other reports, statements, transcripts, correspondence, and documents received.

(l) *Continuing review jurisdiction.* When the Council has commented upon an undertaking pursuant to 36 CFR 800.6 such as a comprehensive or area-wide plan that by its nature requires subsequent action by the Federal Agency, the Council will consider its comments or approval to extend only to the undertaking as reviewed. The Agency Official shall ensure that subsequent action related to the undertaking is submitted to the Council for review in accordance with 36 CFR 800.4(e) of these procedures when that action is found to have an adverse effect on a property included in or eligible for inclusion in the National Register.

800.7 *Other powers of the Council*—(a) *Comment or report upon non-Federal undertaking.* The Council will exercise the broader advisory powers, vested by section 202(a)(1) of the Act, to recommend measures concerning a non-Federal undertaking that will adversely affect a property included in or eligible for inclusion in the National Register; (1) Upon request from the President of the United States, the President of the U.S. Senate, or the Speaker of the House of Representatives, or (2) when agreed upon by a majority vote of the members of the Council.

(b) *Comment or report upon Federal undertaking in special circumstances.* The Council will exercise its authority to comment to Federal agencies in certain special situations even written notice that an undertaking will have an effect has not been received. For example, the Council may choose to comment in situations where an objection is made to a Federal agency finding of "no effect."

800.8 *Criteria of effect.* A Federal, federally assisted, or federally licensed undertaking shall be considered to have an effect on a National Register property or property eligible for inclusion in the National Register (districts, sites, buildings, structures, and objects, including their settings) when any condition of the undertaking causes or may cause any change, beneficial or adverse, in the quality of the historical, architectural, archeological, or cultural charac-

XUM

ter that qualifies the property under the National Register Criteria.

800.9 *Criteria of adverse effect.* Generally, adverse effects occur under conditions which include but are not limited to:

(a) Destruction or alteration of all or part of a property;

(b) Isolation from or alteration of its surrounding environment;

(c) Introduction of visual, audible, or atmospheric elements that are out of character with the property or alter its setting;

(d) Transfer or sale of a federally owned property without adequate conditions or restrictions regarding preservation, maintenance, or use; and

(e) Neglect of a property resulting in its deterioration or destruction.

800.10 *National Register Criteria.* (a) "National Register Criteria" means the following criteria established by the Secretary of the Interior for use in evaluating and determining the eligibility of properties for listing in the National Register:

The quality of significance in American history, architecture, archeology, and culture is present in districts, sites, buildings, structures, and objects of State and local importance that possess integrity of location, design, setting, materials, workmanship, feeling and association and:

(1) That are associated with events that have made a significant contribution to the broad patterns of our history; or

(2) That are associated with the lives of persons significant in our past; or

(3) That embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or

(4) That have yielded, or may be likely to yield, information important in prehistory or history.

(b) *Criteria considerations.* Ordinarily cemeteries, birthplaces, or graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the past 50 years shall not be considered eligible for the National Register. However, such properties will qualify if they are integral parts of districts that do meet the criteria or if they fall within the following categories:

(1) A religious property deriving primary significance from architectural or artistic distinction or historical importance;

(2) A building or structure removed from its original location but which is the surviving structure most importantly associated with a historic person or event;

(3) A birthplace or grave of a historical figure of outstanding importance if there is no appropriate site or building directly associated with his productive life;

(4) A cemetery which derives its primary significance from graves of persons of transcendent importance, from age, from distinctive design features, or from association with historic events;

(5) A reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other building or structure with the same association has survived;

(6) A property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own historical significance; or

(7) A property achieving significance within the past 50 years if it is of exceptional importance.

The following properties were listed on the National Register as of December 31, 1974. Those which are marked by an asterisk have been designated National Historic Landmarks by the Secretary of the Interior.

NATIONAL REGISTER ENTRIES

Alabama

Autauga County

Prattville vicinity, *Whittaker, Jack, House,* S of Prattville off AL 14 (10–25–74).

Baldwin County

Bridgehead vicinity, *Blakley,* north of Bridgehead (6–25–74).
Gasque vicinity, **Fort Morgan,* western terminus of Alabama 180.
Stockton vicinity, *Battle Creek Indian Mounds,* approximately 7 miles west of Stockton (12–2–74).
Tensaw vicinity, *Fort Mims Site,* sec. 46 R. 2 E., T. 3 N.

Barbour County

Clayton, *Miller-Martin Town House,* Louisville Avenue (12–16–74).
Clayton, *Petty-Roberts-Beatty House, (Octagon House),* 103 North Midway (1–21–74).
Eufaula, *Bray-Barron Home,* North Eufaula Avenue.
Eufaula, *Cato House,* 823 West Barbour Street.
Eufaula, *Drewry-Mitchell-Moorer House,* 640 North Eufaula Avenue.
Eufaula, *Fendall Hall,* Barbour Street.
Eufaula, *Kendall Manor,* 534 West Broad Street.
Eufaula, *Kiels-McNab-Doughtie House,* Barbour Street.
Eufaula, *Lore Historic District,* bounded by Barbour Street on the south, Eufaula Avenue on the west, Browder Street on the north and Livingston Street on the east (12–12–73).
Eufaula, *McNab Bank Building,* Broad Street.
Eufaula, *Sheppard Cottage,* East Barbour Street.
Eufaula, *Shorter Mansion,* 340 North Eufaula Avenue.
Eufaula, *Sparks, Governor, House (H. C. Hart House),* 257 Broad Street.
Eufaula, *The Tavern (River Tavern),* 105 Riverside Drive.
Eufaula, *Wellborn (Welborn) House,* Livingston Avenue.

Bibb County

Brierfield, *Montebrier.*
Brierfield vicinity, *Brierfield Furnace,* west of Brierfield (11–20–74).

Blount County

Oneonta vicinity, *Horton Mill Covered Bridge,* 5 miles north of Oneonta on Route 3.

Calhoun County

Anniston, *Anniston Inn Kitchen,* 130 west 15th Street.
Coldwater, *Coldwater Creek Covered Bridge,* spans Coldwater Creek 0.5 mile from I–20 (also in Talladega County).
Jacksonville, *Francis, Dr. J. C., Office,* 100 Gayle Street.

Chambers County

LaFayette, *Oliver, Ernest McCarty, House,* North LaFayette Street (U.S. 431) (1–21–74).

Cherokee County

Cedar Bluff vicinity, *Cornwall Furnace,* 2 miles north of Cedar Bluff.

Clay County

Ashland, *Black, Hugo, House,* South Second Street East (Ala. 77) (10–9–73).

Cleburne County

Edwardsville vicinity, *Shoal Creek Church,* 4 mile northwest of Edwardsville on Forest Service Road 553 in Talladega National Forest (12–4–74).

Coffee County

Elba, *Coffee County Courthouse,* Courthouse Square.
Enterprise, *Boll Weevil Monument,* intersection of Main and College Streets.
Enterprise, *Seaboard Coastline Depot,* Railroad and West College (8–7–74).

Colbert County

**Barton Hall.*
Florence vicinity, **Wilson Dam,* Tennessee River, on Alabama 133 (also in Lauderdale County).
Leighton vicinity, *La Grange Rock Shelter,* southwest of Leighton (6–13–74).
Tuscumbia, *Colbert County Courthouse Square Historic District.*
Tuscumbia, *Ivy Green (Helen Keller Birthplace),* 300 West North Common.

Coosa County

Rockford, *Coosa County Jail,* off Alabama 22 (6–20–74).

Covington County

Opp, *Shepard, William T., House,* Pcley Road (8–14–73).

Cullman County

Cullman vicinity, *Clarkson Bridge,* west of Cullman off County Road 11 (6–25–74).

Dale County

Newton, *Oates-Reynolds Memorial Building,* Oates Street (6–13–74).

Dallas County

Selma, *Morgan, John Tyler, House,* 719 Tremont.
Selman, *Sturdivant Hall (Watts-Parkman-Gillman House),* 713 Mabry Street.
Selma, *Water Avenue Historic District,* Water Avenue.
Selma vicinity, *Cahaba,* 11 miles southwest of Selma, at junction of Cahaba and Alabama Rivers.

De Kalb County

Fort Payne, *Fort Payne Opera House,* 510 *road Passenger Depot,* Northeast Fifth Street.
Fort Payne, *Forte Payne Opera House,* 510 Gault Avenue. North.

Elmore County

Wetumpka, *First United Methodist Church (Methodist Episcopal Church),* 308 Tuskeena Street.
Wetumpka vicinity, *Alabama State Penitentiary,* northeast of Wetumpka on U.S. 231.
Wetumpka vicinity, **Fort Toulouse,* 4 miles southwest of Wetumpka at confluence of the Coosa and Tallapoosa Rivers.

Etowah County

Gadsden, *Alabama City Library,* 1 Cabot Avenue (12–27–74).

Franklin County

Hodges vicinity, *Overton Farm,* about 4 miles northwest of Hodges (10–3–73).

Greene County

Eutaw, *Coleman-Banks House,* 430 Springfield Road.
Eutaw, *First Presbyterian Church,* Main Street and Wilson Avenue (12–16–74).
Eutaw, *Greene County Courthouse,* Courthouse Square.
Forkland vicinity, *Rosemount,* 1 mile northwest of Forkland.

Hale County

Greensboro, *Magnolia Grove,* west end of Main Street.
Greensboro vicinity, *Tanglewood (Page Harris House),* about 11 miles north of Greensboro off Alabama 23.
Moundville vicinity, **Moundville Site,* 1 mile west of Moundville on County Route 21.
Prairieville, **St. Andrew's Church.*

Jackson County

Bridgeport vicinity, *Russell Cave National Monument,* 8 miles west of Bridgeport via U.S. 72 and County Routes 91 and 75.

Jefferson County

Bessemer, *Southern Railway Terminal Station,* 1905 Alabama Avenue.
Bessemer, *The McAdory House,* 214 Eastern Valley Road.
Birmingham, *Arlington (Mudd-Munger Home),* 331 Cotton Avenue SW.
Birmingham, *Brown, Dr. A. M. House,* 319 North 4th Terrace (6–20–74).
Birmingham, *Morris Avenue Historic District,* 2000 through 2400 blocks of Morris Avenue.
Birmingham, *Sloss Blast Furnace Site,* First Avenue at 32d Street.
Birmingham, *Steiner Bank Building,* 2101 North First Avenue (6–25–74).
McCalla vicinity, *Five Mile Creek Bridge,* 1 mile northeast of McCalla off U.S. 11.

Lauderdale County

**Wilson Dam* (see Colbert County).
Florence, *Courtview (Rogers Hall, Florence State University)* Court Street (6–13–74).
Florence, *Karsner-Carroll House,* 303 North Pine Street.
Florence, *Larimore House,* Mars Hill Road (11–21–74).
Florence Wesleyan Hall, Florence State University, Morrison Avenue (6–20–74).

Lawrence County

Town Creek vicinity, *Goode-Hall House,* N of Town Creek off AL 101 (10–1–74).

Lee County

Auburn, *Auburn Players Treater,* College Avenue at Thach Street.
Auburn vicinity, *Noble Hall (Frazier-Brown House),* Shelton Mill Road, 3 miles north of Auburn.
Loachapoka, *Loachapoka Historic District.*
Opelika, *Lee County Courthouse,* South Ninth Street between Avenue A and Avenue B (7–23–73).

Limestone County

Athens, *Donnell, Robert, House,* 601 South Clinton Street (9–19–73).
Belle Mina vicinity, *Belle Mina,* south of Belle Mina on the Mooresville-Elkton Road.
Elkmont vicinity, *Sulphur Trestle Fort Site,* 1 mile south of Elkmont.
Mooresville, *Mooresville.*

Lowndes County

Haynesville, *Lowndes County Courthouse,* Washington Street.
Lowndesboro, *Lowndesboro,* north of U.S. 80 (12–12–73).

Macon County

Tuskegee vicinity, **Tuskegee Institute,* 1 mile northwest of Tuskegee on U.S. 80.

Madison County

Huntsville, *Clemens House,* Clinton Avenue at Church Street (10–16–74).
Huntsville, *Episcopal Church of the Nativity,* 212 Eustis Street (10–9–74).
Huntsville, *First National Bank,* West Side Square (10–25–74).
Huntsville, *Southern Railway System Depot,* 330 Church Street.
Huntsville, *Steele-Fowler House,* 808 Maysville Road (6–20–74).
Huntsville, *Twickenham Historic District.*
Normal, *Domestic Science Building,* Alabama A. & M. University campus.

Marengo County

Dayton vicinity, *Half-Chance Bridge.*
Demopolis, *Bluff Hall,* 405 North Commissioners Avenue.
Demopolis, **Gaineswood,* 805 South Cedar Street (1–5–72).
Demopolis, *Glover Mausoleum,* Riverside Cemetery (1–21–74).
Demopolis, *Lyon-LaMar House,* 102 South Main Avenue (1–21–74).
Demopolis, *White Bluff,* Arch Street.
Demopolis vicinity, *Foscue-Whitfield House,* west of Demopolis on U.S. 80 (1–21–74).
Linden, *Old Courthouse (Veterans' Hall),* 300 West Cahaba Avenue (1–16–74).

Mobile County

Bucks vicinity, *Ellicott Stone,* about 1 mile south of Bucks off U.S. 43.
Dauphin Island, *Indian Mound Park* (8–14–73).
Mobile, *Barton Academy,* 504 Government Street.
Mobile, *Bishop Portier House,* 307 Conti Street.
Mobile, *Bragg-Mitchell House,* 1906 Springhill Avenue.
Mobile, *Brisk & Jacobson Store,* 51 Dauphin Street.
Mobile (Spring Hill), *Carolina Hall (Yesterhouse, Dawson-Purdue House),* 70 South McGregor.
Mobile, *Church Street East Historic District.*
Mobile, **City Hall,* 111 South Royal Street (12–3–69).
Mobile, *De Tonti Square Historic District.*
Mobile, *Fort Condé-Charlotte site,* within an area bounded roughly by Emanuel, Theater, Royal, and Church Streets, and extending slightly north of Church Street.
Mobile, *Gates-Davis House,* 1570–1572 Dauphin Street (6–20–74).
Mobile, *Georgia Cottage,* 2564 Springhill Avenue.
Mobile, *Horst, Martin, House,* 407 Conti Street.
Mobile, *Kirkbride House (Fort Conde-Charlotte House),* 104 Theater Street (12–12–73.)
Mobile, *Oakleigh,* 350 Oakleigh Place (5–27–71).
Mobile, *Oakleigh Garden Historic District (Washington Square)* (4–13–72).
Mobile, *Old City Hospital,* 900–950 St. Anthony Street.
Mobile, *Protestant Children's Home,* 911 Dauphin Street.
Mobile, *Semmes, Raphael, Home,* 804 Government Street.
Mobile, *Spring Hill College Quadrangle,* 4307 Old Shell Road (8–17–73).
Mobile, *U.S. Marine Hospital,* 800 St. Anthony Street (6–27–74).
Mon Louis vicinity, *Middle Bay Light,* offshore in Mobile Bay east of Mon Louis (12–30–74).
Stockton vicinity, *Seaboard Bluff (Nanna Hubba Bluff),* NW of Stockton (10–1–74).

Monroe County

Monroeville, *Old Monroe County Courthouse,* Courthouse Square.

Montgomery County

Montgomery, **Alabama State Capitol (First Confederate Capitol),* Goat Hill, east end of Dexter Avenue.
Montgomery, **Dexter Avenue Baptist Church,* 454 Dexter Avenue (7–1–74).
Montgomery, *Edgewood (Thomas House),* 3175 Thomas Avenue.
Montgomery, *First White House of the Confederacy,* 644 Washington Avenue (6–25–74).
Montgomery, *Governor's Mansion,* 1142 South Perry Street.
Montgomery, *The Murphy House,* 22 Bibb Street.
Montgomery, *Ordeman-Shaw Historic District,* bounded on the west by a line midway between McDonough and Hull Streets; on the north by Randolph Street; on the east by a line midway between Hull and Decatur Streets (to Jefferson Street) and by Decatur Street; and on the south by Madison Avenue.
Montgomery, *Perry Street Historic District,* bounded roughly by McDonough on the east, Sayre on the west, Washington on the north, and Donaldson on the south.
Montgomery, *Powder Magazine,* end of Eugene Street.
Montgomery, *Semple House,* 725 Monroe Street.
Montgomery, *Union Railway Station,* Water Street (7–24–73).
Montgomery, *Winter Building,* 2 Dexter Avenue.
Montgomery, **Yancey, William Lowndes, Law Office,* Adams and Perry Streets.
Montgomery vicinity, *Muklassa,* northeast of Montgomery (8–28–73).

Morgan County

Decatur, *State Bank Building, Decatur Branch,* 925 Bank Street NE.
Somerville, *Somerville Courthouse.*

Perry County

Marion, *Marion Female Seminary,* 202 Monroe Street (10–4–73).
Uniontown vicinity, *Westwood,* north of Uniontown off Alabama 61 (11–21–74).

Pickens County

Gordo, *Old Jail,* northeast corner of Church Street and 1st Avenue (12–17–74).

Russell County

Fort Mitchell vicinity, *Fort Mitchell Site,* north of Fort Mitchell.
Holy Trinity vicinity, **Apalachicola Fort,* 1.5 miles east of Holy Trinity on Chattahoochee River.
Seale, *Russell County Courthouse at Seale,* Courthouse Square (5–23–74).

St. Clair County

Ashville, *Inzer House,* Hartford Avenue (12–4–73).

XUM
V40-24
FEB 4 75
XUM

Ohatchee vicinity, *Fort Strother*, approximately 3 miles west of Ohatchee on Coosa River.

Shelby County

Columbiana, *Columbiana City Hall*, Main Street (10–29–74).
Montevallo, *Mansion House*, campus of the University of Montevallo.

Sumter County

Epes vicinity, *Fort Tombebee*, 0.75 mile northeast of Epes on the Tombigbee River, off U.S. 11 (10–2–73).
Livingston, *Sumter County Courthouse*.

Talladega County

Coldwater Creek Covered Bridge (see Calhoun County).
Talladega, *Talladega Court House Square Historic District*.
Talladega vicinity, **Curry, J. L. M., Home*, 3 miles northeast of Talladega on Alabama 21.

Tallapoosa County

Dadeville vicinity, *Horseshoe Bend National Military Park*, Tallapoosa River, 12 miles north of Dadeville on Alabama 49.

Tuscaloosa County

Abernant vicinity, *Tannehille Furnace*, sec. 33, R. 5 W., T. 20 S.
Northport, *Shirley, James, House*, 512 Main Avenue.
Northport vicinity, *Byler Road*, 11 miles north of Northport off U.S. 43 (11–19–74).
Tuscaloosa, *Collier-Overby House*, southeast corner of Ninth Street and 21st Avenue.
Tuscaloosa, *Battle-Friedman House (Friedman Civic and Cultural Center)*, 1010 Greensboro Avenue (1–14–72).

Kenai, **Church of the Assumption of the Virgin Mary*, east shore of Cook Inlet.
Kodiak, Kodiak Island, **Erskine House (Baranov Warehouse)*, Main Street and Mission Street.
Kodiak Island, *Three Saints Bay Archeological Site*, north of Cape Kasiak.
Kodiak vicinity, *Fort Abercrombie State Historic Site*, Kodiak Island.
Nikolski vicinity, **Chaluka Site*, Umnak Island, Aleutian Islands.
Palmer vicinity, *Independence Mines*, W of Palmer (10–6–74).
Port Graham vicinity, *Selenie Lagoon Archaeological Site*, NW of Port Graham (10–16–74).
Pribilof Islands, St. Paul Island, **Fur Seal Rookeries*.
Rip Rock vicinity, Hawkins Island, **Paluguik Site*, 3.75 miles east of Rip Rock on Prince William Sound.
Tangle Lakes Archeological District (see Interior District).
Wasilia vicinity, *Knik Site*, about 15 miles southwest of Wasilla on Knik Road (7–24–73).
Yukon Island, **Yukon Island Main Site*, Kachemak Bay, Cook Inlet.

Southeastern District

Haines, *Fort William H. Seward*, Port Chilkoot.
Juneau, *St. Nicholas Russian Orthodox Church*, 326 Fifth Street (9–19–73).
Ketchikan, *Alaska Totems*, between Park and Deermont Avenues.
Ketchikan vicinity, *Totem Bight State Historic Site*, west coast of Revillagigedo Island.
Metlakatla, *Duncan, Father William, House*, Fifth Avenue and Atkinson Street.
Sitka, *Alaska Native Brotherhood Hall, Sitka Camp No. 1*; Katlean Street.
Sitka, **American Flag Raising Site*, Castle Hill.
Sitka, *Russian Mission Orphanage*, Lincoln and Monastery Streets.
Sitka, **St. Michael's Cathedral*, Lincoln and Maksoutoff Streets.
Sitka, *Sheldon Jackson Museum*, Lincoln Street.
Sitka, Baranof Island, *Sitka National Monument*.
Sitka vicinity, **Old Sitka Site*, 6 miles north of Sitka on Starrigavan Bay.
Skagway vicinity, *Pleasant Camp*, Haines Highway on Canadian/Alaska border.
Skagway and vicinity, **Skagway Historic District and White Pass*, head of Taiya Inlet on Lynn Canal.
Wrangell, *Chief Shakes State Historic Site*, Shakes Island.
Yakutat vicinity, *New Russia Archeological Site*, southwest of Yakutat on Phipps Peninsula.

Southwestern District

Aleutians, *Ananiuliak Island Archeological District*.

American Samoa

Tutuila Island—Eastern District

Fagatoga, *Courthouse of American Samoa* (2–12–74).
Fagatoga, *Navy Building 38*.
Fagatoga, *Navy Building 43*.
Pago Pago, *Government House*, Togotoga Ridge.
Pago Pago Harbor, *Blunts Point Naval Gun*, Matautu Ridge at Tulutulu Point.

Western District

Aasu, at Massacre Bay.
Afao Village vicinity, *Atauloma Girls School*.
Leone Village vicinity, *Fagaicle Boys School*.

Arizona

Apache County

Chinle, *Canyon de Chelly National Monument*, east side of Chinle.
Ganado, *Hubbell Trading Post National Historic Site*, west side of Ganado.
Springerville vicinity, **Casa Malpais Site*, 2 miles north of Springerville.

Cochise County

Bisbee, *Phelps Dodge General Office Building*, Cooper Queen Plaza, intersection of Main Street and Brewery Gulch.
Bisbee vicinity, *Coronado National Memorial*, 30 miles southwest of Bisbee via Arizona 92 and secondary road.
Bisbee vicinity, **Lehner Mammoth-Kill Site*, 10 miles west of Bisbee.
Bowie vicinity, *Fort Bowie National Historic Site*, 13 miles south of Bowie.
Douglas vicinity, **Double Adobe Site*, 12 miles northwest of Douglas on the west bank of Whitewater Creek.
Douglas vicinity, **San Bernardino Ranch*, 17 miles east of Douglas on the international boundary.
Fairbank vicinity, *Quiburi*, north of Fairbank.
Sierra Vista, *Garden Canyon Petroglyphs*, Garden Canyon Road (7–30–74).
Sierra Vista vicinity, *Old Fort Huachuca*, 3.56 miles west of Sierra Vista (11–20–74).
Tombstone, *St. Paul's Episcopal Church*, Safford and Third Streets.
Tombstone, *Tombstone City Hall*, 315 East Fremont Street.
Tombstone, *Tombstone Courthouse (Cochise County Courthouse)*, 219 East Toughnut.
Tombstone, **Tombstone Historic District*.

Coconino County

Flagstaff vicinity, **Lowell Observatory*, 1 mile west of Flagstaff on Mars Hill.
Flagstaff vicinity, **Merriam C. Hart, Base Camp Site*, 20 miles northwest of Flagstaff, at Little Springs private enclave in Coconino National Forest.
Flagstaff vicinity, *Walnut Canyon National Monument*, 8 miles east of Flagstaff on U.S. 66.
Flagstaff vicinity, *Wupatki National Monument*, 30 miles north of Flagstaff off U.S. 89.
Grand Canyon, *El Tovar Hotel*, Grand Canyon National Park Route 8A (9–6–74).

Grand Canyon, *El Tovar Stables*, off Grand Canyon National Park Route 8A (9–6–74).
Grand Canyon, *Grand Canyon Railroad Station*, Grand Canyon National Park Route 8A (9–6–74).
Grand Canyon, *Grandview Mine*, Grand Canyon National Park (7–9–74).
Grand Canyon, *Hermits Rest Concession Building*, Grand Canyon National Park (8–7–74).
Grand Canyon, *Superintendent's Residence*, off Grand Canyon National Park Route 8A (9–6–74).
Grand Canyon, *Tusayan Ruins*, Grand Canyon National Park (7–10–74).
Grand Canyon *Water Reclaim Plant*, off Grand Canyon National Park Route 8A (9–6–74).
Winona vicinity, **Winona Site*, 5 miles northeast of Winona on U.S. 66, Coconino National Forest.

Gila County

Globe vicinity, **Roosevelt Dam*, Salt River, 31 miles northwest of Globe on Arizona 88 (also in Maricopa County).
Globe vicinity, *Tonto National Monument*, 28 miles northwest of Globe on Arizona 88.
Kohl's Ranch vicinity, *Zane Grey Lodge*, north of Kohl's Ranch off Arizona 260 (5–31–74).
Whiteriver vicinity, **Kinishba Ruins*, 15 miles west of Whiteriver via Arizona 73 and secondary road.

Graham County

Bonita vicinity, **Sierra Bonita Ranch*, southwest of Bonita.
Morenci vicinity, **Point of Pines*, 30 miles northwest of Morenci, San Carlos Indian Reservation.
Safford vicinity, *Kearny Campsite and Trail*, northeast of Safford off U.S. 666 (10–9–74).

Maricopa County

**Roosevelt Dam* (see Gila County).
Gila Bend vicinity, *Fortaleza*, Gila Bend Indian Reservation.
Gila Bend vicinity, **Gatlin Site*, 3 miles north of Gila Bend.
Phoenix, *Arizona State Capitol Building*, 1700 W. Washington (10–29–74).
Phoenix, **Hohokam-Pima Irrigation sites*, Park of the Four Waters.
Phoenix, *Phoenix Carnegie Library and Library Park*, 1101 W. Washington (11–19–74).
Phoenix, **Pueblo Grande Ruin*, Washington Avenue, Pueblo Grande City Park.
Phoenix, *Rosson, Dr. Ronald, House*, 139 North Sixth Street.
Scottsdale vicinity, *Taliesin West*, north of Shea Boulevard and 108th Street (2–12–74).
